Resolution No. PC-2022-21

EXHIBIT A

FINDINGS

- A. The proposed project complies with Costa Mesa Municipal Code Section 13-29(g)(2) because:

Finding: The proposed use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

Facts in Support of Findings: The proposed project includes the permanent approval of an existing temporary outdoor seating area that is currently operating without impacts to neighboring properties. The applicant proposes to remove the outdoor seating area when not in use by the restaurant, making all 25 on-site parking spaces available for use by the other tenants on-site. The proposed outdoor patio is currently operating without affecting other properties in the area and therefore the permanent approval of the outdoor seating is not anticipated to result in impacts to surrounding properties. Lastly, as proposed, the site will be in conformance with Code required parking requirements for the restaurant and maintain a surplus of customer parking with the implementation of offsite valet parking. The offsite parking location at 1645 Superior is located in close proximity to the restaurant use, has appropriate access and circulation, and will be utilized while the onsite carwash business is closed. In addition, the valet parking plan has been reviewed by the City's Transportation Division and would be implemented by a professional valet service operator.

Finding: Granting the conditional use permit will not be materially detrimental to the health, safety, and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

Facts in Support of Finding: The proposed project would not generate adverse noise or traffic impacts that are unusual for this zoning designation in that conditions of approval require the operation to be conducted in a manner that would allow for the quiet enjoyment of the surrounding neighborhood. Compliance with the applicable Building, Fire Safety and Health Codes will also ensure that the project is not materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

Finding: Granting the conditional use permit will not allow a use, density, or intensity which is not in accordance with the General Plan designation and any applicable specific plan for the property.

Facts in Support of Finding: Granting the conditional use permit will not allow a use, density or intensity, which is not in accordance with the general plan designation and the applicable Urban Plan for the property. In accordance with CMMC Section 13-93(m) and Section 13-96, off-site parking and valet parking may

be authorized with approval of a conditional use permit and as proposed with the off-site and valet parking, the use would maintain a parking surplus. In addition, the existing restaurant is a complementary use to the area, including the adjacent residential uses, and as conditioned, the restaurant does not generate noise or parking impacts unusual for an industrially-zoned property, and the current operations (which are essentially the same as proposed) do not adversely impact the surrounding uses. Lastly, the proposed project is consistent with applicable policies and objectives of the 2015-2035 General Plan as described below.

1. **Policy LU-1.1:** *Provide for the development of a mix and balance of housing opportunities, commercial goods and services, and employment opportunities in consideration of the needs of the business and residential segments of the community.*

Consistency: The proposed project upholds the balance of land uses satisfying the needs of the community as it pertains to commercial goods and services, and employment opportunities by providing for outdoor dining restaurant options.

2. **Policy LU-6.7:** *Encourage new and retain existing businesses that provide local shopping and services.*

Consistency: The proposed project would encourage the retention of an existing established restaurant within the City, thus encouraging the long-term productivity and viability of the community's economic base. The proposed project would expand an existing successful local land use, which contributes to the City's tax base and ultimately preserves the City's long-term fiscal health.

3. **Policy LU-6.19:** *Provide flexibility and support for development of residential, office, small retail centers, and similar uses that would serve local residents and would also benefit from the high visibility along major corridors outside of significant commercial or industrial nodes.*

Consistency: Approval of the project would provide permanent restaurant outdoor seating that is currently being conducted under an approved TUP without neighborhood impacts or other land use issues. In addition, the proposed restaurant is consistent with the intent of Land Use Policy LU-1.1 because it provides an outdoor dining experience that signals economic vitality on one of the City's commercial corridors.

- B. **Finding:** The project has been reviewed for compliance with the California Environmental Quality Act (CEQA), the CEQA Guidelines, and the City's environmental procedures. The project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) under Section 15301 for Existing Facilities. This exemption allows for the alteration and permitting involving negligible

or no expansion of an existing use. The proposed project involves approval of restaurant outdoor seating that is already operating under a temporary use permit and therefore complies with the CEQA Exemption. The project is also consistent with the applicable General Plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations.

- C. The project is exempt from Chapter XII, Article 3 Transportation System Management, of Title 13 of the Costa Mesa Municipal Code.
