Subject: Support for the Fairview Park Master Plan Update

Dear Costa Mesa Mayor, City Council, City Staff, Fairview Park Steering Committee, and PACS Commissioners:

As a Californian concerned about the rare coastal natural resources of Fairview Park, I support the Draft Fairview Park Master Plan Update. It presents scientific findings that uphold the general public's wishes for Fairview Park to prioritize habitat protection, restoration, and low-impact recreation.

Airplane flying and illegal trail use have high impacts on habitats and are incompatible activities.

I support the recommendations made by the City's Master Planning expert consultants, the Fairview Park Steering Committee, the PACS commission, the resource agencies, and requirements of Federal law, to protect rare wildlife by stopping destructive glider and off-trail use and to preserve the seven miles of trails for low-impact recreation in the Master Plan Update.

Please also allocate more funding to Fairview Park to increase illegal activity enforcement.

Thank you for considering my views.

Sincerely,

Violet Ouyang

Arcadia, CA 91006

Subject: Support for the Fairview Park Master Plan Update

Dear Mayor Stephens, City Council, City Staff, Fairview Park Steering Committee, and
PACS Commissioners:

Friends of Harbors, Beaches and Parks (FHBP) is an Orange County nonprofit organization with a stated mission "to promote, protect, and enhance the harbors, beaches, parks, trails, open spaces, natural preserves, and historic sites in Orange County." We respectfully submit this letter regarding the proposed Fairview Park Master Plan Update. The update presents scientific findings that uphold the general public's wishes for Fairview Park to prioritize habitat protection, restoration, and low-impact recreation.

Airplane flying and illegal trail use have high impacts on habitats and are incompatible activities for Fairview Park.

We support the recommendations made by the City's Master Planning expert consultants, the Fairview Park Steering Committee, the PACS commission, the resource agencies, and requirements of federal law to protect rare wildlife by stopping destructive glider and off-trail use and to preserve the seven miles of trails for low-impact recreation as proposed in the Master Plan Update.

Also, we urge the City to allocate more funding to Fairview Park to increase enforcement against illegal activities.

Thank you for considering our concerns.

Sincerely,

Michael Wellborn, President

Subject: Support for the Fairview Park Master Plan Update

Costa Mesa Mayor, City Council, City Staff, Fairview Park Steering Committee, and PACS Commissioners,

I support the Draft Fairview Park Master Plan Update. It presents clear, scientific findings that uphold the public's wishes for Fairview Park to prioritize habitat protection, restoration, and low-impact human use.

Glider airplane flying and illegal trail use have high impacts on habitats and are incompatible, destructive activities at Fairview Park.

I support the recommendations made by the City's Master Planning expert consultants, the Fairview Park Steering Committee, the PACS commission, the resource agencies, and requirements of Federal law, to protect habitats by stopping high impact glider and off-trail activities, and preserve the 7 miles of trails for low-impact human recreation in the Master Plan Update.

Please allocate more funding to Fairview Park to increase illegal activity enforcement.

Thank you,

[Your Name, City]

Subject: Fairview Park...

To All Concerned:

I—as well as a majority of the public---support the Draft Fairview Park Master Plan Update...

Please prioritize habitat protection by forbidding the Harbor Soaring Society from using this sensitive habitat..

Do the right thing—don't give in to a small minority whose actions will eliminate the purpose of this Park...

Biologists, State and Federal resource agencies, and Federal law all agree on Fairview Park's designation as natural habitat for "passive" human use and that HSS activities will disrupt and destroy this natural habitat...

Please find or direct HSS to another appropriate area for their activities...

Sincerely,

Kent Morris

Subject: Support for the Fairview Park Master Plan Update

Costa Mesa Mayor, City Council, City Staff, Fairview Park Steering Committee, and PACS Commissioners,

I'm writing in support of the Draft Fairview Park Master Plan Update. The wishes of the public are clear regarding Fairview Park. They want habitat protection, restoration, and low impact human use prioritized, and the Draft Master Plan, as written, achieves those important goals.

I also support the recommendations made by the City's Master Planning consultants, the Fairview Park Steering Committee, the PACS Commission, the resources agencies, and the requirements of Federal law, to protect habitats by stopping high impact glider and off-trail activities, and I agree that the 7 miles of trails for low-impact activities in the Master Plan Update should be preserved.

Finally, I strongly urge the allocation of more funding to Fairview Park to increase the enforcement of illegal activity.

Thank you,
Suzanne Forster, Newport Beach

Subject: Protect Our Wildlife at Fairview Park!

Dear Mayor Stephans, Costa Mesa City Council, City Staff, Fairview Park Steering Committee, and PACS Commissioners,

My name is Lily Turner and I am a life-long resident Costa Mesa. Fairview Park is one of my favorite things about our beautiful city. Growing up, it provided the perfect place to play with friends and host gatherings such as birthdays and later graduation picnics. Today, it is a place where I find refuge from our busy and often stressful world. The local flora and fauna of Fairview Park gives me so much joy and that is why I support the Draft Fairview Park Master Plan Update. I have been so heartened in recent years with the restoration projects that have been going on to protect our little pocket of nature in Costa Mesa. Fairview Park is one of the few remaining parks with Coastal Sagebrush ecology and the updated Master Plan would further restore and protect the park and its protected species. That said, glider airplane flying and illegal trail use and fishing have high impacts on habitats and are incompatible, destructive activities at Fairview Park. That is why I support the recommendations made by the City's Master Planning expert consultants, the Fairview Park Steering Committee, the PAC commission, the resource agencies, and requirements of Federal law, to protect habitats by stopping high impact glider and off-trail activities and preserve the 7 miles of trails for low-impact human recreation in the Master Plan Update.

Please allocate more funding to Fairview Park to increase illegal activity enforcement.

Thank you,
Lily Turner, Costa Mesa
