EXHIBIT A

FINDINGS

- A. The proposed project complies with Costa Mesa Municipal Code Section 13-29(g)(2) because:

Finding: The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

Facts in Support of Findings: The subject site is located within a commercial zone (C1, Local Business District) where commercial development is specifically allowed to include retail storefronts. In addition, the property is located on one of the City's primary commercial corridors which is predominantly intended for commercial uses. Pursuant to the CMMC, cannabis retail storefronts and non-storefronts (delivery) are permitted uses in the City's commercial zones and are subject to extensive regulation (as specifically described in this report). These regulations are adopted to prevent land use inconsistencies with adjacent properties. Additionally, the proposed cannabis retail storefront use is not located within 1,000 feet of a K-12 school, playground, licensed child daycare, or homeless shelter, or within 600 feet of a youth center. All retail sales would take place underroof and no outdoor storage or sales are proposed nor would be allowed. Staff does not anticipate that the proposed retail cannabis use would be materially detrimental to the adjacent uses that include offices, hardware store/lumber yard and an automobile dealership.

The proposed use would also not be materially detrimental to the abutting residences because the site features a block wall buffer, mature landscaping, limited operation hours and proposes to add security lighting shielded down and away from homes to prevent potential lighting impacts. The posting of signs within the parking lot to remind customers and vendors to keep noise levels to a minimum is also required. There would also be a security guard present onsite at all times to monitor the site, including interior and exterior conditions. Lastly, the storefront business would also include parking and odor control measures as described in this report to avoid impacts to nearby properties. As proposed and conditioned, the retail cannabis use would be compatible with other properties within the area, and in compliance with local and State requirements.

Finding: Granting the conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

Facts in Support of Finding: The proposed cannabis retail storefront with delivery use would follow safety measures detailed in a professionally-prepared security plan. The security plan was evaluated for compliance by the City's cannabis consultant, HdL. Measures designed to maintain safety at the site include, but are not limited to, having at least one security guard onsite at all times and the security guard will monitor all on-site delivery/vendor operations. Additionally, security devices shall be installed before operation, such as window and door alarms, motion-detectors, and a monitored video surveillance system covering all exterior entrances, exits, all interior limited access spaces, and designated employee/vendor parking spaces. In addition, all employees, including delivery drivers and part-time staff, must pass a live scan background check and obtain an identification badge from the City. The conditions of approval include, but are not limited to, the aforementioned security measures to ensure that the use would not be materially detrimental to the health, safety and general welfare of the public or be otherwise injurious to property or improvements within the immediate neighborhood.

Finding: Granting the conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

Facts in Support of Finding: The proposed retail use is located within an existing commercial building on a property that has a General Plan land use classification of "General Commercial." No additional square footage is proposed; therefore, approving the CUP would not increase site intensity. As stated in the General Plan Land Use Element, the City's commercial designations "accommodate the full range of commercial activity present and desired in Costa Mesa." The use is consistent with General Plan policies related to providing a mixture of commercial goods, services, and employment opportunities; expanding the City's tax base; and promoting the incubation of unique and specialized businesses.

- B. The project is categorically exempt from the provisions of CEQA pursuant to CEQA Guidelines Section 15301 for the permitting and/or minor alteration of Existing Facilities, involving negligible or no expansion of the existing use. This project site contains an existing commercial building that has been used for commercial activities and the application does not propose an increase in floor area or otherwise expand the prior commercial use. The project is consistent with the applicable General Plan land use designation and policies as well as with the applicable zoning designation and regulations.
- C. The project is subject to a traffic impact fee, pursuant to Chapter XII, Article 3 Transportation System Management, of Title 13 of the Costa Mesa Municipal Code.

EXHIBIT B
