Public notices shall contain a general explanation of the proposed planning application and any other information reasonably needed to give adequate notice of the matter to be considered.
- (1) **Mailed notice required.** Notices of the hearing shall be mailed to all property owners and occupants within a 500 foot radius of the project site, except for applications for the construction of a building(s) 150 feet or more in height which shall require a greater notice radius pursuant to Table 13-29(d):

More than 300	1,100-foot radius

The required notice radius shall be measured from the external boundaries of the property described in the application. The notice shall be mailed no less than 10 days prior to the hearing or determination on the application. The planning division shall require mailing labels from the project applicant for this purpose. The mailing labels shall reflect the last known name and address of owner(s) as shown on the last equalized county assessment roll or by a more current listing.

- (2) **On-site posting required.** Additional notice shall be provided by posting a notice on each street frontage of the project site, no less than 10 days prior to the date set for the hearing or determination on the application.
- (3) **Newspaper publication.** When a public hearing is required, notice shall also be published once in the city in a newspaper of general circulation, no less than 10 days prior to the date set for the public hearing.
- (e) **Review criteria.** Review criteria for all planning applications shall consist of the following:
- (1) Compatible and harmonious relationship between the proposed building and site development, and use(s), and the building and site developments, and uses that exist or have been approved for the general neighborhood.
  - (2) Safety and compatibility of the design of buildings, parking area, landscaping, luminaries and other site features which may include functional aspects of the site development such as automobile and pedestrian circulation.
  - (3) Compliance with any performance standards as prescribed elsewhere in this Zoning Code.
  - (4) Consistency with the general plan and any applicable specific plan.

- (5) The planning application is for a project-specific case and is not to be construed to be setting a precedent for future development.
  - (6) When more than one planning application is proposed for a single development, the cumulative effect of all the planning applications shall be considered.
  - (7) For residential developments, consistency with any applicable design guidelines adopted by city council resolution.
  - (8) For affordable multi-family housing developments which include a minimum of 16 affordable dwelling units at no less than 20 dwelling units per acre, the maximum density standards of the general plan shall be applied, and the maximum density shall be permitted by right and not subject to discretionary review during the master plan application process.
- (f) **Conditions.** The final review authority pursuant to Table 13-29(c), may impose reasonable conditions to assure compliance with the applicable provisions of this Zoning Code, and to assure compatibility with surrounding properties and uses and to protect the public health, safety and general welfare. The final review authority may also require such written guarantees, cash deposits, recorded land use restrictions, etc., as may be necessary to assure compliance with the conditions.
- (g) **Findings.** When granting an application for any of the planning applications specified below, the final review authority shall find that the evidence presented in the administrative record substantially meets any required conditions listed below. Other findings may also be required pursuant to other provisions of this Zoning Code.
- (1) Major modifications and variance findings:
    - a. Because of special circumstances applicable to the property, the strict application of development standards deprives such property of privileges enjoyed by others in the vicinity under identical zoning classifications.
    - b. The deviation granted shall be subject to such conditions as will assure that the deviation authorized shall not constitute a grant of special privileges inconsistent with the limitation upon other properties in the vicinity and zone in which the property is situated.
    - c. The granting of the deviation will not allow a use, density, or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.
  - (2) Conditional use permit and minor conditional use permit findings:
    - a. The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

- b. Granting the conditional use permit or minor conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.
  - c. Granting the conditional use permit or minor conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.
- (3) Density bonus and concession or incentive findings:
- a. The request is consistent with State Government Code section 65915 et. seq. regarding density bonuses and other incentives, the general plan, any applicable specific plan, and Chapter IX special regulations, Article 4 density bonuses and other incentives.
  - b. The requested density bonus and incentive or concession constitute the minimum amount necessary to provide housing at the target rents or sale prices and/or a child care facility.
  - c. The granting of the incentive or concession is required in order to provide for affordable housing costs, as defined in Health and Safety Code section 50052.5 or for rents for the targeted units.
  - d. The granting of the incentive or concession and/or the waiver or reduction of development standards does not have a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Government Code section 65589.5 upon health, safety, or the physical environment, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact.
  - e. The granting of the incentive or concession and/or the waiver or reduction of development standards does not have an adverse impact on any real property that is listed in the California Register of Historical Resources.
- (4) Lot line adjustment findings: The lot line adjustment and improvements are consistent with the general plan, any applicable specific plan and this Zoning Code.
- (5) Master plan findings:
- a. The master plan meets the broader goals of the general plan, any applicable specific plan, and the Zoning Code by exhibiting excellence in design, site planning, integration of uses and structures and protection of the integrity of neighboring development.
- (6) Minor modification findings:
- a. The improvement will not be materially detrimental to the health, safety and general welfare of persons residing or working within the immediate vicinity of the project or to property and improvements within the neighborhood.
  - b. The improvement is compatible and enhances the architecture and design of the existing and anticipated development in the vicinity. This includes the site planning, land coverage, landscaping, appearance, scale of structures, open space and any other applicable features relative to a compatible and attractive development.

- (7) Mobile home park conversion findings:
  - a. The impacts of the conversion on the residents of the mobile home park have been duly considered as required by the State Government Code.
  - b. The proposed conversion project is consistent with the general plan, any applicable specific plan and this Zoning Code.
- (8) Planned signing program findings:
  - a. The proposed signing is consistent with the intent of Chapter VIII, Signs, and the General Plan.
  - b. The proposed signs are consistent with each other in design and construction taking into account sign style and shape, materials, letter style, colors and illumination.
  - c. The proposed signs are compatible with the buildings and developments they identify taking into account materials, colors and design motif.
  - d. Approval does not constitute a grant of special privilege or allow substantially greater overall visibility than the standard sign provisions would allow.
- (9) Reasonable Accommodation findings: Refer to Chapter IX, Article 15.
- (10) Common interest development conversion findings:
  - a. The applicant has submitted an adequate and legally binding plan which addresses the displacement of long-term residents, particularly senior citizens and low- and moderate-income families and families with school-age children; and

- b. The proposed common interest development conversion project conforms to adopted general plan policies and any applicable specific plan or urban plan, and if applicable, increases the supply of lower cost housing in the city and/or that the proposed conversion project fulfills other stated public goals.
  - c. The establishment, maintenance, or operation of the project will not be detrimental to the health, safety, peace, comfort, and general welfare of persons residing or working in the surrounding neighborhood, nor will the project be detrimental or injurious to property and improvements in the neighborhood or the general welfare of the city.
  - d. The overall design and physical condition of the common interest development conversion project achieves a high standard of appearance, quality, and safety.
  - e. The proposed common interest development conversion project conforms to the Costa Mesa Zoning Code requirements.
  - f. For a proposed common interest development conversion project that does not conform to the zoning code requirements, the project due to its proportions and scale, design elements, and relationship to the surrounding neighborhood, is of continued value to the community and it contributes to defining and improving the community as a whole. Deviations from zoning code requirements are acceptable because it would be impracticable or physically impossible without compromising the integrity of the overall project to implement features that could result in conformance with current code requirements.
  - g. For a proposed common interest development conversion project located in an urban plan area, the proposed conversion is consistent with the applicable mixed-use overlay zoning district. Specifically, the proposed non-residential conversion project supports a mixed-use development or a similar land use that is not allowed in the base zoning district, or the proposed conversion project is a residential common interest development that is permitted by either the base or overlay zoning district.
- (11) Rezone findings: The proposed rezone is consistent with the Zoning Code and the general plan and any applicable specific plan.
- (12) Specific plan conformity review findings: Refer to the applicable specific plan text.
- (13) Tentative parcel or tract map findings:
- a. The creation of the subdivision and related improvements is consistent with the general plan, any applicable specific plan, and this Zoning Code.
  - b. The proposed use of the subdivision is compatible with the general plan.

- c. The subject property is physically suitable to accommodate the subdivision in terms of type, design and density of development, and will not result in substantial environmental damage nor public health problems, based on compliance with the Zoning Code and general plan, and consideration of appropriate environmental information.
- d. The design of the subdivision provides, to the extent feasible, for future passive or natural heating and cooling opportunities in the subdivision, as required by State Government Code section 66473.1.
- e. The division and development will not unreasonably interfere with the free and complete exercise of the public entity and/or public utility rights-of-way and/or easements within the tract.
- f. The discharge of sewage from this land division into the public sewer system will not violate the requirements of the State Regional Water Quality Control Board pursuant to Division 7 (commencing with State Water Code section 13000).

(h) **Decision.**

- (1) After the public hearing, if required, the final review authority may approve, conditionally approve or deny any application for the planning application based upon the standards and intent set forth in the applicable provisions of this Zoning Code. In the case of a denial, the applicant shall be notified of the circumstances of the denial.

(2) For planning applications which require the planning commission to make a recommendation to the final review authority, the authority shall not approve any major change or additions in any proposed planning application until the proposed change or addition has been referred to the planning commission for a report, unless the change or addition was previously considered by the planning commission. It shall not be necessary for the planning commission to hold a public hearing to review the referral. Failure of the planning commission to report to the final review authority within 40 days after the referral shall be deemed approval of the proposed change or addition.

(i) **Notice of decision.**

(1) Notice of the zoning administrator's decision shall be given within five days of the decision to the city council, planning commission and to any affected party requesting the notice. Any member of the planning commission or city council may request review of a zoning administrator's decision within seven days of the notice of the decision. No fee shall be charged for such review.

(2) Notice of the planning commission's decision shall be given within five days to the city council and to any affected party requesting the notice. Any member of the city council may request review of the decision within seven days of the notice of the decision. No fee shall be charged for such review.

(j) **Appeals.** Appeals of the final review authority shall be filed within seven days of the public hearing or the date of the notice of decision according to the procedures set forth in Title 2, Chapter IX, Appeal, Rehearing and Review Procedure.

(k) **Time limits and extensions.**

(1) Planning applications shall run with the land until revoked, except as provided in this section or in a condition imposed at the time of granting the planning application.

(2)

a. Unless otherwise specified by condition of approval, any permit or approval not exercised within 24 months from the actual date of review authority approval shall expire and become void, unless an extension of time is approved in compliance with paragraph (4) of this subsection;

b. The permit shall not be deemed "exercised" until at least one of the following has first occurred:

1. A building permit has been issued and construction has commenced, and has continued to maintain a valid building permit by making satisfactory progress as determined by the building official.
2. A certificate of occupancy has been issued.
3. The use is established and a business license has been issued.
4. A time extension has been granted in compliance with paragraph (3)

of this subsection.

- (3) The time limits specified in paragraph (2) of this subsection shall not apply to preliminary master plans, except that the first phase of the final master plan must be approved within 24 months of the approved preliminary master plan. Time limits regarding the construction of improvements authorized by the approved final master plan for each phase of the project shall comply with the time limits established in paragraph (2).
- (4) Extension of time.
  - a. *Filing and review of request.* No less than 30 days or more than 60 days before the expiration date of the permit, the applicant shall file a written request for an extension of time with the department, together with the filing fee established by resolution of the city council.
  - b. For extension requests not to exceed 180 days: The director of development services may extend the time for an approved permit or approval to be exercised. Only one request for an extension of 180 days may be approved by the director. Any subsequent extension requests shall be considered by the original approval authority.
  - c. For extensions requests of more than 180 days: The review authority for the original project shall consider the request to extend the time for an approved permit or approval to be exercised. A public hearing shall only be held if it was required on the original application. If notice was required for the original application, notice of the public hearing shall be given according to the procedures set forth in this chapter.
- (5) Fees for extensions of time for planning applications may be established by resolution of the city council.
- (6) Action on extension request. A permit or approval may be extended beyond the expiration of the original approval provided the director or the review authority finds that there have been no changes in the conditions or circumstances of the site, such as Zoning Code or General Plan amendment or other local and statewide regulations affecting the approved development standards, or project so that there would have been ground for denial of the original project or any changes to the General Plan and/or Zoning Code that would preclude approval of the same project at the time of the requested extension.
- (7) Effect of expiration. After the expiration of the permit or approval, no further work shall be done on the site and no further use of the site shall occur until a new permit or approval, or other city permits or approvals are first obtained. Fees for extensions of time for planning applications may be established by resolution of the city council.
- (1) ***Building permits/authority to proceed.*** No building permit or authority to proceed shall be granted until all required review and approval has been obtained and all

applicable appeal periods have expired.

- (m) **Compliance.** Final occupancy shall not be granted unless the site development conforms to the approved set of building plans, applicable conditions of approval and code requirements.
- (n) **Reapplication.** Upon final denial of any planning application, a new application for substantially the same planning application may not be filed within six months of the date of the denial. The development services director shall determine whether the new application is for a planning application which is substantially the same as a previously denied application. No decision of the development services director shall be effective until a period of seven days has elapsed following the written notice of a decision; an appeal of the decision shall be filed according to the procedures set forth in Title 2, Chapter IX, Appeal, Rehearing and Review Procedure.
- (o) **Enforcement authority.**
  - (1) The planning commission may require the modification or revocation of any planning application and/or pursue other legal remedies as may be deemed appropriate by the city attorney, if the planning commission finds that the use as operated or maintained:
    - a. Constitutes a public nuisance as defined in State Civil Code Sections 3479 and 3480; or
    - b. Does not comply with the conditions of approval.
  - (2) The modification or revocation of any permit by the planning commission under this subsection shall comply with the notice and public hearing requirements set forth in subsections (c) and (d). The development services director may require notice for a development review or minor modification, if deemed appropriate.
- (p) **Amendment to a planning application.** Any approved planning application may be amended by following the same procedure and fee schedule as required for the initial approval, with the exception of the following two instances:
  - (1) Minor amendments to conditional use permits shall be processed as minor conditional use permits; and
  - (2) Amendments to master plans which comply with section 13-28(f)(1) may be authorized by the planning division.
- (q) **Concurrent processing.** Unless otherwise stated in this Zoning Code, applications for proposed projects which require two or more planning application approvals may be processed concurrently. Final project approval shall not be granted until all necessary approvals have been obtained.

**CHAPTER IV  
CITYWIDE LAND USE MATRIX**

**§ 13-30. Purpose.**

The purpose of this chapter is to provide a comprehensive list of uses which are permitted, conditionally permitted, or prohibited in the various zoning districts, as represented by Table 13-30, Land Use Matrix. In evaluating a proposed use, the following criteria shall also be considered:

- (a) Uses determined as permitted may be subject to a discretionary review when construction is proposed, pursuant to Chapter III, Planning Applications.
- (b) Uses proposed in the planned development zones are subject to verification of consistency with the master plan adopted for planned development zones. A proposed use not expressly allowed by the adopted master plan may require additional discretionary review pursuant to Table 13-30, Land Use Matrix.
- (c) All listed uses in the matrix are subject to verification of compliance with density and floor area ratio limits, parking requirements and performance standards which may, in certain cases, prevent the establishment of the use.
- (d) Any proposed use not listed in the Land Use Matrix shall be reviewed by the development services director to determine its similarity to another listed use. If no substantial similarity exists, the proposed use shall require approval of a conditional use permit prior to establishment of the use.
- (e) For the purpose of Table 13-30, Land Use Matrix, the various zoning districts are labeled as follows:

Residential zones: R1, R2-MD, R2-HD, and R3

Commercial zones: AP, CL, C1, C2, C1-S, and TC

Industrial zones: MG and MP

Planned Development Residential zones: PDR-LD, PDR-MD, PDR-HD, and PDR-NCM

Planned Development Commercial zone: PDC Planned Development

Industrial zone: PDI

The Parking zone: P

Institutional and Recreational zones: I & R, I & R-S, and I & R-MLT

- (f) For zoning districts located in a specific plan area, please refer to the appropriate specific plan text to determine if any additional regulations related to land uses are applicable.
- (g) For the mixed-use overlay district located in an urban plan area, please refer to the appropriate urban plan text for additional regulations related to development standards and allowable land uses as applicable.

- (2) **Previously Identified Sites.** The provisions of this Section shall also apply to any non-vacant Housing Element Site that was identified in a prior Housing Element and any vacant Housing Element Site that was identified in two or more consecutive prior Housing Elements, consistent with Government Code Section 65583.2 Subsection (c). Such sites shall be subject to the minimum density and by-right approval standards established in this Section. Such sites are identified in the City's currently adopted Housing Element Sites Inventory, shown as Table

B-6: Sites to Accommodate Costa Mesa 2021-2029 RHNA or any future adopted Housing Element Sites Inventory to accommodate the City's RHNA.

- (3) **Exception.** The provisions of this Section shall not apply to residential projects or mixed-use projects having residential units located within the boundaries of the Fairview Development Center Specific Plan.

(c) **Severability and State Law Consistency.**

- (1) This Section is intended to be consistent with, and shall be interpreted and applied to comply with, all applicable requirements of State housing law, including Government Code Sections 65915(c)(3), 65583 and 65583.2 as those provisions may be amended from time to time, and any successor statutes. If any provision of this Section conflicts with State law, the applicable State law shall control.
- (2) If any provision of this Section, or its application to any person or circumstance, is held invalid or unenforceable by a court of competent jurisdiction, such invalidity or unenforceability shall not affect other provisions or applications of this Section that can be given effect without the invalid provision or application. The City Council declares that it would have adopted this Section and each provision, section, sentence, clause, and phrase thereof, irrespective of the fact that any one or more provisions may be declared invalid or unenforceable.

- (a) No property owner, motel operator or manager shall rent a room for a period that exceeds 30 consecutive days or 30 days within any sixty (6) consecutive day period, unless the property owner or motel operator has obtained a conditional use permit authorizing long-term occupancies pursuant to section 13-175.3.

Those pre-existing long-term occupancies may continue pursuant to the terms of the existing lease or agreement, until that tenancy terminates by its own terms under the law.
- (b) Whenever a long-term occupancy terminates, for whatever reason, the property owner/motel operator shall not re-lease that unit for a new long-term occupancy, except to the degree the motel will be in compliance with the requirements of this chapter.

**Title 13, Chapter IX, Article 15  
Reasonable Accommodations**

**§ 13-200.60 Purpose.**

It is the city's policy to provide reasonable accommodation in accordance with federal and state fair housing laws (42 USC § 3600 et seq., and Government Code § 12900 et seq.) for persons with disabilities seeking fair access to housing in the application of the city's zoning laws. The term "disability" as used in this article shall have the same meaning as the terms "disability" and "handicapped" as defined in the federal and state fair housing laws. The purpose of this article is to establish the procedure by which a person may request reasonable accommodation, and how the request is to be processed.

**§ 13-200.61 Applicability.**

Any person seeking approval to construct and/or modify residential housing for person(s) with disabilities, and/or operate a residential care facility, group home, or referral facility, which will substantially serve persons with disabilities may apply for a reasonable accommodation to obtain relief from a Zoning Code provision, regulation, policy, or condition which causes a barrier to equal opportunity for housing.

**§ 13-200.62 Reasonable Accommodations – Procedure.**

- (a) *Application required.* An application for a reasonable accommodation shall be filed and processed with the Planning Division. The application shall include the following information and be subject to the determinant factors required by this section.
- (b) *Submittal requirements.* The application shall be made in writing, and shall include the following information:
  - (1) The zoning code provision, regulation, policy, or condition from which accommodation is being requested;
  - (2) The basis for the claim that the individuals are considered disabled under state or federal law, and why the accommodation is necessary to provide equal opportunity for housing and to make the specific housing available to the individuals;
  - (3) Any other information that the director reasonably determines is necessary for evaluating the request for reasonable accommodation;
  - (4) Documentation that the applicant is: (a) an individual with a disability; (b) applying on behalf of one or more individuals with a disability; or (c) a developer or provider of housing for one or more individuals with a disability;
  - (5) The specific exception or modification to the zoning code provision, policy, or practices requested by the applicant;
  - (6) Documentation that the specific exception or modification requested by the applicant is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy the residence;

- (7) Any other information that is reasonably necessary to determine whether the grounds for reasonable accommodation identified in subsection (e) of this section and the findings in subsection (f) of this section can be made, so long as any request for information regarding the disability of the individuals benefited complies with fair housing law protections and the privacy rights of the individuals affected.
- (c) *Fees.* No application fee is required.
- (d) *Director action.* Within 60 days of receipt of a completed application, the director shall issue a written determination to approve, conditionally approve, or deny a request for reasonable accommodation, and the modification or revocation thereof in compliance with this chapter. Any appeal to reasonable accommodation request denial or conditional approval shall be heard with, and subject to, the notice, review, approval, and appeal procedures prescribed for any other discretionary permit.
- (e) *Grounds for reasonable accommodation.* The following factors shall be considered in determining whether to grant a requested accommodation:
- (1) Is the requested accommodation necessary to afford a disabled person an equal opportunity to use and enjoy a dwelling? To determine whether the accommodation is necessary, the director may consider, among other things: The nature of the disability including the special needs created by the disability, the physical attributes and setting of the property and structures, the potential benefit that can be accomplished by the requested accommodation, and alternative accommodations that may provide a comparable level of benefit.
  - (2) Is the requested accommodation reasonable? A requested accommodation is not reasonable if it would impose an undue financial or administrative burden on the City. It is also not reasonable if it would fundamentally alter a City program, such as the City's zoning scheme.
    - a. In considering the financial or administrative burden on the City, the director may consider, among other things, the extent to which the City would have to dedicate resources, such as staff time and funds, to grant the request and other requests like it.
    - b. In considering the potential alteration to a City program, such as the City's zoning scheme, the director may consider, among other things, the degree of deviation from the City's General Plan, if any, the purpose and nature of the particular zoning district, and with nearby uses. The director may also consider whether the requested accommodation would potentially have adverse external impacts on properties in the vicinity.
- (f) *Findings.* The written decision to approve, conditionally approve, or deny a request for reasonable accommodation shall be based on the following findings, all of which are required for approval. In making these findings, the director may approve alternative reasonable accommodations which provide an equivalent level of benefit to the applicant.
- (1) The requested accommodation is requested by or on the behalf of one or more individuals with a disability protected under the fair housing laws.

- (2) The requested accommodation is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy a dwelling.
- (3) The requested accommodation will not impose an undue financial or administrative burden on the city, as "undue financial or administrative burden" is defined in fair housing laws and interpretive case law. The determination of whether an accommodation poses an undue financial and administrative burden or whether a modification poses an undue financial and administrative burden must be made on a case-by-case basis and must consider various factors including:
  - a. The cost of the requested accommodation or the cost of a requested modification if the City is being requested to pay for the modification;
  - b. The financial resources of the person or persons who have a duty to provide the accommodation or the financial resources of the City if it is obligated to pay for the modification;
  - c. The benefits that a proposed alternative accommodation or modification would provide to the individual with a disability;
  - d. The availability of alternative accommodations or modifications that would effectively meet the disability-related needs of the individual with a disability;
- (4) The requested accommodation demonstrates scale and intensity of use comparable to adjacent and nearby uses.
- (5) The requested accommodation will not, under the specific facts of the case, result in a direct threat to the health or safety of other individuals or substantial physical damage to the property of others. The assessment of whether the specific accommodation in question poses a direct threat to the health or safety of others or would cause substantial physical damage to the property of others must be based on objective evidence, and not unsubstantiated inferences. The evidence must be sufficiently recent as to be credible. The assessment must consider:
  - a. The nature, duration, and severity of the risk of a direct threat to the health and safety of others or of substantial physical damage to the property of others;
  - b. The likelihood that a direct threat to the health or safety of others or substantial physical damage to the property of others will actually occur; and
  - c. Whether there are any additional or alternative reasonable accommodations that will eliminate the direct threat to the health or safety of others or substantial physical damage to the property of others.
- (6) If economic viability is raised by the applicant as part of the applicant's showing that the requested accommodation is necessary, then a finding that the requested accommodation is necessary to make facilities of a similar nature or operation economically viable in light of the particularities of the relevant market and market participants generally, not just for that particular applicant.

- (7) The requested accommodation will not result in a fundamental alteration in the nature of the City's zoning program.
- (g) The City may consider, but is not limited to, the following factors in determining whether the requested accommodation would require a fundamental alteration in the nature of the City's zoning program:
- (1) Whether the requested accommodation would fundamentally alter the character of the neighborhood.
  - (2) Whether the accommodation would result in a substantial increase in traffic or insufficient parking.
  - (3) Whether granting the requested accommodation would substantially undermine any express purpose of either the City's general plan or an applicable specific plan.
  - (4) Whether the requested accommodation would create an institutionalized environment due to the number of and distance between facilities that are similar in nature or operation.
  - (5) Any other factors that would cause a fundamental alteration in the city's zoning program, as may be defined in the Fair Housing Law.

**§ 13-200.63 Severability.**

Should any section, subsection, clause, or provision of this article for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this article; it being hereby expressly declared that this article, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This article shall be prospective in application from its effective date.

**Article 18  
Emergency Shelters**

**§ 13-200.79. Purpose and intent.**

The purpose of this article is to establish operational and development standards for emergency shelters to ensure that these uses are operated to address the homeless' needs and consistent with the requirements of sections 65582, 65583, and 65589.5 of the Government Code relating to local planning.

*Development standards.* The following development and operational standards shall apply to establishment of emergency shelters as defined by the Zoning Code; provided, however, that operational standards (1), (2), (4), (8), (10) and (13) shall not apply to emergency shelters owned, controlled and/or operated by the City of Costa Mesa.

- (1) The maximum length of stay shall not exceed 120 days in a 365-day period.
- (2) Each emergency shelter may have a maximum of 30 beds.
- (3) Off-site parking shall be provided at a parking rate of one parking space per employee during the largest shift, provided that the amount of parking required does not exceed the amount of parking required for any other residential or non-residential uses within the same zone.
- (4) Stays at an emergency shelter facility shall be limited to the hours of 5:00 p.m. and 8:00 a.m. the following day. Each emergency shelter shall provide an interior and exterior waiting area adequate to accommodate waiting clients and to prevent queuing into the public right-of- way. An exterior waiting area shall be physically separated and visually screened from the public right-of-way.
- (5) The emergency shelter facility shall provide an on-site resident manager on site at all times.
- (6) A minimum distance of 300 feet shall be maintained from another emergency shelter. The distance of separation shall be measured in a straight line between the property lines of each use without regard to intervening structures or objects.
- (7) The shelter operator shall provide minimum exterior lighting in compliance with the city's security requirements.
- (8) The shelter operator shall patrol a half-mile radius surrounding the shelter site during hours that the shelter is in operation to ensure that shelter clients and homeless individuals who have been denied access are not congregating in the neighborhood.
- (9) An operations plan shall be submitted for review and approval by the development services director and police chief prior to operation of the emergency shelter. The plan shall include minimum provisions related to on-site security and safety, staff training, loitering control, client eligibility, counseling services, and indoor and outdoor management of the facility.
- (10) No emergency shelter in the MP Industrial Park zone that is also located in an area subject to the jurisdiction of the airport land use commission shall commence operation until the commission either approves the action or permit pursuant to the procedures set forth in Public Utilities Code section 21676(b) or, if denied, the city overrules the commission's decision.

**Article 3**  
**Transportation System Management**

**§ 13-271 Purpose.**

The purpose of this article is to set forth the provisions for assuring an adequate transportation system in conjunction with new development.

(Ord. No. 97-11, § 2, 5-5-97)

**§ 13-272 Definitions.**

For the purpose of this article, the following definitions shall apply:

**Development project.** This article applies to the following development project approvals: general plan amendments, specific plans, master plans, rezones, development reviews, variances, use permits, major modifications, minor modifications and development agreements, unless otherwise exempted by section 13-276, Exemptions.

**Intersection.** The general area where two or more roadways join or cross.

**Measurable traffic.** A volume of traffic which will result in a 0.01 or greater increase in the peak period volume to capacity ratio at any given signalized intersection.

**Potentially deficient intersection.** An intersection identified in the general plan for which the standard level of service may not be feasible upon general plan buildout. The intersection volume to capacity ratios identified in the general plan shall not be exceeded for these intersections.

**Pro rata.** A proportionate share based on a development project's impacts.

**Standard level of service.** The standard level of service shall be level of service "D" or better (0.90 or less volume to capacity ratio) for all signalized arterial intersections within the city during peak hours Monday through Friday with the exception of those intersections identified as potentially deficient in the general plan. Levels of service shall be defined and computed using the Intersection Capacity Utilization (ICU) methodology.

**Transportation demand management program.** A series of required and/or voluntary actions which reduce the vehicle trip generation rate of a specific use or uses of land.  
(Ord. No. 97-11, § 2, 5-5-97)

**§ 13-273 Comprehensive transportation system improvement program.**

(a) Purpose. The comprehensive transportation system improvement program shall be adopted by resolution of the city council which addresses the cumulative impacts of development in a defined impact area. This program shall mandate circulation improvements, including freeway improvements, to ensure that the master plan of highways is constructed and that the standard level of service is achieved and will be maintained at all intersections in the defined impact area in accordance with the general plan. For those intersections identified as potentially deficient, the program shall identify the maximum improvements feasible in accordance with the general plan. The program shall address the funding, construction and maintenance of transportation facilities to implement the master plan of highways. The program shall be updated on an annual basis.

(b) Relationship to development fee program. The comprehensive transportation system improvement program shall be utilized to determine the pro rata share of the cost of necessary improvements attributable to development projects as described in section 13-274, Development fee program.

(c) Development phasing and performance monitoring report. Each year the city shall prepare a development phasing and performance monitoring report which shall be used to update the comprehensive transportation system improvement program.

(d) Interim approval procedure. Until such time as this program is adopted, development projects not exempted pursuant to section 13-276, Exemptions, may be approved if the city adopts findings that the development projects are consistent with the provisions of this article. (Ord. No. 97-11, § 2, 5-5-97)

### **§ 13-274 Development fee program.**

(a) Establishment of development impact fee program. A development impact fee program shall be established by resolution of the city council based on the comprehensive transportation system improvement program. The program shall set forth the basis for the fee as required by State Government Code section 66001. The program shall establish guidelines for payment, accounting, and refund of the fees collected as required by State Government Code Sections 66001, 66006 and 66007.

(b) Updates of fee. On an annual basis, the city council shall review this fee program, as required by State Government Code section 66002, to determine whether the fee amounts are reasonably related to the impacts of development projects and whether the described public facilities are still needed.

(c) Limited use of fees. The revenues raised by payment through this fee program shall be placed in a separate and special account and such revenues, along with any interest earnings on that account, shall be used solely to:

(1) Pay for the city's future construction of facilities or to reimburse the city for those facilities, described or listed in the program, constructed by the city with funds advanced by the city from other sources; or

(2) Reimburse developers who have been required or permitted to install such listed facilities to the extent the actual cost of the facilities installed by the developer exceeds the impact fee obligation of the development project.

(d) Developer construction of public facilities. Whenever the conditions of approval of a development project require direct construction of a public transportation facility (see section 13-275(c), Development project review procedures) described or listed in the comprehensive transportation system improvement program, a credit or reimbursement, as applicable, shall be given against the development impact fee, which would have been charged to the development project under the program, for actual construction costs incurred by the developer. The reimbursement and/or credit amount shall not include any improvements the city can require from the development project under the Subdivision Map Act, or the portion of the improvement deemed to be an on-site improvement that is not included in the comprehensive transportation system improvement program.

(e) Fee adjustments. A developer of any development project subject to the fee program provided in this article may apply to the city council for:

(1) A waiver of the fee, or portion of the fee, based upon adequate documentation of the absence of any reasonable relationship or nexus between the circulation impacts of that development project and either the amount of the fee charged or the type of facilities to be financed; or

(2) A reduction of the fee based upon the implementation of a transportation demand management program, as described in section 13-275(d), Development project review procedures.

(3) The application for a fee waiver shall be made in writing and filed with the city clerk not later than:

a. 10 days prior to the public hearing on the development permit application for the project; or

b. If no development permit is required, at the time of the filing of the request for a building permit.

(4) The application shall state in detail the factual basis for the claim of waiver. The city council shall consider the application at the public hearing on the permit application held within 60 days after the filing of the application. The decision of the city council shall be final. If a waiver is granted, any change in use or increase in building intensity within the development project shall invalidate the waiver of the fee, and the developer shall be obligated to pay the full amount of the fee attributed to the development project, including the change in use or increase in intensity, as provided by this article.

(f) Fee refunds. A refund shall be made when a building permit expires and no extensions have been granted for a development project for which the funds have been collected and the development project has not been constructed.

(g) Fees for phased development projects. Where there is a requirement imposed upon a phased development project pursuant to this article for the payment of traffic impact fees into a comprehensive transportation system improvement program, such fees may be payable on a pro rata basis as each phase of the project is completed, in conjunction with the improvements accomplished.

(Ord. No. 97-11, § 2, 5-5-97)

### **§ 13-275 Development project review procedures.**

(a) Traffic study required. A traffic impact study shall be required for all development projects estimated by the public services director to generate 100 or more vehicle trip ends during a peak hour. Traffic studies may also be required for smaller projects at the discretion of the public services director. The cost of the study shall be paid for by the developer. The study area and number of intersections to be analyzed shall be determined by the public services director and the study area shall be reasonably related to the estimated impacts attributed to the development project. The traffic study shall also identify mitigation measures that are reasonably related to the development project's traffic impacts.

(b) Mitigation measures. Mitigation measures for development projects shall consist of either payment of a development impact fee and/or construction of circulation improvements. The necessary circulation improvements may be designed and constructed by the developer as determined by the city. These mitigation measures shall be incorporated as conditions of the development project's approval. Table 13-275 indicates the criteria for either requiring payment of a development impact fee and/or construction of circulation improvements.

(c) Approval criteria. A development project may be approved if as a condition of approval it is required to construct a circulation improvement and/or pay a development impact fee, as shown in Table 13-275, and if a finding is made that the development project's impacts will be mitigated at all affected intersections within three years of issuance of the first building permit for the development project, as described in subsection (b), unless additional right-of-way or coordination with other government agencies is required to complete the improvement. If right-of-way acquisition or coordination with other governmental agencies delays the improvement construction, appropriate measures shall be taken to ensure that the improvement construction occurs in a timely manner. Circulation improvements may be required sooner if, because of extraordinary traffic generation characteristics of the development project or extraordinary impacts to the surrounding circulation system, the circulation improvements are necessary to prevent significant adverse impacts. For phased development projects, the construction of circulation improvements may be phased as well based upon the findings of the traffic study.

When a development project affects a potentially deficient intersection, the development project's impacts shall be mitigated such that the intersection volume to capacity ratios identified in the general plan shall not be exceeded.

(d) Transportation demand management program. Where a transportation demand management program is used to reduce vehicle trips related to a development project, the program shall comply with the following:

(1) A conditional use permit for the development project and program must be approved by the planning commission consistent with the requirements of subsection (c). An annual report shall be prepared for the city at the expense of the property owner, to show whether the vehicle trip reduction identified in the program has been achieved and maintained.

(2) If the annual report demonstrates that the vehicle trip reductions identified in the program have not occurred, the conditional use permit shall be reevaluated and additional conditions imposed by the planning commission in order to meet the requirements of this article.

(3) The traffic impact development fees required under this article shall be based on the trip generation forecast without consideration of estimated reductions associated with a transportation demand management program. An application for a fee reimbursement may be approved by the city council pursuant to section 13-274(e), Development fee program, based upon documentation of average annual trip reduction over a three-year period as reported in the annual monitoring report referenced in section 13-273(c), Comprehensive transportation system improvement program.

(e) Change of use. Each development project approved under this article shall be reevaluated by the public services director when any change in use occurs which may increase the project's traffic generation. The purpose of this reevaluation is to assure that traffic capacity is available in the transportation system. Any increase in traffic generation by the change of use shall be subject to review by the appropriate reviewing authority who may impose additional conditions on the development project for the mitigation of the increased traffic generation.

TABLE 13-275 DEVELOPMENT IMPACT CRITERIA				
PROJECT DEVELOPMENT SIZE	INTERSECTION CONDITION	ICU INCREASE <sup>1</sup>	MITIGATION MEASURE(S)	INTENT OF MITIGATION MEASURE(S)
Projects generating less than 100 peak hour trip ends	Adequate (Standard Level of Service or better) OR Deficient (exceeds Standard Level of Service)	Less than 1%	Payment of impact fee	Contribute to implementation of the Comprehensive Transportation System Improvement Program
		1% or greater		
Projects generating 100 or more peak hour trip ends	Adequate (Standard Level of Service or better) OR Deficient (exceeds Standard Level of Service)	Less than 1%	Payment of impact fee	Contribute to implementation of the Comprehensive Transportation System Improvement Program
		1% or greater	Payment of impact fee and improvement construction by developer under conditions listed in footnote #2	Contribute to implementation of the Comprehensive Transportation System Improvement Program and mitigate development project's impacts

1 ICU = Intersection Capacity Utilization

2 When the project contributes 50% or more of the incremental impact at the intersection and all of the improvements identified in the general plan at the subject location are required as mitigation. If all of the improvements identified in the general plan are not required as mitigation, then only the improvements determined necessary by the public services director shall be constructed by the developer.

(Ord. No. 97-11, § 2, 5-5-97)

**§ 13-276 Exemptions.**

(a) Exempt development projects. Projects which fall within any of the categories listed below shall be exempt from the provisions of this article:

(1) Any residential construction that does not increase the number of permanent housing units on the lot where the construction takes place, such as remodeling or rebuilding an existing house or units. Second units are also exempt.

(2) Any industrial or commercial construction that neither increases the footprint nor square footage or changes the use on the lot where the construction takes place, such as remodeling or rebuilding an existing structure, and does not increase peak hour trip generation.

(3) Public benefit facilities limited to public libraries, public administration facilities, public parks, public utilities, schools and related facilities.

(4) Facilities serving the health and safety of the public, limited to hospitals, police, fire and safety facilities.

(Ord. No. 11-10, § 1, 9-20-11)

**Title 13, Chapter XV,  
Group Homes**

**§ 13-310 Purpose.**

This chapter is intended to preserve the residential character of single-family residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things: (1) ensuring that group homes are actually entitled to the special accommodation and/or additional accommodation provided under the Costa Mesa Municipal Code and not simply skirting the city's boarding house regulations; (2) limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate on street parking; (3) providing an accommodation for the handicapped that is reasonable and actually bears some resemblance to the opportunities afforded non-handicapped individuals to use and enjoy a dwelling unit in a single-family neighborhood; and (4) to provide comfortable living environments that will enhance the opportunity for the handicapped and for recovering addicts to be successful in their programs.

**§ 13-311 Special use permit required.**

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

- (1) An application for a group home is submitted to the director by the owner/operator of the group home. The application shall provide the following:
  - i. The name, address, phone number and driver's license number of the owner/operator;
  - ii. If the applicant and/or operator is a partnership, corporation, firm or association, then the applicant/operator shall provide the additional names and addresses as follows and such persons shall also sign the application:
    - a. Every general partner of the partnership,
    - b. Every owner with a controlling interest in the corporation,
    - c. The person designated by the officers of a corporation as set forth in a resolution of the corporation that is to be designated as the permit holder;
  - iii. The license and permit history of the applicant(s), including whether such applicant(s), in previously operating a similar use in this or another city, county or state under license and/or permit, has had such license and/or permit revoked or suspended, and the reason therefor;
  - iv. The name, address, phone number and driver's license number of the house manager;
  - v. A copy of the group home rules and regulations;
  - vi. Written intake procedures;

- vii. The relapse policy;
- viii. An affirmation by the owner/operator that only residents (other than the house manager) who are handicapped as defined by state and federal law shall reside at the group home;
- ix. Blank copies of all forms that all residents and potential residents are required to complete; and
- x. A fee for the cost of processing of the application as set by resolution of the city council.

No person shall open a group home with an operator or begin employment with a group home until this information has been provided and such persons shall be responsible for updating any of this information to keep it current.

- (2) The group home has six or fewer occupants, not counting a house manager, but in no event shall have more than seven occupants. If the dwelling unit has an accessory dwelling unit, occupants of both units will be combined to determine whether or not the limit of six occupants has been exceeded.
- (3) The group home shall not be located in an accessory dwelling unit unless the primary dwelling unit is used for the same purpose.
- (4) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a 24 hour basis and who are responsible for the day-to-day operation of the group home.
- (5) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles.
- (6) Occupants must not require and operators must not provide "care and supervision" as those terms are defined by Health and Safety Code section 1503.5 and section 80001(c)(3) of Title 22, California Code of Regulations.
- (7) Integral group home facilities are not permitted. Applicants shall declare, under penalty of perjury, that the group home does not operate as an integral use/facility.
- (8) If the group home operator is not the property owner, written approval from the property owner to operate a group home at the property.
- (9) The property must be fully in compliance with all building codes, municipal code and zoning.
- (10) At least 48 hours prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall:
  - i. Notify the person designated as the occupant's emergency contact or contact of record that the occupant will no longer be a resident at the home;

- ii. Contact the Orange County Health Care Agency OC Links Referral Line and/or another entity designated by the City to determine the services available to the occupant, including, but not limited to, alcohol and drug inpatient and outpatient treatment;
  - iii. Notify the city's Network for Homeless Solutions that an occupant is no longer a resident at the home, and determine the services available therefrom;
  - iv. Provide the information obtained from paragraphs ii and iii of this subsection (a)(10) and any other treatment provider or service to the occupant prior to his or her release on a form provided by the City and obtain the occupant's signed acknowledgement thereon;
  - v. Provided, however, that if the occupant's behavior results in immediate termination of residency pursuant to rules approved by the City as part of the special use permit for that facility, the operator shall comply with paragraphs i through iv of this subsection (a)(10) as soon as possible.
- (11) Prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall also:
- i. Make available to the occupant transportation to the address listed on the occupant's driver license, state-issued identification card, or the permanent address identified in the occupant's application or referral to the group home;
  - ii. Provided, however, that should the occupant decline transportation to his or her permanent address or otherwise has no permanent address, then the operator shall make available to the occupant transportation to another group home or residential care facility that has agreed to accept the occupant.
- (12) The group home operator shall maintain records for a period of one year following eviction from or involuntary termination of residency of an occupant that document compliance with subsections (a)(10) and (a)(11) of this section; provided, however, that nothing herein shall require an operator of a group home to violate any provision of state or federal law regarding confidentiality of health care information. The group home operator may not satisfy the obligations set forth in subsection (a)(11) of this section by providing remuneration to the occupant for the cost of transportation.
- (13) All drivers of vehicles picking up or dropping off persons at a group home shall comply with all applicable provisions of this Code and the Vehicle Code, including, but not limited to, those provisions regulating licensure and parking, standing and stopping.
- (14) In addition to the regulations outlined above, the following shall also apply to sober living homes:
- i. The sober living home is not located within 650 feet, as measured from the closest property lines, of any other sober living home or a state licensed alcoholism or drug abuse recovery or treatment facility.
  - ii. All occupants, other than the house manager, must be actively participating in legitimate recovery programs, including, but not limited to, Alcoholics Anonymous or

Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rules and regulations, refusal to actively participate in such a program shall be cause for eviction.

- iii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least 90 days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.
  - iv. The number of occupants subject to the sex offender registration requirements of Penal Code section 290 does not exceed the limit set forth in Penal Code section 3003.5 and does not violate the distance provisions set forth in Penal Code section 3003.
  - v. The sober living home shall have a written visitation policy that shall preclude any visitors who are under the influence of any drug or alcohol.
  - vi. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.
  - vii. The sober living home shall not provide any of the following services as they are defined by section 10501(a)(6) of Title 9, California Code of Regulations: detoxification; educational counseling; individual or group counseling sessions; and treatment or recovery planning.
- (15) An applicant may seek relief from the strict application of this section by submitting an application to the director setting forth specific reasons as to why accommodation over and above this section is necessary under state and federal laws, pursuant to section 13-200.62.
- (b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least 10 days prior to issuing a special use permit, the director shall cause a courtesy written notice to be mailed to the owner of record and occupants of all properties within 100 feet of the location of the group home. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be revoked upon a hearing, by the director if any of the following circumstances exist:

- (1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information;
- (2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.
- (3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven to 10 years, to any of the following offenses:
  - i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last 10 years);
  - ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven years); or
  - iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last 10 years).
  - iv. The unlawful sale or furnishing of any controlled substances (last seven years).
- (4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.
- (5) The owner/operator accepts residents, other than a house manager, who are not handicapped as defined by the FHAA and FEHA.
- (6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:
  - i. Any owner/operator or staff person of a sober living home is a recovering drug or alcohol abuser and upon the date of application or employment has had less than one full year of sobriety.
  - ii. The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.
  - iii. The sober living home, as measured by the closest property lines, is located within 650 feet of any other sober living home or state licensed alcoholism or drug abuse recovery or treatment facility. If a state-licensed alcoholism or drug abuse recovery or treatment facility moves within 650 feet of an existing sober living home this shall not cause the revocation of the sober living home's permit or be grounds for denying a transfer of such permit.
- (7) For any other significant and/or repeated violations of this section and/or any other applicable laws and/or regulations, including, but not limited to, failure to comply with the provisions of subsections (a)(10) through (13).

- (8) Revocation shall not apply to any group home, which otherwise would cause it to be in violation of this section, that has obtained a reasonable accommodation pursuant to section 13-200.62.

**§ 13-312 Compliance.**

- (a) All group homes which are subject to this Chapter shall comply with the provisions hereof regardless of when they commenced operations.

**§ 13-313 Severability.**

Should any section, subsection, clause, or provision of this chapter for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this chapter; it being hereby expressly declared that this Ordinance, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This chapter shall be prospective in application from its effective date.

**Title 13, Chapter XVI,  
Group Homes in the R2-MD, R2-HD and R3 Residential Zones and the PDR-LD, PDR-MD,  
PDR-HD, PDR-NCM, PDC, and PDI (Planned Development Zones)**

**§ 13-320 Purpose.**

This chapter is intended to preserve the residential character the City of Costa Mesa's residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things:

- (a) Ensuring that group homes are actually entitled to the special accommodation and/or additional accommodation provided under the Costa Mesa Municipal Code and not simply skirting the city's boarding house regulations;
- (b) Limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate off-street parking;
- (c) Providing an accommodation for the handicapped that is reasonable and actually bears some resemblance to the opportunities afforded non-handicapped individuals to use and enjoy a dwelling unit in a residential neighborhood; and
