- **Community Opposition –** As a part of the Housing Element Update, the City hosted a variety of community engagement opportunities to gather feedback and input related housing needs. A large number of community members identified an overall objection to new housing in the City, specifically higher income housing. Traditionally, affordable housing and higher density residential projects receive community pushback or opposition. However, outreach and education can help to shift negative views of additional housing in a positive manner.

- **Lack of Investment in Specific Neighborhoods –** The TCAC map identified census tract: 06059063605 as an area of high segregation and poverty (**Figure 3-5b**); meaning the demographics of this tract are consistent with the standards for both poverty (30% of the population below the federal poverty line) and racial segregation. Additionally, this census tract is scored as lowest opportunity in civic life, health, mobility, housing, economy, and education by the UC Davis ROI: People (**Figure 3-8**), which is a relative measure of people's assets in a census tract. While the area was scored as low opportunity for resident assets, it was scored highest opportunity for Place (**Figure 3-9**), meaning the geographic area has high assets and opportunity in education, economic, housing, mobility, health and civic life. The census tract is also identified as having less positive educational outcomes by the TCAC-Education map (**Figure 3-12**) and the highest exposure to harmful pollutants according to the CalEnviro Screen (**Figure 3-14**). Combined data shows that conditions in this area may exacerbate existing segregation trends, low opportunity for community and resident enhancement and upward mobility and that there may be overall lack of public investment in the area.

- **Displacement of Residents Due to Economic Pressures –** The data in the RCAA analysis (**Figures 3-6** through **3-7**) show that there are ten census tracts which meet the criteria for a racially concentrated area of affluence (RCAA). The definition for an RCAA is a census tract in which 80 percent or more of the population is White and has a median income of at least $125,000. The RCAAs are located in the highest resource and highest opportunity areas and are also within areas with the lowest exposure to harmful pollutants. If RCAA expand and gentrification occurs across the city, lower income households are at risk of displacement due to economic pressures and potential changing or increasing costs in housing and essential retail.

7. Analysis of Sites Pursuant to AB 686

AB 686 requires that jurisdictions identify sites throughout the community in a manner that is consistent with its duty to affirmatively further fair housing. The site identification requirement involves not only an analysis of site capacity to accommodate the RHNA (provided in **Appendix B**), but also whether the identified sites serve the purpose of replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity.

Figures 3-24 through 3-29 below identify the sites to accommodate future housing, as identified in the adequate sites analysis, overlaid on demographic data using the 2019 American Community Survey 5-Years Estimates.

- Figure 3-24 – Costa Mesa Proposed RHNA Sites, Hispanic/Latino, 2019
- Figure 3-25– Costa Mesa Proposed RHNA Sites, Non-White Population, 2019
- Figure 3-26 – Costa Mesa Proposed RHNA Sites, Low and Moderate Income, 2019
- Figure 3-27 – Costa Mesa Proposed RHNA Sites, R/ECAP Areas, 2019
- Figure 3-28 – Costa Mesa Proposed RHNA Sites, RCAAs, 2019
- Figure 3-29 – Costa Mesa Proposed RHNA Sites, TCAC Opportunity Areas, 2019

Figure 3-24 shows the proposed candidate sites to meet the RHNA for Costa Mesa in relation to the location of residents of Hispanic origin. These sites take into consideration access to vital goods, services, and public transportation and are therefore ideal areas for the City to focus much of its future housing growth. It is anticipated that accessory dwelling unit (ADU) growth, including growth for affordable ADUs, will occur in the less dense areas of the community. Figure 3-24 shows the following findings:

- 22 proposed sites to accommodate the RHNA allocation (totaling 10,385 potential units, or 62.3% of the total potential units) are located within block groups that have a percentage of the population that identifies as Hispanic which is less than 20 percent. Of those units, 2,028 are proposed as affordable to low and very low incomes.
- 29 proposed sites to accommodate the RHNA allocation (totaling 3,594 potential units, or 21.6% of the total potential units) are located within block groups that have a percentage of the population that identifies as Hispanic between 20 and 40 percent. Of those units, 1,288 are proposed as affordable to low and very low incomes.
- 29 proposed sites to accommodate the RHNA allocation (totaling 1,697 potential units, or 10.2% of the total potential units) are located within block groups that have a percentage of the population that identifies as Hispanic between 40 and 60 percent. Of those units 524 are proposed as affordable to low and very low incomes.
- 7 proposed sites to accommodate the RHNA allocation (totaling 207 potential units, or 1.2% of the total potential units) are located within block groups that have a percentage of the population that identifies as Hispanic between 60 and 80 percent. Of those units, 58 are proposed as affordable o low and very low incomes.
- 10 proposed sites to accommodate the RHNA allocation (totaling 790 potential units, or 4.7% of the total potential units) are located within block groups that have a percentage of the population that identifies as Hispanic greater than 80 percent. Of those units, 229 are proposed as affordable to low and very low incomes.

The data shows that the proposed candidate sites to meet the very low and low-income RHNA allocation are evenly dispersed throughout the community with an emphasis on locating units where there is a high level of access to important public services and transit. The distribution of potential units does not disproportionately impact areas with larger concentrations of the Hispanic population.

Figure 3-24: Sites Proposed to Accommodate RHNA and Percent Population Hispanic, Costa Mesa

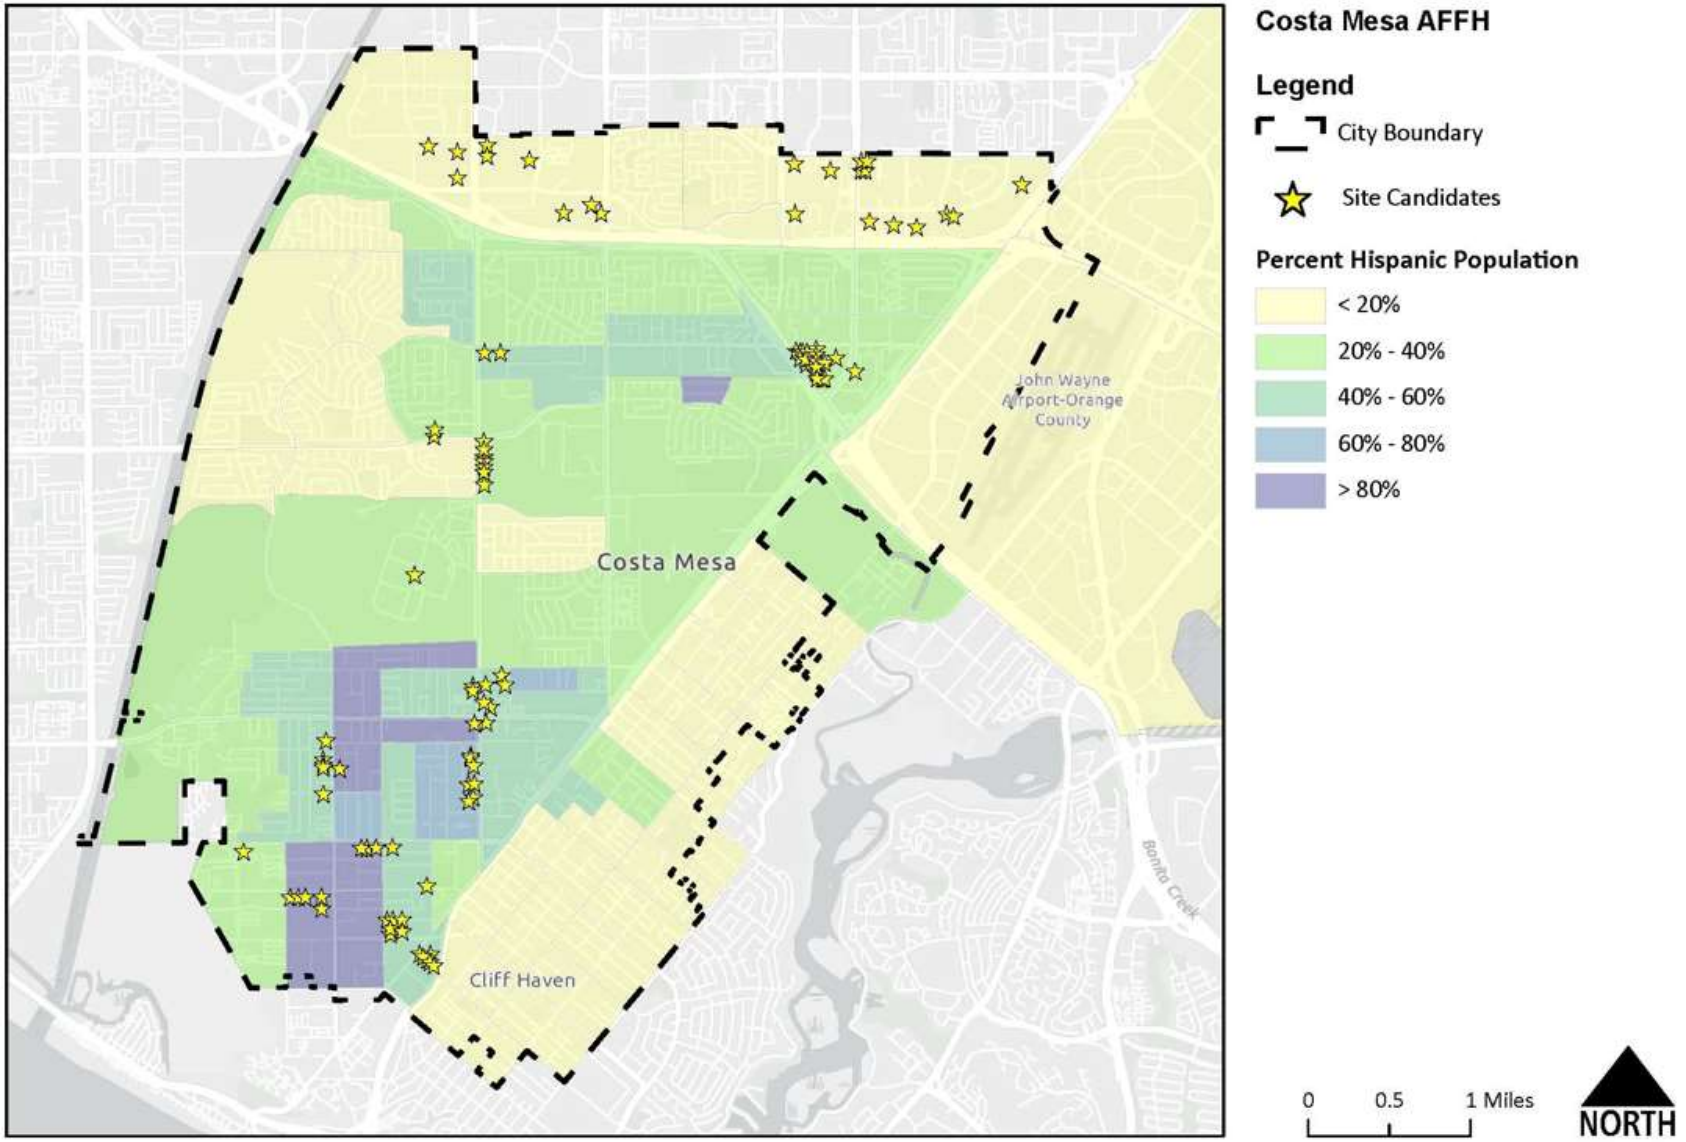

Figure 3-25 shows the proposed candidate sites to meet the RHNA for Costa Mesa in relation with census data showing the percentage of the population within each block group that is Non-white. Figure 3-25 shows the following findings:

- 56 proposed sites to accommodate the RHNA allocation (totaling 14,222 potential units, or 85.3% of the total potential units) are located within block groups that have a percentage of the population that identifies as Non-White between 40 and 60 percent. Of those units, 3,849 are proposed as affordable to low and very low incomes.
- 24 proposed sites to accommodate the RHNA allocation (totaling 1,454 potential units, or 8.7% of the total potential units) are located within block groups that have a percentage of the population that identifies as Non-White between 60 and 80 percent. Of those units, 455 are proposed as affordable to low and very low incomes.
- 17 proposed sites to accommodate the RHNA allocation (totaling 997 potential units, or 6.0% of the total potential units) are located within block groups that have a percentage of the population that identifies as Non-White greater than 80 percent. Of those units, 287 are proposed as affordable to low and very low incomes.

The data shows that the proposed candidate sites to meet the very low and low-income RHNA allocation are evenly dispersed throughout the community with an emphasis on locating units where there is a high level of access to important public services and transit. The distribution of potential units does not disproportionately impact areas with larger concentrations of Non-white populations.

Figure 3-25: Proposed Sites to Accommodate RHNA and Percent Population Non-White, Costa Mesa

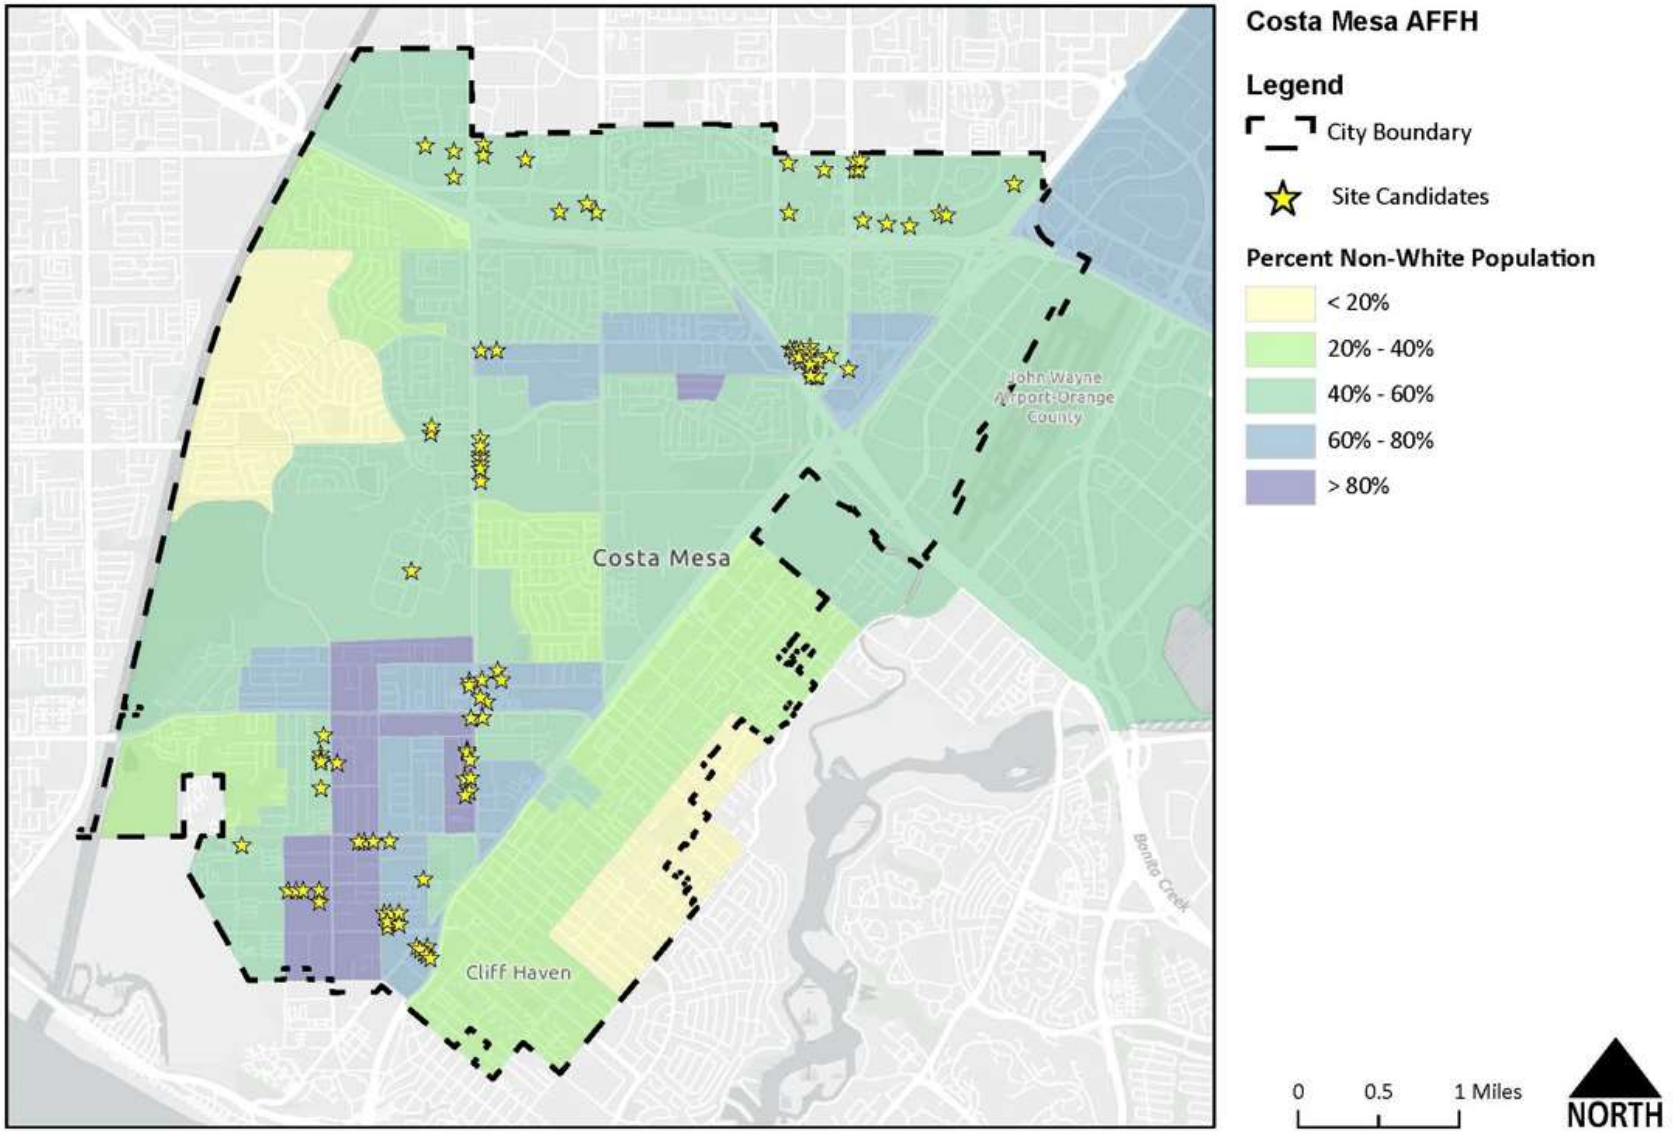

Figure 3-26 shows location of proposed candidate sites to meet the RHNA for Costa Mesa in in comparison with census data showing the percentage of the population within each block group who is categorized as low income or moderate by the American Community Survey. Figure 3-26 shows the following findings:

- 25 proposed sites to accommodate the RHNA allocation (totaling 10,499 potential units, or 63.0% of the total potential units) are located within block groups that have a percentage of the population that identifies as low-and moderate-income between 25 and 50 percent. Of those units, 2,522 are proposed as affordable to low and very low incomes.
- 53 proposed sites to accommodate the RHNA allocation (totaling 4,989 potential units, or 29.9% of the total potential units) are located within block groups that have a percentage of the population that identifies as low-and moderate-income between 50 and 75 percent. Of those units, 1,728 are proposed as affordable to low and very low incomes.
- 19 proposed sites to accommodate the RHNA allocation (totaling 1,185 potential units, or 7.1% of the total potential units) are located within block groups that have a percentage of the population that identifies as low-and moderate-income greater than 75 percent. Of those units, 341 are proposed as affordable to low and very low incomes.

The data shows that the proposed candidate sites to meet the very low and low-income RHNA allocation are evenly dispersed throughout the community with an emphasis on locating units where there is a high level of access to important public services and transit. The distribution of potential units provides increased opportunities for low-income housing in areas with higher rates of low-income persons.

Figure 3-26: Proposed Sites to Accommodate RHNA and Percent Population Low and Moderate-Income, Costa Mesa

Figure 3-27 shows proposed candidate sites to meet RHNA for Costa Mesa in relation with data showing R/ECAP areas within the City. R/ECAPs are racially or ethnically concentrated areas of poverty; they are marked in red hatchings. The goal of the AB 686 analysis is to analyze how the sites identified to accommodate the RHNA allocation may exacerbate or mitigate existing fair housing issues. Figure 3-24 shows there are no R/ECAPs located within the City of Costa Mesa; therefore, no proposed candidate sites are located in a R/ECAP.

Figure 3-28 shows proposed candidate sites to meet RHNA in relation with data showing RCAA areas within the City. RCAAs are racially or ethnically concentrated areas of affluence, they are identified as areas with a median household income greater than $125,000 and a white population of 80 percent of higher. Figure 3-25 shows there are no RCAAs in Costa Mesa; however, there are RCAAs just outside the City's boundaries in Newport Beach.

Figure 3-29 shows proposed candidate sites to meet RHNA for Costa Mesa in relation with the TCAC/HCD Opportunity Areas within the City. TCAC is the California Tax Credit Allocation Committee/Housing and Community Development Opportunity Area Maps which show how resources are spatially distributed throughout the City.

Figure 3-29 shows the following findings:

- 17 proposed sites to accommodate the RHNA allocation (totaling 899 potential units, or 5.4 percent of the total potential units) are located within High Segregation & Poverty Resource areas. Of those units, 298 are affordable to low and very low income groups.
- 10 proposed sites to accommodate the RHNA allocation (totaling 696 potential units, or 4.2 percent of the total potential units) are located within Low Resource areas. Of those units, 200 are affordable to low and very low income groups.
- 56 proposed sites to accommodate the RHNA allocation (totaling 14,227 potential units, or 85.3 percent of the total potential units) are located within Moderate Resource areas. Of those units, 3,850 are affordable to low and very low income groups.
- 5 proposed sites to accommodate the RHNA allocation (totaling 273 potential units, or 1.6 percent of the total potential units) are located within Moderate Resource (Rapidly Changing) areas. Of those units, 78 are affordable to low and very low income groups.
- 9 proposed sites to accommodate the RHNA allocation (totaling 578 potential units, or 3.5 percent of the total potential units) are located within High Resource areas. Of those units, 165 are affordable to low and very low income groups.

Figure 3-27: Proposed Sites to Accommodate RHNA and Racially/Ethnically Concentrated Areas of Poverty, Costa Mesa

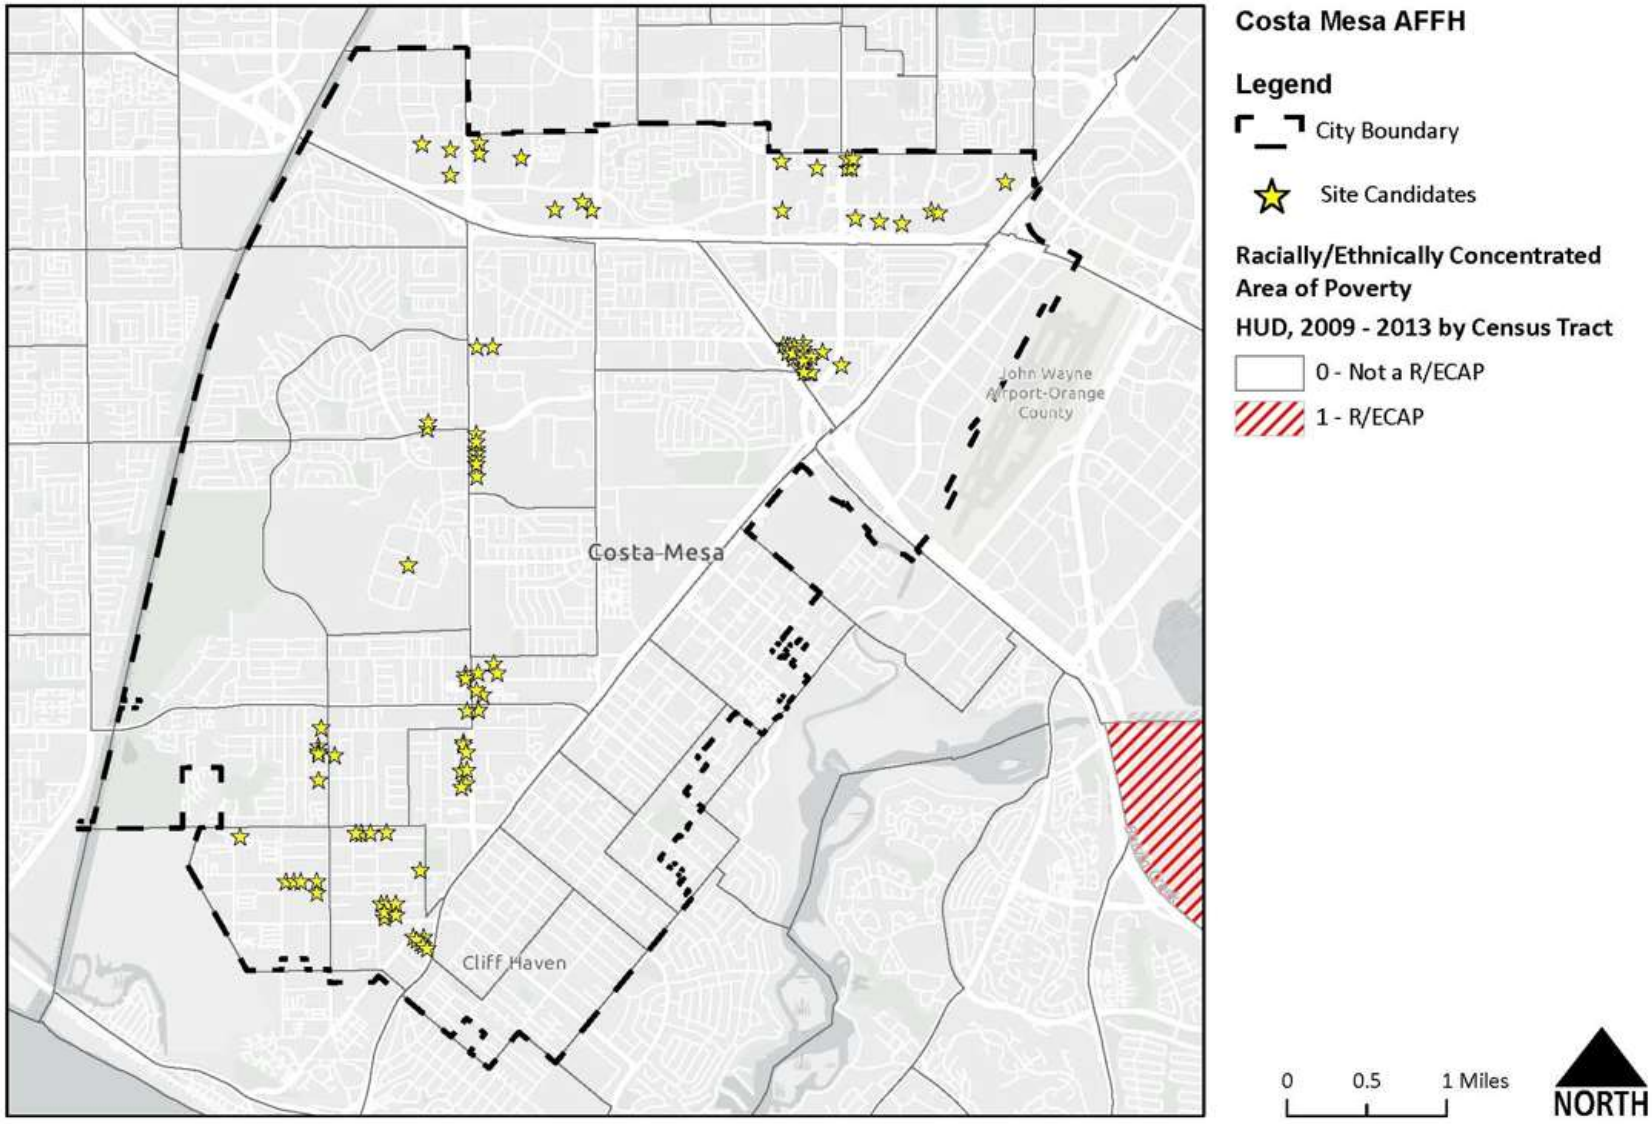

Figure 3-28: Proposed Sites to Accommodate RHNA and Racially/Ethnically Concentrated Areas of Affluence, Costa Mesa

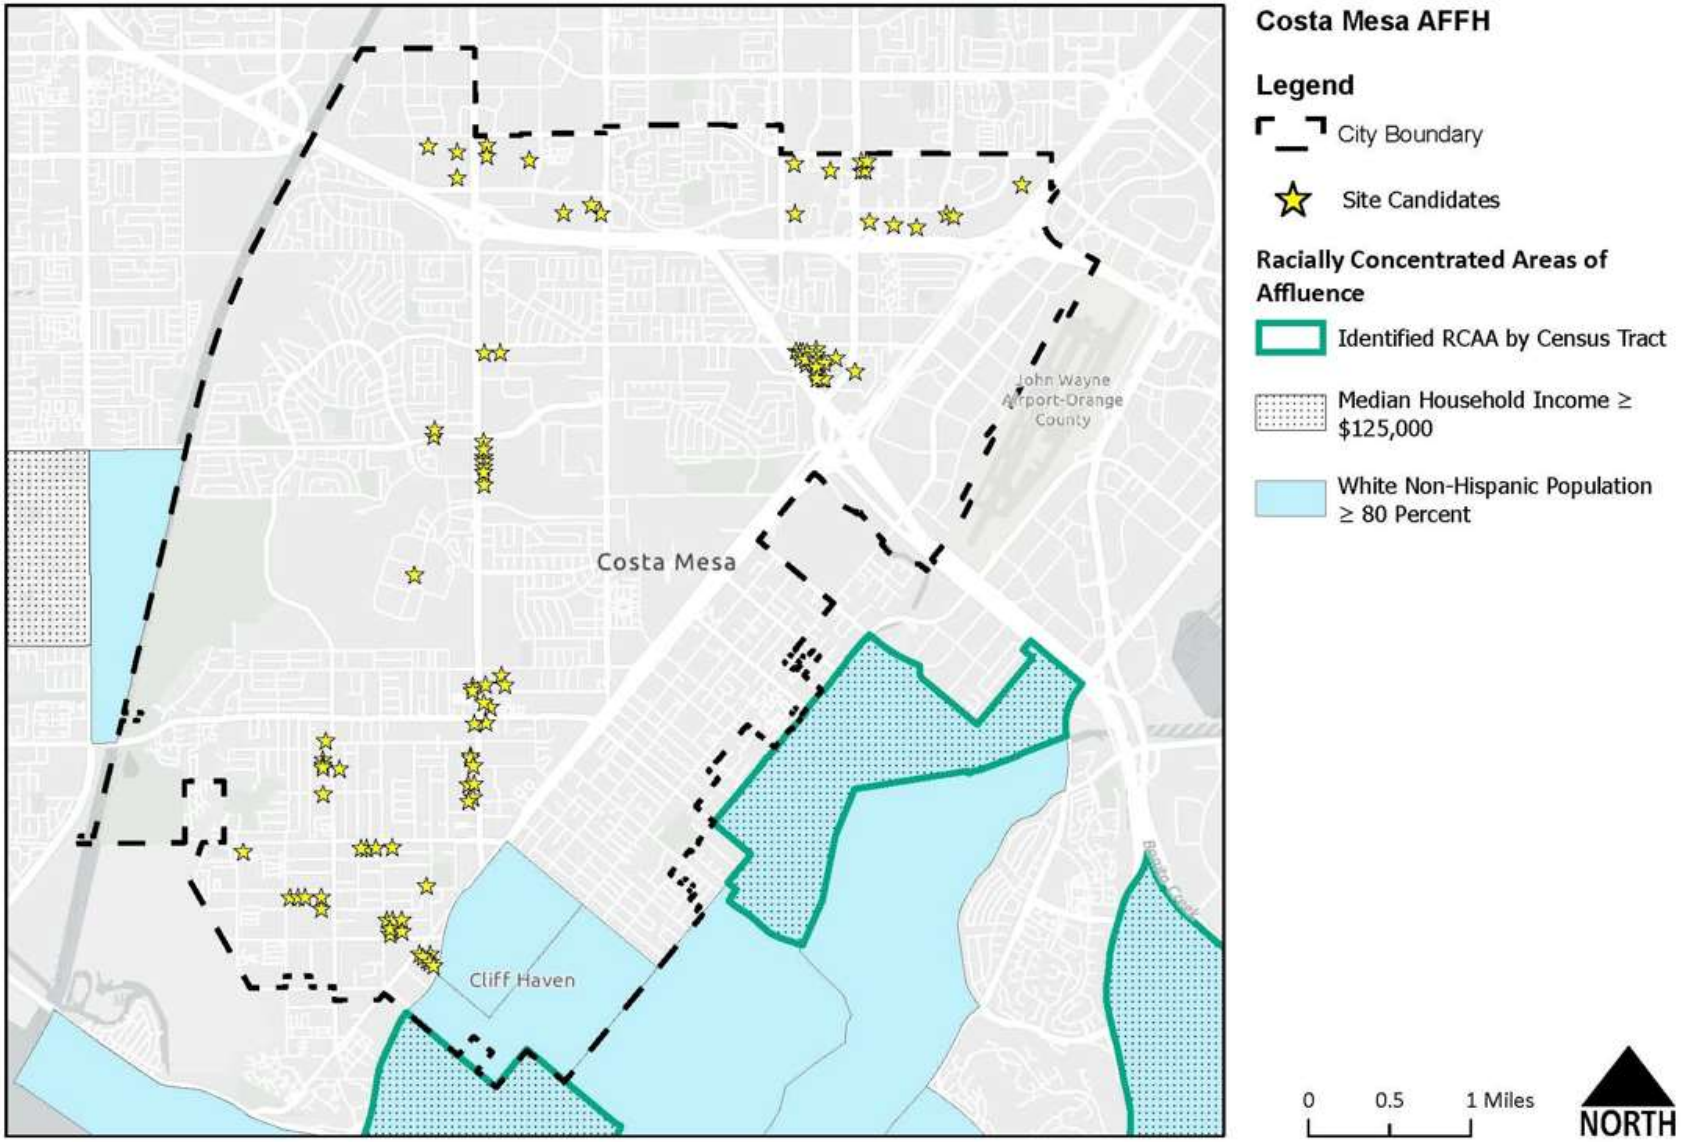

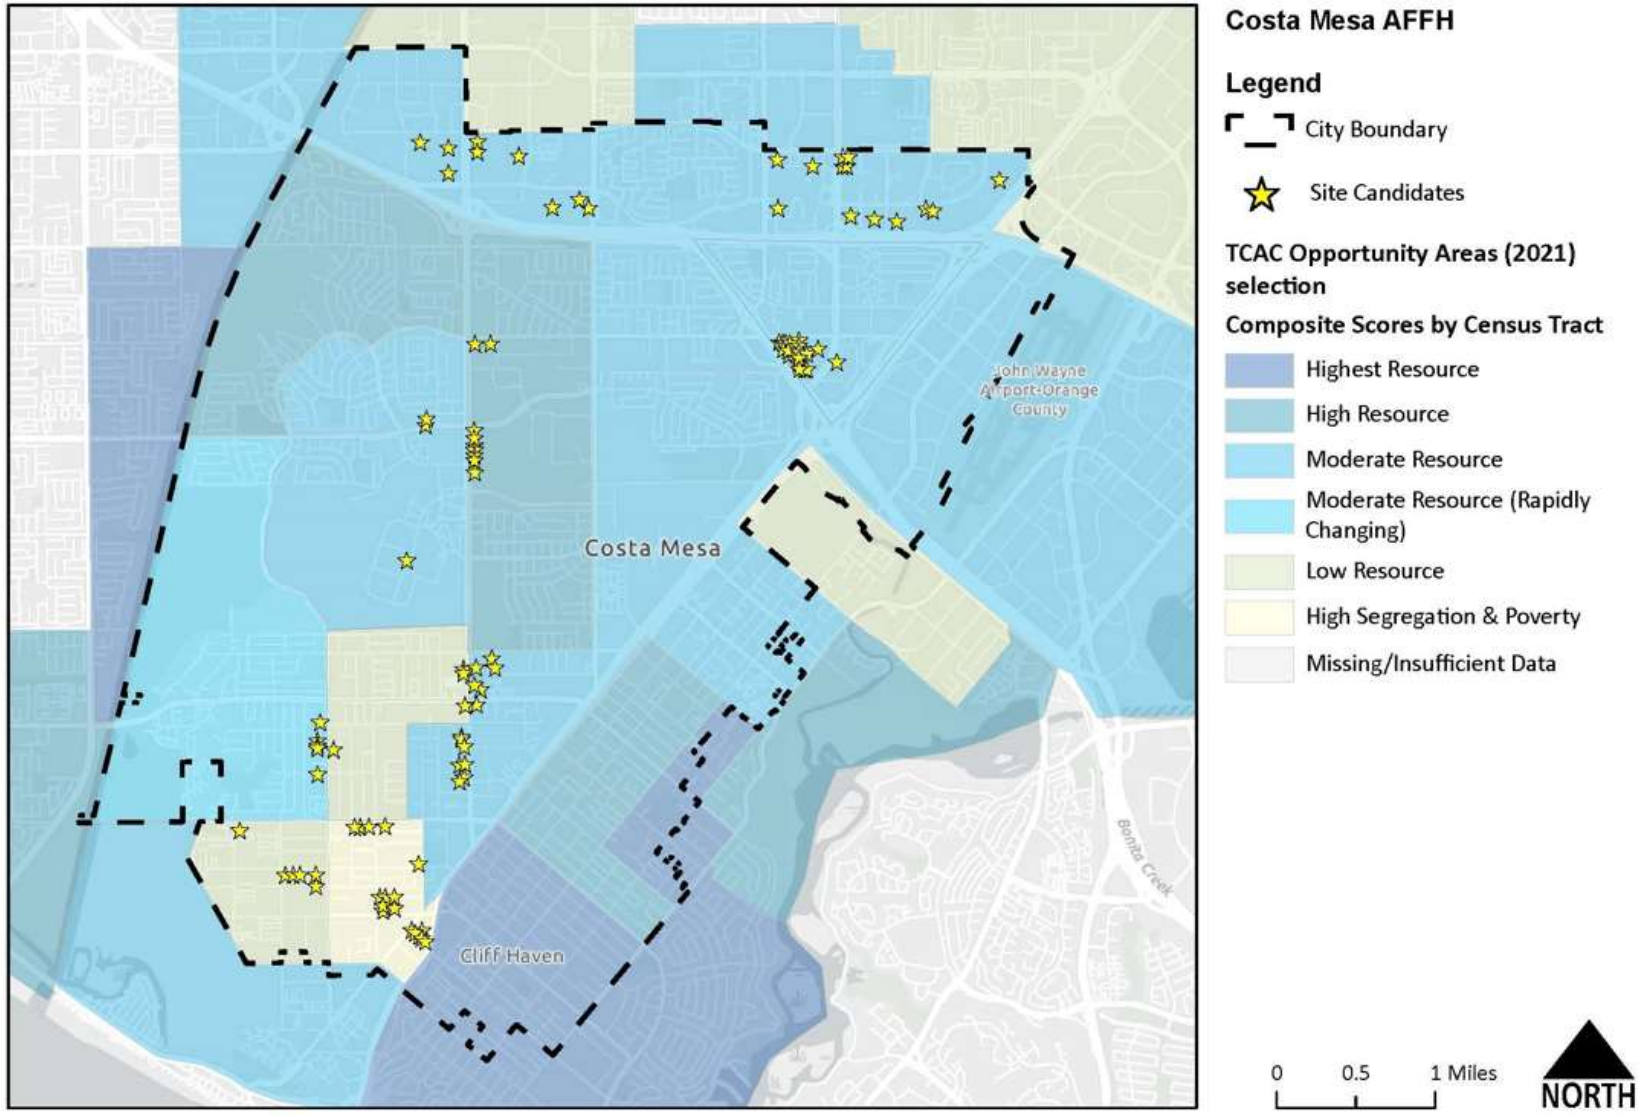

Figure 3-29: Proposed Sites to Accommodate RHNA and TCAC Opportunity Areas, Costa Mesa

8. Analysis of Fair Housing Priorities and Goals

To enhance mobility and promote inclusion for protected classes, the chief strategy included in this Housing Element is to provide sites suitable for affordable housing in high-resource, high-opportunity areas, as demonstrated by the analysis of the housing resource sites contained in Chapter 3: Housing Resources. Other programs that affirmatively further fair housing and implement the AI's recommendations include:

- PROGRAM 2A: Inclusionary Housing Ordinance
- PROGRAM 2B: Affordable Housing Development
- PROGRAM 2C: Supportive Services for Persons with Special Needs
- PROGRAM 2D: Facilitate Development of Senior Housing Options
- PROGRAM 2E: Encourage Development of Housing Options for Large-Family Households
- PROGRAM 2F: Persons with Physical and Developmental Disabilities
- PROGRAM 2H: Farmworker Housing
- PROGRAM 4A: Fair Housing
- PROGRAM 4B: Rental Housing Assistance
- PROGRAM 4D: Fair Housing Assistance
- PROGRAM 4E: Low Barrier Navigation Centers
- PROGRAM 4F: Homeless Shelter

The following table also lists fair housing issues identified and relevant programs included in the Housing Plan addressing each.

Table 3-40: Affirmatively Furthering Fair Housing Programs Matrix			
Fair Housing Issue	Contributing Factors	Priority	Programs
Racial and Ethnic Segregation	1. Census tract 636.05 is identified as a High Segregation and Poverty area. It is also rated the lowest ROI score for people's assets in education, the economy, housing, mobility/transportation, health/environment, and civic life. 2. Ten census tracts are identified as Racially Concentrated Areas of Affluence. 3. The Hispanic population experiences higher levels of poverty according to HUD Opportunity Indicators.	High	**PROGRAM 4A: Fair Housing** – The City will take meaningful actions, in addition to resisting discrimination, that overcomes patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristic, as defined by California law. The City will explore the feasibility of additional actions to mitigate racial and ethnic segregation, and outreach specifically to low and very low-income residents as wells considered targeted outreach to residents with moderate and high levels of segregation. **PROGRAM 4I: Partnerships with Local Organizations and Community Groups** – The city will partner with local community-based organizations, stakeholders and groups who provide supportive resources and programs to further identify specific needs of this community and connect community members with appropriate resources.
Housing Discrimination	1. The 2020 AI identified housing discrimination as an impediment to fair housing choice in the City.	Medium	**PROGRAM 4A: Fair Housing** – The City will take meaningful actions, in addition to resisting discrimination, that overcomes patterns of segregation and foster inclusive

Table 3-40: Affirmatively Furthering Fair Housing Programs Matrix			
Fair Housing Issue	Contributing Factors	Priority	Programs
			communities free from barriers that restrict access to opportunity based on protected characteristic, as defined by California law. The City will explore the feasibility of additional actions to mitigate housing discrimination, as well as continue contracting with the Fair Housing Foundation. **PROGRAM 4I: Partnerships with Local Organizations and Community Groups** – The city will partner with local community-based organizations, stakeholders and groups who provide supportive resources and programs to further identify specific needs of this community and connect community members with appropriate resources.
Unfair Lending	1. The Lending Analysis identified lower rates of home loan approval for moderate, low, and very low-income residents. Applicants who identified as Black experienced both lower rates of home loan approval and purchase and higher rates of home loan denial, indicating disparity in access to funding.	Medium	**PROGRAM 4A: Fair Housing** – The City will take meaningful actions, in addition to resisting discrimination, that overcomes patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristic, as defined by California law. The City will explore the feasibility of additional actions to mitigate unfair lending, as well as continue

Table 3-40: Affirmatively Furthering Fair Housing Programs Matrix			
Fair Housing Issue	Contributing Factors	Priority	Programs
			providing important ownership information on the City's website.
Access to Opportunity	1. Two census tracts in the City's southern region are rated the lowest ROI score for people's assets in education, the economy, housing, mobility/transportation, health/environment, and civic life. 2. Three census tracts are identified as Low Resource areas and one is identified as High Segregation and Poverty according to TCAC data. 3. Four census tracts are identified as having the lowest TCAC Education Outcomes.	High	**PROGRAM 4I: Partnerships with Local Organizations and Community Groups** – The city will partner with local community-based organizations, stakeholders and groups who provide supportive resources and programs to further identify specific needs of this community and connect community members with appropriate resources.
Environmental Conditions	1. All racial and ethnic groups have low environmental health indices according to HUD Opportunity Indicators. 2. Census tract 636.05 has a CalEnviroScreen 3.0 environmental burden of 81 to 90 percent.	Medium	**PROGRAM 4I: Partnerships with Local Organizations and Community Groups** – The city will partner with local community-based organizations, stakeholders and groups who provide supportive resources and programs to further identify specific needs of this community and connect community members with appropriate resources.
Availability of Accessible Housing for Persons with Disabilities	1. Five census tracts reporting 10 to 20 percent of their population having at least one disability. 2. Approximately 86 percent of housing units were built prior to 1989 before the Fair Housing Act and State laws regarding accessibility requirements	High	**PROGRAM 1A: Owner-Occupied Housing Rehabilitation** – This program may be used to assist qualified property owners in improving single-family residential properties, including: health and safety repairs such as mechanical,

Table 3-40: Affirmatively Furthering Fair Housing Programs Matrix			
Fair Housing Issue	Contributing Factors	Priority	Programs
	for persons with disabilities were adopted.		plumbing, electrical, roofing, security, medical emergency requirements, and/or aid the mobility of the physically disabled and/or elderly. **PROGRAM 2C: Supportive Services for Persons with Special Needs** – The City will promote information and outreach to local organizations regarding the availability of CDBG funds for special needs populations to secure decent housing and supportive services. **PROGRAM 2F: Persons with Physical and Developmental Disabilities** – The City will take actions to accommodate ADA retrofit efforts, ADA compliance and/or other measures to facilitate access to adequate housing for persons with disabilities. **PROGRAM 2N: Reasonable Accommodation** – The City will outreach to local organizations to promote access to housing for persons with disabilities and address potential constraints, and review and revise its reasonable accommodations process to be

Table 3-40: Affirmatively Furthering Fair Housing Programs Matrix			
Fair Housing Issue	Contributing Factors	Priority	Programs
			consistent with State and federal housing requirements.
Need for affordable housing in new developments.	1. Ten census tracts are identified as Racially Concentrated Areas of Affluence. 2. Eight census tracts with 40 to 60 percent overpayment by homeowners and five census tracts 60 to 80 percent overpayment by renters. 3. Three census tracts with overcrowding greater than 20 percent. 4. Six census tracts reporting Stable/Advanced Exclusive affordability, one census tract reporting Becoming Exclusive, and nine census tracts reporting At Risk of Becoming Exclusive according to the Urban Displacement Project.	High	**PROGRAM 2A: Inclusionary Housing Ordinance** – The City will consider the adoption of an inclusionary zoning ordinance within 12 months of adoption of the 6th Cycle Housing Element. **PROGRAM 2B: Affordable Housing Development** – The City will seek funding, coordinate outreach, provide incentives, and publish informational materials to facilitate and promote the development of affordable housing units.
Displacement Risk	1. One census tract reporting Advanced Gentrification and two census tracts reporting Low-Income/Susceptible to Displacement according to the Urban Displacement Project. 2. A total of 75 assisted affordable units at risk of becoming market-rate between 2021 and 2031.	High	**PROGRAM 1C: Monitoring and Preservation of At-Risk Housing Units** – The City will regularly monitor units that have the potential to convert to market-rate, and work with property owners on potential contract and funding extensions.

F. Housing Resources

1. Regional Housing Needs Allocation

This section of the Housing Element provides an overview of the resources available to the City to meet the Regional Housing Needs Allocation (RHNA). The City of Costa Mesa is required to plan for the following 2021-2029 RHNA allocation:

Future Housing Needs

Future housing need refers to the share of the regional housing need that has been allocated to the City. The State Department of Housing and Community Development (HCD) has supplied a regional housing goal to the Southern California Association of Governments (SCAG). SCAG was then required to allocate the housing goal to each jurisdiction within the region through a RHNA Plan. In allocating the region's future housing needs to jurisdictions, SCAG is required to take the following factors into consideration pursuant to Section 65584 of the State Government Code:

- Market demand for housing;
- Employment opportunities;
- Availability of suitable sites and public facilities;
- Commuting patterns;
- Type and tenure of housing;
- Loss of units in assisted housing developments;
- Over-concentration of lower income households; and
- Geological and topographical constraints.

HCD, through a determination process, allocates units to each region across California. It is then up to each region to determine a methodology and process for allocating units to each jurisdiction within that region. SCAG adopted its Regional Housing Needs Allocation (RHNA Plan) in March 2021. This RHNA covers an 8-year planning period (starting in 2021) and addresses housing issues that are related to future growth in the region. The RHNA allocates to each city and county a "fair share" of the region's projected housing needs by household income group. The major goal of the RHNA is to assure a fair distribution of housing among cities and counties within the SCAG region, so that every community provides an opportunity for a mix of housing for all economic segments.

Costa Mesa's share of the SCAG regional growth allocation is 11,760 new units for the current planning period (2021-2029). **Table 3-41: Housing Needs for 2021-2029,** indicates the City's RHNA need for the stated planning period.

Table 3-41: Housing Needs for 2021-2029		
Income Category	Percent of Median Family Income (MFI)	Costa Mesa's RHNA Allocation for the 2021-2029 Planning Period
Very Low Income	0-50% MFI	2,919 units
Low Income	51-80% MFI	1,794 units
Moderate Income	81-120% MFI	2,088 units
Above Moderate Income	>120% MFI	4,959 units
	TOTAL	11,760 units

Residential Sites Inventory

Appendix B of the Housing Element includes the required site analysis tables and site information for the vacant and non-vacant properties to meet the City's RHNA need through the 2021-2029 planning period. The following discussions summarize the City's site inventory and adequate sites identification strategy.

Adequacy of Sites for RHNA

The City of Costa Mesa conducted a thorough analysis of all parcels within the City to determine which areas may have the most realistic potential to redevelop for residential uses within the planning period. The analysis included an in depth look at the following site characteristics for each parcel within the inventory:

- Address
- Ownership
- Zoning (including Specific Plan areas, Urban Plans, and Overlays, if applicable)
- Size (Net developable acres removing known development constraints)
- Density
- Vacancy status
- Previous Housing Element identification
- Potential Development Capacity (Dwelling Units) by income category
- Description of existing use

Most sites identified meet AB 1397 requirements for size as well as infrastructure requirements for available utility service. There is a further analysis regarding consolidation of small sites as well as the development potential of large sites within Appendix B.

The City of Costa Mesa has a total 2021-2029 RHNA allocation of 11,760 units. The Housing Element update lists sites, including accessory dwelling units, that can accommodate approximately 17,531 additional units. Table 3-42 shows a summary of the City's overall capacity to accommodate its RHNA. Overall, the City has adequate capacity to accommodate its 2021-2029 RHNA with a 149% buffer in excess of the City's RHNA need.

Table 3-42: Summary of RHNA Status and Sites Inventory					
	Very Low Income*	Low Income	Moderate Income*	Above Moderate Income	Total
RHNA (2021-2029)	2,919	1,794	2,088	4,959	11,760
Units Constructed in Projection Period (Begins June 31, 2021)	3	19	9	8	39
Remaining Unmet RHNA	2,916	1,775	2,079	4,951	11,721
Sites Inventory					
Fairview Developmental Center	575	345	690	690	2,300
Sakioka Lot 2	120	60	120	900	1,200
Home Ranch	221	110	221	1,663	2,215
Senior Center Housing Project	40	20	0	0	60
Pacific Arts Plaza and Town Center	53	27	53	402	535
Total Potential Capacity - Existing Sites	**1,009**	**562**	**1,084**	**3,655**	**6,310**
Overlays, Specific Plans, and Urban Plans					
North Costa Mesa Specific Plan	1,201	695	1,269	3,265	6,435
SoBECA Urban Plan	128	70	141	383	732
Mesa West Bluff Urban Plan	195	109	208	555	1,071
19 West Urban Plan	115	64	123	335	640
Harbor Mixed Use Overlay	270	151	286	778	1,485
Total Potential Capacity - Overlays, Specific Plans, and Urban Plans	**1,909**	**1,089**	**2,027**	**5,316**	**10,363**
Projected ADU Construction					
Projected ADU Construction	97	168	117	8	391
Sites Inventory Total					
Total Units towards RHNA	3,015	1,819	3,228	8,979	17,042
Total Capacity Over RHNA Categories	103%	102%	155%	181%	145%
*The City's Extremely Low Income (ELI) housing need is assumed to be 50% of the very low RHNA need for the planning period.					

Projects in the Pipeline

Development projects that are in the planning process but have not received approvals or building permits are considered "in the pipeline." For applications submitted for a land use approval, projects are considered "pending" until the necessary land use approvals are issued, at which point a project is deemed "approved." Once a building permit is issued, the project is identified as "building permit issued." When project construction is completed and all necessary building safety inspections have been completed a certificate of occupancy or "final building permit" is issued.

Pursuant to the HCD Housing Element Site Inventory Guidebook Government Code Section 65583.2, for projects yet to receive their certificate of occupancy or final building permit, the element must demonstrate that the project is expected to be built within the planning period. The City believes that many of these "in the pipeline" housing units are likely to be developed within the planning period and could further the City's efforts in reaching its required RHNA, if/once developed. Although "projects in the pipeline" are not

included as "candidate housing sites", they represent opportunities for future housing construction in Costa Mesa within the planning period. If/when these housing units are built, the units will count toward achieving the City's RHNA allocation consistent with State law.

Appendix B contains a summary of housing projects at various planning/development stages, and consist of potential developments of various sizes, types and housing affordability ranges. The summary includes recent housing projects that have been submitted at this time, but not approved; approved but no building permits have been issued or applied for; and other housing projects that City staff is working on in partnership to develop housing resources in the City.

For a variety of reasons, not all projects in the pipeline complete the planning or building permit process and are built and occupied. However, these projects provide an indication of what future completed construction will likely be. City staff will continue to work with the aforementioned project applicants and other City housing efforts to reach the City's Housing Element goals.

Redevelopment of Non-Vacant Sites for Residential Uses

The City of Costa Mesa does not have sufficient vacant land available to accommodate fifty percent of their low/very-low income RHNA and are reliant on non-vacant sites to meet their RHNA need. To accommodate the need at all income levels, the City has analyzed sites within non-residentially zoned areas that permit residential development through Specific Plans, Urban Plans, or Overlays. The City also evaluated and included parcels not currently within Urban Plans which will be added when those Urban Plans are amended.

As part of the candidate housing sites analysis, the City has evaluated recent projects that have redeveloped within non-residentially zoned areas that included residential units. Those projects, including the zoning, use prior to redevelopment, and a project analysis of the approved development plan, are shown in Table 3-43. The City's analysis showed that prior uses on these redeveloped sites were similar in nature to the existing uses on sites identified within the sites inventory in Table B-3.

The City has also conducted a parcel specific analysis of existing uses for each of the identified sites. This analysis of existing uses, including indicators of a likelihood that the existing use will redevelop within the next eight years, are provided in Table B-3. This analysis is based on information readily available to the City and research that can be found through online research. The City does not always have access to private lease information but has included information that property owners have shared regarding individual sites.

The following residential development projects have been constructed on parcels that were either non-residentially zoned or had an existing non-residential use on-site within Costa Mesa.

Table 3-43: Example Development of Non-Vacant Sites for Residential Uses				
Project Address/ APN	Dwelling Units	Zoning	Use Prior to Redevelopment	Project Analysis
125 Baker St.	240	PDR - HD	Industrial use	This development is a 240-unit wrap apartment complex on a 4.2-acre parcel in a largely industrial and office area of Costa Mesa. The project was built at a density of approximately 57 du/ac. The site was previously a light industrial and office uses use similar to some of the identified candidate housing sites. The project was rezoned from CL to PDR-HD.
1957 Newport Blvd.	38	PDR - HD	Self-storage use and trailer storage lot	This development is a 38-unit condominium project along the Newport Blvd commercial corridor. The site was previously a self-storage and trailer storage use similar to some of the identified candidate housing sites. The project was rezoned from C1 to PDR-HD.
2277 Harbor Blvd.	200	PDR - HD	Motel use	This development is a 200-unit apartment complex on a previous motel use site. This development is located on Harbor Boulevard and shares many existing characteristics with sites identified within this corridor in the candidate sites inventory. The project was rezoned from C1 to PDR-HD.
671 W. 17th St.	177	MG	Brownfield development (Argotech Industries)	This development is 177 live/work and loft residential units and was developed on a site that was previously largely surface parking area. This site is in the Mesa West Urban Plan area and adjacent to some of the sites identified within the candidate housing sites analysis. This project also shares many existing use characteristics with those identified sites.
1620 and 1644 Whittier Ave.	89	MG	Industrial use (Ametek Aerospace and Defense)	This development is 89 live/work residential units on a former industrial use site in the Mesa West Bluffs Urban Plan area. Similar to 671 W. 17th Street, this site shares many geographic and existing use characteristics with sites identified in the candidate housing sites analysis.
1500 Mesa Verde Drive East	215	PDC	Vacant commercial area	This development is 215 senior apartments developed at four stories along Harbor

Table 3-43: Example Development of Non-Vacant Sites for Residential Uses				
Project Address/ APN	Dwelling Units	Zoning	Use Prior to Redevelopment	Project Analysis
				Boulevard directly adjacent to existing commercial uses. This project is an example of the types of horizontal mixed-use projects that the City anticipates may develop along Harbor Boulevard and matches assumptions made in the Housing Element.
1527 Newport Boulevard	40	C2 & MG	Industrial uses, including boat and automobile repair	This development is 40 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the 19 West Urban Plan area and previous uses are consistent with sites identified within the sites inventory.
132, 134, 140 Industrial Way	22	C2 & MG	Industrial uses, including boat and automobile repair	This development is 22 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the 19 West Urban Plan area and previous uses are consistent with sites identified within the sites inventory.
1677-1985 Superior Avenue	49	C2 & MG	Gas station and a mixture of commercial and industrial uses.	This development is 49 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the 19 West Urban Plan area and previous uses are consistent with sites identified within the sites inventory.
2025 Placentia Avenue	36	MG	Commercial and industrial uses, including storage and repair for boats	This development is 36 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the Mesa West Bluffs Urban Plan area along Placentia Avenue and previous uses are consistent with sites identified within the sites inventory.
2095 Harbor Boulevard	29	PDC	Commercial buildings and gas station which had been vacant for several years.	This development is 28 single-family homes with live/work potential, including ground floor commercial/office workspaces and two stories above for residential. This development is in the Harbor Mixed Use Urban Plan area along Harbor Avenue and previous uses are consistent with sites identified within the sites inventory.
1672 Placentia Avenue	32	MG	Boat yard and industrial building	This development is 32 live/work units with ground floor commercial/office workspaces

Table 3-43: Example Development of Non-Vacant Sites for Residential Uses				
Project Address/ APN	Dwelling Units	Zoning	Use Prior to Redevelopment	Project Analysis
				and two stories above for residential. This development is in the Mesa West Bluffs Urban Plan area along Placentia Avenue and previous uses are consistent with sites identified within the sites inventory.

This analysis of recent sample development projects shows that residential development occurs within the City on sites that have existing non-residential uses. As indicated in the analysis notes, these example sites share many characteristics with the candidate housing sites in **Table B-3.** This demonstrates that there is development potential on these sites as well as interest in developing these types of sites for residential uses within Costa Mesa.

Lease Analysis

Existing lease agreements on infill and non-vacant properties present a potential impediment that may prevent residential development within the planning period. State law requires the City to consider lease terms in evaluating the use of non-vacant sites, however the City does not have access to private party lease agreements or other contractual agreements amongst private parties. Additionally, COVID-19 has increased the potential number of vacancies, especially within commercial uses. As part of the sites analysis for very-low and low-income sites, the City conducted discussions with property owners who felt comfortable sharing this information and came forward as interested in developing their properties for housing through the planning period. Notes regarding discussion are found in **Table B-3**.

Regulatory Incentives

Density bonus is a State law which permits increased density, a lowered parking standard, and concessions for projects which provide a certain percentage of their dwelling units as deed restricted to residents at the very-low, low, and moderate-income levels. Projects within infill areas such as Costa Mesa often utilize density bonus provisions to construct affordable units. The City understands that existing land use policy may not necessarily contribute to the development of housing. Therefore, regulatory incentives can be helpful in bringing housing units to the market. The City has committed through **Program 2I,** to annually update the local density bonus ordinance to be consistent with State law if changes are adopted at the State level.

The City has created programs expressly written to address the analysis and potential development of additional regulatory incentives to incentivize the creation of affordable housing. As stated in **Program 2B,** these may include, but are not limited to, the following for projects that propose a percentage of their housing units as affordable:

- Deferment of fees
- Priority Processing
- Modified development standards (above and beyond what is permitted under Density Bonus)

Development Trends and Current Market Demand for Existing Uses

The existing uses within the identified candidate housing sites are primarily commercial, light industrial, and office/business park. The following excerpts are from the Winter 2021 Allen Matkins/UCLA Anderson Forecast Commercial Real Estate Survey.

Office Space Markets

The COVID-19 pandemic took a toll on traditional office uses when the majority of California's office workforce was required to work from home. This taught employees and employers that remote work was possible and may have sparked a trend of more remote work options in a post-COVID world. An excerpt from the above referenced study indicated that "survey participants are confident about the growth in demand for office space between 2020 and 2023, they are pessimistic about the return to investment in new space today."[8]

This indicates that while we may return to a more normal work setting in the short term, there is likely to be less investment going forward in new office space as employers look to downsize the leasable space they occupy and expand flexible work options to keep employees happy and hard costs down. It is likely this trend occurs into the next decade, opening up existing office uses not operating at full occupancy for residential redevelopment opportunities.

Retails Space Markets

In regard to future retail development trends and demand, the above referenced study noted the following observations from their analysis on participant responses. "During the previous economic expansion, retail space struggled. The current recession tripled down on that struggle. First, the loss of household income and the shelter-in-place policies reduced current demand for brick-and-mortar retail. Second, the inability to physically frequent many retail establishments created a new set of online shoppers, and third, increases in the savings rate on the part of households in response to the recession portends less individual consumption. To be sure, some activities will be coming back, particularly personal services and experiential retail. But now, more marginal properties will not find tenants willing to pay sufficient rent to keep the properties in the retail space."[9]

While COVID-19 had a large impact on retail in the immediate future, overall market trends pointed to a decline in the need for brick-and-mortar retail spaces going back over the past decade. The rise in online retailers such as Amazon and the shift in focus to online sales of major retailers like Target, Walmart, and others have kept shoppers in their homes and away from smaller mom and pop retailers as well. Experiential uses such as restaurants and dining provide more incentive and are likely to bounce back quickly following the removal of COVID-19 protocols. These uses do well in walkable, mixed-use settings with a strong flow of permanent consumers. Residential uses, especially at higher densities, present an opportunity to support future commercial growth including supporting smaller mom and pop retailers in infill settings such as Costa Mesa.

Development Trends

State, regional, and local policy direction promoting the development of housing at all levels to meet existing housing shortages, especially for low-income families, has further driven up the demand for housing. The redevelopment of existing non-vacant land, both in residential and non-residential zones, for multi-family rental and for sale housing provides a realistic opportunity to create affordable housing using the resources available within communities such as Costa Mesa. As a result, much of Costa Mesa's future growth will be on infill opportunities within the City. To facilitate this, the City has proposed actions to evaluate and revise the development standards and permitted uses within many key areas within the City. This increases the developable area within the City where residential development can occur and promotes development at densities which may support affordable housing.

As stated previously, much of Costa Mesa's anticipated future housing growth is expected to occur on infill sites, or sites with existing uses. Development on non-vacant parcels was analyzed to determine a reasonable development capacity based on known constraints and historic development patterns within each of the different zones. Table B-3 in Appendix B contains a detailed description of each existing use. Many of the existing uses were found to be similar with recent redevelopment examples in Costa Mesa. Appendix A also includes outreach to property owners and letters of owner support/developer interest for specific parcels identified in the Housing Element.

Accessory Dwelling Unit Productions

Accessory dwelling units, or ADUs) are housing units which may be developed in addition to an existing single- or multi-family residential use. These housing units can be free-standing or attached to a primary structure and are intended to provide additional housing on an existing residential lot. Often ADUs provide housing for family members or are rented to members of the community.

One of the proposed methods for meeting the City's RHNA at all income levels is through the production of ADUs. A number of State Assembly and Senate Bills were passed in 2018 and 2019 that promote development of ADUs and remove barriers that may inhibit their development within communities. The following is a summary of those bills:

- AB 68 and 881
  - Prohibit minimum lot size requirements
  - Cap setback requirements at 4', increasing the size and location opportunities for ADUs
  - Prohibit the application of lot coverage, FAR, or open space requirements that would prevent an 800 square foot from being developed on a lot
  - Remove the need for replacement parking when converting an existing garage to an ADU
  - Limit local discretion in establishing min and max unit size requirements
  - Mandate a 60-day review period for ADU applications through a non-discretionary process
- SB 13
  - Prohibit owner-occupancy requirements for 5 years
  - Reduce impact fees applicable to ADUs

  - Provide a program for homeowners to delay compliance with certain building code requirements that do not relate to health and safety
- AB 670
  - Prohibits Homeowner's Associations (HOAs) from barring ADUs

As a result of new legislation and an increased effort by the City to promote ADUs, the City has seen an increase in applications so far in 2021. In 2018, the City permitted 4 ADUs, followed by 6 in 2019 and a 217% increase in 2020 of 19. In 2020, the City received 44 applications proposing ADUs. Of those 44 applications, 19 were issued building permits in 2020 and 1 was issued a building permit and received their Certificate of Occupancy in 2020. In addition, 12 of those 44 applications were issued a building permit in 2021. The remaining are still in plan check or the projects have been abandoned. As of the end of April 2022, the City of Costa Mesa has seen an increase in ADU activity. The City has approved and is in the process of issuing permits for 27 ADUs through approximately one-third of the year. Projected out over 2022, this demonstrates the continued trend of ADU growth and puts the City on pace for 81 approved ADUs in 2022. This exceeds the City's 2022 projection of 50 units by 31 units and positions the City well to exceed its projected ADUs within the planning period. In accordance with State law, ADUs are allowed in all zones that allow single dwelling unit or multiple dwelling unit development. Junior Accessory Dwelling Units (Jr ADUs) are permitted only in single dwelling unit zones.

The City of Costa Mesa has determined based on past performance and the SCAG/HCD approved methodology that it is appropriate to anticipate the development of 391 accessory dwelling units from 2021 to 2029. Approximately 391 of these units are anticipated to be affordable at the low and very-low-income categories. A total of 117 ADUs are anticipated to be affordable at the moderate-income level and 8 ADUs are anticipated at the above moderate-income level.

To assist in reaching the City's ADU development projections, Costa Mesa has included **Program 3E**, which explores actions the City will take to promote and incentivize the development of ADUs during the planning period. As outlined in the program, these actions may include:

- Coordinating with the County on implementation of a permit-ready ADU program
- Waiving specific permitting fees to make ADU development more feasible
- Creating an expedited plan check review process to ease the process for homeowners
- Explore potential State and Regional funding sources for affordable ADUs

Summary of Sites Inventory and RHNA Obligations

As described in this section and in further detail in **Appendix B**, the City of Costa Mesa has identified adequate sites to accommodate the 2021-2029 RHNA obligation of 11,760 housing units. These candidate housing sites, in combination with the programs stated in **Chapter 4**, will help to facilitate the development of future housing within the city.

G. Financial Resources

Providing an adequate supply of decent and affordable housing requires funding from various sources, the City has access to the following funding sources.

1. Section 8 Housing Choice Voucher, CDBG and HOME funds

The Section 8 Housing Choice Voucher program is a Federal government program to assist very low-income families, the elderly, and the disabled with rent subsidy payments in privately owned rental housing units. Section 8 participants are able to choose any housing that meets the requirements of the program and are not limited to units located within subsidized housing projects. They typically pay 30 to 40 percent of their income for rent and utilities. The Orange County Housing Authority (OCHA) administers Section 8 Housing Choice vouchers within the City of Costa Mesa. OCHA reports that as of June 30, 2014, a total of 640 vouchers were granted to Costa Mesa households.

Community Development Block Grants (CDBG)

The Community Development Block Grant (CDBG) program provides annual grants on a formula basis to cities to develop viable urban communities by providing a suitable living environments and by expanding economic opportunities, principally for low- and moderate-income persons (up to 80 percent AMI). CDBG funds can be used for a wide array of activities, including:

- Housing rehabilitation;
- Lead-based paint screening and abatement;
- Acquisition of buildings and land;
- Construction or rehabilitation of public facilities and infrastructure, and:
- Public services for low-income households and those with special needs.

In order to receive CDBG funding, the City of Costa Mesa is required to approve and implement the 2020-2024 Consolidated Plan. This is a planning document that identifies the City's housing and community needs and outlines a strategy to address these needs utilizing funds from the U.S. Department of Housing and Urban Development (HUD).

HUD also requires the City to prepare a One-Year Action Plan for each of the five years covered by the Consolidated Plan. For the 2020-2021 fiscal year the City of Costa Mesa received $1,600,000 in CDBG and HOME funding (including public service grants associated with CDBG) are anticipated to be allocated towards:

(1) Housing Rehabilitation
(2) Tenant-Based Rental Assistance (TBRA)
(3) HOME Administration
(4) Community Housing Development Organization (CHDO) Housing Reserve
(5) Special Housing Code Enforcement
(6) Mercy House – Bridge Shelter
(7) City of Costa Mesa Senior Social Services
(8) Community SeniorServ Meal Programs
(9) Fair Housing Foundation
(10) Youth Employment Services Program
(11) CDBG Administration
(12) Families Forward

HOME Investment Partnership Program (HOME)

The HOME program provides federal funds for the development and rehabilitation of affordable rental and ownership housing for households with incomes not exceeding 80 percent of area median income. The program gives local governments the flexibility to fund a wide range of affordable housing activities through housing partnerships with private industry and non-profit organizations. HOME funds can be used for activities that promote affordable rental housing and homeownership by low-income households.

As with CDBG funding, HOME funds require the City complete a Consolidated Plan and a One-Year Action Plan. The 2020-2024 Consolidated Plan identifies the following objectives for HOME funds:

High Priority Need:

- Housing rehab: $275,000
- Tenant Based Rental Assistance: $150,000
- Community Housing Development Organization Reserve: $180,365
- Program Admin: $50,582

2. Opportunities for Energy Conservation

The primary uses of energy in urban areas are for transportation lighting, water heating, and space heating and cooling. The high cost of energy demands that efforts be taken to reduce or minimize the overall level of urban energy consumption. Energy conservation is important in preserving non-renewable fuels to ensure that these resources are available for use by future generations. There are also a number of benefits associated with energy conservation including improved air quality and lower energy costs.

Energy Use and Providers

Southern California Gas Company (SCG) provides natural gas service for the City. Natural gas is a "fossil fuel" and is a non-renewable resource. Most of the major natural gas transmission pipelines within the City are owned and operated by SCG. SCG has the capacity and resources to deliver gas except in certain situations that are noted in state law. As development occurs, SCG will continue to extend its service to accommodate development and supply the necessary gas lines. Electricity is provided on an as-needed basis to customers within existing structures in the City.

Southern California Edison Company (SCE) is the distribution provider for electricity in Costa Mesa. SCE services an area of 50,000 square miles with a population over 10 million; Costa Mesa represents less than one percent of the population served by SCE. Currently, SCE has no immediate plans for expansion of infrastructure, as most of the City is built out. However, every year SCE expands and improves existing facilities according to demand and they have indicated that future growth in Costa Mesa as anticipated in the General Plan is within the parameters of the overall projected load growth which they are planning to meet.

Energy Conservation

The City's Conservation Element of the General Plan identify and establish goals and policies for preserving and managing natural resources in the City. The element states that solutions to energy problems can be solved through conservation and through the development of alternate energy sources. Energy suppliers are continuously searching for new and expanded sources of conventional fuels such as oil, gas, and coal.

More recently developed fuels, such as nuclear and geothermal, make up a small share of the nation's energy supplies.

The City's Conservation Element states the City does not operate any local utilities related to energy, however, it partners with and supports energy providers to promote sustainable practices through local regulations. The Element also reports that while the national consumption of energy has increased by over 50 percent in the last 30 years, the State of California has remained stable due to conservation campaigns by individuals, businesses, utilities companies, and State and local regulations.

Solar energy is the viable alternate energy source for the City of Costa Mesa. As of January 2020, the State of California requires all new single-family and multi-family homes (up to 3 stories high) include a solar photovoltaic (PV) system as a source of electricity. The California Clean Energy Commission determined this mandate increases the cost of single-family residences by $8,400, but it saves homeowners and renters about $80 per month on electricity costs. To further promote the switch to solar energy, the City of Costa Mesa initiated the Go Green Program which waives permit fees for residential solar installations and electric vehicle charging stations.

The Leadership in Energy and Environmental Design (LEED) certification is a world-wide rating system which reviews and rates buildings, communities, and cities on their energy efficiency and conservation strategies. A LEED certified building is rated based on a set of points received and may be rated "certified" at the lowest and "Platinum" at the highest. In 2007, the City of Costa Mesa implemented a Green Building Program aimed at promoting energy efficiency by expediting the permitting process and waive certain fees for LEED certified projects. The City also became the first California city to require all new Municipal buildings be LEED Gold certified. LEED certified buildings are recognized for providing the following:

- Improved productivity and morale amongst workers, recruitment, and higher retention rates;
- Improved indoor environmental quality and air quality;
- Minimized energy and water costs during construction and operation;
- Minimized waste output;
- Pollution prevention; and
- Low-impact materials that last longer and may be non-toxic, recycled, and sustainably produced.

In February 2021, the City of Costa Mesa became the first city in California to achieve a LEED Gold for Cities and Communities certification.

Lastly, the City also abides to Title 24 standards as mandated by the State. Title 24 establishes energy efficiency standards for residential and nonresidential buildings (new structures and additions) to reduce energy consumption. The standards are updated every three years to achieve greater efficiency and reach for new goals.

Chapter 4

Housing Plan

Housing Plan

The Housing Plan describes the City of Costa Mesa 2021-2029 policy program. The Housing Plan describes the specific goals, policies, and programs to assist City decision makers to achieve the long-term housing objectives set forth in the Costa Mesa Housing Element. This Plan identifies goals, policies, and programs aimed at providing additional housing opportunities, removing governmental constraints to affordable housing, improving the condition of existing housing, and providing equal housing opportunities for all residents. These goals, policies, and programs further the City's overall housing policy goal is to Inspire a more diverse, sustainable, and balanced community through implementation of strategies and programs that will result in economically and socially diversified housing choices that preserve and enhance the special character of Costa Mesa.

Regional Housing Needs Assessment

The Southern California Association of Governments (SCAG) has conducted a Regional Housing Needs Assessment (RHNA) to determine the City's share of the affordable housing needs for the Orange County region. The RHNA quantifies Costa Mesa's local share housing needs for the region by income category. Income categories are based on the most current Median Family Income (MFI) for Orange County. The City's 2021-2029 RHNA growth need is as follows:

- 2,919 units - Very low income (0-50% County MFI)
- 1,794 units - Low income (51-80% of County MFI)
- 2,088 units - Moderate income (81-120% of County MFI)
- 4,959 units - Above moderate income (120% or more of County MFI)

  11,760 units – Total

A. Guiding Principles

The City of Costa Mesa followed certain "guiding principles" in developing its approach and strategy for accommodating future housing growth. These guiding principles assist with implementation of the housing goals, policies and programs and will aid overall decision making. The guiding principles are rooted in community engagement and local knowledge and input into the planning process. The guiding principles are as follows:

- The City will plan for future housing primarily along major commercial, industrial, and mixed-use corridors within Costa Mesa that are compatible with growth, while preserving established residential neighborhoods.
- Each neighborhood, community, and district within Costa Mesa has its own unique characteristics and needs. Future housing growth will build upon Costa Mesa's history and complement the diversity and unique characteristics that already exist within each area.
- The City will plan for a diverse range of housing forms, types, and densities to address the housing needs of an inclusive and diverse community and provide housing opportunities that meet the needs of all residents, including low-income households, seniors, multi-generational families, larger households, and special needs groups.

As identified in **Chapter 2**, the City will need to consider the following findings based on the data presented in this Community Profile:

- The Costa Mesa population is showing aging trends – housing goals should consider the needs of seniors who may have less flexible income, need accessibility accommodations, or may seek assisted living options. **The City has established Housing Program 2D to address this finding.**
- Over a quarter of the Costa Mesa population identifies as Hispanic or Latino – housing needs should account for possible cultural needs such as larger or multigenerational housing units. Additionally, housing information should be made available in Spanish to assist in the location of appropriate housing within the community. **The City has established Housing Programs 2E and 4A to address this finding.**
- Approximately 47 percent of the Costa Mesa population earn a lower income, indicating that production of and access to affordable housing including affordable rental options and entry level home ownership facilitation should be considered. **The City has established Housing Programs 2B, 4A, 4B, and 4C to address this finding.**
- Approximately 48.8 percent of renters and 31.8 percent of homeowners are estimated to spend more than 30 percent of their income on housing, indicating a high housing cost burden overall with a higher proportion of renters compared to owners experiencing overpayment. **The City has established Housing Programs 2B, 4A, 4B, and 4C to address this finding.**
- Based on for sale and rental housing prices, a moderate-income household cannot afford to own a home in Costa Mesa, while lower income households cannot afford to own or rent in Costa Mesa without experiencing overpayment. **The City has established Housing Programs 2B, 4A, 4B, and 4C to address this finding.**
- The majority of housing units in Costa Mesa were built over 30 years ago – households in older homes may benefit from assistance in renovating their homes and ensuring safe living environments with access to all utilities. **The City has established Housing Programs 1A and 1B to address this finding.**
- Costa Mesa has a relatively low vacancy rate, indicating high demand for housing and low availability of housing units within the City. **The City has established Housing Programs 2B and 3A to address this finding.**
- 46.5 percent of Costa Mesa households have at least one of the four identified housing problems, which include:
    - Units with physical defects (lacking complete kitchen or bathroom);
    - Overcrowded conditions (housing units with more than one person per room – excluding bathrooms and kitchens);
    - Housing cost burdens, including utilities, exceeding 30 percent of gross income; and
    - Severe housing cost burdens, including utilities, exceeding 50 percent of gross income.

  The City has established Housing Programs 1A, 1B, and 4A to address this finding.

B. Housing Goals

The City of Costa Mesa has identified the following housing goals as part of this Housing Element Update:

Housing Goal #1: Preserve and enhance the City's existing housing supply.

Housing Goal #2: Facilitate the creation and availability of housing for residents at all income levels and for those with special housing needs.

Housing Goal #3: Identify adequate, suitable sites for residential use and development to meet the City's Regional Housing Needs Assessment (RHNA) at all income levels and promote a range of housing types to meet the needs of all segments of the Costa Mesa community.

Housing Goal #4: Provide housing opportunities to residents of all social and economic segments of the community without discrimination on the basis of race, color, religion, sex, sexual orientation, disability/medical conditions, national origin or ancestry, marital status, age, household composition or size, source of income, or any other arbitrary factors.

The goals listed above are described below and on following pages with accompanying policies and programs to achieve them.

C. Housing Policies and Programs

This Housing Element expresses the Costa Mesa's overall housing goals and supporting policies, quantified objectives, and the housing programs to achieve the objectives. The stated Housing Programs are based on a review of past performance of the prior 2013-2021 Housing Element, analysis of current constraints and resources, and input from Costa Mesa residents and stakeholders.

Housing Goal #1
Preserve and enhance the City's existing housing supply.

POLICIES HOU-1

HOU-1.1 Assist low and moderate-income homeowners and renters through housing assistance programs as long as funds are available.

HOU-1.2 Minimize the displacement risk for existing residents when considering approval of future redevelopment and public projects.

HOU-1.3 Prioritize enforcement of City regulations regarding derelict or abandoned vehicles, outdoor storage, substandard or illegal construction and establish regulations to abate blighted or substantially unmaintained properties, particularly when any of the above is deemed to constitute a health, safety, or fire hazard.

HOU-1.4 Establish housing programs and code enforcement as a high priority and provide adequate funding and staffing to support those programs.

HOUSING GOAL 1 IMPLEMENTATION ACTIONS

PROGRAM 1A: Owner-Occupied Housing Rehabilitation

This program is designed to assist qualified property owners to improve single-family residential properties. Improvements include, but are not limited to, health and safety repairs such as mechanical, plumbing, electrical, roofing, security, medical emergency requirements, and/or aid the mobility of the physically disabled and/or elderly. The program provides rehabilitation loans (up to $50,000) and grants (up to $14,000). The loan offers deferred payment that will accrue three percent simple interest per annum and will be fully deferred without principal repayment until the sale or transfer of all or any interest in the property, or the occurrence of any other default by the property owner identified in the terms and conditions of the Loan Agreement. Maximum loan-to-value is 85 percent of the current market value.

Objectives:

- Provide informational materials on the Owner-Occupied Housing Rehabilitation program.
- Encourage the participation of seniors, veterans, and disabled residents in this program.
- Evaluate the effectiveness of this program and, if necessary, modify program characteristics.

Timeframe: Annually market information and evaluate the program's effectiveness. Any program modifications to be made within 12 months of final adoption of the 2021-2029 housing element.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Source: Federal HOME funds

PROGRAM 1B: Mobile Home Rehabilitation

The City encourages the preservation of mobile homes as an affordable housing resource. Specifically, the City provides financial assistance (up to $10,000) as a grant to eligible owner-occupants to rehabilitate existing dwelling units.

Objectives:

- Provide financial assistance as long as funding from CDBG funds remains available.
- Market information on funding as available.

Timeframe: Annually market assistance available and grant funding on a case-by-case basis.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Source: Community Development Block Grants (CDBG) Funds

PROGRAM 1C: Monitoring and Preservation of At-Risk Housing Units

The City has 1,144 total housing units with affordability covenants. Of these units, 75 are at risk of converting to market rate between 2021 and 2031 – Casa Bella Apartments. All residential developments with affordability covenants are listed in Section 3.E.4 of this Housing Element.

Objectives:

- Regularly monitor deed-restricted units that have the potential of converting to market-rate during the planning period.
- Work with the property owners of Casa Bella on potential extensions past the current 2025 agreement.
- Comply with noticing requirements and coordinate with qualified entities to preserve at-risk units.

- Assist with funding, as available, or support funding actions for tenant education.

Timeframe: Coordinate with property owners of at-risk units through the end of financial agreements. Annually market tenant education information and available assistance.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division and Planning Division
Funding Source: CDBG, Golden State Acquisition Fund (GSAF), Multifamily Housing Program (MHP)

Housing Goal #2
Facilitate the creation and availability of housing for residents at all income levels and for those with special housing needs.

POLICIES HOU-2

HOU-2.1 Facilitate the development of housing that meets the needs of all segments of the population including affordable housing and households with specialized needs.

HOU-2.2 Promote the use of State density bonus provisions to encourage the development of affordable housing for lower and moderate-income households, as well as senior housing through the dissemination of informational materials and discussions with project applicants.

HOU-2.3 Monitor the implementation of the City's ordinances, codes, policies, and procedures to ensure they comply with State requirements for "reasonable accommodation" for disabled persons and all fair housing laws.

HOU-2-4 Encourage housing programs and future actions that address the need for affordable housing options as well as the housing needs of Costa Mesa's senior resident population and the large households population.

HOUSING GOAL 2 IMPLEMENTATION ACTIONS

PROGRAM 2A: Inclusionary Housing Ordinance

As of adoption of the 6th Cycle Housing Element, the City of Costa Mesa is analyzing the market impacts and potential affordability requirements for an inclusionary housing requirement for specific projects. The City has hired a consultant to evaluate and make recommendations regarding the structure of a potential inclusionary housing ordinance, including the affordability percentage requirement, potential for an in-lieu fee option, and other factors. As part of this effort, the City will consider the applicability of establishing a local preference policy.

Objectives:

- Consider adoption of an inclusionary housing ordinance.

Timeframe: Within 12 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division and Planning Division
Funding Source: In Kind, General Fund

PROGRAM 2B: Affordable Housing Development

The City understands that there may be local procedures or standards that could impact the development of affordable housing. The development process relies on a number of factors working together, including timing, fees and flexibility in design components required of a project. As such, this program aims to inform and incentivize the development community to develop affordable housing.

Objectives:

- Pursue State and regional funding for affordable housing development.
- Pursue local partnerships and annually meet with affordable housing organizations to encourage the development of housing affordable to all segments of the population.
- Establish development incentives (i.e. deferment of fees, priority processing, modified development standards, etc.) for affordable housing projects that meet objective evaluation criteria similar to the process for density bonus concessions.
- Develop clear instructional materials for achieving incentives and make them publicly available on the City's website.

Timeframe: Establish incentives and instructional materials within 12 months of final adoption of the 2021-2029 Housing Element Update. Pursue funding and partnership annually. Meet with organizations annually.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/ Housing and Community Development Division and Planning Division
Funding Source: HOME, General Fund, State Department of Housing and Community Development Funds, Low Income Housing Tax Credits and CalHFA

PROGRAM 2C: Supportive Services for Persons with Special Needs

The City recognizes special needs groups (as defined in Chapter 2 of this Housing Element) require additional assistance to secure decent housing and supportive services. Through the annual Action Plan process for the CDBG program, the City evaluates the needs of various special needs groups and the allocation of CDBG Public Service dollars accordingly. The City will continue to expend available CDBG funds in a manner that addresses local needs and augments the regional continuum of care system in Orange County.

Objectives:

- Provide information regarding the City's Annual Action Plan findings regarding special needs groups and the availability and allocation of CDBG funds on the City's website.
- Outreach to local organizations working with special needs populations to receive feedback and provide information on the availability of funding.

Timeframe: Annually outreach to local organizations and provide information online regarding the Annual Action Plan findings regarding special needs populations and availability and allocation of CDBG funds.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Source: CDBG

PROGRAM 2D: Facilitate Development of Senior Housing Options

Senior residents, generally defined as those over 65 years of age, make up approximately 10.7 percent of the population in Costa Mesa and 7.5 percent of all households within the City are seniors living alone. As part of the candidate housing sites analysis, the City has identified one parcel suitable for the specific

development of senior housing. This program aims to coordinate with the development community to facilitate the development of senior housing on this parcel and throughout the City.

Objectives:

- Identify potential opportunities for Senior Housing developments within Costa Mesa, including working with developers who specialize in the development of Senior Housing.
- Pursue opportunities for senior housing on the Senior Center parcel identified as part of the candidate housing site analysis and/or other sites within the City.

Timeframe: Annually meet with senior housing developers to receive feedback, market housing sites adequate for the development of senior housing and pursue other opportunities for senior housing development.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Source: HOME, In Kind

PROGRAM 2E: Encourage Development of Housing Options for Large-Family Households

Large households are defined as those consisting of five or more members. In Costa Mesa, approximately 10 percent of all households meet the definition of a large-family household. The majority of large-family households are renter-occupied (62.8 percent) as opposed to owner-occupied (37.2 percent). This is compounded by the fact that single-family detached households, which generally tend to be owner-occupied in Costa Mesa, are more likely to be able to accommodate five or more people while apartment complexes rarely develop units larger than 3 bedrooms.

Objectives:

- Promote and work with applicants who propose for-rent residential projects to encourage 4-bedroom units as part of proposed developments.
- Review development standards to determine if any pose an impediment to the development of larger units. If it is found that certain standards present an impediment, the City will consider amendments to the Zoning Code to alleviate those impediments.

Timeframe: Review development standards for larger units and, if necessary, amend the Zoning Code within 36 months of final adoption of the 2021-2029 Housing Element. Annually meet with housing developers to encourage the development of larger units.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Source: HOME funds, In Kind

PROGRAM 2F: Persons with Physical and Developmental Disabilities

As identified in **Chapter 2**, the City of Costa Mesa has a total of 9,224 persons reported having at least one physical disability. As of May 2021, approximately 932 persons with a developmental disability have received services through the Regional Center of Orange County (RCOC). The City understands that people with physical and developmental disabilities may have unique needs when looking for housing accommodations and is committed to assisting residents.

Objectives:

- Take actions to accommodate ADA retrofit efforts, ADA compliance and/or other measures where appropriate through the implementation of Title 24, as well as reviewing and amending its procedures to comply with State law, as necessary.
- Review procedures and, as necessary, provide more flexibility in housing accommodations for persons with physical and developmental disabilities.

Timeframe: Review procedures to accommodate ADA retrofit efforts, ADA compliance and/or other measures where appropriate, and, if necessary, amend the Zoning Code within 36 months of final adoption of the 2021-2029 Housing Element.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Source: HOME, CDBG, In Kind

PROGRAM 2G: Safety Element Update and adoption of Environmental Justice Policies

SB 1035 requires that the City review and revise the Safety Element to identify new information relating to flood and fire hazards that was not previously available during the previous revision of the Safety Element. SB 1000 requires that the City incorporate environmental justice policies within the General Plan.

Objectives:

- Revise and amend the current Safety Element.
- Amend portions of the General Plan to include environmental justice policies in compliance with SB 1000.

Timeframe: Within 12 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Development Services Department/Planning Division
Funding Source: State and Federal Grant Funds (e.g., SB2 LEAP funds), In Kind, General Fund

PROGRAM 2H: Farmworker Housing

Per California Health and Safety Code Sections 17021.5 and 17021.6, the City is required to permit farmworker housing by-right, without a conditional use permit (CUP), in single-family zones for six or fewer persons and in agricultural zones with no more than 12 units or 36 beds.

Objectives:

- Amend the current Zoning Code to meet requirement set forth in the California Health and Safety Code Sections 17021.5 and 17021.6.

Timeframe: Within 12 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind

PROGRAM 2I: Promote State Density Bonus Incentives

Density bonus is an effective incentive to aid in the development of affordable housing units within Costa Mesa through providing concessions to proposed developments that meet specific affordability criteria. These concessions may take the form of additional residential units permitted beyond the density allowed

in the base zoning, a relaxed parking standard, as well as the ability to deviate from development standards. Currently, the maximum number of concessions a project can receive through density bonus is three.

Objectives:

- Evaluate and update the Density Bonus Ordinance to comply with State Density Bonus Law.

Timeframe: Within 24 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

PROGRAM 2J: Transitional and Supportive Housing

California Government Code Section 65583(c)(3) requires transitional and supportive housing to be permitted in all residential zoning districts under the same restrictions as other residential dwellings of the same type in the same zone. Government Code Section 65651(a) also requires permanent supportive housing to be permitted by-right in zones where multi-family and mixed-use development is permitted, including non-residential zones permitting multi-family uses if they meet the Government Code Section requirements.

Objectives:

- Amend the Zoning Code to include transitional and permanent supportive housing within the City's land use matrix in compliance with Senate Bill 2 and Government Code Section 65651
- Monitor the inventory of sites appropriate to accommodate transitional and supportive housing.
- Proactively engage relevant organizations to meet the needs of persons experiencing homelessness and extremely low-income residents.

Timeframe: Within 24 months of final adoption of the 6th Cycle Housing Element.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind

PROGRAM 2K: Planning Application Fees

Residential developers are subject to a variety of fees and exactions to process permits and provide necessary services and facilities as allowed by State law. Development fees are necessary to implement planning, zoning and building safety laws and to provide the public services and infrastructure necessary to serve City residents. This program seeks to avoid application fees creating constraints to the development of affordable housing.

Objectives:

- Review planning application fees, with a special focus on the density bonus fee, and update the fee(s) to avoid creating a constraint to the development of affordable housing.

Timeframe: Within 24 months of final adoption of the 6th Cycle Housing Element.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

PROGRAM 2L: Development of Housing for Extremely Low and Lower-Income Households

The City recognizes the importance of supporting the development of housing for low and extremely low income households. It is a primary goal of the Housing Element to increase the feasibility of development of housing for extremely low and low income households.

Objectives:

- Subsidize up to 100 percent of the City's application processing fees for qualifying developments where all units are affordable to 80 percent AMI or lower, as funding is available.
- Annually promote the benefits of this program to the development community by posting information on its webpage and creating a handout to be distributed with land development applications regarding development opportunities and incentives.
- Proactively reach out to developers at least once annually to identify and promote development opportunities.
- Adopt priority processing and streamlined review for developments with units affordable to lower income households.
- Support funding development applications throughout the planning period for projects proposing units affordable to lower income households.

Timeframe: As funding is available, promote the program and outreach; adopt priority processing and other incentives within 24 months of final adoption of the 6th Cycle Housing Element.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

PROGRAM 2M: Parking Standards for Residential Developments

The City's residential off-street parking requirements are provided in Section 3.B.3 of this Housing Element. Parking requirements ensure that there is adequate parking provided for residents and for guests in both single-family and multi-family residences. This program seeks to avoid potential constraints due to parking requirements to facilitate the development of multi-family developments, and specifically affordable housing projects.

Objectives:

- Review and revise the Zoning Code's requirements for residential off-street parking for multi-family projects to facilitate the development of multi-family housing, and specifically affordable housing.

Timeframe: Review within 24 months of final adoption of the 2021-2029 Housing Element Update; revise Code within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

PROGRAM 2N: Reasonable Accommodation

The City has completed an analysis of its Reasonable Accommodation process in Section 3 of this Housing Element. By the nature of Reasonable Accommodation requests and the range of potential modifications that could need to be accommodated, the City has to evaluate each request individually. This process is described within the City's Zoning Code and persons may contact the City's planning department for assistance with requests. The City will review and consider revisions to its Reasonable Accommodation process to be consistent with State and federal fair housing requirements.

Objectives:

- Review and revise the Reasonable Accommodation procedure to promote access to housing for persons with disabilities, address potential constraints and establish potential objective standards, and provide guidance and amend as necessary to promote greater certainty on how approval findings will be implemented.
- Meet with local organizations and developers to promote access to housing for persons with disabilities and address potential constraints.

Timeframe: Review within 24 months of final adoption of the 2021-2029 Housing Element Update; revise Code within 36 months of final adoption of the 2021-2029 Housing Element Update.
Annually review and, if necessary, revise the reasonable accommodations procedures. Annually meet with local organizations and housing developers to promote access to housing for persons with disabilities and address potential constraints.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

PROGRAM 2O: Definition of Single Housekeeping Unit

The City's definitions of "family" and "single housekeeping unit" within the zoning code do not differentiate between related and unrelated individuals, or between disabled and non-disabled individuals, living together. Notwithstanding, in order to promote flexibility to accommodate residents with different living conditions, the City will review and consider revisions to its zoning code per the objectives below.

Objectives:

- Review and revise the definition of "single housekeeping unit" within the zoning code to provide greater flexibility in consideration of accommodating a variety of household situations for related and unrelated individuals living together.

Timeframe: Review within 24 months of final adoption of the 2021-2029 Housing Element Update; revise Code within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

PROGRAM 2P: Group Homes

The City has completed an analysis of its regulations applicable to group homes in **Section 3** of this Housing Element. Group homes are allowed in all residential zoning districts through a conditional or special use permit. The City will review and consider revisions to its zoning code applicable to group homes per the objectives below.

Objectives:

- Review and revise the City's zoning code and application procedures applicable to group homes to promote objectivity and greater approval certainty.

Timeframe: Review within 24 months of final adoption of the 2021-2029 Housing Element Update; revise Code within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Source: In Kind/General Fund

Housing Goal #3
Identify adequate, suitable sites for residential use and development to meet the City's Regional Housing Needs Assessment (RHNA) at all income levels and promote a range of housing types to meet the needs of all segments of the Costa Mesa community.

POLICIES HOU-3

HOU-3.1 Encourage the conversion of existing marginal, underutilized, or vacant motels, commercial, and/or industrial land to residential, where feasible and consistent with environmental conditions that are suitable for new residential development.

HOU-3.2 Encourage the development of well-planned and designed residential or mixed-use projects which, through vertical or horizontal integration, provide for the development of compatible residential, commercial, industrial, institutional, or public uses within a single project, neighborhood, or geographic area within the City.

HOU-3.3 Actively engage and partner with large employers, the Chamber of Commerce, and major commercial and industrial developers to identify and implement programs to balance employment growth with the ability to provide housing opportunities affordable to the incomes of the newly created job opportunities.

HOU-3.4 Consider the potential impact of new housing opportunities and their impacts on existing residential neighborhoods when reviewing development applications affecting residential properties.

HOU-3.5 Encourage residential and mixed-use development along transportation routes and major commercial/mixed use corridors.

HOUSING GOAL 3 IMPLEMENTATION ACTIONS

PROGRAM 3A: Adequate Sites

The City of Costa Mesa is required to maintain an inventory of vacant and underutilized sites and provide this inventory to interested developers as well as make the information publicly available. To keep this list accurate, the City will monitor its status of meeting the Regional Housing Needs Allocation (RHNA) annually and ensure that the City has adequate sites available to accommodate its RHNA.

Objectives:

- Maintain an inventory of vacant and underutilized sites and provide this inventory to interested developers.
- Monitor its status of meeting the Regional Housing Needs Allocation (RHNA) annually and ensure that the City has adequate sites available to accommodate its RHNA. If the City's inventory of adequate sites falls below its remaining RHNA, the City will take actions to identify additional capacity to accommodate the shortfall.
- Promote the development of housing, live/work, and mixed-use development on the sites identified within the inventory through actions such as:
    - Make information on candidate housing sites readily available through a database available to the public.

- Priority processing for candidate housing sites which provide the amount of affordable housing units at the income levels identified within the housing element for individual candidate sites.
- If funding becomes available, the City shall subsidize up to 100 percent of the City's application processing fees for qualifying developments that provide the amount of affordable housing units at the income levels identified within the housing element for individual candidate sites.

Timeframe: Publish candidate housing sites on the City website within 12 months of final adoption of the 2021-2029 Housing Element Update. Provide priority processing for candidate housing sites that meet the outlined requirements throughout the planning period. Market available funding, as available, for projects on candidate housing sites that meet outlined requirements
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind

PROGRAM 3B: Fairview Development Center – State Property

Fairview Development Center, owned by the State of California, is a 109-acre property located at 2501 Harbor Boulevard in Costa Mesa. This property historically housed adults with intellectual and developmental disabilities but is closed and has been identified as surplus property by the State. The City has engaged with the State Department of General Services regarding the future use of the property as a master planned residential/mixed-use community with a substantial affordable housing component and other community amenities.

The City has been coordinating with the State of California Department of General Services (DGS) for future use of the site. The City is considering various zoning strategies permit the residential densities and development of the acreage identified within the candidate housing sites inventory, while also considering expedited permitting.

On June 26, 2022, Senate Bill No. 188 was approved by the State Assembly, which authorized the State to enter into an agreement with the City of Costa Mesa for the City to develop a specific plan for the Fairview Developmental Center property. The State appropriated $3.5 Million to the State Department of Development Services for allocation to the City to facilitate disposition of the Fairview Developmental Center property, by amending the general plan of the City and any appropriate planning documents and zoning ordinances, completing any environmental review, and addressing the economic feasibility of future development to be utilized for a mixed-use development, including mixed-income housing. Pursuant to the Senate Bill, the development would include and prioritize affordable housing, including at least 200 units of permanent supportive housing, and open space.

Objectives:

- Partner with the State to pursue compatible development on the Fairview Development Center site consistent with the State's Site Assessment and the Housing Element's sites analysis to permit residential development at the identified densities.
- Complete rezoning actions at the Fairview Developmental Center through development of a Specific Plan, rezone to an existing City zone, and/or other appropriate rezoning action within three years of an agreement with the State of California. Development at the site will be subject to the City's Inclusionary Housing Ordinance (to be established as outlined in Program 2A) or equivalent

affordability requirements and will be subject to development process incentives such as expedited processing including a dedicated staff project manager to promote future projects within the Fairview Developmental Center property to include affordable housing. The City will develop standards as part of the applicable zoning action to give clear guidance to future development projects with the intent of reducing the time it takes to entitle and develop projects for residential uses. The City will facilitate parceling and site planning at appropriate sizes as part of the Specific Plan, concurrent with the rezoning of the parcel.

- If re-zoning is not completed, the City will identify additional alternative sites within the City that can accommodate a potential shortfall in housing sites to accommodate the remaining RHNA within 180 days of determination of a shortfall of adequate sites as required by SB 166 (No Net Loss) consistent with the objective in Program 3A.
- The City will coordinate land use and zoning efforts concurrent with the city-wide rezoning efforts to implement the housing element. Fairview Developmental Center will go through an RFP process within the next three years to plan to for the development of up to 2,300 residential units (including approximately 900 affordable units).
- On October 4, 2022 the City approved an agreement with the State of California to fund planning services relating to the Fairview Development Center. The agreement stipulates that the State will provide up to $3.5 million in funds to the City to support an up to three-year agreement for a City-led local outreach and land planning effort for the FDC site. The funds will be used for the following land use planning activities: extensive community engagement, technical analysis and infrastructure studies, conceptual land use exhibits and Land Use Alternatives, preparation of a Specific Plan and associated general plan and zoning amendment, preparation of the Environmental Impact Report and associated technical studies pursuant to the California Environmental Quality Act, public hearings and review of the State prepared RFP process for site disposition. The City will facilitate development as appropriate including zoning, incentives, expedited processing and similar actions within three years of final adoption of the 2021-2029 Housing Element.

Timeframe: Negotiate agreement to develop housing at the Fairview Developmental Center site within 36 months of final adoption of the 2021-2029 housing element. or as modified by the State. If unsuccessful, identify additional sites to accommodate shortfall.
Responsible Agency: City of Costa Mesa/State of California
Funding Sources: State and Federal Grant Funds, In Kind

PROGRAM 3C: Update the North Costa Mesa Specific Plan

The North Costa Mesa Specific Plan is an existing specific plan located north of the 405 Freeway, containing a mixture of residential, commercial, office, and cultural/arts uses. Development in this area is typically of higher densities/intensities than other areas in Costa Mesa. This area is a key component of the City's sites strategy for future housing growth.

The City will complete the required zoning code/Specific Plan amendments to update the North Costa Mesa Specific Plan based on the sites analysis to permit residential development at an allowable density up to 90 dwelling units per acre. Through this program, the City will modify development standards to promote residential development at the allowable density. These updates may include amending the boundary of the Specific Plan area as well as revising development standards. The number of housing units able to be

developed in these areas is determined by the density. This program modifies densities within the North Costa Mesa Specific Plan to accommodate the assumptions within the Housing Element.

Objectives:

- Complete the required zoning code/Specific Plan amendments to update the North Costa Mesa Specific Plan based on the sites analysis to permit residential development at an allowable density of up to 90 dwelling units per acre. The City will update standards which apply to the entirety of the specific plan area, including the 16 sites totaling approximately 70.75 acres that are identified within the sites inventory list. 6,435 units identified within the North Costa Mesa Specific Plan across all income levels are identified to meet the City's shortfall in units. As noted in the program, development capacity is determined by density so effectively there are no total unit caps within the North Costa Mesa Specific Plan.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: State and Federal Grant Funds (e.g. SB2 LEAP funds), In Kind, General Fund

PROGRAM 3D: Update the City's Urban Plans and Overlays

The City has adopted Urban Plans and overlays that apply to specific planning areas and corridors within the City. These plans are intended to encourage compatible development through modified development standards and guidelines specific to a localized area of the City.

The City will complete the required zoning code amendments to update the existing Urban Plans and Overlays based on the sites analysis to permit residential development at the densities identified in the candidate housing sites analysis. These updates may include amending the boundary of the Specific Plan area as well as revising development standards. Densities for residential development in the separate Urban Plans and Overlays are anticipated to differ depending on the surrounding context and are listed in **Appendix B.** Based on City Council's concerns with displacement of long-term tenants and to preserve the existing housing stock on the west side, the Mesa West Residential Ownership Overlay is proposed to be removed.

The City has identified the acreage shown below in and around the identified Urban Plan and Overlay areas to either be rezoned or have their zoning characteristics modified through changes to the development standards within the existing Urban Plans. Urban Plan and overlays do not change the base zoning of a parcel, but rather add flexibility in development potential, including uses and densities. There are no caps on residential development within the Urban Plan and Overlay areas.

Objectives:

- Complete the required zoning code amendments to update the existing Urban Plans and Overlays based on the candidate housing sites analysis to permit residential development at the identified allowable densities:
    - 19 West Urban Plan (50 du/ac). The City will update standards which apply to the entirety of the 19 West Urban Plan area, including the 12 sites totaling approximately 12.97 acres that are identified within the sites inventory list. 640 anticipated dwelling units identified within the 19 West Urban Plan across all income levels are identified to meet the City's

shortfall in units. This update will include appropriate development standards to facilitate allowable densities.

- SoBECA Urban Plan (60 du/ac). The City will update standards which apply to the entirety of the SoBECA Urban Plan area, including the 18 sites totaling approximately 12.33 acres that are identified within the sites inventory list. 732 anticipated dwelling units identified within the SoBECA Urban Plan across all income levels are identified to meet the City's shortfall in units. This update will include appropriate development standards to facilitate allowable densities.
- Mesa West Bluff Urban Plan (40 du/ac). The City will update standards which apply to the entirety of the Mesa West Bluff Urban Plan area, including the 16 sites totaling approximately 27.02 acres that are identified within the sites inventory list. 1,071 anticipated dwelling units identified within the Mesa West Bluff Urban Plan across all income levels are identified to meet the City's shortfall in units. This update will include appropriate development standards to facilitate maximum densities.
- Harbor Mixed-Use Overlay (50 du/ac). The City will update standards which apply to the entirety of the Harbor Mixed-Use Overlay area, including the 27 sites totaling approximately 29.38 acres that are identified within the sites inventory list. 1,485 anticipated dwelling units identified within the Harbor Mixed-Use Overlay across all income levels are identified to meet the City's shortfall in units. This update will including appropriate development standards to facilitate maximum densities.

- Remove the Mesa West Residential Ownership Overlay.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: State and Federal Grant Funds (e.g., SB 2 LEAP funds), In Kind, General Fund

PROGRAM 3E: Promote the Development of Accessory Dwelling Units (ADUs)

Costa Mesa has single-family and multi-family residential neighborhoods which create the environment for accessory dwelling units to be built. As discussed in the analysis in **Chapter 3**, new State laws, combined with relaxed development standards (such as waiver of parking requirements along with increased educational efforts by the City) have resulted in an increased number of ADUs being permitted and constructed since 2018. The City anticipates continued growth in ADU development as the concept becomes more common within Southern California. The City will implement programs with the intent of promoting the development of accessory dwelling units within the 6th cycle including the following.

Objectives:

- Review and revise the City's ADU ordinance as necessary to comply with State law.
- Coordinating with the County on implementation of a permit-ready ADU program.
- Post a user-friendly FAQ on the City's website to assist the public.
- Consider waiving certain permitting fees, as funding is available.
- Creating an expedited plan check review process to ease the process for homeowners.
- Research potential State and Regional funding sources for affordable ADUs and make the information found publicly available to homeowners.

- Engaging with residential development applicants regarding ADU opportunities that may not have been considered.

Timeframe: Program components analyzed within 12 months of final adoption of the 2021-2029 housing element., with one additional year for implementation.
Review and revise the ADU ordinance within one year.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind, General Fund

PROGRAM 3F: Motel Conversions, Efficiency Units, and Co-living Housing Types

The City does not currently have a definition or standards within the Zoning Code that address permitting co-living units, efficiency units, or other development types with small unit sizes and shared facilities. Motel conversions to permanent housing are referenced in the Zoning Code but policies and standards have not been updated for many years and may serve as an impediment to conversions. Participants in the City's community outreach process expressed that these types of units may meet a need for students, young professionals, seniors, or anyone within the community who may desire smaller housing unit options that are more affordable. Additionally, the City's analysis in **Chapter 2** showed that non-family households made up an estimated 40.2 percent of total households within Costa Mesa in 2018. Co-living or flexibility in housing types may present increased housing options at different affordability levels for this large portion of households in Costa Mesa.

If an appropriate project becomes available, the City will explore opportunities to implement motel conversions through Project Homekey understanding that it is a competitive grant process that does not guarantee funding. City Council has authorized staff to submit grant applications for two projects under project Homekey and has approved a funding commitment of up to $3.5 million for local match funding for one or two Homekey projects, contingent upon award of State Homekey Program grant. A qualified /experienced City staff member has been assigned to manage these potential program activities.

Objectives:

- Establish definitions of co-living and efficiency housing options within the Costa Mesa Zoning Code
- Develop informational materials which outline the City's process for permitting efficiency unit and co-living housing types and distribute them to interested members of the development community.
- Explore opportunities to implement motel conversions through Project Homekey.
- Comply with State and Federal laws related to displacement and relocation of long-term residents when considering motel conversion opportunities.

Timeframe: Within 24 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: State and Federal Grant Funds (e.g., HUD funds, State Project Homekey funds), In Kind

PROGRAM 3G: Address City-wide Vote Requirement in Relation to Housing Element Compliance

As it exists upon adoption of the 2021-2029 Costa Mesa Housing Element, the City's Municipal Code requires voter approval of certain changes in land use, defined as those projects that amend, change or replace the General Plan, the Zoning Code, a specific plan, or an overlay plan, (collectively, legislative

changes) and that involve any one of the following changes: adds 40 or more dwelling units, generates more than 200 additional average daily trips; increases the volume/capacity of an intersection based on specified formulas; changes the intersection capacity utilization or level of service based on specified formulas; adds 10,000 square feet of retail, office or other nonresidential; or, where the proposed project, combined with other projects within 8 years and a half mile of each other, meet the above criteria. Additionally, voter approval is required for projects that involve one of the above legislative changes and: changes from public uses to private uses under specified circumstances; land designated as utility right-of-way under specified circumstances; land donated, bequeathed, or otherwise granted to the City; land used or designated for Costa Mesa school property; or land owned, controlled, or managed by the City.

Through extensive community outreach with Costa Mesa residents, housing advocates, and members of the development community, the City of Costa Mesa has continued to contemplate the role of the City-wide vote requirements in relation to the City's 2021-2029 Housing Element Update. State HCD has identified the City-wide vote process as a clear constraint to the future development of residential uses within the City, a constraint to implementing the land use and zoning changes necessary to achieve State-mandated compliance with the RHNA allocation, and also conflicts with meeting State housing requirements. The City recognizes that it must, in coordination with guidance from the City Attorney and input from the community, determine a path forward to be able to adopt the subsequent changes to specific plans, urban plans, and overlays that are necessary to implement the City's adopted Housing Element and meet the City's RHNA allocation.

The City may move forward with adoption of a state-mandated Housing Element Update; however, it is not clear how the City-wide vote requirement affects the associated rezones and revisions to existing specific plans, urban plans, and overlays included as program actions within the Housing Element.

The City will take the following steps to identify and address specific ways in which the City-wide vote process functions as a constraint to housing compliance, the city's housing goals, and other shared community goals.

Milestones	Timing For Completion
(1) Engage the community and other stakeholders, and complete legal analysis necessary to identify appropriate modifications to the City's Municipal Code requirement for voter approval	Complete by June 2022
(2) Prepare ballot measure language and obtain City Council approval for placement of modifications on the ballot for the November 2022 general election.	Complete by August 2022
(3) Inclusion of the proposed measure on the Ballot of Local Election.	Complete by November 2022
(4) Creation and adoption of an inclusionary housing ordinance. The Municipal Code exempts "affordable housing proposals required by state or federal law" from the City-wide vote requirement. A City Council- approved inclusionary housing ordinance provides an opportunity to address affordable housing needs City-wide.	Within 12 months of final adoption of the Housing Element, consistent with Program 2A
(5) Engage in a community planning and visioning process. Prepare General Plan amendments, rezones, and revisions to existing specific plans, urban plans, and overlays included as program actions necessary to meet the City's RHNA allocation as identified within the Housing Element. Complete	Complete by June 2025

Milestones	Timing For Completion
appropriate technical studies and CEQA compliance documents. Obtain City Council approval.	
(6) If there is a continued shortfall of sites after a Ballot Measure vote, the City will request an opinion from the State's Attorney General's Office as to the City's options, or other equivalent actions to ensure adequate sites to accommodate the City's RHNA and address constraints to development.	Complete by December 2025

In addition to these actions, beginning in 2022 and in conjunction with the City Attorney's Office, the City will evaluate and pursue various options to minimize the constraints of a city-wide vote requirement on housing by providing the City Council greater discretion in approving housing and affordable housing projects to comply with all requirements in State Housing Element law without further ballot initiative.

Objective:

- Minimize the constraint of a city-wide vote requirement on creation of housing including affordable housing through the modification of existing City overlays, urban plan areas, and specific plans to rezone candidate housing sites that can accommodate affordable housing and a variety of mixed use/ housing options near jobs and transit. By 2025, initiate a ballot measure, or other alternative option, to provide City Council greater discretion in approving affordable housing and mixed use/ housing options in appropriate locations.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind/General Fund

PROGRAM 3H: Analyze the Potential of Establishing an Overlay to Permit Residential Uses in the Airport Industrial Area

The airport industrial area presents an opportunity for future housing growth. There are several sites within this area that do not fall within significant noise contours relating to operations at John Wayne Airport. The City has not included any sites within this area within the candidate housing sites analysis in **Appendix B** but recognizes that this area may be able to accommodate housing within the planning period.

Objectives:

- Evaluate the potential to add an overlay to an area in the airport industrial area which would permit residential development.
- Complete a market analysis to determine the potential factors involved with permitting residential uses in the airport industrial area.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind, General Fund

PROGRAM 3I: Analyze the Potential of Establishing an Overlay to Permit Residential Uses in the 17th Street Corridor Area

The 17th Street corridor has developed into a successful commercial and restaurant hub within the City of Costa Mesa. This area presents the opportunity for focused mixed-use development which would further enliven the corridor through the addition of residential uses. The City has not included any sites within this area within the candidate housing sites analysis in **Appendix B** but recognizes that this area may be able to accommodate housing within the planning period.

Objectives:

- Evaluate the potential to add an overlay to an area in the 17th Street corridor area which would permit residential development.
- Complete a market analysis to determine the potential factors involved with permitting residential uses in the 17th Street corridor area.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind, General Fund

PROGRAM 3J: Analyze the Potential of Modifying the Newport Boulevard Specific Plan to Promote Residential Uses along Newport Boulevard

The Newport Boulevard corridor contains a mix of commercial uses including 1980's-era motels on small lots fronting Newport Boulevard adjacent to SR-55, with established residential communities located in close proximity. This area presents the opportunity for focused mixed-use development which would further enliven the corridor through the addition of strategically located residential uses. The City adopted a Specific Plan for the area in the 1990's which allows for residential development; however, many of its policies have not been updated. The City has not included any sites within this area within the candidate housing sites analysis in **Appendix B** but recognizes that this area may be able to accommodate housing within the planning period.

Objectives:

- Evaluate potential modifications to the Newport Boulevard Specific Plan that would promote quality residential development.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind, General Fund

PROGRAM 3K: Explore Potential Future Housing Opportunities on Church Sites

The City did not identify any church properties as housing opportunity sites within the 2021-2029 Housing Element but believes these partnerships with the local faith-based organizations that serve Costa Mesa could be an important component of the overall process of creating more affordable housing in the community.

Objectives:

- Collaborate with members of the faith-based community to discuss housing and the unique opportunities and challenges faced by faith-based organizations when considering creating housing opportunities on church properties with the potential for wrap around services.
- Develop materials outlining the development process and make them available on the City's website.

Timeframe: Develop online materials on the development process within 12 months of final adoption of the 2021-2029 Housing Element Update and update, as necessary.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind, General Fund

PROGRAM 3L: Annual Progress Reports

The Annual Progress Report outlines the status of residential development projects within the City at various phases of the development process as well as the City's progress towards meeting the stated program actions within the Housing Element. The report is due to the State Department of Housing and Community Development (HCD) each year within a timeline determined and published by the State.

Objectives:

- Annually complete the required housing status reporting through the City's Annual Progress Report.

Timeframe: Annually complete and submit an Annual Progress Report to HCD.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind

PROGRAM 3M ADU and JADU Monitoring Program

ADUs and JADUs may be developed in addition to an existing single- or multi-family residential use and can provide a source of affordable housing for family members, students, and other members of the community. As a result of new legislation and an increased effort by the City to promote ADUs, the City has seen an increase in applications in recent years and anticipates growth throughout the planning period, as detailed in **Appendix B** of this Housing Element.

Objectives:

- Create a monitoring program to track ADU and JADU development and affordability levels throughout the planning period.
- Conduct a review of ADU development and affordability every two years and make adjustments to accommodate a potential shortfall if determined necessary (i.e. additional incentives for ADU development or identification of adequate sites to meet the City's identified unaccommodated need).

Timeframe: Monitoring program created within 36 months of final adoption of the 2021-2029 Housing Element Update. Reviews conducted every two years throughout the planning period, and potential adjustments made within six months.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division

Funding Sources: In Kind

PROGRAM 3N: Candidate Sites Used in Previous Housing Elements

Pursuant to State Housing law, candidate sites identified in this Housing Element to accommodate a portion of the City's low- and very low-income RHNA that were identified in previously adopted Housing Elements must be rezoned to allow residential use by right at specified densities for housing developments in which at least 20 percent of the units are affordable to lower income households. By right shall mean the jurisdiction may not require a Conditional Use Permit or other discretionary, local-government review or approval that would constitute a "project", except if the project requires a subdivision; however, the City may impose objective design review standards on projects.

The City has identified as part of this Housing Element updated vacant and nonvacant sites that were used in previous Housing Elements to meet the current RHNA need. This can be found in Table B-6 in Appendix B.

Objectives:

- Place a housing overlay zone over all nonvacant sites included in a prior Housing Element and all vacant sites included in two or more consecutive planning periods that permits by right housing development for projects that meet the requirements of State housing law.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind

PROGRAM 3O: Water and Sewer Resources

Pursuant to Chapter 727, Statues of 2005 (SB 1087), the City of Costa Mesa is required to deliver its adopted Housing Element and any amendments thereto to local water and sewer service providers. This legislation allows for coordination between the City and water and sewer providers when considering approval of new residential projects. Additionally, cooperation with local service providers will support the prioritization of water and sewer services for future residential development, including units affordable to lower-income households.

Objectives:

- Submit the General Plan amendment and rezone sites to local water and sewer providers for their review and consideration when reviewing new residential projects.

Timeframe: Within 6 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind

PROGRAM 3P: Federal/State Housing Programs

The City will provide technical assistance to developers, nonprofit organizations, or other qualified private sector interests in the application and development of projects using Federal and State housing programs/grants. Additionally, the City will continue to partner with the OC Housing Finance Trust to identify potential funding sources.

Objectives:

- Provide technical assistance to developers, nonprofit organizations, or other qualified private sector interests in the application and development of projects using Federal and State housing programs/grants.
- Continue to partner with the OC Housing Finance Trust to identify potential funding sources.

Timeframe: Annually market available Federal and State housing programs and grants. Meet with qualified interested parties annually to provide technical assistance. Partner with the OC Housing Finance Trust throughout the planning period to identify additional potential funding sources.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Housing and Community Development Division
Funding Sources: State and Federal Grants, OC Housing Finance Trust

PROGRAM 3Q: Lot Consolidation

The City of Costa Mesa has identified several candidate housing sites that are smaller than half an acre in size. Assembly Bill 1397 identifies general size requirements for candidate housing sites of greater than half an acre and less than 10 acres in size. The City has only identified sites smaller than half an acre which show the likelihood of redeveloping in conjunction with other parcels which collectively meet the half acre requirement.

Objectives:

- Promote consolidation of residential properties to the development community and property owners to facilitate and promote the development of housing on smaller sites.
- Maintain information on the lot consolidation process and fees online and at City Hall.
- Continue to provide streamlined measures to facilitate consolidation and establish incentives
- Evaluate the effectiveness of streamlining measures by midpoint and make adjustments within 6 months

Timeframe: Within 12 months of final adoption of the 2021-2029 Housing Element, outreach and promote lot consolidation to the development community/property owners, and publish and maintain updated information on the City's lot consolidation processes and fees online and at City Hall.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: General Fund

PROGRAM 3R: Development of Large Sites

The City of Costa Mesa has identified several candidate housing sites that are larger than 10 acres in size as identified previously in Appendix B. Assembly Bill 1397 identifies general size requirements for candidate housing sites of greater than half an acre and less than 10 acres in size. These sites are:

- Fairview Developmental Center (Addressed separately in **Program 3B**)
- Sakioka Lot 2
- Home Ranch
- South Coast Plaza (assumed 15 acres of the entire property with existing use to remain)
- Pacific Arts Plaza

With the exception of the Fairview Development Center which is addressed separately, all of these properties are regulated by the North Costa Mesa Specific Plan and the zoning will be updated per the objectives in **Program 3C.** Additionally, most of these properties have development agreements which already anticipate the development of housing under existing zoning regulations. These agreements may be modified as necessary to reflect additional housing units and re-zoning as identified by the programs within this housing element. These agreements have been amended in the past so there is precedent for modifying them to adjust to market trends and current development conditions. Therefore, there are no unit caps within the City which would limit the number of units which can be developed on these sites. The sites will be planned to the densities provided within the City's zoning code as amended by the programs within this housing element.

Furthermore, the City has engaged each of these property owners multiple times throughout the development of the Housing Element and the anticipated number of units within the candidate sites inventory is based on input received. These assumptions have been reviewed in depth and the City has confirmed that these sites meet all requirements for the candidate sites inventory and they are likely to develop with residential uses within the planning period.

As stated below, the City will evaluate the development status of these sites within three years of the zoning amendments being completed to the North Costa Mesa Specific Plan. If there are not clear indications that the development of residential units is likely to occur within the planning period, the City will review its current RHNA progress and identify additional candidate sites within one year if necessary.

Objectives:

- Evaluate the development status of the five identified large candidate sites within three years of the applicable zoning amendments being completed. If the sites show no indication of development progress including the assumed density and affordability, the City will review current RHNA progress and identify additional candidate sites within one-year if necessary.
- Continue outreach to property owners through annual meetings. Provide technical assistance, incentives, and strategies as appropriate to facilitate the development of affordable housing, including parceling at appropriate sizes or other tools.
- Promote development of large sites at the densities and affordability levels identified within the housing element.
- Promote the potential subdivision of large sites into multiple parcels for future development through technical assistance, incentives, and strategies during the initial development phases and when applications come into the City for the identified parcels.

Timeframe: Direct outreach to property owners two times per year throughout the planning period. Review of development progress and potential identification of additional candidate housing sites following the schedule within the objectives.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: General Fund

PROGRAM 3S: Review and Revise Findings

The City of Costa Mesa has reviewed the approval findings for the three entitlement processes which are potentially applicable to residential development: Conditional Use Permits, Design Review, and Master

Plan. Although no projects have been denied due to not meeting the specific findings noted in Section 3, the City found that some approval findings may be interpreted broadly and could be modified for clarity.

Objectives:

- Review all approval findings for Conditional Use Permits, Design Review, and Master Plans and revise findings which are capable of being interpreted broadly, with the goal of improving housing cost, supply, timing of approvals, and approval certainty.

Timeframe: Within 12 months of final adoption of the 2021-2029 Housing Element
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: General Fund

Housing Goal #4
Provide housing opportunities to residents of all social and economic segments of the community without discrimination on the basis of race, color, religion, sex, sexual orientation, disability/medical conditions, national origin or ancestry, marital status, age, household composition or size, source of income, or any other arbitrary factors.

POLICIES HOU-4

HOU-4.1 Support equal housing opportunities as expressed in Federal and State fair housing laws.

HOU-4.2 Promote actions and programs that provide fair housing and counseling services and other housing assistance programs for all Costa Mesa residents in an effort to remove barriers and promote access to affordable housing in the City as funding is available.

HOU-4.3 Encourage and support the construction, maintenance and preservation of residential developments which will meet the needs of families and individuals with specialized housing requirements, including those with developmental disabilities.

HOUSING GOAL 4 IMPLEMENTATION ACTIONS

PROGRAM 4A: Fair Housing

The City of Costa Mesa participated in the 2020-24 update to the Orange County Analysis of Impediments to Fair Housing Choice, as well as completed an analysis of local factors to fair housing issues in the City within the Housing Element. Through each analysis, the City identified the following fair housing issues:

- Housing Discrimination
- Racial and Ethnic Segregation
- Unfair Lending
- Overcrowding

As part of the AFFH assessments, the City also identified the following factors as contributing to fair housing issues in Costa Mesa:

- Community Opposition
- Lack of Investment in Specific Neighborhoods
- Displacement of Residents Due to Economic Pressures

Pursuant to AB 686, the City will affirmatively further fair housing by taking meaningful actions, in addition to resisting discrimination, that overcomes patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristic, as defined by California law. The City will continue current efforts to further fair housing as well as implement the actions identified in the following table to mitigate local contributing factors to fair housing issues in Costa Mesa.

Contributing Factor	Specific Commitments	Timeframe and Priority	Geographic Target	Objective
Housing Mobility				
Housing Discrimination	1. Offer landlord education on fair housing practices and voucher programs.	**Priority Level 1** Annual workshop.	City-wide	Decrease future fair housing-related issues by hosting at last one annual workshop throughout the Planning Cycle.
	2. Extend search times for particular groups with housing choice vouchers, such as larger families with children or persons with disabilities.	**Priority Level 2** Within 36 months of adoption of the 2021-2029 Housing Element Update.	City-wide	Assist particular groups in accessing housing choice vouchers by extending search times.
	3. Accessibility programs focused on improving access to housing, transit, public buildings and facilities, sidewalks, pedestrian crossings, and businesses.	**Priority Level 2** Consider programs and, as necessary, adopt programs within 36 months of identifying a need.	City-wide	Improve accessibility throughout the community by considering programs.
	4. Encourage collaboration between local government and community land trusts as a mechanism to develop affordable housing in higher-opportunity areas.	**Priority Level 1** Annually facilitate collaboration through outreach and meetings.	Areas of high opportunity	Develop affordable housing in higher-opportunity areas of the City through annual outreach and meetings.
Racial and Ethnic Segregation	1. Conduct affirmative marketing to increase awareness and diversity throughout the city.	**Priority Level 1** Annual marketing and outreach.	City-wide	Metrics for this action are difficult to quantify. The City will promote actions which address racial and ethnic segregation as they continue to relate to fair housing issues in Costa Mesa.
	2. Outreach specifically to low and very low-income communities and conduct targeted outreach to residents with moderate and high levels of segregation.	**Priority Level 1** Annual workshop and outreach.	City-wide and focused areas of need	Metrics for this action are difficult to quantify. The City will promote actions which address racial and ethnic segregation as they continue to relate to fair housing issues in Costa Mesa.

Contributing Factor	Specific Commitments	Timeframe and Priority	Geographic Target	Objective
Housing Choice and Affordability in Areas of Opportunity				
Unfair Lending	1. Targeted investment and programs, including sweat equity, down payment assistance, and new rental construction.	**Priority Level 2** Within 36 months of adoption of the 2021-2029 Housing Element Update. Review funding opportunities annually.	City-wide	Consider investments and programs to provide assistance for homeowners and residential development.
Community Opposition	1. Develop an educational housing campaign to address community opposition.	**Priority Level 2** Within 24 months of adoption of the 2021-2029 Housing Element Update.	City-wide	Inform the community.
Displacement Due to Economic Pressures	1. Consider and adopt inclusionary requirements.	**Priority Level 1** Within 12 months of adoption of the 2021-2029 Housing Element Update.	City-wide	Consider adoption of an inclusionary requirements.
	2. Work with developers and interested parties to increase feasibility and opportunities for both affordable housing and multigenerational housing.	**Priority Level 1** Within 12 months of adoption of the 2021-2029 Housing Element Update. Review annually as necessary.	City-wide	Provide opportunity for affordable housing and multigenerational housing development with the goal of developing a minimum of 10 new affordable and multigenerational housing units throughout the Planning Cycle.
	3. Make information on affordable housing units (including information on size and type) available to the public on City's webpage.	**Priority Level 1** Within 12 months of adoption of the 2021-2029 Housing Element Update. Review annually and update as necessary.	City-wide	Inform the community of affordable housing opportunities.
Place-Based Strategies – Conservation and Revitalization				
Investment in Specific Neighborhoods	1. Targeted investment in areas of most need focused on improving community assets such as schools, recreational facilities and programs, social service programs, parks, streets, active transportation and infrastructure.	**Priority Level 2** Within 36 months of adoption of the 2021-2029 Housing Element Update. Review funding opportunities and community need annually.	Areas most in need	Provide assistance to areas of need.
	2. Facilitate inter-governmental coordination on areas of high need.	**Priority Level 2** Within 36 months of adoption of the 2021-2029 Housing	Areas most in need	Provide assistance to areas of need.

Contributing Factor	Specific Commitments	Timeframe and Priority	Geographic Target	Objective
		Element Update. Review funding opportunities and community need annually.		
	3. Prioritize capital improvement programs in areas of high need.	**Priority Level 2** Within 36 months of adoption of the 2021-2029 Housing Element Update. Review funding opportunities and community need annually.	Areas most in need	Provide assistance to areas of need.
Protection from Displacement				
Housing Discrimination/ Unfair Lending	1. Provide resources and/or services for multi-lingual tenant legal counseling. Create and promote informational materials on tenant rights and counseling.	**Priority Level 2** Publish information materials within 36 months of adoption of the 2021-2029 Housing Element Update. Review need and services annually.	City-wide	Provide assistance to tenants.
Housing Discrimination/ Displacement Due to Economic Pressures	1. Promote services and resources for rent review board and/or mediation, foreclosure assistance, or multilingual tenant legal counseling services.	**Priority Level 2** Publish information materials within 36 months of adoption of the 2021-2029 Housing Element Update. Review need and services annually.	City-wide	Provide assistance to tenants and potential renters.

Timeframe: Annually outreach to local organizations and lower income communities to discuss fair housing issues and promote actions to mitigate local contributing factors. Promote available funds, ownership information, and details on affordable housing units on the City's webpage within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/ Housing and Community Development Division
Funding Sources: CDBG

PROGRAM 4B: Rental Housing Assistance

The City began offering a Tenant Based Rental Assistance (TBRA) and other rental assistance programs in 2021. The City will continue to evaluate and offer rental housing assistance programs based on the availability of funding.

Objectives:

- Participate in the Orange County Housing Authority's Housing Choice Vouchers program to provide rent subsidies to very low-income households provided funding is available.
- Evaluate and offer rental housing assistance programs based on the availability of funding.

Timeframe: Promote OCHA Housing Choice Voucher information and rental housing assistance programs, as available, on the City's website.
Responsible Agency: Orange County Housing Authority and City of Costa Mesa Economic and Development Services Department/ Housing and Community Development Division
Funding Sources: HUD Section 8 Housing Choice funds administered by the Orange County Housing Authority; State and Federal Grant funds; HOME funds

PROGRAM 4C: Ownership Housing Assistance

In 2021, the City Council approved allocation of half a percent of the City's seven percent retail cannabis tax to fund a first-time homebuyer program in Costa Mesa.

Objectives:

- Evaluate and consider offering ownership housing assistance programs, such as a First-Time Home Buyer Program, based on the availability of funding.
- Provide informational materials, online and at City Hall, on potential paths to home ownership and on assistance and resources available for first-time home buyers.

Timeframe: Annually evaluate and, as funding is available, offer ownership housing assistance programs. Promote informational materials online and at City hall on potential paths to home ownership and on assistance and resources available within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: Orange County Housing Authority and City of Costa Mesa Economic and Development Services Department/ Housing and Community Development Division
Funding Sources: Cannabis Retail Tax Revenue

PROGRAM 4D: Fair Housing Assistance

The City contracts with the Fair Housing Foundation to provide fair housing and tenant/landlord mediation services. The Fair Housing Foundation provides fair housing outreach to tenants, landlords, property owners, realtors, and property management companies, as well as housing education and information to apartment managers and homeowner associations.

Objectives:

- Continue to contract with the Fair Housing Foundation and promote available services on the City's webpage.

Timeframe: Contract with the Fair Housing Foundation throughout the planning period and promote updated information on available services online within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/ Housing and Community Development Division; Fair Housing Foundation
Funding Sources: CDBG

PROGRAM 4E: Low Barrier Navigation Centers

Low Barrier Navigation Centers are housing or shelter in which a resident who is homeless or at risk of homelessness may live temporarily while waiting to move into permanent housing. These requirements include implementing standards, provisions and limitations governing the permitting, development, siting, and management of Low Barrier Navigation Centers.

Objectives:

- Update the Zoning Code to permit Low Barrier Navigation Center development as a matter of right in appropriate zoning districts, subject to requirements of state law.

Timeframe: Within 24 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/Planning Division
Funding Sources: In Kind

PROGRAM 4F: Homeless Shelter

In April 2021, the City of Costa Mesa completed the construction of its permanent Bridge Shelter within the city. Construction of the Bridge Shelter, as well as the organization and operation of the temporary Bridge Shelter at Lighthouse Church, and ongoing efforts of the City's Street Outreach Team represent the Costa Mesa's commitment to assisting those residents currently experiencing homelessness. With the shelter in full operation, the City is now able to assist up to 72 residents at one time and connect those residents with services and assistance toward permanent housing solutions.

Objectives:

- Continue to operate and maintain the Bridge Shelter throughout the planning period.
- Promote information on services and assistance available to residents online on the City's website.

Timeframe: Annually review and, if necessary, revise services and assistance programs available based on funding availability. Annually meet with homeless services providers to respond to the needs of persons experiencing homelessness and identify potential opportunities.
Responsible Agency: City of Costa Mesa
Funding Sources: State and Federal Grant Funds (e.g., State SB 2 and Housing and Homelessness Assistance Programs (HHAP), and Federal Emergency Food and Shelter (EFSP)), General Fund

PROGRAM 4G: Assembly Bill 139

AB 139 includes providing sufficient parking to accommodate all staff working in the emergency shelter, provided the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone.

Objectives:

- Review and update, as necessary, the Zoning Code to comply with parking requirements of AB 139 for emergency shelters.

Timeframe: Within 36 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/ Planning Division
Funding Sources: In Kind/General Fund

PROGRAM 4H: Housing Education and Outreach Program

As a part of the outreach and engagement process, the City found that community opposition to increased housing and affordable housing may create a barrier to housing development. Outreach and education about the importance and benefits of affordable housing can help to address community concerns and negative opinions about affordable housing.

Objectives:

- Develop an outreach program providing educational materials about the purpose and benefits of affordable housing options in the City.

Timeframe: Develop program within 12 months of final adoption and distribute materials within 24 months of adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/ Planning Division
Funding Sources: In Kind/General Fund

PROGRAM 4I: Partnerships with Local Organizations and Community Groups

The City identified Census Tract 636.05 as an area of high segregation and poverty. Areas that are identified as high segregation and poverty are consistent with the standards for both poverty (30 percent of the population below the federal poverty line) and racial segregation (overrepresentation of people of color relative to the county). This area is also considered low opportunity and achievement by the ROI: People analysis and experience the highest exposure to harmful pollutants, according to the CalEnviro Screen.

Objectives:

- Partner with local community-based organizations, stakeholders and groups who provide supportive resources and programs to further identify specific needs of this community and connect community members with appropriate resources.

Timeframe: Initiate program within 24 months of final adoption of the 2021-2029 Housing Element Update.
Responsible Agency: City of Costa Mesa Economic and Development Services Department/ Planning Division
Funding Sources: In Kind/General Fund

D. Summary of Quantified Objectives

Table 4-1 summarizes the City of Costa Mesa's quantified objectives with regard to the construction, rehabilitation, and preservation of housing. These objectives are established based on the City's resources available over the planning period.

Table 4-1: Summary of Quantified Objectives

Income Group	Extremely Low	Very Low	Low	Moderate	Above Moderate	Total
New Construction (RHNA)	4,713 units			2,088 units	4,959 units	11,760 units
Accessory Units	583 units			257 units	18 units	858 units
Conservation[1]	600 units			1,000 units	--	--
Rental Subsidy[2]	570 persons annually			--	--	--
Rehabilitation[3]	88 units			--	--	--

1. Based on 2021-2022 Annual Action Plan estimate of 200 housing units that will benefit from proposed code enforcement activities using CDBG funds.
2. Based on current Orange County Housing Authority (OCHA) rental assistance estimates
3. Based on 2021-2022 Annual Action Plan estimate of rehabilitation of 11 existing units per year.

Appendix A

Review of Past Perfomance

Review of Past Performance

The following chart is a review of the City of Costa Mesa 's housing project and program performance in the 2014-2021 Planning cycle. It is an evaluation of the 5th cycle's Policy Program and considers all current and existing programs and projects, as well as the most current effectiveness and appropriateness for the 2021-2029 6th Cycle.

Program Evaluation for Households with Special Needs

The City of Costa Mesa has demonstrated a significant effort in working towards accomplishing many of the objectives set for the programs of the past cycle. During the fifth cycle, the City completed a number of key programs to support housing opportunity and made substantial progress towards many of its programs. The City's successful programs have been identified as continued for the sixth cycle, due to their success in the fifth cycle.

As a part of analyzing prior programs, the element must provide an explanation of the effectiveness of goals, policies, and related actions in meeting the housing needs of special needs populations. The table below provides an overview of the City's prior program accomplishments; achievements related to special needs populations are summarized below:

Seniors

As shown in Section 2, approximately 11% of the population in Costa Mesa are seniors aged 65 years or older. Throughout the 5th Cycle the City partnered and consulted with a variety of groups to address the needs of persons with specialized needs in the City, including: Community SeniorServ, Elwyn California, Council on Aging Orange County. The City's Action Plan identifies 500 persons assists using $56,180 CDBG funds through Services for Seniors/Frail Elderly. Additionally, a Single Room Occupancy Ordinance was adopted in 1991. since then, three projects were completed and occupied for a total of 247 units; including 91 senior units and 11 SRO units.

On July 21, 2020, the City Council approved an Exclusive Negotiating Agreement (ENA) with Jamboree Housing Corporation in determining the feasibility, and potential terms, for the right to acquire a long-term leasehold interest in an approximately 0.90-acre portion of the parking lot at the Senior Center property to develop a senior housing project. The conceptual density study plans envisioned the potential for 60 senior affordable dwelling units at the site. An application for an Urban Master Plan Screening for the proposed project was submitted in November 2021 and staff continues to work with the applicant to bring the project forward for a decision.

Persons with Disabilities

As shown in Section 2, approximately 8 percent of the population in Costa Mesa have at least one disability. On November 16, 2021, the City Council directed staff to collaborate with the County of Orange and associated development partners to submit application(s) for the Homekey Program grant funding for the acquisition, rehabilitation and conversion of one or two motel locations proposed for permanent supportive housing. City staff have been working with several existing motel owners of properties that range between approximately 40 to 90 units. The proposals will provide direct permanent supportive housing with funding from the City of Costa Mesa, the County and (if awarded) Homekey grant funds from the State. The target population for these units would include at risk or currently homeless individuals and seniors, age 62 and over, and chronic homeless individuals and couples, with a subset of the units for eligible persons that qualify for Mental Health Services Act (MHSA) programs. Because the City operates the 72 bed Bridge Shelter on Airway Avenue, the Homekey Program could provide a seamless opportunity to stabilize this most vulnerable population where supportive services are provided on site, in the expedited Homekey permanent supportive housing model.

In 2020, the owner of Costa Mesa Village was awarded "Section 811" program funds for up to 24 of the 96 affordable units. The Section 811 program is a federal Housing and Urban Development (HUD) program administered by the State's Housing and Community Development (HCD) that provides subsidies for housing for very-low income persons with disabilities, in this case developmentally disabled persons. As such, as units become vacant through attrition, Section 811 eligible residents are being referred to CMV through the Regional Center of Orange County. The referral entity is responsible for providing the supportive services to the Section 811 tenants. Programming and services are individualized based on each person's needs and provided off-site.

Large Households

Large households are classified as those consisting of five or more members. These households can have difficulty in finding housing options that are adequately sized and affordable. As shown in Section 2, large-family households make up approximately 10% of the total households within Costa Mesa. The City permitted over 950 units across all income levels during the 5th cycle, many of which were single-family and could accommodate large-family households. The majority of those housing units were market rate and not available at levels affordable to low and very low-income households.

The City has implemented Program 2E in the 2021-2029 Housing Element to prioritize development of housing options to accommodate large-family households, including outreach to the development community and a review of the current development standards to determine if any pose potential impediments to building housing that can accommodate larger households.

Farmworkers

As previously discussed, farm workers are not a significant portion of the Costa Mesa community. Their needs are accommodated through housing programs and policies that assist lower-income households in general rather than specialized programs, such as:

- Program HOU 1-6 (rehabilitation loan and grant programs) which provided funding for 7 owner-occupied rehabilitation projects; 4 of which were for extremely-low income households, 1 for very low income, and 2 for low income.
- Program HOU 2-5 (OCHA rental assistance), which provided homeless prevention services or transitional housing assistance and services to over 450 individuals
- Program HOU 4-4 (preservation of residential developments for families and individuals with specialized housing needs)

Single-Parent Households:

As shown in Section 2, approximately 7.6 percent of Costa Mesa households are single-parent households, a quarter of which (27 percent) live below the poverty line. Costa Mesa Village (CMV), located at 2450 Newport Boulevard, is a 96-unit single room occupancy (SRO) affordable housing development with one manager's unit for a total of 97 units on site. CMV was originally approved and developed as a two-story Travelodge motel in the mid-1980s. In 1991, a conditional use permit (CUP) was approved to allow the conversion of the existing motel into a single room occupancy (SRO) affordable housing development. As part of the conversion project, the City through its Redevelopment Agency (Agency) provided financial assistance for land acquisition costs in the form of a $500,000.00 loan in addition to a $1,200,000.00 loan from the Orange County Housing Authority. The Agency entered into several agreements with Costa Mesa Village, Ltd. (original developer and current owner of CMV) including a Regulatory Agreement to ensure that the units were provided as very low-income units at or below 50-percent of the area median income (AMI) in perpetuity. The conversion improvements were completed in 1993 and the loans were fully repaid in 2014. Changes to the CUP and Regulatory Agreement were proposed and require approval by the City Council. The CUP modifications were reviewed by the Planning Commission on January 24, 2022 and were recommended for City Council approval by the Planning Commission. The modifications are scheduled for review and consideration by the City Council on February 1, 2022. In conjunction with the CUP changes, the property owner is also changing to a well-known California affordable housing developer (Century Housing Corporation). Century Housing Corporation is mission-driven to support and develop quality affordable home development and manage and administer 1000s of affordable units throughout the State.

Persons Experiencing Homelessness (Unhoused)

As shown in Section 2, the 2019 Point in Time Count showed 193 total persons experiencing homelessness (sheltered and unsheltered). As of 2018 staff worked on establishing a temporary and permanent homeless shelter that will be housing first modeled and will provide housing navigation services. In 2019, the City approved the use of a temporary modular structures at Lighthouse Church for the City's temporary interim bridge shelter. Later in 2019, the City Council adopted an urgency ordinance relating to Accessory Dwelling Units and Junior Accessory Dwelling Units, to be consistent with state law. In 2020, the City approved a permanent homeless shelter (Costa Mesa Bridge Shelter) to replace the temporary bridge shelter identified in 2019. The shelter opened on March 23, 2021. The City of Costa Mesa partners with Newport Beach to leverage scarce resources to better services the homeless population.

During the 5th Cycle, the City provided homeless prevention services (i.e., rental assistance to prevent eviction or deposit assistance to move into housing and rapid housing) or transitional housing assistance and services to over 450 individuals.

In 2020, Families Forward helped house and bring an end to homelessness for 15 Costa Mesa families (49 adults and children), with 33 Costa Mesa families accessing the Families Forward food pantry and taking another step towards stability. When complete, the Pomona project will serve as an entry point for families in and near Costa Mesa. Also, on November 17, 2020, the City Council approved a Subrecipient Agreement with Families Forward to establish a Tenant Based Rental Assistance (TBRA) program to assist qualified, very low-income households who are current residents of Costa Mesa (or households with strong community ties to Costa Mesa).

Extremely Low Income Households

As shown in Section 2, there are approximately 6,610 extremely low-income households in Costa Mesa per the 2013-2017 Comprehensive Housing Affordability Strategy (CHAS) data available. Extremely low-income renter households have the highest rate of cost burden at 17.5 percent.

Between 2013 and 2020, the City completed 111 mobile home rehabilitation projects, 52 of which were for individuals or family which qualified as extremely low income. The Housing and Community Development Division provided assistance with the purchase and rehabilitation of rental units by non-profit organizations to operate as affordable to low and very-low-income tenants. Funding was provided for 7 owner-occupied rehabilitation projects; 4 of which were for extremely-low income households, 1 for very low income, and 2 for low income.

In 2020, Families Forward helped house and bring an end to homelessness for 15 Costa Mesa families (49 adults and children), with 33 Costa Mesa families accessing the Families Forward food pantry and taking another step towards stability. When complete, the Pomona project will serve as

an entry point for families in and near Costa Mesa. Also, on November 17, 2020, the City Council approved a Subrecipient Agreement with Families Forward to establish a Tenant Based Rental Assistance (TBRA) program to assist qualified, very low-income households who are current residents of Costa Mesa (or households with strong community ties to Costa Mesa).

Additionally in 2020, the owner of Costa Mesa Village was awarded "Section 811" program funds for up to 24 of the 96 affordable units. The Section 811 program is a federal Housing and Urban Development (HUD) program administered by the State's Housing and Community Development (HCD) that provides subsidies for housing for very-low income persons with disabilities, in this case developmentally disabled persons. As such, as units become vacant through attrition, Section 811 eligible residents are being referred to CMV through the Regional Center of Orange County. The referral entity is responsible for providing the supportive services to the Section 811 tenants. Programming and services are individualized based on each person's needs and provided off-site.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOUSING GOAL-1: Preservation and Enhancement *Preserve the availability of existing housing opportunities and conserve as well as enhance the quality of existing dwelling units and residential neighborhoods.*		
HOU-1.1: Develop standard and/or guidelines for new development with emphasis on site (including minimum site security lighting) and building design to minimize vulnerability to criminal activity.	This is a standard condition of approval for new multiple family residential developments. This concept is reviewed during the planning application process and new multiple family residential development projects are subject to a standard condition of approval.	**Ongoing.** The City of Costa Mesa has developed standards for approval for new multiple family residential developments through standard condition of approval. The City will continue to maintain development standards for new developments to minimize vulnerability to criminal activity.
HOU-1.2: Protect existing stabilized residential neighborhoods, including but not limited to mobile home parks and manufactured home parks, from the encroachment of incompatible or	The Anchor Mobile Home Park (1527 Newport Blvd.) was closed in 2013 and the property is being developed with live/work units consistent with the visions of the West Side Urban Plans.	**Continued.** The City of Costa Mesa recognizes the importance of maintain existing residential neighborhoods and providing housing for all sectors of the Community. The City will continue to encourage compatible development

Policy Objective	Program Accomplishments	Status for Sixth Cycle
potentially disruptive land uses and/or activities.	The City has taken additional action to protect existing stabilized residential neighborhoods including (i) Adoption of a Group Home Ordinance on October 21, 2014 to limit the number and concentration of group homes and sober living facilities; (ii) Extension of a moratorium to prohibit the establishment of new hookah lounges; and (iii) Abatement of a hookah lounge and revocation of a Conditional Use Permit issued to a recycling center due to associated nuisance activities. Additionally, the Zoning Code requires Planning Commission approval to convert to another land use. The City has taken additional action to protect existing stabilized residential neighborhoods, including (i) adoption of a Multiple Family Group Home Ordinance on November 17, 2015 to limit the number and concentration of group homes and sober living facilities in the Multiple Family Residential zones. **Rehabilitation**: The City completed: • 7 mobile home rehabilitation projects during FY 12-13 • 19 mobile home rehabilitation projects during FY 13-14 (12 extremely low income; 7 very low income) • 21 mobile home rehabilitation projects during FY 14-15 (15 extremely low income; 6 very low income) • 19 mobile home rehabilitation projects during FY 15-16 (14 extremely low income; 5 very low income) • 7 mobile home rehabilitation projects during FY 16-17 (2 extremely low income; 5 very low income) • 10 mobile home rehabilitation projects during FY 2018 (9 extremely low income; 1 very low income)	through the enforcement of the Land Use and Zoning Designations.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
	• 9 mobile home rehabilitation projects during FY 2019 (5 extremely low income; 2 very low income; 2 low income) • 17 mobile home rehabilitation projects during FY 2020 (9 extremely low income; 6 very low income; 2 low income) The City has continued to protect existing stabilized residential neighborhoods, through adoption of an Ordinance to limit the number and concentration of group homes and sober living facilities in the Multiple Family Residential zones.	
HOU-1.3: Actively enforce existing regulations regarding derelict or abandoned vehicles, outdoor storage, and substandard or illegal building and establish regulations to abate weed-filled yards when any of the above is deemed to constitute a health, safety, or fire hazard.	Ongoing through the implementation and enforcement of Title 20 Property Maintenance, of the Municipal Code. Title 20 establishes standards to ensure proper maintenance, removal of hazardous and improper storage, and removal of weeds and other public nuisances. From 2016 to 2019 the following code enforcement citations were issued: 2016: 454 Citations 2017: 204 Citations 2018: 455 Citations 2019: 171 Citations Information regarding community improvement and code enforcement is available to the public on the City of Costa Mesa's Website, here: https://www.costamesaca.gov/city-hall/city-departments/development-services/community-improvement-division	**Continued.** The City of Costa Mesa has implemented and enforces Title 20 throughout the 5th cycle. The City will continue to enforce existing regulations on property maintenance during the 6th cycle.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOU-1.4: Establish code enforcement as a high priority and provide adequate funding and staffing to support code enforcement programs.	Code enforcement in the City of Costa Mesa is an active department under the Community Improvement Division, between 2016-2018 there were 500 active cases. Citations given each year are listed above. Code enforcement contact and information is found on the City's webpage: https://www.costamesaca.gov/city-hall/city-departments/development-services/community-improvement-division	**Continued.** The City recognizes the importance of code enforcement in maintaining its existing housing stock and made it a high priority throughout the 5th cycle. The City of Costa Mesa will continue to make code enforcement a priority for the 6th cycle.
HOU-1.5: Install and upgrade public service facilities (streets, alleys, and utilities) to encourage increased private market investments in declining or deteriorating neighborhoods.	The City of Costa Mesa has continued installing and upgrading public service facilities based upon funding during the 5th cycle.	**Modified.** The City will modify Housing Element Program 1.5 for the 6th Cycle, as necessary, to ensure it is resourceful and useful in efforts to promote and encourage the development of housing in Costa Mesa.
HOU-1.6: Continue existing rehabilitation loan and grant programs for low and moderate-income homeowners as long as funds are available.	Ongoing assistance through the Housing and Community Development Division for owner-occupied units. The Housing and Community Development Division provides assistance with the purchase and rehabilitation of rental units by non-profit organizations to operate as affordable to low and very-low-income tenants. During the 5th Cycle, the City completed a total of 7 owner-occupied rehabilitation projects (4 extremely low income, 1 very low income and 2 low income). • FY 13/14: 1 owner-occupied unit (1 extremely low income) • FY 14/15: 1 owner-occupied unit (1 low income)	**Continued.** The City of Costa Mesa recognizes the importance of funding for low- and moderate-income households in efforts to maintain existing affordable housing stock. The City will continue rehabilitation loan and grant programs for low and moderate-income homeowners as funds are available during the 6th cycle.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
	• FY 15/16: 0 owner-occupied unit • FY 16/17: 0 owner-occupied unit • 2018 APR: 3 owner-occupied units (3 extremely low income) • 2019 APR: 1 owner-occupied unit (very low income) • 2020 APR: 1 owner-occupied unit (very low income) Information regarding the loan and grant program as well as contact information is available to the public on the City's webpage at: https://www.costamesaca.gov/city-hall/city-departments/development-services/housing-and-community-development/neighborhood-improvement-programs	
HOU-1.7: Minimize the displacement of existing residences due to public projects.	The City of Costa Mesa continued to monitor and mitigate displacement of residential residences, as a result of public projects, throughout the 5th cycle.	**Continued.** The City of Costa Mesa acknowledges the importance of maintaining existing residential, as well as protecting residential displacement as a result of public projects and facilities. The City will continue to monitor public projects as they relate to existing residential in the 6th cycle.
HOU-1.8: Encourage the development of housing that fulfills specialized needs.	Through the 5th Cycle the City partnered and consulted with a variety of groups to address the needs of persons with specialized needs in the City, including: Community SeniorServ, Elwyn California, Council on Aging Orange County. The City's Action Plan identifies 500 persons assists using $56,180 CDBG funds through Services for Seniors/Frail Elderly.	**Continued.** The City recognizes that special needs populations (i.e., seniors, disabled and households with extremely low-income) are more likely at risk to become homeless because they have limited incomes and have other issues that require housing and

Policy Objective	Program Accomplishments	Status for Sixth Cycle
		supportive services. The City of Costa Mesa will continue to support development of housing that fulfills specialized needs during the 6th cycle.
HOUSING GOAL 2 Preserving and Expanding Affordable Housing Opportunities *Provide a range of housing choices for all social and economic segments of the community, including housing for persons with special needs.*		
HOU-2.1: Encourage concurrent applications (i.e., rezones, tentative tract maps, conditional use permits, variance request, etc.) if multiple approvals are required, and if consistent with applicable processing requirements.	Applications for multiple family residential projects requiring multiple approvals are generally processed concurrently. 1957 Newport Blvd. (38 units) 125 E. Baker (240 units) 2277 Harbor Blvd. (200 units)	**Continued.** The City recognizes that a swift and effective review and permitting process can encourage the development of housing in Costa Mesa. The City will continue encouraging concurrent applications when multiple approvals are required, and if consistent with applicable processing requirements during the 6th cycle.
HOU-2.2: Promote the use of State density bonus provisions to encourage the development of affordable housing for lower and moderate-income households, as well as senior housing.	All units under density bonus agreements with the City are monitored on an annual basis; as of 20121, 2 projects (78 units) are in compliance with the density bonus program that exist in the City. The 2277 Harbor project includes 9 very low-income units; however, the project is still under construction and will be added to the monitoring list.	**Continued.** The City will continue to work with developers to promote the use of density bonus as a means of providing affordable housing, as well as continue to monitor all developments which have been granted density bonuses.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOU-2.3: Provide incentive bonus units to encourage the redevelopment of residential units that are nonconforming in terms of density. The incentive shall be limited to the multi-family residential land use designations. The density incentive shall be limited to an increase of 25 percent above the Medium-Density or an increase of 50 percent above High-Density. In no case shall the resulting number of units exceed the existing number of units on each site.	Property owners are encouraged to redevelop the site bringing them into conformance while keeping the same number of units.	**Continued.** The City will continue to provide incentive bonus units to encourage the redevelopment of residential units that are nonconforming in terms of density in the 6th cycle.
HOU-2.4: Encourage developers to employ innovative or alternative construction methods to reduce housing costs and increase housing supply.	Most housing construction of wrap and podium product is done with wood construction reducing construction cost. Currently the City provides a variety of handouts regarding building construction on the City's webpage: https://www.costamesaca.gov/residents/information-handouts-forms	**Continued.** The City continued to encourage housing construction with the materials that reduce costs during the 5th cycle. The City of Costa Mesa will continue encouraging developers to utilize alternative construction methods to reduce housing costs and increase housing supply in the 6th cycle.
HOU-2.5: Continue membership in the Orange County Housing Authority to provide rental assistance to very low-income households.	The Orange County Housing Authority maintains the City of Costa Mesa housing assistance program (Section 8). During the 5th Cycle, the City provided homeless prevention services (i.e., rental assistance to prevent eviction or deposit assistance to move into housing and rapid housing) or	**Continued.** The City of Costa Mesa has continued membership in the Orange County Housing Authority to provide rental assistance to very low-income households in the 5th cycle and will continue to do so in the 6th cycle.

Policy Objective	Program Accomplishments	Status for Sixth Cycle

	transitional housing assistance and services to over 450 individuals.
	• FY 13/14:
	  ○ 7 individuals provided homelessness prevention services
	  ○ 23 individuals provided transitional housing assistance and services
	• FY 14/15:
	  ○ 7 individuals provided homelessness prevention services
	  ○ 23 individuals provided transitional housing assistance and services
	• FY 15/16:
	  ○ 9 individuals provided homelessness prevention services
	  ○ 41 individuals provided transitional housing assistance and services
	  ○ 2 individuals funded with Rapid Rehousing
	• FY 16/17:
	  ○ 20 individuals provided homelessness prevention services
	  ○ 25 individuals provided transitional housing assistance and services
	  ○ 1 individual funded with Rapid Rehousing
	• 2018 APR:
	  ○ 7 individuals provided homelessness prevention services
	  ○ 49 individuals provided transitional housing assistance and services
	  ○ 23 individuals funded with Rapid Rehousing	

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOU-2.6: Provide clear rules, policies, and procedures, for reasonable accommodation in order to promote equal access to housing. Policies and procedures should be ministerial and include but not be limited to identifying who may request a reasonable accommodation (i.e., persons with disabilities, family-members, landlords, etc.), timeframes for decision making, and provisions for relief from the various land-use, zoning, or building regulations that ma constrain the housing for persons of disabilities.	The City continued to address regulations for reasonable accommodation through Zoning Codes through the 5th cycle. In March of 2013, the City adopted an Ordinance, in accordance with Senate Bill 2, to permit emergency shelters by right in the Planned Development Industrial zone. The Ordinance also created provisions for transitional housing and supportive housing that would allow these uses to be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. This section is regularly updated to be consistent with State requirements.	**Continued**. As required by state law, the City of Costa Mesa will continue to provide, policies and procedures, for reasonable accommodation in order to promote equal access to housing during the 6th cycle.
HOU-2.7: Monitor the implementation of the City's ordinances, codes, policies, and procedures to ensure they comply with the "reasonable accommodation" for disabled provisions and all fair housing laws	Title 13, Chapter IX, Section 15 is regularly reviewed and updated as necessary to be consistent with State requirements. During the 5th cycle, 5 residential developments were presented to the City with requests for reasonable accommodation, of those proposed projects, 5 were approved to include reasonable accommodation measures.	**Continued.** The City of Costa Mesa continually updates City's ordinances, codes, policies, and procedures to stay consistent with State requirements. As required by State law, the City will continue monitoring the implementation of the City's ordinances, codes, policies, and procedures to accommodation for disabled provisions and all fair housing laws.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOUSING GOAL 3: Provisions of Adequate Sites *Provide adequate, suitable sites for residential use and development or maintenance of a range of housing that varies sufficiently in terms of cost, design, size, location, and tenure to meet the housing needs of al segment of the community at a level that can be supported by infrastructure.*		
HOU-3.1: Encourage the conversion of existing marginal or vacant motels, commercial, and/or industrial land to residential, where feasible and consistent with environmental conditions that are suitable for new residential development.	The City continued to encourage the conversion of existing marginal or vacant industrial land as well as taking a number of other actions to support new residential development consistent with environmental conditions during the 5th cycle. In 2006, the City adopted three Urban Plans to encourage the conversion of existing marginal or vacant industrial land in the West Side to mixed-use and residential developments. To date, a total of 966 units have been approved in the Urban Plans.	**Continued.** The City of Costa Mesa will continue to support the change of existing minor or tenantless motels, commercial, and/or industrial land to residential when conditions permit in the 6th cycle.
HOU-3.2: Provide opportunities for the development of well-planned and designed projects which, through vertical or of horizontal integration, provide for the development of compatible residential, commercial, industrial, institutional, or public uses within a single project or neighborhood.	Through the 5th cycle, these design elements were reviewed and considered with development projects. The City is currently reviewing a mixed-use project (One Metro West) with 1,057 residential units, 6,000 SF of commercial retail and 25,000 SF of office space, proposed north of the 405 Freeway that allows for horizontal and vertical mixed use within a single project. The project is anticipated to be reviewed by City Council in mid-2021. With the 2016 General Plan update, the City added a new urban plan overlay for mixed-use on 19th street and Harbor.	**Modified.** The City acknowledges the importance of well-integrated and sustainable design for the future of development in Costa Mesa. The City will continue to review and encourage well-planned, well-design projects during the 6th cycle.
HOU-3.3: Cooperate with large employers, the Chamber of Commerce, and major commercial and industrial developers to identify and implement programs to balance employment growth with the ability	The City has continued to facilitate discussion with the Chamber of Commerce, industrial and commercial developers, and large employers to identify programs for a balanced employment/housing opportunity in Costa Mesa. The proposed One Metro West (mixed-use) project has the	**Continued.** The City of Costa Mesa will continue to work with large employers, the Chamber of Commerce, and major commercial and industrial developers to create

Policy Objective	Program Accomplishments	Status for Sixth Cycle
to provide housing opportunities affordable to the incomes of the newly created job opportunities.	potential to provide affordable housing located within proximity to jobs. It includes: • Residential with up to 1,057 rental dwelling units, • 6,000 square feet of specialty retail, • 25,000 square feet of creative office, and • Recreational uses.	
HOU-3.4: Consider the potential impact on housing opportunities and existing residential neighborhoods when reviewing rezone petitions affecting residential properties.	Throughout the 5th cycle, the City continually reviewed rezone applications, of which 8 rezone proposals affected residential properties.	**Continued.** The City of Costa Mesa will continue to review rezoning applications through the 6th cycle. The City will continue to consider
HOU-3.5: Encourage transit-oriented development along transportation corridors.	The City of Costa Mesa is uniquely situated in that more than 90 percent of the residential properties in the City is located within a half-mile of public transit. Accessory Dwelling Unit (ADU) developments are not subject to parking requirements if located within a half mile of a transit stop.	**Continued.** The City of Costa Mesa recognizes the importance of mobility in the framework of housing, the City will continue to support development that is transit oriented in the 6th cycle.
HOUSING GOAL 4: Equal Housing Opportunity *Ensure that all existing and future housing opportunities are open and available to all social and economic segments of the community without discrimination on the basis of race, color, religion, sex, sexual orientation, disability/medical conditions, national origin or ancestry, marital status, age, household composition or size, source of income, or any other arbitrary factors.*		
HOU-4.1: Support the intent and spirit of equal housing opportunities as express in Federal and State fair housing laws.	The City of Costa Mesa continued to support equal housing in the 5th cycle, as well as continued an ongoing partnership with the Orange County Fair Housing Council.	**Continued.** As required by state law, the City will continue to support Federal and State fair housing laws through equal housing opportunities during the 6th cycle. .

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOU-4.2: Continue to provide fair housing and counseling services for all Costa Mesa residents in an effort to remove barriers and promote access to affordable housing in the City.	The City is a member of a region-wide effort to ensure equal access to housing. Generally, activities have included investigation, resolution, and education. During the 5th Cycle, the City assisted over 1,600 Costa Mesa households with fair housing issues. • FY 13/14: 357 Costa Mesa households were assisted with fair housing issues • FY 14/15: 331 Costa Mesa households were assisted with fair housing issues • FY 15/16: 314 Costa Mesa households were assisted with fair housing issues • FY 16/17: 204 Costa Mesa households were assisted with fair housing issues • 2018 APR: 200 Costa Mesa households were assisted with fair housing issues • 2019 APR: 117 Costa Mesa households were assisted with fair housing issues • 2020 APR: 153 Costa Mesa households were assisted with fair housing issues	**Continued.** The City continued to provide Costa Mesa Residents with fair housing and counseling services in the 5th cycle and will continue providing fair housing and counseling services for residents during the 6th cycle.
HOU-4.3: Encourage programs that address the housing needs of senior citizens.	Ongoing. The 2013-2021 Housing Element was adopted by City Council on January 21, 2014. The Housing Element includes special programs for special housing needs (i.e., seniors, large families, etc.). As of 2013, accessibility is now required through ADA standards. A 50 percent density increase for construction of very low.	**Continued.** The City was successful in approving programs for senior housing needs in the Housing Element as shown under program accomplishments. As required by state law, the City will continue to support programs for the housing needs of senior citizens through the appropriate methods listed in this table as well as new methods should

Policy Objective	Program Accomplishments	Status for Sixth Cycle
	Additionally, a Single Room Occupancy Ordinance was adopted in 1991, since three projects are completed and occupied for a total of 247 units; including 91 senior units and 11 SRO units.	they become available during the 6th cycle.
HOU-4.4: Encourage and support the construction, maintenance and preservation of residential developments which will meet the needs of families and individuals with specialized housing requirements.	2014/2015/2016/2017: The 2013-2021 Housing Element was adopted by City Council on January 21, 2014. The draft was certified by California Department of Housing and Community Development on November 22, 2013 in meeting statuary requirements. The Housing Element includes special programs for special housing needs (i.e., seniors, large families, etc.). As of 2018 staff worked on establishing a temporary and permanent homeless shelter that will be housing first modeled and will provide housing navigation services. In 2019, the City approved the use of a temporary modular structures at Lighthouse Church for the City's temporary interim bridge shelter. Later in 2019, the City Council adopted an urgency ordinance relating to Accessory Dwelling Units and Junior Accessory Dwelling Units, to be consistent with state law. In 2020, the City approved a permanent homeless shelter (Costa Mesa Bridge Shelter) to replace the temporary bridge shelter identified in 2019. The shelter opened on March 23, 2021. The City of Costa Mesa partners with Newport Beach to leverage scarce resources to better services the homeless population.	**Continued.** The City of Costa Mesa completed a number of actions during the 5th cycle to support families and individuals with specialized housing requirements. As required by state law, the City will continue to support the construction, maintenance, and preservation of residential developments for families and individuals with specialized housing requirements.

Policy Objective	Program Accomplishments	Status for Sixth Cycle
HOU-4.5: Encourage and support the construction, maintenance, and preservation of residential developments to meet the needs of the developmentally disabled	The 2013-2021 Housing Element was adopted by City Council on January 21, 2014. The draft was certified by California Department of Housing and Community Development on November 22, 2013 in meeting statuary requirements. The Housing Element includes special programs for special housing needs (i.e., seniors, large families, etc.). The City partnered with Elwyn California to provide services to persons with special needs. The agency provided input on City's special needs populations, specifically economic opportunities for persons with developmental disabilities using CDBG funds ($5,720).	**Continued.** The City completed a number of actions during the 5th cycle to support the developmentally disabled as shown under program accomplishments. The City of Costa Mesa will continue to promote construction, maintenance, and preservation of residential developments for developmentally disabled within the 6th cycle.
HOUSING GOAL 5: Coordination and Cooperation *Coordinate local housing efforts with appropriate federal, state, regional, and local governments and/or agencies and to cooperate in the implementation of intergovernmental housing programs to ensure maximum effectiveness in solving local and regional housing problems.*		
HOU-5.1: Investigate alternative intergovernmental arrangements and program options to deal with area-wide housing issues and problems.	The City of Costa Mesa continued to investigate alternative intergovernmental arrangements and program options to meet the housing issues. As of 2015, 48 single- and multiple-family units constructed over the last several years through a combination of public/private partnerships.	**Continued.** As required by state law, the City will continue to identify alternative intergovernmental arrangements and program for the housing problem in the 6th cycle.

Appendix B

Summary of Adequate Sites Analysis

A. Candidate Sites Analysis Overview

The Housing Element is required to identify potential candidate housing sites by income category to meet the City's RHNA Allocation. The sites identified within the Housing Element represent the City of Costa Mesa's ability to plan for housing at the designated income levels within the 6th housing cycle planning period (2021-2029). As described in this appendix, the development capacity for each site depends largely on its location within the City, a specific plan or urban plan area as well as known development factors. Where possible, property owners were consulted to help the City better understand potential future housing growth on candidate housing sites within the City.

This appendix contains **Table B-5**, which identifies each candidate housing site within Costa Mesa's sites inventory. The sites are identified by assessor parcel number (APN) as well as a unique identifier used to track sites within the inventory. Additionally, the following information is provided for each parcel.

- Address
- Ownership
- Zoning (including Specific Plan areas, Urban Plans, and Overlays, if applicable)
- Size (Net developable acres removing known development constraints)
- Density
- Vacancy status
- Previous Housing Element identification
- Potential Development Capacity (Dwelling Units) by income category
- Description of existing use

A summary of this information is included within the Housing Resources section **(Chapter 3)** of Costa Mesa's 2021-2029 Housing Element.

Table B-1 shows the City's 2021-2029 RHNA need by income category as well as a summary of the sites identified to meet that need. The analysis within this appendix shows that the City of Costa Mesa has the capacity to meet their 2021-2029 RHNA allocation through a variety of methods, including:

- Identification of development capacity on sites which either currently permit or will be rezoned to permit development of residential uses at or above 30 dwelling units per acre
- Identification of City owned properties suitable for the development of housing
- Future development of accessory dwelling units (ADUs)

Table B-1: Summary of RHNA Status and Sites Inventory					
	Very Low Income*	Low Income	Moderate Income*	Above Moderate Income	Total
RHNA (2021-2029)	2,919	1,794	2,088	4,959	11,760
Units Constructed in Projection Period (Begins June 30, 2021)	3	19	9	8	39

Total Capacity Over RHNA Categories	103%	102%	155%	181%	145%
*The City's Extremely Low Income (ELI) housing need is assumed to be 50% of the very low RHNA need for the planning period.					

1. Approved Projects and Projects in the Pipeline

Approved Projects since June 30, 2022

As shown in **Table B-1**, the City of Costa Mesa has approved residential development projects since the start of the projection period for the 6th Cycle. The projection period is the time in which development activity can count towards meeting the City's 6th Cycle RHNA need. Cities within the Southern California Association of Governments (SCAG) region can begin taking credit for the 6th cycle for development that was approved on or after June 30th, 2021. **Table B-2** contains projects that received approvals during that timeframe.

Table B-2: Units Permitted				
Address	Building Permit Number	Date Issued	Type	Income Category
900 W 20th Street	BC21-00060	7/6/2021	ADU	Low

Projects in the Pipeline

Development projects that are in the planning process but have not received land use approvals or building permit are considered "in the pipeline." For applications submitted for a land use approval, projects are considered "pending" until the necessary land use approvals are issued, at which point a project is deemed "approved." Once a building permit is issued, the project is identified as "building permit issued." When project construction is completed, and all necessary building safety inspections have been completed a certificate of occupancy or "final building permit" is issued.

Pursuant to the HCD Housing Element Site Inventory Guidebook Government Code Section 65583.2, for projects yet to receive their certificate of occupancy or final building permit, the element must demonstrate that the project is expected to be built within the planning period. The City believes that many of these "in the pipeline" housing units are likely to be developed within the planning period and could further the City's efforts in reaching its required RHNA, if/once developed. Although "projects in the pipeline" are not included as "candidate housing sites", they represent opportunities for future housing construction in Costa Mesa within the planning period. If/when these housing units are built, the units will count toward achieving the City's RHNA allocation as mandated by State law.

The below summary includes housing projects at various planning/development stages, and consist of potential housing developments of various sizes, types and housing affordability ranges. The summary includes recent housing projects that have been submitted for land use approvals at this time but are not yet "approved"; projects that are "approved" but no building permits have been issued or applied for; and other housing projects that City staff is working on in partnership with other entities or agencies to develop housing resources in the City.

- Senior Housing Project at the Senior Center (Jamboree Housing ENA) – On July 21, 2020, the City Council approved an Exclusive Negotiating Agreement (ENA) with Jamboree Housing Corporation in determining the feasibility, and potential terms, for the right to acquire a long-term leasehold interest in an approximately 0.90-acre portion of the parking lot at the Senior Center property to develop a senior housing project. The conceptual density study plans envisioned the potential for

60 senior affordable dwelling units at the site. An application for an Urban Master Plan Screening for the proposed project was submitted in November 2021 and staff continues to work with the applicant to bring the project forward for a decision.

- Urban Plan Screening Project (1711 & 1719 Pomona Avenue) – On November 16, 2021, the City Council considered an Urban Plan Screening of a Master Plan request for eight live/work units on a 0.46-acre lot. The proposed Master Plan includes a deviation request from the Urban Plan's live/work standards for minimum lot size. The urban planning screening process is the City's first stage of development review for projects proposed in mixed-use overlay districts. The Council generally supported the project's concept, including the request for a deviation from minimum lot size and provided the applicant guidance for the project proposal to include in a future application for Planning Commission consideration.
- Urban Plan Screening Project (1540 Superior Avenue) – On January 18, 2022, the City Council is scheduled to consider an Urban Plan Screening request for nine live/work units on a 0.44-acre lot. The Urban Plan screening process is the City's first stage of development review for projects proposed in mixed-use overlay districts. After the City Council screening, the applicant will use the City Council's guidance to include in a future application for Planning Commission consideration.
- One Metro West (1683 Sunflower Avenue) – The proposed project is a mixed-use development and consists of residential, specialty retail, creative office, and recreational uses. The project is proposed to include up to 1,057 dwelling units (anticipated to be rental units), 25,000 square feet of commercial creative office, 6,000 square feet of specialty retail, and 1.5-acres of public open space. The proposed development includes three multi-family residential structures with a maximum building height of seven stories; one stand-alone office building up to four stories in height; tenant-serving commercial retail space integrated into one of the residential structures; open space; landscaping; streetscape improvements; and a Class-I bike trail system on Sunflower Avenue providing access to the Santa Ana River Trail. The project was approved by City Council in 2021. The project includes 10 percent (106 units) of the residential development project component to be affordable (67 very low income units and 39 low income units) for 40 years. The proposed Project is subject to Measure Y, as codified in Article 22, Chapter IX of Title 13 (Zoning) of the Costa Mesa Municipal Code. Pursuant to Measure Y, after final approval by the City Council, including all CEQA review, the voters must then approve the Project.
- Costa Mesa Village (2540 Newport Boulevard) – Costa Mesa Village is an existing 97-unit SRO/efficiency development which was redeveloped many years ago from an existing motel. An application to update and amend the original entitlement (which allowed for the conversion of the former motel into an SRO/efficiency unit development) was submitted in November of 2021. The intent of the Conditional Use Permit amendment is to modify and update the conditions of the original entitlement while adhering to the City of Costa Mesa's recent SRO policy. The update will include revisions to enhance project housing and social services to qualified low-income individuals and persons with disabilities. Up to 23 of the 97 housing units are anticipated to be supported by Section a 811 subsidy administered by the California Housing Finance Agency (CalHFA) for persons with developmental disabilities, with the remaining units to continue as affordable housing units for individuals living/working in the City of Costa Mesa. The project is expected to be heard by the Planning Commission on January 24, 2022, with the final decision by the City Council thereafter.
- Project Homekey – On November 16, 2021, the City Council directed staff to collaborate with the County of Orange and associated development partners to submit application(s) for the Homekey Program grant funding for the acquisition, rehabilitation and conversion of one or two motel locations proposed for permanent supportive housing. City staff have been working with several existing motel owners of properties that range between approximately 40 to 90 units. The

proposals will provide direct permanent supportive housing with funding from the City of Costa Mesa, the County and (if awarded) Homekey grant funds from the State. The target population for these units would include at risk or currently homeless individuals and seniors, age 62 and over, and chronic homeless individuals and couples, with a subset of the units for eligible persons that qualify for Mental Health Services Act (MHSA) programs. Because the City operates the 72 bed Bridge Shelter on Airway Avenue, the Homekey Program could provide a seamless opportunity to stabilize this most vulnerable population where supportive services are provided on site, in the expedited Homekey permanent supportive housing model.

- **The Plant (765-767 Baker Street and 2972 Century Place)** – This project consists of the proposed renovation of three existing commercial buildings (containing the former Car Mart and Plant Stand) totaling 19,100 square feet, for retail and restaurant uses surrounding a central courtyard area. In addition, new buildings are proposed consisting of two greenhouse structures which will contain food stall uses, and a four-story mixed-use building with 48 residential units, 14 live/work units, and 2,570 square feet of workshop/maker office space above a two-level parking structure. This project was approved by the City Council in 2019.
- **Families Forward (Pomona Avenue)** – Families Forward, founded in 1984, is committed to preventing and ending family homelessness in Orange County. Families Forward has acquired and is working on plans to rehabilitate and expand a multi-family property on Pomona Avenue. At completion, the project will include the interior and exterior renovation of the existing 6 units and the addition of 2 new accessory dwelling units that will collectively house 8 families at risk of, or experiencing, homelessness. Families Forward has submitted preliminary plans to the City and are working to advance construction plans which are expected to be submitted to the City for expedited review in January 2022. The project will be owned and operated by Families Forward but is being constructed as a collaboration between Families Forward and HomeAid of Orange County. Families Forward will provide wrap-around services to low- to moderate-income family residents and provide a case manager, housing resource specialist, and other professionals to build a plan toward self-sufficiency. The families will also receive supportive services such as counseling, career coaching and access to our food pantry.

  In 2020, Families Forward helped house and bring an end to homelessness for 15 Costa Mesa families (49 adults and children), with 33 Costa Mesa families accessing the Families Forward food pantry and taking another step towards stability. When complete, the Pomona project will serve as an entry point for families in and near Costa Mesa. Also, on November 17, 2020, the City Council approved a Subrecipient Agreement with Families Forward to establish a Tenant Based Rental Assistance (TBRA) program to assist qualified, very low-income households who are current residents of Costa Mesa (or households with strong community ties to Costa Mesa).

For a variety of reasons, not all projects in the pipeline complete the planning approval or building permit process and are built and occupied. However, these projects provide an indication of what future housing construction may include within the Housing Element planning period. As indicated above, City staff will continue to work with the aforementioned project applicants and other City housing efforts to reach the City's goals.

Figure B-1: Map of Candidate Housing Sites (All Income Categories)

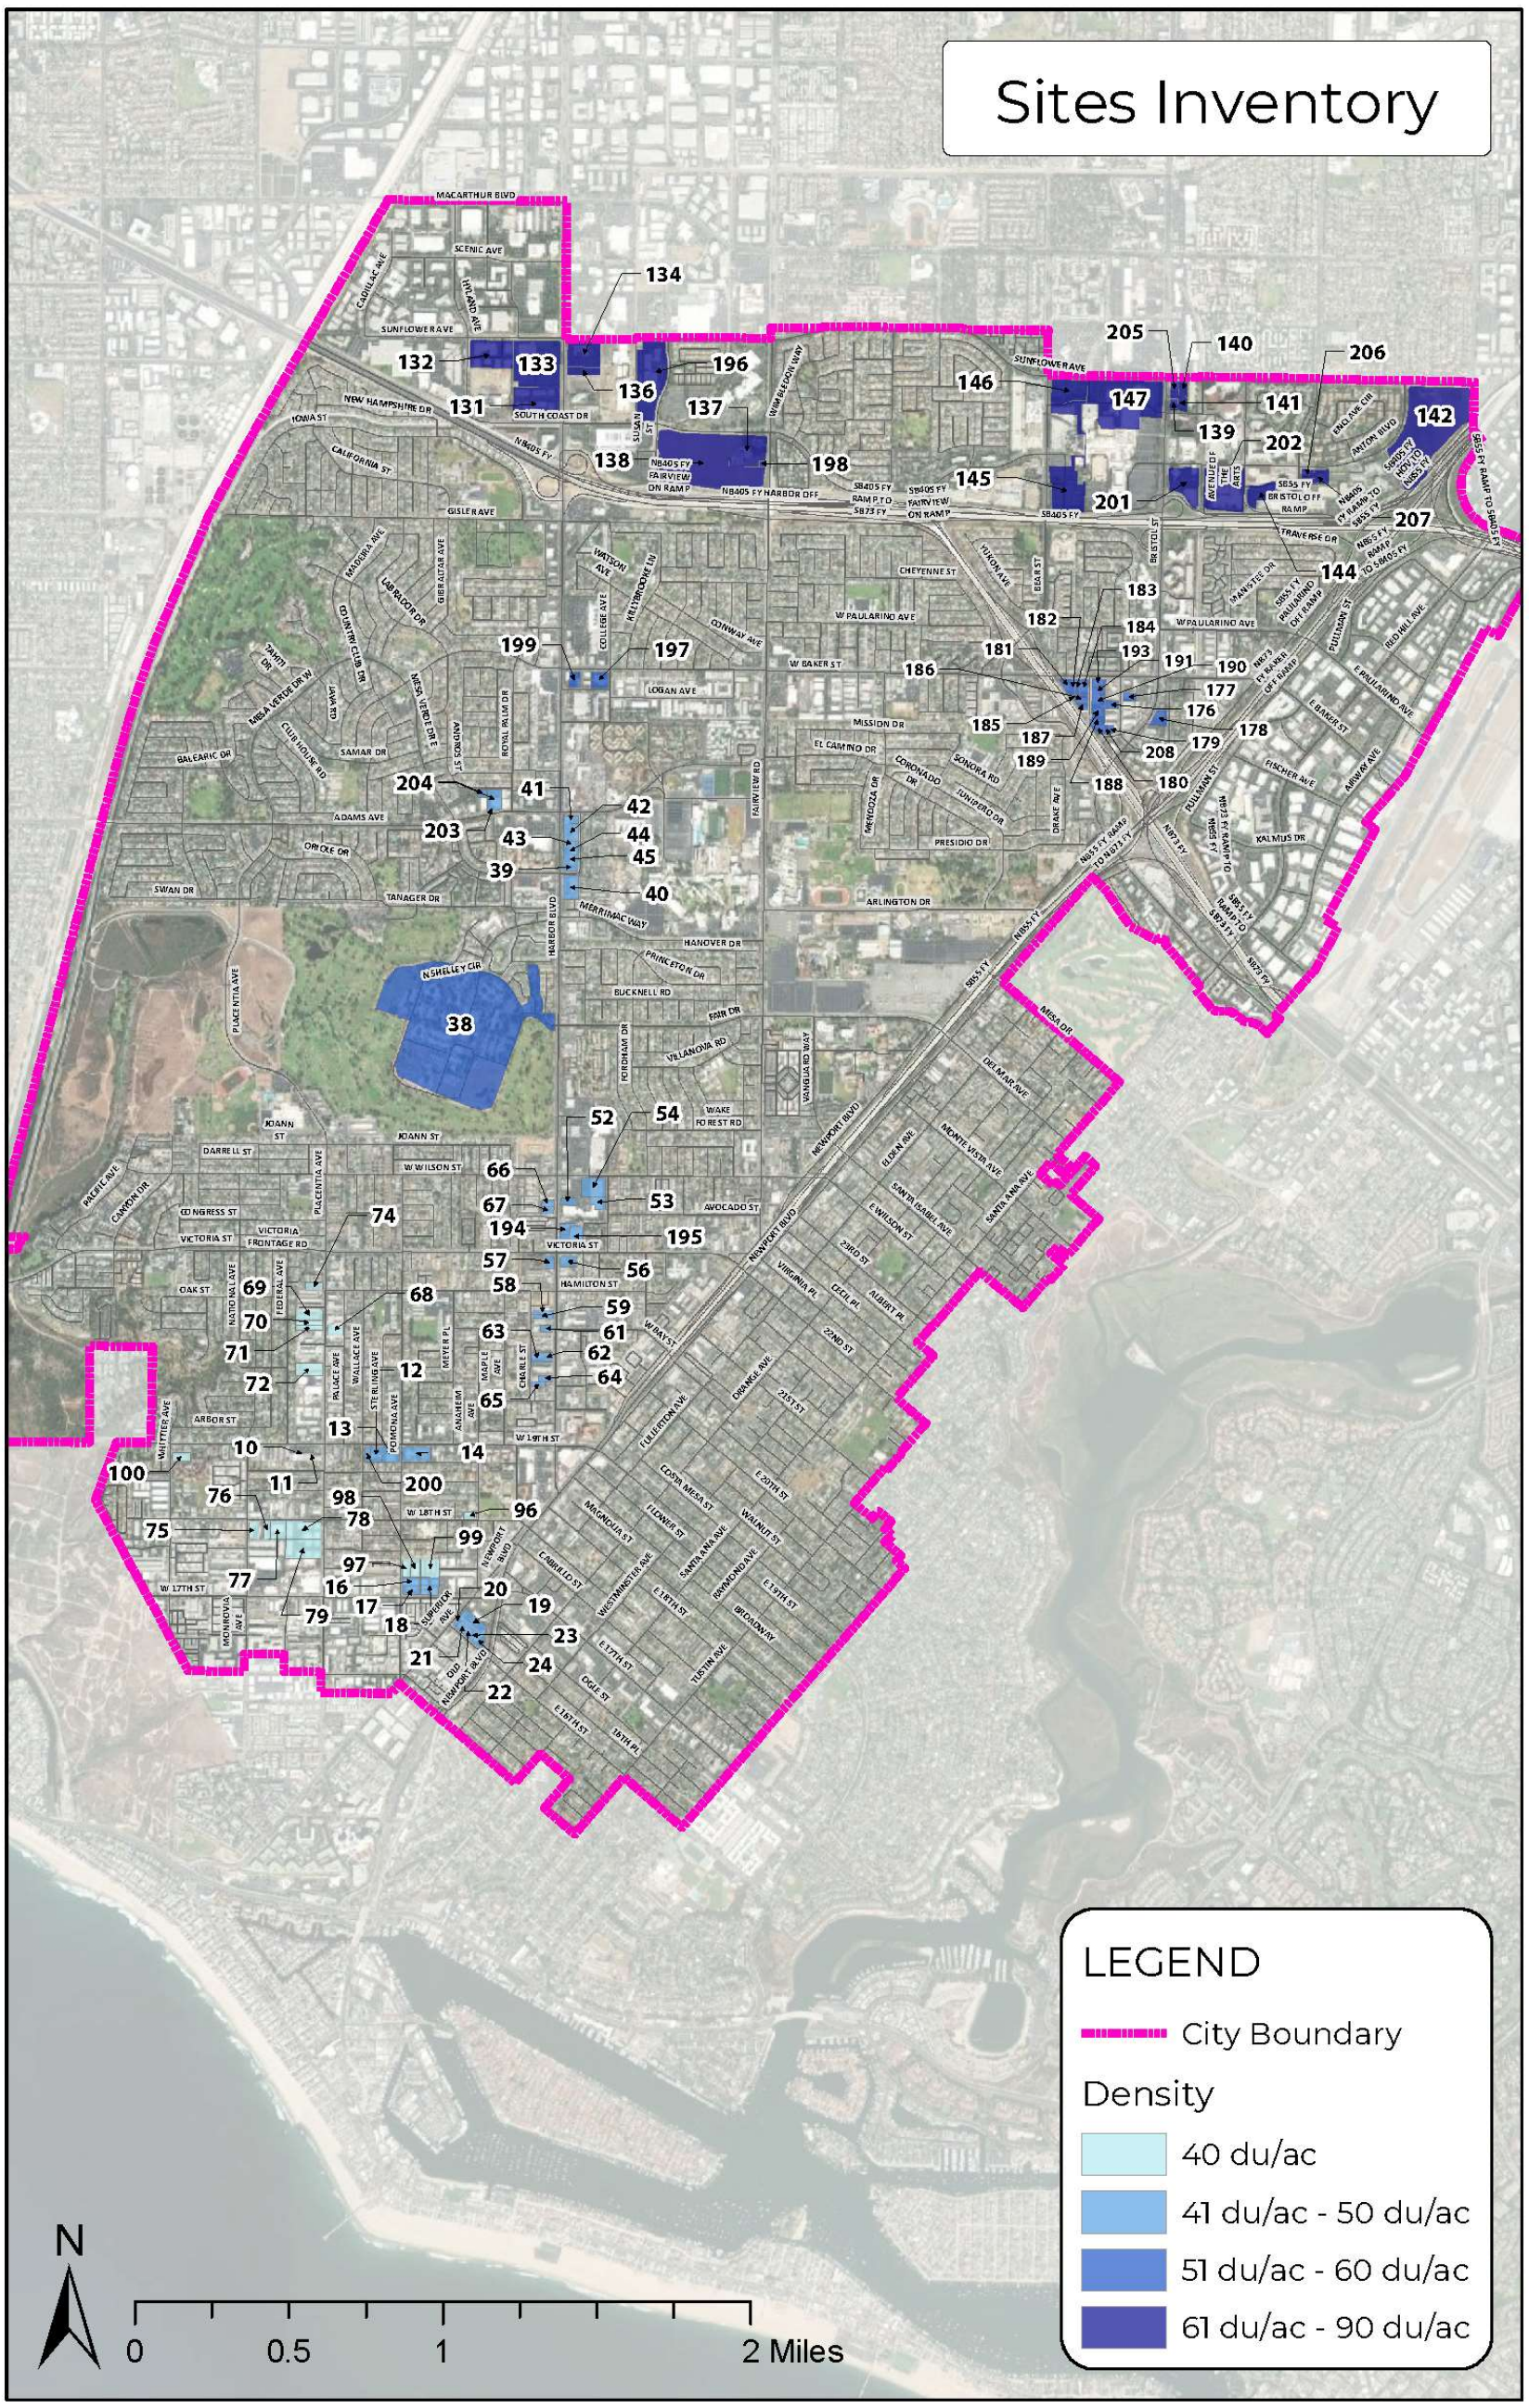

Figure B-2: Map of Candidate Housing Sites (By Zoning)

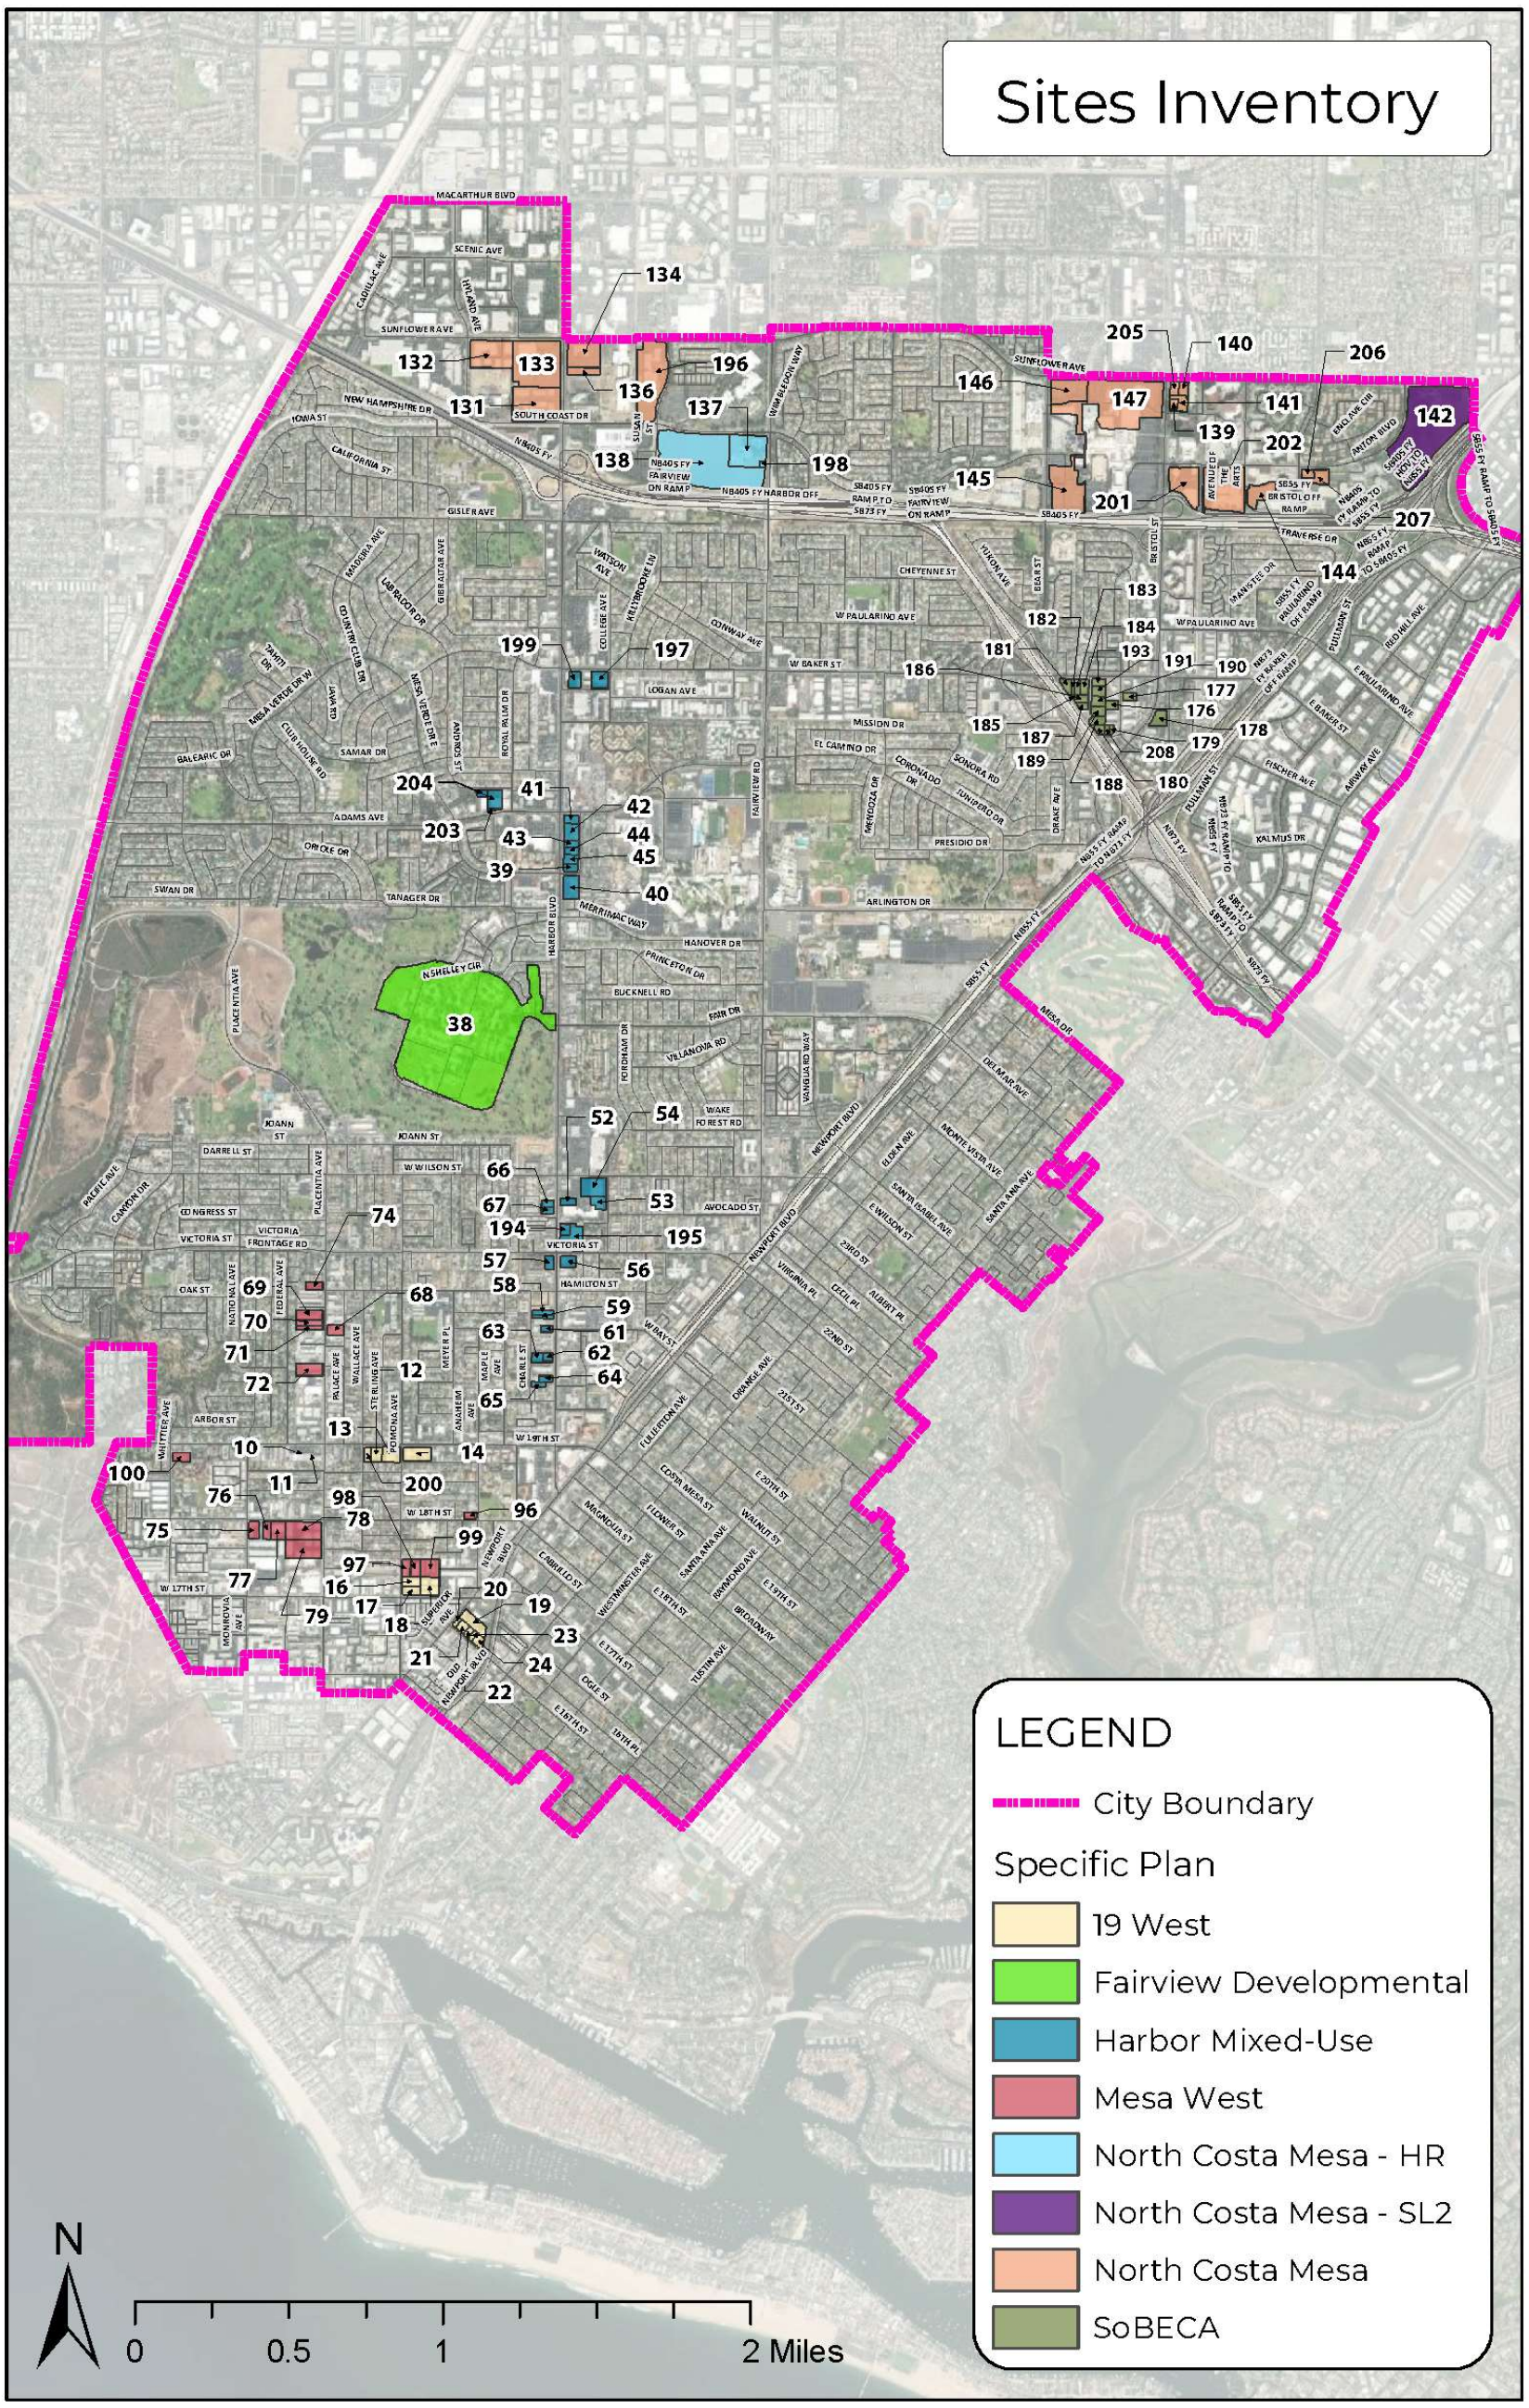

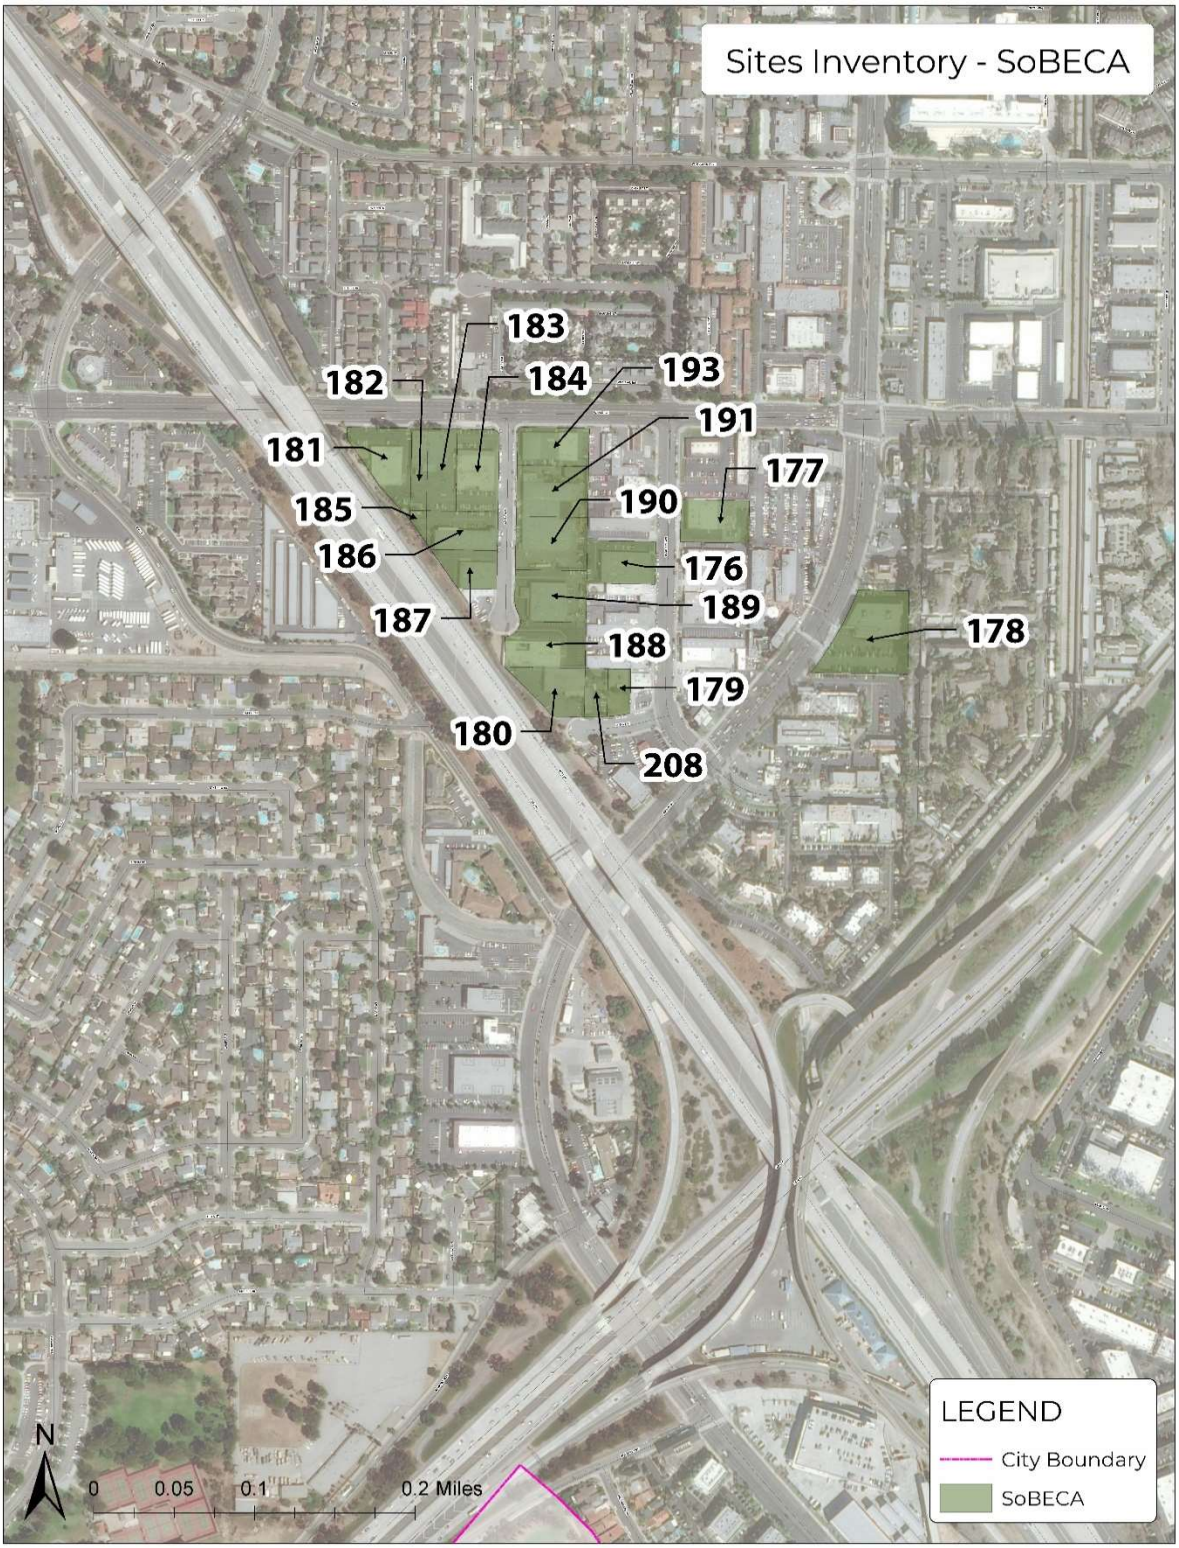

Figure B-2: Map of Candidate Housing Sites (SoBECA Focus)

2. Selection of Sites

The City of Costa Mesa has identified sites with capacity to accommodate the 2021-2029 RHNA. The City has identified 99 parcels within a variety of different zones, specific plan areas, urban plans, and overlays. Each of these either currently permit residential development or will be amended per **Programs 3B and 3C** to permit residential development at the densities specified in **Table B-5.** The identified sites have been evaluated to determine the extent to which on-site uses are likely to redevelop within the planning period. It was found that a number of the existing uses (identified in **Table B-5**) are either permanently closed or available for lease. Many of the uses are in multi-tenant commercial centers with one ownership and most show little to no evidence of recent investment or redevelopment.

The City does not have access to most leasing information as these are generally private documents but has conducted an analysis to identify sites that show characteristics indicating they are likely to redevelop within the planning period. When possible, the City had discussions with property owners to determine interest in redevelopment for residential uses. The analysis also includes several letters of potential residential development interest in **Appendix A**.

Community Input on Sites Selection

Community input was an important component of the sites identification and selection process. The City conducted multiple public outreach meetings, including district specific meetings where community members gave input on areas of importance within their district. This information was collected as notes on maps of each district and can be found in **Appendix C.** Community members also provided feedback on potential housing development types and focus areas on the online community survey. Additionally, draft versions of the sites inventory were discussed at both Planning Commission and City Council study sessions, with decision makers providing input and community members able to make public comments.

Lastly, the City held discussions with major property owners within the City to better understand their long-range plans for development of the properties under their ownership. The City used these discussions to more accurately determine potential unit yield and affordability assumptions for some of the identified candidate housing sites. Additional information is provided for specific properties in **Table B-5**.

3. Redevelopment of Non-Vacant Sites for Residential Uses

The City of Costa Mesa does not have sufficient vacant land available to accommodate fifty percent of their low/very-low income RHNA. To accommodate the need at all income levels, the City has analyzed sites within non-residentially zoned areas that permit residential development through Specific Plans, Urban Plans, or Overlays. The City also evaluated and included parcels not currently within Urban Plans which will be added when those Urban Plans are amended as part of **Programs 3B and 3C**.

As the City cannot accommodate 50 percent of the low/very low income RHNA, state law requires that the City analyze the following:

- Analysis of leases that would prevent redevelopment of the site,
- The extent to which existing uses may constitute an impediment to the future residential development within the planning period,
- The City's past experience with converting existing uses to higher density residential uses,

- Current market demand for the existing use,
- Development trends and market conditions, and
- Regulatory or other incentives to encourage redevelopment.

Lease Analysis

Existing lease agreements on infill and non-vacant properties present a potential impediment that may prevent residential development within the planning period. State law requires the City to consider lease terms in evaluating the use of non-vacant sites, however the City does not have access to private lease agreements or other contractual agreements amongst parties because they are private documents. Therefore, the City has conducted an analysis to identify sites that show characteristics indicating they are likely to redevelop within the planning period, including past performance, an on-the ground existing use analysis and a market analysis to understand cost of land, construction, and development trends in Costa Mesa.

Experience Developing Non-Vacant Sites for Residential Uses

As part of the candidate housing sites analysis, the City has evaluated recent projects that have redeveloped within non-residentially zoned areas that included residential units. Those projects, including the zoning, use prior to redevelopment, and a project analysis of the approved development plan, are shown in Table B-3. The City's analysis showed that prior uses on these redeveloped sites were similar in nature to the existing uses on sites identified within the sites inventory in Table B-6. Based on the information provided in Table B-3, the City has created a classification system for sites with characteristics that are applicable to the candidate sites inventory. The intent of this classification system is to draw parallels from past development and local knowledge and trends in development to the potential future development of the candidate housing sites identified. These classifications are based in real past development that has occurred within the City and while some comparisons may not be an exact match for the sites identified, they show a strong correlation with the understanding that every parcel is unique in terms of site characteristics, existing use, ownership, and other factors which can affect future development. The development classes are generally defined as:

- **Development Class A:** Uses on these sites prior to redevelopment included either light industrial or office type uses. These are areas that previously served -commercial or office businesses and have redeveloped throughout the city based on property owner interest and market trends. This also includes uses within the SoBECA Urban Plan area.
- Development Class B: Uses on these sties prior to redevelopment included self-storage, vehicle storage, and industrial uses. Many of these sites are located within the Mesa West or 19 West Urban Plan areas which covers a large portion of the industrial areas within the City.
- Development Class C: Uses on these sites prior to redevelopment included primarily commercial uses along Harbor Boulevard or another major city commercial corridor. These projects are typically in a mixed-use setting, whether within the same development or directly adjacent. Many of these sites are within the Harbor Mixed-Use Urban Plan area.
- Development Class D: These sites are motel conversions within the City. The City is continuing to pursue Project Homekey funds to encourage redevelopment of specific motels within the City in coordination with property owners and operators of these buildings.
- EX: Existing proposed project or anticipated project.

The City has also conducted a parcel specific analysis of existing uses for each of the identified sites. This analysis of existing uses, including indicators of a likelihood that the existing use will redevelop within the next eight years, are provided in **Table B-6**. This analysis is based on information readily available to the City and research that can be found through online research. The City does not always have access to private lease information but has included information that property owners have shared regarding individual sites.

The following residential development projects have been constructed on parcels that were either non-residentially zoned or had an existing non-residential use on-site within Costa Mesa.

Table B-3: Example Development of Non-Vacant Sites for Residential Uses

Project Address	Dwelling Units	Zoning	Use Prior to Redevelopment	Project Analysis	Development Class
125 Baker St.	240	PDR - HD	Industrial use	This development is a 240-unit wrap apartment complex on a 4.2-acre parcel in a largely industrial and office area of Costa Mesa. The project was built at a density of approximately 57 du/ac. The site was previously a light industrial and office uses use similar to some of the identified candidate housing sites. The project was rezoned from CL to PDR-HD.	A
1957 Newport Blvd.	38	PDR - HD	Self-storage use and trailer storage lot	This development is a 38-unit condominium project along the Newport Blvd commercial corridor. The site was previously a self-storage and trailer storage use similar to some of the identified candidate housing sites. The project was rezoned from C1 to PDR-HD.	B
2277 Harbor Blvd.	200	PDR - HD	Motel use	This development is a 200-unit apartment complex on a previous motel use site. This development is located on Harbor Boulevard and shares many existing characteristics with sites identified within this corridor in the candidate sites inventory. The project was rezoned from C1 to PDR-HD.	D
671 W. 17th St.	177	MG	Brownfield development (Argotech Industries)	This development is 177 live/work and loft residential units and was developed on a site that was previously largely surface parking area. This site is in the Mesa West Urban Plan area and adjacent to some of the sites identified within the candidate housing sites analysis. This project also shares many existing use characteristics with those identified sites.	B
1620 and 1644	89	MG	Industrial use (Ametek	This development is 89 live/work residential units on a former industrial use site in the	B

Table B-3: Example Development of Non-Vacant Sites for Residential Uses					
Project Address	Dwelling Units	Zoning	Use Prior to Redevelopment	Project Analysis	Development Class
Whittier Ave.			Aerospace and Defense)	Mesa West Bluffs Urban Plan area. Similar to 671 W. 17th Street, this site shares many geographic and existing use characteristics with sites identified in the candidate housing sites analysis.	
1500 Mesa Verde Drive East	215	PDC	Vacant commercial area	This development is 215 senior apartments developed at four stories along Harbor Boulevard directly adjacent to existing commercial uses. This project is an example of the types of horizontal mixed-use projects that the City anticipates may develop along Harbor Boulevard and matches assumptions made in the Housing Element.	C
1527 Newport Boulevard	40	C2 & MG	Industrial uses, including boat and automobile repair	This development is 40 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the 19 West Urban Plan area and previous uses are consistent with sites identified within the sites inventory.	B
132, 134, 140 Industrial Way	22	C2 & MG	Industrial uses, including boat and automobile repair	This development is 22 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the 19 West Urban Plan area and previous uses are consistent with sites identified within the sites inventory.	B
1677-1985 Superior Avenue	49	C2 & MG	Gas station and a mixture of commercial and industrial uses.	This development is 49 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the 19 West Urban Plan area and previous uses are consistent with sites identified within the sites inventory.	B
2025 Placentia Avenue	36	MG	Commercial and industrial uses, including storage and repair for boats	This development is 36 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the Mesa West Bluffs Urban Plan area along Placentia Avenue and previous uses are consistent with sites identified within the sites inventory.	B
2095 Harbor Boulevard	29	PDC	Commercial buildings and gas station which had been vacant for several years.	This development is 28 single-family homes with live/work potential, including ground floor commercial/office workspaces and two stories above for residential. This development is in the Harbor Mixed Use Urban Plan area along Harbor Avenue and	C

				previous uses are consistent with sites identified within the sites inventory.	
1672 Placentia Avenue	32	MG	Boat yard and industrial building	This development is 32 live/work units with ground floor commercial/office workspaces and two stories above for residential. This development is in the Mesa West Bluffs Urban Plan area along Placentia Avenue and previous uses are consistent with sites identified within the sites inventory.	B

This analysis of recent sample development projects shows that residential development occurs within the City on sites that have existing non-residential uses. As indicated in the analysis notes, these example sites share many characteristics with the candidate housing sites in **Table B-6.** This demonstrates that there is development potential on these sites as well as interest in developing these types of sites for residential uses within Costa Mesa.

Existing Uses on Candidate Sites and Redevelopment Opportunity

The City has identified and analyzed existing use on candidate sites in **Table B-6** below. As the City is a built-out community, consisting mainly of commercial retail, industrial and single-family housing, a primary goal was to identify sites compatible for the development of multifamily and mixed-use housing as well as not displace existing residents. Therefore, the City identified the best possible sites with the most feasible opportunity for redevelopment over the next 8 years. In additional to the analysis in **Table B-6** the City utilized locally available SCAG data to identify the following key indicators that the sites included for low and very low-income opportunity are the most appropriate:

- Nine percent of the sites are within areas identifies as Highest Resource by the TCAC
- 55 percent of the sites are within areas identified as moderate resource
- On average, there are 90 healthcare facilities within a one-mile drive from the identified sites
- On average, there are 4 grocery stores or markets within a one-mile drive from the identified sites
- 97 percent of the sites identified are within a High-Quality Transit area, meaning the 97 percent of sites are within one half-mile of a well-serviced transit stop or a transit corridor with 15-minute or less service frequency during peak commute hours.

Housing Market Analysis

In addition to an on-the-ground existing use analysis, the City of Costa Mesa has market conditions to facilitate the redevelopment of non-vacant sites for residential. **Table B-3** above shows that a total of 1,167 dwelling units have been constructed through redevelopment in the City. Additionally, a California Association of Realtors report for Historic Housing trends shows that the average time a unit spends on the market in Orange County is just 18.6 days in the last four years (2017-2021) and just 13.3 days in the last

two years.[1] Specifically in Costa mesa, homes spent just over one month on market and the sale-to-list price ratio was 100.14%, indicating a sellers' market and the need for more housing.[2] According to the New Homes Directory (online resource), historical Housing Market data, the average price for an attached unit, 1,500 square feet or less, increased by 48 percent over the last planning cycle ($434,87 in 2014 to $645,000 in 2021).[3]

Additionally, the according to the CAR Current Sales and Price Statistical Survey, the median cost of a home for sale in Orange County increased by 20 percent from 2020-2021 (from $930,000 in October 2020 to $1,120,000 in October 2021).[4] The indicators above signify an increased market demand for new housing.

4. Development of Small Site Parcels

The City of Costa Mesa has identified several candidate housing sites that are smaller than half an acre in size. Assembly Bill 1397 identifies general size requirements for candidate housing sites of greater than half an acre and less than 10 acres in size. The City has only identified sites smaller than half an acre which show the likelihood of redeveloping in conjunction with other parcels which collectively meet the half acre requirement. The likelihood of redevelopment was based primarily on common ownership amongst adjacent parcels which share a property line. In most instances, these parcels are currently developed as a single use and it is reasonable to anticipate that the collection of parcels will redevelop as one new development to maximize efficiency and design of the new use. Candidate sites less than half an acre in size represent a small portion of the City's overall RHNA need. A total of nine sites comprise the potential for 114 units, which is 1 percemt of the City's total RHNA need for the period of 11,760.

The potential candidate sites which are anticipated to be consolidated into a single development are identified within **Table B-6**.

The candidate sites that are smaller than half an acre are shown in **Table B-4** below along with descriptions of their likelihood to redevelop that go beyond the descriptions in **Table B-6**.

Table B-4: Analysis of Candidate Housing Sites Under 0.5 acres					
APN	Unique ID	Address	Specific Plan/Urban Plan Area	Size (Ac)	Use Description
42543103	20	1666 Superior Ave	19 West	0.29	These are all adjacent parcels in a contiguous block bounded by E 16th Street, Superior Avenue, E 17th Street, and Newport Blvd. All parcels within this block have been identified as candidate housing sites and total 4.70 acres. Sites 22 and 23 are owned by the same property owner. The existing uses are all car-related industrial uses which are single-story. As shown in **Table B-2**, the City worked with property owners of parcels along Industrial Way (Specifically 132, 134, and 140 Industrial Way, less than a quarter mile southwest of these identified parcels) to facilitate the development of residential uses on parcels previously occupied with the same types of uses as these three parcels (boat and auto repair uses). These parcels are located within the 19 West Urban Plan area and are permitted to develop in the same manner as the parcels along Industrial Way.
42543105	22	126 E 16th St	19 West	0.42	
42543106	23	126 E 16th St	19 West	0.35	
41817101	208	754 Saint Clair St	SoBECA	0.27	These parcels are occupied by warehouse and light industrial uses within the SoBECA Urban Plan area. The SoBECA Urban Plan focuses on residential as a mixed-use component and promoting the development of residential in addition to the existing commercial anchors in the Mall and the Camp. The City has established Program 3D to update the Urban Plans within the City to focus more heavily on residential uses at the identified densities. As identified in **Table B-2**, the City developed Baker Block on industrial parcels which previously occupied similar light industrial uses in a largely industrial corridor approximately one-third of a mile from the SoBECA area. These uses have similar historical context and assumptions have been tied to this project and others as examples of redeveloping these types of uses for residential within industrial areas.
41817102	179	752 Saint Clair St	SoBECA	0.26	
41820202	182	841 Baker St	SoBECA	0.33	
41820205	185	2969 Century Pl	SoBECA	0.09	
13931321	203	1590 Adams Ave	SoBECA	0.27	
14004183	198	N/A	North Costa Mesa	0.23	This parcel is part of the overall Home Ranch parcel described in the Large Site analysis in the following section. Home Ranch is

Table B-4: Analysis of Candidate Housing Sites Under 0.5 acres					
APN	Unique ID	Address	Specific Plan/Urban Plan Area	Size (Ac)	Use Description
					currently a mostly vacant site within the North Costa Mesa Specific Plan area that has an existing development agreement and is currently planned for residential development. The City has actively worked with the property owner throughout the 6th Cycle Housing Element update process to identify an appropriate number of residential units to allocate towards the site. The property owner has indicated they intend to develop residential uses on the Home Ranch site and they are permitted to alter their development agreement or develop outside of it, meaning there are no unit caps in place. While this individual parcel is less than half an acre, it is in common ownership with the larger Home Ranch site which exceeds the half acre standard. This parcel is currently vacant.

Additionally, Policy LU-2.10 of the City of Costa Mesa's Land Use Element within the General Plan promotes lot consolidation of residential properties. While the sites identified in the table above are commercial in nature, the intent of the policy remains effective in consolidating smaller parcels towards the creation of a larger residential development.

5. Development of Large Site Parcels

The 2021-2029 sites inventory includes several sites that are larger than 10 acres. These sites exceed the AB1397 size requirement and require additional analysis. The following background and analysis relates to each site in the inventory that exceeds that inventory. The City has conducted meetings with each of these major property owners to determine their future interest in developing housing on the identified properties. These properties when developed pursuant to the densities included within this Housing Element would be subject to the City's inclusionary housing requirements which are in process and anticipated to be adopted per **Program 2A**. This supports the City's assumptions of affordability on the sites described below. The housing element also includes Program 3R which commits the City to take actions to promote the development of large parcels at the densities and affordability levels identified within the housing element. There are no unit caps within the City which would limit the number of units which can be developed on these sites. That is subject to the densities provided within the City's zoning code.

Fairview Developmental Center

The Fairview Developmental Center (FDC) is a State-owned property that is approximately 109 acres in size and located on Harbor Boulevard within Costa Mesa. The FDC currently serves as one of the largest residential facilities for developmentally disabled persons in the State of California. The FDC was previously identified in the City's 5th cycle Housing Element (2013-2021) and the City has continued discussions with the State to determine the potential residential yield of the area taking into consideration the existing uses.

In January 2020, the Costa Mesa Fairview Developmental Center Ad Hoc Committee met to discuss potential development yields for the site. The Committee presented a report to the City Council which summarized its strategic engagement in the development of the local vision, priorities, and reasoning behind the stated preliminary vision of a solutions-based, housing-first model for the site. The Committee took into consideration the City's recent efforts to open a homeless shelter and identified opportunities for permanent supportive housing and integrated workforce housing within the City. Conceptual yield studies and draft plans have also been compiled for the property and helped to inform development capacity assumptions. There are no current development agreements or density caps on the property as residential uses are not currently permitted. The City will need to come to an agreement with the State of California for future use of the site and then solicit input from the development community on potential entitlement, likely through a competitive bid process. The City is confident that there is significant interest in redeveloping the property once it becomes available based on informal discussions with developers during the housing element update process.

FDC was discussed multiple times in public workshops by local housing advocacy groups in support of residential uses on the site for primarily affordable housing developments and workforce housing. The City has established **Program 3B** to work with the State of California to establish the FDC area as a mixed-use village that prioritizes housing and promotes development at the densities and affordability levels identified within this housing element. As stated in **Program 3B**, the City envisions a two-year process to negotiate future residential development use on the site. If not established within two years, the City will identify additional sites to accommodate a potential shortfall in sites to accommodate the remaining RHNA.

The City's 6th Cycle analysis includes an assumption of 2,300 dwelling units broken down into the very low, low, moderate, and above moderate-income categories.

Sakioka Lot 2

Sakioka Lot 2 is a 30.93-acre site located north of the 405 Freeway with General Plan Land Use designation that allows up to 660 residential units, 863,000 Square feet of office or retail use and a Floor Area Ratio of 1.0. The property is also located in the North Costa Mesa Specific Plan.

The site is currently under a development agreement (DA) that was recently extended for ten years until May of 2031. The City has had continued discussions with the property owners who have indicated there is the potential for future housing development on the site in strategic areas. This development would occur pursuant to the new densities identified within the Housing Element, which may lead to the development of more units than currently established under the DA. The property owner and City could potentially amend the current DA or the property owner may develop outside of the DA but under the zoning requirements of the North Costa Mesa Specific Plan in order to achieve more than 660 residential units in the future. Therefore, the existing DA does not present a cap or restriction on the future number

of potential units on the Sakioka Lot 2 parcel. Furthermore, there are not affordability caps within the current DA which would limit the number of units which may be affordable. The City's 6th Cycle analysis includes an assumption of 1,200 dwelling units broken down into the very low, low, moderate, and above moderate-income categories. The property owner has expressed interest in communications with the City in developing for residential uses within the 8-year planning cycle.

Home Ranch

Segerstrom Home Ranch is a 43-acre site located north of the 405 Freeway with a General Plan land use designation that allows up to 1.2 million square feet of office and up to 0.64 Floor Area Ratio. The property is also located in the North Costa Mesa Specific Plan. The site is currently under a development agreement that was executed in 2002 and extended in 2010 for additional 20 years until July of 2030.

The City has had continued discussions with the property owners who have indicated there is the potential for future housing development on the site in strategic areas. The property owner has expressed that there are future scenarios which consider fully developing the site for residential uses with some support commercial, which exceeds the assumptions in the housing element. The City conservatively analyzed the potential for a range of uses on the Home Ranch site. This would require a modification of the existing DA, which is possible with property owner and City support. The City's 6th Cycle analysis includes an assumption of 2,215 dwelling units broken down into the very low, low, moderate, and above moderate-income categories. The property owner has expressed interest in communications with the City in developing for residential uses within the 8-year planning cycle.

South Coast Plaza

South Coast Plaza is a large regional mall in the North Costa Mesa area. The mall has ample surface parking and as of adoption of this Housing Element, has a large, big box component which is currently vacant. The City has had continued discussions with the property owners who have indicated there is the potential for future housing development on the site in strategic areas. The sites analysis makes a conservative potential redevelopment assumption of approximately 15 acres of the 128-acre property.

The City's 6th Cycle analysis includes an assumption of 1,959 dwelling units broken down into the very low, low, moderate, and above moderate-income categories.

Pacific Arts Plaza

Pacific Arts Plaza project is an 18.3-acre site located in South Coast Plaza Town Center currently developed with a variety of office buildings and restaurants. The site is designated Cultural Arts Center (CAC) by the General Plan and has a zoning designation of Town Center (TC). The property is also located in the North Costa Mesa Specific Plan. Portions of the site are under a Development Agreement. The existing development approvals referenced in the original Development Agreement that allows for a maximum Floor Area Ratio (FAR) of 1.55 and maximum building square footage of 1,227,978. The Development Agreement was recently extended for two years and will expire in August of 2023. The City has had continued discussions with the property owners who have indicated there is the potential for future housing development on the site in strategic areas. The City's 6th Cycle analysis includes an assumption of 535 dwelling units broken down into the very low, low, moderate, and above moderate-income categories.

6. Accessory Dwelling Units

Accessory dwelling units, or ADUs, are housing units which may be developed in addition to an existing single- or multi-family residential use. These housing units can be free-standing or attached to a primary structure and are intended to provide additional housing on an existing residential lot. Often ADUs provide housing for family members or are rented to members of the community.

As a result of new legislation and an increased effort by the City to promote ADUs, the City has seen an increase in applications so far in 2022. The City approved/permitted the following number of ADUs since 2018:

- 2018 – 4 ADUS
- 2019 – 6 ADUS
- 2020 – 27 ADUs
- 2021 – 43 ADUs
- 2022 (as of the end of April) – 27 ADUs

Of the 41 permits issued in 2021, 1 was available at the extremely-low income level, 3 were available at the very-low income level, 25 were available at the low-income level, and 12 were available at the moderate income level. As of the end of April 2022, the City of Costa Mesa has seen an increase in ADU activity. The City has approved and is in the process of issuing permits for 27 ADUs through approximately one-third of the year. Projected out over 2022, this demonstrates the continued trend of ADU growth and puts the City on pace for 81 approved ADUs in 2022. This exceeds the City's 2022 projection of 50 units by 31 units and positions the City well to exceed its projected ADUs within the planning period.

In compliance with State law, ADUs are allowed in all zones that allow single dwelling unit or multiple dwelling unit development. Junior Accessory Dwelling Units (JrADUs) are permitted only in single dwelling unit zones.

The City of Costa Mesa has determined based on past performance that it is appropriate to anticipate the development of 391 accessory dwelling units from 2021 to 2029 (approximately 50 per year through the planning period). Approximately 265 of these units are anticipated to be affordable at the low and very-low-income categories. A total of 117 ADUs are anticipated to be affordable at the moderate-income level and 8 ADUs are anticipated at the above moderate-income level. This affordability estimation is based on guidance from SCAG and HCD based on surveys of existing ADUs in the SCAG region between April and June 2020. Another local factor that contributes to the City's anticipated overall ADU growth expectations is that the City's ADU provisions are more flexible than the State ADU regulations, and therefore are more desirable for ADU development. For example, the State's minimum standard related to ADU required parking is that ADU's located within 500 feet of certain transit areas are not required to provide parking, whereas the City's ADU standards allow ADUs to be constructed without any parking regardless of location. Also, the State's minimum standard related to ADU height is that a local ADU ordinance shall allow an ADU height a minimum of 16 feet, whereas the City's ADU height standards allow a building height of 27 feet. Lastly, the State's minimum floor area requirement for ADUs is 850 square feet for studio units and 1,000 square feet for one-bedroom units, whereas the City's ADU floor area standards allow for larger ADUs in

that a detached ADU can be constructed up to 1,200 square feet, and an attached ADU may be the greater of 1,000 square feet or 50 percent of the size of the existing residential unit.

The City performed a trend analysis looking at the growth in ADUs from 2018 – 2021. That analysis is shown in the table below.

Table B-5: ADU Assumption Analysis (2018 – 2021)	
Year	ADU Permitted (2018-Based Strategy)
Projection Period Total:	*390*
2028	*50*
2027	*50*
2026	*50*
2025	*50*
2024	*50*
2023	*50*
2022	*49*
*2021**	*41*
2020*	27
2019*	6
2018*	4
"*" indicates actual permitted ADUs within that year.	

As shown in **Table B-4**, Costa Mesa has seen sustained increases in ADU production each year since 2018 with the lowest being a 50% increase between 2018 and 2019 as new State laws and local processes were not common knowledge amongst homeowners. The City expects that they while ADU production is likely to continue to increase year after year, there may be some drop off in that increase as more property owners develop ADUs. The City anticipates approximately 50 ADUs will be permitted per year for the remainder of the planning period.

A further indication of this is recent development trends observed by the City. Planning staff recently received and processed a development which included 13 ADUS which were conversions of existing garages. These units ranged from 152 to 363 square feet and consisted of a studio unit arrangement with one bathroom. This is a direct result of two actions: (1) developers and local property owners becoming educated on the new ADU laws and (2) the City of Costa Mesa making diligent efforts to discuss ADU potential and provide informational materials to the community. In addition to the methodology and concrete local data presented above, the City understands that ADU trends may change. In response, the housing element includes **Program 3M** to monitor ADU production every two years and has stated actions should production not match the anticipated amount in the housing element.

To assist in furthering the recognition and understanding of ADUs potential within Costa Mesa and reach the City's ADU development projections, Costa Mesa has included **Program 3E**, which identifies actions the City will take to promote and incentivize the development of ADUs during the planning period. As outlined in the program, these actions include:

- Coordinating with the County on implementation of a permit-ready ADU program
- Post a user-friendly FAQ on the City's website to assist the public with the general questions.

- Waiving specific permitting fees to make ADU development more feasible
- Creating an expedited plan check review process to ease the process for homeowners
- Research potential State and Regional funding sources for affordable ADUs and make the information found publicly available to homeowners

7. Water, Sewer, and Dry Utility Availability

Each site has been evaluated to ensure there is adequate access to water and sewer connections as well as dry utilities. Each site is situated with a direct connection to a public street that has the appropriate water and sewer mains and other infrastructure to service the candidate site. The City has sufficient total water and sewer capacity (existing and planned) to accommodate the 2021-2029 regional housing need. The City plans for future housing growth through the Mesa Water District Urban Water Management Plan (UWMP). This was most recently updated in 2020. Future sewer capacity is planned for through the Costa Mesa Sanitary District Sewer System Management Plan (SSMP), which was most recently amended and recertified by the Board of Directors in January 2021.

B. Calculation of Unit Capacity

This section contains a description of the candidate sites identified to meet Costa Mesa's RHNA need at all income levels. The full list of these sites is presented in Table B-6.

1. Realistic Capacity and Affordability Calculations

Costa Mesa's 2021-2029 Housing Element sites analysis assumes that each identified candidate housing site will develop with at a range of income levels. Primarily, it is assumed that sites identified within Table B-6 will redevelop with the following affordability characteristics:

- 30% of units available to residents in the low and very low-income categories
- 20% of units available to residents in the moderate-income category
- 50% of units available to residents in the above moderate-income category

Costa Mesa recognizes that not all sites within the inventory will develop such that they meet these affordability assumptions and has included a 37% buffer on the total number of units to assist in accommodating potential differences in future housing development. This buffer is to accommodate the potential that sites may develop for 100% nonresidential uses, however recent development within Costa Mesa has indicated that is unlikely. The following developments have all occurred recently within the City's urban plans, specific plans, overlays, or on non-residentially zoned sites. Many of these are described in more detail in Table B-2.

- 2277 Harbor Blvd – Previous motel use that underwent a rezone from C1 to PDR-HD and developed as a fully residential project with 200 apartment units.
- 671 W 17th Street – Previous industrial brownfield site in the Mesa West Bluff Urban Plan which developed as a fully residential project with 177 live/work units.
- 1620 and 1644 Whittier Avenue – Previous industrial use in the Mesa West Bluff Urban Plan which developed as a fully residential project with 89 live/work units.

- 1500 Mesa Verde East Drive – Commercially zoned parcel along Harbor Boulevard which developed as a fully residential project with 215 senior apartments.
- Brickyard East and West – Previous industrial warehouse uses along Placentia Avenue which developed as a fully residential project with 29 townhouse units.

Consistent with local housing market trends data presented earlier in this appendices, the City of Costa Mesa is seeing an increase in residential development and rarely receives requests for fully non-residential uses in the area identified within the candidate housing sites analysis.

The City has established goals and programs within the Housing Element aimed at identifying funding opportunities and partnering with the development community to increase the amount of affordable housing built in future developments. If the City is able to identify partnerships leading to fully affordable projects, that would also help to cover any potential shortfall in capacity in any of the four income categories. The City of Costa Mesa recognizes that should a "No Net Loss" situation occur, they will be required to identify additional sites and has analyzed additional potential housing sites within the Housing Element's environmental clearance document.

There are several candidate housing sites in which the affordability assumptions differ from those presented above. Those sites include:

- Costa Mesa Senior Housing Project (APN 424-211-01). This site is owned by the City of Costa Mesa who has had previous discussions with a developer on a fully affordable project on this site. This site assumes 60 units which are all affordable at the lower income levels.
- Fairview Developmental Center. This site is analyzed previously in the large site analysis portion of this appendices. This site is owned by the State of California and the City anticipates working in collaboration with the State to support the goal of developing affordable housing. The City has assumed that approximately 40% of the units on this site will be available to residents at the lower income levels, while 30% will be available to residents at the moderate-income levels. The remaining units are anticipated to be market-rate.
- Sakioka Lot 2. The City has conducted outreach meetings with this property owner and determined that it is realistic to assume that 15% of future units on this site may be available to residents at the lower income levels. This site has an existing development agreement.
- Home Ranch. The City has conducted outreach meetings with this property owner and determined that it is realistic to assume that 15% of future units on this site may be available to residents at the lower income levels. This site has an existing development agreement.
- Pacific Arts Plaza and Town Center. The City has conducted outreach meetings with this property owner and determined that it is realistic to assume that 15% of future units on this site may be available to residents at the low and very-low income levels. This site has an existing development agreement.

2. Specific Plan, Urban Plan, and Overlays

As identified in Programs 3B and 3C, of the Housing Plan (Chapter 4), the City will be modifying some of the existing Specific Plans, Urban Plans, and Overlays within Costa Mesa. The densities identified in Table B-5 reflect revisions to many of these areas to permit residential development at a higher density than what

the current zoning permits as of adoption of this document. As noted, the City has three years to complete these zoning amendments. The City is proposing to either analyze or modify the following areas:

- North Costa Mesa Specific Plan
- 19 West Urban Plan
- SoBECA Urban Plan
- Mesa West Bluff Urban Plan
- Residential Ownership Urban Plan (Propose to Remove)
- Residential Incentive Overlay
- Harbor Mixed-Use Overlay

These areas, with the exception of the Residential Ownership Urban Plan, which is proposed to be removed, will be modified through **Programs 3B through 3C** to permit residential development at or above the default density for Costa Mesa of 30 dwelling units per acre. When considering appropriate densities, the City held outreach meetings with members of the community, decision-makers, the development community, and major property owners. As part of these meetings, the City discusses and analyzed what densities were appropriate to maintain the character of the surrounding neighborhoods while also presenting the opportunity for future residential development that can realistically facilitate the development of units available at the lower income levels.

The City will continue to conduct community outreach post adoption of the Housing Element to discuss potential revisions to development standards within these areas with the goal of effectively planning for future affordable housing. Densities established as a part of future zoning changes must accommodate the densities shown in **Table B-4** for the sites identified.

Table B-6: Sites to Accommodate Costa Mesa 2021-2029 RHNA

Note: This table is sorted by unique identifier (Unique ID). The unique identifiers were established at the beginning of the sites analysis process.
Some sites were removed as part of the analysis and sites were not renumbered to retain continuity for the community and other users when referring to specific sites.

Appendix C

Summary of Community Engagement

Summary of Community Engagement

Section 65583 of the Government Code states that, "The local government shall make diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort." Meaningful community participation is also required in connection with the City's Assessment of Fair Housing (AFH). A summary of citizen participation is provided below.

As part of the 6th Cycle Housing Element Update process, the City of Costa Mesa has conducted extensive public outreach activities beginning in fall 2020. These recent outreach efforts included Virtual Townhall Meetings, District Specific Workshops, Stakeholder Meetings, City Council and Planning Commission Study Sessions, Online Community Survey, digital media and engagement, and noticed Public Hearings. Project materials, including recordings from townhall and public meetings, notices, and draft public review documents are available on the City's website: www.costamesaca.gov/housing-element-update.

Outreach for the 6th Cycle Housing Element to the Costa Mesa community includes the following actions:

- **Virtual Townhall Meeting #1** – The City conducted a virtual townhall meeting on November 18, 2020 for community members to come and learn about the Housing Element update process and provide initial feedback and guidance. The townhall was hosted in both Spanish and English. Advertising for the townhall included handouts and flyers, posts on the City's website, doorknob hangers, social media posts, text and email blasts, and outreach to local community organizations and faith-based organizations. A total of 78 participants attended the Townhall.
- **Subject Matter Expert Meetings** – Between February 9, 2020, and February 11, 2021, the City held meetings with various groups of professionals throughout the community to solicit topic-specific input as it relates to the Housing Element. These subject matter expert groups included Developers, Housing Advocates, and Homeless Assistance Providers.
- **District Specific Meetings** – On February 17th and 18th, 2021, the City held two district specific meetings to receive area-specific input from each Council District. The meetings allowed residents and local stakeholders from Council Districts 1-6 to provide recommendations on areas that can/cannot accommodate housing in their district, as well as provide insight on their district-specific needs and considerations as they relate to the Housing Element. Both meetings included a Spanish language breakout room for those who wished to participate in Spanish.
- **Targeted Focus Group Meetings** – Throughout the Housing Element Update period, the City focused outreach on sections of the community through Targeted Focus Meetings who are underrepresented in the planning process or who may not typically participate in community building processes. This included meetings with both English and Spanish-speaking faith-based community, organizations that provide services for those experiencing homelessness, the Costa Mesa Housing Coalition, the Costa Mesa Mobile Home Park Advisory committee, affordable and market-rate housing developers, and interested property owners and landowners.
- **Online Community Survey** – From November 19, 2020, to February 24, 2021, the City launched an online community survey to gather feedback and input regarding the Housing Element Update. There was a total of 465 survey respondents who participated. The survey was available in Spanish

and English. Participants were asked to consider existing housing and community needs and provide recommendations on the locations and types of housing that would best assist the City.

- **Planning Commission Study Session** – On March 1, 2021, the City held a Planning Commission Study Session to provide information regarding the status of the Housing Element. The study session informed the Planning Commission on the community outreach efforts to date, summarized housing and community demographics findings, and also provided an introduction to the sites analysis in order to meet the City's RHNA allocation.
- **City Council Study Session** – On March 23, 2021, the City held a City Council Study Session to provide information regarding the status of the Housing Element. The study session informed the City Council on the community outreach efforts to date, summarized housing and community demographics findings, and also provided an overview of the potential areas of the City that could be appropriate to include in the City's housing strategy.
- **City Council and Planning Commission Joint Study Session** – On April 27, 2021, the City held a joint study session with the City Council and Planning Commission. The intent of the study session was to provide and update and request feedback on the Housing Element Update's progress, including the Community Profile, opportunities and constraints to housing, and potential housing opportunities to meet the RHNA allocation.
- **Virtual Townhall Meeting #2** – The City conducted a second virtual townhall meeting on September 2, 2021, to provide information about the Public Review Draft and information on how the community can provide feedback. The townhall was hosted in both Spanish and English. Advertising for the townhall included city-wide mailer, posts on the City's website, social media posts, text and email blasts, and outreach to local community organizations and faith-based organizations. A total of 69 participants attended the English Townhall and 7 participants attended the Spanish Townhall.
- **City Council and Planning Commission Joint Study Session** – On September 13, 2021, the City held a joint study session with the City Council and Planning Commission. The intent of the study session was to provide an update on the Public Review Draft and request feedback prior to submission of the Draft Housing Element to the State Department of Housing and Community Development.

This Appendix contains all public comments regarding the Housing Element received by the City at scheduled public meetings. As required by Government Code Section 65585(b)(2), all written comments regarding the Housing Element made by the public have been provided to each member of the City Council.

C.1 Virtual Townhall Meeting #1

The section contains all townhall materials, handouts, flyers, PowerPoint presentation, as well as all available public comments provided during the meeting. Public comments were received verbally and in written form through the Zoom chat. A video recording of the virtual townhall is available at www.costamesaca.gov/housing-element-update.

City of Costa Mesa
2021-2029 HOUSING ELEMENT UPDATE

The City of Costa Mesa is in the process of updating the 2021-2029 Housing Element. This Fact Sheet answers commonly asked questions and provides information about the update process.

What is a Housing Element?

The Housing Element is one of the required elements of the City of Costa Mesa's General Plan. The Housing Element provides policies, programs, and actions that support and encourage housing growth at all income levels.

Key Sections of the Housing Element:

- Population and housing analysis for Costa Mesa
- Evaluation of constraints to building housing and identifying potential resources for housing development
- Evaluation of 2013-2021 Housing Element programs and policies to determine what worked and what needs to be changed
- Analysis of potential housing sites that can accommodate Costa Mesa's anticipated housing needs in the next eight years
- Development of policies, programs, and quantified objectives for the 2021-2029 planning period

What is the Regional Housing Needs Assessment (RHNA) Process?

The RHNA process is mandated by state law and lays out the number of housing units in different income categories that Costa Mesa must plan for. The RHNA is determined by the State Department of Housing and Community Development (HCD) and distributed by the Southern California Association of Governments (SCAG) for each city in the Southern California region. For the 2021-2029 Planning Period, the City of Costa Mesa is allocated 11,733 housing units based on the income categories listed below. The Housing Element is required by the State to identify sites to accommodate this estimated growth.

2021 - 2029 City of Costa Mesa RHNA Housing Needs Allocation

Income Category	% of Area Median Income (AMI)	Income Range*		RHNA Allocation (Housing Units)
		Min.	Max.	
Very Low Income	0 - 50%	--	$51,500	2,912 units
Low Income	51 - 80%	$52,530	$82,400	1,790 units
Moderate Income	81 - 120%	$83,430	$133,900	2,084 units
Above Moderate Income	> 120%	$133,900	--	4,947 units
			Total	**11,733 units**

*Income range is based on the 2020 HUD Area Median Income (AMI) for Orange County of $103,000.

City of Costa Mesa
2021-2029 HOUSING ELEMENT UPDATE

Why is the City Updating the Housing Element?

The City of Costa Mesa is required by state law to update its Housing Element every eight years. The current adopted Housing Element is for the 2013-2021 planning period. The City is now planning for the 2021-2029 planning period.

Importance of Updating the Housing Element:

- Allows the community to provide feedback to guide the future of housing in Costa Mesa
- Ensures the City complies with State housing laws
- Allows the City to become eligible for State grants and funding sources
- Demonstrates the ability to meet future anticipated housing growth needs

What is Included in the Update Process?

The update process is community-based and will include a variety of activities to interface with the Costa Mesa community. Key features include:

- A series of community workshops and other community engagement opportunities
- Comprehensive review of the community to analyze existing conditions
- Identification of sites to meet 2021-2029 RHNA
- Public Hearings before the Planning Commission and City Council

How Can You Participate in the Update Process?

There are a variety of ways you can participate throughout the planning process:

- **Virtual Townhall Meeting** will be held on November 18, 2020 for community members to come and learn about the process and provide their feedback and guidance to the City. This townhall meetings will be hosted in English and in Spanish.
- **District Specific Meetings** in December 2020 for in-depth discussions related to issues and opportunities within each of the six unique districts.
- Sign up to be placed on the interest contact list.
- Respond to the Community Survey available on the website.
- Submit written comments to the email address provided below.
- Once all public comments are collected, a Public Review Draft will be available for review and comments in Spring 2021.

Costa Mesa

Ciudad de Costa Mesa
Actualización del Elemento de Vivienda 2021-2029

La ciudad de Costa Mesa está en proceso de actualizar el Elemento de Vivienda 2021-2029. Esta hoja informativa responde a las preguntas más frecuentes y proporciona información sobre el proceso de actualización.

¿Qué es un Elemento de Vivienda?

El Elemento de Vivienda es uno de los elementos requeridos por el Plan General de la ciudad de Costa Mesa. El elemento de vivienda proporciona normas, programas y acciones que apoyan y fomentan el crecimiento de la vivienda en todos los niveles de ingreso.

Secciones clave del Elemento de Vivienda:

- Análisis de población y vivienda para Cosa Mesa
- Evaluación de las limitaciones para construcción de viviendas e identificación de recursos potenciales para el desarrollo de viviendas
- Evaluación de los programas y normas del Elemento de Vivienda 2013-2021 para determinar qué funcionó y qué debe cambiarse
- Análisis de sitios potenciales de vivienda que puedan adaptarse a las necesidades habitacionales anticipadas en los siguientes ocho años
- Desarrollo de normas, programas y objetivos cuantificados para el periodo de planificación 2021-2029

¿Qué es el Proceso de Evaluación de las Necesidades Regionales de Vivienda (RHNA)?

El proceso RHNA es un mandato de la ley estatal y establece el número de unidades de Vivienda en las diferentes categorías de ingreso para las que Costa Mesa debe planificar. El RHNA es determinado por el Departamento de Vivienda y Desarrollo Comunitario del estado (HCD) y es distribuido por la Asociación de Gobiernos del Sur de California (SCAG) para cada ciudad en la región del sur de California. Para el Período de Planificación 2021-2029, a la ciudad de Costa Mesa se le asignan 11,733 unidades de Vivienda según las categorías de ingreso que se indican a continuación. El estado requiere que el Elemento de Vivienda identifique los sitios que se adapten a este crecimiento estimado.

2021-2029 Distribución RHNA de las Necesidades de Vivienda de Costa Mesa

Categoría de Ingresos	% de Ingreso Familiar Rango Medio (MFI)	Escala de Ingresos*		Distribución del RHNA
		Min.	Max.	
Ingresos muy bajos	0 - 50%	--	$51,500	2,912 unidades
Ingresos bajos	51 - 80%	$52,530	$82,400	1,790 unidades
Ingresos moderados	81 - 120%	$83,430	$133,900	2,084 unidades
Ingresos por encima de Ingresos Moderados	> 120%	$133,900	--	4,947 unidades
			Total	**11,733 unidades**

El rango de ingresos se basa en el HUD Ingreso Familiar Rango Medio (MFI) del Condado de Orange de $103,000.

Ciudad de Costa Mesa
Actualización del Elemento de Vivienda 2021-2029

¿Por qué la ciudad está Actualizando el Elemento de Vivienda?

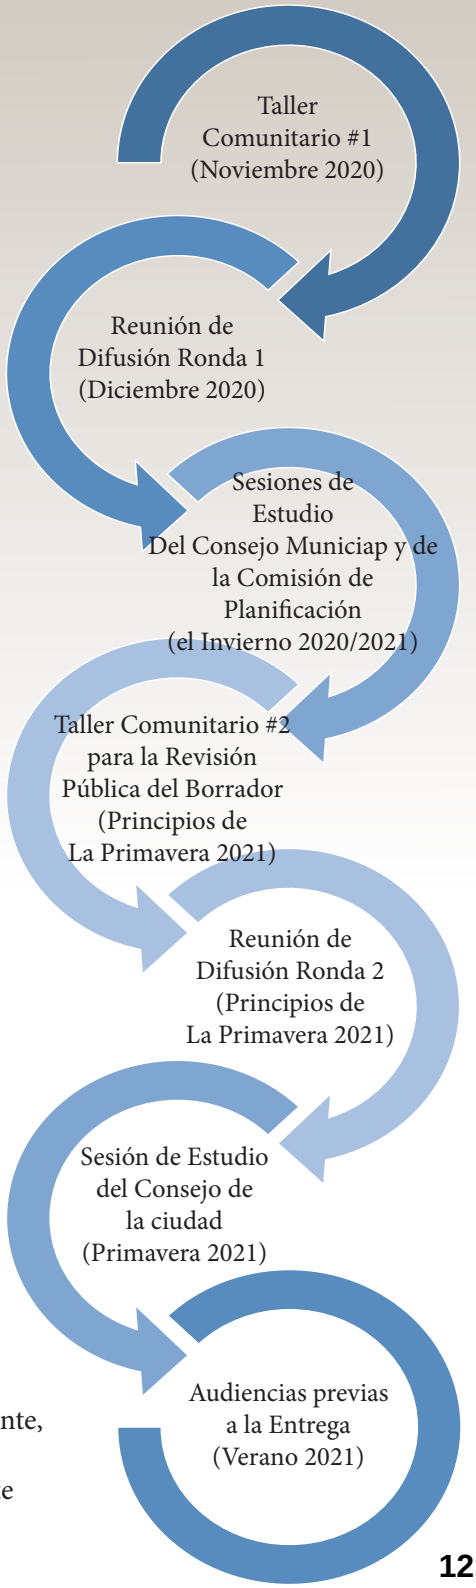
La ley estatal requiere que la ciudad de Costa Mesa actualice su Elemento de Vivienda cda ocho años. El Elemento de Vivienda adoptado actualmente es para el período de planificación 2021-2029.

Importancia de Actualizar el Elemento Vivienda:

- Permite a la comunidad proporcionar comentarios para orientar el futuro habitacional de Costa Mesa
- Se asegura que la ciudad cumpla con las leyes estatales de vivienda
- Permite que la ciudad sea elegible para subvenciones estatales y fuentes de financiación
- Demuestra la capacidad de satisfacer las futuras necesidades de crecimiento de vivienda previstas

¿Qué se incluye en el proceso de actualización?

El proceso de actualización se basa en la comunidad e incluirá una variedad de actividades para interactuar con la comunidad de Costa Mesa. Las características clave incluyen:



- Una serie de talleres comunitarios y otras oportunidades de participación para la comunidad
- Una revisión integral de la comunidad para analizar las condiciones existentes
- La identificación de sitios para cumplir con el 2021-2029 RHNA
- Audiencias públicas ante la Comisión de Planificación del Consejo Municipal

¿Cómo puede Participar en el Proceso de Actualización?

Hay una variedad de formas en las que puede participar a través del proceso de planificación:

- **El Taller Virtual del Ayuntamiento** se llevará a cabo el 18 de noviembre del 2020 para que la comunidad asista y aprenda sobre el proceso y proporcione sus comentarios y orienten a la ciudad. Estas reuniones públicas se llevarán a cabo en inglés y en español.
- **Reuniones Específicas del Distrito** en diciembre del 2020 para discusiones a fondo relacionadas con problemas y oportunidades dentro de cada uno de los seis distritos únicos.
- Anótese para registrarse en la lista de contactos interesados
- Responda a la Encuesta Comunitaria disponible en el sitio web.
- Envíe sus comentarios por escrito al correo electrónico que se proporciona abajo.
- Para revisar y proporcionar comentarios acerca del Borrador de la Revisión Pública en la primavera del 2021.

Costa Mesa

Housing Element Update Townhall Meeting Q&A

The first Housing Element Townhall meetings to kick start the community outreach were held on November 18th at 6:00 (English) and 7:30 (Spanish). A total of 68 individuals participated in the virtual events and presented a number of questions that are included in the following summary. For more details on the meetings such as the video and presentations, please refer to the City's Webpage at: https://www.costamesaca.gov/city-hall/city-departments/development-services/planning/housing-element-update

RHNA – Regional Housing Needs Assessment

1. What is the status of the City's RHNA allocations appeal?

   The Southern California Association of Governments (SCAG) adopted the Draft RHNA Allocations for southern California on September 3, 2020. The City as well as many other cities in the region received a very large RHNA allocation for this Housing Element cycle. The City has appealed the Draft RHNA allocation. Based on initial information from SCAG, the City is anticipating an Appeal Hearing in January 2021. The City will be informed of any changes to the RHNA allocations after the January 2021 Appeal Hearings.

2. How many dwelling units have been allocated to Costa Mesa?

   Costa Mesa has been allocated a total of 11,733 housing units over the next 8 years.

3. What is the RHNA allocations breakdown based on income and can they be adjusted?

   The 11,733 units are divided into four income categories as shown below. The City can go beyond the requirement for very low and low income categories but these minimums are set by the state. Very low and Low income category housing are the most challenging to develop because of the high price of real estate in Orange County.

   Very Low Income: 2,912 units
   Low Income: 1,790 units
   Moderate Income: 2,084 units
   Above Moderate Income: 4,947 units

4. Does permanent supportive housing count towards lower income categories?

   In most cases, newly developed Permanent Supportive Housing can count towards the City's RHNA allocation at the income levels that units are being rented at. Units must meet the Census definition of a dwelling unit (for instance, group homes where tenants only lease a room may not qualify) and fall within the set income ranges for the very-low, low, moderate, and above moderate levels. Every project is a little different and additional project-specific information will be needed in the future to determine if units may qualify.

5. Are there requirements for the number of housing types as there is with income?

   There are no requirements for the number of housing types to be built in the next 8 years; however, the Housing Element includes provisions to address the housing needs of a variety of household types such as seniors, larger families, assisted living, etc.

6. Does the City have a contingency plan if the appeal is not approved?

   If the appeal is not approved, the City will need to proceed with the plan for the addition of 11,733 units over the next 8 years.

7. Why did the City have a very low RHNA during the 5th Housing Element Cycle?
   The methodology used to calculate the RHNA allocations are adjusted each cycle to address the housing need at that particular cycle. With the 5th Cycle, many cities in Orange County received low RHNA numbers based on vacancy and other factors that were reflective of the recession at the time.

Costa Mesa

1. How many City Council districts are in the City?

   There are 6 districts in Costa Mesa. Please visit this link to see which District you live in: http://apps.costamesaca.gov/maps/VotingDistrict.html.

2. Are there reports on the number of recently built units?

   Annual Progress Reports are available on the City website and provide information on the number of permits granted and households added. The 2018-2019 Progress Report is available at this link: https://www.costamesaca.gov/home/showpublisheddocument?id=39281.

3. Can the City engage the State to build housing on publicly owned properties such as the Fairview Developmental Center and the OC Fairgrounds?

   The City can discuss opportunities with the State and add the Zoning and General Plan to allow for additional housing on these sites; however, the State holds the decision making power on those properties and the housing element cycle is for 8 years. The State process for release of public land and development is very lengthy and may not be addressed in this cycle.

4. Does the City have an inclusionary housing ordinance?

   City Staff is currently reviewing options for an inclusionary housing ordinance to coincide with the Housing Element Update. The City Council will be the review and approving body on the ordinance which will also be subject to certain studies to develop potential in-lieu fees. Staff anticipates this ordinance to be ready for review by latter part of 2021.

5. How is rent control managed by the City?

   The City does not currently have rent control measures. Any policies related to rent control at local level may be reviewed and addressed through the 2021-2029 Housing Element Update Process.

Housing Element Update

1. How will zoning be affected?

   The Housing Element Update will assess how additional housing units may be added throughout the City given existing zoning. If existing zoning does not enable the City to reach its RHNA allocation, the Housing Element may recommend future consideration of rezoning.

2. What email address can be used to reach the City's Housing Element Update team?

   Please email any questions or comments regarding the Housing Element Update and future housing growth in Costa Mesa to: housing-element@costamesaca.gov.

3. Is the focus on single-family homes or multi-family rental units?

   The Housing Element Update will look at all types of housing throughout the City and consider opportunities for new housing development. The purpose of the community outreach is to better understand the needs and support of residents on various housing options.

4. Will the new student housing at OCC count towards RHNA?

   The new student housing will not count towards RHNA as it was completed outside of the projection dates (June 30, 2021 to October 15, 2029).

5. How will the City ensure lower income housing is built once the plan is created/hold developers accountable for creating affordable housing?

   The Housing Element may identify potential incentives available to developers who include affordable housing components to housing developments. Most affordable housing agreements require long-term affordability covenants; the state requires a minimum of 55 years.

6. What can be done about the development costs?

   The Housing Element process will include public input regarding possible constraints due to development costs and/or fees. How are other City committees and groups involved in the Housing Element Update?

   The City will be hosting Subject Matter Expert and Target Focus Group meetings to receive feedback from experts in the field on particular topics. These meetings will be posted to the City's Housing Element Update webpage once a date is set and community members may attend.

Other

1. Can higher density housing improve traffic?

   Higher density housing developments may mitigate additional traffic when located within walking distance from amenities, commercial and retail uses, and job centers. Housing developments that incorporate mixed-use methods (combining housing and retail uses) may also decrease the need for residents to drive.

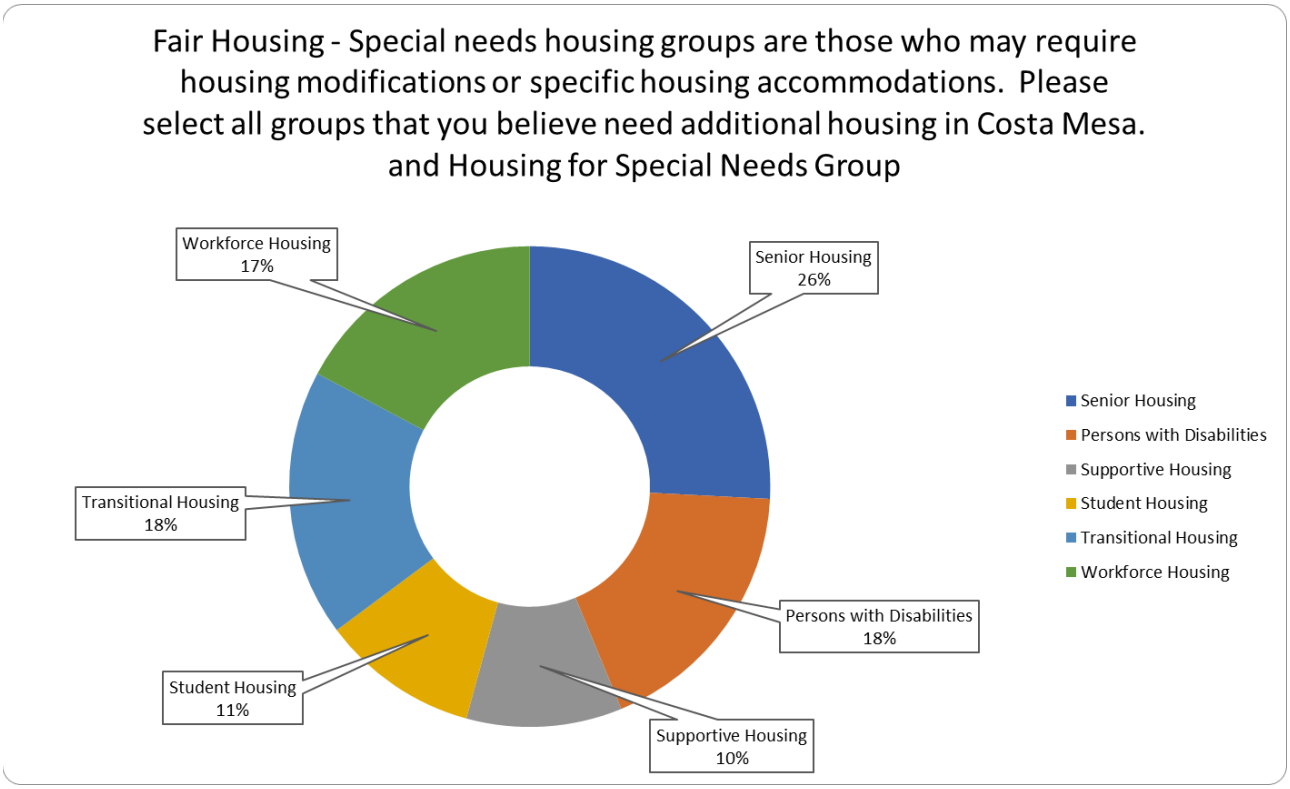
2. How will parks and recreation space be increased as population increases?

   As housing developments are proposed, park fees are assessed in order to ensure adequate recreational open space and maintenance services are provided to the community.

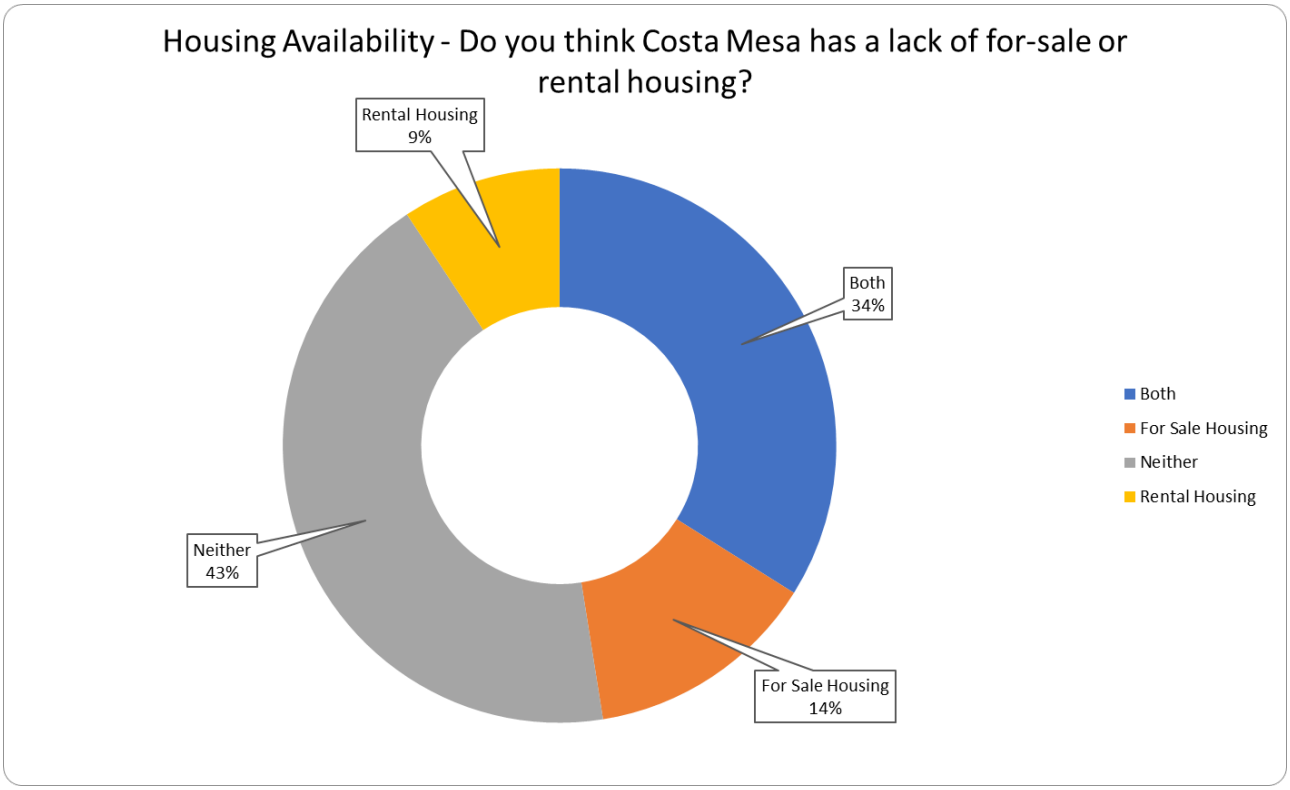
C.2 Online Community Survey

This section contains an outline of the survey questions, summary of survey comments, and total survey results. The survey was made available on the City's webpage and survey results were presented to the City Council.

The City of Costa Mesa is updating its Housing Element and needs your input!



You can take the survey on the Housing Element Update website at **https://qrco.de/bbsnzZ** or by scanning the **QR code** below.



For continuously updated information, please visit: **www.costamesaca.gov/housing-element-update**

Vision for Housing in Costa Mesa Comments

Retain character of residential neighborhoods. Use Fairview Developmental Center for an affordable housing enclave. Encourage high rise housing development north of the 405.
Live-work sites are too repetitive in style. Overpower neighbors. Subdividing for snaller lots? Need basic lot area a critical issue.
Supportive and transitional housing for homeless, construction with traffic safety in mind (speed bumps in neighborhoods, not more homes than parking, etc), lots of open space/oarks
Housing should be multi-story on major thoroughfare and close proximity to freeways but not impacted by noise and air quality.
More walkable neighborhoods by promoting mixed use development. I see first floor commercial development with apartments or condos above the next few floors. Increasing housing while increasing quality of life.
Housing density has to increase. The choice is between density and sprawl. We need multi-story housing.
A senior living village on 19th at the senior center. A mixed use neighborhood developed on FDC land that includes various levels of affordability, and affordable for sale work force housing. A denser neighborhood north of the 405 that includes affordable work force housing.
Affordable housing for workforce Supportive housing for those who need help
More affordable options for lower to mid income families. Especially focusing on what's available on the westside and making the westside as desirable but still affordable.
Costa Mesa focuses on infilling and densifying what it's already got, without needing to sprawl into the remaining open spaces. We are lucky to have many "centers" in town: W 19th, E 17th, SoBeca, Harbor and Adams, Harbor & 19th. We focus on concentrating our growth around these amenitiy-rich, walkable centers while also allowing context-sensitive infill into our existing neighborhoods. To the extent possible, all new development occur on small- to medium-sized lots by local developers. Vulnerable groups are not institutionalized but accommodated in neighborhood environments. Each neighborhood contains a range of options to accommodate people in different life stages, and with different socio-economic conditions. With all new housing, the street matters most – front doors, big windows, small gardens, transitional space that fosters comfortable interaction within the community and a sense of ownership of the public realm. Trees are everywhere.
Liquid, affordable housing at all income levels near jobs. Costa Mesa should be a 15 minute city that doesn't require automobile ownership.
More of it without all the heartache from boomers. YIMBY
Existing streets-incorporate landscaped wider walkways with separate designated bikeways especially high density areas (Monrovia)...make into one way street from 19th to 15th...gateway street to Newport!!!
Folks that moved to Costa mesa prior to 2010 have no idea what it is like in 2020 being a young family looking to set down ties in Costa Mesa. more housing only enhances our city.
Housing needs to be affordable, near public transit or protected bike lanes, and doesn't create additional drains on public services, utilities or additional demands on parks. Compliance with CEQA, height limits, setbacks and other administrative approvals are mandatory. We must avoid SB 35 streamlining.
More affordable. Safety in high traffic areas. Transitional housing for homeless.

People with jobs working in the area can afford to buy an own housing in the area. Costa Mesa has far too much rental housing, already, and we need not build a single new rental unit. All new units should be ownership opportunities.
Costa Mesa used to be a safe place to raise families. Crime is on the rise as well as homelessness and apartments are overcrowded with multi families filling garages with people instead of vehicles which causes excessive parking problems and overpopulation, density and crime in some areas. The people of Costa Mesa are sick and tired of it and a lot of people have moved away because of it.
To work on beautifying the city. Work on rebuilding the older parts of the community. Start a slow growth plan
first time home buyers
Initial homes for people and luxury small apartment homes for those young with high paying jobs, but needing/wanting a high quality environment and location, but not needing a fancy address.
An inclusive city for people of all walks of life to live cohesively alongside one another.
A city that makes a place for people of all economic income levels. A place where people can work and recreate near where they live.
Safe, affordable, quality housing for all.
My vision is to STOP more housing. You have torn down business in our city to put up God-awful condos everywhere. Gross. Just leave it alone.
No growth. Lower taxes. Safer streets
Housing integration that prioritizes walkability and bikeability. Ideally, residents do not feel compelled to drive to groceries, entertainment, recreation etc within the city.
People who live in Costa Mesa now can choose to live here in the future. Diverse housing options make Costa Mesa desirable along income, age, and social characteristics. There is no shortage of housing for vulnerable populations (undocumented, seniors, homeless).
Affordable apartments or condos that are close to services needed, secure parking and entry. I would prefer no more then 3 to 4 levels and look modern to blend with the surrounding area. Trees, garden area including walking paths and reflecting area.
A diversified housing selection, that is realized through public-private-partnership utilizing Costa Mesa's resources within the opportunity zone, new market tax credits map area, lihtc in the DDA area, and define the developer incentives within the overlays.
I don't envision a large amount of new housing. The space that we have remaining is limited with many areas overcrowded with multiple families living in single family dwellings.
Let the market, and the market professionals determine the demand. If a city is built out, it's done...unless of course you want the kind of urban density that other now-undesirable cities have...Long Beach, L.A. etc... quit the social engineering and do the job of providing city services to city residents and businesses.
Let the market decide. Do you realize that your job isn't to provide housing? Do you understand the difference between the free market system and what they have in, say, Russia or China???
I would like to see higher density, for lower income levels, near transit. We have many parking lots, old shopping centers, and seemingly abandoned business parks that should all be changed to high density housing with public transit. Mixed use would also help keep people out of cars.
To make Costa Mesa the place where everyone living in Newport Beach, who grew up around there, wants to live. Making it more desirable for family's. Less crime. And rezoning old run-down retail centers, creatingmixed-use development's that increases walkability for the younger demographic, families.

BEAUTY! Those big new ugly apartment boxes going up all over OC are AWFUL. SERVICES appropriate to all housing (roads, schools, etc.)
Stop the trend for high density box type living spaces. Tax paying legal residents need yards, side walks, parking. Not cramped into small areas. Traffic congestion has become a major problem.
More single family housing and small lot singe family homes. I do not want to see high rise high density housing which is all rental units. We need to incentive home owner ship in Costa Mesa somehow. I understand that not everyone can own a home here and understand building a small amount of affordable housing but why are we so concentrated on building affordable housing for people who can't afford to live here? I want to live in Newport Beach. I want to live on balboa island, I want to live in CDM but I can't afford it so I bought where I could here in CM if I couldn't afford to live here I would move to a city where I can afford to buy a home or rent. We are a mile away from the beach and understandably people want to live here but is it not a right to live here. I worked my ass off and made some good decisions and saved 12 years for a down payment working as an Electrican to buy here. I am extremely worried of overcrowding, traffic, poultion, crime, trash , graffiti the stretching of our resources such as schools, police and fire and such. There has to be a point where we say enough is enough. No more space, to crowded and that's it. What it comes down to is a quality of life issue here. The quality of life will be greatly diminished as we build the crap out of Costa Mesa.
Access to affordable housing is in line with the median household income. Affordable housing for everyone.
We need Life Cycle Housing opportunities in Costa Mesa. We need workforce housing. We need an Economic Development Director who will help in the creating of an Opportunity Zone vision
We need Life Cycle Housing opportunities in Costa Mesa. We need workforce housing. We need an Economic Development Director who will help in the creating of an Opportunity Zone vision.
We need Life Cycle Housing opportunities in Costa Mesa, workforce housing, an Economic Development Director who will help in the creating of an Opportunity Zone.
Appeal the RHNA numbers determined by the State Department of Housing and Community Development (HCD) and distributed by the Southern California Association of Governments (SCAG) to numbers that reflect realistic growth in Costa Mesa based on available land and actual census data/ anticipated growth based on historical data. If the appeal is denied, the City of Costa Mesa needs to file a class action lawsuit with Huntington Beach, Newport Beach, Laguna Beach, etc against the State of California HCD. Protect Single Family Homes in R1 zoning at all costs. Do not allow ADU or small lot developments in R1 neighborhoods. Only Allow for more stories, increase building heights, increase FAR and units per acre in R2-HD and R3 zoning west of the 55 freeway/ Harbor Blvd. Provide specific plan overlays on 19th Street, Harbor Blvd, Superior Blvd, etc. that allow for 4 story max mixed use developments (apartments/ condos over retail or commercial). Allow for Live/ Work medium density Developments in MG and MP zoning. Provide developer incentives to build the types of developments that benefit the community.
I hope we will continue to have plenty of single family residences. I would hate to see more condense living arrangements.
The appeal of Costa Mesa is the safe, family-friendly neighborhoods with quality schools and without high-density inside traditional neighborhoods. It's the opposite of Los Angeles.
The city needs to house all income levels so a mixture of housing types will be required. The NIMBY will be very upset if their neighborhood dynamic is threatened so a major PR effort would be needed for any change.,
To make housing affordable to low income. For renters and buyers.

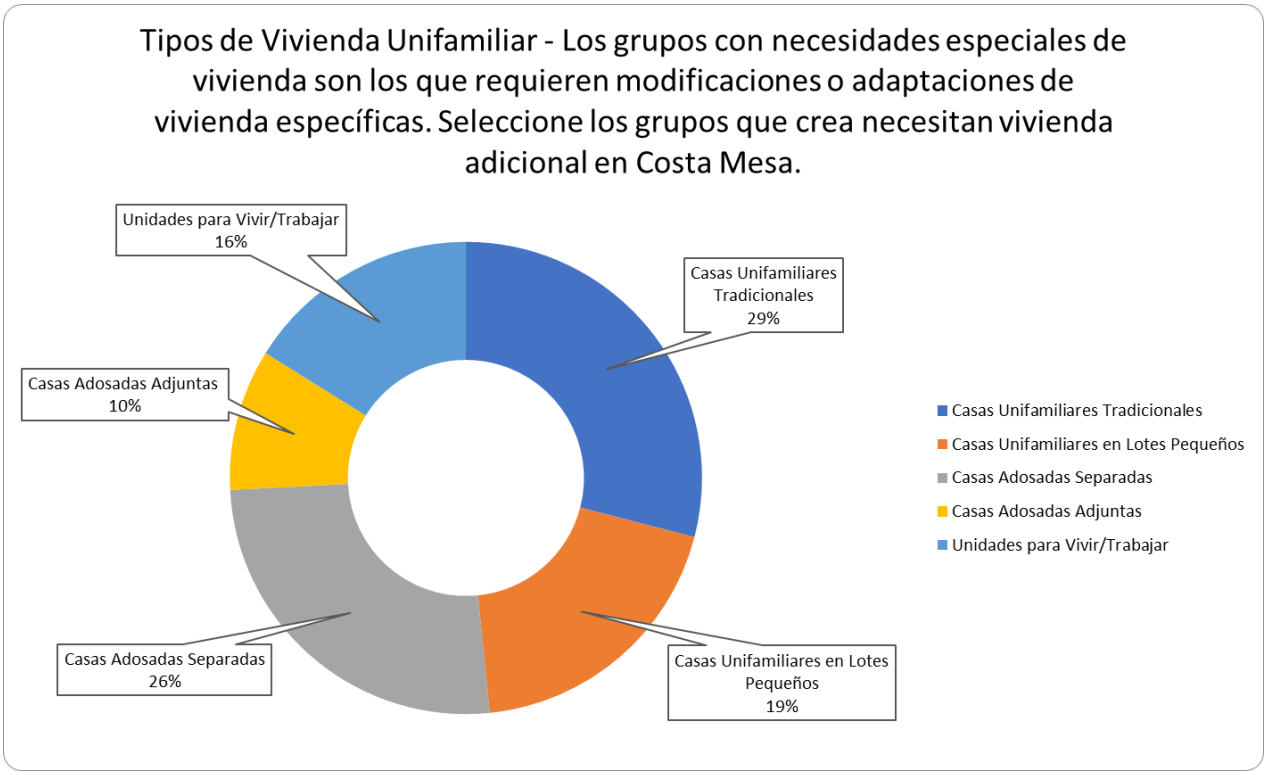
Single family homes and detached townhouses that are affordable as in 400-600/k to bring in young couples to raise their families
Limit high density housing please
Easier renovations to single family housing
Stop building cage apartments, more affordable housing for middle class income PLEASE .
Something without HOAs and something with plenty of parking
We need tob look at mixed use housing along with hi density housing that does not impact our local residents.
Affordable living with various options of housing , safe environment with no halfway houses.
Please NO SHORT TERM HOUSING
More affordable single family housing. Less three story master planned communities.
Affordable housing
I am hopeful that the city won't become overcrowded. Parking in neighborhoods is already difficult, and new construction is being packed into very tight spaces. I would like to see some housing that allows space between units and room for front or backyards.
Let the market determine that within the existing zoning. Increasing home ownership versus rental as the city is upside down in the regard and becoming increasingly a second-class community...inexcusable for a near-beach community.
Affordable housing close to shopping snd transportation.
Eone thing I don't want Costa Mesa to do is to change any of the zoning that exists today.
The one thing I don't want Costa Mesa to do is to change any of the zoning that exists today.
I'd like to see decent housing for the variety of people that live in our community. These should be in safe areas (not on a major street or in areas f noise or other pollution (not freeway adjacent).
I know first-hand that the city must stop the influx of people coming to this city from around the country for rehab's. Insurance fraud the people that are let out just roam our streets in terrorize the neighborhoods.
More dense Multi-Family Rental Housing should be planned north of the 405 Freeway. 580 Anton and 3400 Ave of the Arts and Halcyon House are good examples of what could be and not impact the SFR neighborhoods south of the freeway.
I don't want to see a bunch of dense paraments popping up all over Costa Mesa. Our streets are packed enough with cars. I would rather see more single family homes when there is room to grow, but not they type with no yard.
With limited land, Costa Mesa cannot continue to place high density housing where traffic congestion is already a huge issue because of the proximity to the beach.
Promote single family properties. Not high density. Not sober living. CM is losing its charm fast. Have lived here since '88
High Density DUs north of the 405, in the older industrial section, would be perfect.
Less multi home structures on small plots. There are too many cars parked on the streets due to these developments making it unsafe for children to ride.
My vision for the future of housing in CM is that the community shifts focus on the high cost of housing to focusing on the acts of the family in the home.
I think retaining Costa Mesa's character is very important and not reflected in the 3-story box developments in the Westside. I think future developments should include increased public

transportation to limit traffic. Any new developments must include public parks and open spaces, not a fee to the city that robs residents of recreational opportunities and facilities.
The city is overcrowded already with too much traffic. You would do well to deport illegals so Americans can have access to the housing they are taking up.
Less high density housing in Costa Mesa with improved land use. Current efforts to remove business from Costa Mesa in favor of housing has cost the community dearly. Time to consider the need for business to exist in the City instead of the continued rush to create more housing.
Affordable for single people living alone making a $50,000 salary. These new housing blocks being built all over Costa Mesa with units costing $800,000 or more are ridiculous.
That we face the fact that one city can only accomodate so many people and not destroy everyone's quality of life by making it too dense. I believe in the post-Covid era there will be many shifts in how and where people work, and in what businesses they patronize. It would be wise to see how these trends develop and incorporate the new normal into housing plans.
A variety of housing options at multiple price points to ensure economic diversity of residents. Hourly wage earners need to be able to live where they work to reduce traffic, GhG, other pollutants, and chronic stress
A median income community appealing to families that supports infrastructure and where neighbors cared about each other.
Single story apartments, condos or houses. We have large aging community.
Clean up some of the run down areas. More parks but there doesn't seem to be room. Fill the vacant old shopping centers and large vacant stores with housing.
Safe, clean and a city where I can live and work with peers and multi-generational family members
Housing for families with the majority being for sale housing rather than rental. I realize the idea of home ownership now ranges from the stand alone home to attached duplex houses to condo units. But home ownership stabilizes a community and encourages individuals to take an interest in that community. Most renters don't have an affinity to the town they live in.
Iwould like to see Costa Mesa expand the housing to the maximum without overcrowding. A fair representation of all social classes and races. More high rises perhaps.
More housing everywhere. Especially along Newport Blvd. The model is what they did over by Trader Joe's.
With all residents willing, and developers open, we can add a mix of housing in all districts evenly. We can reduce traffic, and improve our quality of life by creating more mixed-use spaces we can walk and bike to, increasing community connection, supporting business. It takes everyone.
No overcrowding. affordable, attractive housing, family oriented.
Keeping CM beautiful will keep property values and taxes up. Let's not forget about incorporating trees, looking for power line alternatives in the planning efforts.
Diverse people living in medium-to-high density mixed use spaces, live/work areas, and close to affordable and reliable public transportation/
We have to choose between density and sprawl. Density is better.
Smaller houses with large lots to improve the overall landscape, gain better air quality and grow food
N/A
I would prefer limited growth to avoid an already overloaded system.
A safe community with good schools and access to a good mix of large stores and independently owned businesses.

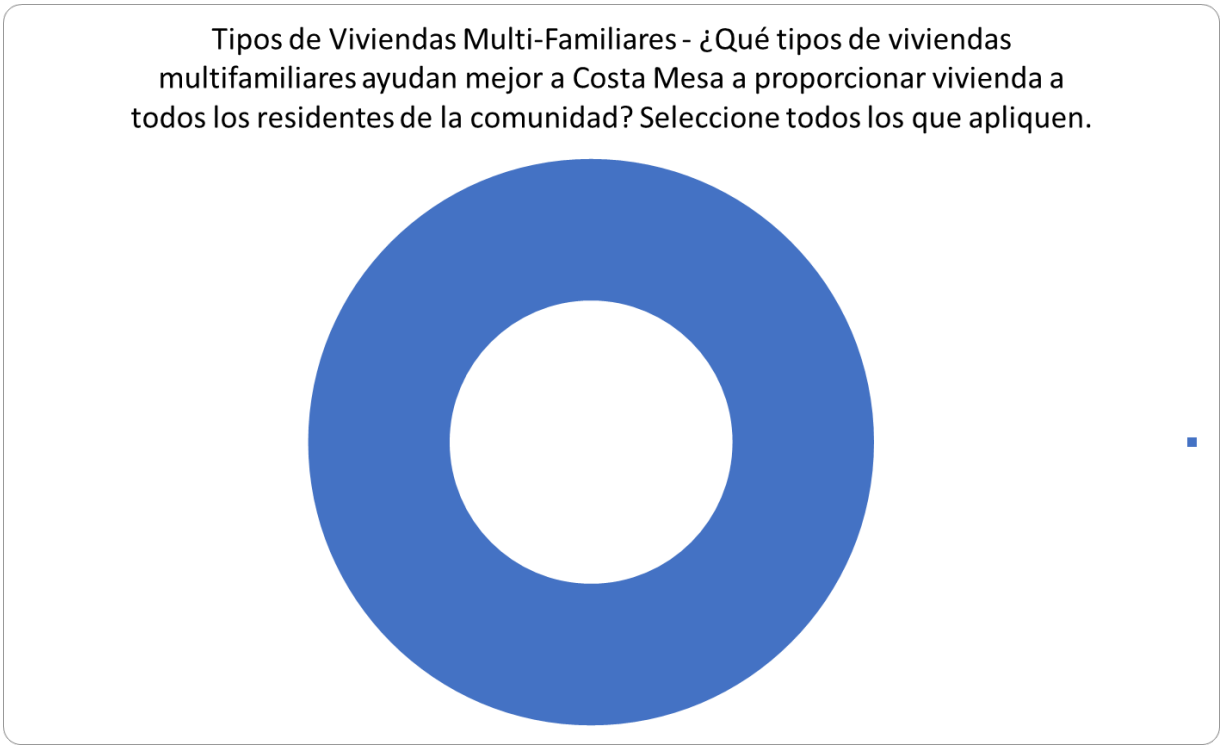
I think Costa Mesa has already built in every square foot of land. I have seen so many high density residential area pop up in Costa Mesa. I think we need to take a hard look at whether we are overbuilding and we should not change any zoning laws in Costa Mesa.
I do not believe that building additional housing would benefit Costa Mesa residents, other than permitting accessory dwelling units. Taking away retail, using city property or permitting multi-family housing in neighborhoods is not something residents want and causes more congestion in the neighborhoods and city.
Too many new multi-level boxy looking homes built now; need more traditional single-level & low multi-level homes
Maintain the single family home style being unique to the allure of Costa Mesa. Invest in downtown CM to increase tourist revenues for all CM business's. Make certain Fairview Park remains untouched. Build houses where the Early College H.S. is. Adams Elementary could be a jewel of CM in a heartbeat for immediate surrounding families.
My vision for housing in Costa Mesa is that every neighbor would have a place to live, connect with others, and thrive because their housing costs are within their budget. I believe this is possible with creativity and developers who are willing to make it happen. I applaud the work of the city to not only pursue a plan, but implement it.
Affordability
Future housing would take advantage of greener living (solar panels, etc), and provide safe spaces for those in the unhoused community, while keeping the safety of neighborhood in mind. Gentrification would be replaced by a more collaborative approach, with minimal hostile architecture.
Maintain Costa Mesa single family housing. No more recovery housing/homeless shelters.
Resident Permit Parking Needs To Be In Place. Please start enforcement again. We fought hard for Resident Parking Permits.
Transform older neighborhoods into newer, improved neighborhoods. Turn Westside CM into Eastside CM / CdM flower streets. Property values go up.
To maintain the status quo. We moved to Costa Mesa almost 40 years ago for its large lots, lack of HOAs, freeway and shopping access. The city needs to push back on the state for mandated housing increases. My neighbors, like me, do not want to live in a congested, high density neighborhood. We successfully fought an out of town developer from ruining our tract with HD housing a few years ago and we'll do it again.
More single family homes. Streets requiring parking permits. Reduce apartment building or require adequate parking to be part of process, 2 car spaces at least per unit. If house is zoned for senior or special needs living, must stay that way. Current issue with previously senior home now rented to 7 people with cars, issues with parking for neighbors.
More single family than apartments, even if it means condos with green space around them. There is too little attention to green spaces for walking, riding bikes, exercise. No new housing should be allowed unless it provides open space for parks!
Let the market dictate the response to needs, not the bureacrats in Sacramento...good grief, this should be obvious...quit social engineering experiments.
Developing some of the industrial land and run-down hotels into quality housing keeping in mind room for plenty of parking and green space. Not 3 story townhouses
Costa Mesa is already impacted any new housing should be multiuse and schools should be open for recreation.
My husband and I are hospital workers (RN) living in a rental duplex. Have wanted to purchase our own single family home but it's just out of reach. Would love to see some affordable single family homes under $500k

Less apartments which increase parking problems in virtually every area in the Westside. The 3 story with roof deck properties (now at a 4th floor position) are ugly. The 2 on my street, Poets Place and next door are basically failures. They look horrible, ruin property values in surrounding areas and they do not sell or rent well. Both properties are mostly not rented, and live in homeowners are very few and far in between. They are essentially high priced apartments which do not rent. Few people want to navigate 3 steep floors.
No more tower housing. It's too congested. Simple like before
A place where we value everyone in our community, regardless of home much money they make. That is why we need housing for very low and extremely low income neighbors. We have so many folks working low wage jobs that serve us, but we don't provide anywhere affordable that they can live in our community.
More affordable housing
SLO growth, additional traffic concerns, we have too many cars parked along streets as is
Costa Mesa is upside down in its ownership to rental ratio. We do not need a single additional rental property. Ownership has proven and enormous community benefits at all levels; all aspects of this plan should focus on increasing opportunities for ownership.
We do not need a single additional rental property. Ownership has proven and enormous community benefits at all levels; all aspects of this plan should focus on increasing opportunities for ownership. Smaller units work just fine as ownership opportunities. I live in about 1000 square feet and that has been enough for 28 years.
Existing single family home keep the variety of housing architecture. Small rental housing blogs (3 and 4 units). Large developments and small lot homes deteriorate the existing culture.
I believe in placing more value in housing than parking, if you look at an aerial view of most cities, there is more parking area than there is buildings.
Would like Costa Mesa to be free of Homelessness, Low Crime/Drugs, and Open to those that can afford it.
More maintained, nice affordable housing for multiple groups. A mixture of single family homes as well as multi-family units.
Hope there will be opportunities for people who work in Costa Mesa to also live here from CEO's and doctors to service and maintenance workers - a potentially difficult balance.
Density is the only thing that can prevent sprawl. I'm in favor of it.
Unless we are also creating a robust retail environment, quality food, artisan retailers, local businesses, and quality education, as well as sufficient parks and open spaces, I don't believe there should be additional housing units.
Mixed, sustainable, and creative. We need more creative thinking that produces the housing equivalent of the Camp/LAB and less like Triangle Square. The fairgrounds, Fairview development center, and civic center offer a blank canvas to make a new housing hub and "place".
Low to medium density homes which are manageable to buy or rent by mid-level wage earners.
Safe and pleasant neighborhoods based on a shared sense of community and ownership - protecting the product of joint effort and long term investment in places in which our kids can grow up in and continue a legacy
My vision is if people work for it then they will take care of it and the community. If they are provided with a handout from the government they will run this city into the ground. I think our city is very dense and traffic is already congested. The state should consider putting this housing where there is tons of land that isn't already being used (like the desert near Barstow).

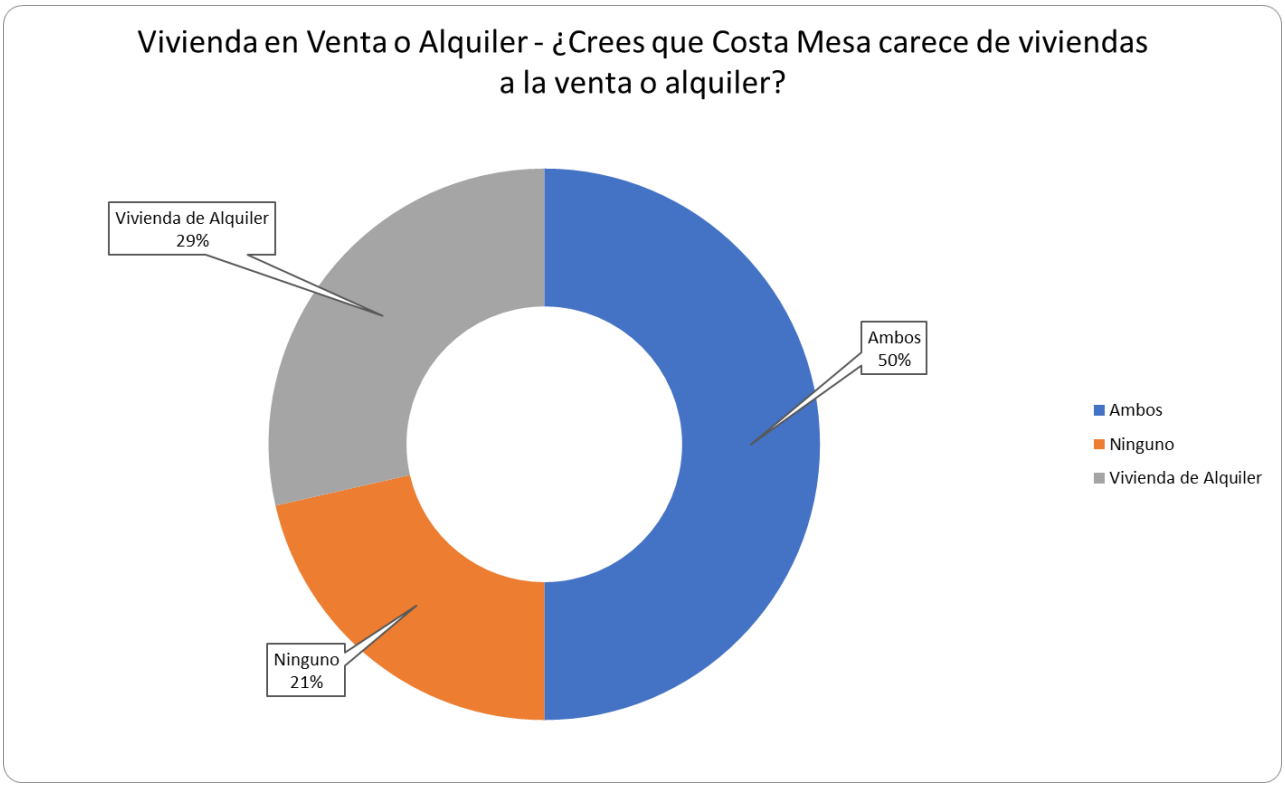
Encourage higher density / mixed use housing in areas that are north of the 405 around South Coast Plaza. Try to protect existing single family neighborhoods with incremental increases of development surrounding them. Realistic economic factors must be considered in order for housing to be developed. The projects must make economic sense or else they won't be built. Flexibility in land planning is key while letting the market determine what is ultimately constructed.
More ownership of housing. Updating older two story rental unit buildings. Using industrial properties as a way to increase housing by converting them to mix use housing and commercial space.
clean and safe
The prices continue to sky rocket, existing workforce continues to get pushed out
More affordable apts in the commercial areas west of Superior Ave. More housing is needed on the west side of the city.
More housing options and locating them in areas to make the city more walkable. All hands on deck approach.
I think we need to keep CM as primarily a suburb with mostly single family homes. That is why people want to live here.
we don't need more high end housing, we need affordable housing units for very low and low income. We need several hundred supportive housing units
That all citizens who want to make COSTA MESA home can do so in a property that matches their needs
I personally believe that we have enough housing in CM already. Every time I see a new high-density housing project go up I get really angry. I do support projects for specific at-need groups, including senior housing or assisted living facilities, and more transitional housing for homeless seeking to get off the street.
For the city to meet the needs of every type of housing where people can call home, for those who have families, senior living, student housing,and homeless run housing.
I WOULD LIKE TO SEE HOUSING THAT IS LESS THAN 3 STORIES. aLSO RESIDENTIAL OVER COMMERCIAL
I would want a denser community with multi-use developments. I want it to be easier to get around as well.
A lot of houses for low income people, disabled and seniors.
Keep present zoning. Especially R-1, the most in demand housing type. There's plenty of open land inland a few miles. No high density
we need to take old hotel/bldgs for the homeless. also create more senior living/independent living facilities
To preserve the nature of Costa Mesa I think no housing of any kind should be above 3 stories high, and nothing should be built out to the streets. There should be ample landscaping around all housing (NOT like the awful stuff going up along Placentia) and all housing should have enough parking so there is no overflow onto streets. The pandemic has shown that dense housing is not healthy.
Affordable, walkable/bikable lively neighborhoods.
Quality and serenity,, focus on seniors and families with children
Housing that is affordable for all segments of society and all income levels.
The State wants and we should require at least 20% of new housing to be affordable units for the workers who live here, which is to say low and very low income units. Water is becoming more scarce, and most of the new building leaves no permeable ground for rain percolation, which already is causing flooding and depletion of our ground water. With thousands of new housing units



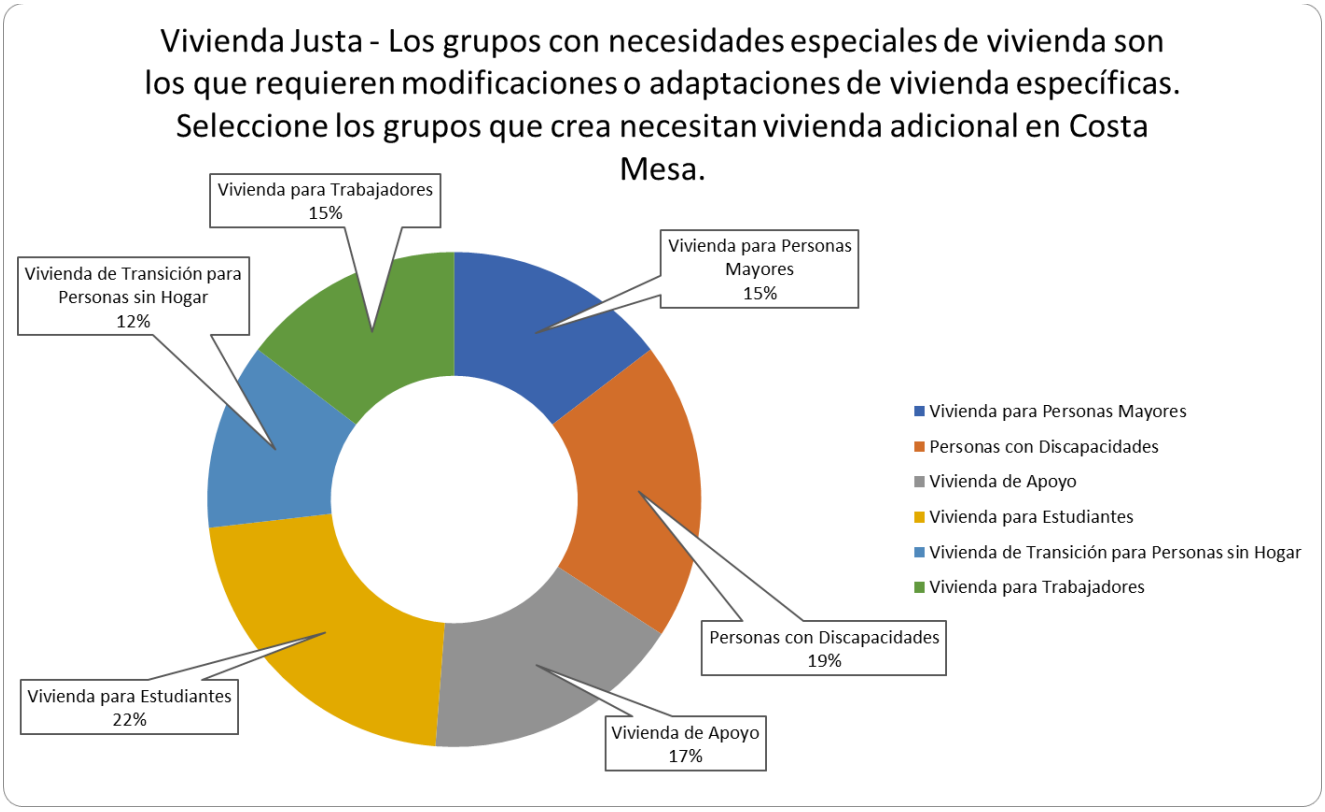
expected, and with no ability to widen roads, parking and traffic congestion will go from bad to worse. No housing plan can be independent of traffic, parking, and resource solutions.
The puss shown here are a good solution. You must preserve CM as a family city. NB plans to put there's bordering CM, and CM looking at out lying spaces. CM already provides MANY homeless persons services, SOS health clinic, soup kitchens, food banks. Do not create housing that will draw more homelessness. We are doing a lot asa city to help.
Affordable housing is becoming harder to find. It would be nice if more affordable housing was available for seniors who only have S.S. for income. Maybe a large community of studio apartments. More housing for the homeless where they could receive the services they need would be nice.
Safe housing for all demographics. But ample parking for units must be required whether for apartments or additional units in neighborhoods
Do not overcrowd Costa Mesa by building up and allowing multi-family developments in R1 and R2 neighborhoods. Preserve the suburban feel that is already being threatened in the City with too many muti-family developments. Turn over MF and CM development areas in decline into small lot, no more than 3 stories.
As Costa Mesa ages so do the people that live here, affordable housing for the Age group 55 and older and affordable housing for first time homebuyers.
Redevelop retail and major streets to accommodate 5-6 story mixed use development with a 15% low income or 12% very low income housing.
replace old one story rentals that have no parking with two story units that provide ample parking. the huge lot houses could add a smaller additional unit or units depending on lot size. a lot of costa mesa is of 70+ year old construction. this would be an opportunity to upgrade to current codes and safety.
I am against the destruction of the single family neighborhoods. I don't have a problem with the small "granny units", but someone built an entire second house taking up the whole backyard in my neighborhood and that is just wrong. The Kmart can be converted to a smart retail/living unit complex if people really think outside the box and not just be motivated by greed.
Take away the seedy motels that attract crime and replace them with housing.
Mixed-use along major arterials, with apartments on older shopping centers and city properties, and incentivize walkability. Keep single-family neighborhoods as cohesive units, i.e. do not allow duplexes/triplexes to be placed inconsistently in single-family neighborhoods.
I would love townhomes near the lab and camp/ triangle where I can walk to things and not have to drive. We have apartments there but the older condo options don't make me want to buy
More enclaves such as Chino has begun building. The homes are reasonably priced on smaller lots...but very quaint. Each enclave has it's own activity center such as a pool and tot lots. Others (The Preserve) have a central facility that has a theater, library, pool, park etc.
I would love options for inclusive housing opportunities without losing the character of our city. I hate when a development goes up in a neighborhood and it stands out. I'd love for new housing to blend it with already existing neighborhoods and infrastructure.
Costa Mesa drew me in because of its large R1 residences which were affordable and accessible 40 years ago. For the future, building on city owned properties and apartments will allow CM to stay accomodate more residents. Multiple housing units on former R1 lots will ruin the city, not everyone can afford to live where they want. I'd love to own a home in South Laguna Beach, that isn't going to happen...
Cleanup and refurbish older housing, incorporation of mixed use and modular compact housing
My visions for future housing is providing housing for low income families.



I want more affordable rental housing for families, for disabled people, for the homeless. I want smart, creative, "green" development that will be attractive and beneficial to the entire community. I want Costa Mesa to have a balanced housing supply that lets lower income people live affordably here, not just higher income folks (like me).
Affordable homes for first time buyers. Minimal apartments.
Less transitional housing more senior housing for current residents. Take care of residents and less focus on trying to cram so many more people in our crowded city.
Bring back the family feel instead of the singletons and those who buy for vacation homes.
Affordable, plentiful housing for all financial or age demographics in the city. Housing near jobs and commercial areas to allow for biking and walking and reduce traffic
Village like with a multiple variety of units for those who are not able to earn high incomes
A real mess. The State and SCAG did not take into account the lack of infrastructure (roads, sewer, water) Our K-12 school blogs were built in the 50's. This will not resolve affordability and overall make this a less desirable place for families to reside.
I would hope that the City of the Arts would accommodate their retiring ARTISTS who may be living only on Social Security and retirement, about $3,500 per month.
Less density in west side neighborhoods, more family friendly housing with walkable and green space in neighborhoods
Modern stackable container housing for low income. Perhaps grants for upgrades to older apartments.
My vision would be to have more affordable apartments and mixed use developments. I think Costa Mesa has an ample supply of luxury apartments. Housing is needed for essential workers and their families.
My vision does not include high density living situations that will reduce the quality of life in Costa Mesa
Costa Mesa should be guided by our neighbor Newport Beach in how we handle housing. We should not be guided by Santa Ana or other downscale cities.
Apartments with ample parking on major streets with easy freeway access - We have overcrowded roads - especially in rush hours. Most apts have multiple vehicles - terrible waivers on parking in the past. No parking on streets next to apts.
Combination of high density in portions of the city that has infrastructure in place that includes low, very low and senior housing option, then utilize the ability to build small units on lots (legal), and work-live in spots that really are work-live and not the random developments recently built
Combination of high density in portions of the city that has infrastructure in place that includes low, very low and senior housing options, then utilize the ability to build small units on lots (legal), and work-live in spots that really are work-live and not the random developments recently built
A future where there is enough housing at various price/rent for the various income groups.
I would like to see more affordable housing.
Costa Mesa does not need to implement more programs that would lead the city to invite less desirable inhabitants.
Better bike/walk access to work school and shopping areas, better safer bus type transportation, we have great climate many people awesome recreation & shopping, no every has / or can afford a car, since rents are so high these days.
Safe place for our children to walk to school and home. People take pride in where they live and follow community rules. Affordable pricing for lease and renting without huge increases.



A lot less sober living and senior based facilities, with more traditional single family home in low traffic areas and multifamily units in high traffic areas.
Help residents who want to be able to buy with maybe a rent to own type program or something that helps them work towards purchasing. Eliminate slum lords in our community, those who don't maintain their rental property but charge higher rent. Keep outside developers from over building in our neighborhoods. Maybe convert that police substation by Lions Park to housing? I never see police there. And the giant jail building at City Hall? Is that empty? Fairview Development Center? We could use that property a variety of housing types, plus open space. Unless it remains a hospital? Maybe add a residential community adjacent to IKEA? Or in the former law school near IKEA? The AAA offices don't really need all that space, they could convert some for housing. Please don't destroy our single family home neighborhoods, we've worked hard our whole lives to find our homes and our neighborhoods. I don't think I could have survived this pandemic anywhere else but in our Eastside humble home.
Preserving the lovely single family, large lot areas that are fine (please don't ruin them with high density and additions) while moving into the run down and depressed areas and improving them.
More walkable and bikeable neighborhoods, with a larger variety of housing to support working class families and people from all walks of life.
Our family owns three homes in Costa Mesa and moved to the city in 1967. 3 generations later, our view of the city's housing is troubling. Too many renters and airbnb. Lack of city oversight over older conversions/condos. Condo owners and homes around complexes are tired of condo managements not being accountable for maintaining properties. Please help.
I want Costa Mesa to retain its look, that is to say no big signs (especially L.E.D.), no housing over 3 stories, no overcrowding, keep traffic low.
My vision for Costa Mesa is no more building. Stop all building and do not add anymore living quarters. There is no more room here, build houses in Victorville.
One that meets the needs of our community
I have lived in Costa Mesa my entire life. It concerns me to see so much congestion and poor planning. We need to avoid density wherever possible to continue to enjoy the midsized city feeling. Let's not turn into Los Angeles. Small is good!!!
I have lived in Costa Mesa my entire life. It concerns me to see so much congestion and poor planning. We need to avoid density wherever possible to continue to enjoy the midsized clean and safe city feeling. Let's not turn CM into Los Angeles.
All people who work in Costa Mesa should be able to live in Costa Mesa, paricularly those in lower income jobs. Priority to lower income housing should be based on: 1) History of residency in C.M.; 2) Employment in C.M.
Workforce/senior housing located near transit, shopping and entertainment.
I like how Costa Mesa has residential pockets mixed in with retail and restaurants. I don't want retail/services to go away in favor of housing. Also, we need more parks/community center for our children.
no comment
I think costa mesa has done a great job so far keeping up with growth and building sufficient affordable housing. Costa Mesa should continue creating more housing for its lowest income residents.
A place where housing is affordable and available for all people.
I think building 11,000 new housing units is unattainable for our city. Absolute no way. We must push back on this. When does there come a point that we say no more vacancies we are all full? It comes down to a quality of life issue for the current and future residents of Costa Mesa. Costa Mesa will be



unlivable with the amount of people all this new housing would bring. More people more traffic more pollution, trash, graffiti, trash, blight. All of it. This is proven no doubt. We don't went high rise appt complex's up and down harbor Blvd or especially that disaster One metro west. Bad idea. reasonable size 4 story's max medium density condos if not detached units best
I don't have anything exciting to add here, but I'd like to see affordable and accessible housing for all kinds of people here, and housing provided for those experiencing homelessness.
Maintain neighborhood feeling in R1 neighborhoods with creative solutions for more densely built housing especially live work to reduce traffic. Make sure new units have ample parking.
No more vertical townhomes packed tightly together. Quality, unique single family homes with yard space for kids. Encourage uniqueness with design and architecture. Quality - not quantity. Apartments could be great if they are unique, family friendly and have nice outdoor space.
More plan regarding numbers and traffic problems
To improve the overall variety of housing choice without all the density and poor traffic impact we've been experiencing
A reinvention of the high density rental properties that will make them more desirable, welcoming, friendly and modern.
Stop adding houses, Costa Mesa is already to crowded. Fixing up the junky apartments. From what I hear people in Costa Mesa hate all the new high rise single family homes built.
Preservation of open space; leave parks and existing out door recreational areas intact. Add housing capacity through careful planning of many types of projects; easing zoning to allow easy accessory dwelling units, encourage multiuse commercial with living units above nicely landscaped with buffers to streets and sidewalks so it doesn't "feel" overbuilt. If higher density apartment type projects are approved, they need to also include outdoor green space.
More housing with more options for more people.
My vision is a blend of residential and commercial industry, with a large focus on open spaces, protecting nature and supporting arts/seniors and other community activities.
We need to plan for the growth but should use other cities experiences that have gone through this growth 10-15 years ago and duplicate the successful ones.
We should hold off on building as long as we can. State requirements may change. No more building in high density areas. All income levels and demographics evenly distributed throughout the city. Every area to feel welcoming, seamless and loved.
Enough units to stop all these homeless mothers and children. Scattered through out the city so no one neighborhood has too much of any element. Get rid of some of the sober living homes to make space for families.
Why must there be more housing in already impacted cities?
Multigenerational single family homes and ADU's in neighborhoods and co-op room leases near shopping centers for singles.
Higher density with no plan to accommodate the growing population is irresponsible. Traffic, trash, homelessness are all growing in Costa Mesa and at the nearby beaches. At some point, push back to the State should be made. We are ruining the environment. There was no place on this survey for open spaces, and our commitment to preserving what little nature parks we have. A more obvious place for higher density living would be in the environs of South Coast Plaza, since there are already larger buildings there.

Vision for Housing in Costa Mesa Comments

Ver mas casas y viviendas con precios mas comodos (venta y de renta).
Tener más control para que los dueños no cobren más de lo que es. Que los dueños de apartamentos cuando renten el apartamento vaya incluido el garage, porque por donde yo vivo les rentan a otros personas los garages
Que ayga viviendas gusta
Ya han construido demasiados apartamentos en la calles 18th y placentia ,además de otras áreas, lo cual ha incrementado demasiado el tráfico en la ciudad, vendiendo o rentando estos duplex o departamentos a precios demasiado altos. Existe una verdadera necesidad de vivienda o solo están especulando para que los que están construyendo se hagan más ricos? No sobrepoblen la ciudad por favor.
Una zona más comercializada, pero no se olviden que es importante mantener los vecindarios familiares, eso es prioridad.
Mi vision es que aiga mas vivendas acsesibles para la gente con bajos recursos
Un lugar con oportunidad de tener mas viviendas asequibles, par familias de bajos recursos

Summary of Survey Comments

Survey respondents were provided with a variety of opportunities throughout the survey to write in additional comments and feedback. The following provides summaries of the most common comments received organized by topic.

Housing Types:

- Respondents noted that there needs to be more middle housing (i.e. duplex, triplex, etc.) and for-sale condos, especially near transportation corridors. Most recognize that density is the solution to lowering housing costs; however, design and heigh must be considered. Respondents have noted that developments over 3 stories are too tall.
- ADUs present a viable option for survey respondents, given that the ADU remains smaller than the main residence and that it is made affordable.
- Tiny homes have been proposed as a solution for those experiencing homelessness.
- Senior housing must be made affordable and near services/commercial necessities. Respondents have identified a lack of options that allow them to "age in place". Senior housing should include open/green space and remain affordable.
- Mixed-use housing paired with commercial retail may assist in lowering the need for driving. Respondents have also noted that open and green spaces are important for children and families and must therefore be considered for such developments. This in part participates in preserving and establishing a neighborhood feel.
- There is a need for additional transitional and supportive housing to house those experiencing homelessness.

Location of Housing

- Utilize State-owned properties, such as Fairview Developmental Center. City-owned properties should be used for housing or parks/open space.
- Underutilized properties could be used for housing. According to survey comments, respondents recognize there is a low availability of vacant land, but that this would be a good option for future housing.
- Repurposing of hotels and motels into housing – this could be a good option for providing housing for low-income single apartments or for those experiencing homelessness. The Vagabond Inn has been identified as a potential site.
- Respondents have expressed concern about adding density to existing single-family neighborhoods – they wish to retain a neighborhood/ "Costa Mesa feel".
- Housing in industrial areas could be a possibility, but there is a lack of services and open space/parks in those areas
- Mixed use at shopping centers to support small businesses but be careful not to replace businesses with housing.
- Adding senior housing at the existing Senior Center has been identified as a potential option.

Density

- Respondents recommended not to further increase high density areas - population needs to be more equally distributed throughout the City.
- Improve existing neighborhoods but not density – help to renovate existing aging housing stock.

Affordability

- More affordable housing – for families, low/mid income households, workforce, seniors, persons experiencing homelessness, and disabled
- Aid in creating a track to ownership, not all rental units. More ownership units and less new rental units.
- Respondents recommend the City looks into creating an Opportunity Zone.

Open Space

- Lack of open space and services in industrial areas that would affect housing planned in those areas
- City-owned properties should be used for housing or parks/open space
- Respondents have identified a need for open space and parks near residential areas.
- There should be a focus on sustainability in both building housing and in transportation (options other than driving)

Parking

- Walkability and bikability are important factors to survey respondents. Some have noted the City should strive to be a "15-minute city".
- Traffic has been identified as being a topic of concern when considering the planning of additional housing units along major streets. Respondents are concerned about creating further traffic on the roads.
- However, respondents have proposed that parking requirements should be lowered for future affordable housing projects.

C.3 Subject Matter Expert Meetings

This section contains notes and meeting materials provided during the meetings. These include virtual stick-notes and online polling exercises.

Programs

Successful Programs for Helping People Find Housing

VA -programs to help vets get into housing	Human Options Partnership - DV services - need a system to promote flow out of transitional housing options	TBRA Tenant Based Rental Assistance Programs	Affordable Housing Bonuses	Rapid Rehousing - Program designed for homeless families/indivs that are accessing resources - funded federally -	Lack of permanent supportive housing
Access to vouchers and long term subsidy -need for more vouchers	Domestic violence survivors assistance -need to afforde unit they are moving into	Assistance that stays with tenant -goes with the family		Housing-first model. Eliminate barriers to housing	Community Development Partners, Jamboree Housing are great models for permanent supportive
	Link to financial coach -goal is to inform clients to make decisions on their own			Eligibale for rental assistance and security deposit	
	Create flow out of transition program -collective impact			Utilizing existing housing stock - not subsidezed program -not long term subsidy	

Recommendations for New Programs/Services

housing first model w/ supportive services	Supportive services	Financial Literacy/ Economic mobility	Relational mentors
Not just about 1 program - multiple components -rapid housing in conjunction with vouchers and	Multiple layers to address needs	Employment training programs	*List of supportive services -Families Forward menu of services (Rose to send to Nick)
National Alliance to End Homelessness - taking funds provided by federal, state, and local	OC United Way providing financial incentives	County of San Diego Welcome Home OC by United Way	Landlord incentive programs -make housing available to veterans and/or lower-income indivs
Orange County provides Section 8 vouchers			

Constraints to Finding Housing

Income/credit score	Affordable housing - Lack of	Paperwork needed to apply/how to go through process	Method to accomodate moderate housing	Fear-immigration issues	
Coordinated working effort with service providers who have existing relationships	City's incentives haven't helped with building -need incentives for developers to add affordable housing	People don't know that housing is an option for them	Challenges of low-middle class that make an amount that do not allow them to get assistance that's needed	Education - information is currently numbers driven (income, property value, etc.) -Info has to be	
Outreach on requirements to qualify for certain housing/units	Make affordable housing attractive to developers - from City's side	Educational component - there are opportunities for people to find housing	Relation building between homeless population - service providers - and city	Coordination with service providers is key -service providers come with hope	COC - Housing Opportunity Committee - commissioned UCI
Special needs housing - need to remove barriers	Flexibility on developer's and City's side	Benefit from City producing outreach materials on how to go after housing and services available	Would people served be trustful of City produced materials? -can be overwhelming/ must be simple	Format for outreach- -paper -simple -text blasts (Service prodivers to share info via	UCI research on impacts to existing development (locally based approach)

nick.chen@kimley-horn.com

City's Role in Assisting in Efforts

Reduction of impact fees and parking requirements to increase affordable housing	City/State providing land - need to be usable parcels	City needs to look at transportation options around city -walkability, bikability
Case studies available to City to provide to those pushing against the development of affordable	Being willing to change zoning	

Creative Methods/Processes to Consider

Co-Living	Tiny Houses	Add density to existing multi-family	by-right approval for affordable housing	Storage container developments - Potters lane example in industrial area (next to some services but not	Inclusionary housing requirements (reduce option for developers to pay in-lieu	What is most importane near housing - transportation -financial coaches and employment ready programs
Communal living -For those who enjoyed communal living from Bridge Shelter -adds more units	Conversions of existing commercial -Walkup external offices converted to small units		rent-to-own incentives	Not cost helpful	ADUs	-education -groceries
Lack of Community is an issue -People find housing in new cities they do not know	2 level 10-12 unit office conversions			Leverage what is already there and multi-family, rather than new methods like storage containers		
				Quality of living important to consider on this	Industrial area not bikable	

Housing Types

Rental Housing

Current vacancy rate for lower	More affordable rental housing needed Important near concentration of jobs in city
	increase production of market rate rentals currently

Workforce Housing

intergenerational housing -development at senior center to include housing for others but seniors to increase	Divers mix of single/studios and larger units	affordable housing for very-low and low income population	Rental units for persons at lower end of workforce
need for open space for intergenerational housing	Starter units	Along transit routes location	FDC
Opportunities for families making $30k-$90k Rental opportunities	mix income and mix use housing housing for persons with special needs and seniors	larger units with more bedrooms tendency to make affordable housing with a couple bedrooms	overcrowding happening majority single indivs with housing vouchers

Housing Growth in Costa Mesa

Permanent Supportive Housing

Sensitivity towards populations living in motel	Need to take the next step past housing people experiencing homelessness	Trellis No permanent supportive housing currently - persons move to other cities for	Is there community support for SROs or similar? Yes - past projects that received	What is the critical mass of people to justify the cost of development? -mix of units for different incomes/ needs
	A group of people who will always need supportive services	Flexibility in City policy to allow mixes of this to accomodate the need -helps address cost of land too	Public opinion for services show support	range of services/ senior/family housing together example
	Shift in public opinion in last couple years	Educational component to move the conversation -Positive public opinion	People need to be able to graduated from shelters and have access to services - mix in opportunities *Shelters the start	Using State funding - promote availability

Unbalanced

large slant towards market rate housing - above mod housing

Fairview Developmental Center

Reimagine as a housing village 2015/2016 effort capped units -25 housing -25 institutional -50 sports field	large housing amount (increase density) - majority affordable housing	Should be 25% sports and rest housing & affordable housing
State to donate land to City and to create a land trust	Pushback will be from those that want sports fields	See Great Park See Willowick Golf Course project
Looking at City-owned sites in addition to FDC and private Land plays a large factor	Shannon's mountain - 244 units at FDC	Unique opportunity to create more housing and for the State to participate in local solutions

Creative Development Methods/Processes

Affordable housing/inclusionary

flexibility in uses and design/zoning Overlay zones as potential solution	*Collaborative process & community benefit	Inclusionary Housing ordinance have been asking CC	Conversation needed about development needs How do City decisions impact community	What is the City's role in the development process?	Very suburban city - challenge/ resistance to density	SB 9/10 as examples of actions the City might be able to take
Mixing in housing with services/ supportive uses -zoning to allow for housing in other zones	No net loss issue - market rate developments resulting in needing to find new sites for affordable	Messaging is key Community needs to get benefits back for developing at highest use	Rezones to allow for what is needed	Need to work with market-rate developers/ property owner to plan for affordable housing needs	Remind community of benefits to them of having balanced housing	Developments on Church and Hospital properties
Pair with affordable housing policy	Education - Density as the key to affordability Addresses cost of land for development	A large educational component to this	*Less about density and more about affordability in Costa Mesa	Interests/Access of young population in housing types and mobility	-transit oriented -mixed use -open space	

Constraints in the Development Process

Parking

Review parking standards from high density perspective

Baker Block - 2.25 Studio - 1.15 st/ unit
1 bd - 1.65
2 bd - 2.15
inclusive of guest based on demand

Have to consider all components of project - push/pull

High parking ratio/standard

large apartment/ condo projects operate at lower parking ratio

1.5 - 1.75 range - depends on proximity to transit

Higher density projects with underutilized parking

Measure Y

clarity to potential land owners - difficult to determine outcome

-Deters investors

-Clarity on process and when measure Y applies

Developers pass on projects due to risk

complex process that requires understanding from all levels

Variables involved with Measure Y are too complex to work through

Risk is too difficult

Nimby

SF home values increased when near density/ related amenities

Educational component to development projects

Price of Land

Addressed through density - build up

Margins are small

-Consider market and development standards

Creative Methods in Other Cities

Development process

Expedited plan check

fee schedules - land cost - include all fees associated with a project

Include all fees - development impact fees

Space to "color between the lines"

Specific Plans and overlays can be a big benefit

Less impactful an issue compared to others

-streamlining improval process

Develop a one form checklist - centralize the process for fee schedules

Clear online system that provides estimation of fees

prescriptive zoning -

opportunity to meet housing requirement outside of SF areas

Develop in "paint by numbers"

Fees provide benefit and value to the City

-Costa Mesa's fees low compared to neighboring cities

can't look at fees in a vacuum - all attached

Potential Growth Areas

density v FAR consideration

Clarity on Density Bonus

-height is currently easy to use

3 stories changes landscape of what can be done on certain properties

Small lots

.5ac and up

City of Carlsbad downtown example - mix of commercial/ residnetial uses

17th st

-increase height limits and density

North 405

larger lot sizes

Westside - higher density type projects in specific parcels/industrial type areas

200 - 400 units type projects

2.5-4 ac sweet spot

Airport Area - demonstrated demand

Larger lot sizes

Small lots on major boulevard areas present an issue - tough to develop

Boulevards - housing overlay

Impacts of COVID-19

C.4 District Specific Meetings

The section contains all district specific meetings materials, flyers, PowerPoint presentation, participant activities, as well as all available public comments provided during the meetings. Public comments were received verbally and in written form through the Zoom chat. A video recording of each meeting is available at www.costamesaca.gov/housing-element-update.

Unique Characteristics/ Considerations

- Habor & Adams - stores there where housing could fit -also would promote walking/ transit
- Costa Mesa as a place with a mix of neighborhoods

  -Keep SF neighborhoods but include
- Diversity in housing

  -walkability
  -near amenities/ groceries
- Consider units for handicap persons
- Adams - empty parking lots where mixed-use could work

  apartments near/ above retail/
- Intersection of extreme traffic
- Trolley for people to avoid driving
- Senior housing north of freeway (x2)

  -uses that add less to traffic
- Also a bikable area
- Mixed-uses good solution, but not too tall
  -about the Vans building
- Open up housing oportunities with biking ability
- District 1 great for retail and restaurants

  -trendy
  -housing along corridors where
- Affordable housing for working population
- Lots of single-story retail where housing units could go above

Community Housing Needs

- Considering effects to school and infrastructure
- Consider traffic
- Consider COVID - high density increases spread
- Keep character of Costa Mesa

  -not overwhelmed by high development
- Consider the look of the City
- Affordable housing

  -Comprehensive plan for building affordable housing
- Fairview Dev. Center

  -affordable
  -mixed-use
  -Open space
- Open spaces and parks
- Multi-Family -walkable

  -Area North of 405
- Parking lot near CVS on Adams that would be great for housing
- Overcrowding

New/Innovative Trends or Ideas

- Handicap accessible units
- "Provide x number of units that are handicap accessible"
- Affordable housing development in Santa Ana - services on first floor
  -dance studio for
- Services for residents
- ADUs - additional stream of income
- Intergenerational housing
- ADUs as an option for affordable housing option
- Affordable housing - housing for people who work here
- Public/private partnerships - including affordable housing
- Affordable units with larger units
- Ensuring affordable housing is built in developments - must be guaranteed
- Affordable units scattered throughout market-rate units
- Inclusionary Ordinace - 15% units affordable

Housing Types

How do we get affordable high density housing built?

Need to find developers that are willing to engage with the City that will be accepted by Measure Y

How do we bring a high density project into the community

City policy is not flexible enough to allow affordable development

Inclusionary housing ordinance could draw in developers that to do an affordable project

Design details are important to the process - design guidelines need to be in place

Is there the developer interest to come in and develop housing?

Some interest indicated

Needs to be a public/private partnership, not enough City owned land

City historically not asking for that lower income development

educational component - change the understanding of what affordable housing is

Especially in District 2

Needs to be high density - cannot be built in R1 type zones

Workforce housing terminology near working opportunities/ transit

Unique Considerations/Characteristics

Projects north of the 405 are up to 100 du/ac - high density in compatible areas

Needs to be a progression/ transitional zone

Interest in developer engagement process

One Metro West - Measure Y Case study question - what happened?

Community member involvement - get information on community needs for specific projects

Next step is to sit with developers and propose in Costa Mesa knowing Measure Y is in existence

New or Innovative Trends/Ideas

District 2

Costa Mesa Housing Element

Other Growth Areas

Along Harbor & Newport (conversion from retail to mixed use)

Airport area

Newport Blvd has overlay/specific plan for housing - Good opportunity for mixed-use and placemaking

Industrial conversion

Surplus school sites

Underutilized church sites?

Balearic

Parsons School

Whittier Property

Coastline Regional Occupational Program (Old Presidio School)

South Fairview
Wilson
Vacant parcels north of 405

Whittier Law School

Parking lot between south coast drive and sunflower (southeast corner)

Golf courses?

Community Needs

Unique Characteristics
- connected communities

Missing Housing Types
- Workforce housing
- TOD
- Senior housing
- Upzoning north

Could lower minimum parking standards

Med Village densities could be successful

Above Moderate
- attached or detached condominiums
- age restricted?

Support first/last mile improvements + safety enhancements

Development will need to be taller to meet goals

Mixed use with resident serving uses
- grocery
- pharmacy
- services

Need a wide mix of densities where appropriate

Unique Considerations/Characteristics

Community Services

Housing Types

Need for larger housing units -2 floors	Smaller homes at more affordable prices	Consider tiny homes -City to help property owners afford such options
Housing near major corridors -area for taller buildings	incorporate community around the home	Communal spaces where people living nearby can gather
	Communal gardens	Apartments on Center St and Maple have community center in middle (example)
	Spaces for travel trailers -lot near Arco on Bay St. as example	

Challenges

Student housing - -getting their input -1945 -would use mixed-use spaces -consider	Traffic management	Parking	Senior housing	Affordability
More parks & open space -near senior housing also -intergenerational	Bikability/ Walkability (Victoria & Wilson) -more transportation opportunities	Access to public transportation	Senior housing on 19th (the tower) -access to outside -housing for any population -element of the outdoors and	Displacement
	Bikability on 19th Wilson&Fairview removal of biking options	Access to open space - -Library/pool area, there used to be open green space always busy with activities	Senior housing- -larger units/more space -not just about affordability but *quality*	Quality of living is key

Community Housing Opportunities

Love district 4 for diversity

Opportunities

Housing Opportunities for seniors -more senior housing	Mixed-use housing -opportunity for walkability	Affordability for all -inclusionary ordinance	ADUs for long-term rental -cost is a constraint	U-shaped multi-family housing - incorporating open space and space for residents	
Sernior housing: -single-bedroom -with other seniors -low income **Affordable	Parking at multi-unit housing	mixed-use *scattered* throughout, not just in the same areas	STRs as supplemental income	Church parking lots for housing -tiny homes (Hayward as example)	
Rent that isn't more than 1/3 of income	Biking and walking committee partnership	Making sure mixed-uses do not add to traffic - scattering will help relieve potential additional traffic	ADUs good option for seniors looking to live in smaller units	Affordability for current residents - anti-displacement	Affordable family housing

Vision

Santa Ana - main downtown with art walks and dancing -Community nights	19th St. for pedestrians and cyclists to shop and walk	No specific downtown area in Costa Mesa	Diversity is important -inclusive of all people for future generations	Stay in touch with who the community is	Consider climate change -building materials -asking climate experts -green buildings
Build environment and neighbor feel into new housing -forward thinking -housing is not just housing -quality of life	City is doing great moving towards environmental -composting -gardens	Building housing in a way that creates *neighborhood feeling* and community	Include nearby schools and incorporate their expertise on these topics	Green spaces & maintaining parks -street trees -community gardens (people getting together and growing food)	Vertical gardens -being done already at OCC

What is unique about District 5?

multi-culturalism/ diversity	ocean breeze	can still raise a family here - middle class and can get a good education	ADA ramps on traffic breaks
keep Costa Mesa funky - does not have the restrictiveness of other cities	most priviledged residents of Costa Mesa - access to open space, yard, wide strees. Be willing to share	industrial areas bring value/jobs to the area - part of the character of the area	LID/rain garden treatment in areas to expand greenspace
Great potential to be more bikeable and walkable - can get to the beach without hitting a stoplight	Share the good life we have in Costa Mesa	there is a vibe here	Trees in this area

What are community housing needs in District 5?

housing for single people/individuals - shared/co-housing to address this need	large lots with one dwelling	Permanent supportive housing
Project Hope Alliance - homeless children - need for housing for families	storage units - space on rooftops. Conversion to shared housing	live/work units to address work from home conditions going forward

How do we get affordable housing built?

evaluate COVIDs impact on housing	Educational component of different types of housing - workshop/tiny houses	City to provide an incentive to people developing ADUs to offer them at affordable levels	in building support/sell idea - needs to be more community involvement and visual representation
	Efficiency of space and existing units	Manufactured homes/small park models - could help on building costs	AB 387
	include all aspects relating to housing	Potential for pre-approved housing models?	follow up on status of affordable ADU/ incentives discussion

Costa Mesa Housing Element

Other Growth Areas

Harper School Property

Surplus school district property?

Should engage in conversations.

Supportive of housing north of the 405

Whittier Law School

Commercial Shopping Centers

District Characteristics

Disorganized development leading to congestion

Older section of the City

City of the Arts

Community Needs

Near transit and employment

Permanant supportive housing

Artist housing

Affordable + services

Mixed Use Development

Work/Live spaces

Educator housing

Oportunidades de Vivienda

- Nos gustaría ver más apartamentos
- -No hay apartamentos de 3 Recamaras .- cuestan más de $3000 actualmente.
- Renta demasiado alta
- Viviendas tipo Estudio
- ADU's tipo estudio
- Construir más apartamentos que sean accesibles para gente de bajos recursos

Necesidades de la Comunidad

- Apartamentos de bajo recursos
- Que el cosdto de la vivienda sea accesible
- Actualmente el costo es muy alto y tenemos que compartir los departamentos con varias familias
- Apartamentos de costo mas bajo.
- Debido al costo alto tenemos que rentar cuartos en el apartamento

¿Qué ideas tienen sobre este proceso de vivienda?

- Difundirlo más
- Más facilidad para participar en el proceso

Retos en cuanto a La Vivienda

- Alto costo de alquiler
- Por eso la gente trabaja en Costa Mesa y vive en otro lado más económico que Costa Mesa
- Debido al costo alto tienen que rentar cuartos en el apartamento. El costo es alto

Algún comentario adicional

- Otras ciudades tienen más La delincuencia
- Al parecer C. M. es más segura aunque el costo de vivienda es más alto
- Existe más seguridad
- Tener la seguridad que la comunidad no estará expuesta a delincuencia
- La gente prefiere viajar de lejos a trabajar en CM y vivir en otro lado más económico
- Aquí las viviendas están cerca de la playa, negocios, su trabajo.
- CM es muy tranquilo y a la gente le gusta mucho el área. Cerca de los negocios, parques.
- Aquí a la gente le gusta el lugar donde vive
- Se necesitan más viviendas en el lado Oeste.
- La comunidad comenta que la vivienda es cara debido a la carencia de vivienda
- CM es muy segura, un poco más cara pero el clima, los negocios,negocios hispanos son accesibles
- Comunidad hispana no puede pagar las rentas, no hay estacionamiento.
- Difundir esta información en centros comunitarios
- Difundir este proceso y juntas por medio del distrito escolar.
- Difundir en el sitio web de "I love Costa Mesa"

District Specific Meetings Chat

District 2:

19:11:40 From Cash Rutherford : Denser = cheaper. Agreed!
19:22:57 From Mildred Perez : Affordable housing overlays to provide incentives for developers
19:23:17 From Cash Rutherford : Great points - agree with you all.
19:24:12 From Daniel : Didn't a high density development north of the 405 just get voted down?
19:25:48 From Cash Rutherford : I believe the developer has the project on hold due to the constraints of Measure Y.
19:26:56 From Daniel : Would those constraints also be applied to any high density building we are talking about now?
19:27:39 From Cash Rutherford : Yes. Other cities have ran into legal trouble due to policies like Measure Y that prevent high density housing in job-rich areas.
19:30:23 From Daniel : Cash do you know if those cities come to a resolution with that situation?
19:32:04 From Cash Rutherford : There is a precedent of courts and/or state regulators intervening to resolve restrictive policies like measure Y. At a minimum the Housing Element is required to recognize local constraints to development.
19:37:59 From Cynthia McDonald : Cash, Measure Y is based on Redondo Beach's ordinance. That ordinance was litigated and to my knowledge stands to this day. Its is one of the reasons we used it as the basis of our ordinance.
19:38:40 From Daniel : Thank you for the information everyone. I appreciate the shared knowledge.

District 3:

18:49:47 From Carol Buchanan : Is it possible to consider the hosiptal grounds Harbor and Fair by the Gold Course
18:50:02 From Carol Buchanan : Golf Course
18:56:38 From Carol Buchanan : I will have to drive around and look since I have no idea
18:57:05 From Carol Buchanan : It is pretty dense in Costa Mesa
19:05:18 From Carol Buchanan : Also my husband and myself
19:07:35 From Andrea Marr to Matt Horton, Kimley-Horn(Direct Message) : Belearic
19:09:58 From Carol Buchanan : How about the closed Law school opposite AAA on Harbor
19:13:54 From Carol Buchanan : Interesting
19:24:07 From Andrea Marr to Matt Horton, Kimley-Horn(Direct Message) : south coast drive not augusta :)
19:24:22 From Matt Horton, Kimley-Horn to Andrea Marr(Direct Message) : thanks!
19:25:34 From Carol Buchanan : They will fight you for that parking lotu
19:26:11 From Carol Buchanan : Thank you!!
19:27:03 From Carol Buchanan : Back Bay Golf Course would be a great location
19:27:29 From Carol Buchanan : Everyone there hates the fly over from John Wayne
19:30:20 From Carol Buchanan : To bad.

19:38:12 From Carol Buchanan : Thank you, I really enjoyed this insight. I will attend future meeting
19:38:32 From Carol Buchanan : Good Night

District 4:

19:07:12 From Christine Nolf : I have to sign off. I really enjoyed this time with my neighbors. Thank you for facilitating and listening. Count me in for investing in our community.
19:07:36 From Ines Galmiche : Thank you Christine for joining us!
19:08:47 From James : 55+ is senior per HUD rules.
19:09:14 From Linda Kraemer : Love the diversity in District 4
19:12:26 From James : Nature. Good point. Read "The Nature Fix."
19:17:05 From Linda Kraemer : Nature even in our buildings. Green spaces
19:18:29 From Jenna and Alex to Ines Galmiche(Direct Message) : you're doing amazing!
19:28:36 From James : We have a couple of community gardens but need more.
19:50:47 From James : Please allow Airbnb for home owners.

District 5:

18:48:20 From Aaron Klemm to Nick Chen(Direct Message) : My recommendation for the Housing element should plan for SB 9 to pass this session.
18:50:33 From Aaron Klemm to Nick Chen(Direct Message) : Additionally, the base condition 10' setback on exterior side lot lines should be made more conditional. The 10' setback makes sense if the sidewalks/parkway is narrow. However when there is a 7' city owned parkway that is more than adequate to ensure pleasant streetscapes.
18:58:05 From Aaron Klemm : I would encourage the city to keep it simple.
18:59:00 From Aaron Klemm : State policy is focused on high opportunity areas which in practice means traditional SFH zoning. Traditional SFH is super racist/segregationist.
19:01:43 From Aaron Klemm : For 4 story zones, old dilapidated warehouse, boat storage and industrial spaces on the westside are preferable to some of those pollution hotspots.
19:03:19 From Aaron Klemm : I heard the question about parking adequacy. This brings up the issue of complete/safe streets. We can't have more neighbors and more fun without reducing the waste and geometry problems of cars.
19:03:30 From Aaron Klemm : and ceding most of our public spaces to cars.
19:04:08 From Wendy Leece : There are multiple owners/family of the shopping center
19:04:40 From Aaron Klemm : I prefer missing middle housing.
19:05:00 From Aaron Klemm : https://missingmiddlehousing.com/
19:08:17 From Ben Glassman : Aaron you are saying you prefer missing middle over a large apartment complex?
19:09:17 From Aaron Klemm : I think missing middle is the correct next step for Costa Mesa to keep our pro-housing councilmember elected to keep moving to more housing after we exhaust the missing middle.
19:11:05 From olga : Costa Mesa must think about doesn't exist yet but is pictured.....lets narrow streets and have some creative housing in these areas!,,

19:12:40 From olga : We must promote global thinking about housing spaces and sharing public spaces.
19:13:51 From Adam Ereth : The D6 group was just talking about this a few mins ago on Newport Blvd.
19:14:22 From Arlis Reynolds - SOUTH : The "15 minute city" is something I've been learning about as a concept for city planning - reduces traffic, improves health, increases community connections and happiness: https://www.15minutecity.com/about
19:17:06 From Wendy Leece : Have you estimated how many units could be built with in the existing overlays?
19:17:41 From Ben Glassman : Arlis - do you know what ratio CM is currently at regarding the 15min city?
19:18:02 From Arlis Reynolds - SOUTH : I don
19:18:11 From Lori Ann Farrell Harrison : Thank you everyone for your participation!! The City is conducting a Parking Study to identify multiple solutions to address current parking shortages in D4 and D5. Community meetings will be held next month on Thursday, March 4th and on Monday, March 15th. More info to follow. SAVE THE DATE!!!!
19:18:15 From Cindy Brahs : Agree with Jay's concerns however I think Covid has forever impacted a lot of businesses utilitzing WFH. I know of a lot of business that are letting their office leases expire.
19:18:42 From Aaron Klemm : Induced demand exists for both cars and bikes, pedestrian and transit infrastructure. If you make it as safe and convenient as a car the riders will come. Adding road capacity does not reduce congestion. The evidence and literature is very clear on that.
19:19:05 From Arlis Reynolds - SOUTH : I don't - it's a study I'd like to do.. perhaps something we can crowdsource... we've done some research on this for park access (we are deficient) but not other amenities.
19:20:04 From Aaron Klemm : Adding highway lanes to deal with traffic congestion is like loosening your belt to cure obesity.
19:21:29 From Ben Glassman : Lol @Aaron correct not the solution to the root problem
19:21:49 From Eileen Cirillo to Nick Chen(Direct Message) : In the Housing Element are there any requirements for affordable Senior Housing
19:24:18 From olga : What are the sizes of the units in the proposed 30 units per acre?
19:32:10 From Cindy Brahs : Is there a map of county a/o government owned vacant parcels in the city?
19:35:28 From Aaron Klemm : If the housing element can target ab AB 2588 pollution hotspot with an upzoning that makes the land valuable enough to end the pollution that would be great.
19:35:35 From Aaron Klemm : http://www.aqmd.gov/docs/default-source/planning/risk-assessment/ab2588_annual_report_2019.pdf?sfvrsn=30
19:36:24 From Ben Glassman : I agree Olga
19:36:33 From Ben Glassman : Love all the parks and river trail
19:37:02 From Dianne Russell : Yes- we have a great area! Lots of open space.

19:39:14 From Arlis Reynolds - SOUTH : @Olga I think 30 units per acre could look very different with different designs.. here's an article that shows some examples: https://www.theurbanist.org/2017/05/04/visualizing-compatible-density/
19:39:52 From Arlis Reynolds - SOUTH : @Cindy - I will ask for that map.
19:42:14 From Aaron Klemm : Support Alex Lee's bill AB 387 for California to lead on social housing.

19:42:20 From Aaron Klemm : https://eastcountytoday.net/assemblymember-alex-lee-introduces-bill-to-establish-social-housing/#:~:text=According%20to%20the%20bill%2C%20t,limited%20equity%20homeownership%20housing%20and
19:44:11 From Cindy Brahs : There are modular ADU companies out there too.
19:47:43 From olga : I agree Wendy that the staff at city hall needs to be open minded and more learned about the vareities of housing elements!
19:50:49 From Jim : @Arlis and everyone I suppose: there is a catalog of preapproved renovations for the Freedom Home tract. https://www.costamesaca.gov/home/showpublisheddocument?id=250
19:50:57 From Jim : Same could be done for ADUs
19:53:23 From Cindy Brahs : We may want to reconsider some office zoning.
19:53:48 From Wendy Leece : Someone just posted about the pre made plans for Freedom homes. Could include ADU.
19:55:30 From Cindy Brahs : Thank you!
19:55:45 From Wendy Leece : Thank you Good use of time!
19:56:04 From olga : How about small spaces for rvs i think Tustin or Orange have at least one.
19:57:20 From olga : great idea...we should just do it!!!
19:57:57 From Eileen Cirillo : Thank you.
19:58:02 From olga : great idea on the swales at the dividers at oak and 20tho

District 6:

20:00:35 From L. Alejandra Reyes R. C. : Thank you!!
20:01:14 From Jeffrey Harlan : Thanks, all. That was really very helpful and enlightening--great ideas and discussion.

Spanish Breakout Room:

18:39:19 From Lucy : si
18:39:24 From Lucy : si gracias
18:41:41 From Lucy : gracias por la información
18:42:08 From Andy Godinez : De nada, gracias por su participacion
18:47:27 From Andy Godinez : https://www.costamesaca.gov/city-hall/city-departments/development-services/planning/housing-element-update
19:01:12 From Lucy : si gracias

19:01:17 From Molly Mendoza (Kimley-Horn) : https://www.costamesaca.gov/city-hall/city-departments/development-services/planning/housing-element-update
19:01:25 From Mary Martinez. : gracias
19:08:42 From Molly Mendoza (Kimley-Horn) to Rossina.Chichiri(Direct Message) : Even if its not related to the map - can you add their comments?
19:09:12 From Molly Mendoza (Kimley-Horn) to Rossina.Chichiri(Direct Message) : just so we can capture anything additional, we can always reformat
19:25:19 From Molly Mendoza (Kimley-Horn) to Andy Godinez(Direct Message) : Andy - will you just encourage everyone to participate - they don't have to but we want to hear from them :)
19:25:32 From Andy Godinez to Molly Mendoza (Kimley-Horn)(Direct Message) : Copy
19:42:33 From Lucy : gracias
19:43:06 From Andy Godinez : Gracias muchisimo por su tiempo y sus propociones
19:44:02 From Andy Godinez : https://costamesahousingsurvey-sp.metroquest.com/

Other Comments:

18:14:20 From Jan H. to Everyone : Did the State approve our appeal for lowering the total amount of housing Costa Mesa is supposed to cover?
18:14:44 From Jon Zich to Everyone : No
18:16:07 From Minoo Ashabi to Everyone : The City submitted an appeal along with over 50 other cities in the region. Only two appeals were approved based on technical errors so the City's appeal was not approved.
18:16:59 From Jan H. to Everyone : The appeal was very well written. I'm surprised that the state turned it down.
18:19:21 From Molly Mendoza (Kimley-Horn) to Everyone : More information on the cities that appealed and the process is available here: https://scag.ca.gov/rhna
18:27:17 From Pamela Morgan to Everyone : thanks for that info
18:32:46 From Jan H. to Everyone : Do units that are completed in 2021 count towards our total units for Costa Mesa?
18:34:54 From Jan H. to Everyone : How many people are on this zoom meeting?

C.5 Targeted Focus Meeting Notes

The section contains a summary of the targeted focus meetings held with: English and Spanish-speaking faith-based community, organizations that provide services for those experiencing homelessness, the Costa Mesa Housing Coalition, the Costa Mesa Mobile Home Park Advisory committee, affordable and market-rate housing developers, and interested property owners and landowners.

Targeted Focus Meeting Notes

The City of Costa Mesa employed a community outreach strategy that engaged community members multiple times at a Citywide level through live workshops, online surveys, and a thirty-day public review draft document. Next, the City went one level lower and held meetings by individual districts to determine what unique characteristics should be taken into consideration. Lastly, the City focused outreach on sections of the community through Targeted Focus Meetings who are underrepresented in the planning process or who may not typically participate in community building processes. These communities can be affected by long-range housing plans, just as the rest of the community is, and community feedback from these groups is important to get when developing the Housing Element.

As part of the Targeted Focus Meetings, the City held one on one discussions with representatives from the following segments of the community:

- **Faith-based community (English and Spanish).** The City met with some of the local leaders within the faith-based community to discuss housing-related services currently being provided through church facilities or organizations. Participants in the meeting discussed the challenges the local organizations face when assisting members of the community in looking for housing and the recent successful example at Lighthouse Church. Participants included leaders from Lighthouse Church, The Crossing, and several other local churches as well as Ian Stevenson with Trellis, a community group established by people from all over Costa Mesa to tackle problems faced by residents each day.

- **Organizations that provide services for those experiencing homelessness.** The City met with organizations that provide services to people experiencing homelessness or who are in need of other services, such as locating jobs or completing and filing governmental paperwork. These are organizations that currently work fairly independently. The City discussed future ways in which they could collaborate and potentially assist in the efforts.

- **Costa Mesa Housing Coalition.** The City met with the Costa Mesa Housing Coalition who has been an active participant in all housing element related community meetings and workshops, in addition to the one-on-one meeting held. Some of the comments expressed were that Fairview Development Center should be strongly considered as a viable solution for lower-income housing, that accessory dwelling units were important to the community, and that mobile home parks, churches, and city-owned properties should all be explored. The most important point was that the City needs to pass an inclusionary housing ordinance, which is a program in the housing element and already currently underway.

- **Costa Mesa Mobile Home Park Advisory Committee.** The Mobile Home Park Advisory Committee is a City-established committee comprised of current mobile home park residents. Attendees discussed current issues within the mobile home parks and the need to further protect existing mobile home parks within Costa Mesa. The City did not identify any candidate housing sites on mobile home park sites within the Housing Element.

- **Affordable and market-rate housing developers.** City staff met with developers of both affordable and market-rate housing. Many of the participants had previously done work within the Orange County region and gave recommendations on topics such as density, product type, and potential candidate housing sites.

- **Interested property owners and landowners.** Property owners provided valuable input into existing uses and lease agreements, development agreements with the City, and other background information used in the sites analysis to determine feasibility of some of the candidate housing sites. They also provided information the types of future development they are considering.

C.6 Planning Commission Study Session

The section contains all study session materials, PowerPoint presentation, and all available public comments provided during the March 1, 2021, study session. Public comments were received verbally and in written form through the Zoom chat.

Agenda: https://www.costamesaca.gov/home/showpublisheddocument/46937/637502847448170000

Video Recording: https://costamesa.granicus.com/player/clip/3670?view_id=10&redirect=true

AGENDA

CITY OF COSTA MESA
PLANNING COMMISSION
SPECIAL STUDY SESSION
VIA ZOOM WEBINAR
Monday, March 1, 2021
6:00 p.m.

BYRON DE ARAKAL – CHAIR
KEDARIOUS COLBERT – VICE CHAIR
DIANNE RUSSELL - COMMISSIONER
JOHN STEPHENS – COMMISSIONER
RUSSELL TOLER – COMMISSIONER
JENNA TOURJE – COMMISSIONER
JON ZICH – COMMISSIONER

In order to minimize the spread of the COVID-19 virus, Governor Newsom has issued Executive Orders that temporarily suspend requirements of the Brown Act which allows Planning Commission Members to attend Planning Commission meetings telephonically. Given the health risks associated with COVID-19, the City Council Chambers will be closed to the public until further notice.

If you would like to participate in this meeting, you can participate via the following options:

1. You are strongly encouraged to observe the Planning Commission meetings live on COSTA MESA TV (SPECTRUM CHANNEL 3 AND AT&T U-VERSE CHANNEL 99) AND ONLINE AT youtube.com/costamesatv.

2. Zoom Webinar – March 1, 2021 **6:00 PM**
   Please click the link below to join the webinar:
   https://zoom.us/j/96060379921?pwd=N2lvbzhJM2hWU3puZkk1T3VYTXhoQT09

   Or sign into Zoom.com and "Join a Meeting"
   Webinar ID: 960 6037 9921/ Passcode: 595958
   - If Zoom is not already installed on your computer, click "Download & Run Zoom" on the launch page and press "Run" when prompted by your browser. If Zoom has previously been installed on your computer, please allow a few moments for the application to launch automatically.
   - Select "Join Audio via Computer."
   - The virtual conference room will open. If you receive a message reading, "Please wait for the host to start this meeting," simply remain in the room until the meeting begins.

v.1, 2/26/2021

- During the Public Comment Period, use the "raise hand" function located in the participants' window and wait for city staff to announce your name and unmute your line when it is your turn to speak. Comments are limited to 2 minutes, or as otherwise directed.

Participate via telephone: US: + 1 669 900 6833
Webinar ID: 960 6037 9921/ Passcode: 595958

During the Public Comment Period, press *9 to add yourself to the queue and wait for city staff to announce your name/phone number and press *6 to unmute your line when it is your turn to speak. Comments are limited to 2 minutes, or as otherwise directed.

3. Members of the public who wish to make a comment on a specific agenda item may submit your comment via email to PCPublicComments@costamesaca.gov. Comments received by **12:00 PM** on the date of the meeting will be provided to the Planning Commission, made available to the public, and will be part of the meeting record. Any photos, PowerPoints or other materials for distribution to the Planning Commission must be 10 pages or less and submitted to the City as described above **NO LATER THAN 12:00 PM** on the day of the hearing. All materials, pictures, PowerPoints, and videos submitted for display at a public meeting must be previously reviewed by staff to verify appropriateness for general audiences. No links to YouTube videos or other streaming services will be accepted. A direct video file will need to be emailed to staff prior to each meeting in order to minimize complications and to play the video without delay. The video must be one of the following formats: .mp4, .mov, or .wmv. Only one file may be included per speaker for public comments. Please note that materials submitted by the public that are deemed appropriate for general audiences will not be redacted in any way and will be posted online as submitted, including any personal contact information.

4. Please know that it is important for the City to allow public participation at this meeting. If you are unable to participate in the meeting via the processes set forth above, please contact the City Clerk at 714-754-5225 or cityclerk@costamesaca.gov and we will attempt to accommodate you. While the City does not expect there to be any changes to the above process for participating in this meeting, if there is a change, the City will post the information as soon as possible to the City's website.

5. The City of Costa Mesa's goal is to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, you will need special assistance beyond what is normally provided, we will attempt to accommodate you in every reasonable manner. Please contact the City Clerk's office 24 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible 714-754-5225 or at cityclerk@costamesaca.gov. El objetivo de la ciudad de Costa Mesa es cumplir con la ley de Estadounidenses con Discapacidades (ADA) en todos los aspectos. Si como asistente o participante en esta reunión, usted necesita asistencia especial, más allá de lo que normalmente se proporciona, intentaremos de complacer en todas las maneras. Favor de comunicarse a la oficina del Secretario de la Ciudad con 24 horas de anticipación para informarnos de sus necesidades y determinar si alojamiento es realizable al 714-754-5225 o cityclerk@costamesaca.gov

The City of Costa Mesa thanks you in advance for taking all precautions to prevent spreading the COVID-19 virus.

v.1, 2/26/2021

CITY OF COSTA MESA PLANNING COMMISSION
SPECIAL STUDY SESSION

MONDAY, MARCH 1, 2021 – 6:00 P.M.

CALL TO ORDER

PLEDGE OF ALLEGIANCE TO THE FLAG

ROLL CALL

SPECIAL STUDY SESSION ITEM
Public comments are limited to 2 minutes, or as otherwise directed.

1. 2021-2029 HOUSING ELEMENT – STATUS UPDATE

RECOMMENDATION:

Receive and file.

ADJOURNMENT

PLANNING COMMISSION – SPECIAL STUDY SESSION AGENDA REPORT

MEETING DATE: MARCH 1, 2021 **ITEM NUMBER:**

SUBJECT: 2021-2029 HOUSING ELEMENT – STATUS UPDATE

DATE: FEBRUARY 25, 2021

FROM: DEVELOPMENT SERVICES DEPARTMENT/PLANNING DIVISION

PRESENTATION BY: MINOO ASHABI, PRINCIPAL PLANNER

FOR FURTHER INFORMATION CONTACT: MINOO ASHABI, PRINCIPAL PLANNER
minoo.ashabi@costamesaca.gov

RECOMMENDATION

Receive and file.

PURPOSE

This study session is intended to provide information to the Planning Commission regarding the status of the Housing Element Update. The report includes a background section on Housing Element law and requirements, status of the Regional Housing Needs Assessment (RHNA) allocation and the City's appeal, Community Outreach efforts to date, a summary of Costa Mesa's Community Profile data, and a brief summary of the "sites analysis" portion of the Housing Element including an overview of the potential areas of the City that may be appropriate for additional housing development in order to meet the City's RHNA allocation.

BACKGROUND

The Housing Element is one of the required General Plan Elements and is the only element that has a process for State certification. Costa Mesa's Housing Element is required by state law to be updated every eight years. Adopting a Housing Element requires a General Plan Amendment and is subject to at least one public hearing each by the Planning Commission and the City Council. The adopted General Plan update is required to be submitted to HCD for certification by October 15, 2021. A City Council Study Session was held in February 2020 that includes a comprehensive background on the Housing Element and RHNA. The staff report is available at this link:
http://ftp.costamesaca.gov/costamesaca/council/agenda/2020/2020-02-25/Item-1.pdf

With the Housing Element Update, the City must identify potential land suitable for housing development to meet the City's RHNA allocation. As part of the Update, the City will also establish goals, objectives, policies, and an implementation program demonstrating how Costa Mesa will meet its existing and future housing needs for all income levels and address recent housing legislation adopted in response to the State's housing shortage.

Although the City does not build housing, the Housing Element creates a strategy and regulatory framework, which provides opportunities for the private sector to develop housing.

Regional Housing Needs Assessment Update (RHNA)

State law requires that jurisdictions have a certified Housing Element that provides appropriate zoning at adequate residential densities to accommodate the number of units at the required levels of affordability identified in the City's RHNA allocation. The allocation is planned for an eight-year cycle. The City is currently in the 6th RHNA/Housing Element cycle with an eight year planning period from October 2021 to October 2029. A jurisdiction with a non-certified Housing Element has limited access to state funding programs, including CDBG funds, HOME Investment Partnership Program funds, and the newly established Senate Bill 2 and Assembly Bill 101 State planning grants. The City recently received an SB2 grant in the amount of $310,000 and Local Early Action Plan (LEAP) funding in the amount of $500,000 to update the Housing Element and to develop other policy programs that promote housing at all income levels, including the Accessory Dwelling Unit (ADU) ordinance and an inclusionary housing ordinance.

In addition, it is important to note that recent legislation, such as AB 72 and SB 35, authorizes the State Department of Housing and Community Development (HCD) to find a jurisdiction out of compliance with state housing law. Under those provisions, HCD now has the authority to decertify a Housing Element, if an action by a City is not in compliance with the adopted Housing Element.

Under SCAG's approved RHNA Methodology for the 2021-2029 Housing Element planning period, Costa Mesa's draft RHNA allocation was set at 11,733 dwelling units. The final RHNA allocation, which includes a slight increase in the City's RHNA number to 11,760 units, is expected to be adopted by SCAG's Regional Council on March 3, 2021.

RHNA Appeal

The City submitted an appeal of its draft RHNA allocation on October 26, 2020. SCAG received a total of 52 appeals (19 from Orange County jurisdictions) indicating several common reasons why the RHNA allocation was unrealistic and could not be accommodated in the eight-year RHNA cycle. City staff presented the appeal on January 22, 2021 and made a compelling argument that there were many constrained areas of land (i.e., open spaces and parks, state owned land, John Wayne Airport proximity, etc.) in the City which are subject to external factors and not suitable for housing development within the eight-year cycle.

Even though, there was a general discussion among the subcommittee members that the 6th cycle RHNA allocation of 1.34 million housing units to the SCAG region was unrealistic and that legislation is needed to modify the RHNA process at the state level, all appeals but two were denied (all Orange County appeals were denied). The final RHNA number for Costa Mesa will increase slightly from 11,733 to 11,760 due to redistribution of units as a result of the two approved appeals.

Final RHNA Allocation

The following table provides a breakdown of Costa Mesa's final RHNA allocation by state-defined income category (pending the March 3, 2021 decision):

Income Category	% of Area Median Income (AMI)	2021-2029 RHNA
Very Low Income	< 50%	2,919
Low Income	51% - 80%	1,794
Moderate Income	81% - 120%	2,088
Above Moderate Income	> 120%	4, 959
	TOTAL *(Costa Mesa)*	**11,760**
	TOTAL *(SCAG Region)*	**1,341,827**

SB 35, AB 72 and Consequences of a Non-compliant Housing Element

In addition to obtaining a certified Housing Element, every April, cities and counties must submit Annual Progress Reports for the prior year, showing whether they are on-track to meet their housing needs. Progress is measured by how many housing construction permits a city has issued for housing units at various income levels. This requirement is part of Housing Element compliance and is tracked by HCD. If adequate progress is not reported, SB 35 (2017) could be enacted as described in the next section of this report.

The City is also required to ensure that housing potential or capacity is maintained on sites with the potential to accommodate affordable units (as described in the Housing Element) throughout the eight year planning period. If those sites are instead developed for market rate housing, the City will eventually trigger the "No Net Loss" provision of State law and will need to identify additional sites to accommodate the unmet need.

AB 72, enacted in 2017, grants HCD the authority to review any action or failure to act by a local government that may be inconsistent with an adopted Housing Element or housing element law. This includes failure to implement program actions included in the Housing Element. Consequently, HCD may revoke Housing Element compliance if the local government's actions do not comply with state law. HCD's website on AB 72 (Accountability and Enforcement) lays out potential scenarios, though each case is unique. https://www.hcd.ca.gov/community-development/accountability-enforcement. shtm l

HCD also has the authority to notify the California Office of the Attorney General that a local jurisdiction is in violation of state law for non-compliance with housing element law,

the Housing Accountability Act, "no net loss" law, density bonus law, or anti-discrimination law. A non-compliant Housing Element would mean that the City could be subject to the following actions.

1. Potential loss of access to certain State grant funds
2. Potential loss of some level of local control over development; for example, a city may be required to approve any proposed development that offers at least 20% of the units affordable to low-income households. CEQA streamlining provisions may also be applied to these projects.
3. A court may suspend the City's authority to issue any building permits or other approvals.
4. HCD may forward a noncompliance case to the California Office of the Attorney General.
5. Developers and housing advocacy groups may sue.

HOUSING ELEMENT UPDATE

California's housing element law acknowledges that in order for the private market to adequately address the housing needs and demand of Californians, local governments must adopt plans and regulatory systems that provide opportunities for (and do not unduly constrain) housing development.

The Housing Element does not mandate construction of units, though SB 35 streamlining provisions (which are already in place), may become stricter if housing construction is not occurring. Currently under SB 35, the City is required to provide developers with the opportunity to streamline development as outlined in the law for developments proposing at least 50% affordable housing. This is because the City has done a good job meeting its RHNA need in the 5th cycle. That threshold would drop to 10% affordable housing if during HCDs annual review, the City is found to not be keeping proportionate pace. As long as the City plans for and maintains capacity to accommodate housing units at all income levels, the City should remain in compliance.

Following the adoption of the Housing Element and its associated policies and implementation program, the City has three years to complete any follow-up actions related to the General Plan or Zoning for housing sites as outlined in the Housing Element implementation program.

The following sections discuss the different components of the Housing Element that will be addressed with the update including Community Outreach, the Community Profile, and the Site Inventory Analysis.

Community Outreach

Based on direction from the City Council provided on July 21, 2020, staff has worked with Kimley-Horn to implement a comprehensive outreach approach to ensure creative methods are used to engage harder-to-reach populations including senior citizens,

families experiencing or at risk of housing insecurity, and non-English speakers. The following is a summary of the major outreach events completed to date:

1. Virtual Townhalls – The first townhall meeting was held on November 18, 2020. The intent of this meeting was to introduce the Housing Element requirements and provide an overview of the process. More than 65 individuals participated. There was a general presentation on the Housing Element Update and public comments were received. The presentation and video of the meeting are available at this link: https://www.costamesaca.gov/home/showpublisheddocument?id=46282 https://www.youtube.com/watch?v=Y5GNLnLabD4&feature=youtu.be

2. Community Surveys – Following the townhall meeting, a survey was released in English and Spanish; it was intended to gather information required to understand the general views of Costa Mesa residents on housing issues as prompted by key housing and affordability questions. Staff used several methods to publicize the survey by distribution of fliers, posting on the City's website and social media as well as the City's snapshot articles. Email blasts were also sent to the Housing Element interest list, home builders, stakeholders, school district and utility contacts. The surveys closed on February 22, 2021; 465 surveys were received including 447 in English and 18 in Spanish. There were 10 questions in the survey including questions related to which district the respondents live, whether they own or rent their home, housing availability, questions regarding desired multi-family and single-family housing types, opportunity areas for additional housing and the age group of the respondents. There were also more than 160 written comments received that staff is in the process of analyzing. A summary of the survey results is included as Attachments 2 and 3. A comprehensive analysis of the survey results will be provided at a future meeting.

3. District-specific Meetings – Two District-specific workshops were held on February 17 and 18 to allow for a more detailed discussion of the unique issues and opportunities within each district. The first meeting included districts one, two and three; the second meeting included districts four, five and six. Both meetings started with an overview of the Housing Element and were followed by break out rooms (one per district) to discuss constraints, potential housing opportunity sites, and compatible housing types for each district. Each meeting also included a breakout room for Spanish language participants. The District presentation and break out room videos are being posted online.

4. Subject Matter Expert Meetings – Staff have held and are continuing to hold meetings to solicit feedback from groups that may hold specific expertise or information related to housing resources or housing needs such as community organizations, home builders, affordable housing developers, and housing advocates. In addition, staff is in the process of meeting with major landowners, homeless services providers, and targeted meetings with neighborhood groups in harder-to-reach areas of the community.

- Home Builders/ Developers - Staff held a meeting with housing developers and home builders, which was attended by 11 participants. The following general ideas and comments regarding constraints and opportunities were shared at this meeting:
  - By right residential zoning in appropriate areas (for example, specific plans or downtowns plans) is recommended
  - Lower parking standards to match parking demand for large residential complexes
  - Uncertainty associated with the Measure Y process discourages investment
  - Expedite and streamline application processing
  - Provide a clear, comprehensive fee schedule
  - Defer impact fees

- Housing Advocacy Groups – There were five participants in this meeting. The following general ideas and comments were shared:
  - Housing Element should plan for workforce housing
  - Housing development has been unbalanced with an increase in above-moderate income housing and not enough affordable housing
  - Combine changes in zoning with an inclusionary housing ordinance to achieve affordability with new development
  - Provide by right zoning for housing development in appropriate locations
  - Partner with churches and City-owned properties to develop housing in underutilized parking lots
  - Housing should be equitable and distributed fairly in the community
  - There is a need for larger units to accommodate larger households at affordable levels

5. Outreach Materials in English and Spanish – The meeting fliers, email blasts, social media posts, and PowerPoint presentations for the virtual townhall and district-specific meetings were provided in both English and Spanish. In addition, Spanish language breakout groups at the district-specific meetings were offered for a more in depth discussion with the Spanish speaking community.

6. Social Media, Community Platforms, and Online Engagement – There has been a consistent focus on online engagement through multiple platforms including the City's website e-blasts, social media including Facebook and Twitter, community sharing platforms such as NextDoor, and text blasts. To date, there have been a total of 83,331 "impressions" on social media; summary information on the total number of engagements for each posting is provided as Attachment 1.

City staff will continue its community outreach efforts including: connecting with community organizations and neighborhood leaders to engage harder-to-reach communities; upcoming meetings with major landowners, homeless services providers, and other subject matter experts; and preparation and launch of a series of short

community videos focused on the Housing Element and community housing issues. A detailed description of feedback received for all outreach efforts will be included in the draft Housing Element.

Community Profile

The first step in development of the Housing Element is to collect the housing, population, and economic data for the City and to summarize this information for the community and decision-makers. Such data is useful in understanding the community's changing demographics and to inform future policy discussions regarding existing and future housing needs. Specifically, the Community Profile describes the community's population, employment, economics, and household characteristics. Special needs groups and housing stock characteristics are also described. Basically, the Community Profile provides a baseline analysis to inform the goals, programs, and policies included in the Housing Element.

The information in the Community Profile is divided into three major topics:

1) Population Characteristics – this data includes population growth at the City level, population age characteristics, and population race/ethnicity characteristics. The following is a snapshot of population growth in Costa Mesa and adjacent cities:

Jurisdictions	Population					Percent Change	
	2010 Actual	2012 Projected	2020 Projected	2035 Projected	2040 Projected	2010-2020	2020-2040
Newport Beach	85,186	86,300	89,300	92,300	92,700	4.8%	3.8%
Costa Mesa	**109,960**	**111,200**	**113,900**	**116,500**	**116,400**	**3.6%**	**2.2%**
Irvine	212,375	227,100	296,300	326,700	327,300	39.5%	10.5%
Santa Ana	324,528	329,200	340,600	343,400	343,100	5%	0.7%
Huntington Beach	189,992	193,200	203,800	207,300	207,100	7.3%	1.6%
Orange County	3,010,232	3,072,000	3,271,000	3,431,000	3,461,000	8.7%	5.8%

Sources: Bureau of the Census (2010) and SCAG 2016-2040 Regional Growth Forecast by Jurisdiction Report.

The following table shows age distribution in Costa Mesa showing that 20.3% of the polutaion is 17 years old and under, 9.6% is 18 to 24 years old, 35.2% are ages 25 to 44, 24.3% are ages 45 to 64, and 10.7% of the population is 65 years old or above.

Table 2: Age Distribution by Jurisdiction, 2018							
Jurisdiction	**Under 5**	**5 to 14**	**15 to 17**	**18 to 24**	**25 to 44**	**45 to 64**	**65 years +**
Newport Beach	3.9%	10%	3.5%	6.3%	23.4%	30.2%	22.7%
Costa Mesa	**5.7%**	**11.4%**	**3.2%**	**9.6%**	**35.2%**	**24.3%**	**10.7%**
Irvine	6.4%	12.4%	3.6%	13%	30.8%	23.9%	9.9%
Santa Ana	7.5%	15.2%	4.4%	11.3%	30.9%	22.1%	8.6%
Huntington Beach	5.2%	10.9%	3.5%	7.6%	27%	29%	16.9%
Orange County	6.0%	12.5%	4%	9.5%	27.4%	26.6%	13.9%
Source: American Community Survey, 5-Year Estimates, 2018							

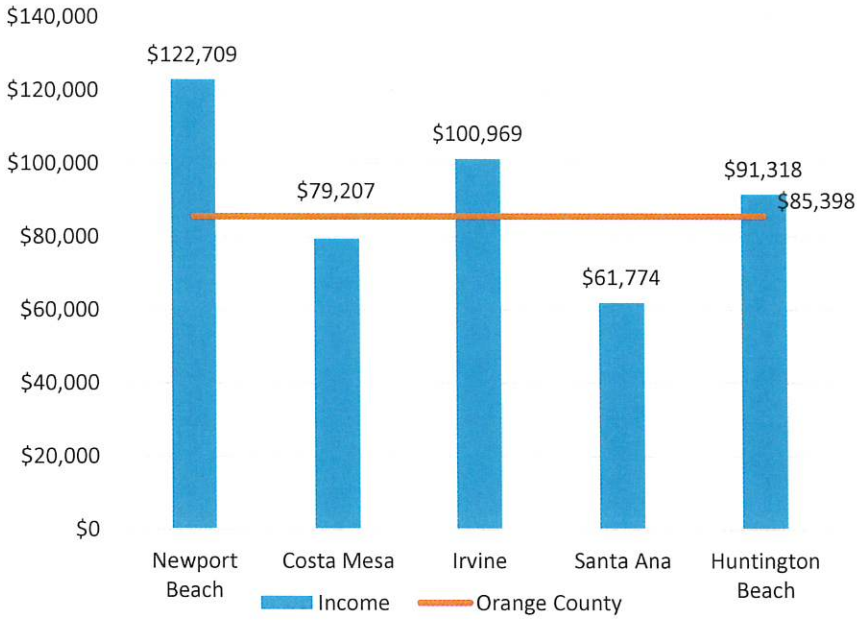
The following table shows the racial and ethnic distribution in Costa Mesa.

Table 3: Racial and Ethnic Composition, 2018								
Jurisdiction	**White**	**Black**	**American Indian and Alaska Native**	**Asian**	**Native Hawaiian or Other Pacific Islander**	**Some Other Race**	**Two or More Races**	**Persons of Hispanic or Latino Origin (of any race)**
Newport Beach	85.3%	0.8%	0.3%	8.3%	0.2%	2.1%	3.1%	9%
Costa Mesa	**71.6**	**1.9%**	**0.4%**	**8.4%**	**0.7%**	**13%**	**4%**	**36.1%**
Irvine	47.6%	1.9%	0.2%	42.3%	0.2%	2.8%	5.2%	10.3%
Santa Ana	44.2%	1.1%	0.6%	11.8%	0.2%	40.1%	1.9%	76.8%
Huntington Beach	72.4%	1.4%	0.6%	12.1%	0.4%	7.7%	5.4%	20.0%
Orange County	61.7%	1.7%	0.5%	20.1%	0.3%	11.7%	4.1%	34.1%
Source: American Community Survey, 5-Year Estimates, 2018.								

2) Economics Characteristics – this data includes wages, employment, industry sectors, unemployment rates and median salaries by occupation. The following is a snapshot of the employment data of Costa Mesa and adjacent cities and shows a steady increase in employment in the county and in local cities.

Jurisdiction	2012	2020	2035	2040	% Change 2012-2020	% Change 2020-2040	Numeric Change 2012-2040
Newport Beach	76,000	77,900	78,900	79,100	2.5%	1.5%	3,100
Costa Mesa	**84,600**	**89,600**	**92,700**	**93,200**	**5.9%**	**4.0%**	**8,600**
Irvine	224,400	280,600	314,000	320,000	25.0%	14.0%	95,600
Santa Ana	154,800	160,600	165,200	166,000	3.7%	3.4%	11,200
Huntington Beach	75,800	82,900	86,400	87,000	9.4%	4.9%	11,200

Jurisdiction	2012	2020	2035	2040	% Change 2012-2020	% Change 2020-2040	Numeric Change 2012-2040
Orange County	1,526,000	1,730,000	1,870,000	1,899,000	13.4%	9.8%	373,000
Source: *SCAG 2016-2040 Regional Growth Forecast by Jurisdiction Report.*							



3) Households Characteristics – this data includes household types and size, and median incomes. In Costa Mesa, the total number of households is 41,019. The following is a snapshot of the household data, which shows that 10.7% of the population in Costa Mesa is over 65, which is similar to Irvine and Santa Ana but lower than other adjacent coastal cities.

Persons 65 and over		
Jurisdiction	Population Count	Percent
Newport Beach	19,574	22.7%
Costa Mesa	**12,138**	**10.7%**
Irvine	26,228	9.9%
Santa Ana	28,621	8.6%
Huntington Beach	34,002	16.9%
Orange County	440,488	13.9%
Source: American Community Survey, 5-Year Estimates, 2018.		

The following table shows that in Costa Mesa 42.8% of households are married-couple households in comparison with the County that has 54.7% married-couple households. 40.2% are non-family households, with 10.2% being female-headed households.

Jurisdiction	Married-couple Family Households	% of Total Households	Female Household, No Spouse Present	% of Total Households	Non-Family Household	% of Total Households	Total Households
Newport Beach	18,965	50.1%	1,870	4.9%	16,088	42.5%	37,870
Costa Mesa	**17,568**	**42.8%**	**4,191**	**10.2%**	**16,509**	**40.2%**	**41,019**
Irvine	51,682	54.2%	8,418	8.8%	31,636	33.2%	95,371
Santa Ana	41,543	54.3%	13,754	18.0%	14,337	18.7%	76,521
Huntington Beach	37,588	48.9%	8,263	10.8%	26,961	35.1%	76,821
Orange County	564,685	54.7%	121,753	11.8%	290,652	28.2%	1,032,373
Source: American Community Survey, 5-Year Estimates, 2018.							

The following graphic shows that the median household income in Costa Mesa is $79,207 slightly lower than the county average.

4) The Community profile also analyzes data on housing issues such as overcrowding, over-payment/cost burden, large households, single-parent households, homeless individuals, special needs groups and seniors. The following is a snapshot of the housing data regarding large households, which shows that large households constitute approximately 10% of total households. Of those large households, 62.8% are renter households and 37.2% are owner households.

Large Households by Tenure in Costa Mesa

Household Size	Owner		Renter		Total	
	Count	Percent	Count	Percent	Count	Percent
5-Person Household	944	62.1%	1,441	56%	2,385	58.3%
6-person household	278	18.3%	728	28.3%	1,006	24.6%
7-or-more person Households	298	19.6%	402	15.6%	700	17.1%
Total	**1,520**	**37.2%**	**2,571**	**62.8%**	4,091	100%

Source: American Community Survey, 5-Year Estimates, 2018

The following is a snapshot of the housing data regarding overcrowding, which shows that 9% of Costa Mesa's housing units are considered "overcrowded", similar to the County overall.

Table 17: Overcrowded Housing Units		
Jurisdiction	**Total Overcrowded Units**	**Percent of Total Housing Units**
Newport Beach	570	1.5%
Costa Mesa	3,686	9%
Irvine	5,879	6.2%
Santa Ana	23,845	31.2%
Huntington Beach	2,848	3.7%
Orange County	91,513	8.9%
Source: American Community Survey, 5-Year Estimates, 2018.		

The following is a snapshot of the housing data regarding rental rates, which shows that as of January 2020, average monthly rent for a one bedroom rental unit is $2,159, $2,649 for a two bedroom unit, and $3,160 for a three bedroom unit.

Table 32: Average Monthly Rental Rates, 2017-2020					
Unit Type	**January 2017**	**January 2018**	**January 2019**	**January 2020**	**% Change 2017-2020**
1 Bedroom	$2,055	$2,077	$2,091	$2,159	5.1%
2 bedrooms	$2,553	$2,582	$2,579	$2,649	3.8%
3 Bedrooms	$3,027	$3,044	$3,097	$3,160	4.4%
Price per Square Foot					
Unit Type	**January 2017**	**January 2018**	**January 2019**	**January 2020**	**% Change 2017-2020**
1 Bedroom	$2.48	$2.57	$2.97	$2.83	14.1%
2 bedrooms	$2.20	$2.25	$2.32	$2.36	7.3%
3+ Bedrooms	$1.95	$2.15	$2.25	$2.30	17.9%
Source: Zillow Rent Index Report, January 2017-2020, accessed August 17, 2020.					

The Community Profile in its entirety will be included in the draft Housing Element and shared at a future meeting.

Site Inventory Analysis

In addition to programs and policies that encourage housing at all income levels, the Housing Element is required to identify specific sites where housing could be located. The City will undertake a comprehensive review of all land uses and potential housing sites referred as a "Site Inventory". The site analysis process will consider the fair and equitable distribution of housing throughout the City and at all income levels.

While the sites analysis is not complete, it is clear that because the City has very few areas which permit residential development at or above 30 du/ac (the default density identified by State HCD as the density at which the market may create affordable housing), the City likely does not have the existing capacity to meet its RHNA need without rezoning areas. In fact, the City's base zoning districts do not allow more than 20 du/acre, with higher densities allowed in certain areas by specific plan, overlay or other means.

Given the high RHNA allocation of 11,760 units, a combination of strategies will need to be considered such as: modifying the zoning in appropriate locations to allow a minimum density of 30 du/acre to meet the default density requirements set by State HCD; revisiting the City's Urban Plans and Specific Plans to allow higher densities at strategic locations such as on Commercial and Industrial sites; and planning for housing development in underutilized areas such as surface parking lots. The ADUs and Junior ADUs could contribute additional units in lower density areas of the city; however, this strategy will only accommodate a small portion of the RHNA allocation.

In discussion with Subject Matter Expert Groups and District-Specific discussions during the community outreach meetings, the following areas were identified as potential areas for housing growth:

1) Fairview Developmental Center – This site is currently zoned to allow 582 units. Additional units could be accommodated at the large 100-acre site; however, given that the site is owned and operated by the State Department of General Services, the City will need to continue to coordinate with the State as to the future vision for the site.
2) Industrial sites – since this area includes larger parcels, it may be appropriate for housing development; however, for industrial areas near John Wayne Airport, the airport noise contours may limit opportunities. Properties in the industrial area near Baker Block could also be considered. The City will need to evaluate long-term fiscal and employment considerations as part of its land use policy discussions for industrial areas.
3) Newport Boulevard Specific Plan area – The Specific Plan that includes properties fronting Old Newport Boulevard from Mesa Drive to 19th Street was adopted in 1996. The Specific Plan allows for residential development at a maximum density of 17 du/acre. Additional housing opportunities could be possible in this area.
4) Surplus School and Church properties – School sites are largely overseen by the school district and the State; however, the City could evaluate potential surplus

land. Large church sites with Public/Institutional zoning could also be considered in the analysis.

5) Mixed Use Zoning along Major Commercial Corridors such as Harbor Boulevard, 19th Street, and 17th Street – There is currently a mixed use overlay along Harbor Boulevard that extends from 19th Street to north of Victoria Street that could be modified to allow more options for mixed use and residential development. Suggestions were also made to consider walk up apartments either along 17th Street as mixed use development or in close proximity to take advantage of the pedestrian connections on 17th Street. Both horizontal and vertical mixed use opportunities could be considered.
6) Rezone of Commercial Centers with high vacancy – The City could evaluate commercial centers with high vacancy rates to allow an option for mixed use development.
7) Accessory Dwelling Units – The City's local ordinance includes development standards that could allow for and encourage ADU and Junior ADU development. These units could be counted toward the City's RHNA allocation and provide additional housing opportunities in neighborhoods with existing low density housing.
8) Focus on Reuse of Commercial and Industrial Sites instead of Redevelopment of Existing Housing Sites - In order to maintain the City's current housing stock, policies related to rehabilitation of existing housing and a focus on non-residential sites such as commercial and industrial areas for additional housing may be desired.

City staff and our consultant team will evaluate the above listed areas as part of the Site Inventory Analysis effort and will return to the Planning Commission at a future meeting to discuss the housing constraints analysis, the sites analysis, and the draft policy program.

NEXT STEPS:

The next few months are critical to the Housing Element Update process and to meeting the State mandated timeline for adoption. In the next month, City staff and our consultant will complete outreach efforts and the Community Profile, and will begin the Constraints and Sites Analysis. A City Council Study Session is planned for March 23, 2021. Based on collected data, public input, and feedback from the Planning Commission and City Council, staff will complete a draft Housing Element for public review, referred to as the "Public Review Draft." The Public Review Draft will be released for a public comment period, along with a CEQA compliance analysis. Ultimately, to meet the state mandated deadline, public hearings on the Housing Element will need to be held in summer 2021 and an adopted Housing Element submitted to State HCD by October 15, 2021.

AGENDA

CITY OF COSTA MESA
CITY COUNCIL
SPECIAL STUDY SESSION
Tuesday, March 23, 2021
5:00 p.m.
CITY HALL, CITY COUNCIL CHAMBERS
77 FAIR DRIVE, COSTA MESA, CALIFORNIA

KATRINA FOLEY - MAYOR
ANDREA MARR - MAYOR PRO TEM
MANUEL CHAVEZ – COUNCIL MEMBER
LOREN GAMEROS - COUNCIL MEMBER
JEFF HARLAN - COUNCIL MEMBER
DON HARPER - COUNCIL MEMBER
ARLIS REYNOLDS – COUNCIL MEMBER

In order to minimize the spread of the COVID-19 virus, Governor Newsom has issued Executive Orders that temporarily suspend requirements of the Brown Act which allows Council Members to attend City Council meetings remotely. Given the health risks associated with COVID-19, the City Council Chambers will be closed to the public until further notice.
If you would like to participate in this meeting, you can participate via the following options:

1. Members of the public can view the City Council meetings live on COSTA MESA TV (SPECTRUM CHANNEL 3 AND AT&T U-VERSE CHANNEL 99) or http://costamesa.granicus.com/player/camera/2?publish_id=10&redirect=true and online at youtube.com/costamesatv (Note the chat feature on YouTube is disabled).

2. Zoom Webinar:
   Please click the link below to join the webinar:
   https://zoom.us/j/94075129334?pwd=Z3B5aUVvU0MrUmRkUFlKaFM4S01Ddz09
   Or sign into Zoom.com and "Join a Meeting"
   Enter Webinar ID: 940 7512 9334/ Password: 030331
   - If Zoom is not already installed on your computer, click "Download & Run Zoom" on the launch page and press "Run" when prompted by your browser. If Zoom has previously been installed on your computer, please allow a few moments for the application to launch automatically.
   - Select "Join Audio via Computer."
   - The virtual conference room will open. If you receive a message reading, "Please wait for the host to start this meeting," simply remain in the room until the meeting begins.
   - During the Public Comment Period, use the "raise hand" function located in the participants' window and wait for city staff to announce your name and unmute your line when it is your turn to speak. Comments are limited to 3 minutes, or as otherwise directed.

Participate via telephone: Call: 1 669 900 6833
Enter Webinar ID: 940 7512 9334/ Password: 030331
During the Public Comment Period, press *9 to add yourself to the queue and wait for city staff to announce your name/phone number and press *6 to unmute your line when it is your turn to speak. Comments are limited to 2 minutes, or as otherwise directed.

3. Members of the public who wish to make a comment on a specific agenda item, may submit your comment via email to the City Clerk at cityclerk@costamesaca.gov. Comments received by 1:00 p.m. on the date of the meeting will be provided to the City Council, made available to the public, and will be part of the meeting record.

4. Please know that it is important for the City to allow public participation at this meeting. If you are unable to participate in the meeting via the processes set forth above, please contact the City Clerk at 714-754-5225 or cityclerk@costamesaca.gov and staff will attempt to accommodate you. While the City does not expect there to be any changes to the above process for participating in this meeting, if there is a change, the City will post the information as soon as possible to the City's website.

Please note that records submitted by the public will not be redacted in any way and will be posted online as submitted, including any personal contact information. All pictures, PowerPoints, and videos submitted for display at a public meeting must be previously reviewed by staff to verify appropriateness for general audiences. No links to YouTube videos or other streaming services will be accepted, a direct video file will need to be emailed to staff prior to each meeting in order to minimize complications and to play the video without delay. The video must be one of the following formats, .mp4, .mov or .wmv. Only one file may be included per speaker for public comments. Please e-mail to the City Clerk at cityclerk@costamesaca.gov **NO LATER THAN 12:00 Noon** on the date of the meeting.

Note regarding agenda-related documents provided to a majority of the City Council after distribution of the City Council agenda packet (GC §54957.5):

Any related documents provided to a majority of the City Council after distribution of the City Council Agenda Packets will be made available for public inspection. Such documents will be posted on the city's website at www.costamesaca.gov or by clicking here.

The City of Costa Mesa's goal is to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, you will need special assistance beyond what is normally provided, we will attempt to accommodate you in every reasonable manner. Please contact the City Clerk's office 24 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible 714-754-5225 or at cityclerk@costamesaca.gov. El objetivo de la ciudad de Costa Mesa es cumplir con la ley de Estadounidenses con Discapacidades (ADA) en todos los aspectos. Si como asistente o participante en esta reunión, usted necesita asistencia especial, más allá de lo que normalmente se proporciona, intentaremos de complacer en todas las maneras. Favor de comunicarse a la oficina del Secretario de la Ciudad con 24 horas de anticipación para informarnos de sus necesidades y determinar si alojamiento es realizable al 714-754-5225 o cityclerk@costamesaca.gov

The City of Costa Mesa thanks you in advance for taking all precautions to prevent spreading the COVID-19 virus.

CITY OF COSTA MESA CITY COUNCIL
SPECIAL STUDY SESSION

TUESDAY, MARCH 23, 2021 – 5:00 P.M.

CALL TO ORDER

PLEDGE OF ALLEGIANCE

ROLL CALL

SPECIAL STUDY SESSION ITEM:
Public comments will be heard after staff presentation. Public comments are limited to 2 minutes, or as otherwise directed.

RECOMMENDATION:

Staff recommends that the City Council:

Receive and file.

ADJOURNMENT

CITY COUNCIL – SPECIAL STUDY SESSION AGENDA REPORT

MEETING DATE: MARCH 23, 2021 **ITEM NUMBER: 1**

SUBJECT: 2021-2029 HOUSING ELEMENT – STATUS UPDATE

DATE: MARCH 11, 2021

FROM: DEVELOPMENT SERVICES DEPARTMENT/PLANNING DIVISION

PRESENTATION BY: JENNIFER LE, DIRECTOR OF ECONOMIC AND DEVELOPMENT SERVICES
MINOO ASHABI, PRINCIPAL PLANNER

FOR FURTHER INFORMATION CONTACT: MINOO ASHABI, PRINCIPAL PLANNER
minoo.ashabi@costamesaca.gov

RECOMMENDATION

Receive and file.

PURPOSE

This study session is intended to provide information and receive feedback from the City Council regarding the Housing Element Update. This report includes information regarding Housing Element law, the Regional Housing Needs Assessment (RHNA), the Housing Element community outreach efforts, Costa Mesa's Community Profile data, and an overview of potential areas of the City that could be appropriate to include in the City's forthcoming housing strategy.

BACKGROUND

The Housing Element is one of the required chapters or "elements" of the General Plan and is the only element that has a process for State certification. Costa Mesa's Housing Element is required by state law to be updated every eight years. Adopting a Housing Element requires a General Plan Amendment and is subject to at least one public hearing each by the Planning Commission and the City Council. The adopted General Plan update is required to be submitted to the State Department of Housing and Community Development (HCD) for certification by October 15, 2021.

A City Council Study Session was first held in October 2019 and a second in February 2020 to discuss the Housing Element and RHNA. The staff reports, meeting minutes and videos for these study sessions are available at the following links:

October 8, 2019 Staff Report:

Video:
https://costamesa.granicus.com/player/clip/3517?view_id=10&redirect=true

Following the February 2020 Study Session, the City retained Kimley–Horn as the City's consultant expert and launched the Housing Element Update effort in August 2020.

For the Housing Element Update, the City must identify potential land suitable for housing development to meet the City's RHNA allocation. As part of the update, the City must also establish goals, policies, objectives and an implementation program that responds to recent housing legislation and demonstrates how Costa Mesa will meet its existing and future housing needs for all income levels.

Although the City does not build housing, the Housing Element creates a strategy and high-level regulatory framework that provides opportunities for the private sector to develop housing.

Regional Housing Needs Assessment Update (RHNA)

State law requires that jurisdictions have a certified Housing Element that provides appropriate zoning at adequate residential densities to accommodate the number of units at the required levels of affordability identified in the City's RHNA allocation. The RHNA allocation is planned for an eight-year cycle. The City is currently in the 6th RHNA/Housing Element cycle with an eight year planning period from October 2021 to October 2029.

Under the Southern California Association of Government's (SCAG's) approved RHNA methodology for the 2021-2029 Housing Element planning period, Costa Mesa's draft RHNA allocation was 11,733 units.

RHNA Appeal

On October 20, 2020, the City Council authorized and directed staff to appeal the RHNA allocation. The City submitted its appeal to SCAG on October 26, 2020. SCAG received a total of 52 appeals (19 from Orange County jurisdictions) indicating several common reasons why the RHNA allocation was unrealistic and could not be accommodated in the eight-year RHNA cycle. City staff presented the appeal at a public hearing on January 22, 2021 and made a compelling argument that there were many constrained areas of land in the City which are subject to external factors and not feasible for housing development within the eight-year cycle.

Even though there was a general discussion among the appeal board members that the 6th cycle RHNA allocation of 1.34 million housing units to the SCAG region was unrealistic and that legislation is needed to modify the RHNA process at the state level, all appeals but two were denied (all Orange County cities' appeals were denied). SCAG's decision was ultimately ratified at its meeting of February 16, 2021. The final RHNA allocation for Costa Mesa was increased slightly from 11,733 to 11,760 housing units due to redistribution of units as a result of the two approved appeals.

Final RHNA Allocation

The following table provides a breakdown of Costa Mesa's final RHNA allocation by state-defined income category based on SCAG's March 3, 2021 decision):

Table 1 – Final RHNA Allocation

Income Category	% of Area Median Income (AMI)	2021-2029 RHNA
Very Low Income	< 50%	2,919
Low Income	51% - 80%	1,794
Moderate Income	81% - 120%	2,088
Above Moderate Income	> 120%	4,959
	TOTAL *(Costa Mesa)*	**11,760**
	TOTAL *(SCAG Region)*	**1,341,827**

The area median income for a 4-person household in Orange County in 2020 was $103,000.

SB 35, AB 72 and Consequences of a Non-compliant Housing Element

A jurisdiction with a non-compliance Housing Element has limited access to state funding programs, potentially jeopardizing millions of dollars in transportation-related grants, CDBG funds, HOME Investment Partnership Program funds, and the newly established Senate Bill 2 and Assembly Bill 101 State planning grants.

In addition, recent legislation such as AB 72 and SB 35 authorizes the State Department of Housing and Community Development (HCD) to find a jurisdiction out of compliance with state housing law. Under those provisions, HCD now has the authority to decertify a

Housing Element, if an action by a City is not in compliance with the adopted Housing Element.

In addition to obtaining a certified Housing Element, every April, cities and counties must submit Annual Progress Reports for the prior year, showing whether they are on-track to meet their RHNA allocation. Progress is measured by how many housing construction permits a city has issued for housing units at various income levels. This requirement is part of Housing Element compliance and is tracked by HCD. If adequate progress is not reported, SB 35 (2017) could be enacted as described later in this report.

The City is also required to ensure that housing capacity is maintained on sites with the potential to accommodate affordable units (as identified in the adopted Housing Element) throughout the eight year planning period. If those sites are instead developed for market rate housing, the City may eventually trigger the "No Net Loss" provision of State law and will need to identify additional sites to accommodate the unmet need.

AB 72, enacted in 2017, grants HCD the authority to review any action or failure to act by a local government that may be inconsistent with an adopted Housing Element or housing element law. This includes failure to implement program actions included in the Housing Element. Consequently, HCD may revoke Housing Element compliance if the local government's actions do not comply with state law. HCD's website on AB 72 (Accountability and Enforcement) lays out potential scenarios, though each case is unique. https://www.hcd.ca.gov/community-development/accountability-enforcement.shtml

HCD also has the authority to notify the California Office of the Attorney General that a local jurisdiction is in violation of state law for non-compliance with housing element law, the Housing Accountability Act, "no net loss" law, density bonus law, or anti-discrimination law. A non-compliant Housing Element would mean that the City could be subject to the following actions.

1. Potential loss of access to certain State grant funds
2. Potential loss of control over development; for example, a city may be required to approve any proposed development that offers at least 20% of the units affordable to low-income households. CEQA streamlining provisions may also be applied to these projects.
3. A court may suspend the City's authority to issue any building permits or other approvals.
4. HCD may forward a noncompliance case to the California Office of the Attorney General.
5. Developers and housing advocacy groups may sue the city.

PAST PERFORMANCE

The projected housing need for the SCAG region for the 5th cycle RHNA 2013 to 2021 planning period was 412,137 units. The City's RHNA allocation for the 5th Cycle 2013 to

2021 planning period was only two housing units (one very low income unit and one low income unit). In general, many cities received low RHNA allocations during the 5th cycle (Newport Beach was allocated five units and Laguna Beach two units) due to several factors such as foreclosures and high vacancy rates during the recession.

Per Government Code section 65400 the City has prepared annual progress reports (APR) on the status of the Housing Element and the City's progress in meeting its RHNA allocation. https://www.costamesaca.gov/city-hall/city-departments/development-services/approved-plans-for-city/2015-2035-general-plan/general-plan-annual-reports

The most recent report shows that between 2014 and 2019, the City finalized building permits for 948 new housing units. Of those, eight housing units fell into lower income categories. Additional housing units are currently under construction, including an additional nine deed-restricted "very low income" units associated with the project at the former Costa Mesa Motor Inn site (2277 Harbor Boulevard). As such, the City expects to meet and exceed its RHNA allocation for this planning period.

HOUSING ELEMENT UPDATE

California's housing element law acknowledges that for the private market to adequately address the housing needs and demand of Californians, local governments must adopt plans and regulatory systems that provide opportunities for (and do not unduly constrain) housing development.

The Housing Element does not mandate construction of units, though SB 35 streamlining provisions (which are already in place), may become stricter if housing construction is not occurring. Currently under SB 35, the City is required to provide developers with the opportunity to streamline development as outlined in the law for developments proposing at least 50% affordable housing. This is because the City has done a good job meeting its RHNA need in the 5th cycle. That threshold could drop to 10% affordable housing if during HCDs annual review, the City is found to not be keeping proportionate pace of housing. As long as the City plans for and maintains capacity to accommodate housing units at all income levels, the City should remain in compliance.

Following the adoption of the Housing Element and its associated policies and implementation program, the City has three years to complete any follow-up actions related to the General Plan or Zoning for housing sites as outlined in the Housing Element implementation program.

The Housing Element contains the following major components:

- Community Profile
- Opportunities and Constraints Analysis
- Goals, policies and objectives
- Implementation Program
- Appendices
    - Summary of Community Outreach

- Review of Past Performance
- Sites Analysis

The following sections discuss the various components of the Housing Element Update currently underway.

Community Outreach

Based on direction from the City Council, staff have worked with Kimley-Horn to implement a comprehensive outreach approach including using creative methods to engage harder-to-reach populations including senior citizens, families experiencing or at risk of housing insecurity, and non-English speakers. The following is a summary of the major outreach events completed to date:

1. Virtual Townhalls – The first townhall meeting was held on November 18, 2020. The intent of this meeting was to introduce the Housing Element requirements and provide an overview of the process. More than 65 individuals participated. There was a general presentation on the Housing Element Update and public comments were received. The presentation and video of the meeting are available at this link: https://www.costamesaca.gov/home/showpublisheddocument?id=46282 https://www.youtube.com/watch?v=Y5GNLnLabD4&feature=youtu.be

2. Community Surveys – Following the townhall meeting, a survey was released in English and Spanish; it was intended to gather high-level information required to understand the general views of Costa Mesa residents on housing issues as prompted by key housing and affordability questions. Staff used several methods to publicize the survey by distribution of fliers, posting on the City's website and social media as well as the City's snapshot articles. Email blasts were also sent to the Housing Element interest list, home builders, stakeholders, school district staff, and utility contacts. The survey window closed on February 22, 2021; 465 surveys were received including 447 in English and 18 in Spanish. There were 10 questions in the survey including questions related to which district the respondents live, whether they own or rent their home, housing availability, questions regarding desired multi-family and single-family housing types, opportunity areas for additional housing and the age group of the respondents. There were also more than 160 written comments received that staff is in the process of analyzing. A summary of the survey results is included as Attachments 2, 3, and 4.

3. District-specific Meetings – Two District-specific workshops were held on February 17 and 18, 2021 to allow for a more detailed discussion of the unique issues and opportunities within each Council district. The first meeting included districts one, two and three; the second meeting included districts four, five and six. Both meetings started with an overview of the Housing Element and were followed by break out rooms (one per district) to discuss constraints, potential housing opportunity sites, and compatible housing types for each district. Each meeting also included a breakout room for Spanish language participants. The District

presentation and break out room videos are posted on the Housing Element Webpage.

4. Subject Matter Expert Meetings – Staff held meetings to solicit feedback from groups that may hold specific expertise or information related to housing resources or housing needs such as community organizations, home builders, affordable housing developers, homeless services providers and housing advocates. In addition, staff is in the process of meeting with major landowners and holding targeted meetings with neighborhood groups in harder-to-reach areas of the community.

    - Home Builders/ Developers - Staff held a meeting with housing developers and home builders, which was attended by 11 participants. The following ideas and comments regarding constraints and opportunities were shared at this meeting:
        - By right residential zoning in appropriate areas (for example, specific plans or downtowns plans) is recommended
        - Lower parking standards to match parking demand for large residential complexes
        - Uncertainty associated with the Measure Y process discourages investment
        - Expedite and streamline planning application processing
        - Provide a clear, comprehensive fee schedule
        - Defer development impact fees

    - Housing Advocacy Groups – There were five participants in this meeting. The following general ideas and comments regarding constraints and opportunities were shared:
        - Housing Element should plan for workforce housing
        - Housing development in Costa Mesa has been unbalanced with an increase in above-moderate income housing and not enough affordable housing
        - Combine changes in zoning with an inclusionary housing ordinance to achieve affordability with new development
        - Provide by right zoning for housing development in appropriate locations
        - Partner with churches and City-owned properties to develop housing in underutilized parking lots
        - Housing should be equitable and distributed fairly in the community
        - There is a need for larger units to accommodate larger households at affordable levels

    - Homeless and service Providers – There were seven participants in this meeting who specialized in homeless services, transitional and permanent housing for homeless individuals and families as well as social services for

domestic violence and women and children. The following general ideas regarding constraints and opportunities were shared:

- Setting aside affordable housing with each development should be considered
- Density bonus should be encouraged with relaxed parking standards
- Option of a 99-year ground lease on City properties for housing development should be considered
- Education and services are needed to help individuals facing housing challenges such as improving credit score, filing paperwork, fear of immigration issues, and mental illness
- Supportive housing with wraparound services, employment training, subsidized housing, education and mentorship programs are needed
- Tenant Based Rental Assistance (TBRA) and other rental subsidy programs are needed
- Place housing close to transportation and providing bike and pedestrian accessibility
- Alternative housing options such as co-living and conversion of commercial and office building into residential units are recommended
- Tiny house sites are recommended

5. Outreach Materials in English and Spanish – The meeting fliers, email blasts, social media posts, and PowerPoint presentations for the virtual townhall and district-specific meetings were provided in both English and Spanish. In addition, Spanish language breakout groups at the district-specific meetings were offered for a more in depth discussion with the Spanish speaking community.

6. Social Media, Community Platforms, and Online Engagement – There has been a consistent focus on online engagement through multiple platforms including the City's website e-blasts, social media including Facebook and Twitter, community sharing platforms such as NextDoor, and text blasts. By early March, there were a total of 83,331 "impressions" on social media; summary information on the total number of engagements for each posting is provided as Attachment 1.

City staff are continuing its community outreach efforts including: connecting with community organizations and neighborhood leaders to engage in more detailed conversations with harder-to-reach communities; meetings with major landowners to discuss future plans for vacant sites and sites under development agreements; and launch of a series of short videos focused on the Housing Element and community housing issues. A detailed description of feedback received for all outreach efforts will be included in the draft Housing Element.

Community Profile

The first step in development of the Housing Element is to collect the housing, population, and economic data for the City and to summarize this information for the community and decision-makers. Such data is useful in understanding the community's changing demographics and to inform future policy discussions regarding existing and future housing needs. Specifically, the Community Profile describes the community's population, employment, economics, and household characteristics. Special needs groups and housing stock characteristics are also described. Basically, the Community Profile provides a baseline analysis to inform the goals, programs, and policies included in the Housing Element.

The information in the Community Profile is divided into three major topics of: Population, Economics, and Household Characteristics that are discussed as follows.

1. **Population Characteristics** – This data includes population growth at the City level, population age characteristics, and population race/ethnicity characteristics. The following is a snapshot of population growth in Costa Mesa and adjacent cities:

Jurisdictions	Population					Percent Change	
	2010 Actual	2012 Projected	2020 Projected	2035 Projected	2040 Projected	2010-2020	2020-2040
Newport Beach	85,186	86,300	89,300	92,300	92,700	4.8%	3.8%
Costa Mesa	**109,960**	**111,200**	**113,900**	**116,500**	**116,400**	**3.6%**	**2.2%**
Irvine	212,375	227,100	296,300	326,700	327,300	39.5%	10.5%
Santa Ana	324,528	329,200	340,600	343,400	343,100	5%	0.7%
Huntington Beach	189,992	193,200	203,800	207,300	207,100	7.3%	1.6%
Orange County	3,010,232	3,072,000	3,271,000	3,431,000	3,461,000	8.7%	5.8%
Sources: Bureau of the Census (2010) and SCAG 2016-2040 Regional Growth Forecast by Jurisdiction Report.							

The following table shows age distribution in Costa Mesa showing that 20.3% of the population is 17 years old and under, 9.6% is 18 to 24 years old, 35.2% are ages 25 to 44, 24.3% are ages 45 to 64, and 10.7% of the population is 65 years old or above.

Table 2: Age Distribution by Jurisdiction, 2018

Jurisdiction	Under 5	5 to 14	15 to 17	18 to 24	25 to 44	45 to 64	65 years +
Newport Beach	3.9%	10%	3.5%	6.3%	23.4%	30.2%	22.7%
Costa Mesa	**5.7%**	**11.4%**	**3.2%**	**9.6%**	**35.2%**	**24.3%**	**10.7%**
Irvine	6.4%	12.4%	3.6%	13%	30.8%	23.9%	9.9%
Santa Ana	7.5%	15.2%	4.4%	11.3%	30.9%	22.1%	8.6%
Huntington Beach	5.2%	10.9%	3.5%	7.6%	27%	29%	16.9%
Orange County	6.0%	12.5%	4%	9.5%	27.4%	26.6%	13.9%

The following table shows racial and ethnic distribution in Costa Mesa.

Table 3: Racial and Ethnic Composition, 2018

Jurisdiction	White	Black	American Indian and Alaska Native	Asian	Native Hawaiian or Other Pacific Islander	Some Other Race	Two or More Races	Persons of Hispanic or Latino Origin (of any race)
Newport Beach	85.3%	0.8%	0.3%	8.3%	0.2%	2.1%	3.1%	9%
Costa Mesa	**71.6**	**1.9%**	**0.4%**	**8.4%**	**0.7%**	**13%**	**4%**	**36.1%**
Irvine	47.6%	1.9%	0.2%	42.3%	0.2%	2.8%	5.2%	10.3%
Santa Ana	44.2%	1.1%	0.6%	11.8%	0.2%	40.1%	1.9%	76.8%
Huntington Beach	72.4%	1.4%	0.6%	12.1%	0.4%	7.7%	5.4%	20.0%
Orange County	61.7%	1.7%	0.5%	20.1%	0.3%	11.7%	4.1%	34.1%

Source: American Community Survey, 5-Year Estimates, 2018.

The following chart represents the ethnic and racial composition of the City in comparison to Orange County.

	White	Black or African American	American Indian and Alaska Native	Asian	Native Hawaiian and Other Pacific Islander	Some Other Race	Two or More Races	Hispanic or Latino
Costa Mesa	71.6%	1.9%	0.4%	8.4%	0.7%	13.0%	4.0%	36.1%
Orange County	61.7%	1.7%	0.5%	20.1%	0.3%	11.7%	4.1%	34.1%

2. **Economics Characteristics** – This data includes wages, employment, industry sectors, unemployment rates and median salaries by occupation. The following is a snapshot of the employment data of Costa Mesa and adjacent cities and shows a steady increase in employment in the county and in local cities.

Jurisdiction	2012	2020	2035	2040	% Change 2012-2020	% Change 2020-2040	Numeric Change 2012-2040
Newport Beach	76,000	77,900	78,900	79,100	2.5%	1.5%	3,100
Costa Mesa	**84,600**	**89,600**	**92,700**	**93,200**	**5.9%**	**4.0%**	**8,600**
Irvine	224,400	280,600	314,000	320,000	25.0%	14.0%	95,600
Santa Ana	154,800	160,600	165,200	166,000	3.7%	3.4%	11,200
Huntington Beach	75,800	82,900	86,400	87,000	9.4%	4.9%	11,200
Orange County	1,526,000	1,730,000	1,870,000	1,899,000	13.4%	9.8%	373,000
Source: *SCAG 2016-2040 Regional Growth Forecast by Jurisdiction Report.*							

The following table shows employment growth in the City and adjacent cities.

Table 5: Employment Growth Trends, 2012-2040							
Jurisdiction	2012	2020	2035	2040	% Change 2012-2020	% Change 2020-2040	Numeric Change 2012-2040
Newport Beach	76,000	77,900	78,900	79,100	2.5%	1.5%	3,100
Costa Mesa	**84,600**	**89,600**	**92,700**	**93,200**	**5.9%**	**4.0%**	**8,600**
Irvine	224,400	280,600	314,000	320,000	25.0%	14.0%	95,600
Santa Ana	154,800	160,600	165,200	166,000	3.7%	3.4%	11,200

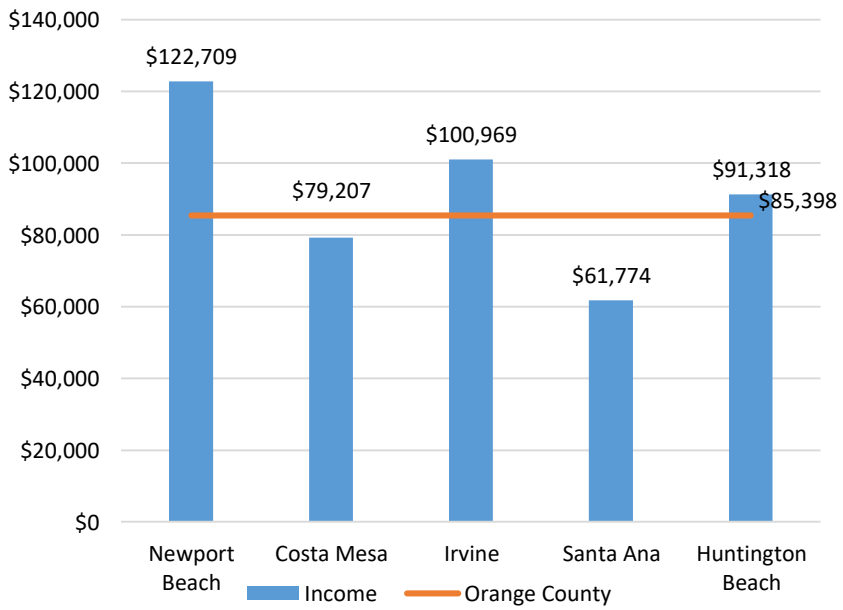
Source: *SCAG 2016-2040 Regional Growth Forecast by Jurisdiction Report.*							



3. **Households Characteristics** – This data includes household types and size, and median incomes. In Costa Mesa, the total number of households is 41,019. The following is a snapshot of household data, which shows that 10.7% of the population in Costa Mesa is over 65, which is similar to Irvine and Santa Ana but lower than other adjacent coastal cities.

Persons 65 and over		
Jurisdiction	Population Count	Percent
Newport Beach	19,574	22.7%
Costa Mesa	**12,138**	**10.7%**
Irvine	26,228	9.9%
Santa Ana	28,621	8.6%
Huntington Beach	34,002	16.9%
Orange County	440,488	13.9%
Source: American Community Survey, 5-Year Estimates, 2018.		

The following table shows that in Costa Mesa 42.8% of households are married-couple households in comparison with the County that has 54.7% married-couple households. 40.2% are non-family households, with 10.2% being female-headed households.

Jurisdiction	Married-couple Family Households	% of Total Households	Female Household, No Spouse Present	% of Total Households	Non-Family Household	% of Total Households	Total Households
Newport Beach	18,965	50.1%	1,870	4.9%	16,088	42.5%	37,870
Costa Mesa	**17,568**	**42.8%**	**4,191**	**10.2%**	**16,509**	**40.2%**	**41,019**
Irvine	51,682	54.2%	8,418	8.8%	31,636	33.2%	95,371
Santa Ana	41,543	54.3%	13,754	18.0%	14,337	18.7%	76,521
Huntington Beach	37,588	48.9%	8,263	10.8%	26,961	35.1%	76,821
Orange County	564,685	54.7%	121,753	11.8%	290,652	28.2%	1,032,373
Source: American Community Survey, 5-Year Estimates, 2018.							

The following graphic shows that the median household income in Costa Mesa is $79,207 slightly lower than the county average.

4. **Housing Issues** - The Community Profile also analyzes data on housing issues such as overcrowding, over-payment/cost burden, large households, single-parent households, homeless individuals, special needs groups and seniors. The following is a snapshot of the housing data regarding large households, which shows that large households constitute approximately 10% of total households. Of those large households, 62.8% are renter households and 37.2% are owner households.

Large Households by Tenure in Costa Mesa						
Household Size	**Owner**		**Renter**		**Total**	
	Count	**Percent**	**Count**	**Percent**	**Count**	**Percent**
5-Person Household	944	62.1%	1,441	56%	2,385	58.3%
6-person household	278	18.3%	728	28.3%	1,006	24.6%
7-or-more person Households	298	19.6%	402	15.6%	700	17.1%
Total	**1,520**	**37.2%**	**2,571**	**62.8%**	4,091	100%
Source: American Community Survey, 5-Year Estimates, 2018						

The following is a snapshot of the housing data regarding overcrowding, which shows that 9% of Costa Mesa's housing units are considered "overcrowded", similar to the County overall.

Table 17: Overcrowded Housing Units		
Jurisdiction	**Total Overcrowded Units**	**Percent of Total Housing Units**
Newport Beach	570	1.5%
Costa Mesa	3,686	9%
Irvine	5,879	6.2%
Santa Ana	23,845	31.2%
Huntington Beach	2,848	3.7%
Orange County	91,513	8.9%
Source: American Community Survey, 5-Year Estimates, 2018.		

The following is a snapshot of the housing data regarding rental rates, which shows that as of January 2020, average monthly rent for a one bedroom rental unit is $2,159, $2,649 for a two bedroom unit, and $3,160 for a three bedroom unit.

Table 32: Average Monthly Rental Rates, 2017-2020					
Unit Type	**January 2017**	**January 2018**	**January 2019**	**January 2020**	**% Change 2017-2020**
1 Bedroom	$2,055	$2,077	$2,091	$2,159	5.1%
2 bedrooms	$2,553	$2,582	$2,579	$2,649	3.8%
3 Bedrooms	$3,027	$3,044	$3,097	$3,160	4.4%
Price per Square Foot					
Unit Type	**January 2017**	**January 2018**	**January 2019**	**January 2020**	**% Change 2017-2020**
1 Bedroom	$2.48	$2.57	$2.97	$2.83	14.1%
2 bedrooms	$2.20	$2.25	$2.32	$2.36	7.3%
3+ Bedrooms	$1.95	$2.15	$2.25	$2.30	17.9%
Source: Zillow Rent Index Report, January 2017-2020, accessed August 17, 2020.					

The Community Profile in its entirety will be included in the draft Housing Element.

Housing Programs and Policies

In addition to the Community Profile, the Housing Element must include an analysis of opportunities and constraints (both governmental and non-governmental) and must also articulate housing goals, policies and objectives that support and promote housing. Previous Housing Element goals and policies focused on: 1) preserving the existing housing stock including mobile home parks; 2) promoting use of programs such as density bonus to promote affordable housing development; 3) encouraging development or maintenance of a range of housing types that varies sufficiently in terms of cost, design, size, location, and tenure; and 4) ensuring existing and future housing opportunities are open and available to all social and economic segments of the community.

Given that the 6th Cyle RHNA allocation includes 11,760 units, the policies and programs of this Housing Element Update will need to be more detailed and assertive to ensure compliance with State requirements and to support future compatible housing opportunities over the next 8 years.

Site Inventory Analysis

In addition to programs and policies that encourage housing at all income levels, the Housing Element is required to identify specific sites where housing could be located. The Housing Element team will undertake a comprehensive review of all land uses and potential housing sites referred as a “Site Inventory”. The site analysis process will consider the fair and equitable distribution of housing throughout the City and at all income levels.

While the sites analysis is not complete, it is clear that because the City has very few areas which permit residential development at or above 30 du/ac (the default density identified by State HCD as the density at which the market may create affordable housing), the City likely does not have the existing capacity to meet its RHNA allocation in affordable categories without re-visioning and revising zoning in certain areas. In fact, the City's base zoning districts do not allow more than 20 du/acre, with higher densities allowed in certain areas by specific plan, overlay/urban plan or other means.

Given the high RHNA allocation of 11,760 units, a combination of strategies will need to be considered such as: modifying the zoning in appropriate locations to allow a minimum density of 30 du/acre to meet the default density requirements set by State HCD; revisiting the City's Urban Plans and Specific Plans to allow higher densities at strategic locations such as on Commercial and Industrial sites; and planning for housing development in appropriate underutilized areas such as surface parking lots. ADUs and Junior ADUs could contribute additional units in lower density areas of the city; however, this strategy will likely accommodate only a small portion of the RHNA allocation.

In discussions with Subject Matter Expert groups and during the District-Specific outreach meetings, the following areas were identified as potential areas for housing:

1. Fairview Developmental Center – This site is currently zoned to allow 582 units. Additional units could be accommodated at the large 100-acre site; however, given that the site is owned and operated by the State Department of General Services, the City will need to continue to coordinate with the State as to the future vision and opportunities for housing at the site.
2. Industrial sites – There are three major industrial hubs within the City:
    a. the area north of the I-405, some of which is covered by the North Costa Mesa Specific Plan;
    b. the industrial area near Baker Block; and
    c. the industrial area near John Wayne Airport.

    Since these areas include larger parcels, such parcels may be appropriate for larger scale housing development; however, for industrial areas near John Wayne Airport, the airport noise contours may limit opportunities. Properties in the industrial area near Baker Block could also be considered. The City will need to evaluate long-term fiscal and employment considerations as part of its land use policy discussions for housing in these industrial areas.
3. Newport Boulevard Specific Plan area – The Specific Plan that includes properties fronting Old Newport Boulevard from Mesa Drive to 19th Street was adopted in 1996. The Specific Plan allows for residential development at a maximum density of 17 du/acre. Additional housing opportunities could be possible in this area.
4. Surplus School and Church properties – School sites are largely overseen by the school district and the State; however, the City could evaluate potential surplus land. Large church sites with Public/Institutional zoning could also be considered in the analysis.
5. Mixed Use Zoning along Major Commercial Corridors such as Harbor Boulevard, 19th Street, and 17th Street – There is currently a mixed use overlay along Harbor

Boulevard that extends from 19th Street to north of Victoria Street that could be modified to allow more options for mixed use and residential development. Suggestions were also made to consider walk up apartments either along 17th Street as mixed use development or in close proximity to take advantage of the pedestrian connections on 17th Street. Both horizontal and vertical mixed use opportunities could be considered.

6. Rezone of Commercial Centers with high vacancy – The City could evaluate commercial centers with high vacancy rates to allow an option for mixed use development.
7. Accessory Dwelling Units – The City's local ordinance includes development standards that allow for and encourage ADU and Junior ADU development. These units could be counted toward the City's RHNA allocation and provide additional housing opportunities in neighborhoods with existing low density housing.
8. Focus on Reuse of Commercial and Industrial Sites instead of Redevelopment of Existing Housing Sites - In order to maintain the City's current housing stock, policies related to rehabilitation of existing housing and a focus on non-residential sites such as commercial and industrial areas for additional housing may be desired.

City staff and our consultant team are evaluating the above listed areas as part of the Sites Analysis effort and will return to the City Council at a future meeting to discuss the opportunities and constraints analysis, sites analysis, and the draft policy and implementation program.

Measure Y

As the Housing Element team evaluates areas throughout the City for its ability to support compatible housing projects in Costa Mesa, it appears that Measure Y may present a major challenge in developing a compliant Housing Element. While the state-required Housing Element update itself is exempt from Measure Y, the language of Measure Y is unclear as to how it might apply to any planning or zoning efforts necessary to meet the State-mandated RHNA allocation. Should the City fail to achieve Housing Element certification or fall out of compliance due to an inability to plan or zone for housing needs, the City would be subject to sanctions such as ineligibility for state grants and the loss of transportation funding. This is important as the City receives approximately $5 million per year in funding from the state which currently funds the City's streets, curb and gutter repair, active transportation and other critical infrastructure projects.

In addition to difficulties in maintaining a compliant Housing Element, Measure Y appears to present an impediment to property owners deciding to develop housing in Costa Mesa because of the uncertainty that arises from the need for a ballot measure requiring voter approval. Such potential impediments make it difficult for the City to maintain a compliant Housing Element (given a RHNA allocation of this magnitude), and/or to show sufficient progress toward meeting the City's RHNA allocation each year as required by state law. Staff has already seen a number of interested property owners and developers choose

to invest in other communities rather than risk the time, cost and uncertainty of processing a request through Measure Y.

Maintaining a compliant Housing Element in the context of Measure Y is an important issue warranting continued conversations with the Costa Mesa community, housing advocates, property owners and City staff and officials. Ultimately, we must come to consensus on how to move forward with a successful housing strategy that allows us to achieve our common housing goals.

PLANNING COMMISSION STUDY SESSION

The Planning Commission held a study session on March 1, 2021. There were six public speakers who provided comments regarding several topics including: 1) the importance of an inclusionary housing ordinance with a minimum affordability requirement; 2) amending the Urban Plan and Residential Incentive Overlays to require a minimum affordability requirement; 3) upzoning Fairview Developmental Center to allow a mix of uses, densities and housing types; 4) including provisions for permanent supportive housing; 5) allowing higher densities to attract market rate housing developers that could lead to development of affordable housing; and 6) recognizing Measure Y as a potential impediment, consequences of non-compliance, and that SB 35 that could lead to housing development without California Environmental Quality Act (CEQA) compliance.

The Planning Commission discussed the City's challenges in meeting its high RHNA allocation and provided comments including but not limited to the following:

1. Importance of recognizing that non-compliance with RHNA/State laws will have consequences such as losing local control and streamlining of projects without local input
2. State requirement of AB 1397 related to site area of ½ acre minimum and 10 acre maximum for housing development will affect the City's sites analysis
3. Consideration of allowing for housing on large parking lots of commercial properties
4. Consideration of clustering development in appropriate locations while maintaining open space and the potential for a transfer of development rights policy
5. Consideration of policies that lead to a variety of housing types and designs that are compatible with the Costa Mesa fabric and meet the needs of various populations in terms of household type, age, and income groups
6. Consideration of City-owned properties for housing development
7. Consideration of housing policies that provide a pathway to homeownership

The Planning Commission Study Session can be viewed at the following link:
https://costamesa.granicus.com/player/clip/3670?view_id=10&redirect=true

NEXT STEPS:

The next few months are critical to the Housing Element Update process and to meeting the State mandated timeline for adoption. In the next few months, the Housing Element Update team will:

- Continue with targeted community outreach efforts
- Complete the Opportunities and Constraints analysis and the comprehensive Sites Analysis
- Hold a joint Planning Commission/City Council Study Session in April to discuss the housing strategy for meeting the City's RHNA allocation, potential programs and policies, and the Housing Element Implementation Program

Based on collected data, public input, and feedback from the Planning Commission and City Council, staff will complete a draft Housing Element for public review, referred to as the "Public Review Draft." The Public Review Draft will be released for a 30-day public comment period. After, the revised draft will be submitted to HCD for review. Following any revisions, a final-draft Housing Element will be released to the public, along with the required CEQA compliance analysis. Public hearings with the Planning Commission and City Council are anticipated in late summer through fall 2021. Ultimately, an adopted Housing Element is required to be submitted to HCD by October 15, 2021.

C.8 City Council/Planning Commission Study Session

The section contains all study session materials, PowerPoint presentation, and all available public comments provided during the April 27, 2021, study session. Public comments were received verbally and in written form through the Zoom chat.

Agenda: https://www.costamesaca.gov/home/showpublisheddocument/47682/637551264967530000

Minutes: https://www.costamesaca.gov/home/showpublisheddocument/48002/637571885573630000

Video Recording: https://costamesa.granicus.com/player/clip/3710?view_id=10&redirect=true

AGENDA

CITY OF COSTA MESA
CITY COUNCIL AND PLANNING COMMISSION
SPECIAL JOINT STUDY SESSION
Tuesday, April 27, 2021, 5:00 p.m.
VIRTUAL LOCATIONS, COSTA MESA, CALIFORNIA

JOHN STEPHENS - MAYOR
ANDREA MARR - MAYOR PRO TEM
MANUEL CHAVEZ – COUNCIL MEMBER
LOREN GAMEROS - COUNCIL MEMBER
JEFF HARLAN - COUNCIL MEMBER
DON HARPER - COUNCIL MEMBER
ARLIS REYNOLDS – COUNCIL MEMBER
BYRON DE ARAKAL – PLANNING COMMISSION CHAIR
KEDARIOUS COLBERT – PLANNING COMMISSION VICE CHAIR
ADAM ERETH – PLANNING COMMISSIONER
DIANNE RUSSELL – PLANNING COMMISSIONER
RUSSELL TOLER – PLANNING COMMISSIONER
JENNA TOURJE – PLANNING COMMISSIONER
JON ZICH – PLANNING COMMISSIONER

In order to minimize the spread of the COVID-19 virus, Governor Newsom has issued Executive Orders that temporarily suspend requirements of the Brown Act which allows Council Members to attend City Council meetings remotely. Given the health risks associated with COVID-19, the City Council Chambers will be closed to the public until further notice.
If you would like to participate in this meeting, you can participate via the following options:

1. Members of the public can view the City Council meetings live on COSTA MESA TV (SPECTRUM CHANNEL 3 AND AT&T U-VERSE CHANNEL 99) or http://costamesa.granicus.com/player/camera/2?publish_id=10&redirect=true and online at youtube.com/costamesatv (Note the chat feature on YouTube is disabled).
2. Zoom Webinar:
   Please click the link below to join the webinar:
   https://zoom.us/j/98137963334?pwd=RnBkRThrdGhVaCtnZmtWbEU4eWtWZz09
   Or sign into Zoom.com and "Join a Meeting"
   Enter Webinar ID: 981 3796 3334/Password: 440975
   - If Zoom is not already installed on your computer, click "Download & Run Zoom" on the launch page and press "Run" when prompted by your browser. If Zoom has previously been installed on your computer, please allow a few moments for the application to launch automatically.
   - Select "Join Audio via Computer."
   - The virtual conference room will open. If you receive a message reading, "Please wait for the host to start this meeting," simply remain in the room until the meetin g begins.
   - During the Public Comment Period, use the "raise hand" function located in the participants' window and wait for city staff to announce your name and unmute your line when it is your turn to speak. Comments are limited to 2 minutes, or as otherwise directed.

   Participate via telephone: Call: 1 669 900 6833

Enter Webinar ID: 981 3796 3334/Password: 440975
During the Public Comment Period, press *9 to add yourself to the queue and wait for city staff to announce your name/phone number and press *6 to unmute your line when it is your turn to speak. Comments are limited to 2 minutes, or as otherwise directed.

3. Members of the public who wish to make a comment on a specific agenda item, may submit your comment via email to the City Clerk at cityclerk@costamesaca.gov. Comments received by 1:00 p.m. on the date of the meeting will be provided to the City Council, made available to the public, and will be part of the meeting record.

4. Please know that it is important for the City to allow public participation at this meeting. If you are unable to participate in the meeting via the processes set forth above, please contact the City Clerk at 714-754-5225 or cityclerk@costamesaca.gov and staff will attempt to accommodate you. While the City does not expect there to be any changes to the above process for participating in this meeting, if there is a change, the City will post the information as soon as possible to the City's website.

Please note that records submitted by the public will not be redacted in any way and will be posted online as submitted, including any personal contact information. All pictures, PowerPoints, and videos submitted for display at a public meeting must be previously reviewed by staff to verify appropriateness for general audiences. No links to YouTube videos or other streaming services will be accepted, a direct video file will need to be emailed to staff prior to each meeting in order to minimize complications and to play the video without delay. The video must be one of the following formats, .mp4, .mov or .wmv. Only one file may be included per speaker for public comments. Please e-mail to the City Clerk at cityclerk@costamesaca.gov **NO LATER THAN 12:00 Noon** on the date of the meeting.

Note regarding agenda-related documents provided to a majority of the City Council after distribution of the City Council agenda packet (GC §54957.5):

Any related documents provided to a majority of the City Council after distribution of the City Council Agenda Packets will be made available for public inspection. Such documents will be posted on the city's website at www.costamesaca.gov or by clicking here.

The City of Costa Mesa's goal is to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, you will need special assistance beyond what is normally provided, we will attempt to accommodate you in every reasonable manner. Please contact the City Clerk's office 24 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible 714-754-5225 or at cityclerk@costamesaca.gov. El objetivo de la ciudad de Costa Mesa es cumplir con la ley de Estadounidenses con Discapacidades (ADA) en todos los aspectos. Si como asistente o participante en esta reunión, usted necesita asistencia especial, más allá de lo que normalmente se proporciona, intentaremos de complacer en todas las maneras. Favor de comunicarse a la oficina del Secretario de la Ciudad con 24 horas de anticipación para informarnos de sus necesidades y determinar si alojamiento es realizable al 714-754-5225 o cityclerk@costamesaca.gov

The City of Costa Mesa thanks you in advance for taking all precautions to prevent spreading the COVID-19 virus.

CITY OF COSTA MESA CITY COUNCIL AND PLANNING COMMISSION SPECIAL JOINT STUDY SESSION

TUESDAY, APRIL 27, 2021 – 5:00 P.M.

CALL TO ORDER

PLEDGE OF ALLEGIANCE – Mayor Stephens

ROLL CALL

SPECIAL STUDY SESSION ITEM:
Public comments will be heard after staff presentation. Public comments are limited to 2 minutes, or as otherwise directed.

1. **2021-2029 HOUSING ELEMENT** **–** Development Services Department/Planning Division

RECOMMENDATION:

Staff recommends that the City Council and Planning Commission:

Provide feedback and receive and file.

ADJOURNMENT

CITY COUNCIL/ PLANNING COMMISSION- JOINT STUDY SESSION AGENDA REPORT

MEETING DATE: APRIL 27, 2021 **ITEM NUMBER: 1**

SUBJECT: 2021-2029 HOUSING ELEMENT – COMMUNITY PROFILE, OPPORTUNITIES AND CONSTRAINTS, AND SITE SELECTION PROCESS

DATE: APRIL 23, 2021

FROM: DEVELOPMENT SERVICES DEPARTMENT/PLANNING DIVISION

PRESENTATION BY: MINOO ASHABI, PRINCIPAL PLANNER

FOR FURTHER INFORMATION CONTACT: MINOO ASHABI, PRINCIPAL PLANNER
MINOO.ASHABI@COSTAMESACA.GOV

RECOMMENDATION:

Provide feedback and receive and file.

PURPOSE:

This joint study session is intended to update and receive feedback from the Planning Commission and City Council on the Housing Element Update. The report is organized into three sections: 1) the Community Profile; 2) opportunities and constraints for housing; and 3) potential housing opportunities to meet the City's Regional Housing Needs Assessment (RHNA) allocation.

BACKGROUND:

With the Housing Element update, the City must identify potential land suitable for housing development to meet the City's RHNA allocation. In addition, the Housing Element will provide goals, objectives, policies, and implementation programs demonstrating how Costa Mesa intends to meet its housing needs for all income levels and address recent housing legislation adopted in response to the state's housing shortage.

Per State law, a City-Council approved Housing Element is required to be submitted to the HCD by October 2021. Costa Mesa's RHNA allocation for the 2021-2029 Housing Element planning period is 11,760 dwelling units.

RHNA Allocation

The basis of the Housing Element Update is compliance with RHNA. The following table provides a breakdown of Costa Mesa's final RHNA allocation by state-defined income category based on SCAG's March 3, 2021 decision:

Table 1 – Final RHNA Allocation

Income Category	% of Area Median Income (AMI)	Affordable Monthly Rent	Income Range Min. – Max.		RHNA Allocation
Very Low Income	0-50% AMI	$961 - $1,281	--	$64,050	2,919 units
Low Income	51-80% AMI	$2,561	$64,051	$102,450	1,794 units
Moderate Income	81-120% AMI	$3,090	$102,451	$123,600	2,088 units
Above Moderate Income	%120% AMI	>$3,090	$123,601	--	4,959 units
				Total	**11,760 units**

The affordability rates are based on the area median income for a 4-person household in Orange County which was $103,000 in 2020.

Previous Study Sessions

A Planning Commission Study Session was held on March 1, 2021 and a City Council Study Session was held on March 23, 2021. The staff reports and meeting videos for these study sessions are available at the following links:

March 23, 2021 City Council Study Session Staff Report:
http://ftp.costamesaca.gov/costamesaca/council/agenda/2021/2021-03-23/Item-1.pdf
Meeting Video:

Meeting Video:
https://costamesa.granicus.com/player/clip/3670?view_id=10&redirect=true

At these study sessions, staff presented information regarding the RHNA process, new State housing regulations, consequences of non-compliance, Costa Mesa's demographics and preliminary Community Profile data, summary of community outreach efforts and feedback, and an introduction to the housing plan and the sites analysis process. The previous Study Sessions held with the Planning Commission and City Council focused primarily on the legal requirements and process cities must follow pursuant to State law to update the City's Housing Element for the 2021-2029 8-year cycle. The focus of this report is on the Opportunity and Constraints analysis and the

Housing Opportunity Sites process – two major components of the Housing Element Update for the City of Costa Mesa that will be provided to the State's Department of Housing and Community Development (HCD).

HOUSING ELEMENT UPDATE:

The Housing Element contains the following major components:

1. Community Profile
2. Opportunities and Constraints Analysis
3. Goals, policies and objectives
4. Implementation Program
5. Appendices:
    - Summary of Community Outreach
    - Review of Past Performance
    - Sites Analysis

The following sections discuss the components of the Housing Element Update.

Community Profile

The first step in development of the Housing Element is to collect the housing, population, and economic data for the City and to summarize this information for the community and decision-makers. At the March 23rd City Council study session, preliminary Community Profile data was presented. The draft Community Profile section of the Housing Element has been completed and is included as Attachment 1.

The Community Profile describes the community's population, employment, economics, and household characteristics. Special needs groups and housing stock characteristics are also described. Such data is useful in understanding the community's changing demographics and serves as the foundation for the Housing Element's policies by describing and assessing the factors and characteristics that contribute to the supply and demand for housing in Costa Mesa.

In summary, the Community Profile indicates that:

- Costa Mesa's population is showing aging trends; therefore, housing policies should consider the needs of seniors who typically have a fixed income, need accessibility accommodations, and may seek options for senior communities or assisted living. Multigenerational and large family housing options should also be considered.

- The majority of housing units in Costa Mesa were built over 30 years ago – households in older homes may benefit from assistance programs for renovating their homes to ensuring safe living environments and improve the City's housing stock.

- Costa Mesa experienced the lowest growth in new housing units in the past decade in comparison to neighboring cities. The Opportunities and Constraints analysis

evaluates the factors that may play a role in slow housing development. Housing policies that seek to lessen constraints should be considered.

- By household income, Table 2 shows that approximately 48% of Costa Mesa households fall into lower income categories. Based on market rental and ownership rates, most lower income households are not able to afford to buy or rent most housing in Costa Mesa. Over the long-term, the lack of access can lead to overcrowding, overpayment, and migration of Costa Mesa residents to other communities that are more affordable. This data indicates that production of and access to affordable housing and homeownership facilitation should be considered in the City's housing policies.

Table 2 – Households by Income Category, 2020		
Income Category (% of Orange County's AMI)	**No. of Households**	**Percent**
Extremely Low (30% AMI or less)	6,610	16.3%
Very Low (31 to 50% AMI)	5,220	12.9%
Low (51 to 80% AMI)	7,325	18.1%
Moderate or Above (over 80% AMI)	21,405	52.8%
Total	40,555	100%

A short video explaining the highlights of the profile is available on the website at this link:

https://www.costamesaca.gov/city-hall/city-departments/development-services/planning/housing-element-update

Housing Opportunities and Constraints

As part of the Opportunities and Constraints Analysis, the City must identify potential constraints to housing development such as:

1) Government regulation including zoning and development standards as well as local initiatives like Measure Y;
2) Protected land or unsuitable land (e.g. land with protected habitat, land within the airport vicinity, land with environmental conditions of concern, and land otherwise physically unsuitable for residential development; and,
3) Land value and housing construction costs.

The discussion is divided into non-governmental constraints and governmental constraints, though the feasibility and likelihood of housing development are affected by a combination and synergies between both.

In addition, resources and opportunities for promoting housing are identified. These opportunities include potential programs to encourage affordable housing (e.g., density

bonus laws, an inclusionary housing ordinance, and CDBG, HOME grant funds, and other funding sources which may be used to fund local housing programs). In addition, potential areas or "opportunity sites" for housing development are identified based on land suitability and feasibility of housing development within the 8-year Housing Element cycle.

Non-Governmental Constraints - Land and Construction Cost

Nongovernmental constraints such as availability and cost of land, housing demand, financing, construction and labor cost largely affect the cost of housing and can produce barriers to housing production and affordability. These constraints can make it challenging for developers to build housing, and especially affordable housing. Although Housing Element policies and programs cannot directly affect these market factors, it aims to mitigate these external factors through the creation of land use policies that encourage housing development and make housing available at affordable rates.

Governmental Constraints – Local Regulations and Process

In addition to market conditions and constraints, local factors affect the cost, price and feasibility of housing development and affordable housing. Regulations related to environmental review, zoning, development standards, building codes, and similar regulations could have significant impacts on housing cost and availability. While the City has no control over State and Federal Laws, local laws including land use controls, site improvement requirements, fees and exactions, permit processing procedures, and other factors can constrain the development and improvement of housing stock and can be addressed by local programs.

Local Land Use Constraints

The Housing Element evaluates the effects of current land use regulations such as overlay zones, height and density restrictions, parking standards, Floor Area Ratios and trip budgets on housing development. Although regulations and development standards are a part of the development environment in every community and are important to maintaining a well-planned compatible community plan, such regulations may become a constraint when the cumulative regulatory environment places an undue burden and thus has the unintended consequence of discouraging development.

The discussion with major landowners and developers as part of the Outreach Program indicated the following major factors in development decisions:

a. Certainty in the entitlement process in the form of by-right development with clear codified development standards and requirements encourages investment;
b. Any requirement to place certain development projects on the local ballot for a vote (e.g. Measure Y) discourages investment;
c. A comprehensive and readily accessible list of City-wide development fees is desired;
d. Streamlined processing is preferred;

e. The need to allow for higher residential densities, depending on product types and in appropriate locations (for example, 100 du/acre north of 405 Freeway may be appropriate while 20 to 40 du/acre may be appropriate on the Westside); and,
f. Flexible parking standards to match parking demand especially for larger residential complexes is desirable;

Measure Y

Measure Y requires voter approval of development projects that meet certain thresholds. In general, projects that require a General Plan Amendment, Specific Plan Amendment or Zone Change and add 40 units or more, or 10,000 square feet of new building area, or meet other specified criteria would be subject to voter approval under Measure Y. In effect, Measure Y locks in land use plans and regulations as of 2016 and limits the City's ability to modify those plans to respond to a changing market or changed conditions without triggering a vote of the City's electorate.

Of the 34 cities in Orange County, there are only a few cities that require certain housing development projects be subject to voter approval. While it may appear that this was the precise intent of Measure Y, it is also possible that the actual effects of Measure Y on future development may be more impactful than originally intended. Experience has shown such ballot measures often stall most housing development in host cities.

Given that the allowable density in the City's base residential zoning districts is a maximum of 20 dwelling units per acre (du/acre) (with some higher densities allowed in overlays, urban plans and specific plans) and given that the State's default density assumption for when the market can begin to produce affordable housing is 30 du/acre, it is clear that modifications to the City's General Plan, zoning, and specific plans will be necessary in order to plan for additional housing to meet the City's RHNA allocation and particularly affordable housing.

On May 26, 2020, following the closure of most retail and restaurant establishments and a struggling hospitality industry due to the COVID-19 pandemic and other economic factors including the rise of online shopping and commercial vacancies along major corridors, the City Council voted to explore the formation of a Citizens Advisory Committee with the goal of seeking opportunities to further economic development through potential amendments to Measure Y and to return to the City Council with a recommendation. In addition, at the last Study Session on March 23, 2021, the City Council requested the City Attorney's Office prepare a memo indicating the implications of Measure Y and its applicability to affordable housing projects. These items are addressed in the Next Steps section of this report.

Infrastructure Constraints and Safety Evaluation

Potential opportunity sites are being evaluated at a high level in regards to infrastructure constraints, particularly with regard to local hazards such as flood zones, airport safety, unstable slopes, emergency services and infrastructure constraints such as sufficient water and sewer supply/capacity and storm drain systems. Future community planning and visioning efforts will consider emergency services, infrastructure, and community needs at a more focused level as post-Housing Element site-specific planning occurs.

Opportunities

Inclusionary Housing Ordinance

For the 2014 to 2021 Housing Element planning period (5th cycle RHNA), nearly 1,200 housing units have been permitted or constructed, with only 39 falling into affordable categories. One approach to address existing constraints to affordable housing is the adoption of an Inclusionary Housing Ordinance. Presently staff is working with a consultant on a financial evaluation of an Inclusionary Housing program, which will balance the need to provide affordable housing with the need to maintain responsiveness to housing market conditions such that inclusionary requirements do not inadvertently disincentivize new housing. The financial evaluation will include recommended policies for both for sale and rental housing projects. The evaluation of a potential Inclusionary Housing program for the City is underway and can be included in the City's Housing Element policy program.

Density Bonus Laws

Density Bonus Law has been used for more than 40 years to allow higher densities over base allowable densities in exchange for providing affordable housing. Density Bonus is a State law intended to encourage developers to incorporate affordable units within a residential project in exchange for density bonuses and relief from other base development standards. Effective as of January 1, 2021, Assembly Bill 2345 amends the Density Bonus Law to expand and enhance development incentives for projects with affordable and senior housing components. AB 2345 is modeled after the City of San Diego's Affordable Homes Bonus Program.

Prior to 2021, the Density Bonus Law permitted a maximum density bonus of thirty-five percent for a housing development in which (a) at least eleven percent (11%) of the total units are for very low income households, (b) at least twenty percent (20%) of the total units are for low income households, or (c) at least forty percent (40%) of the total for-sale units are for moderate income households.

AB 2345 amends the Density Bonus Law to increase the maximum density bonus from thirty-five percent to fifty percent. To be eligible for the maximum bonus, a project must set aside at least fifteen percent (15%) of total units for very low income households, twenty-four percent (24%) of total units for low income households, or forty-four percent (44%) of for-sale units for

moderate income households. Levels of bonus density between thirty-five percent (35%) and fifty percent (50%) are granted on a sliding scale.

In addition, the Density Bonus Law provides that, if requested by a developer, the City must use the state-mandated parking ratios (inclusive of accessible parking and guest parking) for qualifying projects. AB 2345 amends these parking ratios to decrease requirements for two and three bedroom units, as shown in the table below.

Table 3 - Maximum Required Parking Per AB 2345	
Rooms	Number Required
Studio/one Bedroom	1 Space
2 and 3 Bedrooms	2 spaces → 1.5 space
4 Bedrooms	2.5 spaces

Since there have not been any density bonus applications in recent years, the City could include policies to promote and incentivize density bonus projects as a tool for affordable housing development.

Streamlined Application Processing/ Review of Development Standards

The City should evaluate its planning application review process and determine what refinements could be made to streamline applications without jeopardizing consideration of contextual impacts of a project. For example, three-story projects are only allowed in urban plan overlays or through a master plan approval. However, if specific development standards and design guidelines could be codified to address any potential interface issues for small and medium size projects, the City could streamline the project and save processing time and reduce costs for smaller local developers. In addition, the City should evaluate its development standards to ensure they remain appropriate for today's market and development context. For example, residential parking requirements have not been studied or modified in many years and should be "right-sized" for current housing types and housing goals.

Housing Programs

Following dissolution of the Redevelopment Agency in 2012 and the wind down of redevelopment assets by the Successor Agency (i.e. Housing Authority), the City's resources for housing programs were reduced to an administration function for limited state and federal grant dollars only (like CDBG and HOME dollars). The City currently administers a HUD-funded Single Family Residential housing rehabilitation grant and loan program (assists approximately 20 homeowners per year) and a CalHOME loan program to assist homeowners to address building safety and property maintenance issues (maximum of two loans at a time, depending on funding). The City Council has in recent years indicated renewed interest in housing programs and could include a policy to evaluate and potentially allocate additional resources toward new housing programs.

Co-living/Efficiency Units

The zoning code does not explicitly allow for co-living housing types. Co-living refers to a housing type whereby individual living spaces with small footprints and limited personal amenities are provided, coupled with highly amenitized common kitchen and community facilities that are shared. Staff has received inquiries regarding allowing for such housing types in rehabilitated commercial spaces, catering to both a younger demographic as well as a senior demographic. Allowing for such uses could provide an opportunity for a new creative housing type that is likely to be more affordable due to the small footprint of the individual living areas. In addition, evaluating the effectiveness of existing policies intended to encourage motel conversions into efficiency units could be included as a housing policy.

Accessory Dwelling Units (ADU's)

The City recently updated its ADU Ordinance to comply with State law, establishing standards that encourage construction of compatible ADUs within existing neighborhoods. ADU's can range from an attached 150-square-foot efficiency unit to a detached 1,200 square foot ADU (depending on configuration). ADU's provide an opportunity to increase housing stock, and smaller ADU's will likely fall within affordable categories thereby increasing affordable housing opportunities.

ADU's are a part of the City's overall housing strategy to meet its RHNA allocation, as shown in the opportunity sites section of this report. Between 2018 and 2020 when the City adopted its first ordinance specific to ADU's, the City permitted and finaled 29 ADU's (the majority of which were completed in 2020). However, based on the City's new ADU ordinance which allows for an ADU on single family and multifamily properties in compliance with State law), staff is projecting an increase in ADU construction compared to past trends and we anticipate the trend will continue over the next few years as residents become more familiar with ADU's. As such, staff projects over 850 new ADU units over the planning period (with nearly 600 projected to fall within low and very-low income categories). In addition, the City could include as part of its Housing Element a program for education, outreach and informational materials, as well as the potential to offer pre-approved/permit ready ADU plans.

Evaluation of Existing Overlays, Specific Plans, and Urban Plans

Many of the City's urban plans and overlays were developed in 2006 to incentivize housing development but have not been substantially amended since. Since 2006, 604 units have been developed in Urban Plan areas and 200 units have been built in overlay areas over the last 15 years. Re-evaluation of these plans as to their effectiveness and appropriateness given changed market conditions, updated housing goals, while also addressing concerns regarding family dislocation is warranted. Updating the City's existing plans (while identifying new potential areas for compatible housing development) is a fundamental part of the City's overall housing strategy to meet its RHNA allocation, as discussed in the Opportunity Sites section of this report.

Site Inventory/ Opportunity Sites

The following section discusses the required Housing Element components that need to be addressed within the site suitability analysis and for the selection of opportunity sites:

1) Site analysis guidelines
    a. Realistic redevelopment potential in the 8-year planning period
    b. No net loss regulations
    c. Guidance regarding selecting housing opportunity sites between ½-acre and 10 acres in size (AB 1397 guidance)
    d. Fair housing and housing options

2. Sites recommended per the City's outreach process and community feedback
    a. Community Outreach (sites recommended based on public workshops/survey)
    b. Subarea Walkthrough and site strategies (District Meetings)
    c. Subject Matter Expert meetings and major landowners
    d. Accessory Dwelling Units (assumptions based on SCAG's study vs. a more aggressive approach)

3. Site density assumptions based on City's affordability assumptions (City's potential inclusionary housing ordinance and diverse housing types/density examples)

Community Feedback Related to Site Selection

At a fundamental level, community feedback provided through the community survey and outreach meetings provided the basis for focus areas and site selection. Initially, a community survey was made available on the website from December to February with questions relative to housing needs and potential sites. The City received 465 survey responses in English and 18 in Spanish. The responses helped to determine approximate locations for new housing and the desired housing types from the community's standpoint. The results of the surveys were included with the March 23, 2021 Study Session Report and available at these links:
http://ftp.costamesaca.gov/costamesaca/council/agenda/2021/2021-03-23/Item-1-Attach-2.pdf
http://ftp.costamesaca.gov/costamesaca/council/agenda/2021/2021-03-23/Item-1-Attach-3.pdf

At the district specific meetings, staff and the consultant used neighborhood district maps and community discussions to focus on candidate housing sites within each Council district; and, finally, the Subject Matter Expert meetings with the home builders, advocacy groups and homeless services providers offered more specific direction in terms of programs and policies that could assist the City in meeting its housing goals.

The following comments were received from the public through the surveys and the outreach meetings:

- Under housing options, older shopping centers, City owned properties, and housing along major streets were the top three options
- ADUs were identified as an important housing option
- Participants of the District Meetings and other outreach meetings emphasized the following criteria for site selection:
    - Consider impacts of traffic
    - Consider locations of existing neighborhoods
    - Consider proximity to open space
    - Consider industrial areas (for example, along Logan Ave/Airport Area/Westside Costa Mesa) and along major corridors (for example, Bristol Street/Harbor Avenue/Newport Boulevard)
    - Complementary mixed-use or live-work on smaller commercial corridors like 19th Street and 17th Street
    - Potential for housing north of the 405 Freeway
    - Potential for housing at Fairview Development Center
    - Diversity between renter and ownership opportunities
    - Evaluate existing overlays, urban plans, specific plans for community goals/effectiveness and to avoid overconcentration of dense housing only on the Westside
    - Need to address the missing middle housing and plan for "gentle density"
    - Walkability of neighborhoods to other land uses

While these discussions have provided a framework for site selection, additional discussions with property owners will be necessary to ensure potential sites are feasible. Recently, the Housing Element team has connected with a group of local church leaders led by Trellis who are interested in the option to develop housing at church sites; therefore, staff will be contacting them and evaluating this possibility further as well.

Site Analysis Guidelines

State law requires the City to identify adequate sites to accommodate its fair share allocation for the 6th Cycle Housing Element. Staff has identified a variety of candidate sites through extensive analysis considering site size, viability of the current land use, vacancy rates, and property owner interest. City Council and Planning Commission feedback as well as public input provided through study sessions, townhalls, subject matter meetings and in discussions with major landowners were also considered.

The City is required to ensure that housing capacity is maintained on sites with the potential to accommodate affordable units (as identified in the adopted Housing Element) throughout the 8-year planning period. If those sites are instead developed for market rate housing or non-residential land uses, the City may eventually trigger the "No Net Loss" provision of State law and will need to identify additional sites to accommodate the unmet need. As such, although densities are not established by the Housing Element

Update (rather the Housing Element estimates densities for purposes of establishing whether the City has demonstrated sufficient potential sites and capacity for housing), it is important that density assumptions are conservative and in the "ballpark".

Density and Site Selection

The site selection process goes hand in hand with the identification of potential densities. While a higher density project may be appropriate north of the 405-Freeway (where high quality apartment communities like 580 Anton, Halcyon, Enclave and the Lakes are already developed at densities up to 125 du/acre), a lower or mid-range density is more appropriate on the Westside or on 17th Street because of the smaller sites, existing fabric of the neighborhood and the circulation pattern. In general, larger sites can accommodate more density because the interface with the adjacent community can be better designed with smart site planning, deeper setbacks, and multiple access points. The site selection strategies analyze the potential for housing in various neighborhoods and appropriate compatible densities to address housing growth. Once general housing opportunity locations are identified, planning for appropriate densities and context-sensitive design become the next steps to ensure projects are designed to complement and enhance neighborhoods.

Potential Housing Opportunity Areas and Strategies

The following includes a high-level description of opportunity areas and the density and affordability assumptions being considered to meet RHNA requirements. The background information on each of these potential strategies is included as Attachment 2 and a preliminary map is provided as Attachment 3. Staff is evaluating the feasibility of parcels shown, therefore this map may change over time and prior to the final Housing Element. Staff is reaching out to the owner of each property identified in the Housing Element with an explanation and an opportunity for discussion before the Housing Element is finalized.

Potential Housing Opportunity Areas		
Site/Strategy	**Current**	**Site Area Identified**
Fairview Developmental Center	**Size:** 102 acres **Density:** Up to 40 du/ac **Potential Units:** 535	**Density Proposed:** 60 du/ac **Potential Units:** 1,500 – 2,500
ADUs	ADUs are allowed on single family and multifamily properties.	**Potential Units:** 858 units
North Costa Mesa Specific Plan	**Size:** 37 acres **Density:** 30-100 du/ac **Potential Units:** 535	Approximately 20 parcels **Density Proposed:** 80-90 du/ac **Potential Units:** 11,750 – 12,500
Newport Blvd Specific Plan	**Size:** 68 acres **Density:** 20 du/ac **Potential Units:** 159	Approximately 20 parcels **Density Proposed:** 50 du/ac **Potential Units:** 925

SoBECA Plan	**Size:** 32 acres **Density:** 40 du/ac **Potential Units:** 450	Approximately 18 parcels **Density Proposed:** 60 du/ac **Potential Units:** 771
Residential Incentive Overlay	**Size:** 12 acres **Density:** 30 du/ac **Potential Units:** 360	24 parcels identified **Density Proposed:** 50 du/ac **Potential Units:** 1,101
Harbor Blvd. Mixed Use Overlay	**Size:** 24.5 acres **Density:** 40 du/ac **Potential Units:** 491	Approximately 25 parcels **Density Proposed:** 50 du/ac **Potential Units:** 1,376
Mesa West Residential Ownership Overlay	**Size:** 129 acres **Density:** 20 du/ac **Potential Units:** 282 remaining	Propose to remove.
19 West Urban Plan	**Size:** 129 acres **Density:** 20 du/ac **Potential Units:** 282 remaining	Approximately 15 parcels **Density Proposed:** 50 du/ac **Potential Units:** 771
Mesa West Bluffs Urban Plan	**Size:** 277 acres **Density:** 20 du/ac **Potential Units:** 562 remaining	Approximately 43 parcels **Density Proposed:** 40 du/ac **Potential Units:** 2,090
17th Street East	Residential not currently permitted.	Approximately 9 parcels **Density Proposed:** 60 du/ac **Potential Units:** 263
Airport Area	Residential not currently permitted.	Approximately 8 parcels **Density Proposed:** 80 du/ac **Potential Units:** 844
Church Properties	Residential not currently anticipated.	Approximately 5 parcels **Density Proposed:** 10 - 30 du/ac **Potential Units:** 129 (all assumed to be affordable at low/very low level)

Staff is seeking feedback as to the City Council's interest in pursuing the housing opportunity areas listed above.

Fair Housing and Housing Options

AB 686 creates new requirements for all state and local agencies to ensure that their laws, programs and activities affirmatively further fair housing, and that they take no action inconsistent with this obligation. Beginning January 1, 2019, all housing elements must now include a program that promotes and affirmatively furthers fair housing opportunities throughout the community for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (FEHA), Government Code Section 65008, and any other state and federal fair housing and planning law.

The diversity of household types would need to be addressed with accommodating a variety of housing types such as for sale and rental housing, multi-generational housing, transitional housing and housing in proximity to transit. In consideration of future housing needs, the City will need to select a combination of housing opportunity sites capable of supporting a variety of housing types. While a large multi-acre site may be suitable for a higher density apartment complex with on-site amenities (typically developed by large housing developers), smaller lots could be zoned for walk up apartments and condominium units that could be developed at smaller scale by the local housing developers.

Future Community Planning and Visioning Efforts

The main intent of the Housing Element is to address RHNA by showing *potential capacity* for housing and identification of a high level housing strategy using goals, policies and programs, to be implemented over the 8-year planning cycle. Implementation of the Housing Element's goals, policies and housing programs will require future General Plan Amendments and rezoning actions which will be accompanied by ongoing in-depth community outreach and visioning exercises. Community visioning is critical to neighborhood planning and necessary to envision how housing opportunity areas identified in a Housing Element will translate into well-designed, high quality, compatible housing projects that fit into the context of their surroundings. Staff have already secured $500,000 in LEAP grant funds to pursue these efforts and will launch those programs following Housing Element adoption as the next step in a larger community conversation surrounding housing in Costa Mesa.

Next Steps

Following this joint study session, staff will complete the opportunities and constraints analysis and sites analysis, and will prepare the draft goals, policies and housing programs section of the Housing Element based on Council and Planning Commission feedback. Staff will provide the complete preliminary draft Housing Element to the City Council and may schedule a third study session in May if needed.

Concurrently, staff will move ahead with exploring the creation of a Citizen Advisory Committee to discuss Measure Y. The City Attorney's Office is also preparing a memo regarding Measure Y, which will be forwarded to the City Council as requested. In addition, staff will re-engage the State along with the Council Ad Hoc Committee regarding the future of the Fairview Development Center.

Following Council feedback, the preliminary draft will be revised and prepared as the "Public Review Draft." The Public Review Draft will be released for a 30-day public comment period and submitted to State HCD for a 60-day review period. Following any revisions based on feedback, a final-draft Housing Element will be released to the public, along with the required CEQA compliance analysis. Public hearings with the Planning Commission and City Council are anticipated in late summer through fall 2021. Ultimately, an adopted Housing Element is required to be submitted to HCD by October 15, 2021.

CONCLUSION:

Identification of opportunities and constraints and housing opportunity sites are critical steps in the Housing Element Update. Staff is seeking input on the proposed opportunity sites and recommended densities to finalize this step. Staff is also seeking initial feedback regarding the Council's high-level housing goals, in light of the Community Profile, as well as constraints inherent with Measure Y as discussed in this report.

ATTACHMENTS:

1. Community Profile (Final Draft)
2. Housing Opportunity Areas Summary
3. Map of Potential Housing Opportunity Areas

April 27, 2021 City Council Joint Study Session

Attachment 2 – Housing Opportunity Areas Summary

1) Accessory Dwelling Units

Current Plan Summary	Proposed Revisions/Notes
• The City does not currently have an anticipated annual ADU development. Since 2018, 29 ADUs have been permitted and constructed.	• The City anticipates that approximately 858 ADUs will be developed within the 8-year planning period based on the recently adopted ADU ordinance and recent changes to State law which promote the development of ADUs. The City will also explore programs as part of the Housing to promote ADU development.

2) Fairview Developmental Center

Current Plan Summary	Proposed Revisions/Notes
• Owned by the State of California Costa Mesa has included Fairview Developmental Center in previous Housing	• Actively pursue an agreement with the State of California for the development of housing at the site • Due to the ownership nature, the City assumes that it may be possible to develop more than 17.5% of the units at the very low/low income levels

3) North Costa Mesa Specific Plan

Current Plan Summary	Proposed Revisions/ Notes
• Adopted in 1994, amended frequently through 2016 • Existing Specific Plan consisting of a range of permitted land uses, including single family through high density residential uses • Densities range from 8 – 35 du/ac, though up to 100 du/ac is	• Amend the plan boundary to include additional parcels west of Harbor Blvd • Propose to amend some land use designations to allow up to 100 du/ac (The Housing Element assumes between 80 and 90 du/ac for planning purposes)

permitted in the South Coast Metro Center (Area 6)	

4) Newport Boulevard Specific Plan

Current Plan Summary	Proposed Revisions/Notes
• Intended to spur residential development in place of commercial uses along Newport Blvd. as new roadways moved traffic from Newport Boulevard to other areas within the City	• Expand the boundary beyond 19th to include additional parcels • Propose to increase density up to 50 du/ac directly adjacent to Newport Boulevard

5) Residential Incentive Overlay

Current Plan Summary	Proposed Revisions/Notes
• Intended to create new housing opportunities for residential development at strategic locations along Harbor and Newport Boulevard • Overlay that adds additional entitlement capabilities to the base zoning	• Expand area to potentially include some of the land previously in the Residential Ownership Overlay • Propose to increase density up to 50 du/ac

6) Harbor Blvd. Mixed-Use Overlay

Current Plan Summary	Proposed Revisions/Notes
• Applies to select areas along Harbor Boulevard between Wilson Street and 19th Street • Intent is to introduce a diverse mix of uses with the objective of creating a more integrated, walkable, and complementary balance of uses	• Propose residential development be allowed in a mixed-use context up to 50 du/ac with horizontal mixed-use along the Harbor corridor encouraged • Propose to extend the northern boundary up to the 405 freeway

7) 19 West Urban Plan

Current Plan Summary	Proposed Revisions/Notes
• Adopted April 2006 • Intended to encourage a mix of uses, including commercial and residential, along 19th Street west of Newport Blvd. • Encourage the design and development of urban residential structures • Has not resulted in much residential development in this area to date	• Propose to increase density up to 50 du/ac • Promote horizontal mixed-use along this corridor as well as vertical mixed-use

8) Mesa West Bluffs Urban Plan

Current Plan Summary	Proposed Revisions/Notes
• Adopted April 2006 • Objective to encourage development of live/work units, stimulate improvement in the area, and meet demand for a new housing type • Some residential development has occurred within the area since adoption of the plan	• Propose to expand the area to potentially include some of the land previously in the Residential Ownership Overlay • Propose to increase density to 40 du/ac

9) 17th Street – East

Current Plan Summary	Proposed Revisions/Notes
• This area does not currently permit residential development	• Area currently experiencing a commercial resurgence • City anticipates crafting development standards within this overlay which would promote either a vertical or horizontal mixed-use setting with the intent of supplementing the commercial

	development through additional users and a more walkable area • Propose the addition of residential uses which may be developed up to 60 du/ac

10) Airport Area

Current Plan Summary	Proposed Revisions/Notes
• This area does not currently permit residential development	• Propose to add residential uses at densities up to 80 du/ac adjacent to Baker Block, outside of the John Wayne Airport noise contour area

Sites Considered but Not Included

- Civic Center Park – City owned open space
- Portions of OC Fairgrounds – State DAA Owned

North Costa Mesa Specific Plan Area
Approximately 11,750 - 12,500 units anticipated (1,800 - 2,100 affordable)
Only 1 acre anticipated for residential development

C.9 Virtual Townhall Meeting #2

The section contains all townhall materials, handouts, flyers, PowerPoint presentation, as well as all available public comments provided during the meeting. Public comments were received verbally and in written form through the Zoom chat. A video recording of the virtual townhall is available at www.costamesaca.gov/housing-element-update.

Townhall Meeting #2 Summary

The City of Costa Mesa held a virtual public community workshop in Spanish and English for the 2021-2029, 6th Cycle Housing Element Update on Thursday September 2, 2021. The intent of the workshop was to provide information on the Public Review Draft Housing Element and to gather feedback from the public on proposed housing sites and policy programs. The workshop had a total of 69 participants in the English workshop and 7 participants in the Spanish workshop.

The workshop included a PowerPoint presentation providing information on the following topics:

- The Housing Element Update Process
- Summary of the City's RHNA allocation
- Community Engagement Efforts
- Housing Element Strategy
- Overview of Proposed Housing Programs
- Community Conversation
- Breakout Group #1: Candidate Housing Sites Analysis
- Breakout Discussion #2: Housing Goals, Policies, and Programs

Summary of Community Questions and Comments

Following the presentation, the City provided time for open questions from the public regarding the Housing Element. Questions and comments from the attendees included the following:

- This has been a great process so far with the diligence by the city. I'm excited to see more housing opportunities for folks in our community!
- Was the safe harbor formula not used to have a more realistic estimation of ADU's that could be built?
- What programs would make sure that the built ADU's would be units for Lower income families?
- Can you discuss why the city didn't follow HCD guidance and model practice when using inventory sites in a housing element to discount those sites with a probability of being developed during the cycle?
- HCD will treat the proportion of parcels in the previous housing element that were developed during the previous planning period as the presumptive probability of development for current inventory sites.
- In Costa Mesa that is not feasible since the prior cycle the city only had an RHNA of a couple units. Recent state law requires stricter feasibility assessment for each site. City must comply.
- Nothing precludes the city from voluntarily assigning probabilities for a more accurate plan https://www.lewis.ucla.edu/research/what-gets-built-on-sites-that-cities-make-available-for-housing/
- More housing, more neighbors, less housing burdened people makes for a more fun/lively city. Legalize all types of housing.
- Build more bike lanes so people have options other than a car for local trips!
- What is the city's plan to incorporate local control measures SB 9 and SB 10? Is the city going to incorporate these bills in the housing element or address them in the manner that ADU legalization was handled?
- Publish the incentives: developer competition encourages affordability

- The area on 17th street and Newport Blvd. is on the way to the beach. I have a difficult time understanding how that's a valid census.
- OC has vast, world class water recycling programs that turn wastewater into potable water local supplies.

A video of the full presentation and PowerPoint, including public comments, are available on the City's Housing Element Update webpage: http://www.costamesaca.gov/housing-element-update.

Whiteboard Activity

During the workshop the City conducted a community activity to further engage participants.

Candidate Sites

Participants were asked to share their thoughts on opportunities areas in the City as well as Accessory Dwelling Units (ADUS). The majority of participants were familiar with the high cost of housing and felt there is currently enough housing in the City. In each breakout room participants discussed the following topics:

- Short discussion on why the CEQA analysis may differ a bit from the Housing Element and why the list is smaller than previously shown.
- Are there any areas within the City which should be given further consideration?
- Are there resources which the City can provide to make it easier for those who wish to develop Accessory Dwelling Units?
- Are there any questions we did not cover relating to the Candidate Housing Sites Strategy the City has proposed as part of the draft Housing Element?

Comments and Questions on Candidate Sites
Opportunity Sites
Quality of life is what we're looking for – congestion and traffic concerns with sites
5% or 10% for inclusionary housing ordinance
Concerned about wording in the Housing Element
Need an overall visioning process for the City – need a unified urban plan
Questions on affordability categories
Concerned about the language being used in the document – models currently being used is 10% affordability
Pretty significant changes
Quality of life – members of the community should benefit from the programs
Data check affordability – overburdening
Nothing within motel conversion proves to look at what percentages are made
Consider infrastructure first – look at both sides of the coin, all types of housing development
Densities we have now make the community – you can get anything in Costa Mesa
Attach entire census tract near Newport Blvd. and 17th St. census tract
Accessory Dwelling Units (ADUs)
What were the assumptions made?

Housing Plan

Participants were asked to share their thoughts on the Housing Element's goals. In each breakout room participants discussed the following topics:

- Quick overview of the City's overall housing goals.
- Are there any questions on the purpose of the Housing Plan section within the Housing Element?
- Do you believe there are groups who may have special housing needs that are not represented within this plan?
- Are you aware of any funding sources the City can explore further to implement these programs or promote the development of future housing?
- Are there any questions we did not cover relating to the City's proposed Housing Plan?

Comments and Questions on the Housing Plan
Incentives to developers
DDA Census tract areas – find ways to take advantage of tax credits – target housing towards areas with federal funding
More effectively advertise incentives that exist
Water needs
Geographic distribution of identified capacity
Local workforce
How will infrastructure accommodate this proposed capacity?
Small parcels and high cost
Make sure more housing happens – young professions
Housing for all ages and incomes
Look for opportunities to do more
What is the city's plan to incorporate local control measures SB 9 and SB 10? Is there housing element going to address them in the same manner as ADUs?
Coordination with adjacent cities
Inclusionary housing ordinance – consider implementing faster
SRO and congregate living options
Opportunity zones – address traffic and transportation needs
Communicate opportunities – publish the incentives: developer competition encourages affordability
More specifics on constraints of Measure Y
Low-income Housing Tax Credits (LIHTC) and New Market Tax Credits (NMTC) bring our federal tax dollars to our community to benefit low-income community members
Conversion of commercial/retail to housing opportunities
ADU income restrictions – multigenerational housing
How to encourage ADUs to be affordable?
How will monitoring of ADU affordability and production be implemented?
Lot size restrictions for ADUs
Are ADUs allowed in every neighborhood? Do neighbors have anything to say about one on adjacent property?
West side of 19th St. supermarkets – address food deserts
Have conversations with owners taken place?
Development agreements on identified sites
Set aside affordable housing requirements

C.10 City Council/Planning Commission Study Session

The section contains all study session materials, PowerPoint presentation, and all available public comments provided during the September 13, 2021, study session. Public comments were received verbally and in written form through the Zoom chat.

Agenda: https://costamesa.legistar.com/View.ashx?M=PA&ID=892974&GUID=2EC89CD4-EDE7-461F-8127-922507F6D3D6

Public Comments: https://costamesa.legistar.com/View.ashx?M=E3&ID=892974&GUID=2EC89CD4-EDE7-461F-8127-922507F6D3D6

City of Costa Mesa

REGULAR CITY COUNCIL AND SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY AND HOUSING AUTHORITY

Agenda

Monday, September 13, 2021 **5:00 PM** **City Council Chambers**
77 Fair Drive

SPECIAL CITY COUNCIL AND PLANNING COMMISSION JOINT STUDY SESSION

The City Council meetings are presented in a hybrid format, both in-person at City Hall and virtually via Zoom Webinar. The Governor's Executive Orders N-25-20 and N-29-20 suspend certain requirements of the Brown Act, and City Council Members, Commissioners, and staff may choose to participate in person or by video conference.
You may participate via the following options:

1. Attending in person: All attendees are required to wear a face covering at all times while in the Council Chambers or City Hall. Please maximize spacing by utilizing all seating in the Chambers.

2. Members of the public can view the City Council meetings live on COSTA MESA TV (SPECTRUM CHANNEL 3 AND AT&T U-VERSE CHANNEL 99) or http://costamesa.granicus.com/player/camera/2?publish_id=10&redirect=true and online at youtube.com/costamesatv.

3. Zoom Webinar:
Please click the link below to join the webinar:
https://zoom.us/j/98376390419?pwd=dnpFelc5TnU4a3BKWVIyRVZMallZZz09
Or sign into Zoom.com and “Join a Meeting”
Enter Webinar ID: 983 7639 0419/ Password: 905283
• If Zoom is not already installed on your computer, click “Download & Run Zoom” on the launch page and press “Run” when prompted by your browser. If Zoom has previously been installed on your computer, please allow a few moments for the application to launch automatically.
• Select “Join Audio via Computer.”
• The virtual conference room will open. If you receive a message reading, “Please wait for the host to start this meeting,” simply remain in the room until the meeting begins.
• During the Public Comment Period, use the “raise hand” feature located in the participants’ window and wait for city staff to announce your name and unmute your line when it is your turn to speak. Comments are limited to 3 minutes, or as otherwise directed.

Participate via telephone:
Call: 1 669 900 6833 Enter Webinar ID: 983 7639 0419/ Password: 905283
During the Public Comment Period, press *9 to add yourself to the queue and wait for city staff to announce your name/phone number and press *6 to unmute your line when it is your turn to speak. Comments are limited to 3 minutes, or as otherwise directed.

4. Additionally, members of the public who wish to make a comment on a specific agenda item, may submit a written comment via email to the City Clerk at cityclerk@costamesaca.gov. Comments received by 12:00 p.m. on the date of the meeting will be provided to the City Council, made available to the public, and will be part of the meeting record.

5. While the City does not expect there to be any changes to the above process for participating in this meeting, if there is a change, the City will post the information as soon as possible to the City’s website.

Note that records submitted by the public will not be redacted in any way and will be posted online as submitted, including any personal contact information. All pictures, PowerPoints, and videos submitted for display at a public meeting must be previously reviewed by staff to verify appropriateness for general audiences. No links to YouTube videos or other streaming services will be accepted, a direct video file will need to be emailed to staff prior to each meeting in order to minimize complications and to play the video without delay. The video must be one of the following formats, .mp4, .mov or .wmv. Only one file may be included per speaker for public comments. Please e-mail to the City Clerk at cityclerk@costamesaca.gov NO LATER THAN 12:00 Noon on the date of the meeting.

Note regarding agenda-related documents provided to a majority of the City Council after distribution of the City Council agenda packet (GC §54957.5): Any related documents provided to a majority of the City Council after distribution of the City Council Agenda Packets will be made available for public inspection. Such documents will be posted on the city's website.

All cell phones and other electronic devices are to be turned off or set to vibrate. Members of the audience are requested to step outside the Council Chambers to conduct a phone conversation.

Free Wi-Fi is available in the Council Chambers during the meetings. The network username available is: CM_Council. The password is: cmcouncil1953.

As a LEED Gold Certified City, Costa Mesa is fully committed to environmental sustainability. A minimum number of hard copies of the agenda will be available in the Council Chambers. For your convenience, a binder of the entire agenda packet will be at the table in the foyer of the Council Chambers for viewing.

The City of Costa Mesa's goal is to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, you will need special assistance beyond what is normally provided, we will attempt to accommodate you in every reasonable manner. Please contact the City Clerk's office 24 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible 714-754-5225 or at cityclerk@costamesaca.gov. El objetivo de la ciudad de Costa Mesa es cumplir con la ley de Estadounidenses con Discapacidades (ADA) en todos los aspectos. Si como asistente o participante en esta reunión, usted necesita asistencia especial, más allá de lo que normalmente se proporciona, intentaremos de complacer en todas las maneras. Favor de comunicarse a la oficina del Secretario de la Ciudad con 24 horas de anticipación para informarnos de sus necesidades y determinar si alojamiento es realizable al 714-754-5225 o cityclerk@costamesaca.gov

TITLE:

PUBLIC REVIEW DRAFT 2021-2029 HOUSING ELEMENT

DEPARTMENT: ECONOMIC AND DEVELOPMENT SERVICES DEPARTMENT/PLANNING DIVISION

PRESENTED BY:

JENNIFER LE, DIRECTOR OF ECONOMIC AND DEVELOPMENT SERVICES

CONTACT INFORMATION: MINOO.ASHABI@COSTAMESACA.GOV <mailto:MINOO.ASHABI@COSTAMESACA.GOV>

RECOMMENDATION:

Provide feedback on the Public Review Draft Housing Element before its submittal to the State Department of Housing and Community Development (HCD).

BACKGROUND:

The basis of the 2021-2029 sixth cycle Housing Element Update is compliance with the State's Regional Housing Needs Assessment (RHNA) for the planning and zoning for additional housing units as allocated by the State and the Southern California Association of Governments (SCAG). The following table provides a breakdown of Costa Mesa's final RHNA allocation:

Table 1 - Final RHNA Allocation

Income Categ	% of Area Median Income (AMI)	Affordable Monthly Rent	Income Range Min. - Max.		RHNA Allocation
Very Low Inco	0-50% AMI	$961 - $1,281	--	$64,050	2,919 units
Low Income	51-80% AMI	$2,561	$64,051	$102,450	1,794 units
Moderate Inco	81-120% AMI	$3,090	$102,451	$123,600	2,088 units
Above Modera Income	%120% AMI	>$3,090	$123,601	--	4,959 units
Total					**11,760 units**

During the past year and a half, the City has held several town hall meetings and study sessions

regarding the required Housing Element Update. Study sessions were previously held with the Planning Commission and City Council on March 1, 2021, March 23, 2021, and April 27, 2021. At these study sessions, staff presented information regarding the RHNA process, new State housing regulations, consequences of non-compliance with State Housing Element law, Costa Mesa's demographics and preliminary Community Profile data, a summary of community outreach efforts and feedback, and an introduction to the housing plan and the sites analysis process. The September 13, 2021 study session is the fourth publicly noticed study session regarding the housing element update and process.

The staff reports and meeting videos for previous study sessions are available at the following links:

ANALYSIS:

At the April 27, 2021 joint Planning Commission/City Council study session, a number of issues were discussed and feedback was received by the public, Planning Commission, and City Council. The purpose of the study session was to provide an opportunity for feedback on the proposed focus areas and corridors for potential housing and the housing opportunity sites and recommended densities within those corridors to finalize the City Council's high-level housing goals. The following is a summary of general comments received during the study session and how they have been addressed in the Public Review Draft Housing Element.

Planning Commission Comments:

1) Consider 4-plex and 6-plex bungalows in single family neighborhoods since they maintain the same height and streetscape.
    - The 4-plex and 6-plex development types can integrate well with established low-density residential neighborhoods. Staff will continue to evaluate how such housing types may be incorporated into the City's planning and zoning codes. However, for Housing Element purposes, the State requires a minimum density of 30 du/acre to demonstrate compliance with RHNA requirements for the provision of housing in affordable categories. The incremental increase in housing in established single family neighborhoods will be addressed through ADU and JADUs and other incremental

changes.

2) Plans for housing should be integrated with more open space and consideration of the existing network of neighborhoods.
    - Open space and other development standards will be evaluated with the comprehensive zoning code and general plan updates following adoption of the Housing Element.
3) Encouraged removal of the Mesa West Residential Ownership urban plan.
    - The Draft Housing Element includes a program for the potential removal of this urban plan following Housing Element adoption.
4) Add residential units on the 17th Street corridor as mixed-use development and around the airport area as alternative housing sites.
    - The Draft Housing Element includes programs for further study of these corridors for potential housing opportunities. Even though specific sites in these areas are not identified as housing opportunity sites, the City could consider these locations as potential housing areas in the future.
5) The City should be proactive in its conversation with faith-based organizations for use of their properties for affordable housing.
    - Programs to continue the conversation with the faith-based community are included in the Draft Housing Element. Please refer to Program 3J.
6) Infrastructure studies (water, sewer, etc) should be considered in planning for additional housing units.
    - As part of the Housing Element Update, the City will prepare an environmental study that will include high-level studies related to infrastructure and public services at a program level. Additional more detailed studies would be undertaken as part of the zoning and General Plan Updates that would be necessary to implement the Housing Element programs.
7) Discussed a citizen advisory committee related to Measure Y.
    - Staff will be undertaking a larger community conversation about the necessity of a compliant Housing Element and the Measure Y process, which include formation of an advisory group. The City anticipates the General Plan and zoning changes necessary to implement the Housing Element will be subject to Measure Y.
8) Consideration should be given to environmental justice goals and affirmative fair housing related to air quality and quality of life with placement of housing along major freeways, near airports, etc.
    - Environmental justice and fair housing goals are incorporated into the fabric of the Housing Element and staff agrees these goals must be a part of future General Plan and zoning actions related to Housing Element implementation. The Draft Housing Element identifies housing opportunity sites along the 405 Freeway such as the Home Ranch and Sakioka sites. These sites are very large and would allow for site planning of mixed-use projects including housing and office use that would allow for site planning solutions including sufficient setbacks for residential units. No housing opportunity sites have been identified along the airport industrial area though staff have included a Housing Element Program to further study this potential.
9) With the potential for housing along Newport Boulevard, Harbor Boulevard and the 17th Street corridors, visioning for these areas and form based codes should be considered to provide flexibility in development while maintaining the streetscape and human scale of development.
    - Through public outreach and comments received from the City Council and Planning

Commission, staff recognizes that there is strong support in the community for developing a specific vision for each of the corridors as identified in the Draft Housing Element for future growth. Visioning exercises and the potential for form-based codes will be evaluated during the general plan and zoning changes that follow the Housing Element.

City Council Comments:

1) Is 850 ADUs in relation to the number of residential lots a realistic assumption?
    - The ADU assumptions are realistic based on the number of applications received in the first 6 months of 2021. The City has also experienced an uptick in the number of ADU proposals in multi-family sites that could lead to even more ADUs than anticipated.
2) The City should consider tracking ADU affordability and data on units occupied by family members.
    - Although there is not City specific data for ADU affordability rates, the Draft Housing Element uses the safe harbor assumptions resulting from SCAG a specific study of the Orange County area. The City could request information on anticipated rental prices or family member occupancy figures at the time of application. The Draft Housing Element recognizes that ADU programs will need to be monitored for effectiveness and includes this in Program 3L of the Housing Plan.
3) Understanding the reasons for Costa Mesa having the lowest number of housing development in the neighboring cities.
    - The City has experienced a decline in larger development applications in the past several years. Based on general feedback from the development community, this is could be due to the uncertainty introduced by Measure Y. However, smaller developments that are below the 40 dwelling unit threshold have been processed since 2016 including a 38-unit development on Newport Boulevard. The Draft Housing Element refers to Measure Y as a potential constraint for housing development and that a vote of the people will be required to fully implement the adopted housing element as drafted. Please refer to Chapter 4, Housing Plan, Program 3G.
4) Importance of communication with the public on data gathered and how the data is being incorporated.
    - The Draft Housing Element includes a comprehensive summary of all public meetings, town halls, surveys and individual submittals. Please refer to Appendix C of the Draft Housing Element.
5) Emphasize the importance of Community Profile and how it is used to formulate the housing plan such as the aging population and their housing needs.
    - The Community Profile includes detailed data on the population, housing and income levels. Based on this data, the housing programs and policies included in the Housing Element Update recognize the needs of seniors, large households and the affordability needs for various households. Although the Housing Element includes the opportunity sites and the programs to address housing needs, some of the incentive to develop these sites are market driven and may need to be adjusted at project level such as the mix of bedrooms in a development or universal design features, etc. Please refer to Section 4, Housing Plan Program 2D and 2E.
6) Integrate senior housing with the rest of the community to promote healthy aging.
    - The Draft Housing Element recognizes that specific features of co-housing and multi-

generational housing needs to be further studied and included in development standards and guidelines in the general plan and zoning code update. Please refer to Chapter 4, Housing Plan, Program 3E.

7) Consider public gathering spaces as much as open space in planning of housing developments.
    - The visioning exercises for specific corridors will include public open spaces and streetscapes studies appropriate for each neighborhood. This effort will be addressed with the General Plan and zoning code amendments following the Housing Element's adoption.
8) Keep studying the airport area as a potential housing opportunity area for younger professionals.
    - As directed by City Council, this area will be evaluated for potential housing opportunities. Coordination with the Airport Land Use Commission will be required. Please see Chapter 4, Housing Plan, Program 3H.
9) Housing units should include a variety of household types such as singles, single parent households and larger families.
    - The Draft Housing Element includes a comprehensive Community Profile that breaks down household types and their housing needs such as non-family households, which have increased in the past decade to more than 40 percent. Please refer to Chapter 4, Housing Plan, Program 3F.
10) Consider hotel/ motel conversion options and using available state funding for such.
    - The City will evaluate the potential benefits of motel conversion, co-living and efficiency housing options. Please refer to Chapter 4, Housing Plan, Program 3F.
11) Consider pre-approved ADU plans to incentivize ADU development.
    - The Draft Housing Element includes a program to promote development of ADUs such as permit ready plans, waiver or reduction of permit fees, expedited plan checks and exploring other funding options. Please refer to Chapter 4, Housing Plan, Program 3E.
12) Discuss housing development options with smaller developers and adjust programs and fees to accommodate large and small size developments.
    - This would require fee studies and additional analysis to formulate an objective basis for varying housing development types. Local developers have been involved in the outreach process and have stated timing and streamlining of project review as an opportunity to improve the development environment.

Public Review Draft Housing Element

Following the April 27, 2021 study session, staff and the City's expert housing consultants prepared the Public Review Draft Housing Element, incorporating feedback from the prior public town halls and study sessions. The Public Review Draft was posted online at the City's website on August 17, 2021 and hardcopies were available at City Hall, the Donald Dungan Library and the Mesa Verde Library. Approximately 40,000 flyers were mailed to Costa Mesa residents City-wide and the release was widely publicized via social media, community platforms and through local contacts with community organizations. Comments on the public review draft are being accepted through September 15, 2021.

As of the writing of this report, the City has received seven written comments via email and six online submissions. Public comments are provided as an attachment to this report and generally pertain to:

- the inclusion of the Chargers / The Hive site as a housing opportunity site;

- the inclusion of local hire requirements for development;
- new housing being visually attractive, and include greenbelts, sound walls, be located near jobs, transit stops and high-resource neighborhoods;
- increase densities to make housing projects more financially feasible and encourage mixed income higher density communities, as well as other housing options like co-housing and motel conversions;
- consider whether the Casa Bella Apartments should be listed as an “at risk” affordable housing development (i.e. an affordable housing project “at risk” of converting to market rate units); and
- consider how assisted living and group living are counted toward the City’s housing need.

September 2, 2021 Town Hall Meeting

Staff held a town hall meeting on September 2, 2021 to discuss and receive feedback regarding the Public Review Draft. The meetings were virtual and provided in English and Spanish. More than 60 individuals participated in the English language breakout room and six in the Spanish language break out room.

Topics discussed at the town hall meeting included:

- the need for an inclusionary housing ordinance and requiring affordable housing in conjunction with added densities;
- consideration of potential quality of life impacts that may result from higher densities
- use of consistent data related to housing cost burden;
- options and incentives for development of Single Room Occupancies (SROs);
- number of ADUs assumed in the Draft Housing Element;
- consideration of reduced parking and setbacks to incentivize development;
- graphics that show comparison of existing and proposed densities on the identified housing opportunity corridors;
- use of federal monies to encourage higher density development as appropriate;
- affordable housing units assumed for the State-owned Fairview Developmental Center;
- assumptions regarding affordable housing on sites with Development Agreements; and
- consideration of the impacts of added housing units to sewer, water, traffic, other infrastructure and public services including police and fire services.

Housing Element Guiding Principles

Based on input from the community, local officials and business community, and with consideration of the State’s requirements, the City established four guiding principles that were referenced throughout the Housing Element Update process, which shaped the sites analysis process and development of the housing goals, programs, and policies. The guiding principles are rooted in community engagement and local knowledge as follows:

- The City will plan for responsible growth that is fitting for each of the unique areas within the City with the understanding that the different characteristics, even within districts, result in different housing needs and appropriate housing types.
- The City will engage the Costa Mesa community at multiple times throughout the Housing Element update to incorporate local knowledge and input into the planning process.

- The City will create a plan, which meets the local needs of the community as well as the requirements of the State Department of Housing and Community Development (HCD).
- The City will develop actionable policies and programs that address identified constraints within the community profile analysis.

Based on community feedback, the Housing Element identifies housing opportunity sites within "focus areas" and along major corridors in the City that are most suitable for potential future housing growth. These areas include:

- Area north of the 405 Freeway
- SoBECA
- Harbor Boulevard corridor
- Placentia Avenue corridor
- West 19th Street corridor
- Mesa West Bluffs area/ southern portion of Newport Boulevard

Within these corridors and areas, housing opportunity sites were identified for purposes of establishing compliance with RHNA, based on certain criteria.

Housing Element Organization

The Draft Housing Element represents the City's policy program for the 2021-2029 6th Planning Period. The Draft Housing Element is comprised of the following Chapters:

- Chapter 1: The Introduction contains a summary of the content, organization and statutory considerations of the Housing Element;
- Chapter 2: Community Profile contains an analysis of the City's population, household and employment base, and the characteristics of the housing stock;
- Chapter 3: Housing Constraints, Resources, and Fair Housing examines governmental and non-governmental constraints on production, maintenance, and affordability of housing and provides a summary of housing resources, including sites identification and funding and financial considerations; and
- Chapter 4: Policy Plan addresses Costa Mesa's identified housing needs, including housing goals, policies, and programs.

- Appendices provide supplementary background resources including:
  - Appendix A - Review of Past Performance of 5th Cycle Programs
  - Appendix B - Summary of Adequate Sites Analysis
  - Appendix C - Summary of Outreach
  - Appendix D - Glossary of Housing Terms

Chapter 1 - Introduction

The Introduction covers the basics of Housing Element requirements and the related State requirements; includes a reference to all required sections of the Housing Element; and refers to the guiding principles that directed all chapters and the related data sources.

Chapter 2 - Community Profile

The Community Profile provides an analysis of the Costa Mesa population and housing stock for policy considerations within this Housing Element. The Costa Mesa community's housing needs are directly correlated to the demographic composition of the population and the conditions of existing housing within the City. The data analyzed in this Community Profile sets the baseline for the Housing Element goals, policies, and programs, which are uniquely adapted to fit the needs of Costa Mesa. The following tables include a few excerpts of the data and highlights specific characteristics of the Costa Mesa population, household types and income levels.

Table 2-4: Racial and Ethnic Composition, 2010-2018

Race/Ethnicity	2010	2015	2018	Percent Change 2010 to 2015	Percent Change 2015 to 2018
White	72.3%	66.7%	71.6%	-5.6%	4.9%
Black	1.2%	1.6%	1.9%	0.4%	0.3%
American Indian and Alaska Native	0.4%	0.3%	0.4%	-0.1%	0.1%
Asian	9%	9%	8.4%	0%	-0.6%
Native Hawaiian or Other Pacific Islander	0.6%	0.5%	0.7%	-0.1%	0.2%
Some Other Race	14.1%	18.2%	13%	4.1%	-5.2%
Two or More Races	2.4%	3.6%	4%	1.2%	0.4%
Hispanic or Latino	34.2%	35.7%	36.1%	1.5%	0.4%

Source: American Community Survey, 5-Year Estimates, 2010, 2015, and 2018.

Table 2-10: Changes in Household Types, 2010-2018

Household Types	2010	Percent	2015	Percent	2018	Percent
Married-couple Family Households	17,127	42.7%	17,039	41.7%	17,568	42.8%
Female Household, No Spouse Present	4,196	10.5%	4,746	11.6%	4,191	10.2%
Male Household, No Spouse Present	2,564	6.4%	2,371	5.8%	2,751	6.7%
Nonfamily Household	16,217	40.4%	16,752	41%	16,509	40.2%
Total Households	40,104	100%	40,908	100%	41,019	100%

Source: American Community Survey, 5-Year Estimates, 2010, 2015, 2018.

Table 2-12: Households by Income Category, 2020		
Income Category (% of Orange County's AMFI)	No. of Households	Percent
Extremely Low (30% AMFI or less)	6,610	16.3%
Very Low (31 to 50% AMFI)	5,220	12.9%
Low (51 to 80% AMFI)	7,325	18.1%
Moderate or Above (over 80% AMFI)	21,405	52.8%
Total	40,555	100%
Source: Department of Housing and Urban Development (HUD) Comprehensive Housing Affordability Strategy (CHAS), 2013-2017.		

For the full analysis of the population, income, household characteristics and housing needs, please refer to Chapter 2 of the Draft Housing Element.

Based on the data presented in Chapter 2, the City will need to consider the following findings in development of the housing programs and policies:

- The Costa Mesa population is showing aging trends - housing goals should consider the needs of seniors who may have less flexible income, need accessibility accommodations, or may seek assisted living options.
- Over a quarter of the Costa Mesa population identifies as Hispanic or Latino - housing needs should account for possible cultural needs such as larger or multigenerational housing units. Additionally, housing information should be made available in Spanish to assist in the location of appropriate housing within the community.
- Approximately 47 percent of the Costa Mesa population earn a lower income, indicating that production of and access to affordable housing (i.e. housing affordable to Costa Mesa households who earn 80% of the Orange County Area Median or AMI) and homeownership facilitation should be considered.
- Costa Mesa housing units experienced the lowest growth in the past decade in comparison to neighboring cities - the following section analyzes potential constraints, which may be playing a role in the slowing of residential development in Costa Mesa. If identified, housing goals should be considered which look to mitigate or eliminate those constraints.
- The majority of housing units in Costa Mesa were built over 30 years ago - households in older homes may benefit from assistance in renovating their homes and ensuring safe living environments with access to all utilities.

Chapter 3 - Housing Constraints, Resources and Fair Housing

This section focuses on the variety of factors that could affect the number, type, and affordability of housing and the rate of housing development in a community including governmental housing constraints. Governmental constraints in Costa Mesa may include land use controls, residential development standards, development and permitting fees, and permitting processes, amongst other constraints. Nongovernmental constraints may include the cost of land, construction costs, including materials and labor, availability of financing, and the local economic conditions. These factors could incentivize or create barriers for the maintenance and addition of housing in Costa Mesa, and predominantly affordable housing. This section also identifies Measure Y as a potential constraint to implementation of a compliant Housing Element and the development of housing projects in Costa Mesa. The measure requires significant capital investment while introducing uncertainty for

investments due to uncertain election results regardless of the merits of any particular project.

Chapter 4 - Housing Plan

The Housing Plan describes the specific goals, policies, and programs to assist City decision makers to achieve the long-term housing objectives set forth in the Costa Mesa Housing Element. This Plan identifies goals, policies, and programs aimed at providing additional housing opportunities, removing governmental constraints to affordable housing, improving the condition of existing housing, and providing equal housing opportunities for all residents. These goals, policies, and programs are drafted to further a more diverse, sustainable, and balanced community through implementation of strategies and programs that will result in economically and socially diversified housing choices while preserving the special character of Costa Mesa.

The following housing goals have been included in the Draft Housing Element Update:

- Housing Goal #1: Preservation, conservation, and enhancement of existing housing stock and residential neighborhoods within Costa Mesa.
- Housing Goal #2: Providing a range of housing choices for all social and economic segments of the community, including housing for persons with special needs.
- Housing Goal #3: Identification of adequate, suitable sites for residential use and development to meet the City's Regional Housing Needs Assessment (RHNA) at all income levels.
- Housing Goal #4: Existing and future housing opportunities open and available to all social and economic segments of the community without discrimination on the basis of race, color, religion, sex, sexual orientation, disability/medical conditions, national origin or ancestry, marital status, age, household composition or size, source of income, or any other arbitrary factors.

Each one of the housing goals are implemented through housing programs which are actions the City commits to taking to implement its housing plan within specific timeframes over the 8-year Housing Element planning period. Highlights of the housing programs include:

- Program 2A - Inclusionary Housing Ordinance
- Program 2D - Senior Housing Options
- Program 2E - Housing Options for Large Family Households
- Program 3B - Fairview Development Center
- Program 3C - Update the North Costa Mesa Specific Plan
- Program 3D - Update the City's Urban Plans and Overlays
- Program 3E - Promote the Development of Accessory Dwelling Units
- Program 3F - Motel Conversions/Efficiency Units and Co-Living Housing Types
- Program 3G - Measure Y
- Other programs related to evaluating the potential for future housing opportunities along the 17th Street corridor, Airport Industrial Area, and church-owned sites.

Appendix A - Review of Past Performances

This section is an evaluation of the 5th cycle's Policy Program and considers all current and existing programs and projects, as well as the most current effectiveness and appropriateness for the 2021-

2029 6th Cycle.

Appendix B - Site Analysis

The Housing Element is required to identify potential candidate housing sites by income category to meet the City's RHNA Allocation. The sites identified within the Draft Housing Element represent the City of Costa Mesa's ability to plan for housing at the designated income levels within the 6th housing cycle planning period (2021-2029). As described in this appendix, the development capacity for each site depends largely on its location within the City, a specific plan or urban plan area as well as known development factors. Where possible, property owners were consulted to help the City better understand potential future housing growth on candidate housing sites within the City.

The analysis within this appendix shows that the City has the capacity to meet 2021-2029 RHNA allocation through a variety of methods, including:

- Identification of development capacity on sites which either currently permit or would be rezoned to permit development of residential uses at or above 30 dwelling units per acre
- Identification of City owned properties suitable for the development of housing
- Future development of accessory dwelling units (ADUs)

Appendix C - Community Outreach

As part of the 6th Cycle Housing Element Update process, the City of Costa Mesa has conducted extensive public outreach activities beginning in fall 2020. These outreach efforts included virtual town hall Meetings, District Specific Workshops, Stakeholder Meetings, City Council and Planning Commission Study Sessions, Online Community Survey, digital media and engagement, and noticed Public Hearings. Project materials, including recordings from town hall and public meetings, notices, and draft public review documents are available on the City's website: www.costamesaca.gov/housing-element-update <http://www.costamesaca.gov/housing-element-update>.

Next Steps and Timeline

The study session is the final opportunity for City Council and Planning Commission feedback and revisions to the Public Review Draft Housing Element before staff submits the document to State HCD for review. The State has 60 days to provide comments on the Housing Element.

After staff receives the State's comments, the Housing Element will be modified to respond and then scheduled for a formal public hearing with the Planning Commission for a recommendation, and City Council afterward for final approval. These hearings are anticipated to occur in December 2021/January 2022. An approved Housing Element must be submitted to the State by February 11, 2022 (which is within 120 days of the statutory deadline of October 15, 2021).

ALTERNATIVES:

No Housing Element decisions are being made at the Study Session; therefore, alternatives are not necessary.

FISCAL REVIEW:

There are no fiscal impacts associated with the study session.

LEGAL REVIEW:

The City Attorney's Office has reviewed this report and approves it as to form.

CITY COUNCIL GOALS AND PRIORITIES:

Diversify, stabilize and increase housing to reflect community needs.

CONCLUSION:

Staff is seeking additional Planning Commission, City Council and public feedback prior to submission of the Draft Housing Element to the State Department of housing and Community Development for its review and concurrence.

7. Appendix B - Candidate Sites Analysis Overview
8. Appendix C - Summary of Community Engagement
9. Appendix D - Glossary of Housing Terms

September 13, 2021

City Council/ Planning Commission Joint Study Session

Attachment 2

During the Public Review period, a discrepancy in the anticipated density for candidate sites 206 and 207 was noticed. Prior to sending the Housing Element to HCD for review, the document will be revised to indicate a development yield on these sites at 90 dwelling units per acre, consistent with the other sites within the North Costa Mesa Specific Plan. Future development on these and all sites within the Housing Element will be subject to the applicable development standards within that area. 90 du/ac is an appropriate planning assumption for the Housing Element document.

APN	Unique ID	ADDRESS	OWNER	ZONING	COUNCIL DISTRICT	Specific Plans	Size (Ac)	Density	Vacant	Potential Consolidation	Used in 5th Cycle	Total Units	Very Low (20%)	Low (10%)	Moderate (20%)	Above Moderate (50%)	Notes
410-501-25	206	545 Anton Blvd	JKS-CMFV LLC	PDC	2	North Costa Mesa	0.74	90				66	13	6	13	34	Small commercial our parcel uses. Property owner has indicated interest in redeveloping the site for residential uses.
410-501-36	207	575 Anton Blvd	JKS-CMFV LLC	PDC	2	North Costa Mesza	1.82	90				164	32	16	32	64	Small commercial our parcel uses. Property owner has indicated interest in redeveloping the site for residential uses.

City Council/ Planning Commission Joint Study Session

Attachment 3 to Staff Report

A total of 13 written public comments have been received to date which include comments directly emailed to City Staff as well as submittal of the online survey form. The main topics included in the public comments are:

- The inclusion of the Chargers / The Hive site as a housing opportunity site
- The inclusion of local hire requirements
- New housing being visually attractive, and include greenbelts, sound walls, be located near jobs, transit stops and high-resource neighborhoods
- Increase densities to make housing projects more financially feasible and encourage mixed income higher density communities, as well as other housing options like co-housing and motel conversions.
- Consider whether Casa Bella Apartments should be listed as an at Risk affordable developments
- Consider how assisted living and group living are counted toward the City's housing need

Refer to the attached public comments.

Costa Mesa, CA 92626

Re: The Hive

Dear Mayor Stephens,

Thank you for taking the time last week to discuss Invesco's ownership and future growth plans for The Hive and The Press properties. As we discussed, Invesco ($85.8B in Assets Under Management as of June 30, 2021) has made a substantial investment in The Press and The Hive and view these investments as long term in nature. We are very pleased with having Anduril Industries locating their headquarters at The Press. Anduril anticipates over 2,000 employees at this location which is a very strong economic driver for the City of Costa Mesa and surrounding communities.

With respect to The Hive, we acquired this asset with the understanding that the Charger's tenancy would be temporary in nature. The Charger's practice field is not adequate in size to effectively run their practices. We understand that the Chargers are actively seeking alternative locations that are more suitable for their operations. While the Chargers have certain termination rights, there is the possibility that they may seek to leave earlier than anticipated. For this reason, we need to prepare to plan for that occurrence and plan for a multi-family project on the field site. We have had success in other such mixed-use properties throughout the country and would seek to replicate this at The Hive.

As we discussed, we are prepared to advance a Specific Plan on the site concurrent with the City's General Plan update. For us to justify investing the funds in this process, it is important we communicate to our investors that the field site has been included in the city's upcoming Housing Element Update. From a planning perspective we believe the site is ideal. In addition to being located directly adjacent to Anduril, the site in walking distance to a host of current and future employers in North Costa Mesa area.

We appreciate your support to include the site in the Housing Element Update and are hopeful that other Council and Planning Commission Members agree.

If you have any further questions, please contact me at 949-222-6390.

Sincerely,

Peter Cassiano

RE: City of Costa Mesa Draft 2021-2029 Housing Element Update

To Whom It May Concern,

On behalf of the Southwest Regional Council of Carpenters ("**Commenter**" or "**Southwest Carpenters**"), my Office is submitting these comments on the City of Costa Mesa's ("**City**" or "**Lead Agency**") draft 2021-2029 update to the City's General Plan Housing Element ("**Draft HEU**" or "**Project**").

The Southwest Carpenters is a labor union representing more than 50,000 union carpenters in six states and has a strong interest in well ordered land use planning and addressing the environmental impacts of development projects.

Individual members of the Southwest Carpenters live, work, and recreate in the City and surrounding communities and would be directly affected by the Project's environmental impacts.

Commenters expressly reserve the right to supplement these comments at or prior to hearings on the Project, and at any later hearings and proceedings related to this Project. Cal. Gov. Code § 65009(b); Cal. Pub. Res. Code § 21177(a); *Bakersfield Citizens for Local Control v. Bakersfield* (2004) 124 Cal. App. 4th 1184, 1199-1203; see *Galante Vineyards v. Monterey Water Dist.* (1997) 60 Cal. App. 4th 1109, 1121.

Commenters expressly reserve the right to supplement these comments at or prior to hearings on the Project, and at any later hearings and proceedings related to this Project. Cal. Gov. Code § 65009(b); Cal. Pub. Res. Code § 21177(a); *Bakersfield Citizens for Local Control v. Bakersfield* (2004) 124 Cal. App. 4th 1184, 1199-1203; see *Galante Vineyards v. Monterey Water Dist.* (1997) 60 Cal. App. 4th 1109, 1121.

Commenters incorporate by reference all comments raising issues regarding the EIR submitted prior to certification of the EIR for the Project. *Citizens for Clean Energy v City of Woodland* (2014) 225 Cal. App. 4th 173, 191 (finding that any party who has objected to the Project's environmental documentation may assert any issue timely raised by other parties).

Moreover, Commenters request that the Lead Agency provide notice for any and all notices referring or related to the Project issued under the California Environmental Quality Act ("**CEQA**"), Cal Public Resources Code ("**PRC**") § 21000 *et seq*, and the California Planning and Zoning Law ("**Planning and Zoning Law**"), Cal. Gov't Code §§ 65000–65010. California Public Resources Code Sections 21092.2, and 21167(f) and Government Code Section 65092 require agencies to mail such notices to any person who has filed a written request for them with the clerk of the agency's governing body.

The City should require the use of a local skilled and trained workforce to benefit the community's economic development and environment. The City should require the use of workers who have graduated from a Joint Labor Management apprenticeship training program approved by the State of California, or have at least as many hours of on-the-job experience in the applicable craft which would be required to graduate from such a state approved apprenticeship training program or who are registered apprentices in an apprenticeship training program approved by the State of California.

Community benefits such as local hire and skilled and trained workforce requirements can also be helpful to reduce environmental impacts and improve the positive economic impact of the Project. Local hire provisions requiring that a certain percentage of workers reside within 10 miles or less of the Project Site can reduce the length of vendor trips, reduce greenhouse gas emissions and providing localized economic benefits. Local hire provisions requiring that a certain percentage of workers reside within 10 miles or less of the Project Site can reduce the length of vendor trips, reduce greenhouse gas emissions and providing localized economic benefits. As environmental consultants Matt Hagemann and Paul E. Rosenfeld note:

> [A]ny local hire requirement that results in a decreased worker trip length from the default value has the potential to result in a reduction of construction-related GHG emissions, though the significance of the reduction would vary based on the location and urbanization level of the project site.

March 8, 2021 SWAPE Letter to Mitchell M. Tsai re Local Hire Requirements and Considerations for Greenhouse Gas Modeling.

Skilled and trained workforce requirements promote the development of skilled trades that yield sustainable economic development. As the California Workforce Development Board and the UC Berkeley Center for Labor Research and Education concluded:

> . . . labor should be considered an investment rather than a cost – and investments in growing, diversifying, and upskilling California's workforce can positively affect returns on climate mitigation efforts. In other words, well trained workers are key to delivering emissions reductions and moving California closer to its climate targets.[1]

Local skilled and trained workforce requirements and policies have significant environmental benefits since they improve an area's jobs-housing balance, decreasing the amount of and length of job commutes and their associated greenhouse gas emissions. Recently, on May 7, 2021, the South Coast Air Quality Management District found that that the "[u]se of a local state-certified apprenticeship program or a skilled and trained workforce with a local hire component" can result in air pollutant reductions.[2]

Cities are increasingly adopting local skilled and trained workforce policies and requirements into general plans and municipal codes. For example, the City of Hayward 2040 General Plan requires the City to "promote local hiring . . . to help achieve a more positive jobs-housing balance, and reduce regional commuting, gas consumption, and greenhouse gas emissions."[3]

[2] South Coast Air Quality Management District (May 7, 2021) Certify Final Environmental Assessment and Adopt Proposed Rule 2305 – Warehouse Indirect Source Rule – Warehouse Actions and Investments to Reduce Emissions Program, and Proposed Rule 316 – Fees for Rule 2305, Submit Rule 2305 for Inclusion Into the SIP, and Approve Supporting Budget Actions, *available at* http://www.aqmd.gov/docs/default-source/Agendas/Governing-Board/2021/2021-May7-027.pdf?sfvrsn=10.

[3] City of Hayward (2014) Hayward 2040 General Plan Policy Document at p. 3-99, *available at* https://www.hayward-ca.gov/sites/default/files/documents/General_Plan_FINAL.pdf.

In fact, the City of Hayward has gone as far as to adopt a Skilled Labor Force policy into its Downtown Specific Plan and municipal code, requiring developments in its Downtown area to requiring that the City "[c]ontribute to the stabilization of regional construction markets by spurring applicants of housing and nonresidential developments to require contractors to utilize apprentices from state-approved, joint labor-management training programs, . . ."[4] In addition, the City of Hayward requires all projects 30,000 square feet or larger to "utilize apprentices from state-approved, joint labor-management training programs."[5]

Locating jobs closer to residential areas can have significant environmental benefits. As the California Planning Roundtable noted in 2008:

> People who live and work in the same jurisdiction would be more likely to take transit, walk, or bicycle to work than residents of less balanced communities and their vehicle trips would be shorter. Benefits would include potential reductions in both vehicle miles traveled and vehicle hours traveled.[6]

In addition, local hire mandates as well as skill training are critical facets of a strategy to reduce vehicle miles traveled. As planning experts Robert Cervero and Michael Duncan noted, simply placing jobs near housing stock is insufficient to achieve VMT reductions since the skill requirements of available local jobs must be matched to those held by local residents.[7] Some municipalities have tied local hire and skilled and trained workforce policies to local development permits to address transportation issues. As Cervero and Duncan note:

> In nearly built-out Berkeley, CA, the approach to balancing jobs and housing is to create local jobs rather than to develop new housing." The city's First Source program encourages businesses to hire local residents,

[7] Cervero, Robert and Duncan, Michael (2006) Which Reduces Vehicle Travel More: Jobs-Housing Balance or Retail-Housing Mixing? Journal of the American Planning Association 72 (4), 475-490, 482, *available at* http://reconnectingamerica.org/assets/Uploads/UTCT-825.pdf.

> especially for entry- and intermediate-level jobs, and sponsors vocational training to ensure residents are employment-ready. While the program is voluntary, some 300 businesses have used it to date, placing more than 3,000 city residents in local jobs since it was launched in 1986. When needed, these carrots are matched by sticks, since the city is not shy about negotiating corporate participation in First Source as a condition of approval for development permits.

The City should consider utilizing skilled and trained workforce policies and requirements to benefit the local area economically and mitigate greenhouse gas, air quality and transportation impacts.

I. CONCLUSION

Commenters request that the City consider the aforementioned issues raised. Please contact my Office if you have any questions or concerns.

Sincerely,

Mitchell M. Tsai

Subject: Local Hire Requirements and Considerations for Greenhouse Gas Modeling

Dear Mr. Tsai,

Soil Water Air Protection Enterprise ("SWAPE") is pleased to provide the following draft technical report explaining the significance of worker trips required for construction of land use development projects with respect to the estimation of greenhouse gas ("GHG") emissions. The report will also discuss the potential for local hire requirements to reduce the length of worker trips, and consequently, reduced or mitigate the potential GHG impacts.

Worker Trips and Greenhouse Gas Calculations

The California Emissions Estimator Model ("CalEEMod") is a "statewide land use emissions computer model designed to provide a uniform platform for government agencies, land use planners, and environmental professionals to quantify potential criteria pollutant and greenhouse gas (GHG) emissions associated with both construction and operations from a variety of land use projects."[1] CalEEMod quantifies construction-related emissions associated with land use projects resulting from off-road construction equipment; on-road mobile equipment associated with workers, vendors, and hauling; fugitive dust associated with grading, demolition, truck loading, and on-road vehicles traveling along paved and unpaved roads; and architectural coating activities; and paving.[2]

The number, length, and vehicle class of worker trips are utilized by CalEEMod to calculate emissions associated with the on-road vehicle trips required to transport workers to and from the Project site during construction.[3]

[1] "California Emissions Estimator Model." CAPCOA, 2017, *available at:* http://www.aqmd.gov/caleemod/home.
[2] "California Emissions Estimator Model." CAPCOA, 2017, *available at:* http://www.aqmd.gov/caleemod/home.
[3] "CalEEMod User's Guide." CAPCOA, November 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/01_user-39-s-guide2016-3-2_15november2017.pdf?sfvrsn=4, p. 34.

Specifically, the number and length of vehicle trips is utilized to estimate the vehicle miles travelled ("VMT") associated with construction. Then, utilizing vehicle-class specific EMFAC 2014 emission factors, CalEEMod calculates the vehicle exhaust, evaporative, and dust emissions resulting from construction-related VMT, including personal vehicles for worker commuting.[4]

Specifically, in order to calculate VMT, CalEEMod multiplies the average daily trip rate by the average overall trip length (see excerpt below):

> "$VMT_d = \Sigma(\text{Average Daily Trip Rate}_i * \text{Average Overall Trip Length}_i)_n$
>
> Where:
>
> n = Number of land uses being modeled."[5]

Furthermore, to calculate the on-road emissions associated with worker trips, CalEEMod utilizes the following equation (see excerpt below):

> "$\text{Emissions}_{pollutant} = VMT * EF_{running,pollutant}$
>
> Where:
>
> $\text{Emissions}_{pollutant}$ = emissions from vehicle running for each pollutant
>
> VMT = vehicle miles traveled
>
> $EF_{running,pollutant}$ = emission factor for running emissions."[6]

Thus, there is a direct relationship between trip length and VMT, as well as a direct relationship between VMT and vehicle running emissions. In other words, when the trip length is increased, the VMT and vehicle running emissions increase as a result. Thus, vehicle running emissions can be reduced by decreasing the average overall trip length, by way of a local hire requirement or otherwise.

Default Worker Trip Parameters and Potential Local Hire Requirements

As previously discussed, the number, length, and vehicle class of worker trips are utilized by CalEEMod to calculate emissions associated with the on-road vehicle trips required to transport workers to and from the Project site during construction.[7] In order to understand how local hire requirements and associated worker trip length reductions impact GHG emissions calculations, it is important to consider the CalEEMod default worker trip parameters. CalEEMod provides recommended default values based on site-specific information, such as land use type, meteorological data, total lot acreage, project type and typical equipment associated with project type. If more specific project information is known, the user can change the default values and input project-specific values, but the California Environmental Quality Act ("CEQA") requires that such changes be justified by substantial evidence.[8] The default number of construction-related worker trips is calculated by multiplying the

[4] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 14-15.
[5] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 23.
[6] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 15.
[7] "CalEEMod User's Guide." CAPCOA, November 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/01_user-39-s-guide2016-3-2_15november2017.pdf?sfvrsn=4, p. 34.
[8] CalEEMod User Guide, *available at:* http://www.caleemod.com/, p. 1, 9.

number of pieces of equipment for all phases by 1.25, with the exception of worker trips required for the building construction and architectural coating phases.[9] Furthermore, the worker trip vehicle class is a 50/25/25 percent mix of light duty autos, light duty truck class 1 and light duty truck class 2, respectively."[10] Finally, the default worker trip length is consistent with the length of the operational home-to-work vehicle trips.[11] The operational home-to-work vehicle trip lengths are:

> "[B]ased on the *location* and *urbanization* selected on the project characteristic screen. These values were *supplied by the air districts or use a default average for the state*. Each district (or county) also assigns trip lengths for urban and rural settings" (emphasis added). [12]

Thus, the default worker trip length is based on the location and urbanization level selected by the User when modeling emissions. The below table shows the CalEEMod default rural and urban worker trip lengths by air basin (see excerpt below and Attachment A).[13]

Worker Trip Length by Air Basin		
Air Basin	**Rural (miles)**	**Urban (miles)**
Great Basin Valleys	16.8	10.8
Lake County	16.8	10.8
Lake Tahoe	16.8	10.8
Mojave Desert	16.8	10.8
Mountain Counties	16.8	10.8
North Central Coast	17.1	12.3
North Coast	16.8	10.8
Northeast Plateau	16.8	10.8
Sacramento Valley	16.8	10.8
Salton Sea	14.6	11
San Diego	16.8	10.8
San Francisco Bay Area	10.8	10.8
San Joaquin Valley	16.8	10.8
South Central Coast	16.8	10.8
South Coast	19.8	14.7
Average	**16.47**	**11.17**
Minimum	**10.80**	**10.80**
Maximum	**19.80**	**14.70**
Range	**9.00**	**3.90**

[12] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 21.
[13] "Appendix D Default Data Tables." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/05_appendix-d2016-3-2.pdf?sfvrsn=4, p. D-84 – D-86.

As demonstrated above, default rural worker trip lengths for air basins in California vary from 10.8- to 19.8-miles, with an average of 16.47 miles. Furthermore, default urban worker trip lengths vary from 10.8- to 14.7-miles, with an average of 11.17 miles. Thus, while default worker trip lengths vary by location, default urban worker trip lengths tend to be shorter in length. Based on these trends evident in the CalEEMod default worker trip lengths, we can reasonably assume that the efficacy of a local hire requirement is especially dependent upon the urbanization of the project site, as well as the project location.

Practical Application of a Local Hire Requirement and Associated Impact

To provide an example of the potential impact of a local hire provision on construction-related GHG emissions, we estimated the significance of a local hire provision for the Village South Specific Plan ("Project") located in the City of Claremont ("City"). The Project proposed to construct 1,000 residential units, 100,000-SF of retail space, 45,000-SF of office space, as well as a 50-room hotel, on the 24-acre site. The Project location is classified as Urban and lies within the Los Angeles-South Coast County. As a result, the Project has a default worker trip length of 14.7 miles.[14] In an effort to evaluate the potential for a local hire provision to reduce the Project's construction-related GHG emissions, we prepared an updated model, reducing all worker trip lengths to 10 miles (see Attachment B). Our analysis estimates that if a local hire provision with a 10-mile radius were to be implemented, the GHG emissions associated with Project construction would decrease by approximately 17% (see table below and Attachment C).

Local Hire Provision Net Change	
Without Local Hire Provision	
Total Construction GHG Emissions (MT CO_2e)	3,623
Amortized Construction GHG Emissions (MT CO_2e/year)	120.77
With Local Hire Provision	
Total Construction GHG Emissions (MT CO2e)	3,024
Amortized Construction GHG Emissions (MT CO_2e/year)	100.80
% Decrease in Construction-related GHG Emissions	***17%***

As demonstrated above, by implementing a local hire provision requiring 10 mile worker trip lengths, the Project could reduce potential GHG emissions associated with construction worker trips. More broadly, any local hire requirement that results in a decreased worker trip length from the default value has the potential to result in a reduction of construction-related GHG emissions, though the significance of the reduction would vary based on the location and urbanization level of the project site.

This serves as an example of the potential impacts of local hire requirements on estimated project-level GHG emissions, though it does not indicate that local hire requirements would result in reduced construction-related GHG emission for all projects. As previously described, the significance of a local hire requirement depends on the worker trip length enforced and the default worker trip length for the project's urbanization level and location.

[14] "Appendix D Default Data Tables." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/05_appendix-d2016-3-2.pdf?sfvrsn=4, p. D-85.

Disclaimer

SWAPE has received limited discovery. Chemical Fate and Transport & Air Dispersion Modeling

Principal Environmental Chemist

Risk Assessment & Remediation Specialist

Education

Ph.D. Soil Chemistry, University of Washington, 1999. Dissertation on volatile organic compound filtration.

M.S. Environmental Science, U.C. Berkeley, 1995. Thesis on organic waste economics.

B.A. Environmental Studies, U.C. Santa Barbara, 1991. Thesis on wastewater treatment.

Professional Experience

Dr. Rosenfeld has over 25 years' experience conducting environmental investigations and risk assessments for evaluating impacts to human health, property, and ecological receptors. His expertise focuses on the fate and transport of environmental contaminants, human health risk, exposure assessment, and ecological restoration. Dr. Rosenfeld has evaluated and modeled emissions from unconventional oil drilling operations, oil spills, landfills, boilers and incinerators, process stacks, storage tanks, confined animal feeding operations, and many other industrial and agricultural sources. His project experience ranges from monitoring and modeling of pollution sources to evaluating impacts of pollution on workers at industrial facilities and residents in surrounding communities.

Dr. Rosenfeld has investigated and designed remediation programs and risk assessments for contaminated sites containing lead, heavy metals, mold, bacteria, particulate matter, petroleum hydrocarbons, chlorinated solvents, pesticides, radioactive waste, dioxins and furans, semi- and volatile organic compounds, PCBs, PAHs, perchlorate, asbestos, per- and poly-fluoroalkyl substances (PFOA/PFOS), unusual polymers, fuel oxygenates (MTBE), among other pollutants. Dr. Rosenfeld also has experience evaluating greenhouse gas emissions from various projects and is an expert on the assessment of odors from industrial and agricultural sites, as well as the evaluation of odor nuisance impacts and technologies for abatement of odorous emissions. As a principal scientist at SWAPE, Dr. Rosenfeld directs air dispersion modeling and exposure assessments. He has served as an expert witness and testified about pollution sources causing nuisance and/or personal injury at dozens of sites and has testified as an expert witness on more than ten cases involving exposure to air contaminants from industrial sources.

Professional History:

Paul Rosenfeld, Ph.D. and James Clark Ph.D. (February 20-21, 2003) Understanding Historical Use, Chemical Properties, Toxicity and Regulatory Guidance of 1,4 Dioxane. *National Groundwater Association. Southwest Focus Conference. Water Supply and Emerging Contaminants*.. Lecture conducted from Hyatt Regency Phoenix Arizona.

Paul Rosenfeld, Ph.D. (February 6-7, 2003). Underground Storage Tank Litigation and Remediation. *California CUPA Forum*. Lecture conducted from Marriott Hotel, Anaheim California.

Paul Rosenfeld, Ph.D. (October 23, 2002) Underground Storage Tank Litigation and Remediation. *EPA Underground Storage Tank Roundtable*. Lecture conducted from Sacramento California.

Rosenfeld, P.E. and Suffet, M. (October 7- 10, 2002). Understanding Odor from Compost, *Wastewater and Industrial Processes. Sixth Annual Symposium On Off Flavors in the Aquatic Environment. International Water Association*. Lecture conducted from Barcelona Spain.

Rosenfeld, P.E. and Suffet, M. (October 7- 10, 2002). Using High Carbon Wood Ash to Control Compost Odor. *Sixth Annual Symposium On Off Flavors in the Aquatic Environment. International Water Association*. Lecture conducted from Barcelona Spain.

Rosenfeld, P.E. and Grey, M. A. (September 22-24, 2002). Biocycle Composting For Coastal Sage Restoration. *Northwest Biosolids Management Association*. Lecture conducted from Vancouver Washington..

Rosenfeld, P.E. and Grey, M. A. (November 11-14, 2002). Using High-Carbon Wood Ash to Control Odor at a Green Materials Composting Facility. *Soil Science Society Annual Conferenc*e. Lecture conducted from Indianapolis, Maryland.

Rosenfeld. P.E. (September 16, 2000). Two stage biofilter for biosolids composting odor control. *Water Environment Federation.* Lecture conducted from Anaheim California.

Rosenfeld. P.E. (October 16, 2000). Wood ash and biofilter control of compost odor. *Biofest.* Lecture conducted from Ocean Shores, California.

Rosenfeld, P.E. (2000). Bioremediation Using Organic Soil Amendments. *California Resource Recovery Association*. Lecture conducted from Sacramento California.

Rosenfeld, P.E., C.L. Henry, R. Harrison. (1998). Oat and Grass Seed Germination and Nitrogen and Sulfur Emissions Following Biosolids Incorporation With High-Carbon Wood-Ash. *Water Environment Federation 12th Annual Residuals and Biosolids Management Conference Proceedings*. Lecture conducted from Bellevue Washington.

Rosenfeld, P.E., and C.L. Henry. (1999). An evaluation of ash incorporation with biosolids for odor reduction. *Soil Science Society of America*. Lecture conducted from Salt Lake City Utah.

Rosenfeld, P.E., C.L. Henry, R. Harrison. (1998). Comparison of Microbial Activity and Odor Emissions from Three Different Biosolids Applied to Forest Soil. *Brown and Caldwell.* Lecture conducted from Seattle Washington.

Rosenfeld, P.E., C.L. Henry. (1998). Characterization, Quantification, and Control of Odor Emissions from Biosolids Application To Forest Soil. *Biofest.* Lecture conducted from Lake Chelan, Washington.

Rosenfeld, P.E, C.L. Henry, R. Harrison. (1998). Oat and Grass Seed Germination and Nitrogen and Sulfur Emissions Following Biosolids Incorporation With High-Carbon Wood-Ash. Water Environment Federation 12th Annual Residuals and Biosolids Management Conference Proceedings. Lecture conducted from Bellevue Washington.

Rosenfeld, P.E., C.L. Henry, R. B. Harrison, and R. Dills. (1997). Comparison of Odor Emissions From Three Different Biosolids Applied to Forest Soil. *Soil Science Society of America*. Lecture conducted from Anaheim California.

Teaching Experience:

UCLA Department of Environmental Health (Summer 2003 through 20010) Taught Environmental Health Science 100 to students, including undergrad, medical doctors, public health professionals and nurses. Course focused on the health effects of environmental contaminants.

National Ground Water Association, Successful Remediation Technologies. Custom Course in Sante Fe, New Mexico. May 21, 2002. Focused on fate and transport of fuel contaminants associated with underground storage tanks.

National Ground Water Association; Successful Remediation Technologies Course in Chicago Illinois. April 1, 2002. Focused on fate and transport of contaminants associated with Superfund and RCRA sites.

California Integrated Waste Management Board, April and May, 2001. Alternative Landfill Caps Seminar in San Diego, Ventura, and San Francisco. Focused on both prescriptive and innovative landfill cover design.

UCLA Department of Environmental Engineering, February 5, 2002. Seminar on Successful Remediation Technologies focusing on Groundwater Remediation.

University Of Washington, Soil Science Program, Teaching Assistant for several courses including: Soil Chemistry, Organic Soil Amendments, and Soil Stability.

U.C. Berkeley, Environmental Science Program Teaching Assistant for Environmental Science 10.

Academic Grants Awarded:

California Integrated Waste Management Board. $41,000 grant awarded to UCLA Institute of the Environment. Goal: To investigate effect of high carbon wood ash on volatile organic emissions from compost. 2001.

Synagro Technologies, Corona California: $10,000 grant awarded to San Diego State University.
Goal: investigate effect of biosolids for restoration and remediation of degraded coastal sage soils. 2000.

King County, Department of Research and Technology, Washington State. $100,000 grant awarded to University of Washington: Goal: To investigate odor emissions from biosolids application and the effect of polymers and ash on VOC emissions. 1998.

Northwest Biosolids Management Association, Washington State. $20,000 grant awarded to investigate effect of polymers and ash on VOC emissions from biosolids. 1997.

James River Corporation, Oregon: $10,000 grant was awarded to investigate the success of genetically engineered Poplar trees with resistance to round-up. 1996.

United State Forest Service, Tahoe National Forest: $15,000 grant was awarded to investigating fire ecology of the Tahoe National Forest. 1995.

Kellogg Foundation, Washington D.C. $500 grant was awarded to construct a large anaerobic digester on St. Kitts in West Indies. 1993

Deposition and/or Trial Testimony:

In the United States District Court For The District of New Jersey
Duarte et al, *Plaintiffs,* vs. United States Metals Refining Company et. al. *Defendant.*
Case No.: 2:17-cv-01624-ES-SCM
Rosenfeld Deposition. 6-7-2019

In the United States District Court of Southern District of Texas Galveston Division
M/T Carla Maersk, *Plaintiffs,* vs. Conti 168., Schiffahrts-GMBH & Co. Bulker KG MS "Conti Perdido" *Defendant.*
Case No.: 3:15-CV-00106 consolidated with 3:15-CV-00237
Rosenfeld Deposition. 5-9-2019

In The Superior Court of the State of California In And For The County Of Los Angeles – Santa Monica
Carole-Taddeo-Bates et al., vs. Ifran Khan et al., Defendants
Case No.: No. BC615636
Rosenfeld Deposition, 1-26-2019

In The Superior Court of the State of California In And For The County Of Los Angeles – Santa Monica
The San Gabriel Valley Council of Governments et al. vs El Adobe Apts. Inc. et al., Defendants
Case No.: No. BC646857
Rosenfeld Deposition, 10-6-2018; Trial 3-7-19

In United States District Court For The District of Colorado
Bells et al. Plaintiff vs. The 3M Company et al., Defendants
Case: No 1:16-cv-02531-RBJ
Rosenfeld Deposition, 3-15-2018 and 4-3-2018

In The District Court Of Regan County, Texas, 112th Judicial District
Phillip Bales et al., Plaintiff vs. Dow Agrosciences, LLC, et al., Defendants
Cause No 1923
Rosenfeld Deposition, 11-17-2017

In The Superior Court of the State of California In And For The County Of Contra Costa
Simons et al., Plaintiffs vs. Chevron Corporation, et al., Defendants
Cause No C12-01481
Rosenfeld Deposition, 11-20-2017

In The Circuit Court Of The Twentieth Judicial Circuit, St Clair County, Illinois
Martha Custer et al., Plaintiff vs. Cerro Flow Products, Inc., Defendants
Case No.: No. 0i9-L-2295
Rosenfeld Deposition, 8-23-2017

In The Superior Court of the State of California, For The County of Los Angeles
Warrn Gilbert and Penny Gilber, Plaintiff vs. BMW of North America LLC
Case No.: LC102019 (c/w BC582154)
Rosenfeld Deposition, 8-16-2017, Trail 8-28-2018

In the Northern District Court of Mississippi, Greenville Division
Brenda J. Cooper, et al., *Plaintiffs,* vs. Meritor Inc., et al., *Defendants*
Case Number: 4:16-cv-52-DMB-JVM
Rosenfeld Deposition: July 2017

In The Superior Court of the State of Washington, County of Snohomish
Michael Davis and Julie Davis et al., Plaintiff vs. Cedar Grove Composting Inc., Defendants
Case No.: No. 13-2-03987-5
Rosenfeld Deposition, February 2017
Trial, March 2017

In The Superior Court of the State of California, County of Alameda
Charles Spain., Plaintiff vs. Thermo Fisher Scientific, et al., Defendants
Case No.: RG14711115
Rosenfeld Deposition, September 2015

In The Iowa District Court In And For Poweshiek County
Russell D. Winburn, et al., Plaintiffs vs. Doug Hoksbergen, et al., Defendants
Case No.: LALA002187
Rosenfeld Deposition, August 2015

In The Iowa District Court For Wapello County
Jerry Dovico, et al., Plaintiffs vs. Valley View Sine LLC, et al., Defendants
Law No,: LALA105144 - Division A
Rosenfeld Deposition, August 2015

In The Iowa District Court For Wapello County
Doug Pauls, et al.,, et al., Plaintiffs vs. Richard Warren, et al., Defendants
Law No,: LALA105144 - Division A
Rosenfeld Deposition, August 2015

In The Circuit Court of Ohio County, West Virginia
Robert Andrews, et al. v. Antero, et al.
Civil Action N0. 14-C-30000
Rosenfeld Deposition, June 2015

In The Third Judicial District County of Dona Ana, New Mexico
Betty Gonzalez, et al. Plaintiffs vs. Del Oro Dairy, Del Oro Real Estate LLC, Jerry Settles and Deward DeRuyter, Defendants
Rosenfeld Deposition: July 2015

In The Iowa District Court For Muscatine County
Laurie Freeman et. al. Plaintiffs vs. Grain Processing Corporation, Defendant
Case No 4980
Rosenfeld Deposition: May 2015

In the Circuit Court of the 17th Judicial Circuit, in and For Broward County, Florida
Walter Hinton, et. al. Plaintiff, vs. City of Fort Lauderdale, Florida, a Municipality, Defendant.
Case Number CACE07030358 (26)
Rosenfeld Deposition: December 2014

In the United States District Court Western District of Oklahoma
Tommy McCarty, et al., Plaintiffs, v. Oklahoma City Landfill, LLC d/b/a Southeast Oklahoma City Landfill, et al. Defendants.
Case No. 5:12-cv-01152-C
Rosenfeld Deposition: July 2014

In the County Court of Dallas County Texas
Lisa Parr et al, *Plaintiff*, vs. Aruba et al, *Defendant.*
Case Number cc-11-01650-E
Rosenfeld Deposition: March and September 2013
Rosenfeld Trial: April 2014

In the Court of Common Pleas of Tuscarawas County Ohio
John Michael Abicht, et al., *Plaintiffs,* vs. Republic Services, Inc., et al., *Defendants*
Case Number: 2008 CT 10 0741 (Cons. w/ 2009 CV 10 0987)
Rosenfeld Deposition: October 2012

In the United States District Court of Southern District of Texas Galveston Division
Kyle Cannon, Eugene Donovan, Genaro Ramirez, Carol Sassler, and Harvey Walton, each Individually and on behalf of those similarly situated, *Plaintiffs,* vs. BP Products North America, Inc., *Defendant.*
Case 3:10-cv-00622
Rosenfeld Deposition: February 2012
Rosenfeld Trial: April 2013

In the Circuit Court of Baltimore County Maryland
Philip E. Cvach, II et al., *Plaintiffs* vs. Two Farms, Inc. d/b/a Royal Farms, Defendants
Case Number: 03-C-12-012487 OT
Rosenfeld Deposition: September 2013

SWAPE Technical Consultation, Data Analysis and Litigation Support for the Environment

1640 5th St.., Suite 204 Santa
Santa Monica, California 90401

Email: mhagemann@swape.com

Matthew F. Hagemann, P.G., C.Hg., QSD, QSP

Geologic and Hydrogeologic Characterization
Industrial Stormwater Compliance
Investigation and Remediation Strategies
Litigation Support and Testifying Expert
CEQA Review

Education:

M.S. Degree, Geology, California State University Los Angeles, Los Angeles, CA, 1984.
B.A. Degree, Geology, Humboldt State University, Arcata, CA, 1982.

Professional Certifications:

California Professional Geologist
California Certified Hydrogeologist
Qualified SWPPP Developer and Practitioner

Professional Experience:

Matt has 25 years of experience in environmental policy, assessment and remediation. He spent nine years with the U.S. EPA in the RCRA and Superfund programs and served as EPA's Senior Science Policy Advisor in the Western Regional Office where he identified emerging threats to groundwater from perchlorate and MTBE. While with EPA, Matt also served as a Senior Hydrogeologist in the oversight of the assessment of seven major military facilities undergoing base closure. He led numerous enforcement actions under provisions of the Resource Conservation and Recovery Act (RCRA) while also working with permit holders to improve hydrogeologic characterization and water quality monitoring.

Matt has worked closely with U.S. EPA legal counsel and the technical staff of several states in the application and enforcement of RCRA, Safe Drinking Water Act and Clean Water Act regulations. Matt has trained the technical staff in the States of California, Hawaii, Nevada, Arizona and the Territory of Guam in the conduct of investigations, groundwater fundamentals, and sampling techniques.

Positions Matt has held include:

- Founding Partner, Soil/Water/Air Protection Enterprise (SWAPE) (2003 – present);
- Geology Instructor, Golden West College, 2010 – 2014;
- Senior Environmental Analyst, Komex H2O Science, Inc. (2000 -- 2003);

- Executive Director, Orange Coast Watch (2001 – 2004);
- Senior Science Policy Advisor and Hydrogeologist, U.S. Environmental Protection Agency (1989–1998);
- Hydrogeologist, National Park Service, Water Resources Division (1998 – 2000);
- Adjunct Faculty Member, San Francisco State University, Department of Geosciences (1993 – 1998);
- Instructor, College of Marin, Department of Science (1990 – 1995);
- Geologist, U.S. Forest Service (1986 – 1998); and
- Geologist, Dames & Moore (1984 – 1986).

Senior Regulatory and Litigation Support Analyst:

With SWAPE, Matt's responsibilities have included:

- Lead analyst and testifying expert in the review of over 100 environmental impact reports since 2003 under CEQA that identify significant issues with regard to hazardous waste, water resources, water quality, air quality, Valley Fever, greenhouse gas emissions, and geologic hazards. Make recommendations for additional mitigation measures to lead agencies at the local and county level to include additional characterization of health risks and implementation of protective measures to reduce worker exposure to hazards from toxins and Valley Fever.
- Stormwater analysis, sampling and best management practice evaluation at industrial facilities.
- Manager of a project to provide technical assistance to a community adjacent to a former Naval shipyard under a grant from the U.S. EPA.
- Technical assistance and litigation support for vapor intrusion concerns.
- Lead analyst and testifying expert in the review of environmental issues in license applications for large solar power plants before the California Energy Commission.
- Manager of a project to evaluate numerous formerly used military sites in the western U.S.
- Manager of a comprehensive evaluation of potential sources of perchlorate contamination in Southern California drinking water wells.
- Manager and designated expert for litigation support under provisions of Proposition 65 in the review of releases of gasoline to sources drinking water at major refineries and hundreds of gas stations throughout California.
- Expert witness on two cases involving MTBE litigation.
- Expert witness and litigation support on the impact of air toxins and hazards at a school.
- Expert witness in litigation at a former plywood plant.

With Komex H2O Science Inc., Matt's duties included the following:

- Senior author of a report on the extent of perchlorate contamination that was used in testimony by the former U.S. EPA Administrator and General Counsel.
- Senior researcher in the development of a comprehensive, electronically interactive chronology of MTBE use, research, and regulation.
- Senior researcher in the development of a comprehensive, electronically interactive chronology of perchlorate use, research, and regulation.
- Senior researcher in a study that estimates nationwide costs for MTBE remediation and drinking water treatment, results of which were published in newspapers nationwide and in testimony against provisions of an energy bill that would limit liability for oil companies.
- Research to support litigation to restore drinking water supplies that have been contaminated by MTBE in California and New York.

- Expert witness testimony in a case of oil production-related contamination in Mississippi.
- Lead author for a multi-volume remedial investigation report for an operating school in Los Angeles that met strict regulatory requirements and rigorous deadlines.

- Development of strategic approaches for cleanup of contaminated sites in consultation with clients and regulators.

Executive Director:

As Executive Director with Orange Coast Watch, Matt led efforts to restore water quality at Orange County beaches from multiple sources of contamination including urban runoff and the discharge of wastewater. In reporting to a Board of Directors that included representatives from leading Orange County universities and businesses, Matt prepared issue papers in the areas of treatment and disinfection of wastewater and control of the discharge of grease to sewer systems. Matt actively participated in the development of countywide water quality permits for the control of urban runoff and permits for the discharge of wastewater. Matt worked with other nonprofits to protect and restore water quality, including Surfrider, Natural Resources Defense Council and Orange County CoastKeeper as well as with business institutions including the Orange County Business Council.

Hydrogeology:

As a Senior Hydrogeologist with the U.S. Environmental Protection Agency, Matt led investigations to characterize and cleanup closing military bases, including Mare Island Naval Shipyard, Hunters Point Naval Shipyard, Treasure Island Naval Station, Alameda Naval Station, Moffett Field, Mather Army Airfield, and Sacramento Army Depot. Specific activities were as follows:

- Led efforts to model groundwater flow and contaminant transport, ensured adequacy of monitoring networks, and assessed cleanup alternatives for contaminated sediment, soil, and groundwater.
- Initiated a regional program for evaluation of groundwater sampling practices and laboratory analysis at military bases.
- Identified emerging issues, wrote technical guidance, and assisted in policy and regulation development through work on four national U.S. EPA workgroups, including the Superfund Groundwater Technical Forum and the Federal Facilities Forum.

At the request of the State of Hawaii, Matt developed a methodology to determine the vulnerability of groundwater to contamination on the islands of Maui and Oahu. He used analytical models and a GIS to show zones of vulnerability, and the results were adopted and published by the State of Hawaii and County of Maui.

As a hydrogeologist with the EPA Groundwater Protection Section, Matt worked with provisions of the Safe Drinking Water Act and NEPA to prevent drinking water contamination. Specific activities included the following:

- Received an EPA Bronze Medal for his contribution to the development of national guidance for the protection of drinking water.
- Managed the Sole Source Aquifer Program and protected the drinking water of two communities through designation under the Safe Drinking Water Act. He prepared geologic reports, conducted public hearings, and responded to public comments from residents who were very concerned about the impact of designation.

- Reviewed a number of Environmental Impact Statements for planned major developments, including large hazardous and solid waste disposal facilities, mine reclamation, and water transfer.

Matt served as a hydrogeologist with the RCRA Hazardous Waste program. Duties were as follows:

- Supervised the hydrogeologic investigation of hazardous waste sites to determine compliance with Subtitle C requirements.
- Reviewed and wrote "part B" permits for the disposal of hazardous waste.
- Conducted RCRA Corrective Action investigations of waste sites and led inspections that formed the basis for significant enforcement actions that were developed in close coordination with U.S. EPA legal counsel.
- Wrote contract specifications and supervised contractor's investigations of waste sites.

With the National Park Service, Matt directed service-wide investigations of contaminant sources to prevent degradation of water quality, including the following tasks:

- Applied pertinent laws and regulations including CERCLA, RCRA, NEPA, NRDA, and the Clean Water Act to control military, mining, and landfill contaminants.
- Conducted watershed-scale investigations of contaminants at parks, including Yellowstone and Olympic National Park.
- Identified high-levels of perchlorate in soil adjacent to a national park in New Mexico and advised park superintendent on appropriate response actions under CERCLA.
- Served as a Park Service representative on the Interagency Perchlorate Steering Committee, a national workgroup.
- Developed a program to conduct environmental compliance audits of all National Parks while serving on a national workgroup.
- Co-authored two papers on the potential for water contamination from the operation of personal watercraft and snowmobiles, these papers serving as the basis for the development of nation-wide policy on the use of these vehicles in National Parks.
- Contributed to the Federal Multi-Agency Source Water Agreement under the Clean Water Action Plan.

Policy:

Served senior management as the Senior Science Policy Advisor with the U.S. Environmental Protection Agency, Region 9. Activities included the following:

- Advised the Regional Administrator and senior management on emerging issues such as the potential for the gasoline additive MTBE and ammonium perchlorate to contaminate drinking water supplies.
- Shaped EPA's national response to these threats by serving on workgroups and by contributing to guidance, including the Office of Research and Development publication, Oxygenates in Water: Critical Information and Research Needs.
- Improved the technical training of EPA's scientific and engineering staff.
- Earned an EPA Bronze Medal for representing the region's 300 scientists and engineers in negotiations with the Administrator and senior management to better integrate scientific principles into the policy-making process.
- Established national protocol for the peer review of scientific documents.

Geology:

With the U.S. Forest Service, Matt led investigations to determine hillslope stability of areas proposed for timber harvest in the central Oregon Coast Range. Specific activities were as follows:

- Mapped geology in the field, and used aerial photographic interpretation and mathematical models to determine slope stability.
- Coordinated his research with community members who were concerned with natural resource protection.
- Characterized the geology of an aquifer that serves as the sole source of drinking water for the city of Medford, Oregon.

As a consultant with Dames and Moore, Matt led geologic investigations of two contaminated sites (later listed on the Superfund NPL) in the Portland, Oregon, area and a large hazardous waste site in eastern Oregon. Duties included the following:

- Supervised year-long effort for soil and groundwater sampling.
- Conducted aquifer tests.
- Investigated active faults beneath sites proposed for hazardous waste disposal.

Teaching:

From 1990 to 1998, Matt taught at least one course per semester at the community college and university levels:

- At San Francisco State University, held an adjunct faculty position and taught courses in environmental geology, oceanography (lab and lecture), hydrogeology, and groundwater contamination.
- Served as a committee member for graduate and undergraduate students.
- Taught courses in environmental geology and oceanography at the College of Marin.

Matt taught physical geology (lecture and lab and introductory geology at Golden West College in Huntington Beach, California from 2010 to 2014.

Invited Testimony, Reports, Papers and Presentations:

Hagemann, M.F., 2008. Disclosure of Hazardous Waste Issues under CEQA. Presentation to the Public Environmental Law Conference, Eugene, Oregon.

Hagemann, M.F., 2008. Disclosure of Hazardous Waste Issues under CEQA. Invited presentation to U.S. EPA Region 9, San Francisco, California.

Hagemann, M.F., 2005. Use of Electronic Databases in Environmental Regulation, Policy Making and Public Participation. Brownfields 2005, Denver, Coloradao.

Hagemann, M.F., 2004. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in Nevada and the Southwestern U.S. Presentation to a meeting of the American Groundwater Trust, Las Vegas, NV (served on conference organizing committee).

Hagemann, M.F., 2004. Invited testimony to a California Senate committee hearing on air toxins at schools in Southern California, Los Angeles.

Brown, A., Farrow, J., Gray, A. and **Hagemann, M.**, 2004. An Estimate of Costs to Address MTBE Releases from Underground Storage Tanks and the Resulting Impact to Drinking Water Wells. Presentation to the Ground Water and Environmental Law Conference, National Groundwater Association.

Hagemann, M.F., 2004. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in Arizona and the Southwestern U.S. Presentation to a meeting of the American Groundwater Trust, Phoenix, AZ (served on conference organizing committee).

Hagemann, M.F., 2003. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in the Southwestern U.S. Invited presentation to a special committee meeting of the National Academy of Sciences, Irvine, CA.

Hagemann, M.F., 2003. Perchlorate Contamination of the Colorado River. Invited presentation to a tribal EPA meeting, Pechanga, CA.

Hagemann, M.F., 2003. Perchlorate Contamination of the Colorado River. Invited presentation to a meeting of tribal repesentatives, Parker, AZ.

Hagemann, M.F., 2003. Impact of Perchlorate on the Colorado River and Associated Drinking Water Supplies. Invited presentation to the Inter-Tribal Meeting, Torres Martinez Tribe.

Hagemann, M.F., 2003. The Emergence of Perchlorate as a Widespread Drinking Water Contaminant. Invited presentation to the U.S. EPA Region 9.

Hagemann, M.F., 2003. A Deductive Approach to the Assessment of Perchlorate Contamination. Invited presentation to the California Assembly Natural Resources Committee.

Hagemann, M.F., 2003. Perchlorate: A Cold War Legacy in Drinking Water. Presentation to a meeting of the National Groundwater Association.

Hagemann, M.F., 2002. From Tank to Tap: A Chronology of MTBE in Groundwater. Presentation to a meeting of the National Groundwater Association.

Hagemann, M.F., 2002. A Chronology of MTBE in Groundwater and an Estimate of Costs to Address Impacts to Groundwater. Presentation to the annual meeting of the Society of Environmental Journalists.

Hagemann, M.F., 2002. An Estimate of the Cost to Address MTBE Contamination in Groundwater (and Who Will Pay). Presentation to a meeting of the National Groundwater Association.

Hagemann, M.F., 2002. An Estimate of Costs to Address MTBE Releases from Underground Storage Tanks and the Resulting Impact to Drinking Water Wells. Presentation to a meeting of the U.S. EPA and State Underground Storage Tank Program managers.

Hagemann, M.F., 2001. From Tank to Tap: A Chronology of MTBE in Groundwater. Unpublished report.

Hagemann, M.F., 2001. Estimated Cleanup Cost for MTBE in Groundwater Used as Drinking Water. Unpublished report.

Hagemann, M.F., 2001. Estimated Costs to Address MTBE Releases from Leaking Underground Storage Tanks. Unpublished report.

Hagemann, M.F., and VanMouwerik, M., 1999. Potential Water Quality Concerns Related to Snowmobile Usage. Water Resources Division, National Park Service, Technical Report.

VanMouwerik, M. and **Hagemann, M.F**. 1999, Water Quality Concerns Related to Personal Watercraft Usage. Water Resources Division, National Park Service, Technical Report.

Hagemann, M.F., 1999, Is Dilution the Solution to Pollution in National Parks? The George Wright Society Biannual Meeting, Asheville, North Carolina.

Hagemann, M.F., 1997, The Potential for MTBE to Contaminate Groundwater. U.S. EPA Superfund Groundwater Technical Forum Annual Meeting, Las Vegas, Nevada.

Hagemann, M.F., and Gill, M., 1996, Impediments to Intrinsic Remediation, Moffett Field Naval Air Station, Conference on Intrinsic Remediation of Chlorinated Hydrocarbons, Salt Lake City.

Hagemann, M.F., Fukunaga, G.L., 1996, The Vulnerability of Groundwater to Anthropogenic Contaminants on the Island of Maui, Hawaii. Hawaii Water Works Association Annual Meeting, Maui, October 1996.

Hagemann, M. F., Fukanaga, G. L., 1996, Ranking Groundwater Vulnerability in Central Oahu, Hawaii. Proceedings, Geographic Information Systems in Environmental Resources Management, Air and Waste Management Association Publication VIP-61.

Hagemann, M.F., 1994. Groundwater Characterization and Cleanup at Closing Military Bases in California. Proceedings, California Groundwater Resources Association Meeting.

Hagemann, M.F. and Sabol, M.A., 1993. Role of the U.S. EPA in the High Plains States Groundwater Recharge Demonstration Program. Proceedings, Sixth Biennial Symposium on the Artificial Recharge of Groundwater.

Hagemann, M.F., 1993. U.S. EPA Policy on the Technical Impracticability of the Cleanup of DNAPL-contaminated Groundwater. California Groundwater Resources Association Meeting.

Hagemann, M.F., 1992. Dense Nonaqueous Phase Liquid Contamination of Groundwater: An Ounce of Prevention... Proceedings, Association of Engineering Geologists Annual Meeting, v. 35.

Other Experience:

Selected as subject matter expert for the California Professional Geologist licensing examination, 2009-2011.

Subject: Feedback-Public Comment

Importance: High

Hello Housing Element-

I have lived in Costa Mesa for well over sixty years. We can all agree, that the main concern should always be quality of life. We can all agree, streets that are clogged with congestion are the first signs of an unhappy living experience (see LA). Irvine is a great model of how to increase housing density without the burden of heavy congestion and traffic. We can all agree, we do not want to see concrete everywhere, housing tracts that are cold, austere, and entirely void of attractive elements such as; trees, bushes and green plant life. We all know that crime, aggressiveness and unhappiness increase when rats are placed in dense housing and are subject to congested living, well it is the same for the human beings.

Quality of Life:

1. Roads must be kept moving freely where new housing is considered. A roadway already fully impacted with rush-hour traffic should not be further burdened by the building of new housing. Areas to consider new housing must have roads that can flow well and handle new traffic going forward, particularly during rush hour.

2. Visually attractive housing is VERY important. People do not want to see housing that encroaches to the edge of a sidewalk with dense concrete built-up 3-6 stories high. Again, the City of Irvine is a great model. All new housing tracts require roadway setbacks where they must build greenbelts and install attractive sound barrier walls that keep housing separated from road noise and roadway views.

3. Housing needs to consider the humans that will live there for multiple generations into the future. Are we building housing environments that support a happy and content life? Or are we letting greed and high density dominate the landscape like a permanent scar in the most beautiful Climate on the planet? Only developers can determine what our future holds.

4. Please see that the City requires greenbelts, set-backs off the road, sound barrier walls, less-dense, less greed driven density with attractive housing that will make living positive for many generations to come.

Thank you for letting me freely share my opinions. Please feel free to share this with the powers that be.

Kind Regards,

Diane Kastner

Subject: Public Comment: City of Costa Mesa Housing Element Update

Good evening,

My name is Matthew Sheehan and I live in Costa Mesa (District 48). I believe everyone should have access to housing in our community.

As a child, my family often struggled to pay for housing. My parents had to sign a new lease nearly every other year because they were unable to renew their leases due to rising requested rents and were not able to afford to purchase a house. During my elementary school years, I had to transfer to a new school each year due to our housing instability. As a current resident of Costa Mesa, this is not the future I want for my family and future children.

Please use our housing element update to boldly plan for more housing near our jobs, transit stops, and high-resource neighborhoods. Let's clearly demonstrate to HCD and to our community that we are affirmatively furthering fair housing in our city.

Best,
Matthew Sheehan

Subject: Draft Housing Element 2021-2029

Hello,

Regarding Casa Bella Apartments, 1840 Park Ave...

Please check this only if you think it is worth checking into. In the prior housing element, Casa Bella was the most at risk subsidized senior housing in Costa Mesa due to having a for profit owner and due to the Hud contract expiring in 2015. The owner did renew the contract for 10 years at that time.

*** Now, the contract expires in Sept 2025. And the for profit owner's mortgage deed restrictions ended in 2020. The owner changed property management companies in Autumn 2020 and beginning April 2021 began renovations to the building.. it appears in order to bring it up to code? All red flags in some of our opinions as tenants here.

I skimmed a few parts of the draft Housing Element and I "think" I read one paragraph that said there is no at risk housing in Costa Mesa in this plan??? My feeling is that Casa Bella is at risk?? But I have no idea. Did anyone check with the actual owner about future plans for this property?

Thank you,
N. Henning

Commentary on the Draft Costa Mesa Housing Element Plan

My name is Betsy Densmore. I live in the Canyon neighborhood and I co-own a restaurant in Mesa Verde Plaza. I also serve on the Board of a local nonprofit affordable housing development company. I fully endorse the goals of the draft Housing Element and carefully read the various strategies for fulfilling those goals. Unfortunately, my take away is that there are several ways that these lofty goals will be thwarted.

The plan as written does not go far enough. New construction is very expensive and providing tenant services drives the cost per unit even higher. I believe that the proposed densities for many of the sites which are identified are not high enough to make the sites financially feasible. Can we find more or be more aggressive about promoting other alternatives to new construction? And too much of the plan hangs on the details of the "inclusionary housing ordinance" which will likely take months to be developed.

Will 25% or more of EACH new development be reserved for very low and low income tenants? Otherwise, won't we perpetuate the problem we already have which is that service workers we need in Costa Mesa (like the folks who work in my restaurant) have great difficulty living here because moderately priced housing is so scarce. Those who own cars, clog our roads and spend too much of their income on car loans, gas and repairs. I sometimes hear people say that adding more housing and thus more people to Costa Mesa will just make traffic worse. I beg to differ. Those able to live close to work and amenities, can walk or ride their bikes.

We need more residential units for people in ALL income categories. Our market is too tight – shortages in any category have a domino effect on the others. I think we should be allowing multi-unit buildings in all neighborhoods. Moreover, I believe accelerating development of more "granny flats", in-fill small apartment buildings and planned communities like One Metro West can't happen fast enough. How do we pick up the pace?

I also hear people assume that "affordable housing" will only draw undesirables- nonsense! Visit any housing developments with high numbers of subsidized units (such as Section 8) in this area and you will see nothing of the sort. Trellis and SOS have plenty of stories about formerly "normal" citizens who succumb to drugs and mental illness after being traumatized by the loss of their homes. Restoring self-sufficiency for these folks starts with housing them.

Moreover mixed income, high density communities sustain local businesses. Mesa Verde Plaza is a case in point. My fellow tenants provide a wide variety of food, health, educational and personal services to the thousands of apartment dwellers who surround us. I believe every single one of the Plaza's businesses survived the pandemic. The residents of these apartments are a broad range of old, young, affluent, middle class and working poor. Many stroll our boardwalk and buy from us. We know & support our neighbors and they know and support us.

I grew up in a single-family home and worked hard to my buy own as soon as I got out of college. We are taught that this is fundamental to the American Dream. However, as the years rolled on, my husband and I grew disenchanted with the effort required to maintain it and with the amount of stuff we accumulated to fill and take care of it. First, we downsized to buying a small apartment building and

these days we reside in a town house. The Canyon neighborhood is delightfully diverse, dense and peaceful but someday one or both of us may need to downsize again or invite others to share our home. For this reason, I am glad to see that the plan includes promoting co-housing, motel conversions to what we used to call SROs (single room occupancy), and other approaches to small, efficiency units. Working with local churches and other non-profits who have a commitment to serving their community is also a good idea.

Congratulations on getting us this far. I welcome any opportunities to help make the vision of nearly 12,000 more housing units by 2029 a reality. You may reach me per the below contact information.

Best Regards,

Betsy

Subject: Community Profile

Dear Sirs:

On page 2-14 of the Community Profile PDF, the section on “Overcrowding” begins and offers its definition as relates to this document. My question here is whether the Assisted Living Facilities and the Drug and Alcohol Rehabilitation Homes that heavily populate our city are considered in this study as “Residences” or are properly classified as stand-alone businesses excluded from these overall numbers. By the definition offered here, I believe each of those homes could qualify as “overcrowded” and artificially skew the data toward implying a greater need for housing remediation than actually exists.

If you should require a specific person to whom you should submit this question, please forward it to Nick, as he narrated the September 2nd webinar and would probably best know how to rout this request.

Thank you for your efforts on an otherwise thankless endeavor.

Sincerely,

Dr. Ron Housepian

Public Review Draft Community Comments

Chapter 1 (Introduction)
No comments

Chapter 2 (Community Profile)
- On page 2-14 of the Community Profile PDF, the section on "Overcrowding" begins and offers its definition as relates to this document. My question here is whether the Assisted Living Facilities and the Drug and Alcohol Rehabilitation Homes that heavily populate our city are considered in this study as "Residences" or are properly classified as stand-alone businesses, and are therefore excluded from these overall numbers. By the definition offered here, I believe that each of those homes could qualify as "overcrowded" and artificially skew the data toward implying a greater need for housing remediation than actually exists. I will send the same question above in the form of an e-mail, as I would like to get an answer and this comment format doesn't allow for that. Thank You

Chapter 3 (Housing Constraints, Resources, and AFFH)
No comments

Chapter 4 (Housing Plan)
- Re Fairview Development Center property tagged for mixed use residential/commercial use with amenities, what kind of time frame do you envision for this redevelopment? It is a very large property with park like characteristics and would lend itself very well if its natural setting was preserved for the enjoyment of residents and commercial tenants. Do you plan a park with walkways, water fountains, sitting areas in your proposed redevelopment? Fairview is a prized piece of real estate in Costa Mesa, so it should be developed with Green in mind. Thank you. Ivan Alexander, CM resident
- Re Fairview Development renewal: Will you be able to preserve the natural beauty and have walking trails and bike trails for CM city residents to enjoy? Will new construction renewal incorporate a green intent with solar energy, water recycling, eco friendly construction materials where possible? Will there be a 'victory garden' to produce locally and create an outdoor gathering area?

Additional Comments
- Hi - My name is Walter Chirichigno and live in College Park on Bowling Green. We used to live on the East side on Mesa Drive. The traffic and parking congestion got so bad we moved to our current home. I hope and pray that the proper traffic studies were done using (pre - Covid 19) traffic numbers. I am very concerned that Fair Drive And Fairview will become more of a traffic nightmare than they already are. And of course we know anything being built on Harbor will just ad to the current ugly situation. Allowing Canes to be built with the overflow of drive thru customers stopping on Harbor has basically eliminated one lane from 12pm -2pm and 5pm - 7pm.
- Permitting small home building (used to be called grandmother suites) for any age group is a good idea. This helps with extra housing and permits residents with low income to rent the small house and avoid being forced out by high taxes. The mass building of the 3 story units around Costa Mesa has contributed to heavy traffic, which Costa Mesa now has all year round, instead of summer only. Most residents I've spoken to believe past members of the city council were paid off, which permitted the development of those crowded living spaces.

True or not, perception is reality for many. The freedom home track (west side) is unique to southern ca. If you over develop it you will ruin the country feel, increase traffic, not to mention increase water use. The element update will be too complicated for most residents to understand. There should be a more simple way of explaining the City's intent so residents completely understand. Overall, I'm discouraged by what I see. I mean no disrespect, but is seems like everything revolves around money and not quality of life. I hope you prove me wrong.

- For the future of Costa Mesa, can we have the city plant 'fruit trees' for our insects birds and humans consumption, and enjoyment, that also lower our carbon footprint? Examples, some that are drought tolerant: tamarind, loquats, figs, guava, natal plum, mango, etc. It would be beautiful to know Costa Mesa is a leading city is planting Green, as well as the city of the arts. :)

C.11 Public Comments

The section contains all public comments submitted throughout the Housing Element Update and during the Public Review Period. Comments were submitted through the Public Review Period feedback form and by email to City Staff. Public comments provided during the Townhall Meeting, Subject Matter Expert Meeting, District Meetings, Planning Commission and City Council Study Sessions, and Public Hearings are provided in the sections above.

Response to Public Comments

Public Comment	Response
The Housing Element should plan for more housing near jobs, transit stops, and high-resource neighborhoods.	As part of the Housing Element's Section 3 on Affirmatively Furthering Fair Housing (AFFH), the City identifies and analyzes disparities in access to opportunity, including: "improving the quality of life for residents of low-income communities, as well as supporting mobility and access to 'high resource' neighborhoods. This encompasses education, employment, economic development, safe and decent housing, low rates of violent crime, transportation, and other opportunities, including recreation, food and healthy environment" (HCD Guidance on AFFH).
Adopt an inclusionary housing ordinance.	The adoption of an inclusionary housing ordinance is Program 2A of the Housing Element Update. The City is currently working on developing an inclusionary housing policy.
The City should adopt a program to allow by-right development for projected proposing 100% units affordable to very low- and low-income households.	The City's Housing Element meets State requirements to allow by-right development for sites identified in the Housing Element that permit at least 20% affordable units as described in Program 3M.
Create a Specific Plan for the Fairview Developmental Center site to facilitate the development of housing affordable to extremely low-income to moderate income households.	Program 3B addresses the City's future planning actions regarding development of the Fairview Developmental Center.
Create new overlay zones along major thoroughfares like Harbor Blvd. to replace failing strip malls with mixed-use developments.	Programs 3C and 3D within the Housing Element will amend the existing specific plans, urban plans, and overlays, many of which are within major thoroughfares, to better suit today's development climate

Public Comment	Response
	while planning responsibly for future potential growth within these areas.
All City Specific Plans and Overlays should have densities of 60 DU/Acres and a requirement of at least 20% affordable units.	The City has proposed densities which take into considerations the development characteristics of each area. Proposed densities range from 40 du/ac to 90 du/ac. The City is working to develop an inclusionary housing policy which will have a citywide affordability requirement for projects that meet established requirements.
Create a land trust to hold donated land.	The City is not proposing a policy related to creating a land trust but may consider that strategy in future implementing efforts.
Add workforce housing.	The City has established a housing strategy which looks to address housing for all segments of the community. More information can be found within Appendix B.
The densities proposed in the Public Review Draft are not high enough to make the sites financially feasible.	The City worked with members of the development community to identify densities which are likely to promote the development of housing at all income levels. The City also analyzed past real world development examples to determine at what densities different housing types are typically proposed.
We should be allowing multi-unit buildings in all neighborhoods.	This is not included as part of the Housing Element Update sites strategies; however, Appendix B identifies sites and strategies to accommodate the development of multi-unit projects throughout the City.
The City should accelerate the pace of ADU developments throughout the community.	Appendix B of the Housing Element discusses projected ADU growth over the next 8 years. Chapter 4: Housing Plan also provides policies and programs the City will

Public Comment	Response
	implement to track and facilitate the development of ADUs.
Casa Bella's subsidized senior housing contract expires in 2025 and should be considered at-risk.	Casa Bella is included in Section 3 – Inventory of Assisted Affordable Housing.
Select part of the Costa Mesa Golf Course and driving range for candidate sites.	This site is not included as part of the Housing Element Update sites strategy as the City is able to meet the RHNA allocation through the selection of other sites. It is also important to the City to maintain limited recreational open space for the community.
Create pathways to home ownership.	The City's Housing Element focuses on strategies for the attainment of both rental and for sale housing. Strategies specifically aimed at home ownership are not included.
Create an Ad Hoc Advisory Committee to review Measure Y and potential constraints on housing.	The City is currently pursuing the creation of an Advisory Committee to review Measure Y and its implications for housing development.
Do not replace El Metate Market with housing.	This site has been removed from the Housing Element and is no longer considered a candidate housing site.
Do not replace the Smart & Final with affordable high-density housing on 19th Street.	This site has been removed from the Housing Element and is no longer considered a candidate housing site.
Do not propose high density development on 19th Street.	The City's sites strategy includes consideration of the West 19th corridor.
High-density housing on 19th Street will further the parking shortage and decrease property value.	Parking standards may be evaluated during the amendment of the City's overlays and urban plans.
Stop the affordable unit tax on developers.	The City is considering a inclusionary housing policy to address affordable housing requirements for future development projects.
The sites inventory must include probability of development during the RHNA cycle.	Appendix B of the Housing Element provides detailed information on the sites analysis strategies, including the assumed

Public Comment	Response
	affordability percentages. The City has allocated a buffer of units as part of its sites analysis in order to plan for sites potentially developing with lower densities than maximum permitted.
The Housing Element should specify the current available density and the proposed new density for each site identified for rezoning.	Appendix B of the Housing Element includes a detailed list of all sites identified as part of the sites analysis, including the current and proposed densities.
Reduce traffic congestion and consider parking shortages.	The City has considered mobility and access to public transportation when identifying candidate housing sites.
Costa Mesa should be a 15-minute city and become less car-dependent.	The City has considered mobility and access to public transportation when identifying candidate housing sites. In addition, the development of mixed-use projects generally facilitates walkability and sustainable transportation due to the location of housing units near commercial and retail uses.
Adopt a form-based code with objective criteria.	The City will consider different development strategies as part of the update to its existing urban plans and overlays. Currently the urban plans have a form-based like development criteria.
The City should abandon its RHNA appeal and add housing affordable to disadvantaged residents.	The City was not successful in appealing its RHNA allocation. The final RHNA allocation was released by SCAG on March 4, 2021.
How much importance is placed on public comments?	Public participation is critical to the success of the Housing Element and is a required component of the Update. All public comments are included in the Housing Element and all are provided to the City Council for consideration.
The City must engage community participation throughout all stages of the Housing Element.	Appendix C of the Housing Element includes all community engagement efforts and public comments received throughout the

Public Comment	Response
	Housing Element Update period. The City has solicited input from the community, stakeholders, and local organizations at the start of the Update process, during the Public Review period, during public Council and Commission meetings, as well through meetings with City Staff and via email and phone calls.
The City should include affordable housing advocates and local organizations in community outreach efforts.	Appendix C of the Housing Element includes all community engagement efforts and public comments received throughout the Housing Element Update period. The City outreached to and held multiple meetings with local organizations and housing advocates throughout the Update process.
The City should provide further analysis on the constraints for Sakioka Lot 2, Home Ranch, and Pacific Arts Plaza)	The City has considered known constraints to development on these sites. Future implementing projects will be subject to an objective development review process which further analyzes potential constraints.
Program 3F should include long-term resident protections through anti-displacement, right-of-first refusal, and relocation benefits strategies.	The City's Housing Element Draft does not directly address long-term resident strategies but does analyze displacement risk and other environmental justice factors within Section 3 of the document.
The City should adopt a stand-alone program to make mid-cycle adjustments if housing production is not moving forward on identified large sites.	The City reports to HCD annually on its progress towards meeting its RHNA allocation. If HCD determines the City is not making sufficient progress, the City must revise its Housing Element in accordance.
Let single-family homes become duplexes and triplexes.	The Housing Element Update does not include a rezoning of all single-family neighborhoods.
Consider the availability of public open space.	The City has considered the availability of public open space in its sites analysis. Additionally, the City currently requires Park Fees for new residential projects as a

Public Comment	Response
	condition of approval. These fees ensure compliance with State law and provide funds to cover the cost of land acquisition and parkland upgrades to support accessible public park space as population grows.
Add The Hive as a candidate housing site to allow for multi-family housing.	The Hive has been added as a candidate housing site.

Public Review Draft - Community Comments

Chapter 1 (Introduction)

1. I have lived in Costa Mesa for well over sixty years. We can all agree, that the main concern should always be quality of life. We can all agree, streets that are clogged with congestion are the first signs of an unhappy living experience (see LA). Irvine is a great model of how to increase housing density without the burden of heavy congestion and traffic. We can all agree, we do not want to see concrete everywhere, housing tracts that are cold, austere, and entirely void of attractive elements such as; trees, bushes and green plant life. We all know that crime, aggressiveness and unhappiness increase when rats are placed in dense housing and are subject to congested living, well it is the same for the human beings.
   Quality of Life:
   Roads must be kept moving freely where new housing is considered. A roadway already fully impacted with rush-hour traffic should not be further burdened by the building of new housing. Areas to consider new housing must have roads that can flow well and handle new traffic going forward, particularly during rush hour.
   Visually attractive housing is VERY important. People do not want to see housing that encroaches to the edge of a sidewalk with dense concrete built-up 3-6 stories high. Again, the City of Irvine is a great model. All new housing tracts require roadway setbacks where they must build greenbelts and install attractive sound barrier walls that keep housing separated from road noise and roadway views.
   Housing needs to consider the humans that will live there for multiple generations into the future. Are we building housing environments that support a happy and content life? Or are we letting greed and high density dominate the landscape like a permanent scar in the most beautiful Climate on the planet? Only developers can determine what our future holds.
   Please see that the City requires greenbelts, set-backs off the road, sound barrier walls, less-dense, less greed driven density with attractive housing that will make living positive for many generations to come.
   Thank you for letting me freely share my opinions. Please feel free to share this with the powers that be.
2. It was very disappointing to see preserve single family neighborhoods (monoplex zoning) as a goal in the Housing element. This is contrary to Costa Mesa's professed values (safe, inclusive, vibrant) and emergent state law. It is also subjective, latently racist and classist. Subjective discretion has historically resulted in treating people with more resources better than those with fewer resources which is another way to say latently racist and classist exclusionary practices wrapped in a ball of boring planning language. Costa Mesa should adopt a form-based code, compliant with state law that uses objective criteria to treat everyone equally under the zoning code and law. If the exclusionary neighbors wish to preserve monoplex zoning they may do so by buying those properties and preserving those parcels through private action. It is not the city's role to preserve exclusionary, high resource enclaves and concentrate housing growth where pollution burdens are higher (arterial and freeway corridors).

Chapter 2 (Community Profile)

1. On page 2-14 of the Community Profile PDF, the section on “Overcrowding” begins and offers its definition as relates to this document. My question here is whether the Assisted Living Facilities and the Drug and Alcohol Rehabilitation Homes that heavily populate our city are considered in this study as “Residences” or are properly classified as stand-alone businesses, and are therefore excluded from these overall numbers. By the definition offered here, I believe that each of those homes could qualify as “overcrowded” and artificially skew the data toward implying a greater need for housing remediation than actually exists. I will send the same question above in the form of an e-mail, as I would like to get an answer and this comment format doesn't allow for that. Thank You

Chapter 3 (Housing Constraints, Resources, and AFFH)

1. The most powerful thing local elected officials can do on climate change is Urban Infill land use planning. https://coolclimate.berkeley.edu/ca-scenarios/index.html. This draft housing element is a swing and a miss that will jeopardize Costa Mesa's land use authority. This draft is tantamount to climate and racial justice arson. The primary deficiency is a failure to address the primary Governmental constraint on housing, Measure Y. It is a governmental constraint because it is a referendum embedded in municipal code that can be superseded by State law, interpreted by the Attorney General and the courts all of which are all government agencies. City council through its budgetary authority can also choose to defund anything related to implementation of it.
   In light of Title 13, Chapter IX, Article 22 of the municipal code (AKA Measure Y) the Housing Element made a lot more sense. This Municipal code conflicts with state law and all cities are subordinate to state law. The City Council and City Management's unwillingness to confront Measure Y head on leads the this Housing Element to a state of turboparalysis where City Planners and their consultants make vigorous and dramatic motions to meet RHNA goals but the end result is the absence of steady movement any particular direction. This unwillingness to confront Measure Y will likely result in City Council and city management eventually losing its land use authority.
   A second weakness in the draft is the defense of pretextual zoning for parking requirements. This is bad policy and bad planning and pretextual zoning in any form should not be included in any part of Costa Mesa's housing element. Pretextual zoning is contrary to Costa Mesa's values (safe, inclusive and vibrant) and the statutory requirement to AFFH. https://slate.com/business/2021/05/california-parking-minumums-planners-housing-ab1401.html.
   The fees and services nexus studies will need to be re-done thanks to AB602 which requires these fees to levied on a per square foot basis. The current and future fee nexus studies should be publicly noticed and freely available for inspection by Costa Mesans.
   The Housing element draft makes it difficult to undertake an analysis of these fees to determine if they are a constraint on housing production or if the assumptions made at the times of these studies are still valid. One specific example of this is the DIF for San Joaquin Hills TCA. This fee is antithetical to the principal of a toll road where the users pay. This DIF should be re-visited as an obstacle to the city's climate goals and housing goals. It is ridiculous and tantamount to climate arson that new infill housing (ADUs without parking) in Costa Mesa is used to support toll roads.
2. Parking Standards. My comment: Parking is always a problem in new developments, and also in high density residential areas. The City should NOT consider garage parking to be parking at all, since there is nothing assuring the City that is will be used for parking. I believe over half of garages within the city are NOT used for parking, but rather for storage or other uses. I would prefer the City require 1 outdoor parking space per bedroom AND 2-3 public street parking spaces per house/condo specifically for guests. Currently, there are not enough guest parking spaces in new developments or high density (apartment) areas. I always worry about going to a party at a new development, or near apartments, because I know parking is a problem. Taking a taxi is not an appropriate solution, this is not New York City. Riding my bike only works if I have extra time, it's daytime, and I am alone, so biking has limitations.
3. ADUs - Costa Mesa should create standardized ADU plans that residents can use. Most people are converting garages and those have set dimensions. So plans for studio and 1-bedrooms would cut down on costs, fast-track the approval process and encourage more ADU builds. Households are becoming more multi-generational. Folks want to move their elderly parents in with them but still give them their own space. Or grown children move back home for whatever reason and also need a space of their own. Also, there are probably lots of unpermitted ADUs constructed (maybe due to the recession and the need for additional

income). There needs to be a way to get those permitted after the fact (without punishing the homeowners). It'll add to property valuations and increase tax revenue for the city.

4. AFFH - I believe access to affordable utilities applies to this policy. Approvals for solar power and home batteries should be fast-tracked and permitting should not be cumbersome or cost-prohibitive. Access to affordable energy is also an environmental justice issue. Current incentives for electric vehicles benefit affluent residents who can afford to charge their vehicles. Grants should be issued for lower income residents to install solar

Chapter 4 (Housing Plan)

1. Re Fairview Development Center property tagged for mixed use residential/commercial use with amenities, what kind of time frame do you envision for this redevelopment? It is a very large property with park like characteristics and would lend itself very well if its natural setting was preserved for the enjoyment of residents and commercial tenants. Do you plan a park with walkways, water fountains, sitting areas in your proposed redevelopment? Fairview is a prized piece of real estate in Costa Mesa, so it should be developed with Green in mind. Thank you. Ivan Alexander, CM resident
2. Re Fairview Development renewal: Will you be able to preserve the natural beauty and have walking trails and bike trails for CM city residents to enjoy? Will new construction renewal incorporate a green intent with solar energy, water recycling, eco friendly construction materials where possible? Will there be a 'victory garden' to produce locally and create an outdoor gathering area?
3. Regarding the section "PROGRAM 3C: Update the North Costa Mesa Specific Plan", it would be better to not implement the North Costa Mesa Specific Plan, or to scale the North Costa Mesa Specific Plan back significantly. Traffic on Bristol Street (and the neighboring streets) is already very congested. The changes proposed by the North Costa Mesa Specific Plan would worsen the traffic on Bristol Street (and the neighboring streets). Worse traffic reduces the quality of life. Worse traffic is also not "compatible with growth", which is one of the "guiding principles" of the Costa Mesa Housing Plan.
4. HCD requires cities to include a probability weighting of each site in its inventory of actually being developed during the 8 year cycle. Costa Mesa did not do that. Exceeding the city's RHNA goal by 34% addresses this partially but that still assumes that each of the identified sites has about a two thirds probability of being redeveloped. Based on the literature for California cities indicates the Costa Mesa's assumptions are optimistically high. https://escholarship.org/uc/item/6786z5j9.
   The housing element spatially concentrated new housing sites along arterial roads and freeway corridors. This decision places additional noise pollution from cars and particulate matter pollution burdens on those occupants, including low income people. It also concentrates new arrivals in low resource areas and keeps monoplex (single family) zoning exclusionary contrary to the city's values and legal mandate to AFFH.
5. I am not against the City having a Housing Plan in general. The agree that the City should have a "plan" regarding housing. However, I disagree with the allotted number given to each City (11,760). I disagree with some of the wording in the Plan that simply agrees with this number without any push-back. Not all residents agree with the proposal to add so many high density living spaces in the City. Many of us think this is a bad idea & do not support it. Where is our voice and our representation? If it's already listed in the document I am apologize, but I have missed that part.
6. Approve more affordable housing, less luxury housing and luxury apartments. Lobby state to remove CEQA requirements for affordable housing

Appendices

1. Site Analysis. My comment, the only site south of the Freeway that has real merit is the Fairview Developmental Hospital. It's a large site, off major streets, and would be a nice spot to live. I lived right off Harbor Blvd for 2 years, with my bedroom window facing the street. I hated living there because the traffic noise was constant.

I came to the conclusion that nobody wants to live right off a major street, and that people only live there because it's available. I now see so many little houses and apartments being built right on Harbor Blvd, and I scratch my head a little. Who is allowing these places to be built? Have they every lived right on Harbor? Do they know how much is sucks to live there? I have...and I know. The same thing goes for Placentia & 19th St. Again, these are terrible places for people to live. Who wants their front door opening up to Placentia? It's ridiculous. I think all sites within 50 feet of any major street are not fit for anybody to live, not old people, not poor people, not millennials, nobody.

Additional Comments

1. Hi - My name is Walter Chirichigno and live in College Park on Bowling Green. We used to live on the East side on Mesa Drive. The traffic and parking congestion got so bad we moved to our current home. I hope and pray that the proper traffic studies were done using (pre - Covid 19) traffic numbers. I am very concerned that Fair Drive And Fairview will become more of a traffic nightmare than they already are. And of course we know anything being built on Harbor will just ad to the current ugly situation. Allowing Canes to be built with the overflow of drive thru customers stopping on Harbor has basically eliminated one lane from 12pm -2pm and 5pm - 7pm.
2. Permitting small home building (used to be called grandmother suites) for any age group is a good idea. This helps with extra housing and permits residents with low income to rent the small house and avoid being forced out by high taxes. The mass building of the 3 story units around Costa Mesa has contributed to heavy traffic, which Costa Mesa now has all year round, instead of summer only. Most residents I've spoken to believe past members of the city council were paid off, which permitted the development of those crowded living spaces. True or not, perception is reality for many. The freedom home track (west side) is unique to southern ca. If you over develop it you will ruin the country feel, increase traffic, not to mention increase water use. The element update will be too complicated for most residents to understand. There should be a more simple way of explaining the City's intent so residents completely understand. Overall, I'm discouraged by what I see. I mean no disrespect, but is seems like everything revolves around money and not quality of life. I hope you prove me wrong.
3. For the future of Costa Mesa, can we have the city plant 'fruit trees' for our insects birds and humans consumption, and enjoyment, that also lower our carbon footprint? Examples, some that are drought tolerant: tamarind, loquats, figs, guava, natal plum, mango, etc. It would be beautiful to know Costa Mesa is a leading city is planting Green, as well as the city of the arts. :)
4. SB 9, SB 10, SB 477, AB 602 and SB 478 are all on the Governor's desk and polling indicates he will beat the recall and is likely to sign these bills. The city should actively embrace and enable these tools to legalize housing freedom, affirmatively further fair housing and practice Costa Mesa's values (safe, inclusive and vibrant).
5. Housing plan needs to include more dedicated bike paths, similar to the one that runs along the golf course and connects Harbor Blvd to Placentia Ave, and the one along Victoria.
6. According to FORBES what makes a great neighborhood/city is
    - Pride in ownership
    - Low crime rate
    - Great schools
    - Outdoor activities abound
    - Stepping back in time (tree lined streets)
    - Access to medical care
    - Family friendly
    - Close to public transportation
    - Nearby shopping and restaurants

- Nightlife and entertainment
- Walkability

Rather than just looking at housing let's consider the above. Although the plan says it is responsible for policies and programs regarding inclusion and diversity I don't see how this is being done. Where is the infrastructure like safety, green space, water, sewer, schools, police, fire departments that will support any new housing. Where is climate change and sustainability address in these new spaces. How are we going to attract new and interesting businesses? How are we going to get people to stay rather than be just a stop over (on the way to Newport Beach). How are we going to live up to our name, "the City of the Arts"? Where is the quality of life in this proposal rather than just getting more funding and adding more houses. Please consider those of us who really love this City and want to continue to invest it in. I care a lot.

Costa Mesa, CA 92626

Re: The Hive

Dear Mayor Stephens,

Thank you for taking the time last week to discuss Invesco's ownership and future growth plans for The Hive and The Press properties. As we discussed, Invesco ($85.8B in Assets Under Management as of June 30, 2021) has made a substantial investment in The Press and The Hive and view these investments as long term in nature. We are very pleased with having Anduril Industries locating their headquarters at The Press. Anduril anticipates over 2,000 employees at this location which is a very strong economic driver for the City of Costa Mesa and surrounding communities.

With respect to The Hive, we acquired this asset with the understanding that the Charger's tenancy would be temporary in nature. The Charger's practice field is not adequate in size to effectively run their practices. We understand that the Chargers are actively seeking alternative locations that are more suitable for their operations. While the Chargers have certain termination rights, there is the possibility that they may seek to leave earlier than anticipated. For this reason, we need to prepare to plan for that occurrence and plan for a multi-family project on the field site. We have had success in other such mixed-use properties throughout the country and would seek to replicate this at The Hive.

As we discussed, we are prepared to advance a Specific Plan on the site concurrent with the City's General Plan update. For us to justify investing the funds in this process, it is important we communicate to our investors that the field site has been included in the city's upcoming Housing Element Update. From a planning perspective we believe the site is ideal. In addition to being located directly adjacent to Anduril, the site in walking distance to a host of current and future employers in North Costa Mesa area.

We appreciate your support to include the site in the Housing Element Update and are hopeful that other Council and Planning Commission Members agree.

If you have any further questions, please contact me at 949-222-6390.

Sincerely,

Peter Cassiano

RE: City of Costa Mesa Draft 2021-2029 Housing Element Update

To Whom It May Concern,

On behalf of the Southwest Regional Council of Carpenters ("**Commenter**" or "**Southwest Carpenters**"), my Office is submitting these comments on the City of Costa Mesa's ("**City**" or "**Lead Agency**") draft 2021-2029 update to the City's General Plan Housing Element ("**Draft HEU**" or "**Project**").

The Southwest Carpenters is a labor union representing more than 50,000 union carpenters in six states and has a strong interest in well ordered land use planning and addressing the environmental impacts of development projects.

Individual members of the Southwest Carpenters live, work, and recreate in the City and surrounding communities and would be directly affected by the Project's environmental impacts.

Commenters expressly reserve the right to supplement these comments at or prior to hearings on the Project, and at any later hearings and proceedings related to this Project. Cal. Gov. Code § 65009(b); Cal. Pub. Res. Code § 21177(a); *Bakersfield Citizens for Local Control v. Bakersfield* (2004) 124 Cal. App. 4th 1184, 1199-1203; see *Galante Vineyards v. Monterey Water Dist.* (1997) 60 Cal. App. 4th 1109, 1121.

Commenters expressly reserve the right to supplement these comments at or prior to hearings on the Project, and at any later hearings and proceedings related to this Project. Cal. Gov. Code § 65009(b); Cal. Pub. Res. Code § 21177(a); *Bakersfield Citizens for Local Control v. Bakersfield* (2004) 124 Cal. App. 4th 1184, 1199-1203; see *Galante Vineyards v. Monterey Water Dist.* (1997) 60 Cal. App. 4th 1109, 1121.

Commenters incorporate by reference all comments raising issues regarding the EIR submitted prior to certification of the EIR for the Project. *Citizens for Clean Energy v City of Woodland* (2014) 225 Cal. App. 4th 173, 191 (finding that any party who has objected to the Project's environmental documentation may assert any issue timely raised by other parties).

Moreover, Commenters request that the Lead Agency provide notice for any and all notices referring or related to the Project issued under the California Environmental Quality Act ("**CEQA**"), Cal Public Resources Code ("**PRC**") § 21000 *et seq*, and the California Planning and Zoning Law ("**Planning and Zoning Law**"), Cal. Gov't Code §§ 65000–65010. California Public Resources Code Sections 21092.2, and 21167(f) and Government Code Section 65092 require agencies to mail such notices to any person who has filed a written request for them with the clerk of the agency's governing body.

The City should require the use of a local skilled and trained workforce to benefit the community's economic development and environment. The City should require the use of workers who have graduated from a Joint Labor Management apprenticeship training program approved by the State of California, or have at least as many hours of on-the-job experience in the applicable craft which would be required to graduate from such a state approved apprenticeship training program or who are registered apprentices in an apprenticeship training program approved by the State of California.

Community benefits such as local hire and skilled and trained workforce requirements can also be helpful to reduce environmental impacts and improve the positive economic impact of the Project. Local hire provisions requiring that a certain percentage of workers reside within 10 miles or less of the Project Site can reduce the length of vendor trips, reduce greenhouse gas emissions and providing localized economic benefits. Local hire provisions requiring that a certain percentage of workers reside within 10 miles or less of the Project Site can reduce the length of vendor trips, reduce greenhouse gas emissions and providing localized economic benefits. As environmental consultants Matt Hagemann and Paul E. Rosenfeld note:

> [A]ny local hire requirement that results in a decreased worker trip length from the default value has the potential to result in a reduction of construction-related GHG emissions, though the significance of the reduction would vary based on the location and urbanization level of the project site.

March 8, 2021 SWAPE Letter to Mitchell M. Tsai re Local Hire Requirements and Considerations for Greenhouse Gas Modeling.

Skilled and trained workforce requirements promote the development of skilled trades that yield sustainable economic development. As the California Workforce Development Board and the UC Berkeley Center for Labor Research and Education concluded:

> . . . labor should be considered an investment rather than a cost – and investments in growing, diversifying, and upskilling California's workforce can positively affect returns on climate mitigation efforts. In other words, well trained workers are key to delivering emissions reductions and moving California closer to its climate targets.[1]

Local skilled and trained workforce requirements and policies have significant environmental benefits since they improve an area's jobs-housing balance, decreasing the amount of and length of job commutes and their associated greenhouse gas emissions. Recently, on May 7, 2021, the South Coast Air Quality Management District found that that the "[u]se of a local state-certified apprenticeship program or a skilled and trained workforce with a local hire component" can result in air pollutant reductions.[2]

Cities are increasingly adopting local skilled and trained workforce policies and requirements into general plans and municipal codes. For example, the City of Hayward 2040 General Plan requires the City to "promote local hiring . . . to help achieve a more positive jobs-housing balance, and reduce regional commuting, gas consumption, and greenhouse gas emissions."[3]

[3] City of Hayward (2014) Hayward 2040 General Plan Policy Document at p. 3-99, *available at* https://www.hayward-ca.gov/sites/default/files/documents/General_Plan_FINAL.pdf.

In fact, the City of Hayward has gone as far as to adopt a Skilled Labor Force policy into its Downtown Specific Plan and municipal code, requiring developments in its Downtown area to requiring that the City "[c]ontribute to the stabilization of regional construction markets by spurring applicants of housing and nonresidential developments to require contractors to utilize apprentices from state-approved, joint labor-management training programs, . . ."[4] In addition, the City of Hayward requires all projects 30,000 square feet or larger to "utilize apprentices from state-approved, joint labor-management training programs."[5]

Locating jobs closer to residential areas can have significant environmental benefits. As the California Planning Roundtable noted in 2008:

> People who live and work in the same jurisdiction would be more likely to take transit, walk, or bicycle to work than residents of less balanced communities and their vehicle trips would be shorter. Benefits would include potential reductions in both vehicle miles traveled and vehicle hours traveled.[6]

In addition, local hire mandates as well as skill training are critical facets of a strategy to reduce vehicle miles traveled. As planning experts Robert Cervero and Michael Duncan noted, simply placing jobs near housing stock is insufficient to achieve VMT reductions since the skill requirements of available local jobs must be matched to those held by local residents.[7] Some municipalities have tied local hire and skilled and trained workforce policies to local development permits to address transportation issues. As Cervero and Duncan note:

> In nearly built-out Berkeley, CA, the approach to balancing jobs and housing is to create local jobs rather than to develop new housing." The city's First Source program encourages businesses to hire local residents,

[7] Cervero, Robert and Duncan, Michael (2006) Which Reduces Vehicle Travel More: Jobs-Housing Balance or Retail-Housing Mixing? Journal of the American Planning Association 72 (4), 475-490, 482, *available at* http://reconnectingamerica.org/assets/Uploads/UTCT-825.pdf.

> especially for entry- and intermediate-level jobs, and sponsors vocational training to ensure residents are employment-ready. While the program is voluntary, some 300 businesses have used it to date, placing more than 3,000 city residents in local jobs since it was launched in 1986. When needed, these carrots are matched by sticks, since the city is not shy about negotiating corporate participation in First Source as a condition of approval for development permits.

The City should consider utilizing skilled and trained workforce policies and requirements to benefit the local area economically and mitigate greenhouse gas, air quality and transportation impacts.

I. CONCLUSION

Commenters request that the City consider the aforementioned issues raised. Please contact my Office if you have any questions or concerns.

Sincerely,

Subject: Local Hire Requirements and Considerations for Greenhouse Gas Modeling

Dear Mr. Tsai,

Soil Water Air Protection Enterprise ("SWAPE") is pleased to provide the following draft technical report explaining the significance of worker trips required for construction of land use development projects with respect to the estimation of greenhouse gas ("GHG") emissions. The report will also discuss the potential for local hire requirements to reduce the length of worker trips, and consequently, reduced or mitigate the potential GHG impacts.

Worker Trips and Greenhouse Gas Calculations

The California Emissions Estimator Model ("CalEEMod") is a "statewide land use emissions computer model designed to provide a uniform platform for government agencies, land use planners, and environmental professionals to quantify potential criteria pollutant and greenhouse gas (GHG) emissions associated with both construction and operations from a variety of land use projects."[1] CalEEMod quantifies construction-related emissions associated with land use projects resulting from off-road construction equipment; on-road mobile equipment associated with workers, vendors, and hauling; fugitive dust associated with grading, demolition, truck loading, and on-road vehicles traveling along paved and unpaved roads; and architectural coating activities; and paving.[2]

The number, length, and vehicle class of worker trips are utilized by CalEEMod to calculate emissions associated with the on-road vehicle trips required to transport workers to and from the Project site during construction.[3]

[1] "California Emissions Estimator Model." CAPCOA, 2017, *available at:* http://www.aqmd.gov/caleemod/home.
[2] "California Emissions Estimator Model." CAPCOA, 2017, *available at:* http://www.aqmd.gov/caleemod/home.
[3] "CalEEMod User's Guide." CAPCOA, November 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/01_user-39-s-guide2016-3-2_15november2017.pdf?sfvrsn=4, p. 34.

Specifically, the number and length of vehicle trips is utilized to estimate the vehicle miles travelled ("VMT") associated with construction. Then, utilizing vehicle-class specific EMFAC 2014 emission factors, CalEEMod calculates the vehicle exhaust, evaporative, and dust emissions resulting from construction-related VMT, including personal vehicles for worker commuting.[4]

Specifically, in order to calculate VMT, CalEEMod multiplies the average daily trip rate by the average overall trip length (see excerpt below):

> "$VMT_d = \Sigma(\text{Average Daily Trip Rate}_i * \text{Average Overall Trip Length}_i)_n$
>
> Where:
>
> n = Number of land uses being modeled."[5]

Furthermore, to calculate the on-road emissions associated with worker trips, CalEEMod utilizes the following equation (see excerpt below):

> "$\text{Emissions}_{pollutant} = VMT * EF_{running,pollutant}$
>
> Where:
>
> $\text{Emissions}_{pollutant}$ = emissions from vehicle running for each pollutant
>
> VMT = vehicle miles traveled
>
> $EF_{running,pollutant}$ = emission factor for running emissions."[6]

Thus, there is a direct relationship between trip length and VMT, as well as a direct relationship between VMT and vehicle running emissions. In other words, when the trip length is increased, the VMT and vehicle running emissions increase as a result. Thus, vehicle running emissions can be reduced by decreasing the average overall trip length, by way of a local hire requirement or otherwise.

Default Worker Trip Parameters and Potential Local Hire Requirements

As previously discussed, the number, length, and vehicle class of worker trips are utilized by CalEEMod to calculate emissions associated with the on-road vehicle trips required to transport workers to and from the Project site during construction.[7] In order to understand how local hire requirements and associated worker trip length reductions impact GHG emissions calculations, it is important to consider the CalEEMod default worker trip parameters. CalEEMod provides recommended default values based on site-specific information, such as land use type, meteorological data, total lot acreage, project type and typical equipment associated with project type. If more specific project information is known, the user can change the default values and input project-specific values, but the California Environmental Quality Act ("CEQA") requires that such changes be justified by substantial evidence.[8] The default number of construction-related worker trips is calculated by multiplying the

[4] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 14-15.
[5] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 23.
[6] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 15.
[7] "CalEEMod User's Guide." CAPCOA, November 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/01_user-39-s-guide2016-3-2_15november2017.pdf?sfvrsn=4, p. 34.
[8] CalEEMod User Guide, *available at:* http://www.caleemod.com/, p. 1, 9.

number of pieces of equipment for all phases by 1.25, with the exception of worker trips required for the building construction and architectural coating phases.[9] Furthermore, the worker trip vehicle class is a 50/25/25 percent mix of light duty autos, light duty truck class 1 and light duty truck class 2, respectively."[10] Finally, the default worker trip length is consistent with the length of the operational home-to-work vehicle trips.[11] The operational home-to-work vehicle trip lengths are:

> "[B]ased on the *location* and *urbanization* selected on the project characteristic screen. These values were *supplied by the air districts or use a default average for the state*. Each district (or county) also assigns trip lengths for urban and rural settings" (emphasis added). [12]

Thus, the default worker trip length is based on the location and urbanization level selected by the User when modeling emissions. The below table shows the CalEEMod default rural and urban worker trip lengths by air basin (see excerpt below and Attachment A).[13]

Worker Trip Length by Air Basin		
Air Basin	**Rural (miles)**	**Urban (miles)**
Great Basin Valleys	16.8	10.8
Lake County	16.8	10.8
Lake Tahoe	16.8	10.8
Mojave Desert	16.8	10.8
Mountain Counties	16.8	10.8
North Central Coast	17.1	12.3
North Coast	16.8	10.8
Northeast Plateau	16.8	10.8
Sacramento Valley	16.8	10.8
Salton Sea	14.6	11
San Diego	16.8	10.8
San Francisco Bay Area	10.8	10.8
San Joaquin Valley	16.8	10.8
South Central Coast	16.8	10.8
South Coast	19.8	14.7
Average	**16.47**	**11.17**
Minimum	**10.80**	**10.80**
Maximum	**19.80**	**14.70**
Range	**9.00**	**3.90**

[9] "CalEEMod User's Guide." CAPCOA, November 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/01_user-39-s-guide2016-3-2_15november2017.pdf?sfvrsn=4, p. 34.
[10] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 15.
[11] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 14.
[12] "Appendix A Calculation Details for CalEEMod." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 21.
[13] "Appendix D Default Data Tables." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/05_appendix-d2016-3-2.pdf?sfvrsn=4, p. D-84 – D-86.

As demonstrated above, default rural worker trip lengths for air basins in California vary from 10.8- to 19.8-miles, with an average of 16.47 miles. Furthermore, default urban worker trip lengths vary from 10.8- to 14.7-miles, with an average of 11.17 miles. Thus, while default worker trip lengths vary by location, default urban worker trip lengths tend to be shorter in length. Based on these trends evident in the CalEEMod default worker trip lengths, we can reasonably assume that the efficacy of a local hire requirement is especially dependent upon the urbanization of the project site, as well as the project location.

Practical Application of a Local Hire Requirement and Associated Impact

To provide an example of the potential impact of a local hire provision on construction-related GHG emissions, we estimated the significance of a local hire provision for the Village South Specific Plan ("Project") located in the City of Claremont ("City"). The Project proposed to construct 1,000 residential units, 100,000-SF of retail space, 45,000-SF of office space, as well as a 50-room hotel, on the 24-acre site. The Project location is classified as Urban and lies within the Los Angeles-South Coast County. As a result, the Project has a default worker trip length of 14.7 miles.[14] In an effort to evaluate the potential for a local hire provision to reduce the Project's construction-related GHG emissions, we prepared an updated model, reducing all worker trip lengths to 10 miles (see Attachment B). Our analysis estimates that if a local hire provision with a 10-mile radius were to be implemented, the GHG emissions associated with Project construction would decrease by approximately 17% (see table below and Attachment C).

Local Hire Provision Net Change	
Without Local Hire Provision	
Total Construction GHG Emissions (MT CO_2e)	3,623
Amortized Construction GHG Emissions (MT CO_2e/year)	120.77
With Local Hire Provision	
Total Construction GHG Emissions (MT CO2e)	3,024
Amortized Construction GHG Emissions (MT CO_2e/year)	100.80
% Decrease in Construction-related GHG Emissions	***17%***

As demonstrated above, by implementing a local hire provision requiring 10 mile worker trip lengths, the Project could reduce potential GHG emissions associated with construction worker trips. More broadly, any local hire requirement that results in a decreased worker trip length from the default value has the potential to result in a reduction of construction-related GHG emissions, though the significance of the reduction would vary based on the location and urbanization level of the project site.

This serves as an example of the potential impacts of local hire requirements on estimated project-level GHG emissions, though it does not indicate that local hire requirements would result in reduced construction-related GHG emission for all projects. As previously described, the significance of a local hire requirement depends on the worker trip length enforced and the default worker trip length for the project's urbanization level and location.

[14] "Appendix D Default Data Tables." CAPCOA, October 2017, *available at:* http://www.aqmd.gov/docs/default-source/caleemod/05_appendix-d2016-3-2.pdf?sfvrsn=4, p. D-85.

Chemical Fate and Transport & Air Dispersion Modeling

Principal Environmental Chemist

Risk Assessment & Remediation Specialist

Education

Ph.D. Soil Chemistry, University of Washington, 1999. Dissertation on volatile organic compound filtration.

M.S. Environmental Science, U.C. Berkeley, 1995. Thesis on organic waste economics.

B.A. Environmental Studies, U.C. Santa Barbara, 1991. Thesis on wastewater treatment.

Professional Experience

Dr. Rosenfeld has over 25 years' experience conducting environmental investigations and risk assessments for evaluating impacts to human health, property, and ecological receptors. His expertise focuses on the fate and transport of environmental contaminants, human health risk, exposure assessment, and ecological restoration. Dr. Rosenfeld has evaluated and modeled emissions from unconventional oil drilling operations, oil spills, landfills, boilers and incinerators, process stacks, storage tanks, confined animal feeding operations, and many other industrial and agricultural sources. His project experience ranges from monitoring and modeling of pollution sources to evaluating impacts of pollution on workers at industrial facilities and residents in surrounding communities.

Dr. Rosenfeld has investigated and designed remediation programs and risk assessments for contaminated sites containing lead, heavy metals, mold, bacteria, particulate matter, petroleum hydrocarbons, chlorinated solvents, pesticides, radioactive waste, dioxins and furans, semi- and volatile organic compounds, PCBs, PAHs, perchlorate, asbestos, per- and poly-fluoroalkyl substances (PFOA/PFOS), unusual polymers, fuel oxygenates (MTBE), among other pollutants. Dr. Rosenfeld also has experience evaluating greenhouse gas emissions from various projects and is an expert on the assessment of odors from industrial and agricultural sites, as well as the evaluation of odor nuisance impacts and technologies for abatement of odorous emissions. As a principal scientist at SWAPE, Dr. Rosenfeld directs air dispersion modeling and exposure assessments. He has served as an expert witness and testified about pollution sources causing nuisance and/or personal injury at dozens of sites and has testified as an expert witness on more than ten cases involving exposure to air contaminants from industrial sources.

Professional History:

Soil Water Air Protection Enterprise (SWAPE); 2003 to present; Principal and Founding Partner
UCLA School of Public Health; 2007 to 2011; Lecturer (Assistant Researcher)
UCLA School of Public Health; 2003 to 2006; Adjunct Professor
UCLA Environmental Science and Engineering Program; 2002-2004; Doctoral Intern Coordinator
UCLA Institute of the Environment, 2001-2002; Research Associate
Komex H_2O Science, 2001 to 2003; Senior Remediation Scientist
National Groundwater Association, 2002-2004; Lecturer
San Diego State University, 1999-2001; Adjunct Professor
Anteon Corp., San Diego, 2000-2001; Remediation Project Manager
Ogden (now Amec), San Diego, 2000-2000; Remediation Project Manager
Bechtel, San Diego, California, 1999 – 2000; Risk Assessor
King County, Seattle, 1996 – 1999; Scientist
James River Corp., Washington, 1995-96; Scientist
Big Creek Lumber, Davenport, California, 1995; Scientist
Plumas Corp., California and USFS, Tahoe 1993-1995; Scientist
Peace Corps and World Wildlife Fund, St. Kitts, West Indies, 1991-1993; Scientist

Presentations:

Rosenfeld, P.E., Sutherland, A; Hesse, R.; Zapata, A. (October 3-6, 2013). Air dispersion modeling of volatile organic emissions from multiple natural gas wells in Decatur, TX. *44th Western Regional Meeting, American Chemical Society.* Lecture conducted from Santa Clara, CA.

Sok, H.L.; Waller, C.C.; Feng, L.; Gonzalez, J.; Sutherland, A.J.; Wisdom-Stack, T.; Sahai, R.K.; Hesse, R.C.; **Rosenfeld, P.E.** (June 20-23, 2010). Atrazine: A Persistent Pesticide in Urban Drinking Water. *Urban Environmental Pollution*. Lecture conducted from Boston, MA.

Feng, L.; Gonzalez, J.; Sok, H.L.; Sutherland, A.J.; Waller, C.C.; Wisdom-Stack, T.; Sahai, R.K.; La, M.; Hesse, R.C.; **Rosenfeld, P.E.** (June 20-23, 2010). Bringing Environmental Justice to East St. Louis, Illinois. *Urban Environmental Pollution.* Lecture conducted from Boston, MA.

Rosenfeld, P.E. (April 19-23, 2009). Perfluoroctanoic Acid (PFOA) and Perfluoroactane Sulfonate (PFOS) Contamination in Drinking Water From the Use of Aqueous Film Forming Foams (AFFF) at Airports in the United States. *2009 Ground Water Summit and 2009 Ground Water Protection Council Spring Meeting*, Lecture conducted from Tuscon, AZ.

Rosenfeld, P.E. (April 19-23, 2009). Cost to Filter Atrazine Contamination from Drinking Water in the United States" Contamination in Drinking Water From the Use of Aqueous Film Forming Foams (AFFF) at Airports in the United States. *2009 Ground Water Summit and 2009 Ground Water Protection Council Spring Meeting*. Lecture conducted from Tuscon, AZ.

Wu, C., Tam, L., Clark, J., **Rosenfeld, P**. (20-22 July, 2009). Dioxin and furan blood lipid concentrations in populations living near four wood treatment facilities in the United States. Brebbia, C.A. and Popov, V., eds., *Air Pollution XVII: Proceedings of the Seventeenth International Conference on Modeling, Monitoring and Management of Air Pollution*. Lecture conducted from Tallinn, Estonia.

Rosenfeld, P. E. (October 15-18, 2007). Moss Point Community Exposure To Contaminants From A Releasing Facility. *The 23rd Annual International Conferences on Soils Sediment and Water.* Platform lecture conducted from University of Massachusetts, Amherst MA.

Rosenfeld, P. E. (October 15-18, 2007). The Repeated Trespass of Tritium-Contaminated Water Into A Surrounding Community Form Repeated Waste Spills From A Nuclear Power Plant. *The 23rd Annual International Conferences on Soils Sediment and Water*. Platform lecture conducted from University of Massachusetts, Amherst MA.

Rosenfeld, P. E. (October 15-18, 2007). Somerville Community Exposure To Contaminants From Wood Treatment Facility Emissions. The *23rd Annual International Conferences on Soils Sediment and Water*. Lecture conducted from University of Massachusetts, Amherst MA.

Rosenfeld P. E. (March 2007). Production, Chemical Properties, Toxicology, & Treatment Case Studies of 1,2,3-Trichloropropane (TCP). *The Association for Environmental Health and Sciences (AEHS) Annual Meeting*. Lecture conducted from San Diego, CA.

Rosenfeld P. E. (March 2007). Blood and Attic Sampling for Dioxin/Furan, PAH, and Metal Exposure in Florala, Alabama. *The AEHS Annual Meeting.* Lecture conducted from San Diego, CA.

Hensley A.R., Scott, A., **Rosenfeld P.E.,** Clark, J.J.J. (August 21 – 25, 2006). Dioxin Containing Attic Dust And Human Blood Samples Collected Near A Former Wood Treatment Facility. *The 26th International Symposium on Halogenated Persistent Organic Pollutants – DIOXIN2006*. Lecture conducted from Radisson SAS Scandinavia Hotel in Oslo Norway.

Hensley A.R., Scott, A., **Rosenfeld P.E.,** Clark, J.J.J. (November 4-8, 2006). Dioxin Containing Attic Dust And Human Blood Samples Collected Near A Former Wood Treatment Facility. *APHA 134 Annual Meeting & Exposition.* Lecture conducted from Boston Massachusetts.

Paul Rosenfeld Ph.D. (October 24-25, 2005). Fate, Transport and Persistence of PFOA and Related Chemicals. Mealey's C8/PFOA. *Science, Risk & Litigation Conference.* Lecture conducted from The Rittenhouse Hotel, Philadelphia, PA.

Paul Rosenfeld Ph.D. (September 19, 2005). Brominated Flame Retardants in Groundwater: Pathways to Human Ingestion, *Toxicology and Remediation PEMA Emerging Contaminant Conference*. Lecture conducted from Hilton Hotel, Irvine California.

Paul Rosenfeld Ph.D. (September 19, 2005). Fate, Transport, Toxicity, And Persistence of 1,2,3-TCP. *PEMA Emerging Contaminant Conference.* Lecture conducted from Hilton Hotel in Irvine, California.

Paul Rosenfeld Ph.D. (September 26-27, 2005). Fate, Transport and Persistence of PDBEs. *Mealey's Groundwater Conference.* Lecture conducted from Ritz Carlton Hotel, Marina Del Ray, California.

Paul Rosenfeld Ph.D. (June 7-8, 2005). Fate, Transport and Persistence of PFOA and Related Chemicals. *International Society of Environmental Forensics: Focus On Emerging Contaminants*. Lecture conducted from Sheraton Oceanfront Hotel, Virginia Beach, Virginia.

Paul Rosenfeld Ph.D. (July 21-22, 2005). Fate Transport, Persistence and Toxicology of PFOA and Related Perfluorochemicals. *2005 National Groundwater Association Ground Water And Environmental Law Conference*. Lecture conducted from Wyndham Baltimore Inner Harbor, Baltimore Maryland.

Paul Rosenfeld Ph.D. (July 21-22, 2005). Brominated Flame Retardants in Groundwater: Pathways to Human Ingestion, Toxicology and Remediation. *2005 National Groundwater Association Ground Water and Environmental Law Conference.* Lecture conducted from Wyndham Baltimore Inner Harbor, Baltimore Maryland.

Paul Rosenfeld, Ph.D. and James Clark Ph.D. and Rob Hesse R.G. (May 5-6, 2004). Tert-butyl Alcohol Liability and Toxicology, A National Problem and Unquantified Liability. *National Groundwater Association. Environmental Law Conference*. Lecture conducted from Congress Plaza Hotel, Chicago Illinois.

Paul Rosenfeld, Ph.D. (March 2004). Perchlorate Toxicology. *Meeting of the American Groundwater Trust*. Lecture conducted from Phoenix Arizona.

Hagemann, M.F., **Paul Rosenfeld, Ph.D.** and Rob Hesse (2004). Perchlorate Contamination of the Colorado River. *Meeting of tribal representatives*. Lecture conducted from Parker, AZ.

Paul Rosenfeld, Ph.D. (April 7, 2004). A National Damage Assessment Model For PCE and Dry Cleaners. *Drycleaner Symposium. California Ground Water Association*. Lecture conducted from Radison Hotel, Sacramento, California.

Rosenfeld, P. E., Grey, M., (June 2003) Two stage biofilter for biosolids composting odor control. *Seventh International In Situ And On Site Bioremediation Symposium Battelle Conference* Orlando, FL.

Paul Rosenfeld, Ph.D. and James Clark Ph.D. (February 20-21, 2003) Understanding Historical Use, Chemical Properties, Toxicity and Regulatory Guidance of 1,4 Dioxane. *National Groundwater Association. Southwest Focus Conference. Water Supply and Emerging Contaminants*.. Lecture conducted from Hyatt Regency Phoenix Arizona.

Paul Rosenfeld, Ph.D. (February 6-7, 2003). Underground Storage Tank Litigation and Remediation. *California CUPA Forum*. Lecture conducted from Marriott Hotel, Anaheim California.

Paul Rosenfeld, Ph.D. (October 23, 2002) Underground Storage Tank Litigation and Remediation. *EPA Underground Storage Tank Roundtable*. Lecture conducted from Sacramento California.

Rosenfeld, P.E. and Suffet, M. (October 7- 10, 2002). Understanding Odor from Compost, *Wastewater and Industrial Processes. Sixth Annual Symposium On Off Flavors in the Aquatic Environment. International Water Association*. Lecture conducted from Barcelona Spain.

Rosenfeld, P.E. and Suffet, M. (October 7- 10, 2002). Using High Carbon Wood Ash to Control Compost Odor. *Sixth Annual Symposium On Off Flavors in the Aquatic Environment. International Water Association*. Lecture conducted from Barcelona Spain.

Rosenfeld, P.E. and Grey, M. A. (September 22-24, 2002). Biocycle Composting For Coastal Sage Restoration. *Northwest Biosolids Management Association*. Lecture conducted from Vancouver Washington..

Rosenfeld, P.E. and Grey, M. A. (November 11-14, 2002). Using High-Carbon Wood Ash to Control Odor at a Green Materials Composting Facility. *Soil Science Society Annual Conferenc*e. Lecture conducted from Indianapolis, Maryland.

Rosenfeld. P.E. (September 16, 2000). Two stage biofilter for biosolids composting odor control. *Water Environment Federation.* Lecture conducted from Anaheim California.

Rosenfeld. P.E. (October 16, 2000). Wood ash and biofilter control of compost odor. *Biofest.* Lecture conducted from Ocean Shores, California.

Rosenfeld, P.E. (2000). Bioremediation Using Organic Soil Amendments. *California Resource Recovery Association*. Lecture conducted from Sacramento California.

Rosenfeld, P.E., C.L. Henry, R. Harrison. (1998). Oat and Grass Seed Germination and Nitrogen and Sulfur Emissions Following Biosolids Incorporation With High-Carbon Wood-Ash. *Water Environment Federation 12th Annual Residuals and Biosolids Management Conference Proceedings*. Lecture conducted from Bellevue Washington.

Rosenfeld, P.E., and C.L. Henry. (1999). An evaluation of ash incorporation with biosolids for odor reduction. *Soil Science Society of America*. Lecture conducted from Salt Lake City Utah.

Rosenfeld, P.E., C.L. Henry, R. Harrison. (1998). Comparison of Microbial Activity and Odor Emissions from Three Different Biosolids Applied to Forest Soil. *Brown and Caldwell.* Lecture conducted from Seattle Washington.

Rosenfeld, P.E., C.L. Henry. (1998). Characterization, Quantification, and Control of Odor Emissions from Biosolids Application To Forest Soil. *Biofest.* Lecture conducted from Lake Chelan, Washington.

Rosenfeld, P.E, C.L. Henry, R. Harrison. (1998). Oat and Grass Seed Germination and Nitrogen and Sulfur Emissions Following Biosolids Incorporation With High-Carbon Wood-Ash. Water Environment Federation 12th Annual Residuals and Biosolids Management Conference Proceedings. Lecture conducted from Bellevue Washington.

Rosenfeld, P.E., C.L. Henry, R. B. Harrison, and R. Dills. (1997). Comparison of Odor Emissions From Three Different Biosolids Applied to Forest Soil. *Soil Science Society of America*. Lecture conducted from Anaheim California.

Teaching Experience:

UCLA Department of Environmental Health (Summer 2003 through 20010) Taught Environmental Health Science 100 to students, including undergrad, medical doctors, public health professionals and nurses. Course focused on the health effects of environmental contaminants.

National Ground Water Association, Successful Remediation Technologies. Custom Course in Sante Fe, New Mexico. May 21, 2002. Focused on fate and transport of fuel contaminants associated with underground storage tanks.

National Ground Water Association; Successful Remediation Technologies Course in Chicago Illinois. April 1, 2002. Focused on fate and transport of contaminants associated with Superfund and RCRA sites.

California Integrated Waste Management Board, April and May, 2001. Alternative Landfill Caps Seminar in San Diego, Ventura, and San Francisco. Focused on both prescriptive and innovative landfill cover design.

UCLA Department of Environmental Engineering, February 5, 2002. Seminar on Successful Remediation Technologies focusing on Groundwater Remediation.

University Of Washington, Soil Science Program, Teaching Assistant for several courses including: Soil Chemistry, Organic Soil Amendments, and Soil Stability.

U.C. Berkeley, Environmental Science Program Teaching Assistant for Environmental Science 10.

Academic Grants Awarded:

California Integrated Waste Management Board. $41,000 grant awarded to UCLA Institute of the Environment. Goal: To investigate effect of high carbon wood ash on volatile organic emissions from compost. 2001.

Synagro Technologies, Corona California: $10,000 grant awarded to San Diego State University.
Goal: investigate effect of biosolids for restoration and remediation of degraded coastal sage soils. 2000.

King County, Department of Research and Technology, Washington State. $100,000 grant awarded to University of Washington: Goal: To investigate odor emissions from biosolids application and the effect of polymers and ash on VOC emissions. 1998.

Northwest Biosolids Management Association, Washington State. $20,000 grant awarded to investigate effect of polymers and ash on VOC emissions from biosolids. 1997.

James River Corporation, Oregon: $10,000 grant was awarded to investigate the success of genetically engineered Poplar trees with resistance to round-up. 1996.

United State Forest Service, Tahoe National Forest: $15,000 grant was awarded to investigating fire ecology of the Tahoe National Forest. 1995.

Kellogg Foundation, Washington D.C. $500 grant was awarded to construct a large anaerobic digester on St. Kitts in West Indies. 1993

Deposition and/or Trial Testimony:

In the United States District Court For The District of New Jersey
Duarte et al, *Plaintiffs,* vs. United States Metals Refining Company et. al. *Defendant.*
Case No.: 2:17-cv-01624-ES-SCM
Rosenfeld Deposition. 6-7-2019

In the United States District Court of Southern District of Texas Galveston Division
M/T Carla Maersk, *Plaintiffs,* vs. Conti 168., Schiffahrts-GMBH & Co. Bulker KG MS "Conti Perdido" *Defendant.*
Case No.: 3:15-CV-00106 consolidated with 3:15-CV-00237
Rosenfeld Deposition. 5-9-2019

In The Superior Court of the State of California In And For The County Of Los Angeles – Santa Monica
Carole-Taddeo-Bates et al., vs. Ifran Khan et al., Defendants
Case No.: No. BC615636
Rosenfeld Deposition, 1-26-2019

In The Superior Court of the State of California In And For The County Of Los Angeles – Santa Monica
The San Gabriel Valley Council of Governments et al. vs El Adobe Apts. Inc. et al., Defendants
Case No.: No. BC646857
Rosenfeld Deposition, 10-6-2018; Trial 3-7-19

In United States District Court For The District of Colorado
Bells et al. Plaintiff vs. The 3M Company et al., Defendants
Case: No 1:16-cv-02531-RBJ
Rosenfeld Deposition, 3-15-2018 and 4-3-2018

In The District Court Of Regan County, Texas, 112th Judicial District
Phillip Bales et al., Plaintiff vs. Dow Agrosciences, LLC, et al., Defendants
Cause No 1923
Rosenfeld Deposition, 11-17-2017

In The Superior Court of the State of California In And For The County Of Contra Costa
Simons et al., Plaintiffs vs. Chevron Corporation, et al., Defendants
Cause No C12-01481
Rosenfeld Deposition, 11-20-2017

In The Circuit Court Of The Twentieth Judicial Circuit, St Clair County, Illinois
Martha Custer et al., Plaintiff vs. Cerro Flow Products, Inc., Defendants
Case No.: No. 0i9-L-2295
Rosenfeld Deposition, 8-23-2017

In The Superior Court of the State of California, For The County of Los Angeles
Warrn Gilbert and Penny Gilber, Plaintiff vs. BMW of North America LLC
Case No.: LC102019 (c/w BC582154)
Rosenfeld Deposition, 8-16-2017, Trail 8-28-2018

In the Northern District Court of Mississippi, Greenville Division
Brenda J. Cooper, et al., *Plaintiffs,* vs. Meritor Inc., et al., *Defendants*
Case Number: 4:16-cv-52-DMB-JVM
Rosenfeld Deposition: July 2017

In The Superior Court of the State of Washington, County of Snohomish
Michael Davis and Julie Davis et al., Plaintiff vs. Cedar Grove Composting Inc., Defendants
Case No.: No. 13-2-03987-5
Rosenfeld Deposition, February 2017
Trial, March 2017

In The Superior Court of the State of California, County of Alameda
Charles Spain., Plaintiff vs. Thermo Fisher Scientific, et al., Defendants
Case No.: RG14711115
Rosenfeld Deposition, September 2015

In The Iowa District Court In And For Poweshiek County
Russell D. Winburn, et al., Plaintiffs vs. Doug Hoksbergen, et al., Defendants
Case No.: LALA002187
Rosenfeld Deposition, August 2015

In The Iowa District Court For Wapello County
Jerry Dovico, et al., Plaintiffs vs. Valley View Sine LLC, et al., Defendants
Law No,: LALA105144 - Division A
Rosenfeld Deposition, August 2015

In The Iowa District Court For Wapello County
Doug Pauls, et al.,, et al., Plaintiffs vs. Richard Warren, et al., Defendants
Law No,: LALA105144 - Division A
Rosenfeld Deposition, August 2015

In The Circuit Court of Ohio County, West Virginia
Robert Andrews, et al. v. Antero, et al.
Civil Action N0. 14-C-30000
Rosenfeld Deposition, June 2015

In The Third Judicial District County of Dona Ana, New Mexico
Betty Gonzalez, et al. Plaintiffs vs. Del Oro Dairy, Del Oro Real Estate LLC, Jerry Settles and Deward DeRuyter, Defendants
Rosenfeld Deposition: July 2015

In The Iowa District Court For Muscatine County
Laurie Freeman et. al. Plaintiffs vs. Grain Processing Corporation, Defendant
Case No 4980
Rosenfeld Deposition: May 2015

In the Circuit Court of the 17th Judicial Circuit, in and For Broward County, Florida
Walter Hinton, et. al. Plaintiff, vs. City of Fort Lauderdale, Florida, a Municipality, Defendant.
Case Number CACE07030358 (26)
Rosenfeld Deposition: December 2014

In the United States District Court Western District of Oklahoma
Tommy McCarty, et al., Plaintiffs, v. Oklahoma City Landfill, LLC d/b/a Southeast Oklahoma City Landfill, et al. Defendants.
Case No. 5:12-cv-01152-C
Rosenfeld Deposition: July 2014

In the County Court of Dallas County Texas
Lisa Parr et al, *Plaintiff*, vs. Aruba et al, *Defendant.*
Case Number cc-11-01650-E
Rosenfeld Deposition: March and September 2013
Rosenfeld Trial: April 2014

In the Court of Common Pleas of Tuscarawas County Ohio
John Michael Abicht, et al., *Plaintiffs,* vs. Republic Services, Inc., et al., *Defendants*
Case Number: 2008 CT 10 0741 (Cons. w/ 2009 CV 10 0987)
Rosenfeld Deposition: October 2012

In the United States District Court of Southern District of Texas Galveston Division
Kyle Cannon, Eugene Donovan, Genaro Ramirez, Carol Sassler, and Harvey Walton, each Individually and on behalf of those similarly situated, *Plaintiffs,* vs. BP Products North America, Inc., *Defendant.*
Case 3:10-cv-00622
Rosenfeld Deposition: February 2012
Rosenfeld Trial: April 2013

In the Circuit Court of Baltimore County Maryland
Philip E. Cvach, II et al., *Plaintiffs* vs. Two Farms, Inc. d/b/a Royal Farms, Defendants
Case Number: 03-C-12-012487 OT
Rosenfeld Deposition: September 2013

Matthew F. Hagemann, P.G., C.Hg., QSD, QSP

Geologic and Hydrogeologic Characterization
Industrial Stormwater Compliance
Investigation and Remediation Strategies
Litigation Support and Testifying Expert
CEQA Review

Education:

M.S. Degree, Geology, California State University Los Angeles, Los Angeles, CA, 1984.
B.A. Degree, Geology, Humboldt State University, Arcata, CA, 1982.

Professional Certifications:

California Professional Geologist
California Certified Hydrogeologist
Qualified SWPPP Developer and Practitioner

Professional Experience:

Matt has 25 years of experience in environmental policy, assessment and remediation. He spent nine years with the U.S. EPA in the RCRA and Superfund programs and served as EPA's Senior Science Policy Advisor in the Western Regional Office where he identified emerging threats to groundwater from perchlorate and MTBE. While with EPA, Matt also served as a Senior Hydrogeologist in the oversight of the assessment of seven major military facilities undergoing base closure. He led numerous enforcement actions under provisions of the Resource Conservation and Recovery Act (RCRA) while also working with permit holders to improve hydrogeologic characterization and water quality monitoring.

Matt has worked closely with U.S. EPA legal counsel and the technical staff of several states in the application and enforcement of RCRA, Safe Drinking Water Act and Clean Water Act regulations. Matt has trained the technical staff in the States of California, Hawaii, Nevada, Arizona and the Territory of Guam in the conduct of investigations, groundwater fundamentals, and sampling techniques.

Positions Matt has held include:

- Founding Partner, Soil/Water/Air Protection Enterprise (SWAPE) (2003 – present);
- Geology Instructor, Golden West College, 2010 – 2014;
- Senior Environmental Analyst, Komex H2O Science, Inc. (2000 -- 2003);

- Executive Director, Orange Coast Watch (2001 – 2004);
- Senior Science Policy Advisor and Hydrogeologist, U.S. Environmental Protection Agency (1989–1998);
- Hydrogeologist, National Park Service, Water Resources Division (1998 – 2000);
- Adjunct Faculty Member, San Francisco State University, Department of Geosciences (1993 – 1998);
- Instructor, College of Marin, Department of Science (1990 – 1995);
- Geologist, U.S. Forest Service (1986 – 1998); and
- Geologist, Dames & Moore (1984 – 1986).

Senior Regulatory and Litigation Support Analyst:

With SWAPE, Matt's responsibilities have included:

- Lead analyst and testifying expert in the review of over 100 environmental impact reports since 2003 under CEQA that identify significant issues with regard to hazardous waste, water resources, water quality, air quality, Valley Fever, greenhouse gas emissions, and geologic hazards. Make recommendations for additional mitigation measures to lead agencies at the local and county level to include additional characterization of health risks and implementation of protective measures to reduce worker exposure to hazards from toxins and Valley Fever.
- Stormwater analysis, sampling and best management practice evaluation at industrial facilities.
- Manager of a project to provide technical assistance to a community adjacent to a former Naval shipyard under a grant from the U.S. EPA.
- Technical assistance and litigation support for vapor intrusion concerns.
- Lead analyst and testifying expert in the review of environmental issues in license applications for large solar power plants before the California Energy Commission.
- Manager of a project to evaluate numerous formerly used military sites in the western U.S.
- Manager of a comprehensive evaluation of potential sources of perchlorate contamination in Southern California drinking water wells.
- Manager and designated expert for litigation support under provisions of Proposition 65 in the review of releases of gasoline to sources drinking water at major refineries and hundreds of gas stations throughout California.
- Expert witness on two cases involving MTBE litigation.
- Expert witness and litigation support on the impact of air toxins and hazards at a school.
- Expert witness in litigation at a former plywood plant.

With Komex H2O Science Inc., Matt's duties included the following:

- Senior author of a report on the extent of perchlorate contamination that was used in testimony by the former U.S. EPA Administrator and General Counsel.
- Senior researcher in the development of a comprehensive, electronically interactive chronology of MTBE use, research, and regulation.
- Senior researcher in the development of a comprehensive, electronically interactive chronology of perchlorate use, research, and regulation.
- Senior researcher in a study that estimates nationwide costs for MTBE remediation and drinking water treatment, results of which were published in newspapers nationwide and in testimony against provisions of an energy bill that would limit liability for oil companies.
- Research to support litigation to restore drinking water supplies that have been contaminated by MTBE in California and New York.

- Expert witness testimony in a case of oil production-related contamination in Mississippi.
- Lead author for a multi-volume remedial investigation report for an operating school in Los Angeles that met strict regulatory requirements and rigorous deadlines.

- Development of strategic approaches for cleanup of contaminated sites in consultation with clients and regulators.

Executive Director:

As Executive Director with Orange Coast Watch, Matt led efforts to restore water quality at Orange County beaches from multiple sources of contamination including urban runoff and the discharge of wastewater. In reporting to a Board of Directors that included representatives from leading Orange County universities and businesses, Matt prepared issue papers in the areas of treatment and disinfection of wastewater and control of the discharge of grease to sewer systems. Matt actively participated in the development of countywide water quality permits for the control of urban runoff and permits for the discharge of wastewater. Matt worked with other nonprofits to protect and restore water quality, including Surfrider, Natural Resources Defense Council and Orange County CoastKeeper as well as with business institutions including the Orange County Business Council.

Hydrogeology:

As a Senior Hydrogeologist with the U.S. Environmental Protection Agency, Matt led investigations to characterize and cleanup closing military bases, including Mare Island Naval Shipyard, Hunters Point Naval Shipyard, Treasure Island Naval Station, Alameda Naval Station, Moffett Field, Mather Army Airfield, and Sacramento Army Depot. Specific activities were as follows:

- Led efforts to model groundwater flow and contaminant transport, ensured adequacy of monitoring networks, and assessed cleanup alternatives for contaminated sediment, soil, and groundwater.
- Initiated a regional program for evaluation of groundwater sampling practices and laboratory analysis at military bases.
- Identified emerging issues, wrote technical guidance, and assisted in policy and regulation development through work on four national U.S. EPA workgroups, including the Superfund Groundwater Technical Forum and the Federal Facilities Forum.

At the request of the State of Hawaii, Matt developed a methodology to determine the vulnerability of groundwater to contamination on the islands of Maui and Oahu. He used analytical models and a GIS to show zones of vulnerability, and the results were adopted and published by the State of Hawaii and County of Maui.

As a hydrogeologist with the EPA Groundwater Protection Section, Matt worked with provisions of the Safe Drinking Water Act and NEPA to prevent drinking water contamination. Specific activities included the following:

- Received an EPA Bronze Medal for his contribution to the development of national guidance for the protection of drinking water.
- Managed the Sole Source Aquifer Program and protected the drinking water of two communities through designation under the Safe Drinking Water Act. He prepared geologic reports, conducted public hearings, and responded to public comments from residents who were very concerned about the impact of designation.

- Reviewed a number of Environmental Impact Statements for planned major developments, including large hazardous and solid waste disposal facilities, mine reclamation, and water transfer.

Matt served as a hydrogeologist with the RCRA Hazardous Waste program. Duties were as follows:

- Supervised the hydrogeologic investigation of hazardous waste sites to determine compliance with Subtitle C requirements.
- Reviewed and wrote "part B" permits for the disposal of hazardous waste.
- Conducted RCRA Corrective Action investigations of waste sites and led inspections that formed the basis for significant enforcement actions that were developed in close coordination with U.S. EPA legal counsel.
- Wrote contract specifications and supervised contractor's investigations of waste sites.

With the National Park Service, Matt directed service-wide investigations of contaminant sources to prevent degradation of water quality, including the following tasks:

- Applied pertinent laws and regulations including CERCLA, RCRA, NEPA, NRDA, and the Clean Water Act to control military, mining, and landfill contaminants.
- Conducted watershed-scale investigations of contaminants at parks, including Yellowstone and Olympic National Park.
- Identified high-levels of perchlorate in soil adjacent to a national park in New Mexico and advised park superintendent on appropriate response actions under CERCLA.
- Served as a Park Service representative on the Interagency Perchlorate Steering Committee, a national workgroup.
- Developed a program to conduct environmental compliance audits of all National Parks while serving on a national workgroup.
- Co-authored two papers on the potential for water contamination from the operation of personal watercraft and snowmobiles, these papers serving as the basis for the development of nation-wide policy on the use of these vehicles in National Parks.
- Contributed to the Federal Multi-Agency Source Water Agreement under the Clean Water Action Plan.

Policy:

Served senior management as the Senior Science Policy Advisor with the U.S. Environmental Protection Agency, Region 9. Activities included the following:

- Advised the Regional Administrator and senior management on emerging issues such as the potential for the gasoline additive MTBE and ammonium perchlorate to contaminate drinking water supplies.
- Shaped EPA's national response to these threats by serving on workgroups and by contributing to guidance, including the Office of Research and Development publication, Oxygenates in Water: Critical Information and Research Needs.
- Improved the technical training of EPA's scientific and engineering staff.
- Earned an EPA Bronze Medal for representing the region's 300 scientists and engineers in negotiations with the Administrator and senior management to better integrate scientific principles into the policy-making process.
- Established national protocol for the peer review of scientific documents.

Geology:

With the U.S. Forest Service, Matt led investigations to determine hillslope stability of areas proposed for timber harvest in the central Oregon Coast Range. Specific activities were as follows:

- Mapped geology in the field, and used aerial photographic interpretation and mathematical models to determine slope stability.
- Coordinated his research with community members who were concerned with natural resource protection.
- Characterized the geology of an aquifer that serves as the sole source of drinking water for the city of Medford, Oregon.

As a consultant with Dames and Moore, Matt led geologic investigations of two contaminated sites (later listed on the Superfund NPL) in the Portland, Oregon, area and a large hazardous waste site in eastern Oregon. Duties included the following:

- Supervised year-long effort for soil and groundwater sampling.
- Conducted aquifer tests.
- Investigated active faults beneath sites proposed for hazardous waste disposal.

Teaching:

From 1990 to 1998, Matt taught at least one course per semester at the community college and university levels:

- At San Francisco State University, held an adjunct faculty position and taught courses in environmental geology, oceanography (lab and lecture), hydrogeology, and groundwater contamination.
- Served as a committee member for graduate and undergraduate students.
- Taught courses in environmental geology and oceanography at the College of Marin.

Matt taught physical geology (lecture and lab and introductory geology at Golden West College in Huntington Beach, California from 2010 to 2014.

Invited Testimony, Reports, Papers and Presentations:

Hagemann, M.F., 2008. Disclosure of Hazardous Waste Issues under CEQA. Presentation to the Public Environmental Law Conference, Eugene, Oregon.

Hagemann, M.F., 2008. Disclosure of Hazardous Waste Issues under CEQA. Invited presentation to U.S. EPA Region 9, San Francisco, California.

Hagemann, M.F., 2005. Use of Electronic Databases in Environmental Regulation, Policy Making and Public Participation. Brownfields 2005, Denver, Coloradao.

Hagemann, M.F., 2004. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in Nevada and the Southwestern U.S. Presentation to a meeting of the American Groundwater Trust, Las Vegas, NV (served on conference organizing committee).

Hagemann, M.F., 2004. Invited testimony to a California Senate committee hearing on air toxins at schools in Southern California, Los Angeles.

Brown, A., Farrow, J., Gray, A. and **Hagemann, M.**, 2004. An Estimate of Costs to Address MTBE Releases from Underground Storage Tanks and the Resulting Impact to Drinking Water Wells. Presentation to the Ground Water and Environmental Law Conference, National Groundwater Association.

To: Housing Element
Subject: Draft Housing Element 2021-2029

Hello,

Regarding Casa Bella Apartments, 1840 Park Ave...

Please check this only if you think it is worth checking into. In the prior housing element, Casa Bella was the most at risk subsidized senior housing in Costa Mesa due to having a for profit owner and due to the Hud contract expiring in 2015. The owner did renew the contract for 10 years at that time.

*** Now, the contract expires in Sept 2025. And the for profit owner's mortgage deed restrictions ended in 2020. The owner changed property management companies in Autumn 2020 and beginning April 2021 began renovations to the building.. it appears in order to bring it up to code? All red flags in some of our opinions as tenants here.

I skimmed a few parts of the draft Housing Element and I "think" I read one paragraph that said there is no at risk housing in Costa Mesa in this plan??? My feeling is that Casa Bella is at risk?? But I have no idea. Did anyone check with the actual owner about future plans for this property?

Thank you,
N. Henning

Cc: info@fairhousingelements.org
Subject: Costa Mesa Draft Housing element study session

City Council members and Planning staff and consultants:

I live in Westside Costa Mesa and vote in District 5.

Costa Mesa should live up to its professed values to be safe, inclusive and vibrant by updating the draft housing element to include the high resource neighborhoods that are studiously avoided in the draft Housing Element but required by state law to Affirmatively Further Fair Housing.

The draft housing element is problematic because it doesn't follow the law or HCD's guidance. The sites inventory needs to include a probability of development during the RHNA cycle (AB 1397). The draft Housing element doesn't do that.

The housing element describes Measure Y as a growth management initiative. This is incorrect, it is a government constraint on housing. If the city continues to tiptoe around Measure Y allowing this governmental constraint on housing the remedies of the Housing Accountability Act will kick in up to by-right affordable housing that city council and city management cannot reject.

Both San Mateo and Huntington Beach have lost major court cases that firmly established the constitutionality of the Housing Accountability Act. I encourage Costa Mesa to not waste scarce time and money on another fruitless legal challenge and get started legalizing housing in all neighborhoods.

The city should live up to its professed values and embrace the positive vision of a safe, inclusive and vibrant Costa Mesa.

1. Safety achieved by reducing speeds and the number of cars on the city's public property.
2. Inclusive by updating the zoning to a form based code that uses objective criteria to allow the full RHNA allocation plus 20% to be built in this cycle in all neighborhoods.
3. Vibrant by moving to a form based code that allows services in all neighborhoods to reduce car dependence.

RE: Public Comment on the Draft Housing Element & Regional Housing Needs

Dear Costa Mesa:

I have worked to provide housing for special needs, low income people for 20 years. Many come from Orange County in general and many are from Costa Mesa specifically. They all suffer from a lack of affordable housing options in their community of choice.

I am writing on their behalf to encourage you to abandon the appeal of the Regional Housing Needs Assessment determination required by the California Department of Housing and Community Development. Besides the sound legal reasoning behind the assessment, you should act in your constituent's best interests by facing reality: there is simply not enough affordable housing for the people who already live in Costa Mesa.

My experience is that when low income Costa Mesa residents can't find housing there, they migrate to other communities - even though Costa Mesa has been their home. And that is the precise reason you, along with other Orange County communities, are pushing back on the requirement that you plan for housing for all of your residents. Pushing "undesirable" people out of town is not only morally reprehensible; it's illegal.

Planning to make housing unavailable for already disadvantaged residents will not pass constitutional muster, and it certainly will not improve your City in the long term. Providing all people with housing opportunities will improve Costa Mesa for everyone.

The incredible amount of taxpayer money you spend to harm poor people's ability to live and thrive in Costa Mesa is fiscally irresponsible. Moving your perceived "problem people" to other jurisdictions is incredibly selfish and solves nothing. You have a duty to make room for everyone. I encourage you to plan accordingly – it's the law.

Sincerely,
Paul Dumont

Subject: Re: Comments on Fair Housing Elements Draft

Good evening,

It was a pleasure to attend this evening's study session and observe the high degree of well-informed, thoughtful discussion by my representatives.

Since protocol prevents observers from speaking at the end, I am writing again to especially applaud Commissioner's Zich's suggestion that we put more attention creating pathways to home ownership as an alternative to privately developed apartment complexes. Many developers are not even local so the money they collect in rent leaves town and the tenants are at the mercy of rent increases.that currently consume much too much of their income.

I also appreciated Commissioner Toler and Flo Martin's comments which favored looking for more ways to create additional housing in R-1 zones. Both these ideas are potential strategies for reducing housing instability.

Finally, I hope that the idea of starting an Ad Hoc Advisory Committee to address the constraints posed by Measure Y is implemented. As Mayor Stephens said, this seems most pressing if we need another referendum in 2022.

Thank you for serving us!

Best Regards,
Betsy

Subject: 19th Street - Housing Element Draft Proposal (September 13, 2021)

Please enter these comments into the public record regarding the Housing Element Draft Proposal presented September 13, 2021.

1. **I request/vote to; deny the Housing Element Draft Proposal to tear down Smart & Final and El Metate Market and replace it with 'affordable' high density housing on 19th Street.**
2. Local residents in our neighborhood depend on Smart & Final for groceries with a large number of residents commuting on foot. Smart & Final has little competition as it is the largest grocery store serving the community of Costal Mesa on 19th Street west of Harbor Blvd.
3. So many units proposed for 19th Street will not fix the homeless problem. Adding high density developments in place of the Smart & Final and the Soup Kitchen presents instability within an already high-density zoned neighborhood. This is a recipe for crime and overcrowding. There is already a shortage of parking within our residential streets and authorizing additional high-density housing will further ruin property values.
4. There are other properties identified and proposed which are much more appropriate to re-zone for high-density housing.
    a. Golf course practice area/driving range which is raw land next to the 2 (two) 18-hole golf courses. Partial use of this property of 100-acres would easily hold 4000 affordable homes which the state law requires. Building out just the practice area is a much better option than ruining an already stressed neighborhood.
    b. Another potential location identified for these proposed units would be the Fairview Development Center.
5. Either of the properties identified in paragraph 3. above impacts our already high-density zoned neighborhood community of Costa Mesa in the least possible way.
6. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Subject: 19th Street

As a home owner there is already to many people around the 19th st. area. Street parking is very limited, traffic in the neighborhood streets is high. This is not an acceptable place to add low income homes. This will also eliminate markets that the community uses.

The Golf course is a better option.

19th street has to high a population. Its unsafe for my wife to run in the mornings alone and my kids to play in front yard. Due to all the traffic. More housing in this area will make it worse for existing residents.

Low income housing needs to be in a location that can handle the increase in population. 19th is not the place!

Subject: Concerns regarding Proposed W 19th Street Development

Please enter these comments into the public record regarding the Housing element draft proposal presented September 13, 2021.

1. Many people walk to Smart & Final and El Metate Market to get their groceries. I request that to deny the proposal to tear both of these down and put hundreds of high-density units in their place. Where will the residents buy their food? Do not tear down the grocery store and replace it with 'affordable' high-density housing on 19th Street.

2. So many units proposed for 19th Street will not fix the homeless problem, and adding high density development in the soup kitchen neighborhood smacks of instability over a multi-year period. Do not force higher density in here. It is a recipe for a slum and overcrowding. Currently, there is a shortage of parking on the residential streets that will be overrun if this plan moves forward.

3. Use the golf course practice area/driving range which is raw land next to the 2 (two) 18 hole golf courses. These 100 acres will easily hold the 4000 affordable homes state law requires to be planned for. This will give certainty that the required 4000 affordable homes will be built at all. All 100 acres don't need to be taken, and the 2 18 hole courses are totally separate from the practice area.

3.1 The proposed plan contains no certainty at all, and a lot of wishful thinking that the hundreds of retrofit projects actually take place. Utilizing the raw land that the practice area provides will impact the community in the least possible way.

4. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Sincerely,

Holly Rahill
Costa Mesa Resident & Home Owner

This is a recipe for crime and overcrowding. There is already a shortage of parking within our residential streets and authorizing additional high-density housing will further ruin property values.
4. There are other properties identified and proposed which are much more appropriate to re-zone for high-density housing.
    a. Golf course practice area/driving range which is raw land next to the 2 (two) 18-hole golf courses. Partial use of this property of 100-acres would easily hold 4000 affordable homes which the state law requires. Building out just the practice area is a much better option than ruining an already stressed neighborhood.
    b. Another potential location identified for these proposed units would be the Fairview Development Center.
5. Either of the properties identified in paragraph 3. above impacts our already high-density zoned neighborhood community of Costa Mesa in the least possible way.
6. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Regards,

Eleanor Markle

Re: Comment on September 15, 2020 Agenda Item 12 of the Consent Calendar: Approval of an Affordable Housing Agreement that Provides for Nine Affordable Units as Part of the 200-Unit Multi-Family Development Project Located at 2277 Harbor Boulevard
Affordable Housing Initiatives under the Settlement Agreement, *Dadey, et al. v. City of Costa Mesa, et al.* (Orange County Superior Court Case No. 30-2014-00757962-CU-CR-CJC)

Dear Mayor Foley and City Council Members:

The Public Law Center writes to encourage the City Council to approve Agenda Item 12 of the Consent Calendar, Approval of an Affordable Housing Agreement that Provides for Nine Affordable Units as Part of the 200-Unit Multi-Family Development Project Located at 2277 Harbor Boulevard, at tonight's City Council Meeting. As the Staff Report accurately points out, approving and executing this Affordable Housing Agreement is necessary to comply with the global settlement agreement entered into by all parties in the *Dadey, et al. v. City of Costa Mesa, et al.* and to comply with the July 12, 2018 Stipulated Judgment. Additionally, adopting and executing this Affordable Housing Agreement will provide affordable units to very low income households in Costa Mesa and help the City begin to meet the great need for affordable housing that currently exists. We applaud the City for complying with its agreements and working toward the important goal of expanding the availability of affordable housing in Costa Mesa.

We would also like to take this opportunity to mention the City's other obligations under the Settlement Agreement for *Dadey, et al. v. City of Costa Mesa, et al.*

Fairview Developmental Center

Pursuant to the Settlement Agreement, "The City agrees to exercise reasonable best efforts consistent with and as authorized by applicable law to: (i) promote development of affordable housing at the real property commonly referred to as the Fairview Developmental Center ("FDC") . . . in accordance with the City's land use and zoning for that site of Institutional & Recreational-Multi-Use District (I&R-MLT), which provides for twenty-percent (20%) affordable housing in multi-unit residential developments; (ii) not limit the affordable housing at the FDC to developmentally disabled persons to the extent it is authorized under applicable federal and state law and subject to the conditions of disposition of the State-owned property to do so and to obtain permission from the State of California and any relevant state or federal authorities to permit such housing; (iii) encourage that residential development at FDC provide for a reasonable percentage of extremely low, very low, and low income affordable units, based on the applicable, then-current Orange county income limits established by the Department of Housing and Community Development ("HCD") or the United States Department of Housing and Urban Development ("HUD"); and obtain permission and authority, as necessary, from the State of California and any relevant state or federal authorities toward achieving (i) to (iii) of this subsection 3(a)."

As we understand it, over a year ago the Costa Mesa City Council formed an Ad Hoc Committee of the Council to Address the Upcoming Closure and Potential Future Uses of the Fairview Developmental Center with the objective to "effectively analyze the matter and develop a City of Costa Mesa strategy to address the future of Fairview Developmental Center." We are eager to hear of the Ad Hoc Committee's progress, especially in light of the State's goal to have finalized operational closure of the Fairview Developmental Center by July 1, 2020.

We also expect that, with the upcoming updates for the 6th Cycle Housing Element, there will be a lot of discussions of the role Fairview Developmental Center may play in the City's efforts to reach its future Regional Housing Needs Allocation, estimated to be over 11,000 units.

As the Ad Hoc Committee continues it work and as the City approaches drafting its 6th Cycle Housing Element, we remind the City of its obligations under the Settlement Agreement to use best efforts to ensure that 20% of the housing developed in multi-family residential developments at Fairview Development Center is affordable to extremely-low-, very-low-, and low-income households.

James Street/West 18th Street Properties

The City also agreed to seek proposals to substantially rehabilitate or redevelop affordable housing at the James Street/West 18th Street Properties with new or extended covenants of affordability that include a minimum of ten percent extremely-low-income units.

As we understand, the City issued a request for proposals with a deadline of February 2019 and received several proposals by that deadline. The City staff was then reviewing the proposals to make a recommendation of a finalist development team to the City Council and agendize the

selection for final approval. We are eager to learn of the City's progress in selecting a development team and the currently proposed timeline for this project.

Again, we applaud the City's efforts in making affordable housing a priority and look forward to continuing to work with the City on these important goals.

Sincerely,

/s/

Costa Mesa Affordable Housing Coalition

September 10, 2021

Ms. Minoo Ashabi, Principal Planner
City of Costa Mesa
77 Fair Drive
Costa Mesa, CA 92626

RE: Comments on Draft 2021-2029 Housing Element Update (August 2021)

Dear Ms. Ashabi:

On behalf of the Costa Mesa Affordable Housing Coalition (the Coalition), we thank you for the opportunity to review and comment on the city of Costa Mesa's draft Housing Element—6th cycle—2021-2029. As you know, the Coalition is a local advocacy group which for many years has been encouraging Costa Mesa to actively facilitate the construction of affordable homes for the city's lower income residents. We submit this letter as part of our public comments on the draft Housing Element.

First of all, we congratulate the city for its success in conducting a remarkably robust, open, and serious process of public engagement. The Coalition had the opportunity to meet several times with you and your excellent consultant, Kimley-Horn, in both small and large group settings. Throughout this process, we have been impressed with the city's willingness to listen to our concerns and consider our ideas for spurring the development of homes affordable to the city's lower income residents.

In this letter, we recommend a few important substantive changes to the draft Housing Element and seek clarification on a number of important issues. We begin with recommendations on **our two most pressing concerns**: **the need for the city to adopt expeditiously an effective inclusionary zoning ordinance**, **and the related need to postpone until <u>after</u> adoption of the inclusionary zoning ordinance all zoning changes the Housing Element identifies as essential for meeting the city's 2021-2029 RHNA**.

<u>Recommendations and Requests for Clarification</u>

1. **The city must move expeditiously to adopt an effective inclusionary zoning ordinance**. It is widely understood such an ordinance is one of the most important tools available to a city for spurring the construction of affordable housing for lower income households. We are aware the city has engaged a consultant to help draft an inclusionary zoning ordinance, and the ordinance is nearly ready for presentation to the Planning Commission and City Council for adoption.
    a. **We recommend the draft Housing Element be revised to include a deadline of the end of October 2022 for adoption of an inclusionary zoning ordinance.**
    b. **Given the city's high 2021-2029 RHNA for lower income units and the city's persistent failure to produce any significant amount of lower income units through the last three planning periods, we recommend the city's**

inclusionary zoning ordinance contain provisions for setting aside a minimum of 15% of the units for lower income households.

2. **The city must postpone enactment of any zoning changes or other land use changes affecting allowable residential densities identified in the draft Housing Element as necessary to meet the city's 2021-2029 RHNA until after the city adopts the inclusionary zoning ordinance**.
    a. It would be a grave mistake for the city to enact any zoning or land use changes which increase residential densities without first ensuring those changes are tied to housing affordability requirements. Otherwise, developers could lock in the new increased densities by entering into a development agreement which would not be bound by the new inclusionary zoning ordinance.
    b. Assuming the city meets its October 2022 deadline for adoption of the inclusionary zoning ordinance, we believe the city will be able to meet its obligation to accomplish the specified zoning and other land use changes within three years of certification of the Housing Element.

3. **The city should create a stand-alone program that allows <u>by-right development</u> for new construction projects which make 100% of the units affordable to low-, very low- and extremely low-income households.**

4. **The city should provide additional analysis on the Fairview Developmental Center (FDC) and the implications of SB 82.** In the Housing Element, the city identified FDC as a 109-acre opportunity site and assumes 40% of future units on the site will be affordable to lower income households (575 very low and 345 low).[1] However, SB 82 states:

    "Notwithstanding any other law, the Director of General Services, with the consent of the Director of Developmental Services, may, in the best interests of the state, let to any person or entity real property ***not exceeding 20 acres*** located within the grounds of the Fairview Developmental Center for a period not to exceed 55 years, at a price that will permit the development of affordable housing for people with developmental disabilities… A ***minimum of 20 percent*** of the housing units developed shall be available and affordable to individuals with developmental disabilities served by a regional center…"[2]

5. **The city should <u>decrease</u> the FDC's affordability assumption that 40% of the units will be for lower income. A more realistic affordability assumption for FDC is 20% for lower income.** While SB 82 indicates that a <u>minimum of 20%</u> of units will be affordable to individuals with developmental disabilities, we are unaware of any written or public statement from the state expressing interest in making <u>more than 20%</u> of homes affordable to lower income households.

6. **The city should create a stand-alone program and commit to working with the state to ensure that at least 40% of the total future units on the FDC site will be**

[1] City of Costa Mesa Housing Element 2021-2029 Public Review Draft, Appendix B Candidate Sites Analysis Overview, August 2021, p. B-16.
[2] California Legislative Information, Bill Text SB-82 Developmental Services, June 24, 2015. https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201520160SB82

affordable to lower income households. There is ample land at FDC to accommodate the affordable housing needs of the city's developmentally and physically disabled residents and the city's lower income working families. To further that end, the city should create **a specific plan for FDC** which would allow high density residential throughout the 109 acres. The city should also issue a request for proposal for the creation of **a master plan** for a housing village at FDC.

7. **Measure Y is Costa Mesa's largest unique constraint to development because it incentivizes less dense, and thus unaffordable development, and perpetuates exclusionary zoning. The city council should adopt a policy <u>to exempt from Measure Y</u> any projects approved under the inclusionary zoning ordinance which contribute units toward meeting the city's extremely low-, very low-, and low-income RHNA requirements.**

8. **The city should provide further analysis on the constraints for the three large sites (Sakioka Lot 2, Home Ranch, and Pacific Arts Plaza) which are in the 2021-2029 sites inventory but are currently under development agreements. Specifically, the city should analyze the affordability assumptions of "15% lower income" for these three sites in light of each site's respective development agreement and whether that development agreement will be affected by the city's anticipated future adoption of an inclusionary housing ordinance.**
    a. Sakioka Lot 2 and Home Ranch have been vacant for decades. How realistic is it that these two sites will be developed in the 2021-2029 cycle?
    b. Though these three large sites are in the 2021-2029 sites inventory, because they are each currently under a development agreement, they will be exempt from the requirements of the inclusionary housing ordinance the city intends to adopt. <u>The only way these sites would be bound by that ordinance is if the property owners opt into future General Plan and zoning regulations</u>. This fact was confirmed during the city's consideration of the proposal to extend Sakioka Lot 2's Development Agreement. The city confirmed that "if the Agreement were extended, and if an inclusionary housing ordinance was adopted along with future General Plan and zoning regulations, the developer would need to comply with the inclusionary housing ordinance **<u>IF</u>** they opted to develop per the future General Plan and zoning regulations."[3]
    c. On April 6, 2021, the city council extended the Development Agreement for Sakioka Lot 2 for an additional 10 years. Prior to that extension, the city's Planning Commission recommended the Development Agreement include affordable housing requirements to help achieve the city's RHNA goals.[4] The property owner, however, was only interested in having Sakioka Lot 2 identified as a housing opportunity site; **he was not "amenable" to any affordable housing requirements**. Given the property owner's recent strong opposition to including any affordable housing provisions in the extended Development Agreement, it seems unrealistic to assume the property owner will prioritize the

[4] Costa Mesa City Council Agenda Report, An Ordinance for an Extension To And Amendment of the Sakioka Farms Development Agreement, April 6, 2021, p. 9-10.

development of housing affordable to lower income households in developing the property.

d. Similarly, in applying the "15% lower income" assumption to these three large properties, it seems the city is over relying on the assumption that the developers will use the city's existing density bonus to produce affordable units. It should be noted **the density bonus alone has not been effective in producing affordable housing** for lower income households. From 2014-2020, only 30 permitted units were issued at low and very low income.[5] Of those, **only 9 units** are deed restricted at very low and 21 units are non-deed restricted ADUs at very low and low income.

9. **The city should add a chart specifying both the current allowable density and the proposed new density for each of the sites identified for rezoning to accommodate the city's 2021-2029 RHNA.** This information will help the public understand the proposed zoning changes.

10. **The city should strengthen Program 3F: Motel Conversions, Efficiency Units, and Co-living Housing Types to include long-term resident protections through anti-displacement, right-of-first refusal and relocation benefits strategies.**

11. **The city should include a stand-alone program to make mid-cycle adjustments if production is not moving forward on identified large sites and if production falls short of the expected yield during the first half of the planning period.**

Thank you for considering these recommendations for further revisions to and clarifications of the draft 2021-2029 Housing Element update. We welcome the opportunity to continue our dialogue with the city to ensure that the draft Housing Element includes effective policies that will result in new affordable homes for extremely low-, very low- and low-income working families in Costa Mesa.

Sincerely,

Kathy Esfahani

Subject: 19th Street

As a home owner there is already to many people around the 19th st. area. Street parking is very limited, traffic in the neighborhood streets is high. This is not an acceptable place to add low income homes. This will also eliminate markets that the community uses.
The Golf course is a better option.
19th street has to high a population. Its unsafe for my wife to run in the mornings alone and my kids to play in front yard. Due to all the traffic. More housing in this area will make it worse for existing residents.
Low income housing needs to be in a location that can handle the increase in population. 19th is not the place!

Subject: Re: Comments on Fair Housing Elements Draft

Good evening,
It was a pleasure to attend this evening's study session and observe the high degree of well-informed, thoughtful discussion by my representatives.
Since protocol prevents observers from speaking at the end, I am writing again to especially applaud Commissioner's Zich's suggestion that we put more attention creating pathways to home ownership as an alternative to privately developed apartment complexes. Many developers are not even local so the money they collect in rent leaves town and the tenants are at the mercy of rent increases.that currently consume much too much of their income.
I also appreciated Commissioner Toler and Flo Martin's comments which favored looking for more ways to create additional housing in R-1 zones. Both these ideas are potential strategies for reducing housing instability.
Finally, I hope that the idea of starting an Ad Hoc Advisory Committee to address the constraints posed by Measure Y is implemented. As Mayor Stephens said, this seems most pressing if we need another referendum in 2022.
Thank you for serving us!
Best Regards,
Betsy

Subject: Community Profile

Dear Sirs:
On page 2-14 of the Community Profile PDF, the section on "Overcrowding" begins and offers its definition as relates to this document. My question here is whether the Assisted Living Facilities and the Drug and Alcohol Rehabilitation Homes that heavily populate our city are considered in this study as "Residences" or are properly classified as stand-alone businesses excluded from these overall numbers. By the definition offered here, I believe each of those homes could qualify as "overcrowded" and artificially skew the data toward implying a greater need for housing remediation than actually exists.
If you should require a specific person to whom you should submit this question, please forward it to Nick, as he narrated the September 2nd webinar and would probably best know how to rout this request.
Thank you for your efforts on an otherwise thankless endeavor.
Sincerely,
Dr. Ron Housepian

Subject:	FW: Concerns regarding Proposed W 19th Street Development
Date:	Tuesday, September 14, 2021 3:45:10 PM

From: Holly Rahill <holly.rahill@gmail.com>
Sent: Tuesday, September 14, 2021 3:38 PM
To: Housing Element <housing-element@costamesaca.gov>
Subject: Concerns regarding Proposed W 19th Street Development

Please enter these comments into the public record regarding the Housing element draft proposal presented September 13, 2021.

1. Many people walk to Smart & Final and El Metate Market to get their groceries. I request that to deny the proposal to tear both of these down and put hundreds of high-density units in their place. Where will the residents buy their food? Do not tear down the grocery store and replace it with 'affordable' high-density housing on 19th Street.

2. So many units proposed for 19th Street will not fix the homeless problem, and adding high density development in the soup kitchen neighborhood smacks of instability over a multi-year period. Do not force higher density in here. It is a recipe for a slum and overcrowding. Currently, there is a shortage of parking on the residential streets that will be overrun if this plan moves forward.

3. Use the golf course practice area/driving range which is raw land next to the 2 (two) 18 hole golf courses. These 100 acres will easily hold the 4000 affordable homes state law requires to be planned for. This will give certainty that the required 4000 affordable homes will be built at all. All 100 acres don't need to be taken, and the 2 18 hole courses are totally separate from the practice area.

3.1 The proposed plan contains no certainty at all, and a lot of wishful thinking that the hundreds of retrofit projects actually take place. Utilizing the raw land that the practice area provides will impact the community in the least possible way.

4. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Sincerely,

Holly Rahill
Costa Mesa Resident & Home Owner

Subject: Costa Mesa Draft Housing element study session

City Council members and Planning staff and consultants:

I live in Westside Costa Mesa and vote in District 5.

Costa Mesa should live up to its professed values to be safe, inclusive and vibrant by updating the draft housing element to include the high resource neighborhoods that are studiously avoided in the draft Housing Element but required by state law to Affirmatively Further Fair Housing.

The draft housing element is problematic because it doesn't follow the law or HCD's guidance. The sites inventory needs to include a probability of development during the RHNA cycle (AB 1397). The draft Housing element doesn't do that.

The housing element describes Measure Y as a growth management initiative. This is incorrect, it is a government constraint on housing. If the city continues to tiptoe around Measure Y allowing this governmental constraint on housing the remedies of the Housing Accountability Act will kick in up to by-right affordable housing that city council and city management cannot reject.

Both San Mateo and Huntington Beach have lost major court cases that firmly established the constitutionality of the Housing Accountability Act. I encourage Costa Mesa to not waste scarce time and money on another fruitless legal challenge and get started legalizing housing in all neighborhoods.

The city should live up to its professed values and embrace the positive vision of a safe, inclusive and vibrant Costa Mesa.

1. Safety achieved by reducing speeds and the number of cars on the city's public property.
2. Inclusive by updating the zoning to a form based code that uses objective criteria to allow the full RHNA allocation plus 20% to be built in this cycle in all neighborhoods.
3. Vibrant by moving to a form based code that allows services in all neighborhoods to reduce car dependence.

Aaron Klemm

Subject: Draft Housing Element 2021-2029

Hello,
Regarding Casa Bella Apartments, 1840 Park Ave...
Please check this only if you think it is worth checking into. In the prior housing element, Casa Bella was the most at risk subsidized senior housing in Costa Mesa due to having a for profit owner and due to the Hud contract expiring in 2015. The owner did renew the contract for 10 years at that time.
*** Now, the contract expires in Sept 2025. And the for profit owner's mortgage deed restrictions ended in 2020. The owner changed property management companies in Autumn 2020 and beginning April 2021 began renovations to the building.. it appears in order to bring it up to code? All red flags in some of our opinions as tenants here.
I skimmed a few parts of the draft Housing Element and I "think" I read one paragraph that said there is no at risk housing in Costa Mesa in this plan??? My feeling is that Casa Bella is at risk?? But I have no idea. Did anyone check with the actual owner about future plans for this property?
Thank you,
N. Henning

Subject: Housing Element comments

Hello,

I wanted to provide some comments on the Housing Element update.

There is a full range of historic housing types in between the single family home and the big ugly apartment complex. The "Missing Middle Housing" types – duplexes, quadplexes, rowhouses, and other small multi-family buildings – with good development standards, can all fit well within whatever shades of neighborhood character we're hoping to create or preserve, including our R-1 neighborhoods. Without assaulting the cherished feel of our surroundings, these can help us increase the amount of housing, while also allowing neighborhoods to accommodate people of all ages, incomes, and family sizes (so that families can stay close and people can age in place, among other benefits). I hope that through this update, we focus not just on big projects on big sites, but on *facilitating* organic and stable neighborhood growth from local, small developers through many small projects. A big reason this sort of incremental development often doesn't pencil out because of parking requirements, which brings me to my next point: cars.

As we grow, we need to figure out how to become less of a car-depended and car-oriented city, otherwise the NIMBYs are right – we'll be a tangled mess of traffic, which no one wants. So to what extent is this new document going to deal with the question of how to uncouple housing from the car demand (or toll) that unnecessarily comes with it? As we try to accommodate 11,000 units over the next 10 years, what are we doing to ensure that owning a car and is optional rather than virtually required?

Lastly, I hope that the discussion over housing and the resulting decisions we make reflect some sort of unified vision for *how* we want to grow. While it may be necessary to balance out our spreadsheets and zone for the necessary amount of units, it is crucial that this is all decided within the context of how we want our city to look, feel, and function. How will the occupants of the new housing get around? How will the developments fit into the existing urban fabric and contribute to the neighborhood they're in? How will the new buildings relate to and shape the public space they sit on? We don't want islands of amenity-rich high-density housing fortressed in from bleak rights of way and full of people who never leave the property without a car (if you want to know what I'm describing, drive up Jamboree in Irvine some time). The sustainable, equitable, fair, and good way to approach this is not to resist growth, but to plan for it, so that as we inevitably grow, we grow well. I hope that we can approach our housing need holistically, taking more into consideration than where we can allow the spaceship developments to land, and nesting the whole conversation into a greater discussion about what our *physical vision* is for our city.

Thank you for reading. I look forward to participating in this process.

Russell Toler (lifelong Costa Mesa resident, husband, father, car driver, bike rider, walker, and renter, who can barely afford to stay)

Minoo,

To the best of my ability I translated the email below:

"I just wanted to know how much importance will be placed on the comments that are posed by tenants? The importance shouldn't just be placed on the comments posed by business and property owners, but also the people who inhabit those properties. Because without the tenants, the property owners cannot prosper."

Please note that LOA I QUIMONOS is not a word, so I am assuming they meant LOS INQUILINOS, which means THE TENANTS.

Also, it seemed to be one run on sentence so I had to break it into a question and two sentences.

The last portion seems to be a Bible verse and I believe it is being used as part of their signature, so I didn't feel the need to translate that.

Subject: Proposed W 19th Street Development

Please enter these comments into the public record regarding the Housing element draft proposal presented September 13, 2021.

1. Many people walk to Smart & Final and El Metate Market to get their groceries. I request that to deny the proposal to tear both of these down and put hundreds of high-density units in their place. Where will the residents buy their food? Do not tear down the grocery store and replace it with 'affordable' high-density housing on 19th Street.

2. So many units proposed for 19th Street will not fix the homeless problem, and adding high density development in the soup kitchen neighborhood smacks of instability over a multi-year period. Do not force higher density in here. It is a recipe for a slum and overcrowding. Currently, there is a shortage of parking on the residential streets that will be overrun if this plan moves forward.

3. Use the golf course practice area/driving range which is raw land next to the 2 (two) 18 hole golf courses. These 100 acres will easily hold the 4000 affordable homes state law requires to be planned for. This will give certainty that the required 4000 affordable homes will be built at all. All 100 acres don't need to be taken, and the 2 18 hole courses are totally separate from the practice area.

3.1 The proposed plan contains no certainty at all, and a lot of wishful thinking that the hundreds of retrofit projects actually take place. Utilizing the raw land that the practice area provides will impact the community in the least possible way.

4. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Subject: Public Comment: City of Costa Mesa Housing Element Update

Good evening,
My name is Matthew Sheehan and I live in Costa Mesa (District 48). I believe everyone should have access to housing in our community.
As a child, my family often struggled to pay for housing. My parents had to sign a new lease nearly every other year because they were unable to renew their leases due to rising requested rents and were not able to afford to purchase a house. During my elementary school years, I had to transfer to a new school each year due to our housing instability. As a current resident of Costa Mesa, this is not the future I want for my family and future children.
Please use our housing element update to boldly plan for more housing near our jobs, transit stops, and high-resource neighborhoods. Let's clearly demonstrate to HCD and to our community that we are affirmatively furthering fair housing in our city.
Best,
Matthew Sheehan

St. Joseph Hospital

August 17, 2020

Dear City of Costa Mesa:

St. Joseph Hospital is an acute-care not-for-profit faith-based hospital founded in 1929 by the Sisters of St. Joseph of Orange, located in the City of Orange, California. St. Joseph Hospital has 465 licensed beds, 379 of which are currently available, and a campus that is approximately 38 acres in size. The hospital's Primary Service Area includes the cities of Orange, Santa Ana, Tustin, Anaheim, Garden Grove, Villa Park, and Westminster. Major programs and services include cardiac care, critical care, diagnostic imaging, emergency medicine, obstetrics and behavioral/psychiatric services. St. Joseph Hospital dedicates resources to improve the health and quality of life for the communities it serves, with special emphasis on the needs of the economically poor and vulnerable.

Over the past two years, St. Joseph Hospital along with 13 other Community-based Organizations have been working together to address the issues of Economic Development, Housing, and Mental Health. In Central Orange County. The goal is to impact systemic change and determinants of health. In addition, St. Joseph Hospital has identified Homeless & Housing as one its key priorities of focus over the next three years. We will develop strategies to address lack of affordable housing under the framework of equity and racial disparities. We firmly believe that in order for communities to thrive, there must be equitable systems in place that support social consciousness, economic stability, and diverse development.

As you are aware, Housing Elements for the 6th cycle period (2021-29) are due to the California Department of Housing and Community Development by October 2021. St. Joseph Hospital understands the importance of each city's Housing Element in guiding housing programs, policies, zoning, and funding, as well as in reducing current obstacles to affordable housing development. We also understand the importance of Housing Elements in addressing racial equity in housing, particularly with the new statutory requirements mandating the inclusion of programs that affirmatively further fair housing in 6th cycle Housing Elements.[1] Together with local housing advocate groups, we support their efforts on ensuring that each jurisdiction increases affordable housing opportunities by implementing proven strategies, policies, and incentives that encourage affordable housing development.

St. Joseph Hospital seeks to ensure that jurisdictions engage the public in revising their Housing Elements. Public engagement is a necessary component of the Housing Element process as California Housing Element law states: "The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element…" Broad participation and true engagement of the public increases the likelihood that the community members involved in the discussion and planning processes will support new housing strategies and housing developments. Public engagement should include participation from residents of diverse communities, housing consumers, service providers, and advocates.

As the City embarks upon the 2021-29 Housing Element update, St. Joseph Hospital requests that the City include us and our local housing advocates in the upcoming Housing Element review and evaluation of the current 5th cycle planning period goals, policies, and accomplishments.

St. Joseph Hospital further requests that the City conduct a robust public participation process for the 6th cycle Housing Element update and that it incorporate St. Joseph Hospital, affordable housing advocates, and residents of low-income communities in this process. We believe that you will achieve a stronger Housing Element update through diverse community participation, outreach and community planning process.

To ensure adequate public participation St. Joseph Hospital recommends the following:

1. The City should engage community participation and feedback at all stages of the Housing Element review and update. Participation should not be limited to public hearings.
2. The City should allow for various methods of engagement to encourage public participation. For instance, for members of the public who may not have access to the internet or a computer, or who are unable to use video applications, consistently provide an adequate telephone option – available in multiple languages – and generally ensure that members of the community who lack adequate technology can participate in meetings about the Housing Element review.
3. The City's public participation and outreach opportunities should be meaningful and create various platforms (for example, virtual, written, workshops, webinars, community meetings, and public hearings) for the engagement of community members who reside in lower-income communities, affordable housing partners, Legal Aid organizations, and advocates.
4. The City should create a diverse Housing Element Working Group to evaluate the current Housing Element policies and accomplishments. This Working Group could help create policies and recommendations for the new Housing Element update to ensure that you meet the housing needs of those who are most vulnerable in the City.
5. The City should include affordable housing advocates in any anticipated Housing Element Work Group and provide the opportunity for them to provide their analysis on 5th cycle RHNA progress and be a part of developing policy recommendations on the 6th cycle update.
6. The City should engage community organizations representing and advocating for families and individuals residing in lower-income communities to ensure that members of these communities can directly participate and that the City considers their perspective as part of the evaluation and creation of policies that create affordable housing.

We would appreciate the City giving us notice of any public meetings regarding the Housing Element. We look forward to working with the City to encourage effective housing policies that will help create balanced housing development and create much-needed affordable housing in our local communities. If you have any questions, please feel free to contact me at (714) 771-8000 Ext. 17535 or Cecilia.Bustamante-Pixa@stjoe.org.

Sincerely,

Cecilia Bustamante Pixa

Cecilia Bustamante Pixa, MPH, MHCML
Director, Community Health Investment

[1]California Government Code § 8899.50 (Assembly Bill 686).

Mr. Mayor, Members of the City Council,

I felt that it would be helpful to write out some thoughts on the Housing Element in hopes that it might both shape the document and help keep the conversation going in what I believe to be a good direction. Although much of what I say in this letter is aspirational, I truly believe that Costa Mesa - much more than most of our neighbors - is set up to grow *well* into a leafy, sustainable, interesting, and beautiful urban city. Some of what is written below is immediately applicable to the task at hand (updating the Housing Element), while some of it is applicable to the larger task of updating the Circulation Element and Title 13 of the Municipal Code (zoning) in the wake of the updated Housing Element.

Please note that the ever-present risk of discussing these things is that certain terms and ideas are likely to present themselves very differently in each of our heads. To keep this letter from getting too long, I'm taking that risk. I've provided links throughout and resources at the bottom that might help refine the things I'm trying to say, and I'm also always available to chat.

> *The entire planning profession can be boiled down to "how do we fix the problems caused by cars and apartment bans without banning cars or allowing apartments"*
>
> - Someone on Twitter

1. The shape of the city

A good, healthy city is a collection of complete neighborhoods. *Complete* neighborhoods are geographically finite areas with civic, cultural, and commercial uses embedded into them. They also have a variety of housing types (among other benefits, like the mixing of ages and socio-economic status, this allows people to move through stages of life without having to leave their neighborhoods behind). This idea that neighborhoods are limited in size[1] is key. We often talk about how complete our *city* is (citing the number of dwellings, amount of office and commercial space, etc.), but what *matters* is the proximity of everything. That is really the whole point of a city. But when we disregard the human scale, we create a contradiction of a city. When civic, cultural, and commercial uses, and different housing options are embedded into our neighborhoods and within comfortable walking

[1] A complete neighborhood should roughly have a ¼ mile radius (5-minute walk), since that is the distance that people are generally willing to walk before opting to drive instead.

distance of each other, the city can flourish. But when they are grouped into sectors, miles away from each other and only accessible by car, the city *cannot* function well.

I say this because we need to think about what each neighborhood is lacking before designating vacant or underutilized lots as "opportunity sites" for housing. [2] This is important to remember, because once land is developed, it stays like that for a very long time. However good an increase in housing supply may be, a neighborhood which contains nothing but housing - or worse: nothing but one master-planned, centrally-managed product - is an incomplete neighborhood. Density without amenity is just car-dependent density. See this great blog post on the 5 Cs of neighborhood planning by urban designer Howard Blackson.

My point: *We need to make sure that this Housing Element is actively helping make all of our neighborhoods more complete. And we need to make sure that we aren't precluding the future "completion" of neighborhoods by planning for every last bit of available land to be filled in with nothing but more housing.*

2. **Regulating What Matters**

As with many other cities, it's our development standards that are largely responsible for our shortage of housing. Pre-WWII neighborhoods that represent the best of what we're trying to imitate with our R-1 standards contained a variety of building types, densities, and even uses. What we like about them is that the streets are lined with shade trees, cars move slowly, the buildings are mostly one or two stories and aren't too wide, they have conspicuous front doors and big front windows, they have porches and small gardens in front that make for comfortable transitions between private and public space, etc. If these (and whatever else we identify as the features that make such places desirable) successfully embody the spirit of what R-1 is intended to be, then *these* are the things that we should be regulating. And the same principle applies to whichever type of environment we're trying to achieve - whether we're talking about R-1-type streets or whatever the subsequent "clicks up" are.[3]

[2] This requires a lot-by-lot analysis, but for a simple example - have we identified any land as an "opportunity site" that is in a park-poor neighborhood? (see General Plan Figures OS-R 2 & 3).
[3] The subsequent "clicks up" shouldn't be on their own, far away: they should be embedded into the same neighborhoods - or even blocks!

But rather than regulating the physical things that matter, we've been regulating the abstract things that no one actually cares about. Density caps, minimum lot sizes, and costly parking mandates are three principal zoning culprits that have kept traditional American housing types - those that can deliver good density at multiple scales - out of our city.[4] As a result, our neighborhoods are frozen: single-family homes are selling for millions of dollars, and the only other product that gets built are distorted variants of the single-family home - crammed together unnaturally on jointly-owned lots, often turned away from the public realm. But we need to get our development codes right (code the things that we actually care about) so that our "built-out" parts can be liberated to evolve incrementally and organically.

There are many potential housing types that should be embedded into our neighborhoods, but are simply coded out. Missing middle housing traditionally refers to multiplexes that are the general size and shape as houses and therefore integrate seamlessly into R-1-type environments. But there are many other possibilities of types that are larger than missing middle products, but smaller than wraps or podiums, that - if done well - can work just fine in the *right parts* of each of our neighborhoods. We need to not only allow, but actively facilitate these "small" multi-family, or even mixed-use, infill projects. See here for some examples. We should not be depending on mega-projects to deliver all of our new housing.

Much of what I'm trying to get at is summed up in this line from a great Strong Towns post by Daniel Herriges:

> *Let single-family homes become duplexes and triplexes. Let small apartment buildings, 8 to 12 units, go up on corner lots. Let mom-and-pop stores and cafes open in these areas to serve growing populations.*

Then there are the large parcels in the city - both those still undeveloped and those that are ripe for redevelopment. Historically, large sites have been developed as sealed off pods of a single building type. Monticello - the 20 acre mega-project that turns its back on 3,000 feet of public streets - may have been the first of this type in town, and until recently have been in the form of garden apartments, like these, these, these, these, and these. But this model of development neglects the most *fundamental* principles of city-making: **urban**

[4] To take the simplest example: currently, how could you build a duplex in R-2? To subdivide your land, each new parcel would need 12,000 square feet and 100 feet of frontage(!) To build on an existing, smaller parcel, you would be allowed one unit per 3,630 square feet of lot area (meaning that you would not be able to build a duplex on a typical 6,000 square foot lot). If your lot has been that size since 1992, however, you can build a duplex - but only if you can fit 5 parking spaces on it.

land should be carved into small, walkable blocks, public open spaces, and streets of shared use; buildings should address, and take pedestrian access off those spaces. These are the characteristics that every desirable urban environment shares. But look what we're still allowing to happen with Superior Pointe, 17th West, The Enclave, and Miraval. The edge buildings in the first two at least address and take access off the street (though with questionable frontages), while The Enclave and Mirval have followed in the tradition of walling themselves off from the outside world. Rather than authentic places, these are all homogenous (in so many ways) faux-"communities" - unstitched from the fabric of the surrounding environment, impenetrable by the public, and wholly unable to evolve. You have to leave the whole project if your financial situation changes, if your family grows, or if it's time for grandma to be closer. We are making static, stagnant *projects* rather than *places* - despite how they are branded and marketed. [5] This is largely a matter of getting our codes right, and it should not have to require a colossal effort.

My point: *Our existing neighborhoods cannot be frozen and protected from any change. We need to make sure that our code is set up so that the change that does happen is incremental, context-sensitive, and in the right parts of each neighborhood. For the bigger projects, we need to especially make sure we have better subdivision standards. In all contexts, we should be regulating the things we actually care about, so that each project contributes to the aesthetic quality of our "urban commons."*

3. **Corridor Visioning**

I have heard the idea from the dais that we might want to articulate a vision - or visions - for our corridors, and even regulate them with form-based codes. I want to throw in my support. Like much of Southern California, our grid of corridors is a result of the Public Land Survey System from long before our time. When the functional classification system of highways is applied to this pattern, the result can only be seen as ideal by the most myopic observer. Look what has happened to places like Huntington Beach. We instantly recognize this interpretation of what a street is supposed to be as *not good*, yet we've been allowing the same thing to happen - project-by-project - along what perhaps is our corridor with the most potential: Harbor Blvd. Look at all the new development (for example Blue Sol, Twenty8, Aura, Azulon) and note what they have in common - they don't want to have

[5] 580 Anton is a different sort of project, but errs in the same way as many others. The entirety of the ground floor that is adjacent to the public realm - 700 feet of frontage - is dead. A lot of planning energy went into this project, yet the building fails in its most basic role (from an urban design perspective): shape and engage with the public space of the street. In the core of the City of the Arts, we need to do a better job of communicating our belief that beauty actually matters.

anything to do with Harbor Blvd. This is understandable, since we've allowed Harbor Blvd. to become a high-speed 6+ lane highway (making it a convenient place to *drive through*, but a very unpleasant place to *be*). We also - bewilderingly - have been allowing (even more) single-family homes to back right up to the boulevard. Is this consistent with our vision for our corridors? Is the future of Harbor Blvd. a high-speed channel of privacy walls with the backs of low-density, car-dependent housing on either side? The Planning Commission recently reviewed the plans for a new car wash to be built on a commercially-zoned lot on Harbor and Dale. I checked the zoning: 2 stories maximum, 20-foot setback required for both streets, FAR capped at 0.4, etc. It's no wonder that a car wash is moving in. Each new development betrays the embarrassing fact that we don't know what we want. We don't have a vision.

We would be wise to remember Principle no. 19 of the Charter of the New Urbanism (which is worth reading in its entirety): *A primary task of all urban architecture and landscape design is the physical definition of streets and public spaces as places of shared use.*

The establishing of a form-based code would force us to figure out what the barriers to development are, what the market can support, and what ideal-yet-practical buildout *should* look, feel, and function like. The development code, then, would be set up to deliver physically-predictable results that are consistent with that vision, and with as little headache as possible each time an application comes in.

My point: *Yes to visioning our corridors, yes to code revisions in light of those established visions, yes to form-based zoning if necessary.*

4. **Open Space**

When the countryside is far away, the city becomes a prison.

- Christopher Alexander

In Southern California we've carpeted the land with low-density, car-dependent sprawl. In our worst suburban pockets, we lack both the benefits of the city *and* the benefits of the country. A wise response is not to try to freeze growth and long for more rural times. Nor is it to swing the other way and hastily welcome any and all growth. Our best approach is to strategically do what we can to control *the shape and character* of our city as the market and the State push us to grow (see No. 1, above). This obviously applies at all scales and should permeate all of our discussions about everything planning-related, but what I'm bringing up

here is the topic of semi-wild, easily-accessible open space *within* the city. The concept of "transfer of development rights" (TDR) programs is traditionally applied to cities that want to curb outward sprawl and protect surrounding farmland. It is dependent on the not-ideal system of regulating the abstract concept of density via the DUA metric. While I very much hope that we can stop regulating density through zoning at the parcel level, the DUA caps at the Land Use Plan[6] level may suffice to make a program like this viable. We have some very large vacant and underutilized parcels in the city, and it would be folly to let them just get paved over without considering whether they (in whole or part) might be opportunities to get more quality open spaces in the city that are easily-accessible to more people. This approach has the added benefit of not requiring that the city purchase the land: the property owner only sells the *rights* to build a specified number of units to another property owner elsewhere, and maintains ownership of the land - with a newly-recorded easement. I've never seen TDR programs set up like this before. But I don't see why the idea wouldn't be worth exploring if we are truly interested in rewilding parts of our city and providing more quality open space to more people as we densify.[7]

Having said that, we also need to recognize the obvious: the topic of urban open spaces and the lack of access to them is a modern, self-inflicted problem. The most common open space is the space between buildings - streets. But since we've allowed most of our streets to be monopolized by cars - and therefore unsafe and unpleasant for people outside of vehicles - none of it "counts." This really is amazing, considering the amount of open space there is in the city and how close it is to all of us! Instead, we provide pockets of turf with plastic play equipment where we can manage, but leave it up to residents to figure out how to navigate to those places safely through a network of disqualified open space that is dominated by fast-moving cars. Whenever we talk about the need for open space, we need to also talk about the need to reconceptualize our streets.

My point: *We need more public open space, and we need it more easily-accessible to more people. This topic increases in importance as we increase in population. A TDR program might be one means towards this end, or maybe we have better ideas. Our streets should serve as public open space too, but they cannot fulfill this basic role when driving convenience is treated as the highest good.*

---

[6] Using DUA at the Land Use Plan level is fine. It should *inform* our zoning. But when the metric is being applied parcel-by-parcel through zoning, it is being used inappropriately.

[7] I am using semi-wild spaces (like Canyon, Talbert, and Fairview Parks) as a gold standard here, but other forms of accessible open space may work well too - especially those that might provide some revenue to the property owner.

5. Parking & Mobility

> *In The High Cost of Free Parking, which the American Planning Association published in 2005, I argued that minimum parking requirements subsidize cars, increase traffic congestion, pollute the air, encourage sprawl, increase housing costs, degrade urban design, prevent walkability, damage the economy, and penalize poor people. Since then, to my knowledge, no member of the planning profession has argued that parking requirements do not cause these harmful effects. Instead, a flood of recent research has shown they do cause these harmful effects. Parking requirements in zoning ordinances are poisoning our cities with too much parking. Minimum parking requirements are a fertility drug for cars.*
>
> - Donald Shoup

> *The right to access every building in a city by private motorcar, in an age when everyone owns such a vehicle, is actually the right to destroy the city.*
>
> - Lewis Mumford

Before we go too deep in our analysis of how much and what sort of housing is possible, we need to figure out what we're going to do about our costly on-site car storage mandates, AKA parking minimums. Arguments in favor of keeping them can only be from the myopic perspective of the driver who has been accustomed to free and easy parking (and no traffic) wherever they go, despite how unrealistic and unsustainable that expectation may be. Arguments for their reduction or removal include sound logic and big-picture thinking.

As we grow, our dependence on cars *needs* to weaken, and the comfort and convenience of getting around in more spatially-efficient ways *needs* to become more viable for more people. Right now, despite our aspirational statements about being a multi-modal city, our codes ensure that driving remains the most convenient option to get around - through the continued use of LOS, high on-site parking requirements, the limitation of FAR and DUA by estimated trip generation, etc.[8] As we prepare for this growth spurt, we need to figure out

[8] Donald Shoup: *Consider the three main elements of city planning. First, divide the city into separate zones (housing here, jobs there, shopping somewhere else) to create travel between the zones. Second, limit density to spread everything apart and further increase travel. Third, require ample off-street parking to spread everything even farther apart and make cars the easiest and cheapest way to travel. Cities have unwisely adopted these three car-friendly policies. Separated land uses, low density, and ample free parking create drivable cities but prevent walkable neighborhoods. Although city planners did not intend to enrich the automobile and oil industries, they have shaped our cities to suit our cars.*

what we need to do to function and thrive as a car-lite city. If we allow the accommodation of cars to shape (and price) the development of 11,760 units, then this problem will be further entrenched for decades, and we will be marching away from our city and state climate goals. Now is the time to decide that we are going to grow sustainably (both spatially and environmentally), and calibrate our codes around more noble needs like beauty, green and active mobility, and affordable housing.

My point: *If we plan for cars and traffic, we'll get cars and traffic. Right now, despite what we say, we are still very much planning for cars and traffic. The discussion of the future of local housing must be intertwined with the discussion of the future of local access and mobility.*

I don't want any of the above points to be construed as hard-edged propositions. They are not intended as solutions, only ideas in an attempt to move the conversation in what I believe is the right direction. I want to push them to the front of our discourse over the vision of our city, and I hope that they can be on our minds as we continue to work out our future.

Thanks for reading,
Russell Toler

Subject: Fwd: Housing Element Comments

Hello,

I have been watching the recorded community meetings on District 4 & 5, and I would like to be included in future meetings or information updates.
I am a home owner and live in the freedom homes in district 5. I am very busy with young children, as are many of my neighbors, and hence I don't have allot of time for city involvement. However, this housing issue has been a hot topic for the 10+ years I have lived in Costa Mesa. After listening to these meetings, I feel like people like me were not well represented, and I would like to share a few of my own comments. I bought my house in 2015 for $570K. An average lot in my neighborhood is 0.2 acres, so that makes 5 houses per acre. When I heard the State has decided that 30 "housing units" per acre is the only way to have "affordable" housing, my jaw dropped a little. 30 "housing units" per acre is 6X the housing density of my neighborhood. Pause a little and contemplate 6X the density of my neighborhood as the new "norm" & it will make your head spin a little. I am biased like everyone, and I enjoy the lifestyle that a less dense neighborhood provides. I also feel that the majority of my neighbors do as well. I am not excited to think about the entire lower west-side of Costa Mesa be transformed into high density neighborhoods, but I truly feel powerless to fight the state. I would only like to offer my suggestions to this conversation:

1. Consider the parking situation! Please! Do not believe that people bike or walk & don't have cars, that's a ridiculous idea. Go to any high density area (like district 4), and you find parking is very hard to find. I love walking & biking around town, but also realize most people do not, and most times biking & walking is not possible (ex: night time…raining…doctors appt…

errands…the list goes on & on).

2. We must set a housing "unit" to Park space ratio! If you want to attract families, you must have local park space! No exceptions. And I'm not talking about the little tiny parks they put in those high density neighborhoods with only 1 play structure & no swings or space to run around. Those are not sufficient & should not count towards park space.
3. Please realize these 3 story + rooftops places that are popping up everywhere are selling for MORE money than small houses in my spacious neighborhood. So it is NOT TRUE that high density = less cost.
4. If you really wanted to build affordable houses, you would build a simple house (1 or 2 stories, Asphalt driveway, formica countertops, simple fixes, 1 bathroom, etc…) That is the only really affordable house. All other types are not affordable. And government assistance does not mean affordable. If you need help to pay for something, is it affordable?

Thank you,
Riley Watson

Thanks to Minoo, Nick and TeamCM for meeting with us on the housing element update. Please do keep Kathy and the CM affordable housing coalition apprised of the process at is unfolds. We are eager to stay engaged.
Kudos to Elizabeth for sharing the info about Willowick – I think there are definitely some lessons learned in how to approach developing FDC.
All the best,
Cash

Hi—
I had a meeting with Kathy Esfahani today of the Affordable Housing Coalition. They are gearing up to participate in the Housing Element and to launch an outreach effort asking Costa Mesa residents to support some bold policies they will be advocating for. Their outreach focus is on promoting understanding of who affordable housing residents are (workforce housing) and confronting density with visuals of example affordable projects. Although we have a different role than an advocacy group, their messaging is in line with ours in terms of promoting an understanding of density and affordable housing issues. These are both topics for our short videos being developed.
Their top 3 policy asks are:

- Inclusionary Housing Ordinance
- A land use plan for Fairview Development Center that incorporates a master planned housing village of sorts with a mix of densities including rentals and low to mod affordable housing mix including a PSH component. Current cap of 500 units and “golf course” style housing is not their vision. Possibly lobbying the State to put the property in a land trust.
- Amending Measure Y so as not to function as a barrier to housing.
- Not top 3 but other things that are priorities for them: Preserving affordable MH parks and motel conversions and ADUs as a potential part of a solution for affordable housing. Offered to be a facilitator of conversations on motel conversions with Hotel owners who they had a relationship with from past efforts (Mike Lin owner of Travelodge was mentioned).

We already have them on our list I’m sure, but they will be one to include in our stakeholders meeting and possibly a one-on-one meeting in the future as we develop our adequate sites analysis and policy plan.

Jennifer Le
Director of Economic and Development Services
City of Costa Mesa

Re: Our Public Comments for the Housing Element Study Session

Dear Mayor Stephens and City Council Members:

The Costa Mesa Affordable Housing Coalition (the Coalition) applauds the extensive outreach efforts of city planning staff and the consultant in attempting to involve the community in the 2021-2029 Housing Element update. The Coalition has been glad to participate in many of these efforts and we appreciate the open minds and skillful listening displayed on the part of the city's agents.

Given the huge RHNA numbers assigned to Costa Mesa in the new planning period, and our community's desperate need for affordable housing, we urge the city to adopt in its Housing Element Update **bold policies** aimed at ensuring **affordable housing actually gets built** here. These are our major policy suggestions:

1. Adopt a highly effective inclusionary housing ordinance. The affordability requirement must hit the sweet spot: It should be high enough that it will help the city meet its RHNA numbers for low and very low income households, but not too high as to discourage development. We believe an excellent model is the inclusionary ordinance which works so well in Irvine. We note it is imperative the ordinance's in lieu fee is high enough to encourage developers to include affordable units in their project, rather than opt for paying the fee.

2. Amend Measure Y so it does not constrain the building of affordable housing. Additionally, we urge the city to interpret Measure Y as written as exempting from the "voter approval" requirement all developments which make at least 20% of their units affordable to low and very low income households.

3. Create a specific plan for the 100-acre Fairview Developmental Center site. The plan should allow densities of at least 60 units to the acre, with at least 20 percent of all units affordable to low and very low income households. Also, lobby the Governor's office to

get the state to either donate the property to the city for affordable housing development or sell the property at a discount to nonprofit developers for that purpose.

4. Create new overlay zones along major thoroughfares like Harbor Blvd. where mixed use development can replace failing strip malls with vibrant new communities of apartments, restaurants and small businesses, incorporating walking and bike trails. These overlays should require at least 20% of the housing to be affordable for low and very low income households.

5. Review and amend all specific plans and overlays in the city to include increased densities of 60 units/acre and a requirement of at least 20% affordable units.

6. Create a housing trust fund to hold the in-lieu fees generated by our new inclusionary ordinance, and prioritize in-lieu fees for use at the Fairview Developmental Center site/city-owned sites/affordable housing in overlay zones.

7. Create a land trust to hold donated land.

Thank you for considering our input on this crucial planning document. We look forward to partnering with you to increase affordable housing in Costa Mesa. Please let us know if you have any questions.

Sincerely,

Kathy Esfahani

Costa Mesa, CA 92626

Dear City of Costa Mesa:

The Kennedy Commission (the Commission), a broad-based coalition of residents and community organizations, advocates for the production of homes affordable for families earning less than $20,000 annually in Orange County. Formed in 2001, the Commission has successfully partnered and worked with Orange County jurisdictions to create effective housing and land-use policies that have led to the new construction of homes affordable to lower-income working families.

As you are aware, Housing Elements for the 6th cycle planning period (2021-29) are due to the California Department of Housing and Community Development by October 2021. The Commission understands the importance of each city's Housing Element in guiding housing programs, policies, zoning, and funding, as well as in reducing current obstacles to affordable housing development. We also understand the importance of Housing Elements in addressing racial equity in housing, particularly with the new statutory requirements mandating the inclusion of programs that affirmatively further fair housing in 6th cycle Housing Elements.[1] Our work focuses on ensuring that each jurisdiction increases affordable housing opportunities by implementing proven strategies, policies, and incentives that encourage affordable housing development.

Further, the Commission seeks to ensure that jurisdictions engage the public in revising their Housing Elements. Public engagement is a necessary component of the Housing Element process as California Housing Element law states: "The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element..." Broad participation and true engagement of the public increases the likelihood that the community members involved in the discussion and planning processes will support new housing strategies and housing developments. Public engagement should include participation from residents of diverse communities, housing consumers, service providers, and advocates.

As the City embarks upon the 2021-29 Housing Element update, the Commission requests that the City include us in the upcoming Housing Element review and evaluation of the current 5th cycle planning period goals, policies, and accomplishments. The Commission further requests that the City conduct a robust public participation process for the 6th cycle Housing Element update and that it incorporate the Commission, affordable housing advocates, and residents of low-income communities in this process. We believe that you will achieve a stronger Housing Element update through diverse community participation, outreach, and community planning process.

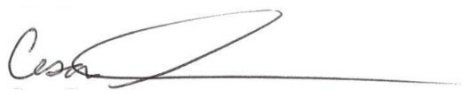
To ensure adequate public participation the Commission recommends the following:

[1] California Government Code § 8899.50 (Assembly Bill 686).

1. **The City should engage community participation and feedback at <u>all</u> stages of the Housing Element review and update. Participation should not be limited to public hearings.**

2. **The City should allow for various methods of engagement to encourage public participation. For instance, for members of the public who may not have access to the internet or a computer, or who are unable to use video applications, consistently provide an adequate telephone option – available in multiple languages – and generally ensure that members of the community who lack adequate technology can participate in meetings about the Housing Element review.**

3. **The City's public participation and outreach opportunities should be meaningful and create various platforms (for example, virtual, written, workshops, webinars, community meetings, and public hearings) for the engagement of community members who reside in lower-income communities, affordable housing partners, Legal Aid organizations, and advocates.**



4. **The City should create a diverse Housing Element Working Group to evaluate the current Housing Element policies and accomplishments. This Working Group could help create policies and recommendations for the new Housing Element update to ensure that you meet the housing needs of those who are most vulnerable in the City.**

5. **The City should include The Commission in any anticipated Housing Element Working Group and provide the opportunity for the Commission to provide its analysis on 5th cycle RHNA progress and be a part of developing policy recommendations on the 6th cycle update.**

6. **The City should engage community organizations representing and advocating for families and individuals residing in lower-income communities to ensure that members of these communities can directly participate and that the City considers their perspective as part of the evaluation and creation of policies that create affordable housing.**

We would appreciate the City giving us notice of any public meetings regarding the Housing Element. We look forward to working with the City of Costa Mesa to encourage effective housing policies that will help create balanced housing development and create much-needed affordable housing in our local communities. If you have any questions, please free to contact me at (949) 250-0909 or cesarc@kennedycommission.org.

Sincerely,

Cesar Covarrubias
Executive Director

Costa Mesa Affordable Housing Coalition

Re: Working Together on Policies and Programs for the 2021-2029 Housing Element Update

Dear Jennifer,

It was so nice to "meet" you in our recent Zoom call. As I mentioned then, the Costa Mesa Affordable Housing Coalition looks forward to discussing with you, your staff and the consultant the programs and policies Costa Mesa should include in its 2021-2029 Housing Element Update to address the City's housing affordability crisis. We are eager to work with you to help the City meet its steep RHNA challenge.

This letter is advance notice of some of our "big ideas" for the Housing Element Update, to frame our upcoming discussion. We have many other ideas to share, but will save those for another time. Our overall goal for this Housing Element Update is that it will reflect the City's commitment to *prioritize* and *facilitate* the development of rental homes affordable to lower income working families. Market rate (and above) housing has never needed much encouragement to flourish in Costa Mesa. Lower income housing, on the other hand, needs determined support from the City to ensure its development here. We suggest three key strategies for the City to pursue in that regard:

1. Reimagine the 100-acre Fairview Developmental Center (FDC) site as a master planned "housing village" which will provide housing for a broad spectrum of Costa Mesa residents at affordability levels from extremely low income through moderate income; advocate with state officials for donation of the entire 100-acre site for that purpose; take concrete steps at the local level to advance that policy.

2. Adopt a city-wide Inclusionary Housing Ordinance which requires a minimum of 15% of new housing development to be affordable to lower income households.

3. Identify Measure Y as a constraint in the production of housing affordable to lower income households and take steps to amend Measure Y so it no longer constrains that production.

<u>More detailed discussion of the three key strategies:</u>

1. Create a "housing village" on the Fairview Developmental Center (FDC) site[1]

[1] The current General Plan permits up to 582 residential units on FDC, with a mix of 250 single family units (6 du/ac on a minimum of 50 acres) and 332 multiple family units (40 du/ac).

a. The City should reimagine the FDC site as a housing "village" which meets the housing needs of multiple segments of the community by providing rental housing at different income levels, from extremely low through moderate. The village should offer housing for young families just starting out as well as for lower income families with multiple children in need of larger (three- and four-bedroom) apartments; permanent supportive housing for the developmentally disabled community; veterans housing; and mixed-use housing which will allow village residents to work and shop in ground level retail and offices within the village, which itself incorporates generous parks and open space.

b. The City should commit to an intense lobbying campaign to convince Governor Newsom and the Department of General Services to donate the entire 100-acre site into the City's (not yet established) affordable housing land trust for the purpose of facilitating the development of a substantial amount of the affordable housing required by the City's large RHNA allocation.

c. The City should identify the ***entire*** FDC site as an opportunity site for lower and moderate income housing. The City should change the site's current land use designation in the General Plan and its zoning to allow the site to be developed as a master planned "housing village" (described above), including allowable densities of 30-60 units to the acre and mixed-use housing.

d. The City should include a policy in the Housing Element Update to ensure affordable housing gets built at the FDC site, and a policy that requires the issuance of RFP's for affordable housing at the site.

2. Adopt a highly effective Inclusionary Housing Ordinance containing the following elements:

   a. A minimum of 15% of all new housing development will be set aside for *extremely low, very low and low income levels.*

   b. The ordinance should include the following options for meeting the affordable housing requirement: build affordable units on-site or off-site; donate land into the City's affordable housing land trust; pay an in-lieu fee (fee range $10-$20/sf or $10K to $20K per unit).

   c. Create a housing trust fund to hold the in-lieu fees and create a land trust to hold donated land.

   d. Prioritize in-lieu fees for use at FDC site/ city-owned sites/affordable housing in overlay zones.

3. Amend Measure Y so it is no longer a barrier to meeting the city's RHNA requirement for lower income housing.

a. The Housing Element Update should identify Measure Y as a constraint in producing affordable housing.

b. The Housing Element Update should include as a program that the City will take steps to amend Measure Y so it is no longer a barrier to meeting the RHNA requirement for extremely low, very low, and low income housing.

We look forward to partnering with you to increase affordable housing in the City and discussing these ideas at a meeting with you soon. Please let me know some available dates and I'll coordinate with members of our Coalition. Thank you!

Sincerely,

Kathy Esfahani

Commentary on the Draft Costa Mesa Housing Element Plan

My name is Betsy Densmore. I live in the Canyon neighborhood and I co-own a restaurant in Mesa Verde Plaza. I also serve on the Board of a local nonprofit affordable housing development company. I fully endorse the goals of the draft Housing Element and carefully read the various strategies for fulfilling those goals. Unfortunately, my take away is that there are several ways that these lofty goals will be thwarted.

The plan as written does not go far enough. New construction is very expensive and providing tenant services drives the cost per unit even higher. I believe that the proposed densities for many of the sites which are identified are not high enough to make the sites financially feasible. Can we find more or be more aggressive about promoting other alternatives to new construction? And too much of the plan hangs on the details of the "inclusionary housing ordinance" which will likely take months to be developed.

Will 25% or more of EACH new development be reserved for very low and low income tenants? Otherwise, won't we perpetuate the problem we already have which is that service workers we need in Costa Mesa (like the folks who work in my restaurant) have great difficulty living here because moderately priced housing is so scarce. Those who own cars, clog our roads and spend too much of their income on car loans, gas and repairs. I sometimes hear people say that adding more housing and thus more people to Costa Mesa will just make traffic worse. I beg to differ. Those able to live close to work and amenities, can walk or ride their bikes.

We need more residential units for people in ALL income categories. Our market is too tight – shortages in any category have a domino effect on the others. I think we should be allowing multi-unit buildings in all neighborhoods. Moreover, I believe accelerating development of more "granny flats", in-fill small apartment buildings and planned communities like One Metro West can't happen fast enough. How do we pick up the pace?

I also hear people assume that "affordable housing" will only draw undesirables- nonsense! Visit any housing developments with high numbers of subsidized units (such as Section 8) in this area and you will see nothing of the sort. Trellis and SOS have plenty of stories about formerly "normal" citizens who succumb to drugs and mental illness after being traumatized by the loss of their homes. Restoring self-sufficiency for these folks starts with housing them.

Moreover mixed income, high density communities sustain local businesses. Mesa Verde Plaza is a case in point. My fellow tenants provide a wide variety of food, health, educational and personal services to the thousands of apartment dwellers who surround us. I believe every single one of the Plaza's businesses survived the pandemic. The residents of these apartments are a broad range of old, young, affluent, middle class and working poor. Many stroll our boardwalk and buy from us. We know & support our neighbors and they know and support us.

I grew up in a single-family home and worked hard to my buy own as soon as I got out of college. We are taught that this is fundamental to the American Dream. However, as the years rolled on, my husband and I grew disenchanted with the effort required to maintain it and with the amount of stuff we accumulated to fill and take care of it. First, we downsized to buying a small apartment building and

these days we reside in a town house. The Canyon neighborhood is delightfully diverse, dense and peaceful but someday one or both of us may need to downsize again or invite others to share our home. For this reason, I am glad to see that the plan includes promoting co-housing, motel conversions to what we used to call SROs (single room occupancy), and other approaches to small, efficiency units. Working with local churches and other non-profits who have a commitment to serving their community is also a good idea.

Congratulations on getting us this far. I welcome any opportunities to help make the vision of nearly 12,000 more housing units by 2029 a reality. You may reach me per the below contact information.

Best Regards,

Betsy

From: REYNOLDS, ARLIS
To: LE, JENNIFER; Chen, Nick; ASHABI, MINOO
Subject: Notes on draft HEA
Date: Thursday, August 12, 2021 10:23:46 AM

You don't often get email from arlis.reynolds@costamesaca.gov. Learn why this is important

All,

I spent about an hour skimming through the draft HEA and keeping these notes on the side. I certainly do not expect you to address every note. I'm sharing these for perspective and to share reactions from this westside reader . I highlighted what I think would be the most relevant comments that we may be able to address in an revised draft.

I'll try to get to the rest tonight!

- Cover page – as I mentioned on the call, my first reaction was that these images do not reflect the diversity we want to honor and protect; the image strikes at the common westside sentiment of "the city" wanting to replace us with they often referred to as "high quality families". It may seem trivial, but the sentiment is real and we want people to feel welcome right away.
- Can we put our new mission statement up front in the document?
- Can we add a table of contents?
- Page 2 – in the interest of encouraging & facilitating community feedback, consider adding to this page:
    - Public Review Period
    - Instructions / opportunities to give feedback – e.g., email XXX; survey on website, etc. ; date of planning/council meeting
- Page 4 – I agree with Harlan's comments about the photos in general – let's show the diversity of existing housing stock to remind ourselves that we have a pretty big range of housing types already!
- Page 4, Role
    - Add the year range at the end of the paragraph – "over the eight-year planning cycle (2021-2019)."
    - Consider adding a statement that clarifies what the HE is and is not…. It is a planning document to show opportunities for housing development; it is NOT a housing plan in the sense that the city dictates construction. (I'm sure there is better language for this!)
- Page 8 – will we have an opportunity to review 2020 census data and update if necessary? Not sure if we anticipate any substantive changes from 2010.
- Page 9 – guiding principles
    - Seems to be a typo in the second principle
    - I thought we had a principle that touched on protecting/maintaining homes of existing residents or minimizing displacement… can we say something about that here, or minimizing impacts on existing residents? It's valuable to acknowledge that we are consciously trying to not create a plan that targets development/overhaul of specific neighborhoods.

If appropriate, it would be great to state upfront here our recognition of the existing diversity in housing stock and our recognition that this plan requires similar diversity/variety in housing solutions

- CH 2 – community profile
  - Table 2-8
    - What is the order here? Should these be in order from highest to lowest?
    - All but one job in this list is below the OC median income – is that accurate? I get that a family with two working adults will be above $103… but my goodness!!!
    - source says American Community Survey. Are these numbers specific to Costa Mesa?
  - Page 19 – what is a "household" compared to a "housing unit"? Might be helpful to have definitions somewhere.
  - Table 2-9 – could we add a table note describing what "non-family household" includes? It sounds bad at first glance (no family!) I think includes senior living alone or young professionals alone or as roommates… totally normal!
  - Page 20 on Household income ---- would be really nice to have a call-out here describing housing burden and "ideal" ratio of income to rent/mortgage; and state that high housing burden reduces residents' ability to spend in the local economy and make educational investments for example. (I see now the section on page 2-15.. but still think we can add something about why a community should care that some people are overburdened)
  - Figure 2-5 --- can we connect this somehow with the data in Table 2-8? E.g., with each income category, give an example of the type of job? I want to make sure we recognize the value lower income jobs have in community
  - Page 2-13 – this is a big statement! "For the City as a whole, 46.5 percent of households have at least one of the four housing problems." Consider putting this in bold or a call-out box.
  - Table 2-20 – what is the definition of poverty, relative to the income levels?
  - Page 2-29 – what's the conclusion about Costa Mesa's vacancy rate…… would be good to include a statement on this. My takeaway is that Costa Mesa's low vacancy rate (lower than average in OC) reflects high demand for living in the city and low housing stock available to meet that demand. If I'm right, this is an important takeaway
  - Page 2-31 – my takeaway is that 50% of our housing stock is at least 60 years old (yikes!) and 75% is at least 40 years old (yikes, yikes!). What does that mean for HE? Potential unsafe conditions? Need for new housing to replace old housing? Opportunity to add housing units with necessary rehabilitation?
  - Page 2-32 – Newport is just nuts!
  - Table 2-35 – this tells me that Moderate income families cannot afford to purchase a home in Costa Mesa, and most low income families cannot afford to

rent either. Is that right? Can we say something somewhere to acknowledge these are not the ingredients for a healthy community?

- Page 2-36 --- this would be the place to make a statement about the housing burden on Costa Mesa families. We should include also:
  - 46.5 percent of Costa Mesa households have at least one of the four housing problems.
  - Something on the low vacancy rate
  - Something about affordability
- *I didn't see much about children/families with children – not sure what we can add here or what the data says, but I know that HOAG as found in its recent community analyses that housing stability is one of the top three health challenges in the community.*

You have received this feedback from Herme Gonzalez < herme778@icloud.com > for the following page:

https://www.costamesaca.gov/city-hall/city-departments/development-services/planning/housing-element-update

To whom it may concern, I feel as though the city needs to do something about the cars that are parked with no movement on the street. Parking is an ongoing issue and with less cars on the street better. PARKING GARAGES would be ideal in every few blocks to help with this. Thank you.

Attn: Minoo Ashabi, Principal Planner
I have been attempting To review and understand the new State and City requirements as it relates to Costa Mesa. With all due respect, I feel it is akin to theoretical science fiction. It is difficult to break it down to simple terms such as; high density impact. When traffic, waste removal, fire and flood emergencies etc. are factored in it runs into funding. I can't follow the money because there is none. Costa Mesa is broke. Orange County is broke. The State is broke and looking to the Feds for a bail-out. I see grants are mentioned but from who. More taxes? Please say it isn't so!

We will be watching. We're long term residents of Eastside Costa Mesa and care about the future of our home. Good luck.

Sincerely, Fred and Karen Arnold

Subject: Housing Element comments
Sensitivity: Normal

Hello,

I wanted to provide some comments on the Housing lement update.

There is a full range of historic housing types in between the single family home and the big ugly apartment comple . The Missing Middle Housing types duple es, uadple es, rowhouses, and other small multi family buildings with good development standards, can all fit well within whatever shades of neighborhood character we re hoping to create or preserve, including our R 1 neighborhoods. Without assaulting the cherished feel of our surroundings, these can help us increase the amount of housing, while also allowing neighborhoods to accommodate people of all ages, incomes, and family sizes so that families can stay close and people can age in place, among other benefits . I hope that through this update, we focus not ust on big pro ects on big sites, but on *facilitating* organic and stable neighborhood growth from local, small developers through many small pro ects. A big reason this sort of incremental development often doesn t pencil out because of parking re uirements, which brings me to my ne t point: cars.

As we grow, we need to figure out how to become less of a car depended and car oriented city, otherwise the NIMB s are right we ll be a tangled mess of traffic, which no one wants. So to what e tent is this new document going to deal with the uestion of how to uncouple housing from the car demand or toll that unnecessarily comes with it As we try to accommodate 11,000 units over the ne t 10 years, what are we doing to ensure that owning a car and is optional rather than virtually re uired

astly, I hope that the discussion over housing and the resulting decisions we make reflect some sort of unified vision for *how* we want to grow. While it may be necessary to balance out our spreadsheets and zone for the necessary amount of units, it is crucial that this is all decided within the conte t of how we want our city to look, feel, and function. How will the occupants of the new housing get around How will the developments fit into the e isting urban fabric and contribute to the neighborhood they re in How will the new buildings relate to and shape the public space they sit on We don t want islands of amenity rich high density housing fortressed in from bleak rights of way and full of people who never leave the property without a car if you want to know what I m describing, drive up amboree in Irvine some time . The sustainable, e uitable, fair, and good way to approach this is not to resist growth, but to plan for it, so that as we inevitably grow, we grow well. I hope that we can approach our housing need holistically, taking more into consideration than where we can allow the spaceship developments to land, and nesting the whole conversation into a greater discussion about what our *physical vision* is for our city.

Thank you for reading. I look forward to participating in this process.

Subject: Re: Thank You for last night s workshop I have a uestion
Sensitivity: Normal

Hi Steven,

Thank you for your participation we look forward to your continued input and other events for community engagement. Here are the responses to your uestions. I hope you find these responses helpful, but feel free to reach out if you have further uestions.

We will also include these uestions as well as others presented last night on the general A document we are preparing and post it on the webpage.

1. While I understand where RHNA numbers and allotments come from, how does the city actually demonstrate compliance?
The City will need to adopt policies and programs that allow for development of housing at various locations and densities that in entirety address the allocated RHNA. The City is only required to change the general plan and zoning designations that would accommodate the growth but is not accountable for construction of the units. This effort will follow adoption of the Housing Element through a series of general plan amendments and zone changes (all subject to approval by City Council and potentially subject to Measure Y). The City is also required to submit an annual progress report to HCD (Dept. of Housing and Community Development) on development of housing during each year of the housing element cycle.

2. Is compliance based on identifiable land-use densities? yes, please see above

3. Since ADU's & Jr ADU are now allowed based on State law, how does that impact RHNA compliance?
HCD allows the City to count ADUs and JADUs toward RHNA but up to a percentage (latest information is 5 times the number of approved ADUs since 2018)

4. If property currently designated as single-family residential was allowed "by-right" to convert a single-family residence into a duplex or triplex, how would that impact RHNA compliance?
Same as above, the City can only account for a certain percentage of construction or conversion related to ADUs based on past trends. We distinguish ADUs and JADUs as a second unit subordinate to the main house and subject to certain requirements (max. size, etc.), although triplex and duplexes could be the same size.

Development Services staff are available to assist you Monday through Thursday, 8AM to 5PM. Until further notice, Costa Mesa City Hall is closed to the public in keeping with Governor Newsom's direction regarding COVID-19. The City is committed to continuing to provide essential services and will be providing services to the public online, via telephone, and via email in order to follow the Governor's guidance and reduce the potential spread of COVID-19.

Thank you!

Subject: Thank ou for last night s workshop I have a uestion

Hello and Thank you for your very informative presentation workshop last night I learned a lot and really appreciated hearing the statements of residents.

I have a couple of very basic uestions:

1. While I understand where RHNA numbers and allotments come from, how does the city actually demonstrate compliance

2. Is compliance based on identifiable land use densities

. Since AD s r AD are now allowed based on State law, how does that impact RHNA compliance

4. If property currently designated as single family residential was allowed by right to convert a single family residence into a duple or triple , how would that impact RHNA compliance

Sorry to ask such foundational uestions, but I am trying to educate myself and have never really been involved these types of issues.

Thank you.

To: Housing Element
Subject: 2013-2020 and 2021-2019 Costa Mesa Housing Element Plan
Sensitivity: Normal

I have a few uestions re the 2013-2020 plan. I recently viewed it online due to some changes where I live...at Casa Bella Apartments... and am wondering if you have any recent info about the status of Casa Bella that you are allowed to share with residents. Possibly you can direct this email to the appropriate person if someone else handles these types of in uiries.

For your convenience, I copied the sections from your plan that I m interested in below in this email. In November 2020, Casa Bella totally changed property mgt companies which included a new manager. So far communications have not been great possibly because the new mgr was solely part time to begin and full time beginning this week. He is still getting organized. So far it seems the new company knows very little about Casa Bella and Hud though I could be wrong.

Several residents are worried including myself. We are worried that Casa Bella might be in the process of converting to market rates soon Based on your 2013-2020 plan, it seems likely that the for profit owner might wish to convert to market rates. But your plan also mentioned that the residents of Casa Bella would be given a year s notice and also be given Section 8 vouchers (see below). I m not sure if that is what the City of Costa Mesa ust wishes in order to help us or if it is mandatory for the owner to provide the year s notice as well as vouchers

Also, if we are given Section 8 vouchers, can we use them anywhere in Orange Co or even anywhere in CA or out of state

I realize that most likely the new mgt company will be notifying us eventually. Some of us are ust wanting to get prepared ahead if this is the case...that Casa Bella converts to market rates possibly in 2021

Thank you so much for any information you can provide,
Nancy Henning
See sections below if helpful...copied from your 2013-2021 plan...

Page 3 -37
At Risk Status

Twenty-five properties with 15 affordable units have density bonus agreements that were e ecuted mostly in the late 1990s. These agreements are e piring between 2018 and 2020. Among these units, 85 units are for very low income and 71 are for low-moderate income.

Another property, Casa Bella, is at risk of converting to market-rate housing or losing their low income subsidies within the ne t ten years. At Casa Bella, a total of 75 units are at-risk of converting to market rate rents over the ne t ten-year period. Specifically, Section 8 contract at Casa Bella is set to e pire on September 11, 2015. Casa Bella is considered the highest priority, due to the owner being a for-profit entity. However, the City imposed a land use restriction on Casa Bella in e change for the initial land write down, density increases, parking reductions and participation in HU financing. The land use restrictions re uire Casa Bella to remain affordable for the length of the mortgage, 40 years. In other words, Casa Bella is not at-risk of converting to market rate through a mortgage prepayment. The risk with Casa Bella converting to market rate is associated with the termination of a tenant-based Section 8 contract.

Page 73....
8. Preservation of At-Risk Housing

Overall, 231 housing units in the City of Costa Mesa are considered at risk of converting to market-rate housing. Specifically 25 pro ects with 15 affordable units are at risk due to the e piring density bonus agreements e ecuted during the 1990s.

Another pro ect 75-unit Casa Bella is at risk due to the potential e piration of its Section 8 contract.

2013-2021 Ob ectives: Monitor at-risk status of affordable units. For Casa Bella, work with HU and the property owner to e tend the Section 8 rent subsidy contract. Notify tenants of potential risk of conversion at least one year prior to conversion. Provide information regarding HU 's special vouchers set aside for households losing pro ect-based Section 8 assistance (applicable to Casa Bella only). Work with property owners to pursue State and federal funds for preserving at-risk housing.

Subject: Housing Element

The survey gathering information about the housing element does not take into account any of the effects of this enormous housing addition to our already built-out city, fixed street capacity, existing schools and resources. And it is so limited asking preferences between townhomes, etc. when there is no mention of high rises like One Metro West at all. I can only assume that it was designed to achieve a predetermined outcome.

I have to also assume that there are no more guidelines or requirements for green space, trees, permeable ground for water percolation, or parks for families to relax and play, as every new build is all concrete to the property line, and in lieu of parkland, open space, and green areas, developers are paying money to the city allowed by the variances and agreement of the Planning Commission.

Not to mention that this whole Housing Element 10 year project is being driven by the State mandates, but those require 40% affordable housing units, and we DO NOT require ANY affordable housing in new builds!

Please do us the favor of speaking plainly. Is the Planning Commission going to do anything except green light any project that a developer submits?

Since One Metro West has been announced, I have tried multiple times to get Brent Stoll to speak to a group of local residents regarding our concerns, but he has repeatedly refused and the

Planning Commission has already agreed to cutting the parkland in lieu of payment, and we need parks in northern Costa Mesa. In the beginning they boasted 15% affordable housing, now it's down to 10% with no guarantee to the number or duration of years applicable.

And now with the Triangle Square signage issue?! Please just speak plainly. Is the Planning Commission working for the residence of Costa Mesa and taking their concerns and objections into account, or are you working for developers and corporations? Please address these concerns so we can get you on the record.

Thank you,
Priscilla Rocco

ood Morning,

I am concern that I may miss the option to apply for affordable senior housing when it comes available. So, I would love to be put on a future senior housing list to be advised when I could move in. I do not want to miss this opportunity.
I read the information sent out and it was disturbing that the last words, where the study does not guarantee anything will be done.
I am seeing donut shop which we do not need going in and senior housing only be spoken about for a maybe option. Right now, what is available in Costa Mesa is whatever the market can s ueeze out of you.

Thank you for your time and assistance.

Sincerely,

Carol Buchanan

To: CITY CLERK
Subject: Housing Element

Dear City Council,

As you begin to review different options for increasing the housing in Costa Mesa, please keep in mind that the status quo does not work. Car centric cities are bound to fail as can be seen by the current housing market which is dominated by car ownership, climate change which is fueled by emissions, and the countless number of cyclists and pedestrians that are killed by cars every year in Costa Mesa and Orange county. I implore you to take drastic action and to save our City.

Newport Boulevard is deteriorating north of 19th Street because commercial businesses are bound to fail there. There is no visibility and it is a haven for druggies with all of the motels and derelict properties. Every property should allow high density housing by right. The location has easy access to the 55 freeway and also is cyclable to downtown Costa Mesa, East Side, West Side, and even the beach.

While we're at it, the same applies for Harbor Boulevard, specifically in "downtown". These properties are falling apart. The City should allow for ground floor commercial, and a minimum of 3 floors of residential above. Having a mixed use neighborhood actually decreases traffic and increases livability. Restaurants and retailers flock to these locations because of the constant pedestrian traffic. Employees of the new commercial business would also live above removing any requirement for a car. These new businesses would also be utilized by the countless number of people who walk and cycle in Westside Costa Mesa. This would also work on West 19th, East 17th, and other potential neighborhoods.

So please, drop the status quo, stop holding our city hostage to the car. Remove as many car and parking requirements and the City will thrive. Will people complain about parking? Yes. Will people spend a couple more minutes commuting in their car? Yes. But ultimately, more people will move away from car dependence if other options are available. Unfortunately our current system doesn't allow for that.

Thank you for your consideration and hard work,

CJ FONG

Dear Ms. Le:

We are aware that cities in Orange County are in the process of updating their respective Housing Elements in accordance with state law. Please be aware that portions of your city are within the Planning Area for John Wayne Airport, as shown on the attached exhibit. Pursuant to California Public Utilities Code Section 21676(b):

> "Prior to the amendment of a general plan or specific plan, or the adoption or approval of a zoning ordinance or building regulation within the planning boundary established by the airport land use commission pursuant to Section 21675, the local agency shall first refer the proposed action to the commission."

As such, please incorporate ALUC review into your schedule for the Housing Element Update process. We request that items be referred to ALUC after consideration/approval by your city's Planning Commission. The ALUC meets the third Thursday of each month at 4:00 p.m. in the Airport Commission meeting room at 3160 Airway Avenue, Costa Mesa. For additional submittal information please see Section 4.7 of the AELUP which can be found here:

https://www.ocair.com/about/administration/airport-governance/commissions/airport-land-use-commission/.

If you have any questions, feel free to contact me at lchoum@ocair.com, or Julie Fitch at jfitch@ocair.com. You may also contact us by phone at (949) 252-5170.

Thank you.

Subject: Fwd: Housing Element Comments

Hello,

I have been watching the recorded community meetings on District 4 & 5, and I would like to be included in future meetings or information updates.

I am a home owner and live in the freedom homes in district 5. I am very busy with young children, as are many of my neighbors, and hence I don't have allot of time for city involvement. However, this housing issue has been a hot topic for the 10+ years I have lived in Costa Mesa. After listening to these meetings, I feel like people like me were not well represented, and I would like to share a few of my own comments. I bought my house in 2015 for $570K. An average lot in my neighborhood is 0.2 acres, so that makes 5 houses per acre. When I heard the State has decided that 30 "housing units" per acre is the only way to have "affordable" housing, my jaw dropped a little. 30 "housing units" per acre is 6X the housing density of my neighborhood. Pause a little and contemplate 6X the density of my neighborhood as the new "norm" & it will make your head spin a little. I am biased like everyone, and I enjoy the lifestyle that a less dense neighborhood provides. I also feel that the majority of my neighbors do as well. I am not excited to think about the entire lower west-side of Costa Mesa be transformed into high density neighborhoods, but I truly feel powerless to fight the state. I would only like to offer my suggestions to this conversation:

1. Consider the parking situation! Please! Do not believe that people bike or walk & don't have cars, that's a ridiculous idea. Go to any high density area (like district 4), and you find parking is very hard to find. I love walking & biking around town, but also realize most people do not, and most times biking & walking is not possible (ex: night time…raining…doctors appt…errands…the list goes on & on).
2. We must set a housing "unit" to Park space ratio! If you want to attract families, you must have local park space! No exceptions. And I'm not talking about the little tiny parks they put in those high density neighborhoods with only 1 play structure & no swings or space to run around. Those are not sufficient & should not count towards park space.
3. Please realize these 3 story + rooftops places that are popping up everywhere are selling for MORE money than small houses in my spacious neighborhood. So it is NOT TRUE that high density = less cost.
4. If you really wanted to build affordable houses, you would build a simple house (1 or 2 stories, Asphalt driveway, formica countertops, simple fixes, 1 bathroom, etc…) That is the only really affordable house. All other types are not affordable. And government assistance does not mean affordable. If you need help to pay for something, is it affordable?

Thank you,

Riley Watson

Subject: Costa Mesa Mobile Home Coalition

Good Morning Mr. Ashabi,
My name is Michael Dougher, I am a Commissioner on the Mobile Home Advisory Committee and President of the Costa Mesa Mobile Home Coalition.
I have been in contact with Willa Killeen as it pertains to our concerns over the rulings and subsequent planning of 11,000 plus, new dwellings to be built in the next 8 years here in the City and She directed me towards you, the council and the planning commission. We as owners of mobile homes and as rent payers, are more than a little bit terrified about the ramifications that this ruling might have on our lives. As you know a lot of the parks in this city are senior parks where people on very fixed incomes reside. That said, the affordability of owning a mobile home and paying what is now and has been for decades very reasonable rates to lease the land our homes sit on, has afforded the luxury to continue to be able to live here in this beautiful place. The prospect of having our homes torn out from under us at the hands of the City and or faceless Corporate Developers is, as I said, simply terrifying. The Mobile Home Coalition has attended Council meetings; we have submitted Overlay and Zoning proposals and have heard nothing back in at least a year. The Advisory Committee has not met even via ZOOM in a year or more. We understand lockdowns,regulations and restrictions on the already slow wheels of government have practically ground it to a halt. That does not mean however, that we can just leave the most vulnerable among us waving in the breeze as low hanging fruit for developers to pick off without any protections in place.
You need an angel on the affordable housing issue to help with the requirements of the ruling RIGHT? Well here you go Most people who live in MH Parks fall into the low income category, The dwellings are already in place and there are hundreds of them already occupied. It is my hope that you can guide me to the help we need to address this as soon as possible. We need a meeting Sir. I implore you to contact me and get this ball rolling. I believe we can work out a WIN! WIN! for all parties involved.

Yours Respectfully:

Michael Dougher. SP #14

Re: Native American Consultation, Pursuant to Senate Bill 18 (SB18), Government Codes §65352.3 and §65352.4, as well as Assembly Bill 52 (AB52), Public Resources Codes §21080.1, §21080.3.1 and §21080.3.2, Costa Mesa 6th Cycle Housing Element Update Project, Orange County

Dear Ms. Ashabi:

Attached is a consultation list of tribes with traditional lands or cultural places located within the boundaries of the above referenced counties or projects.

Government Codes §65352.3 and §65352.4 require local governments to consult with California Native American tribes identified by the Native American Heritage Commission (NAHC) for the purpose of avoiding, protecting, and/or mitigating impacts to cultural places when creating or amending General Plans, Specific Plans and Community Plans.

Public Resources Codes §21080.3.1 and §21080.3.2 requires public agencies to consult with California Native American tribes identified by the Native American Heritage Commission (NAHC) for the purpose of avoiding, protecting, and/or mitigating impacts to tribal cultural resources as defined, for California Environmental Quality Act (CEQA) projects.

The law does not preclude local governments and agencies from initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction. The NAHC believes that this is the best practice to ensure that tribes are consulted commensurate with the intent of the law.

Best practice for the AB52 process and in accordance with Public Resources Code §21080.3.1(d), is to do the following:

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.

The NAHC also recommends, but does not require that lead agencies include in their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential affect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:

    - A listing of any and all known cultural resources have already been recorded on or adjacent to the APE, such as known archaeological sites;
    - Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
    - Whether the records search indicates a low, moderate or high probability that unrecorded cultural resources are located in the APE; and
    - If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.

2. The results of any archaeological inventory survey that was conducted, including:

    - Any report that may contain site forms, site significance, and suggested mitigation measures.

      All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code Section 6254.10.

3. The result of the Sacred Lands File (SFL) check conducted through the Native American Heritage Commission was positive. Please contact the tribes on the attached list for more information.

4. Any ethnographic studies conducted for any area including all or part of the potential APE; and

5. Any geotechnical reports regarding all or part of the potential APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS is not exhaustive, and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event, that they do, having the information beforehand well help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: Andrew.Green@nahc.ca.gov.

Sincerely,

Andrew Green

Subject: Feedback-Public Comment

Importance: High

Hello Housing Element-

I have lived in Costa Mesa for well over sixty years. We can all agree, that the main concern should always be quality of life. We can all agree, streets that are clogged with congestion are the first signs of an unhappy living experience (see LA). Irvine is a great model of how to increase housing density without the burden of heavy congestion and traffic. We can all agree, we do not want to see concrete everywhere, housing tracts that are cold, austere, and entirely void of attractive elements such as; trees, bushes and green plant life. We all know that crime, aggressiveness and unhappiness increase when rats are placed in dense housing and are subject to congested living, well it is the same for the human beings.

Quality of Life:

1. Roads must be kept moving freely where new housing is considered. A roadway already fully impacted with rush-hour traffic should not be further burdened by the building of new housing. Areas to consider new housing must have roads that can flow well and handle new traffic going forward, particularly during rush hour.

2. Visually attractive housing is VERY important. People do not want to see housing that encroaches to the edge of a sidewalk with dense concrete built-up 3-6 stories high. Again, the City of Irvine is a great model. All new housing tracts require roadway setbacks where they must build greenbelts and install attractive sound barrier walls that keep housing separated from road noise and roadway views.

3. Housing needs to consider the humans that will live there for multiple generations into the future. Are we building housing environments that support a happy and content life? Or are we letting greed and high density dominate the landscape like a permanent scar in the most beautiful Climate on the planet? Only developers can determine what our future holds.

4. Please see that the City requires greenbelts, set-backs off the road, sound barrier walls, less-dense, less greed driven density with attractive housing that will make living positive for many generations to come.

Thank you for letting me freely share my opinions. Please feel free to share this with the powers that be.

Kind Regards,

Diane Kastner

Subject: Public Comment: City of Costa Mesa Housing Element Update

Good evening,

My name is Matthew Sheehan and I live in Costa Mesa (District 48). I believe everyone should have access to housing in our community.

As a child, my family often struggled to pay for housing. My parents had to sign a new lease nearly every other year because they were unable to renew their leases due to rising requested rents and were not able to afford to purchase a house. During my elementary school years, I had to transfer to a new school each year due to our housing instability. As a current resident of Costa Mesa, this is not the future I want for my family and future children.

Please use our housing element update to boldly plan for more housing near our jobs, transit stops, and high-resource neighborhoods. Let's clearly demonstrate to HCD and to our community that we are affirmatively furthering fair housing in our city.

Best,
Matthew Sheehan

Subject: Community Profile

Dear Sirs:

On page 2-14 of the Community Profile PDF, the section on “Overcrowding” begins and offers its definition as relates to this document. My question here is whether the Assisted Living Facilities and the Drug and Alcohol Rehabilitation Homes that heavily populate our city are considered in this study as “Residences” or are properly classified as stand-alone businesses excluded from these overall numbers. By the definition offered here, I believe each of those homes could qualify as “overcrowded” and artificially skew the data toward implying a greater need for housing remediation than actually exists.

If you should require a specific person to whom you should submit this question, please forward it to Nick, as he narrated the September 2nd webinar and would probably best know how to rout this request.

Thank you for your efforts on an otherwise thankless endeavor.

Sincerely,

Dr. Ron Housepian

Subject: CM - Revised densities for candidate sites (545-575) Anton

Hi Minoo,
Here are our comments for the "revised density for candidate sites" – attachment 2 on the Agenda for 9/13/2021. (see attachment)
These comments are in addition to our previous email comments to the initial draft.

Unique ID sites:

Site 206
- size = 0.75 acres
- typo = "Small commercial out parcel uses."

Site 207
- address = N/A , it is a surface parking lot, not the 575 Anton Building itself.
- notes = surface parking lot

Thanks and I'm happy to discuss in more detail.

George

Subject: CM- Housing Site Analysis- comments

Hi Minoo,

Here are our initial comments/clarifications on the DRAFT Housing Element before the "revised densities" for the 9/13/21 agenda.
(I will send comments on the "revised densities" in a separate email.)

Attached is the CM Housing Element Update - **Appendix B site analysis - highlighted** with notes for the Sakioka parcels.

Please refer to the PDF pages of the attached Appendix B Site Analysis for comments/clarifications:

- PDF - Page 11
  - Sakioka Lot 2 = **30.93 acres**

- PDF - Page 23
  - Site 142 = **Roy K. Sakioka & Sons (owner) and 30.93 acres**
  - Site 144 = **address is N/A since it is a surface parking lot only. Remove 24/hr Fitness in the Notes section.**

- PDF - Page 25
  - Site 206 = **.75 acres**

- PDF - Page 26
  - Site 207 = **address is N/A since it is a surface parking lot only.**
  - Notes = **surface parking lot only**

I have also included the following attached documents for your reference.

- CM Plat Map Sakioka Lot 2
- CM Plat Map 545 Anton, Parking Lot & Lot 3

Thank you and I'm happy to discuss any of our comments.

George

City Council/ Planning Commission Joint Study Session

Attachment 2

During the Public Review period, a discrepancy in the anticipated density for candidate sites 206 and 207 was noticed. Prior to sending the Housing Element to HCD for review, the document will be revised to indicate a development yield on these sites at 90 dwelling units per acre, consistent with the other sites within the North Costa Mesa Specific Plan. Future development on these and all sites within the Housing Element will be subject to the applicable development standards within that area. 90 du/ac is an appropriate planning assumption for the Housing Element document.

APN	Unique ID	ADDRESS	OWNER	ZONING	COUNCIL DISTRICT	Specific Plans	Size (Ac)	Density	Vacant	Potential Consolidation	Used in 5th Cycle	Total Units	Very Low (20%)	Low (10%)	Moderate (20%)	Above Moderate (50%)	Notes

requirement. The likelihood of redevelopment was based primarily on common ownership amongst adjacent parcels which share a property line. In most instances, these parcels are currently developed as a single use and it is reasonable to anticipate that the collection of parcels will redevelop as one new development to maximize efficiency and design of the new use.

The potential candidate sites which are anticipated to be consolidated into a single development are identified within Table B-3.

4. Development of Large Site Parcels

The 2021-2029 sites inventory includes several sites that are larger than 10 acres. These sites exceed the AB1397 size requirement and require additional analysis. The following background and analysis relates to each site in the inventory that exceeds that inventory. The City has conducted meetings with each of these major property owners to determine their future interest in developing housing on the identified properties.

FAIRVIEW DEVELOPMENTAL CENTER

The Fairview Developmental Center (FDC) is a State-owned property that is approximately 114 acres in size and located on Harbor Boulevard within Costa Mesa. The FDC currently serves as one of the largest residential facilities for developmentally disabled persons in the State of California. The FDC was previously identified in the City's 5th cycle Housing Element (2013-2021) and the City has continued discussions with the State to determine the potential residential yield of the area taking into consideration the existing uses.

In January 2020, the Costa Mesa Fairview Developmental Center Ad Hoc Committee met to discuss potential development yields for the site. The Committee presented a report to the City Council which summarized its strategic engagement in the development of the local vision, priorities, and reasoning behind the stated preliminary vision of a solutions-based, housing-first model for the site. The Committee took into consideration the City's recent efforts to open a homeless shelter and identified opportunities for permanent supportive housing and integrated workforce housing within the City.

The City's 6th Cycle analysis includes an assumption of 2,300 dwelling units broken down into the very low, low, moderate, and above moderate-income categories.

SAKIOKA LOT 2

30.93 AC

Sakioka Lot 2 is a 33-acre site located north of the 405 Freeway with General Plan Land Use designation that allows up to 660 residential units, 863,000 Square feet of office or retail use and a Floor Area Ratio of 1.0. The property is also located in the North Costa Mesa Specific Plan. The site is currently under a development agreement that was recently extended for ten years until May of, 2031. The City has had continued discussions with the property owners who have indicated there is the potential for future housing development on the site in strategic areas. The City's 6th Cycle analysis includes an assumption of 1,200 dwelling units broken down into the very low, low, moderate, and above moderate-income categories.

HOME RANCH

Segerstrom Home Ranch is a 43-acre site located north of the 405 Freeway with a General Plan land use designation that allows up to 1.2 million square feet of office and up to 0.64 Floor Area Ratio. The property is also located in the North Costa Mesa Specific Plan. The site is currently under a development agreement

Subject:	Housing Element Update

Dear City Council Members, Planning Commissioners and City Staff:

A city is a living thing. It will always grow and expand, because if it doesn't, it stagnates. The challenge is growing a city so that it is the best city it can be. It must satisfy the needs of the current residents, while providing for the needs of new and future residents. It needs to be financially stable, but safe and healthy for its residents. In today's world, it must be sustainable and socially equitable. All of this takes good planning by city leaders and city employees.

The Housing Element Update is a very important part of the comprehensive planning process for the City of Costa Mesa. It is an element of the blueprint for the growth of our city. We need it to be the best plan possible for our residents, businesses, and visitors.

This draft Housing Element is built around satisfying the requirements of SCAG and the RHNA that has been imposed on Costa Mesa. The strategy used was to look at the current planning tactics used by the City and adapt those to meet our RHNA. Consideration was given to proximity to transit corridors so that the impacts of traffic caused by any increase in density could potentially be offset by the use of mass transit and active transportation. However, there is no requirement that new housing be mixed-use in order to deter the use of motor vehicles. How will we encourage people to use transit other than cars? There is no requirement that new development include active transportation facilities. That needs to be addressed as part of the process that results from the adoption of the Housing Element Update.

During the recent joint City Council and Planning Commission Study Session it was stated that the diversity and unique characteristics of neighborhoods would be complemented. The size of the parcel would have to accommodate at least 30 du/ac, which narrowed down the choice of some of the parcels. Identifying the potential to redevelop the parcels is also required. However, we see a great deal of the burden of increased density falling on areas that have already been subjected to projects whose impacts were not mitigated, thus causing more stress on residents who already are affected by traffic, pollution, and a decreasing amount of open space.

An inclusionary housing ordinance ("IHO") is being considered. Much has been said about the reasons why young people and seniors cannot afford to live in Costa Mesa. The primary reason why affordable housing hasn't been built is because the price of land is high. But another reason is that the City has not adopted an IHO and no developer will build truly affordable housing unless it is required to do so. Why is an IHO being "considered" when it should have been drafted and implemented long ago as a tactic to satisfy our RHNA? The City needs to move this off the back burner and get it done. By no means should the City Council approve the final zoning changes contemplated by in the Housing Element Update until the City has adopted an IHO.

Many of the identified parcels are being zoned at densities that are typically used for rental housing. We are upside down compared to other cities in terms of home ownership versus rental housing. Homeowners tend to be invested in their communities, which is something encouraged by most cities. How is the City going to make certain affordable home ownership opportunities are provided?

Including ADUs and JADUs to satisfy the numbers is reasonable. However, the City needs to consider ways to induce or assist homeowners to build them. Grants, loans, and tax abatements are all incentives the City should consider.

As noted in Program 3G of the draft Housing Element and by some of the City Council and Planning Commission members, the Housing Element Update will need to be put to a vote by the citizens because it exceeds the limitations under Measure Y. This will require the City to present information to the public, including depictions of buildings of the new levels of density, what you anticipate traffic VMT to be, and environmental impacts.

Measure Y came about because, despite the illusion of the City welcoming participation by residents in the planning process, the voices of the residents were largely ignored. Many residents were not aware of large projects that impacted their quality of life until the framing began. The purpose of Measure Y was not only to engage citizens in the process and give them the ability to have input into large projects, but also to encourage developers to bring better projects to Costa Mesa. Additionally, it was anticipated that the City would adopt a better General Plan because that document would likely be subject to a vote of the residents under Measure Y.

For many years the residents have been asking the City to develop a vision of what the future of Costa Mesa will be. It is understood that this takes time and expertise, but it will never happen unless it gets started. This is the perfect opportunity to do that. Jennifer Le, the City's Director of Economic and Development Services, stated that looking at Form-Based Code will be a part of a major update to our Planning Code. I encourage the City to adopt Form-Based Code, because it will encourage predictable growth that is compatible with existing neighborhoods, while encouraging financial solvency through mixed-use development.

As for the document itself, it is well organized, and I thank Staff and the consultant for the time and care that was taken. I suggest the following modifications/additions:

1. In the Community Profile (Chapter 2), it would be helpful to see:
    a. Population Growth: What has been the historical growth of Newport Beach and Irvine as compared to Costa Mesa? Did Costa Mesa grow more over the past decade or less than these cities? This will tell us if this is a trend or a pattern. It should also be noted that Costa Mesa, unlike Newport Beach and Irvine, is nearly built out and has very little space in which to add housing without repurposing commercial/industrial properties. Also, the fact that high cost of land contributes to the lack of affordability and growth of housing should be included.
    b. Age Characteristics: How does Costa Mesa compare to California? The US? Is the increase in people over 65 living in Costa Mesa unique or is this because people in the US are living longer overall?
2. Chapter 4, Housing Plan, includes programs where developers are identified and encouraged to work with the City on senior housing and mixed-use projects within the Urban Plan areas. I encourage the City to include that same action in Program 2B, Affordable Housing Development.
3. Appendix B, Candidate Sites Analysis and Overview:
    a. A major corridor, Newport Boulevard has been ignored. This area has many aging properties that could be repurposed for housing; however, careful consideration needs to be given to how those projects would impact the adjoining neighborhoods. Since Newport Boulevard is one-way on either side of the freeway, walkability, bikeability and mixed-use developments must be prioritized.
    b. Most of the parcels have been assigned a future density that we typically see as multi-family rental housing when built out. The City already is upside-down in the ratio of homeownership to rental housing compared to other cities in Orange County. How will the City remedy this situation?
4. It would be very helpful if hyperlinks/cross-references could be added to the document so readers could more easily find definitions and use of terms in various sections. For example, I tried to find "high resource neighborhoods" that were referenced in the joint Study Session and had a difficult time finding it (used twice in Chapter 3, but not defined).

Thank you for your consideration.

Cynthia McDonald

Subject: Please enter these comments into the public record regarding the Housing element draft proposal presented September 13, 2021.

Absurd levels of Density are Not Acceptable

State Mandates Violate - 'Local Governance' principals

also:

1. Many people walk to Smart & Final and El Metate Market to get their groceries. I request that to deny the proposal to tear both of these down and put hundreds of high-density units in their place. Where will the residents buy their food? Do not tear down the grocery store and replace it with 'affordable' high-density housing on 19th Street.
2. So many units proposed for 19th Street will not fix the homeless problem, and adding high density development in the soup kitchen neighborhood smacks of instability over a multi-year period. Do not force higher density in here. It is a recipe for a slum and overcrowding. Currently, there is a shortage of parking on the residential streets that will be overrun if this plan moves forward.
3. Use the golf course practice area/driving range which is raw land next to the 2 (two) 18 hole golf courses. These 100 acres will easily hold the 4000 affordable homes state law requires to be planned for. This will give certainty that the required 4000 affordable homes will be built at all. All 100 acres don't need to be taken, and the 2 18 hole courses are totally separate from the practice area. Another benefit to utilizing the golf course is the reduction in land that needs watering which would reduce the overall water demand on the city.
4. Another potential location for these proposed units would be the Fairview Development Center.
Utilizing the land that the practice area or Development Center provides will impact the community in the least possible way.
5. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Subject: ADU comments and Questions

Dear Housing Element,

Meeting:

I was on the Thursday September 2nd evening community meeting .

Want to thank your staff for the professionalism, the number of staff showing up for the meeting. As well as the different categories of topics that were included.

Used a cell phone and did not use zoom. Was limited on being able to raise my hand or make comments. Also was not able to move from main room to other rooms. I would recommend on future invites to the meeting to go into detail on best ways to attend the meeting and protocols.

There was a large amount of information provided before the meeting which was excellent. Even after reading the information felt largely not prepared for the meeting. Not sure how to resolve this disconnect. But wanted to make your staff aware of this as if I felt a disconnect maybe others in the meeting felt the same way.

Maybe if the agenda is more clear before the meeting and a contact person for an inquiry before the meeting may help the meeting to go more smoothly.

I realize that state, county and city requirements for ADU are still being defined. With this in mind I am making the following comments. Also not an expert with all the rules and regulations proposed and have been made into law. As a home owner making the following comments. Want to thank the City for making public comments available for shaping ADU's in the City of Costa Mesa.

My comments below is for R1 zoning only.

Comments:

A. FORMAL NAMES OF AREAS WITH THE CITY

The city has identified different areas within the city limits. Can we have formal names for these areas and city boundaries? Can these formal names be used in the reporting processes?

B. FEATURES AND BENEFITS

On the information that was provided before the meeting. Was not able to find information on Cottages, Duplex and Triplexes. But the information was on larger apartment complexes.

As a home owner we are interested in features and benefits. Not so much technical details about the city requirements for densities, tax credits to the city and other city related technical details.

I am pleased to find a glossary of terms that is helpful. But it is easy to get over whelmed with all the technical details that are involved with a ADU both from a State and the City requirements. Within the calendar last year, the ADU process is much easier. Want to thank the city for making it much easier in the planning process.

C. PERMITIING PROCESSES

It seems to me we submit our proposal for an ADU and it is reviewed within the guidelines. To me if the guidelines are more clear it would be an easier process. My thinking is if it the criteria broken down down into categories and posted on the city website it would be easier prior to submitting the application for approval. Would it be possible to break up the ADU's permitting process in the City in the following categories:

R1 Zoning:
A. Garage conversion
B. Single Free standing
C. Existing Single Family Home conversion D. Duplexes C. Triplexes E. Cottage Clusters F. Number of ADU's on a lot permitted.

Some ideas would be a flow chart of the permitting processes to include allowed, not allowed, in process of change. Then into sub categories.
These different categories have different requirements. Maybe even a spreed sheet table that has check boxes on the requirements would be helpful. Any more color on this subject would be helpful. Ways to make it easier as a home owner to understand the ADU processes.

From my understanding, I can be wrong. But Duplexes, Triplexes and Cottage Clusters are not allowed under R1 zoning.
Can this be changed? Is this a State or City mandate?

On Duplexes, Triplexes, and Cottage clusters to have consideration to allow under R1 Zoning under the definition of use for a ADU with the criteria of California and City codes.

During the meeting the process of planning and permitting of ADU seems to be capped for the number of ADU.
I am not clear on the # of ADU permitted per year. Any color on this subject would be helpful.

D. YEARLY REPORTING OF ADU's

To produce a yearly report that would have these details:
Under R1 Zoning, ADU permitted to include Garage Conversion, Single Free Standing, Existing Single Family Home Conversion, Duplexes, Triplexes, and Cottage Clusters.

1. #1 Parking Spaces allocated
2. SQ Feet of ADU
3. Set Back requirements
4. 1 Story or two story, or multi story
5. The intended use of the ADU (Family, Income, Guest House) 6. The length of time for planning process, Permitting and build completion 7. Estimated Costs of permits, and build costs.
8. Building Materials used (high, medium, low cost) 9. The area formal location name within the city

Please consider my comments for future planning.

Best Regards,
Mr. Louis Shapiro

To: Housing Element
Subject: Housing Proposal

To whom it may concern. I am writing to share my concerns on the proposed Housing element draft presented on September 13, 2021.

I oppose this proposal for the following reasons:

1. Smart & Final and El Metate are very conveniently located within our neighborhood. Many people walk to these stores for their groceries. If both of these are torn down, where will the residents buy their food? Many residents do not have the luxury of a vehicle to drive for groceries. Do not tear down the grocery stores to build "affordable housing".

2. Adding low-income housing will not solve the problem of homelessness, it will only add to overcrowding and the parking shortage for residents in the area. This is a recipe for slum and overcrowding.

3. I suggest using the golf course area/driving range which is raw land. This area will easily accommodate all the affordable housing the state law is requiring.

4. Another potential location for these proposed units would be the Fairview Development Center.

Utilizing the land that the practice area or Development Center provides will impact the community in the least possible way.

5. Stop the affordable unit tax on developers and they will build better market rate projects that build neighborhood value.

Thank you for your time,

Yesenia Markle
Costa Mesa Resident

City of Costa Mesa
77 Fair Drive,
Costa Mesa, CA 92626
housing-element@costamesaca.gov
minoo.ashabi@costamesaca.gov

RE: City of Costa Mesa Draft 6th Cycle Housing Element

Dear Ms. Ashabi and City Staff,

Public Law Center ("PLC") is a 501(c)(3) legal services organization that provides free civil legal services to low-income individuals and families across Orange County. Our services are provided across a range of substantive areas of law, including consumer, family, immigration, housing, and health law. Additionally, PLC provides legal assistance to community organizations. Further, the mission of our Housing and Homelessness Prevention Unit includes preserving and expanding affordable housing. Thus, we write on behalf of individuals in need of affordable housing in Orange County to comment on the City of Costa Mesa ("the City") Draft 6th Cycle Housing Element.

Government Code Section 65583 requires that a housing element consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing.[1] Additionally, the housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community.[2] We commend the City on its efforts to engage its residents in the housing element update process and in its attempts to identify and address the housing needs of its residents. However, the City's Draft 6th Cycle Housing Element fails to meet all of the requirements of State law and fails to contain strong commitments to implement meaningful programs and actions that will address the housing needs of its residents.

Extremely Low-Income Households

Local agencies shall calculate the subset of very-low-income households allotted that qualify as extremely-low-income households.[3] To make this calculation, the local agency may

[1] Cal. Gov. Code Section 65583.
[2] Cal. Gov. Code Section 65583.
[3] Cal. Gov. Code Section 65583(a)(1).

either use available census data or presume that 50% of the very-low-income households qualify as extremely-low-income households.[4]

In describing its RHNA, the City lists a need for 2,919 very low-income units but does not explain how many of these households are considered extremely-low-income.[5] The City states that there are approximately 6,610 extremely-low-income households within the jurisdiction, but does not utilize this information to calculate the need for extremely-low-income units within the jurisdiction.[6] The City must describe its need for extremely-low-income households and very-low-income households, which shall equal the jurisdiction's allocation of very-low-income households.[7]

Emergency Shelters

The housing element shall include the identification of a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit.[8] Additionally, each local government shall identify a zone or zones that can accommodate at least one year-round emergency shelter.[9]

Although it appears that the City has existing ordinances that satisfy these requirements, the City has not clearly described these ordinances, policies, and standards because it provides conflicting information.[10] First, the City's table describing housing types permitted across various zoning districts does not state that emergency shelters are permitted within any zone.[11] The City later states that emergency shelters are permitted in the MP Industrial Zone.[12] Then in its review of past performance, the City states that the City adopted an ordinance to permit emergency shelters by-right within the Planned Development Industrial Zone.[13] The City must clarify where emergency shelters are permitted without a conditional use or other discretionary permit and specify whether these zones can accommodate at least one year-round emergency shelter.

Emergency Shelter Need

Further, the identified zone or zones shall include sufficient capacity to accommodate the need for emergency shelter.[14] The need for emergency shelter shall be assessed based on the capacity necessary to accommodate the most recent homeless point-in-time count conducted before the start of the planning period, the need for emergency shelter based on number of beds available on a year-round and seasonal basis, the number of shelter beds that go unused on an

average monthly basis within a one-year period, and the percentage of those in emergency shelters that move to permanent housing solutions.[15]

First, the City identifies 193 persons experiencing homelessness within the jurisdiction: 6 sheltered and 187 unsheltered.[16] Second, the City's emergency Bridge Shelter has opened its permanent location with 72 beds available.[17] However, the City's website states that the City of Newport Beach "entered into a partnership with the city," contributed a total of $1.6 million toward the construction and furnishing of the shelter, and will continue to "provide $1 million annually for 20 set-aside beds."[18] This means only 55 of the Bridge Shelter beds are available to accommodate the City's homeless population, requiring that the City still zone for sufficient emergency shelter capacity to accommodate 132 unsheltered individuals within its jurisdiction. Third, the City does not specify whether the Shelter has any unused beds on an average monthly basis or what percentage of those in emergency shelters move on to permanent housing. The City must provide this information to accurately assess its emergency shelter need and determine whether its identified zones can accommodate this need.

Emergency Shelter Standards

The local government shall also demonstrate that existing or proposed permit processing, development, and management standards are objective and encourage and facilitate the development of, or conversion to, emergency shelters. [19] However, because the Bridge Shelter currently has 72 beds, the City must clarify whether it still requires that each emergency shelter have a maximum of 30 beds.[20] This information is important to determine how many shelters the City would need to accommodate its 132 unsheltered homeless individuals.

Special Housing Needs

The housing element must analyze special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability;[21] large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter.[22]

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

Seniors

The City explains that "seniors have a high likelihood of limited and fixed incomes, higher health care costs, greater mobility challenges and self-care limitations, transit dependency, and commonly live alone," resulting in a need for affordable housing, supportive housing, co-living, multi-generational living options, and alternative housing options with service components.[23] The City then touches on overpayment issues and disabilities seniors often face.[24] This analysis of senior housing needs is shallow and should be more detailed. The City should include a description of the financial challenges that seniors may face, the number of lower-income seniors living within the jurisdiction, and an analysis of challenges specific to lower-income seniors.

To address senior housing issues, the City identified Program 2D, which requires the City to "identify opportunities for Senior Housing developments within Costa Mesa, including working with developers who specialize in the development of Senior Housing."[25] However, "identifying opportunities" is extremely vague and does not actually commit the City to taking any action to help seniors address their special housing needs. Further, the City does not address any of the other challenges seniors face that contribute to the difficulty in finding appropriate, affordable housing. The City does not attempt to assist lower income seniors to find affordable housing and does not claim it will attempt to create this type of housing. The City must revise this program and include others that actually address senior housing needs and that commit the City to take specific actions.

Persons With Disabilities

The City first discusses the housing challenges that persons with physical and developmental disabilities may face, such as limited income, restricted mobility, reduced ability for self-care, and disabilities that require a supportive or institutional setting.[26] Further, housing with modifications for persons with disabilities can be costly and should be located near transit, medical services, and retail.[27]

This brief listing of challenges does not constitute a thorough analysis of the special housing needs of this group. Although the City states that "no current comparisons of disability with income, household size, or race/ethnicity are available," the City should conduct its own analysis of this demographic.[28] Such an analysis is important to understanding how these factors exacerbate housing challenges and will enable the City to create specific programs that meet the needs of as many residents with disabilities as possible.

To address these needs, the City states that "incorporating 'barrier-free' design in all new, multi-family housing . . . is especially important to provide the widest range of choices for residents with disabilities" and that "special consideration should also be given to the

[27] City of Costa Mesa, 2021–2029 Housing Element Draft, 2-20 (August 2021).
[28] City of Costa Mesa, 2021–2029 Housing Element Draft, 2-19 (August 2021).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

affordability of housing as people with disabilities may be living on a fixed income."[29] However, the City merely lists several housing types and assistance programs that can help meet these special housing needs and does not reference any City programs that incorporate barrier-free designs or prioritize low-income residents with disabilities.[30]

Instead, Program 2F: Persons with Physical and Developmental Disabilities states that "the City will continue to take actions to accommodate ADA retrofit efforts, ADA compliance and/or other measures where appropriate through the implementation of Title 24 as well as reviewing and amending its procedures to comply with State law as necessary."[31] Similar to Program 2D for seniors, this program does not commit the City to taking meaningful actions to address these special housing needs, even though the City identified meaningful actions in its analysis that would help meet these needs, such as incorporating "barrier-free" designs in housing. Since Program 2F is insufficient, the City must either revise this program or create a new program that accounts for the special needs of persons with physical or developmental disabilities.[32]

Large Households

The City states that "a limited supply of adequately sized and affordable housing units," causes lower-income large households to face overcrowding in smaller units with less bedrooms.[33] Lower-income renters are particularly vulnerable to this because rental units with more than three bedrooms are rare and more expensive.[34] Again, this analysis is lacking important details, such as the existing number of four-bedroom or larger units in the City and their level of affordability, the number of large households that are lower income or cost burdened, and other pertinent factors, all of which would influence the programs the City should create to meet these needs. The City should take additional steps to study this group further and provide analysis that is more detailed.

Program 2E: Encourage Development of Housing Options for Large-Family Households is another vague program that merely states that "the City will work with applicants who propose for-rent residential projects to encourage 4-bedroom units as part of proposed developments" and will "review development standards to determine if any pose an impediment to the development of large units."[35] If the City finds any impediments, the program only requires that the City "consider amendments to the Zoning code to alleviate those impediments."[36] The program does not commit the City to taking any specific actions that will actually assist large households. The City should revise the program to be more descriptive by including specific incentives or actions that will be taken to encourage the development of four-bedroom or larger units and by including a specific timetable for the review of development standards that might impeded the

development of larger units. If any impediments are encountered, the City should commit to take actual steps toward revising the standards to mitigate this constraint. As the City does additional analysis, it should also revise its program to address the needs of large households who are at lower-income levels. The City should also revise the program to not just encourage four-bedroom units, but four-bedroom *and larger* units to accommodate different sizes of large households, such that it addresses the overcrowding issue.[37]

Single-Parent Households

The City's extremely brief description of single-parent households states that these residents have a "greater need for affordable and accessible day care, health care, and other supportive services," and that "many female-headed households with children are susceptible to having lower incomes than similar two-parent households."[38] Despite this acknowledgement, the City provides no additional discussion of these challenges, nor does it specify a program that addresses these needs. For example, the City notes that 27.4% of its single-parent households are living in poverty, but makes no attempt to address this issue.[39]

The City must further discuss the special needs of single-parent and female-headed households and describe the City's resources and unmet needs for such groups.[40] The City must identify programs that specifically assist single-parent and female-headed households.

Farmworkers

In attempting to analyze the special housing needs of farmworkers, the City explains who farmworkers are and simply states that farmworkers "earn lower incomes than many other workers and move throughout the year from one harvest location to the next."[41] This statement is not an analysis of farmworkers' special housing needs. Additionally, Program 2H is not sufficient to meet the needs of this group because it merely brings the City's zoning code into compliance with state law.[42] With 2,669 farmworkers living within the jurisdiction, the City must identify unique factors that affect their ability to obtain housing, their specific housing needs, and create programs to address these needs.[43]

No Net Loss Requirements

Government Code Section 65863 requires that jurisdictions maintain adequate sites to accommodate its remaining unmet RHNA in each income category throughout the entire planning period. If there is a shortfall of sites to accommodate its RHNA, the jurisdiction must either amend its site inventory to include sites that were previously unidentified or rezone sites to

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

meet the need.[44] Failure to do so would constitute a violation of the No Net Loss law and Housing Element law.[45]

To ensure a jurisdiction can accommodate its entire RHNA throughout the planning period and avoid these violations, HCD recommends that jurisdictions include a buffer in the housing element inventory of at least 15 to 30 percent more capacity than required, especially for lower incomes.[46] Alternatively, jurisdictions may create a buffer by projecting capacity less than what is allowed from the maximum density in anticipation of reductions in density, or rezoning additional sites above what is needed to accommodate the RHNA.[47]

Through its site inventory, rezoned sites, and ADUs, the City has created a 34 percent buffer, with only a five percent buffer for lower income units.[48] Because lower income units are the most difficult to construct, the City should increase the lower income buffer to avoid violating the No Net Loss and other Housing Element laws.

Constraints

Governmental Constraints

The housing element must contain an analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in Section 65583(c)(1),[49] and for persons with disabilities,[50] including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, local processing and permit procedures, and any locally adopted ordinances that directly impact the cost and supply of residential development.[51]

The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the RHNA and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters.[52]

The Draft provides an analysis of the City's current "1. Land Use Controls", but fails to mention how, if at all, these land use controls are constraints to housing development.[53] If the City determines land use controls constrains housing development, and if so, a program should be included to prevent such constraints. The element exhibits the same issue in the "4. Variety of Housing Types Permitted" and "5. Planned Development" section of Governmental Constraints to affordable housing development.[54] On pages 3-6 to 3-8, the element provides a description of zoning codes and regulations, but does not conclude how, or if, these codes are a constraint on housing development.[55] The element should mention if these restrictions are constraints to housing developments, and if so provide a program to eliminate or mitigate such constraints.[56]

Measure Y is a slow growth program, "An Initiative to Require Voter Approval on Certain Development Projects".[57] Program 3G discusses actions the City will take to address Measure Y in the context of the Housing Element.[58] Program 3G asserts it must determine "a path forward" in consideration of Measure Y to be able to adopt changes necessary to implement the City's housing element to meet the City's state mandated RHNA allocation.[59] Essentially, Program 3G is a plan to deal with a housing constraint and gives the City a 3 year time frame to "deal" with the issue, but provides no concrete steps.[60] The City should provide more concrete steps on how it plans to address Measure Y as a constraint and alternative options in the event that voter approval does not pass, to ensure the City is compliant with Housing Element Laws.

Nongovernmental Constraints

The housing element must also analyze potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by Section 65583.2(c), and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the RHNA.[61]

The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.[62]

The element asserts construction costs are a major portion of development costs, but is not a constraint to housing development since construction costs are "consistent with the region".[63] Just because the City's construction costs are consistent within the region does not mean they are not a constraint to development. For example, the element mentions the cost of land is consistent with the region, but that the"[the cost of land] may create a constraint to the development of housing, specifically affordable housing."[64] The City contradicts its own logic in the housing element. For this reason, the City should analyze development costs as an actual constraint on the development of housing and create a program to mitigate constraints on affordable housing development caused by the construction costs.

The element identifies "Cost of Land" as a constraint to housing development and mentions Chapter 4 to accommodate these constraints.[65] The element should identify exactly which program(s) within Chapter 4 address and mitigate the high cost of land. Additionally, the element claims "Available Financing" is not a constraint to the provision and maintenance of housing in the City.[66] On the same page, the element asserts that White applicants were more likely to be approved for a loan than their non-White counterparts.[67] The City should implement a program to ensure equal opportunities to all loan applicants as inconsistent lending practices is a constraint to fair and affordable housing.

The element identifies Program 2A to "consider" an inclusionary housing ordinance within two years of implementing the sixth cycle housing element.[68] Program 2B explains the City will "analyze potential development incentives" to encourage affordable housing development.[69] Program 2A and 2B embody noncommittal, vague language with no quantified goal. "Analyzing" incentives will not lower barriers to the development and maintenance of affordable housing. Program 2E exhibits the same issue, as the City will "consider" removing impediments in the City's zoning ordinance for developments to accommodate underserved large families.[70] Program 2I exists to promote state bonus density incentives.[71] According to the element, such incentives "*may* take the form of additional residential units permitted beyond the density allowed in the base zoning..."[72] The language of Programs 2A, 2B, 2E and 2I is vague, non-committal and observes no quantified objective.[73] The City should amend these programs to create concrete steps that will result in beneficial outcomes during the planning period and incorporate a quantified goal to assess if these programs are making progress.

[73] City of Costa Mesa, Draft 2021-2029 Housing Element 4-5 to 4-7 (August 2021).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

Similar to the issues listed above in Program 2, Program 3A adopts language that is vague, noncommittal and unquantified[74], so it is unclear how this program will loosen constraints on affordable housing development. For example, Program 3A claims "The City will *consider* and *promote* various incentives to *encourage* development of housing, live/work, and mixed-use development in its Urban Plan and Specific Plan areas."[75] Programs 3B, 3E, 3F, 3H, 3I, 3J, 3O, 4A, 4C and 4D display the same deficiencies.[76] The City should amend this program to adopt mandatory language with a time sensitive, quantified goal to encourage the development of affordable housing.

The element assesses 5th cycle policy progress within Appendix A: Review of Performance.[77] In this section, the City fails to provide a quantified analysis of fifth cycle progress, which makes it difficult to determine the effectiveness of the policy and whether it should remain in the sixth cycle housing element. For example, the City dedicated Policy HOU-1.5 to maintaining and upgrading "deteriorating" neighborhoods to encourage private development,[78] however the element fails to determine if this policy was effective in encouraging housing development in the fifth cycle. The element maintains Policy HOU-1.5 in the sixth cycle "to ensure it is resourceful and useful in efforts to promote and encourage the development of housing".[79] With lack of data or measured progress, it is unclear if Policy HOU-1.5 was effective in the past and whether it should remain in the sixth cycle element. Policy HOU-1.7, HOU-2.1, HOU-2.3, HOU-2.4, HOU-3.1, HOU-3.2, HOU-3.4, HOU-4.1, HOU-4.2, HOU-4.4 and HOU-5.1 exhibit the same issues.[80] The element is void of information necessary to form an assessment on Policy progress. The element should provide policy data of past performance success or failure to determine if a policy should remain in the sixth cycle housing element.

Site Inventory

The housing element must include an inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level.[81] A jurisdiction may identify sites by a variety of methods, such as re-designating property to a more intense land use category, increasing the density allowed within one or more categories, and identifying sites for accessory dwelling units ("ADUs").[82]

[82] Cal. Gov. Code Section 65583.1(a).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

The site inventory must provide for a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.[83]

Determining Site Capacity

Based on the information provided in the site inventory, a city or county shall determine whether each site in the inventory can accommodate the development of some portion of its share of the regional housing need by income level during the planning period.[84] To determine the number of housing units that can be accommodated on each site when the jurisdiction does not adopt a law or regulation requiring the development of a site at a minimum density, the jurisdiction shall demonstrate how the number of units determined for that site will be accommodated.[85]

The number of units that can be accommodated on each site shall be adjusted as necessary based on the potential and actual governmental constraints upon maintenance, improvement, or development of housing, including land use controls and site improvements; the realistic development capacity for the site; typical densities of existing or approved residential developments at a similar affordability level in that jurisdiction; and the current or planned availability and accessibility of sufficient water, sewer, and dry utilities.[86]

Here, the City does not describe a methodology that considers these factors. Further, although the City assumes "that sites identified within [the City's site inventory] will redevelop with . . . 30% of units available to residents in the low and very low-income categories," the City has not justified this assumption.[87] In fact, Program 2A: Inclusionary Housing Ordinance does not actually require developers to set aside any units for affordable housing, but merely states that the City will continue to analyze the impacts of inclusionary ordinances and "consider adoption of an inclusionary housing ordinance."[88] The City must reanalyze its site capacities in light of this unsupported assumption.

Lower Income Sites Size

If a site is smaller than half an acre or larger than ten acres, it cannot be deemed adequate to accommodate lower income housing unless the locality can demonstrate that sites of an equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site.[89] Alternatively, the locality may provide other evidence to HCD that the site is adequate to accommodate lower income housing.[90]

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

The City has identified numerous sites for lower-income housing that are either smaller than half an acre or larger than ten acres. Because the City has not demonstrated that sites of equivalent sizes have been successfully developed in the previous cycle for an equivalent number of lower-income units, the City has attempted to provide other evidence that these sites are adequate for lowing income housing.

Regarding sites smaller than half an acre, the City has merely stated that it only identified these sites that "show the likelihood of redeveloping in conjunction with other parcels which collectively meet the half acre requirement."[91] The City based these identifications on common ownership and assumed willingness to consolidate parcels.[92] However, these assumptions are not evidence that these sites can actually be developed for lower-income housing or that they will be consolidated. The City must provide more evidence or remove these sites from its inventory.

In addressing sites larger than ten acres, the City again could not demonstrate that sites of equivalent size have been successfully developed in the previous cycle for an equivalent number of lower income units. Instead, the City attempts to provide evidence for each site. However, the Fairview Developmental Center was identified in the 5th Cycle but was not developed and its development potential is based on a City ad hoc committee's meetings and reports.[93] The City does not claim that the State is actually interested in developing lower-income housing here. Further, for Sakioka Lot 2, Home Ranch, South Coast Plaza, and Pacific Arts Plaza, the City describes the properties and states for each one that "the City has had continued discussions with the property owners who have indicated that there is potential for future housing development on the site in strategic areas."[94] This vague statement and lack of evidence to support an assumption for future development is not sufficient to deem these properties adequate for lower-income housing. The City must provide more evidence or remove these sites from its inventory.

Nonvacant Sites Owned by the City

If a nonvacant site is owned by the city or county, the description shall include whether there are any plans to dispose of the property during the planning period and how the city or county will comply with the Surplus Lands Act.[95]

Site 424-211-01 is owned by the City, but it is unclear whether it is nonvacant. The City must clarify this. If it is nonvacant, the City must provide the requisite information or remove the site from its inventory.

Nonvacant Sites for 50% or More of Housing Need

If the jurisdiction is relying on nonvacant sites to accommodate 50% or more of its housing need for lower-income households, the methodology used to determine additional

[91] City of Costa Mesa, 2021–2029 Housing Element Draft, B-10 (August 2021).
[92] City of Costa Mesa, 2021–2029 Housing Element Draft, B-11 (August 2021).
[93] City of Costa Mesa, 2021–2029 Housing Element Draft, B-10 (August 2021).
[94] City of Costa Mesa, 2021–2029 Housing Element Draft, B-10 to B-11 (August 2021).
[95] Cal. Gov. Code Section 65583.2(b)(3).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

development potential shall demonstrate that the existing use identified does not constitute an impediment to additional residential development during the planning period.[96]

Here, only four sites have been identified as vacant. Therefore, the City must revise its stated methodology for nonvacant sites to describe how it will address existing uses impeding additional residential development.

Sites with Current or Past Residential Uses

For sites that currently have residential uses; have had a residential use within the past five years that have been vacated or demolished; are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to very-low- or low-income residents; are subject to any other form of rent or price control through the public entity's valid exercise of its police power; or are currently occupied by very-low- or low-income residents shall be subject to a policy requiring the replacement of all those units affordable to the same or lower income level as a condition of any development on the site.[97]

Site 425-431-02 is a hotel and Site 422-193-24 is a motel. If either of these sites have current residential uses or are currently occupied by very-low- and low-income residents, the City must create a program that requires developers to replace these units at the same or lower income level.

Presumption of Impeding Additional Residential Development

An existing use shall be presumed to impede additional residential development, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period.[98]

Although the City has claimed that many of its sites are likely to be redeveloped within the planning period and provides examples of development on nonvacant sites for residential uses, it has not provided actual, individualized evidence that any of these uses will be discontinued.[99] Therefore, none of these sites can overcome the presumption that their existing uses will impede additional residential development.

Accessory Dwelling Units

A jurisdiction may count an ADU for purposes of identifying adequate sites for housing.[100] The number of ADUs identified is based on the number of ADUs developed in the prior housing element planning period, whether or not the units are permitted by right; the need for these units in the community; the resources or incentives available for their development; and any other relevant factors determined by HCD.[101] To estimate the number of ADUs that will be developed in the planning period, a jurisdiction must generally use a three-part approach

[100] Cal. Gov. Code § 65852.2(m); Cal. Gov. Code § 65583.1(a).
[101] Cal. Gov. Code Section 65583.1(a).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

addressing (1) development trends, (2) anticipated affordability, and (3) resources and incentives.[102]

When assessing development trends, a jurisdiction must consider the number of ADUs developed in the prior housing element planning period, whether or not the units are permitted by right;[103] the need for these units in the community;[104] the availability of ADUs and JADUs that will be part of the rental stock, rather than used as offices or guest houses;[105] and more recent trends.[106] However, HCD Staff has stated that the following two approaches would be accepted without further analysis or incentives: (1) average ADU applications from the beginning of the 5th Cycle to 2017, multiplied by five; or (2) average ADU applications from 2018, multiplied by eight. If jurisdictions anticipate a higher ADU production, HCD will require more analysis and incentives to show the higher production can be met.

The City has determined its ADU production estimate "based on past performance and the SCAG/HCD approved methodology" to claim 858 ADUs for the planning period.[107] The City has permitted 4 ADUs in 2018, 6 in 2019, 19 in 2020, and 12 so far in 2021.[108] Utilizing the second "HCD approved methodology," the City should have only claimed 88 ADUs over the planning period. To justify the additional 770 ADUs, the City must demonstrate that its offered incentives can achieve the higher production. The City states that Program 3E will do so.[109]

Program 3E states that "the City will evaluate potential programs with the intent of promoting the development of accessory dwelling units," which may include the following:

- Coordinating with the County on implementation of a permit-ready ADU program;
- Post a user-friendly FAQ on the City's website to assist the public;
- Waiving certain permitting fees to make ADU development more feasible;
- Creating an expedited plan check review process to ease the process for homeowners; and
- Explore potential State and Regional funding sources for affordable ADUs.

However, Program 3E does not thoroughly describe these incentives, does not analyze how these incentives will boost ADU production, and does not commit the City to implement any of these incentives. Even if all of these incentives were implemented, none of them promotes

the creation of ADUs that can offer affordable rents for very-low-, low-, or moderate-income households.[110]

The City must reduce its ADU production estimate to a more realistic number, revise Program 3E to include the information stated above, and include more incentives such as:

- Prototype plans;[111]
- Reduce or eliminate building permit/development fees;[112]
- Affordability monitoring programs;[113]
- Incentives for affordability;[114]
- Financing – construction & preservation;[115]
- Outreach, promotion, and educational materials;[116] and
- Amnesty programs (SB 13).

Programs

The housing element must include programs that allow the jurisdiction to achieve its stated housing goals and objectives. Programs must set forth a schedule of actions during the planning period, each with a timeline for implementation.[117] The jurisdiction may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element.[118] The jurisdiction may do so through the administration of land use and development controls, the provision of regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law.[119]

To make adequate provision for the housing needs of all economic segments of the community, the programs shall address housing issues such as inadequate site inventories, meeting lower income housing needs, removing constraints, maintaining affordable housing, promoting affirmatively furthering fair housing, preserving assisted housing developments, encouraging accessory dwelling units, and facilitating public participation. To make these programs most effective, HCD recommends jurisdictions include the following: definite time frames for implementation; an identification of agencies and officials responsible for

implementation; a description of the local government's specific role in program implementation; a description of the specific action steps to implement the program; proposed measurable outcomes; demonstration of a firm commitment to implement the program; and an identification of specific funding sources, where appropriate.[120]

As has been stated throughout our comment letter, the City's programs lack the detail and specificity recommend by HCD. Most goals are simply "ongoing" without definite timeframes or specific action steps. Also, most of the City's programs are noncommittal only planning to "promote," "encourage," or "evaluate."[121] The City should revise its programs generally to include more firm commitments, definite time frames, and specific action steps.

Affirmatively Furthering Fair Housing

California law requires that public agencies administer all "programs and activities relating to housing and community development in a manner to affirmatively further fair housing, and take no action that is materially inconsistent with its obligation to affirmatively further fair housing."[122] To affirmatively further fair housing, a public agency must do the following:

> [Take] meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws.[123]

Meaningful action means taking significant action that is designed and reasonably expected to achieve a material positive change that affirmatively furthers fair housing.[124]

Housing elements must incorporate the obligation to affirmatively further fair housing in the following aspects: (1) outreach, (2) assessment of fair housing, (3) site inventory, (4)

[124] HCD, Affirmatively Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements, 66 (April 2021); Affirmatively Furthering Fair Housing, 80 Fed. Reg. at 42354. Although the Department of Housing and Urban Development does not enforce this federal AFFH rule, California law has adopted the federal rule. This means that the federal AFFH rule can inform how to interpret the obligation to affirmatively further fair housing in California law.

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

identification and prioritization of contributing factors, and (5) goals, policies, and actions. Each section is addressed below.[125]

Outreach

Beyond preexisting outreach requirements, jurisdictions must include a summary of their fair housing outreach capacity.[126] Jurisdictions "must describe meaningful, frequent, and ongoing public participation with key stakeholders."[127] Moreover, jurisdictions must summarize "issues that contributed to lack of participation in the housing element process by all economic segments, particularly people with protected characteristics, if that proves to be the case."[128]

The City must further describe its outreach efforts or make additional outreach efforts related to fair housing. While the City describes its multiple efforts to engage residents in the housing element update process,[129] none of the described efforts seem to relate to fair housing. The topics discussed at the meetings referenced by the City seem to focus on general housing element requirements and specifically housing development and site identification. None of the stakeholders referenced generally seem to indicate stakeholders connected with fair housing expertise and insights. While the City's online survey had one question under the category "Fair Housing," the question seems to be more related to special housing needs in the community and not necessarily to issues of fair housing. They City's fair housing assessment does describe some outreach related to fair housing specifically, but that outreach was conducted prior to 2019 and in conjunction with the Impediments Analysis for the entire County and not specific outreach for the City.[130] Additionally, the City has not established that it engages in "frequent" and "ongoing" public participation with key fair housing stakeholders. City does not identify key stakeholders that were invited to engage with the City regarding fair housing issues and fails to summarize issues that contributed to lack of participation. The City should describe, or encourage, additional key stakeholder participation, especially as it relates to fair housing, and address lack of participation by any key stakeholders or demographics.

Assessment of Fair Housing

A fair housing assessment needs to have a summary of fair housing enforcement and capacity.[131] In addition, the assessment must analyze these five areas: (1) fair housing enforcement and outreach capacity; (2) integration and segregation patterns and trends related to people with protected characteristics; (3) racially or ethnically concentrated areas of poverty (R/ECAPs) or racially concentrated areas of affluence (RCAAs); (4) disparities in access to opportunity for people with protected characteristics, including persons with disabilities; and (5)

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

disproportionate housing needs within the jurisdiction, including displacement risk.[132] Furthermore, each of these analyses must include local and regional patterns and trends, local data and knowledge, and other relevant factors.[133] The analyses should each arrive at conclusions and have a summary of fair housing issues.[134]

Fair Housing Enforcement and Outreach Capacity. The City references utilizing and contracting with Fair Housing Council of Orange County and Fair Housing Foundation for fair housing enforcement and outreach capacity.[135] However, the City only describes the missions and work of these organizations and largely identifies efforts to educate residents and housing providers, without any description of actual enforcement activities or a description of the actual outreach capacity. The City should include details describing actual enforcement and outreach capacity.

Segregation and Integration. "At minimum, the analysis must discuss levels of segregation and integration for race and ethnicity, income, familial status, persons with disabilities, and identify the groups that experience the highest levels of segregation."[136]

The City must bolster its discussion of segregation and integration. While the City analyzes some data regarding other protected classes, as it relates specifically to segregation the City largely focuses its analysis on race and ethnicity and to some extent income, the City should consider these segregations trends over timer and consider whether there are patterns of segregation for other protected classes including familial status and persons with disabilities.[137] While the City does some comparisons between the City, State, and County data, the City does not actually analyze regional segregation and integration trends other than occasionally mentioning trends along its borders. If protected classes are being segregated into other locations in the region and isolated from Costa Mesa, the City should be consider what factors are contributing to those trends. For example, the percentage of family households in Costa Mesa is significantly less than the County and the State.[138] Additionally, the City references some local factors and knowledge, such as the number of fair housing complaints from residents, it does not do much analysis of this local data or knowledge or consider other local data and knowledge.[139] To strengthen its analysis, the City should analyze integration and segregation patterns and trends based on income, familial status, and disability status currently and over time and provide additional analysis of ethnic and racial segregation over time. The analysis should be at a local and regional level for all protected classes. Furthermore, the City should utilize local data and

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

knowledge and other relevant factors "beyond data that identifies and compares concentrations of groups with protected characteristics."[140]

R/ECAPs and RCAAs. Jurisdictions must identify R/ECAPs and RCAAs.[141] "The analysis must be conducted at a regional and a local level where the incidence of concentrated areas of poverty is discussed relative to the region and within the locality. Importantly, this regional comparison should discuss the incidence of racial concentrations in areas of affluence."[142]

While the City does an analysis of R/ECAPs,[143] the City does not even mention RCAAs, local data, local knowledge, or other relevant factors. We recommend that the City present and analyze all relevant regional and local data about R/ECAPs and RCAAs. The City should also employ local data and knowledge, and other relevant factors.

Disparities in Access to Opportunity. The City's discussion of disparities in access to opportunity is inadequate. HCD's Guidance Memo presents questions that the City "should, at minimum" answer.[144] These questions cover disparities in educational, transportation, economic, and environmental opportunities, and disparities in other factors.[145] While the City utilizes some data sources regarding these factors and does an analysis of the factors, the City fails to connect the factors to data related to protected classes and whether there are disparities related to members of protected classes and access to opportunities.

Disproportionate Housing Needs, Including Displacement. Jurisdictions must analyze both disproportionate housing needs and displacement.[146] "[C]ategories of housing need are based on such factors as cost burden and severe cost burden, overcrowding, homelessness, and substandard housing conditions."[147]

The City touches on cost burden, severe cost burden, and overcrowding, but only does a comparison of this date between the City, County, and the State.[148] There is no discussion as to whether members of protected classes living in the City are experiencing these housing needs at greater rates than other residents and what factors are contributing to those disproportionate housing needs among protected classes. Substandard housing seems to only be addressed as the

[140] HCD, Affirmatively Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements, 25 (April 2021).

[147] HCD, Affirmatively Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements, 39 (April 2021).
[148] City of Costa Mesa, 2021–2029 Housing Element Draft, 3-61 to 3-65 (August 2021),

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

age of housing units.[149] The City should do more analysis of issues regarding substandard housing in the City, particularly as it impacts protected classes. There is no analysis of homelessness as it relates to fair housing and impacts on protected classes, which the City must consider. We recommend following HCD's Guidance Memo and analyzing the aforementioned disproportionate housing needs, especially as they relate to protected classes.

Additionally, the City only touches on displacement and seems to indicate that there is no affordable housing complexes at risk of conversion to market rate and therefore no displacement risk to consider. The City should revise this section for two major reasons. First, the City has a significant and recent history of displacement concerns as was raised in multiple public meetings which has resulted in the City eliminating or seeking to eliminate certain housing policies that caused displacement and to change how it identifies sites in those areas. The City needs to analyze and address these displacement concerns, even if the City thinks it has already resolved the issue. Second, the City goes through great lengths to distribute more of its affordable units in its site inventory in areas that have lower concentrations of ethnic and racial minorities and low-income households. However, the City still identifies many housing sites in these areas, just predominately for market rate. An influx of market rate units into low-income and segregated communities creates the risk of indirect displacement and the City should analyze and address this potential.

Conclusion and Summary of Fair Housing Issues. None of the City's sections conclude and summarize fair housing issues, likely because the City does not actually connect the analysis of the various factors to fair housing issues and the impacts on protected classes. The City should revise its assessment of fair housing and provide conclusions and summaries of the fair housing issues experienced by its residents.

Site Inventory

A jurisdiction's site inventory must be consistent with the jurisdiction's obligation to affirmatively further fair housing.[150] "Sites must be identified and evaluated relative to the full scope of the assessment of fair housing."[151] The jurisdiction should consider the following during its site inventory analysis:

- how identified sites better integrate the community;
- how identified sites exacerbate segregation;
- whether the jurisdiction concentrated the RHNA by income group in certain areas of the community;
- whether local data and knowledge uncover patterns of segregation and integration; and
- how other relevant factors can contribute to the analysis.[152]

[151] HCD, Affirmatively Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements, 3, 45 (April 2021).
[152] HCD, Affirmatively Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements, 45–46 (April 2021).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

The identified sites must attempt to improve conditions related to integration and segregation patterns and trends related to people with protected characteristics; racially or ethnically concentrated areas of poverty or affluence; disparities in access to opportunity for people with protected characteristics, including persons with disabilities; and disproportionate housing needs within the jurisdiction, including displacement risk.[153] Moreover, the jurisdiction must map the number of units at identified sites and include the sites' assumed affordability.[154] The jurisdiction should also address whether it groups sites near areas of concentrated affluence or areas of concentrated poverty.[155]

The City provides several maps of its site inventory in relation to concentrations of ethnic and racial minorities and lower-income residents.[156] While these maps do not identify the sites by assumed affordability, the City does provide an analysis of the affordability levels as it relates to the different categories and demographics contained in the maps. It is clear from the City's analysis that it went to great lengths to distribute more of the affordable units in areas of higher income residents and higher concentrations of White residents in an attempt to affirmatively further fair housing. While this is commendable, it is still concerning that, for example, there are no sites in any of the areas in the City with less than 40% non-White residents.[157] So while the City made an attempted to further fair housing among the sites identified, it does not seem that the City made an effort to affirmatively further fair housing in the actual selection of the sites. The City should make a greater effort to identify sites throughout the community, including in areas of the City with less than 40% non-White residents and the City should further analyze whether the identification of the majority of its sites in lower-income communities with higher concentrations of racial and ethnic minorities actually furthers fair housing or will only result in continued trends of segregation.

Identification and Prioritization of Contributing Factors

As a result of a jurisdiction's assessment of fair housing, the jurisdiction must identify and prioritize significant contributing factors to fair housing issues.[158] The jurisdiction must explain how it prioritized contributing factors.[159] "A fair housing contributing factor means a factor that creates, contributes to, perpetuates, or increases the severity of one or more fair housing issues."[160] The jurisdiction must follow these steps:

[153] HCD, Affirmatively Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements, 46, 63 (April 2021); Cal. Gov. Code Section 65583(c)(10)(A)(ii).

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

(1) identify fair housing issues and significant contributing factors;
(2) prioritize contributing factors, giving highest priority to those factors that
    (a) deny fair housing choice or access to opportunity or
    (b) negatively impact fair housing or civil rights compliance; and
(3) discuss strategic approaches to inform and strongly connect these contributing factors to goals and actions.[161]

The City seems to only adopt the same four factors identified for the City in the countywide Analysis of Impediments,[162] which likely is due to the fact that the City fails to fully assess fair housing and just provides data in attempt to satisfy the State requirements. Additionally, the City does not prioritize contributing factors. The City must do so to comply with State law. We suggest the City consult HCD's Guidance Memo for further details.

Goals, Policies, and Actions

Jurisdictions must provide goals, policies, and a schedule of actions during the planning period to affirmatively further fair housing.[163] These goals, policies and actions must be based on the jurisdiction's identification and prioritization of contributing factors.[164] The jurisdiction's actions may address, but are not limited to, the following areas:

- mobility enhancement,
- new housing choices and affordability in high opportunity areas,
- place-based strategies for preservation and revitalization,
- displacement protection, and
- other program areas.[165]

The jurisdiction's actions must be meaningful and sufficient to overcome identified patterns of segregation and to affirmatively further fair housing.[166] Accordingly, actions must commit to specific deliverables, measurable metrics, or specific objectives.[167] Actions must also have definitive deadlines, dates, or benchmarks for implementation.[168] In contrast, "programs that 'explore' or 'consider' on an 'ongoing' basis are inadequate . . . ."[169] Moreover, adequate

601 Civic Center Drive West · Santa Ana, CA 92701-4002 · (714) 541-1010 · Fax (714) 541-5157

actions must be "in addition to combatting discrimination" and "well beyond a continuation of past actions."[170]

The City's goals, policies, and actions fall below California law's standard. Many of the City's goals, policies, and actions do nothing more than make information available on its website claiming that "an educated community is an empowered community."[171] The City assumes that by providing information on its website, information likely already available on the internet, somehow housing discrimination will end, the community will become integrated, and all individuals will have equal access to housing opportunities. The City should consider goals that will actually result in beneficial impacts to the community beyond just making information available online. Also, the City has other goals, policies, and actions that only commit the City to continuing current programs. For instance, the City will continue to contract with the Fair Housing Foundation or continue to participate in the Orange County Housing Authority's Housing Choice Voucher program."[172] But the City already provided these services, which means that they cannot count as satisfactory affirmatively furthering fair housing goals. Additionally, these goals are vague and it is unclear how the City actually engages with these entities and what services and programs the City's residents gain by these programs. For example, it is unclear what City action actually makes any difference in or has any influence on the provision of Housing Choice Vouchers to City residents. While the City provides other goals that are beyond providing information or continuing past actions, many of the City's goals, policies, and actions are noncommittal and generally the City's fair housing goals lack measurable objectives and specific timelines for implementation, as has been discussed throughout our comment letter. The Program 2A: Inclusionary Housing Ordinance could go a long way toward combatting patterns of segregation and encouraging affordable housing throughout the community, but the City states that it will only "consider" adoption of such an ordinance.[173] Other goals state the City will simply "analyze potential development incentives for affordable housing," "pursue opportunities," "encourage development," "consider amendments" and "continue to evaluate." These exemplify the City's failure to include measurable objectives and concrete action steps or firm commitments to address the housing needs of its residents.[174] For most of its goals, the City designates the timeframes as "ongoing"—a feature that renders goals inadequate.[175] Because many of the City's goals, policies, and actions lack measurable objectives and timelines for implementation, this section cannot withstand HCD's scrutiny. We suggest picking actions that go beyond providing information and beyond continuing past actions. We also recommend that the City add specific metrics and milestones to its goals. We again refer the City to HCD's Guidance Memo.

Conclusion

The housing element process is an opportunity for jurisdictions to meet the needs of California's residents, including needs for housing that is accessible to seniors, families, and workers and the needs of extremely-low-, very-low-, and low-income families for affordable housing. We commend the efforts the City is making to identify and address the housing needs of all of its residents and we hope that the City will take advantage of this opportunity to adopt meaningful programs that actually commit the City to take actions during the planning period to address the housing needs of its most vulnerable residents and to affirmatively further fair housing. We look forward to continuing to work with the City through this process and encourage the City to reach out to us with any questions or concerns.

Sincerely,
THE PUBLIC LAW CENTER, BY:

Richard Walker, Housing and Homelessness Prevention Unit, Senior Staff Attorney
Alexis Mondares, Housing and Homelessness Prevention Unit, Legal Fellow

Lori Ann Farrell Harrison
City Manager
City of Costa Mesa
77 Fair Dr.,
Costa Mesa, CA 92626

Re: Objection to Housing Element.

Dear Ms. Harrison:

On behalf of the California Consortium of Addiction Programs and Professionals (CCAPP) - the largest statewide consortium of community-based for profit and non-profit recovery residences – we respectfully object to Costa Mesa's housing element because it contains discriminatory clauses against people in recovery in blatant violation of fair housing.

Several items[1] in Costa Mesa's municipal code (see detailed list attached) echo practices already proven discriminatory per the outcome of Encinitas and *Pacific Shores et. Al. v. City of Newport Beach.* They specifically target recovery residences and are discriminatory at every level because they ask people of a disabled class to adhere to regulation that people who are not disabled are not required to conform to. Employment checks, 24-hour supervision of adults in recovery, and distance requirements are glaringly not "reasonable accommodations," in any sense of the definition.

On March 25, 2021, the Department of Housing and Community Development (HCD) sent the City of Encinitas a letter declaring their ordinance to be discriminatory and contrary to both state and federal law (see attached). This led to an immediate response from the city and this ordinance has since then been repealed. Subsequently, on May 3, 2021, the City of Anaheim was sent a letter of technical assistance regarding its discriminatory ordinance that is very similar to the Encinitas notice of violation. CCAPP has notified HCD of all known ordinances of similar nature including yours so that the same enforcement action can be taken.

In *Pacific Shores et. al. v. City of Newport Beach,* the City of Newport Beach settled with the plaintiffs, agreeing to pay $5.25 million to a group of recovery residences. Given the settlement and both outside and in-house counsel, this case cost the City of Newport Beach well over $10 million over the seven year course of trying to defend its actions. This outcome was prior to the attached 10-page notice of violation sent to the City of Encinitas which reads, in part:

[1] Title 9, Chapter II, Article 23 of the Municipal Code, Chapters XV and XVI of Title 13 (Zoning), and Article 23 of Title 9 (Licenses and Business Regulations)

> "On December 16, 2020, the City adopted Ordinance No. 2020-16, amending the Municipal Code to regulate Group Homes and, as a subset of Group Homes, Sober Living Facilities. Described in greater detail below, HCD finds that the City's ordinance is in violation of statutory prohibitions on discrimination in land use (Gov. Code, § 65008) by imposing separate requirements on housing for a protected class (based on familial status and disability), limiting the use and enjoyment of their home, and jeopardizing the financial feasibility of group and sober living homes. The City must take immediate steps to repeal Ordinance No. 2020-16."

The notice of violation is a clear and unmistakable declaration that these ordinances are in violation of state housing laws. It also makes clear that HCD will take action, up to and including, the assistance of the California Office of the Attorney General.

And it is for these reasons that we object to your housing element as proposed.

Sincerely,

Pete Nielsen
President and Chief Executive Officer

Specific Considerations Objectionable in the Municipal Code

1. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

   (a) The owner/operator shall submit an application to the director that provides the following information:

   (7) relapse policy

   Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

   (a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

   (1) An application for a group home is submitted to the director by the owner/operator of the group home. The application shall provide the following:

   (vii). The relapse policy;

   These provisions target persons with disability. Other homes within the jurisdiction are not required to report to the city when a person relapses or what preparations are made for such an occurrence.

2. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

   (b) *Requirements for operation of group homes.*

   (1) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a twenty-four (24) hour basis and who are responsible for the day-to-day operation of the group home.

   Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

   (a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

   (4) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a twenty-four (24) hour basis and who are responsible for the day-to-day operation of the group home.

   Recovery residences are homes, not facilities. There are no "day-to-day operations" which require 24 hour supervision. This requirement, particularly for smaller homes will make it economically unfeasible to exist. Recovery residences cannot simply require 24-hour supervision without paying the persons responsible for providing this service. Typical, house managers, senior residents, or mentors are paid a small stipend of their contributions to the leadership they provide. To change this model to 24-hour supervision would make this type of housing unaffordable. Three 8-hours shifts at $15 per hour would increase the cost of the unit to $2,520 per week, or $10,080 per month. If it is the city's intention to expel this housing from the jurisdiction via onerous financial requirements, the resulting homelessness increase should be taken into consideration.

   Persons in this stage of recovery are not in need of supervision as determined by the American Society of Addiction Medicine:

Although persons in recovery are afforded protections under the Americans with Disabilities Act, the disability concerned does not imply that persons in recovery are in need of physical assistance (dressing, feeding) or in need of supervision. In fact, the American Society of Addiction Medicine Placement criteria for addictions patients, originally published in 1991 and now in its third edition (2013), directly contradicts the notion that persons in recovery residences are being supervised, in a clinical sense. Use of this criteria is a decades old industry standard and is now required for all programs licensed or certified by the Department of Health Care Services. By definition, persons living in a recovery residence do not require supervision. Applying ASAM criteria, persons in a supportive living environment would, at most, be classified as level 1.0, although many in long term recovery may not even be assessed as needing any treatment:

"At ASAM Level 1 placement/Recovery Environment, it is clear that medical experts do not consider supervision to be necessary. Likening this level to a mental health scenario, one could compare this level to a patient who has received a higher level of care, inpatient or otherwise, and is now perhaps receiving medication and attending weekly therapy."

3. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(b) Requirements for operation of group homes.

(11) In addition to the regulations listed above, the following shall also apply to sober living homes:

i. All occupants, other than the house manager, must be actively participating in legitimate recovery programs including but not limited to Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rule and regulations, refusal to actively participate in such a program shall be cause for eviction.

ii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least ninety (90) days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

(e) In addition to denying an application for failing to comply, or failing to agree to comply, with subsections (a) and/or (b) of this section, an operator's permit shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following circumstances:

(6) An operator's permit for a sober living home shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following additional circumstances:

i. The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

ii. All occupants, other than the house manager, must be actively participating in legitimate recovery programs, including, but not limited to, Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rules and regulations, refusal to actively participate in such a program shall be cause for eviction.

iii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least ninety (90) days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

(ii) The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

The ordinances asks for "immediate removal" of persons not "actively participating" in a "legitimate recovery program" and to ban communication with other residents should relapse occur.

Substance use disorder is prone to relapse. A person should not become homeless for relapse. Substance use disorder is a medical issue. Anyone relapsing may be in physical danger and in need of detoxification or treatment. In fact, "immediate removal" of a client in a licensed treatment program is prohibited by regulation due to safety concerns for the relapsing client. It takes time to contact family, arrange for detoxification, and find an open treatment bed, immediate removal is unrealistic and dangerous.

As for "legitimate recovery programs" as define in the ordinances, many persons in long term recovery do not necessarily attend meetings or have a need for outpatient services. For some hiking in the wilderness, working, or reuniting with family constitutes all the recovery services that they need. You cannot force people to attend a religious group or seek medical attention that they no longer need and do not desire to participate in. It is their right, this right was made clear when the City of Dana Point successfully sued a recovery residence for requiring that outside services be attended as a violation of state licensing law for alcohol drug treatment facilities. People in recovery are mature adults with civil rights which include the right to pursue personal recovery activities as they choose. How can city staff, with no knowledge of recovery define what is "legitimate?"

And what constitutes "active participation?" Who decides how much attendance is necessary for each person? To prove any program attendance, requires violating the disabled persons' privacy (particularly if the attendance involves outpatient treatment, a medical service, as opposed to mutual aid meetings). Maintaining records regarding medical and spiritual attendance for an individual is a violation of privacy, and in the case of outpatient treatment, a violation of Health Insurance Portability and Accountability Act of 1996. Asking city staff to review the personal health and spiritual activities of any of its citizens is a violation of privacy on every level.

4. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(e) In addition to denying an application for failing to comply, or failing to agree to comply, with subsections (a) and/or (b) of this section, an operator's permit shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following circumstances:

(1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information.

(2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two (2) years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

(3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven (7) to ten (10) years, to any of the following offenses:

i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last ten (10) years);

ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven (7) years); or

iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last ten (10) years).

iv. The unlawful sale or furnishing of any controlled substances (last seven (7) years).

(4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information;

(2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two (2) years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

(3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven (7) to ten (10) years, to any of the following offenses:

i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last ten (10) years);

ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven (7) years); or

iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last ten (10) years).

iv. The unlawful sale or furnishing of any controlled substances (last seven (7) years).

(4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

(5) The owner/operator accepts residents, other than a house manager, who are not handicapped as defined by the FHAA and FEHA.

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

i. Any owner/operator or staff person of a sober living home is a recovering drug or alcohol abuser and upon the date of application or employment has had less than one (1) full year of sobriety.

As per California statute, employers are prohibited from denying employment based upon disability. A one year sobriety requirement clearly violates employment laws.
Many people with substance use disorder lose employment for reasons stated in the ordinances. House managers live at the residence. Denial of housing based on employment history is beyond reasonable. Realizing that people in early recovery often have legal issues connected to previous drug use, denial of housing based on criminal history, including simple possession of cannabis, is discriminatory and specifically designed to limit this type of housing. Are other renters in the jurisdiction denied housing for this broad array of criminal acts? Are other renters denied housing based on employment loss? Are other businesses who provide housing held to this standard?

5. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(b) *Requirements for operation of group homes*.

(11) In addition to the regulations outlined above, the following shall also apply to sober living homes:

v. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

vi. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

Are other citizens prohibited from profanity or being "obnoxious?" Are other families required to respond to neighbor's complaints? Who decides what "unduly interfering" means? There are code compliance mechanisms in place to handle such complaints for other persons in the jurisdiction. Why is this disabled class being subjected to different criteria with consequences that can lead to removal of housing for them? Should all citizens in the jurisdiction who violate noise codes or use their First Amendment rights to express themselves in poor taste be subject to loss of residency and homelessness? Is an arbitrary "be good" clause a reasonable accommodation?

6. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(b) Requirements for operation of group homes.

(2) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within five hundred (500) feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(5) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within five hundred (500) feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

There exist parking regulation that governs where individuals can park. These parking requirements go beyond existing regulations and subject a disabled class of individuals to separate and discriminatory rules. Individuals without disability are not told they can only park one car in a 500 feet distance from their home.

7. Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

i. The sober living home is not located within six hundred fifty (650) feet, as measured from the closest property lines, of any other sober living home or a state licensed alcoholism or drug abuse recovery or treatment facility.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

iii. The sober living home, as measured by the closest property lines, is located within six hundred fifty (650) feet of any other sober living home or state licensed alcoholism

or drug abuse recovery or treatment facility. If a state-licensed alcoholism or drug abuse recovery or treatment facility moves within six hundred fifty (650) feet of an existing sober living home this shall not cause the revocation of the sober living home's permit or be grounds for denying a transfer of such permit.

Municipal Code Title 13, Chapter XVI, 13-322. Group homes in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones with six (6) or fewer occupants.

(a) A special use permit shall be required for and may be granted to permit the operation of a group home including a sober living home with six (6) or fewer occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following requirements:

(3) The group home or sober living home is at least six hundred fifty (650) feet from any other property, as defined in section 13-321, that contains a group home, sober living home or state-licensed drug and alcohol treatment facility, as measured from the property line.

Municipal Code Title 13, Chapter XVI, 13-223. Conditional use permit required for group homes, residential care facilities and drug and alcohol treatment facilities in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) w

A conditional use permit shall be required for and may be granted to allow the operation of a group home, state-licensed residential care facility or state-licensed drug and alcohol treatment facility with seven (7) or more occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following conditions:

(b) The group home, residential care facility or state-licensed drug and alcohol treatment facility is at least six-hundred fifty (650) feet from any property, as defined in section 13-321, that contains a group home, sober living home or state-licensed drug and alcohol treatment facility, as measured from the property line, unless the reviewing authority determines that such location will not result in an over-concentration of similar uses.

The types of facilities where distance requirements may be imposed is set by state statute. These ordinances are contrary to this statute. State statute applies to licensed facilities only and the arbiter who decides whether "overconcentration" exists is the Department of Health Care Services:

> **"1520.5. (b) The Legislature hereby declares it to be the policy of the state to prevent overconcentrations of residential facilities that impair the integrity of residential neighborhoods. Therefore, the department shall deny an application for a new residential facility license if the department determines that the location is in a proximity to an existing residential facility that would result in overconcentration."**

The distance requirements set forth in the aforementioned ordinances more than double the distance requirements set by state statute. It is excessive and discriminates against a disabled class of people as it excludes what is in essence a normal residence from many spaces that other residents without this disability would not have to adhere to.

Furthermore, if say a group of birdwatchers wanted to move into a residence they would not be expected to notify every neighbor within 500 ft of their property that they are moving in. They would

also not be required to hold a hearing to make a case as to why they should be permitted to move in to that space. These practices are discriminatory and clearly meant to exclude sober living homes.

8. Municipal Code Title 13, Chapter XVI, 13-320. Purpose.

This chapter is intended to preserve the residential character the City of Costa Mesa's residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things:

(b) Limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate off-street parking;

This is discriminatory on face value. Would a concentration of birdwatchers living together degrade a neighborhood? Would a concentration of LGBTQ individuals degrade a neighborhood? There are no services in a recovery residence; they are not institutions. As for "secondary impacts" of group homes we ask that the city produce concrete evidence of such impacts.

9. Municipal Code Title 13, Chapter XVI, 13-322. Group homes in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones with six (6) or fewer occupants.

(a) A special use permit shall be required for and may be granted to permit the operation of a group home including a sober living home with six (6) or fewer occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following requirements:

(2) The application includes a live scan of the house manager and/or operator of the group home.

House managers typically live with residents and are a part of the family in much the same way a parent would act as a mentor, leader, and a person who encourages that rules are followed, chores are completed, and disputes are amicably resolved. Requiring a live scan is excessive and discriminatory. As per California employment statute, employers are prohibited from sharing background information about their employees.

Subject:	Comment re Chapter 3 of City of Costa Mesa's Draft Housing Element, 2021-2029
Attachments:	Ordinance 14-13.pdf; Ordinance 13-05.pdf

Hello,

I submit the following comment in response to Chapter 3 of the City of Costa Mesa's Public Review Draft (August 2021):

At pages 3-29 and 3-30 the Public Review Draft (August 2021) discusses the City's definition of Single Housekeeping Unit. The City's presentation of that definition is misleading to the public and HCD.

Since 2013, the City has amended its definition of Single Housekeeping Unit twice for the express purpose of excluding Group Homes for persons with disabilities from qualifying as a Single Housekeeping Unit in order to subject housing for persons with disabilities to the City's discriminatory zoning regulations.

First, in December 2013, the City enacted Ordinance 13-05. As explained at the time by City staff, Ordinance 13-05 amended the definition of Single Housekeeping Unit for the express purpose of excluding Group Homes from its coverage to enable the City to subject Group Homes to discriminatory zoning regulations. A copy of the relevant City report regarding Ordinance 13-05 is attached to this email.

Next, in October 2014, the City again amended the definition of Single Housekeeping Unit as part of Ordinance 14-13, which simultaneously enacted discriminatory zoning regulations that applied solely to Group Homes for persons with disabilities. Ordinance 14-13 also added a definition for Group Home (formerly defined as Residential Service Facilities), which its discriminatory zoning regulations – enacted in the very same ordinance -- targeted with laser-like efficiency:

> Group home. A facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether licensed or unlicensed) constitutes a single facility, whether the facility occupies one (1) or more dwelling units. Group homes shall not include the following: (1) residential care facilities; (2) any group home that operates as a single housekeeping unit.
>
> Sober living home means a group home for persons who are recovering from a drug and/or alcohol addiction and who are considered handicapped under state or federal law. Sober living homes shall not include the following: (1) residential care facilities; (2) any sober living home that operates as a single housekeeping unit.

Ordinance 14-13 simultaneously and retroactively prohibited any existing use defined as a Group Homes, including Sober Living Homes, from the City's R-1 zoning district unless the Group Home obtained a Special Use Permit (SUP). The City then denied SUPs to most existing R-1 Group Homes and cited and ordered them to close, ousting their disabled residents from their housing. In 2015, the City extended similar zoning regulation to its Multifamily Zoning Districts.

Since enactment of Ordinance 14-13's definition of Single Housekeeping Unit, there is no public record reflecting any determination by the City that supportive housing of persons with disabilities constitutes a Single Housekeeping Unit.

Thanks for your attention in this matter,

ORDINANCE NO. 14-13

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF COSTA MESA AMENDING SECTION 13-6 (DEFINITIONS) OF ARTICLE 2 (DEFINITIONS) OF CHAPTER I (GENERAL), ADDING CHAPTER XV (GROUP HOMES), AND REPEALING AND REPLACING ARTICLE 15 (REASONABLE ACCOMMODATIONS) OF CHAPTER IX (SPECIAL LAND USE REGULATIONS), OF TITLE 13 (ZONING CODE) AND AMENDING THE CITY OF COSTA MESA LAND USE MATRIX - TABLE NO. 13-30 OF CHAPTER IV. (CITYWIDE LAND USE MATRIX) OF THE COSTA MESA MUNICIPAL CODE RELATING TO GROUP HOMES

THE CITY COUNCIL OF THE CITY OF COSTA MESA MAKES THE FOLLOWING FINDINGS WITH RESPECT TO THE ADOPTION OF THE FOLLOWING ORDINANCE:

WHEREAS, under the California Constitution, Article XI, Section 7, the City has been granted broad police powers to preserve the single-family characteristics of its single-family neighborhoods, which powers have been recognized by both the California Supreme Court and United States Supreme Court, the latter of which has stated that, "It is within the power of the legislature to determine that the community should be beautiful as well as healthy, spacious as well as clean, well-balanced as well as carefully patrolled"; and

WHEREAS, both the California Supreme Court and United States Supreme Court have held that cities have the right to regulate both the number of people who may reside in a single family home and the manner in which the single family is used as long as such regulations do not unfairly discriminate or impair an individual's rights of privacy and association; and

WHEREAS, individuals and families often purchase homes in single-family neighborhoods for the relative tranquility and safety that often accompanies such neighborhoods and with the expectation of establishing close and long-standing ties with their neighbors; and

WHEREAS, with these expectations, individuals and families commit to making what will be, for most of them, the single largest financial investment of their lives, as well as one of the most significant emotional investments; and

WHEREAS, the Federal Fair Housing Act Amendments ("FHAA") and the California Fair Employment Housing Act ("FEHA") prohibit enforcement of zoning ordinances which would on their face or have the effect of discriminating against equal housing opportunities for the handicapped; and

WHEREAS, a core purpose of the FHAA, FEHA and California's Lanterman Act is to provide a broader range of housing opportunities to the handicapped; to free the handicapped, to the extent possible, from institutional style living; and to ensure that handicapped persons have the opportunity to live in normal residential surroundings and

use and enjoy a dwelling in a manner similar to the way a dwelling is enjoyed by the non-handicapped; and

WHEREAS, to fulfill this purpose the FHAA and FEHA also require that the City provide reasonable accommodation to its zoning ordinances if such accommodation is necessary to afford a handicapped person an equal opportunity to use and enjoy a dwelling; and

WHEREAS, the Lanterman Act fulfills this purpose in part by requiring cities to treat state licensed residential care facilities serving six or fewer as a residential use; and

WHEREAS, in enacting this Ordinance the City Council of the City of Costa Mesa is attempting to strike a balance between the City's and residents' interests of preserving the single family characteristics of single-family neighborhoods and to provide opportunities for the handicapped to reside in single-family R1 zones that are enjoyed by the non-handicapped; and

WHEREAS, over the past several years the City, County and State have seen a significant increase in the number of single-family homes being utilized as alcohol and drug recovery facilities for large numbers of individuals (hereafter, "sober living homes"); and

WHEREAS, the increase appears to be driven in part by the Substance Abuse and Crime Prevention Act of 2000 (hereafter, "the Act") adopted by California voters which provides that specified first-time drug and alcohol offenders are to be afforded the opportunity to receive substance abuse treatment rather than incarceration; and

WHEREAS, the Affordable Care Act has significantly expanded the availability of health care coverage for substance abuse treatment; and

WHEREAS, the City of Costa Mesa has seen a sharp increase of sober living homes, which has generated community outcry and complaints including, but not limited to overcrowding, inordinate amounts of second-hand smoke, and noise; and the clustering of sober living facilities in close proximity to each other creating near neighborhoods of sober living homes; and

WHEREAS, this significant increase in sober living homes has become an rising concern for cities statewide as local officials are in some cases being bombarded with complaints from residents about the proliferation of sober living homes; conferences drawing local officials from around the state are being held discussing what to do about the problems associated with sober living homes; it has been the topic of several League of California Cities meetings; there have been numerous city-sponsored attempts at legislative fixes that have failed in committee; and litigation is spreading across the state as cities attempt to address the problem; and

WHEREAS, as of the date of adoption of this Ordinance, it is estimated that the City of Costa Mesa is home to 1,214 alcohol and drug recovery beds, divided as follows: 40 licensed residential facilities/certified alcohol and drug programs in residential zones, providing 398 beds; 94 unlicensed sober living homes in residential zones, providing 740 beds; and 1 sober living home on two separate parcels, providing 76 beds in a non-residential zone; and 28 nonresidential services facilities, providing support services such as administrative offices, therapy etc.; and

WHEREAS, the number of sober living homes in the City of Costa Mesa is rapidly increasing, leading to an overconcentration of sober living homes in the City's R1 neighborhoods, which is both deleterious to the single-family character of the R1 neighborhoods and may also lead to the institutionalization of such neighborhoods; and

WHEREAS, the purpose of sober living homes is to provide a comfortable living environment for persons with drug or alcohol addictions in which they remain clean and sober and can participate in a recovery program in a residential, community environment, and so that they have the opportunity to reside in the single family neighborhood of their choice; and

WHEREAS, recovering alcoholics and drug addicts, who are not currently using alcohol or drugs, are considered handicapped under both the FHAA and FEHA; and

WHEREAS, concentrations of sober living homes and/or the placement of inordinately large numbers of recovering addicts in a single dwelling can undermine the benefits of home ownership in single-family neighborhoods for those residing nearby and undermine the single-family characteristics of neighborhoods; and

WHEREAS, in some cases, operators of sober living homes have attempted to house inordinately large numbers of recovering addicts in a single-family dwelling in Costa Mesa; for example, in one case an operator has placed 15 beds in a single-family home; and there has been a tendency for sober living homes to congregate in close proximity (for example, five sober living homes are located next to each other on one street in a R1 zone); and

WHEREAS, the City has experienced situations in which single-family homes are remodeled to convert common areas such as family rooms, dressing rooms, and garages into bedrooms (in one case a patio was converted to a room where 6 beds were found) or to add multiple bedrooms for the sole purpose of housing large numbers of recovering addicts in a single dwelling; and

WHEREAS, it has been the City's experience that most, if not all, operators of sober living homes have taken the stance that the FHAA and FEHA prohibit the City from regulating them in any fashion, that they are free to house as many recovering addicts in a single home as they desire, and that they are not required to make any showing to obtain an accommodation from the City's zoning ordinances, which allow a sober living home to house up to six recovering addicts as a matter of right; and

WHEREAS, based on the City's experience it has become clear that at least some operators of sober living homes are driven more by a motivation to profit rather than to provide a comfortable living environment in which recovering addicts have a realistic potential of recovery, or to provide a living environment which remotely resembles the manner in which the non-disabled use and enjoy a dwelling; and

WHEREAS, this Ordinance and the balance of the City's zoning scheme have built in an accommodation for group homes to locate in the R1 neighborhoods as long as they are serving six or fewer tenants, whereas a similarly situated and functioning home with non-handicapped tenants would be defined as a boarding house and only be allowed three residents; and

WHEREAS, this Ordinance will provide a mechanism for a group home to seek additional accommodation above the six residents upon making a showing, as required by state and federal law, that such additional accommodation is reasonably necessary to afford the handicapped the right to use and enjoy a dwelling in a manner similar to that enjoyed by the non-handicapped; and

WHEREAS, permitting six or fewer residents in a sober living home and establishing distance requirements is reasonable and non-discriminatory and not only helps preserve the single family characteristic of single family neighborhoods, but also furthers the purpose for which sober living homes are established: (1) the State legislature in establishing licensed residential care facilities as a residential use, including group homes serving recovering addicts, found that six residents was a sufficient number to provide the supportive living environment that experts agree is beneficial to recovery; (2) Group Homes serving six or fewer have existed and flourished in the State for decades and there has been no significant efforts or suggestions to increase the number; (3) the City has received expert testimony stating that six is a reasonable number for a sober living facility and is sufficient to provide the supportive living environment that is beneficial to recovery and that larger numbers can actually reduce the chances of recovery; (4) a 2005 UCLA study found that 65-70% of recovering addicts do not finish the recovery programs into which they are placed and a comfortable living environment is a factor in whether recovering addicts will finish their programs; (5) drug and alcohol addiction is known to affect all income levels and there is no evidence in the record that individuals residing in sober living homes are financially unable to pay market rate rents and certainly the experience in the City of Newport Beach, where rents and property are among the most expensive in Orange County, is evidence that such addiction has a profound effect on the wealthy; (6) in any event, receiving rent from up to six individuals will provide sufficient income for operators of sober living homes and result in revenue which is well above market rate rents; (7) the evidence in the record indicates that in general operators of sober living homes do not incur significant costs over and above what landlords of other similarly-situated homes may incur; and (8) limiting the number of recovering addicts that can be placed in a single-family home enhances the potential for their recovery; and

WHEREAS, sober living homes do not function as a single-family unit nor do they fit the City's zoning definition of a single-family for the following reasons: (1) they house

extremely transient populations (programs are generally about 90 days and as noted, the 2005 UCLA study found that 65-70% of recovering addicts don't finish their recovery programs); (2) the residents generally have no established ties to each other when they move in and typically do not mingle with other neighbors; (3) neighbors generally do not know who or who does not reside in the home; (4) the residents have little to no say about who lives or doesn't live in the home; (5) the residents do not generally share expenses; (6) the residents are often responsible for their own food, laundry and phone; (7) when residents disobey house rules they are often just kicked out of the house; (8) the residents generally do not share the same acquaintances; and (9) residents often pay significantly above-market rate rents; and

WHEREAS, the size and makeup of the households in sober living homes, even those allowed as a matter of right under the Costa Mesa Municipal Code, is dissimilar and larger than the norm, creating impacts on water, sewer, roads, parking and other City services that are far greater than the average household, in that the average number of persons per California household is 2.90 (2.74 in Costa Mesa's R1 zones according to the City's General Plan), while a sober living facility allowed as a matter of right would house six, which is in the top 5% of households in Orange County according to the most recent U.S. federal census data; and

WHEREAS, all of six individuals residing in a sober living facility are generally over the age of 18, while the average household has just 2.2 individuals over the age of 18 according to the most recent federal census data; and

WHEREAS, the City utilizes federal census data and other information relating to the characteristics of single-family neighborhoods for among other things: (1) determining the design of residential homes, residential neighborhoods, park systems, library systems, transportation systems; (2) determining parking and garage requirements of single-family homes; (3) developing its General Plan and zoning ordinances; (4) determining police and fire staffing; (5) determining impacts to water, sewer and other services; and (5) in establishing impacts fees that fairly and proportionally fund facilities for traffic, parks, libraries, police and fire; and

WHEREAS, because of their extremely transient populations, above-normal numbers of individuals/adults residing in a single home and the lack of regulations, sober living facilities present problems not typically associated with more traditional single-family uses, including: the housing of large numbers of unrelated adult who may or may not be supervised; disproportionate numbers of cars associated with a single-family home which causes disproportionate traffic and utilization of on-street parking; excessive noise and outdoor smoking, which interferes with the use and enjoyment of neighbors' use of their property; neighbors who have little to no idea who does and does not reside in the home; little to no interaction with the neighborhood; a history of opening facilities in complete disregard of the Costa Mesa Municipal Code and with little disregard for impacts to the neighborhood; disproportional impacts from the average dwelling unit to nearly all City services including sewer, water, parks, libraries, transportation infrastructure, fire and

police; a history of congregating in the same general area; and the potential influx of individuals with a criminal record; and

WHEREAS, a 650-foot distance requirement provides a reasonable market for the purchase and operation of a sober living home within the City and still results in preferential treatment for sober living homes in that non-handicapped individuals in a similar living situation (i.e., in boardinghouse-style residences) cannot reside in the R1 zone; and

WHEREAS, housing inordinately large numbers of unrelated adults in a single-family home or congregating sober living homes in close proximity to each other does not provide the handicapped with an opportunity to "live in normal residential surroundings," but rather places them into living environments bearing more in common with the types of institutional/campus/dormitory living that the FEHA and FHAA were designed to provide relief from for the handicapped, and which no reasonable person could contend provides a life in a normal residential surrounding; and

WHEREAS, notwithstanding the above, the City Council recognizes that while not in character with a single-family neighborhood, that when operated responsibly, a group homes, including sober living homes, provide a societal benefit by providing the handicapped the opportunity to live in single-family neighborhoods, as well as providing recovery programs for individuals attempting to overcome their drug and alcohol addictions, and that therefore providing greater access to R1 zones to group homes, including sober living homes, than to boardinghouses provides a benefit to the City and its residents; and

WHEREAS, without some regulation there is no way of ensuring that the individuals entering into a group home are handicapped individuals and entitled to reasonable accommodation under local and state law; that a group home is operated professionally to minimize impacts to the surrounding neighborhood; and that the secondary impacts from over concentration of both group homes in a neighborhood and large numbers of unrelated adults residing in a single facility in a single home are lessened; and

WHEREAS, in addition to group homes locating in single-family neighborhoods other state-licensed residential care facilities for six or fewer persons who are mentally disordered or otherwise handicapped or supervised, are also taking up residence in single-family neighborhoods; and

WHEREAS, the purpose of group homes for the handicapped is to provide the handicapped an equal opportunity to comfortably reside in the single family neighborhood of their choice; and

WHEREAS, this Ordinance has been reviewed for compliance with the California Environmental Quality Act (CEQA), the CEQA guidelines, and the City's environmental procedures, and has been found to be exempt pursuant to Section 15061 (b)(3) (General

Rule) of the CEQA Guidelines, in that the City Council hereby finds that it can be seen with certainty that there is no possibility that the passage of this Ordinance will have a significant effect on the environment.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF COSTA MESA DOES ORDAIN AS FOLLOWS:

Section 1: The following definitions in Section 13-6 (Definitions) of Article 2 (Definitions) of Chapter I (General) of Title 13 (Planning, Zoning and Development) are hereby repealed, amended or added as follows:

Alcoholism or drug abuse recovery or treatment facility means adult alcoholism or drug abuse recovery or treatment facilities that are licensed pursuant to Section 11834.01 of the California Health & Safety Code. *Alcoholism or drug abuse recovery or treatment facilities* are a subset of residential care facilities.

Boardinghouse A residence or dwelling, other than a hotel, wherein rooms are rented under three or more separate written or oral rental agreements, leases or subleases or combination thereof, whether or not the owner, agent or rental manager resides within the residence. Boardinghouse, small means two or fewer rooms being rented. Boardinghouse, large means three or more rooms being rented.

Development Services Department means the Development Services Department of the City of Costa Mesa.

Disabled shall have the same meaning as *handicapped*.

Fair housing laws means the Federal Fair Housing Act, the Americans with Disabilities Act, and the California Fair Employment and Housing Act, as each statute may be amended from time to time, and each statute's implementing regulations.

Group home. A facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether licensed or unlicensed) constitutes a single facility, whether the facility occupies one or more dwelling units. Group homes shall not include the following: (1) residential care facilities; (2) any group home that operates as a single housekeeping unit.

Handicapped. As more specifically defined under the fair housing laws, a person who has a physical or mental impairment that limits one or more major life activities, a person who is regarded as having that type of impairment, or a person who has a record of that type of impairment, not including current, illegal use of a controlled substance.

Household includes all the people occupying a dwelling unit, and includes people who live in different units governed by the same operator.

Integral facilities. Any combination of two or more group homes which may or may not be located on the same or contiguous parcels of land, that are under the control and management of the same owner, operator, management company or licensee or any affiliate of any of them, and are integrated components of one operation shall be referred to as Integral Facilities and shall be considered one facility for purposes of applying federal, state and local laws to its operation. Examples of such Integral Facilities include, but are not limited to, the provision of housing in one facility and recovery programming, treatment, meals, or any other service or services to program participants in another facility or facilities or by assigning staff or a consultant or consultants to provide services to the same program participants in more than one licensed or unlicensed facility.

Integral uses. Any two or more residential care programs commonly administered by the same owner, operator, management company or licensee, or any affiliate of any of them, in a manner in which participants in two or more care programs participate simultaneously in any care or recovery activity or activities so commonly administered. Any such integral use shall be considered one use for purposes of applying federal, state and local laws to its operation.

Operator means a company, business or individual who provides residential services, i.e., the placement of individuals in a residence, setting of house rules, and governing behavior of the residents as residents. Operator does not include a property owner or property manager that exclusively handles real estate contracting, property management and leasing of the property and that does not otherwise meet the definition of operator.

Planning division. The planning division of the Development Services Department of the City of Costa Mesa.

Referral facility. A residential care facility or a group home where one (1) or more person's residency in the facility is pursuant to a court order or directive from an agency in the criminal justice system.

Residential care facility. A residential facility licensed by the state where care, services, or treatment is provided to persons living in a supportive community residential setting. Residential care facilities include but may not be limited to the following: intermediate care facilities for the developmentally disabled (Health & Saf. Code §§ 1267.8, 1267.9); community care facilities (Health & Saf. Code §§ 1500 et seq.); residential care facilities for the elderly (Health & Saf. Code §§ 1569 et seq.); residential care facilities for the chronically ill (22 C.C.R. § 87801(a)(5); Health & Saf. § 1568.02); alcoholism and drug abuse facilities (Health & Saf. Code §§ 11834.02-11834.30); pediatric day health and respite care facilities (Health & Saf. Code §§ 1760 et seq.); residential health care facilities, including congregate living health facilities (Health & Saf. Code §§ 1265 – 1271.1, 1250(i), 1250(e), (h)); family care home, foster home, group home for the mentally disordered or otherwise handicapped persons or dependent and neglected children (Wel. & Inst. Code §§ 5115-5120).

[*Residential services facilities* is hereby deleted.]

Single housekeeping unit means that the occupants of a dwelling unit have established ties and familiarity with each other, jointly use common areas, interact with each other, share meals, household activities, and expenses and responsibilities; membership in the single housekeeping unit is fairly stable as opposed to transient, members have some control over who becomes a member of the household, and the residential activities of the household are conducted on a nonprofit basis. There is a rebuttable presumption that integral facilities do not constitute single housekeeping units. Additional indicia that a household is not operating as a single housekeeping unit include but are not limited to: the occupants do not share a lease agreement or ownership of the property; members of the household have separate, private entrances from other members; members of the household have locks on their bedroom doors; members of the household have separate food storage facilities, such as separate refrigerators.

Sober living home means a group home for persons who are recovering from a drug and/or alcohol addiction and who are considered handicapped under state or federal law. Sober living homes shall not include the following: (1) residential care facilities; (2) any sober living home that operates as a single housekeeping unit.

Section 2: Chapter XV (Group Homes) of Title 13 (Planning, Zoning and Development) is hereby added as follows:

Chapter XV: Group homes.

13-310 Purpose.

This chapter is intended to preserve the residential character of single-family residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things: (1) ensuring that group homes are actually entitled to the special accommodation and/or additional accommodation provided under the Costa Mesa Municipal Code and not simply skirting the City's boarding house regulations; (2) limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate on street parking; (3) providing an accommodation for the handicapped that is reasonable and actually bears some resemblance to the opportunities afforded non-handicapped individuals to use and enjoy a dwelling unit in a single-family neighborhood; and (4) to provide comfortable living environments that will enhance the opportunity for the handicapped and for recovering addicts to be successful in their programs.

13-311 Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

1. An application for a group home is submitted to the director by the owner/operator of the group home. The application shall provide the following: (1) the name, address, phone number and driver's license number of the owner/operator; (2) the name, address, phone number and driver's license number of the house manager; (3) a copy of the group home rules and regulations; (4) written intake procedures; (5) the relapse policy; (6) an affirmation by the owner/operator that only residents (other than the house manager) who are handicapped as defined by state and federal law shall reside at the group home; (7) blank copies of all forms that all residents and potential residents are required to complete; and (8) a fee for the cost of processing of the application as set by Resolution of the City Council. No person shall open a group home or begin employment with a group home until this information has been provided and such persons shall be responsible for updating any of this information to keep it current.

2. The group home has six (6) or fewer occupants, not counting a house manager, but in no event shall have more than seven occupants. If the dwelling unit has a secondary accessory unit, occupants of both units will be combined to determine whether or not the limit of six (6) occupants has been exceeded.

3. The group home shall not be located in an accessory secondary unit unless the primary dwelling unit is used for the same purpose.

4. The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a 24-hour basis and who are responsible for the day-to-day operation of the group home.

5. All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within 500 feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

6. Occupants must not require and operators must not provide "care and supervision" as those terms are defined by Health and Safety Code Section 1503.5 and Section 80001(c)(3) of title 22, California Code of Regulations.

7. Integral group home facilities are not permitted. Applicants shall declare, under penalty of perjury, that the group home does not operate as an integral use/facility.

8. If the group home operator is not the property owner, written approval from the property owner to operate a group home at the property.

9. The property must be fully in compliance with all building codes, municipal code and zoning code

10. In addition to the regulations outlined above, the following shall also apply to sober living homes:

    i. The sober living home is not located within 650 feet, as measured from the closest property lines, of any other sober living home or a state licensed alcoholism or drug abuse recovery or treatment facility.

    ii. All occupants, other than the house manager, must be actively participating in legitimate recovery programs, including, but not limited to, Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rules and regulations, refusal to actively participate in such a program shall be cause for eviction.

    iii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least 90 days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

    iv. The number of occupants subject to the sex offender registration requirements of Penal Code Section 290 does not exceed the limit set forth in Penal Code Section 3003.5 and does not violate the distance provisions set forth in Penal Code Section 3003.

    v. The sober living home shall have a written visitation policy that shall preclude any visitors who are under the influence of any drug or alcohol.

vi. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

vii. The sober living home shall not provide any of the following services as they are defined by Section 10501(a)(6) of Title 9, California Code of Regulations: detoxification; educational counseling; individual or group counseling sessions; and treatment or recovery planning.

11. An applicant may seek relief from the strict application of this Section by submitting an application to the director setting forth specific reasons as to why accommodation over and above this section is necessary under state and federal laws, pursuant to Section 13-200.62.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(9) above. The special use permit shall be denied, and if already issued, any transfer shall be denied or revoked, upon a hearing by the director under any of the following circumstances:

1. Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information;

2. Any owner/operator or staff person has an employment history in which he or she was terminated during the past two years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

3. Any owner/operator or staff person has been convicted of or pleaded *nolo contendere*, within the last seven to ten years, to any of the following offenses:

   i. Any sex offense for which the person is required to register as a sex offender under California Penal Code Section 290 (last 10 years);
   ii. Arson offenses – violations of Penal Code Sections 451-455 (last seven years); or
   iii. Violent felonies, as defined in Penal Code Section 667.5, which involve doing bodily harm to another person (last 10 years).
   iv. The unlawful sale or furnishing of any controlled substances (last seven years).

4. Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

5. The owner/operator accepts residents, other than a house manager, who are not handicapped as defined by the FHAA and FEHA.

6. A special use permit for a sober living home shall also be denied, and if already issued, any transfer shall be denied or revoked, upon a hearing by the director under any of the following additional circumstances:

    i. Any owner/operator or staff person of a sober living home is a recovering drug or alcohol abuser and upon the date of application or employment has had less than one full year of sobriety.

    ii. The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

    iii. The sober living home, as measured by the closest property lines, is located within 650 feet of any other sober living home or state licensed alcoholism or drug abuse recovery or treatment facility. If a state licensed alcoholism or drug abuse recovery or treatment facility moves within 650 feet of an existing sober living home this shall not cause the revocation of the sober living home's permit or be grounds for denying a transfer of such permit.

7. For any other significant and/or repeated violations of this Section and/or any other applicable laws and/or regulations.

8. Revocation shall not apply to any group home, which otherwise would cause it to be in violation of this Ordinance, that has obtained a reasonable accommodation pursuant to Section 13-200.62.

13-312 Compliance.

(a) Existing group homes must apply for a special use permit within 90 days of the effective date of this ordinance.

(b) Group homes that are in existence upon the effective date of this ordinance shall have one (1) year from the effective date of this ordinance to comply with its provisions, provided that any existing group home, which is serving more than six residents, must first comply with the six resident maximum.

(c) Existing group homes obligated by a written lease exceeding one year from the effective date of the ordinance, or whose activity involves investment of money in leasehold or improvements such that a longer period is necessary to prevent undue financial hardship, are eligible for up to one additional years grace period pursuant to planning division approval.

13-313 Severability.

Should any section, subsection, clause, or provision of this Ordinance for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this Ordinance; it being hereby expressly declared that this Ordinance, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This Ordinance shall be prospective in application from its effective date.

13-314 – 13-350 [Reserved.]

Section 3: Article 15 (Reasonable Accommodations) of Chapter IX (Special Land Use Regulations) of Title 13 (Planning, Zoning and Development) is hereby repealed and replaced with the following:

13-200.60 Purpose.

It is the city's policy to provide reasonable accommodation in accordance with federal and state fair housing laws (42 USC § 3600 et seq. and Government Code § 12900 et seq.) for persons with disabilities seeking fair access to housing in the application of the city's zoning laws. The term "disability" as used in this article shall have the same meaning as the terms "disability" and "handicapped" as defined in the federal and state fair housing laws. The purpose of this article is to establish the procedure by which a person may request reasonable accommodation, and how the request is to be processed.

13-200.61 Applicability.

Any person seeking approval to construct and/or modify residential housing for person(s) with disabilities, and/or operate a residential care facility, group home, or referral facility, which will substantially serve persons with disabilities may apply for a reasonable accommodation to obtain relief from a Zoning Code provision, regulation, policy, or condition which causes a barrier to equal opportunity for housing.

13-200.62 Reasonable accommodations – procedure.

(a) Application required. An application for a reasonable accommodation shall be filed and processed with the Planning Division. The application shall include the

following information and be subject to the determinant factors required by this section.

(b) Submittal requirements. The application shall be made in writing, and shall include the following information:

1. The zoning code provision, regulation, policy, or condition from which accommodation is being requested;

2. The basis for the claim that the individuals are considered disabled under state or federal law, and why the accommodation is necessary to provide equal opportunity for housing and to make the specific housing available to the individuals;

3. Any other information that the director reasonably determines is necessary for evaluating the request for reasonable accommodation;

4. Documentation that the applicant is: (a) an individual with a disability; (b) applying on behalf of one or more individuals with a disability; or (c) a developer or provider of housing for one or more individuals with a disability;

5. The specific exception or modification to the Zoning Code provision, policy, or practices requested by the applicant;

6. Documentation that the specific exception or modification requested by the applicant is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy the residence;

7. Any other information that the Hearing Officer reasonably concludes is necessary to determine whether the findings required by Section (e) can be made, so long as any request for information regarding the disability of the individuals benefited complies with fair housing law protections and the privacy rights of the individuals affected;

(c) Fees. No application fee is required.

(d) Director action. Within 60 days of receipt of a completed application, the director shall issue a written determination to approve, conditionally approve, or deny a request for reasonable accommodation, and the modification or revocation thereof in compliance with this chapter. Any appeal to reasonable accommodation request denial or conditional approval shall be heard with, and subject to, the notice, review, approval, and appeal procedures prescribed for any other discretionary permit provided that, notwithstanding any other provision to the contrary, the standard of review on appeal shall not be *de novo* and the planning commission shall determine whether the findings made by the director are supported by substantial evidence presented during the evidentiary hearing. The planning

commission, acting as the appellate body, may sustain, reverse or modify the decision of the director or remand the matter for further consideration, which remand shall include specific issues to be considered or a direction for a *de novo* hearing.

(e) Grounds for reasonable accommodation. The following factors shall be considered in determining whether to grant a reasonable accommodation:

1. Special needs created by the disability;
2. Potential benefit that can be accomplished by the requested modification;
3. Potential impact on properties within the vicinity;
4. Physical attributes of the property and structures;
5. Alternative accommodations that may provide an equivalent level of benefit;
6. In the case of a determination involving a single family dwelling, whether the residents would constitute a single housekeeping unit;
7. Whether the requested accommodation would impose an undue financial or administrative burden on the City;
8. Whether the requested accommodation would require a fundamental alteration in the nature of a City program;
9. Whether granting the request would be consistent with the City's General Plan; and,
10. The property will be used by an individual with disability protected under fair housing laws.

(f) Findings. The written decision to approve, conditionally approve, or deny a request for reasonable accommodation shall be based on the following findings, all of which are required for approval. In making these findings, the director may approve alternative reasonable accommodations which provide an equivalent level of benefit to the applicant.

1. The requested accommodation is requested by or on the behalf of one or more individuals with a disability protected under the fair housing laws.
2. The requested accommodation is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy a dwelling.

3. The requested accommodation will not impose an undue financial or administrative burden on the city, as "undue financial or administrative burden" is defined in fair housing laws and interpretive case law.

4. The requested accommodation is consistent with the whether or not the residents would constitute a single housekeeping unit.

5. The requested accommodation will not, under the specific facts of the case, result in a direct threat to the health or safety of other individuals or substantial physical damage to the property of others.

6. Whether the requested accommodation is necessary to make facilities of a similar nature or operation economically viable in light of the particularities of the relevant market and market participants.

7. Whether the existing supply of facilities of a similar nature and operation in the community is sufficient to provide individuals with a disability an equal opportunity to live in a residential setting.

8. The requested accommodation will not result in a fundamental alteration in the nature of the City's zoning program.

(g) The City may consider, but is not limited to, the following factors in determining whether the requested accommodation would require a fundamental alteration in the nature of the City's zoning program.

1. Whether the requested accommodation would fundamentally alter the character of the neighborhood.

2. Whether the accommodation would result in a substantial increase in traffic or insufficient parking.

3. Whether granting the requested accommodation would substantially undermine any express purpose of either the city's General Plan or an applicable Specific Plan.

4. Whether the requested accommodation would create an institutionalized environment due to the number of and distance between facilities that are similar in nature or operation.

5. Any other factors that would cause a fundamental alteration in the City's zoning program, as may be defined in the Fair Housing Law.

13-200.63 Severability.

Should any section, subsection, clause, or provision of this Ordinance for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this Ordinance; it being hereby expressly declared that this Ordinance, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This Ordinance shall be prospective in application from its effective date.

13-200.64 – 13.200.69 [Reserved.]

Section 4. Inconsistencies. Any provision of the Costa Mesa Municipal Code or appendices thereto inconsistent with the provisions of this Ordinance, to the extent of such inconsistencies and no further, is hereby repealed or modified to that extent necessary to affect the provisions of this Ordinance.

Section 5. Severability. If any chapter, article, section, subsection, subdivision, sentence, clause, phrase, word, or portion of this Ordinance, or the application thereof to any person, is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this Ordinance or its application to other persons. The City Council hereby declares that it would have adopted this Ordinance and each chapter, article, section, subsection, subdivision, sentence, clause, phrase, word, or portion thereof, irrespective of the fact that any one or more subsections, subdivisions, sentences, clauses, phrases, or portions of the application thereof to any person, be declared invalid or unconstitutional. No portion of this Ordinance shall supersede any local, state, or federal law, regulation, or codes dealing with life safety factors.

Section 6. This Ordinance shall take effect and be in full force thirty (30) days from and after the passage thereof, and prior to the expiration of fifteen (15) days from its passage shall be published once in the ORANGE COAST DAILY PILOT, a newspaper of general circulation, printed and published in the City of Costa Mesa or, in the alternative, the City Clerk may cause to be published a summary of this Ordinance and a certified copy of the text of this Ordinance shall be posted in the office of the City Clerk five (5) days prior to the date of adoption of this Ordinance, and within fifteen (15) days after adoption, the City Clerk shall cause to be published the aforementioned summary and shall post in the office of the City Clerk a certified copy of this Ordinance together with the names and member of the City Council voting for and against the same.

PASSED and ADOPTED this 21st day of October, 2014.

PLANNING COMMISSION AGENDA REPORT

MEETING DATE: OCTOBER 14, 2013 **ITEM NUMBER: PH 3**

SUBJECT: **CODE AMENDMENT C0-12-02: AN AMENDMENT TO TITLE 13, CHAPTER 1, ARTICLE 2, OF THE COSTA MESA MUNICIPAL CODE RELATED TO RESIDENTIAL FACILITIES**

DATE: **OCTOBER 3, 2013**

FROM: **PLANNING DEPARTMENT/DEVELOPMENT SERVICES DIVISION**

PRESENTATION BY: **MEL LEE, SENIOR PLANNER**

FOR FURTHER INFORMATION CONTACT: **MEL LEE, AICP (714) 754-5611**
mel.lee@costamesaca.gov

DESCRIPTION

Code Amendment CO-12-02 is related to the Zoning Code regulations for residential facilities. More specifically, the amendment is proposed to the following Code Section in Title 13 of the Costa Mesa Municipal Code:

- Chapter 1, Article 2, Section 13-6, Definitions, as it pertains to the definition of "single housekeeping unit".

RECOMMENDATION

Recommend that City Council approve and give first reading to the ordinance.

ANALYSIS

The proposed Code amendment involves changing the current zoning code definition of "single housekeeping unit" which is currently defined as follows:

> *Single housekeeping unit. The functional equivalent of a traditional family, whose members are a nontransient interactive group of persons jointly occupying a single dwelling unit, including the joint use of common areas and sharing household activities and responsibilities such as meals, chores, and expenses.*

Per State law, the City is required to treat residential facilities serving six or fewer persons (defined in the Zoning Code above as residential care and residential service facilities), as a single-family residential use in the R1 zone. In 2011, in response to a complaint received by the City's Code Enforcement Division, the City attempted to enforce the six or fewer requirement against a single-family residence on Van Buren Avenue. During the inspection, the Code Officer observed 11 beds and 13 residents in the home. The case was referred to the City Attorney's Office for action, and the operator took the City to civil court for the action. The Court ruled in favor of the operator, and held the City liable for financial damages incurred by the operator. It was determined that the current code definition for "single housekeeping unit" was legally indefensible. The proposed code amendment would revise the current code definition of single housekeeping unit as follows:

> *Single housekeeping unit means that the occupants of a dwelling unit have established ties and familiarity with each other, jointly use common areas, interact with each other, share meals, household activities, lease agreement or ownership of the property, expenses and responsibilities; membership in the single housekeeping unit is fairly stable as opposed to transient, and members have some control over who becomes a member of the single housekeeping unit.*

The revised definition will allow the City to more effectively enforce the maximum limit of six persons per residential care or residential service facility in an R1 zone and withstand legal scrutiny.

ENVIRONMENTAL DETERMINATION

The project has been reviewed for compliance with the California Environmental Quality Act (CEQA), the CEQA guidelines, and the City's environmental procedures, and has been found to be exempt pursuant to Section 15061(b)(3) (General Rule) of CEQA because there is no possibility that the proposed amendment to the Zoning Code will have a significant effect on the environment.

LEGAL REVIEW

The draft ordinance has been reviewed by the City Attorney's office.

ALTERNATIVES

The City could continue to apply "single house keeping unit" as currently defined in Code; however, this has not stood up to legal challenge when residential care or residential service facilities are found to have occupants of R1 zoned dwellings that exceed six persons.

CONCLUSION

As noted earlier, the revised definition will allow the City to more effectively enforce the maximum limit of six persons per residential care or residential service facilities in an R1 zone and withstand legal scrutiny. If the Commission recommends that City Council approve and give first reading to the ordinance, it will be tentatively scheduled for the November 5, 2013, City Council meeting.

Attachment: 1. Draft Ordinance

ORDINANCE NO. 13-

AN ORDINANCE OF THE CITY COUNCIL OF COSTA MESA, CALIFORNIA ADOPTING ZONING CODE AMENDMENT CO-12-02 RELATED TO ZONING CODE REGULATIONS FOR RESIDENTIAL FACILITIES. THE AMENDMENT IS PROPOSED TO THE FOLLOWING CODE SECTION IN TITLE 13 OF THE COSTA MESA MUNICIPAL CODE: CHAPTER 1, ARTICLE 2, SECTION 13-6, DEFINITIONS, AS IT PERTAINS TO THE DEFINITION OF "SINGLE HOUSEKEEPING UNIT"

THE CITY COUNCIL OF THE CITY OF COSTA MESA DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1: CODE AMENDMENT. Title 13 of the Costa Mesa Municipal Code is hereby amended to include the following definition - Chapter 1, Article 2, Section 13-6, Definitions, as it pertains to the definition of "single housekeeping unit":

Single housekeeping unit means that the occupants of a dwelling unit have established ties and familiarity with each other, jointly use common areas, interact with each other, share meals, household activities, lease agreement or ownership of the property, expenses and responsibilities; membership in the single housekeeping unit is fairly stable as opposed to transient, and members have some control over who becomes a member of the single housekeeping unit.

SECTION 2: ENVIRONMENTAL DETERMINATION. The code amendment has been reviewed for compliance with the California Environmental Quality Act (CEQA), the CEQA guidelines, and the City's environmental procedures, and has been found to be exempt pursuant to Section 15061 (b) (3) (General Rule) of the CEQA Guidelines, in that the City Council hereby finds that it can be seen with certainty that there is no possibility that the passage of this ordinance amending the zoning code will have a significant effect on the environment.

SECTION 3: INCONSISTENCIES. Any provision of the Costa Mesa Municipal Code or appendices thereto inconsistent with the provisions of this ordinance, to the extent of such inconsistencies and or further, is hereby repealed or modified to the extent necessary to affect the provisions of this ordinance.

SECTION 4: SEVERABILITY. If any provision or clause of this ordinance or the application thereof to any person or circumstances is held to be unconstitutional or otherwise invalid by any court of competent jurisdiction, such invalidity shall not affect other provisions or clauses or applications of this ordinance which can be implemented without the invalid provision, clause or application; and to this end, the provisions of this ordinance are declared to be severable.

SECTION 5: PUBLICATION. This Ordinance shall take effect and be in full force thirty (30) days from and after the passage thereof, and prior to the expiration of fifteen (15) days from its passage shall be published once in the ORANGE COAST DAILY PILOT, a newspaper of general circulation, printed and published in the City of Costa Mesa or, in the alternative, the City Clerk may cause to be published a summary of this Ordinance and a

certified copy of the text of this Ordinance shall be posted in the office of the City Clerk five (5) days prior to the date of adoption of this Ordinance, and within fifteen (15) days after adoption, the City Clerk shall cause to be published the aforementioned summary and shall post in the office of the City Clerk a certified copy of this Ordinance together with the names and member of the City Council voting for and against the same.

Subject:	Subject: Comment re Chapter 3 of City of Costa Mesa's Draft Housing Element, 2021-2029
Attachments:	Table 1 - CM discriminatory zoning regulations.pdf; Table 2.pdf; Table 1-1 CM CityCode 1-72.pdf

Dear Gentleperson:

I submit the following comment in response to Chapter 3 of the City of Costa Mesa's Public Review Draft (August 2021):

Starting at page 3-45, the Public Review Draft (August 2021) addresses Affirmative Furthering Fair Housing (AFFH). This section of the City's Housing Element fails to address the requirements set forth in Government Code § 650583 and disregards the City's own discriminatory housing practice reflected in its Zoning Code and its treatment of Supportive Housing for disabled persons (defined as Group Homes by City.)

1. The City's Draft Housing Element utilizes standards that have been expressly rejected by the State of California.

At page 3-46, the Public Review Draft indicates that it is guided by "the HUD Fair Housing Planning Guide" and limits the scope of its analysis to the 2019-2024 Regional Analysis of Impediments to Fair Housing (AI) that covered 16 cities in Orange County, including Costa Mesa. The City's entire reliance on the Regional 2019-2014 AI not only applies the incorrect legal standards, but also fails to focus on the activities of Costa Mesa (as opposed to the region or 15 other cities). First, the AI is insufficient for purposes of state law. Under Government Code 8899.50, the applicable standard in California is:

> the Affirmatively Furthering Fair Housing Final Rule and accompanying commentary published by the United States Department of Housing and Urban Development contained in Volume 80 of the Federal Register, Number 136, pages 42272 to 42371, inclusive, dated July 16, 2015. Subsequent amendment, suspension, or revocation of this Final Rule or its accompanying commentary by the federal government shall not impact the interpretation of this section. Government Code 8899.50(c).

While the City's Regional AI, published on May 5, 2020, may have comported with the standards mandated by the Trump Administration, those standards were a deliberate rollback of the standards expressly adopted by reference in Government Code 8899.50(c).

Moreover, the City's reliance on an undefined "HUD Planning Guide" throughout Chapter 3E is bewildering since the applicable guide, entirely ignored by the City, is HCD's *Affirmatively*

Furthering Fair Housing: Guidance for All Public Entities and for Housing Elements (April 2021 Update), published months before the Public Review Draft was issued in August 2021.

2. The City's Draft Housing Element fails to consider its own zoning regulations and practices, which are the principal source of housing discrimination in Costa Mesa.

Instead of conducting the mandated assessment, the City relies exclusively on the wholly inapplicable and inadequate 2020 AI in addressing its Section 3E4: Assessment of Contributing factors to Fair Housing in Costa Mesa. As a result, this portion of the City Housing Element is wholly inadequate, disregarding that:

- The City has enacted explicitly discriminatory zoning regulations that target Supportive Housing for Disabled Persons for exclusion and expulsion from Costa Mesa's residential zoning districts. (See attached Table 1; see CityCode for text of City's zoning code cited in Table 1.)

- The City has engaged in discriminatory code enforcement; specifically, it has targeted its code enforcement activities at Group Homes. (See attached Table 2.)

- The City has gone so far as to sue Supportive Housing Providers (defined as Group Homes) in state court, seeking to have them declared as a public nuisance solely because they operate with a SUP or CUP pursuant to Zoning Code Chapters XV and XVI, and not because of any nuisance behaviors. As a result of the City's state court actions against Supportive Housing/Group Homes, the City has forced Group Homes to shutter and required that operators evict disabled residents during the height of Covid-19 in the Winter of 2020.

- Of the 26 Supportive Housing/Group Homes that applied for CUP under the City Zoning Chapter XVI (CMMC 13-323), each applicant was an existing Group Home that predated the adoption of Chapter XVI. Of the 26 CUP applications submitted, the City granted only two. It ordered that the other 24 to shutter and to force their disabled residents from their homes. See Table 3 attached.

- While the City professes to support fair housing in the Public Review of its Housing Element, it is presently actively engaged in trying to cover up the discriminatory provisions in its own Zoning Code. Since 2014, the City has tried to justify its discrimination against Group Homes/Supportive Housing by arguing that it treats Boardinghouse worse.

- But that is obviously inaccurate on the face of the City's own zoning code: As reflected in Table 1, the City gives preferential treatment to Boardinghouses – and all residential uses except for Group Homes (Supportive Housing for disabled persons).

- To cover up the most glaring disparities between the City's regulation of Group Homes and Boardinghouses, the City is presently in the process of amending the definition of Boardinghouse as part of Code Amendment CO-2020-02, which will modify the definition of Boardinghouse.

The City's zoning code and its enforcement of that code are the most significant sources of housing discrimination and fair housing violations in Costa Mesa. But the City's draft Housing Element fails to review any of its own zoning procedure and practices, preferring to hide behind its wholly inadequate 2020 Regional AI.

Without this fulsome evaluation, the City cannot meet the requirements of the State's Housing Element laws.

Thank you for your time and consideration of this matter,

Zoning regulations for unlicensed[1] residential uses in Costa Mesa's multi-family zoning districts

CMMC Regulations Governing Residential Uses in City's Multifamily Districts	***Sober Living Home[2]***	***Group Home[3]***	***Boardinghouse, Small < 3 rental rooms[4]***	***Boardinghouse, Large < 7 rental rooms***	***Multi-family Dwelling[5]***
Use Definitions					
Use defined based on disability status of residents, CMMC 13-06	Yes, CC 9[6]	Yes, CC 5	No, CC 3	No, CC 3	No CC 4

[1] Licensed uses are subject to state-mandated zoning entitlements and restrictions. The Costa Mesa Municipal Code (CMMC) defines these uses as "***Residential care facilities.*** A residential facility licensed by the state where care, services, or treatment is provided to persons living in a supportive community residential setting. Residential care facilities include, but may not be limited to, the following: intermediate care facilities for the developmentally disabled (Health & Safety Code §§ 1267.8, 1267.9);community care facilities (Health & Safety Code § 1500 et seq.); residential care facilities for the elderly (Health &Safety Code § 1569 et seq.); residential care facilities for the chronically ill (22 C.C.R. § 87801(a)(5); Health & Safety Code § 1568.02); alcoholism and drug abuse facilities (Health & Safety Code §§ 11834.02—11834.30); pediatric day health and respite care facilities (Health & Safety Code § 1760 et seq.); residential health care facilities, including congregate living health facilities (Health & Safety Code §§ 1265—1271.1, 1250(i), 1250(e), (h)); family care home, foster home, group home for the mentally disordered or otherwise handicapped persons or dependent and neglected children (Wel. & Inst. Code §§ 5115—5120)." CMMC 13-06.

[2] "***Sober living home*** means a group home for persons who are recovering from a drug and/or alcohol addiction and who are considered handicapped under state or federal law. Sober living homes shall not include the following: (1) residential care facilities; (2) any sober living home that operates as a single housekeeping unit." CMMC 13-06.

[3] "***Group home.*** A facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether licensed or unlicensed) constitutes a single facility, whether the facility occupies one (1) or more dwelling units. Group homes shall not include the following: (1) residential care facilities; (2) any group home that operates as a single housekeeping unit." CMMC 13-06.

[4] "***Boardinghouse.*** A residence or dwelling, other than a hotel, wherein rooms are rented under two (2) or more separate written or oral rental agreements, leases or subleases or combination thereof, whether or not the owner, agent or rental manager resides within the residence. Boardinghouse, small means two (2) or fewer rooms being rented. Boardinghouse, large means three (3) to six (6) rooms being rented. Boardinghouses renting more than six (6) rooms are prohibited." CMMC 13-06.

[5] "***Dwelling, multi-family*** "Dwelling, multi-family" or "multi-family dwelling" is a building or buildings of permanent character placed on one (1) lot which is designed or used for residential occupancy by two (2) or more families." CMMC 13-06.

[6] ***"CC #"*** refers to page numbers in the excerpt of the current Costa Mesa Municipal Code [as of 05/09/2021], attached to this Table for reference.

Owner, landlord, or operator of a dwelling barred from obtaining a Special or Condition Use Permit for that dwelling if she employs any person who was convicted or pleaded nolo contrendere to any PC 451 arson offense or furnishing any controlled substance within 7 years of applying to the City for that zoning permit. CMMC 13-311(b)(2), 9-374(e)(2) versus 13-29(g)(2)	Yes, CC 63-64, 71-72	Yes, CC 63-64, 71-72	No, CC 25	No, CC 25	No, CC 25
Owner, landlord, or operator of a dwelling barred from obtaining a Special or Condition Use Permit for that dwelling if she is in recovery from abuse of drugs or alcohol and has been abstained for less than one year before applying to the City for that zoning permit. CMMC 13-311(b)(6), 9-374(e)(2) versus 13-29(g)(2)	Yes, CC 64, 72	No	No, CC 25	No, CC 25	No, CC 25

CHAPTER I. IN GENERAL

ARTICLE 1. TITLE AND AUTHORITY

13-1. Title.

This title shall be known as the "City of Costa Mesa Planning, Zoning and Development Code," hereafter referred to as the "Zoning Code." (Ord. No. 97-11, § 2, 5-5-97)

13-2. Purpose.

The purpose of this Zoning Code is to promote the public health, safety, general welfare and preserve and enhance the aesthetic quality of the city by providing regulations to ensure that an appropriate mix of land uses occur in an orderly manner. In furtherance of this purpose the city desires to achieve a pattern and distribution of land uses which generally:

(a) Establish and maintain a balance of land uses throughout the community to preserve the residential character of the city at a level no greater than can be supported by the infrastructure.

(b) Ensure the long-term productivity and viability of the community's economic base.

(c) Promote land use patterns and development which contribute to community and neighborhood identity.

(d) Ensure correlation between buildout of the general plan land use map and master plan of highways. (Ord. No. 97-11, § 2, 5-5-97)

13-3. Authority and general plan consistency.

(a) This Zoning Code is a tool for implementing the goals, objectives and policies of the Costa Mesa General Plan, pursuant to the mandated provisions of the State Planning and Zoning Law (State Government Code section 65000 et seq.). All development within the incorporated area of the city shall be consistent with the general plan.

(b) The subdivision provisions of this Zoning Code are intended to supplement and implement the Subdivision Map Act, and serve as the subdivision ordinance of the city. If the provisions of this Zoning Code conflict with any provision of the Subdivision Map Act, the provisions of the Subdivision Map Act shall prevail. (Ord. No. 97-11, § 2, 5-5-97)

13-4. References to other laws.

In some portions of this Zoning Code it is necessary to reference other applicable laws, for example the State Government Code, and in some instances specific code sections are given. These references are accurate as of the adoption of this Zoning Code, and these references may be amended from time to time. (Ord. No. 97-11, § 2, 5-5-97)

ARTICLE 2. DEFINITIONS

13-5. Purpose.

The intent of this article is to define certain words and phrases which are used in this Zoning Code. Additional definitions may also be given in conjunction with the special regulations contained in Chapter IX, Special Land Use Regulations, and Chapter XII, Special Fee Assessments. (Ord. No. 97-11, § 2, 5-5-97)

13-6. Definitions.

Abutting. Sharing a common boundary, of at least one (1) point.

Accessory building. A building or part of a building which is subordinate to, and the use of which is incidental to that of the main building or use on the same lot.

Accessory dwelling unit (ADU). See section 13-35.

Accessory use. A use incidental and subordinate to, and devoted exclusively to the main use of the land or building thereon.

Adjacent. Same as abutting, but also includes properties which are separated by a public right-of-way, not exceeding one hundred twenty (120) feet in width.

Administrative adjustment. A discretionary entitlement, usually granted by the zoning administrator, which permits limited deviation from the strict application of the development standards contained in this Zoning Code, based on specified findings.

Adult business. See Chapter IX, Special Land Use Regulations, Article 1, Adult Businesses, for specific definitions and terms.

Alcoholism or drug abuse recovery or treatment facility means adult alcoholism or drug abuse recovery or treatment facilities that are licensed pursuant to section 11834.01 of the California Health & Safety Code. Alcoholism or drug abuse recovery or treatment facilities are a subset of residential care facilities.

Alteration (structure). Any construction, addition or physical change in the internal arrangement of rooms or the supporting members of a structure, or change in the appearance of any structure, except paint.

Ambient noise level. The all-encompassing noise level associated with a given environment, being a composite of sounds from all sources, excluding the alleged offensive noise, at the location and approximate time at which a comparison with the alleged offensive noise is to be made.

Antenna. Any structure, including, but not limited to, a monopole, tower, parabolic and/or disk shaped device in single or multiple combinations of either solid or mesh construction, intended for the purpose of receiving or transmitting communication to or from another antenna, device or orbiting satellite, as well as supporting equipment necessary to install or mount the antenna.

Antenna, amateur radio. An antenna array and its associated support structure, such as a mast or tower, that is used for the purpose of transmitting and receiving radio signals in conjunction with an amateur radio station licensed by the Federal Communications Commission.

Antenna, communication. All types of receiving and transmitting antennas, except satellite dish antennas and amateur radio antennas. Communication antenna includes, but is not limited to, cable television antennas, cellular radiotelephone cell antennas, FM digital communication antennas, microwave telephone communication antennas, and shortwave communication and other similar antennas.

Antenna height. The distance from the property's grade to the highest point of the antenna and its associated support structure when fully extended.

Antenna, satellite dish. An antenna intended for the purpose of receiving or transmitting communication to or from an orbiting satellite.

Antenna, whip. An antenna and its support structure consisting of a single, slender, rod-like element which is supported only at or near its base.

Apartment. A rental or lease dwelling having kitchen facilities in a structure designed or used to house at least one (1) family, as the term "family" is defined in this Zoning Code.

Assembly use. A use conducted in a structure or portion of a structure for the purpose of a civic, education, political, religious, or social function or for the consumption or receipt of food and/or beverages. Assembly use includes, but is not limited to, churches and other places of religious assembly, mortuaries, primary and secondary schools, trade and vocational schools, colleges, amusement centers, billiards parlors, bowling centers, establishments where food or beverages are served, motion picture theaters, physical fitness facilities, skating rinks, and dance, martial arts, and music studios. Assembly use does not include sexually oriented businesses.

Association (homeowners'). The organization of persons who own a lot, parcel, area, airspace, or right of exclusive occupancy in a common interest development and who have interests in the control of common areas of such project.

Attached (structure). Any structure that has a wall or roof in common with another structure.

Attic. Any non-habitable area immediately below the roof and wholly or partly within the roof framing.

Awning. A roof-like cover that projects from the wall of a building for the purpose of shielding the sun or providing an architectural accent.

Basement. A space wholly or partially underground and having more than one-half (½) of its height, measuring from floor to ceiling, below the average grade. If the finished floor level directly above the basement is more than four (4) feet above grade at any point, the basement shall be considered a story.

Boardinghouse. A residence or dwelling, other than a hotel, wherein rooms are rented under two (2) or more separate written or oral rental agreements, leases or subleases or combination thereof, whether or not the owner, agent or rental manager resides within the residence. Boardinghouse, small means two (2) or fewer rooms being rented. Boardinghouse, large means three (3) to six (6) rooms being rented. Boardinghouses renting more than six (6) rooms are prohibited.

Building. Any structure having roof and walls and requiring permanent location on the ground, built and maintained for the support, shelter or enclosure of persons, animals, chattels or property of any kind.

Building height. The distance from the grade to the highest point on the roof, including roof-top mechanical equipment and screening.

Building, main. The building or buildings within which the principal use permitted on the lot is conducted.

Carport. A permanent, roofed structure, not completely enclosed which is used for vehicle parking.

Central administrative office. An establishment primarily engaged in management and general administrative functions performed centrally for other establishments of the same company.

Churches and other places of religious assembly. A type of assembly use which has the principal purpose of religious worship and for which the primary space is a sanctuary. Religious activities and services held in the sanctuary are conducted at scheduled times. The use may also include accessory facilities in the same or separate building that includes classrooms, assembly rooms, restrooms, kitchen, and a library. Other uses such as, but not limited to, day care facilities, nursery schools, schools, retail sales, and services to businesses, are not considered a primary function of churches and other places of religious assembly.

Cigar bar. See Smoking lounge.

City. City of Costa Mesa.

Common area. Those portions of a project area which are designed, intended or used in common and not under the exclusive control or possession of owners or occupants of individual units in planned development projects or common interest developments.

Common interest development. A development as defined in State Civil Code section 1350, containing two (2) or more common interest units, as defined in Civil Code section 783; a community apartment project, as defined in State Business and Professional Code section 11004, containing two (2) or more rights of exclusive occupancy; and a stock cooperative, as defined in Business and Professional Code section 11003.2, containing two (2) or more rights of exclusive occupancy.

Conditional use permit. A discretionary approval usually granted by the planning commission which allows a use or activity not allowed as a matter of right, based on specified findings.

Convenience stores, mini-markets. A retail store, generally less than ten thousand (10,000) square feet in area, that sells a variety of convenience foods, beverages and non-food items. Fresh dairy products, produce and/or meat may be offered on a limited basis.

County. County of Orange.

Covered parking space. A garage, carport or parking space which is completely covered by a roof.

Density bonus. A minimum increase of twenty-five (25) percent over the allowable residential dwelling unit density as specified by the zoning classification.

Development. The division of land into two (2) or more lots; the construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any structure; any mining, excavation, landfill, or land disturbance; and any use or extension of the use of land.

Development review. The processing of a development plan when authority for approval is vested in the planning division.

Development services department means the Development Services Department of the City of Costa Mesa.

Development services director. The director of development services of the City of Costa Mesa, or his/her designee.

Disabled shall have the same meaning as handicapped.

Dormer. A vertical window in a projection built out from a sloping roof.

Driveway, common. A paved area for vehicle circulation and parking purposes which features joint use between two or more parties.

Driveway, individual. The paved area strictly leading to the garage/carport of a residence. This paved area serves vehicle parking purposes and does not extend beyond the garage/carport unless a curvilinear design is necessary for the turning radius.

Dwelling, single-family. "Dwelling, single-family" or "single-family dwelling" is a building of permanent character placed in a permanent location which is designed or used for residential occupancy by one (1) family. A single mobilehome on a foundation system on a single lot is a single-family dwelling. (See Manufactured housing).

Dwelling, multi-family. "Dwelling, multi-family" or "multi-family dwelling" is a building or buildings of permanent character placed on one (1) lot which is designed or used for residential occupancy by two (2) or more families.

Dwelling unit. One (1) or more rooms in any building designed for occupancy by one (1) family, and containing one (1) kitchen unit, including manufactured housing. (See Manufactured housing).

Easement. A grant of one (1) or more property rights by the owner for use by the public, a corporation or another person or entity.

Electronic cigarette. An electronic and/or battery-operated device used to provide an inhalable dose of nicotine by delivering a vaporized solution. The term includes any such device manufactured, distributed, marketed, or sold as an electronic cigarette, an electronic cigar, an electronic cigarillo, an electronic pipe, an electronic hookah, or any other product name or descriptor. The term does not include any medical inhaler prescribed by a licensed doctor.

Electronic game machine. Any electronic or mechanical device which upon insertion of a coin, slug, or token in any slot or receptacle attached to the device or connected therewith, operates, or which may be operated for use as a game, contest, or amusement through the exercise of skill or chance.

Emergency shelters. A facility that provides immediate and short-term housing for homeless persons that is limited to occupancy of six months or less. Supplemental services may include counseling and access to social programs. No individual or household may be denied to emergency shelter because of an inability to pay.

Entertainment (live). Any act, play, revue, pantomime scene, dance act, musical performance, or any combination thereof, performed by one (1) or more persons whether or not they are compensated for the performance.

Establishment where food or beverages are served. Any commercial use that sells prepared food and/or beverages for consumption on-site or off-site, either solely or in conjunction with an ancillary or complementary use. Excluded from this definition are grocery stores, convenience stores, movie theaters, and other such uses, as determined by the development services director, where the sale of food or beverages is clearly incidental to the primary use. All establishments selling alcoholic beverages for consumption on-site are included within this definition

Fair housing laws means the Federal Fair Housing Act, the Americans with Disabilities Act, and the California Fair Employment and Housing Act, as each statute may be amended from time to time, and each statute's implementing regulations.

Family. One (1) or more persons occupying one (1) dwelling unit and living together as a single housekeeping unit.

Family day care home, large. A home which provides family day care to seven (7) to fourteen (14) children as defined in section 1596.78 of the State Health and Safety Code.

Family day care home, small. A home which provides family day care to eight (8) or fewer children as defined in section 1596.78 of the State Health and Safety Code.

Floor area ratio. The gross floor area of a building or project divided by the project lot area upon which it is located.

Garage. An accessory or attached enclosed building with doors, designed and/or used for vehicle parking.

Garage sale. An event for the purpose of selling or trading personal property. Garage sale includes yard sale.

General plan. The City of Costa Mesa General Plan as adopted or amended from time to time by the city council.

Grade. The lowest point of the finished surface elevation of either the ground, paving or sidewalk within the area between the building and the property line, or when the property line is more than five (5) feet from the building, between the building and a line five (5) feet from the building.

Gross acreage. The total area within the lot lines of a lot of land before public streets, easements or other areas to be dedicated or reserved for public use are deducted from such lot, and not including adjacent lands already dedicated for such purposes.

Gross floor area. The area of all floors within the walls of a structure except elevator and other vertical shafts (including stairwells) and elevator equipment areas.

Gross leasable area. The total floor area designed for tenant occupancy and exclusive use, including both owned and leased areas.

Group home. A facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether licensed or unlicensed) constitutes a single facility, whether the facility occupies one (1) or more dwelling units. Group homes shall not include the following: (1) residential care facilities; (2) any group home that operates as a single housekeeping unit.

Guestroom. A room occupied or intended, arranged, or designed for occupancy by one (1) or more guests.

Handicapped. As more specifically defined under the fair housing laws, a person who has a physical or mental impairment that limits one (1) or more major life activities, a person who is regarded as having that type of impairment, or a person who has a record of that type of impairment, not including current, illegal use of a controlled substance.

Hazardous materials. Any material of quantity, concentration, physical or chemical characteristics, that poses a significant present or potential hazard to human health and safety or to the environment if released into the work place or environment; or any material requiring a Material Safety Data Sheet according to Title 8, section 339 of the State Code of Regulation.

Height. See Building height and Antenna height.

Home occupation. Any business or commercial use conducted within a dwelling unit.

Hookah lounge. See Smoking lounge.

Hotel. Any building or combination of buildings generally three (3) or more stories in height containing six (6) or more guest rooms offering transient lodging accommodations to the general public and providing incidental guest services such as food and beverage service, recreation facilities, retail services and banquet, reception and meeting rooms. Typically, room access is provided through a main or central lobby.

Household includes all the people occupying a dwelling unit, and includes people who live in different units governed by the same operator.

Integral facilities. Any combination of two (2) or more group homes which may or may not be located on the same or contiguous parcels of land, that are under the control and management of the same owner, operator, management company or licensee or any affiliate of any of them, and are integrated components of one (1) operation shall be referred to as integral facilities and shall be considered one (1) facility for purposes of applying federal, state and local laws to its operation. Examples of such integral facilities include, but are not limited to, the provision of housing in one (1) facility and recovery programming, treatment, meals, or any other service or services to program participants in another facility or facilities or by assigning staff or a consultant or consultants to provide services to the same program participants in more than one (1) licensed or unlicensed facility.

Integral uses. Any two (2) or more residential care programs commonly administered by the same owner, operator, management company or licensee, or any affiliate of any of them, in a manner in which participants in two (2) or more care programs participate simultaneously in any care or recovery activity or activities so commonly administered. Any such integral use shall be considered one (1) use for purposes of applying federal, state and local laws to its operation.

Intersection. The general area where two (2) or more roadways join or cross.

Kitchen. Any room, all or part of which is designed and/or used for storage, refrigeration, cooking and preparation of food.

Landscaping. Plant materials such as lawn, groundcover, trees and shrubs.

Loft. An intermediate floor placed within a room, where the clear height above and below the loft is not less than seven (7) feet, and where the aggregate area of the loft does not exceed one third (1/3) of the area of the room in which it is located.

Lot.

(a) A parcel of real property when shown as a delineated parcel of land with a number or designation on a subdivision map or parcel map recorded in the office of the county recorder, and created in conformance with the Subdivision Map Act and applicable local ordinances.

(b) A parcel of real property when shown on a record of survey map or deed filed in the office of the county recorder, when such map or deed was filed as the result of and was made a condition of a lot division approved under the authority of prior ordinances.

Lot area. The total land area of a project after all required dedications or reservations for public improvements including but not limited to streets, parks, schools, and flood control channels. This phrase does not apply in the planned development zones where the phrase “site area,” as defined in Chapter V, Development Standards, is used.

Lot, corner. A lot abutting on and at the intersection of two (2) or more streets which intersect at an angle that is equal to or less than one hundred thirty-five (135) degrees.

Lot, depth. The average of the horizontal distance between the front and the rear lot lines.

Lot, development. The master lot or project site upon which a development will be constructed.

Lot, individual dwelling unit. An individual building site or lot within a development intended for construction of a single attached or detached dwelling unit.

Lot, interior. A lot abutting only one (1) street, or a lot abutting two (2) streets which intersect at an angle greater than one hundred thirty-five (135) degrees.

Lot, width. The horizontal distance between the side lot lines measured at right angles to the lot depth at the front building setback line.

Manufactured housing. Detached housing that is built to the National Manufactured Housing Construction and Safety Standards Act of 1974, including structures known as manufactured homes and mobile homes. For the purpose of this Zoning Code, a factory-built single-family structure that is manufactured under the authority of 42 U.S.C. section 5401, the National Manufactured Home Construction and Safety Standards Act, transportable in one (1) or more sections, built on a permanent chassis and used as a place of human habitation, shall be considered a single-family home and shall be reviewed under the same standards as a site-built structure.

Marijuana. Has the same definition as that set forth in California Health & Safety Code section 11018.

Marijuana cultivation and/or medical marijuana cultivation. The planting, growing, harvesting, drying or processing of marijuana plants or any part thereof for any purpose, including medical marijuana, and shall include both indoor and outdoor cultivation.

Master plan. The overall development plan for a parcel or parcels which is depicted in both a written and graphic format.

Master plan of highways. The graphic representation of the city’s ultimate circulation system contained in the general plan. It illustrates the alignment of the major, primary, secondary and collector highways.

Median. A paved or planted area separating a parking area, street, or highway, into two (2) or more lanes or directions of travel.

Medical marijuana. Marijuana used for medical purposes in accordance with California Health and Safety Code section 11362.5.

Medical marijuana dispensary. A facility or location where medical marijuana is cultivated or by any other means made available to and/or distributed by or to three (3) or more of the following: a primary caregiver, a qualified patient, or a person with an identification card in strict accordance with State Health and Safety Code Sections 11362.5 et seq., and 11362.7 et seq., which shall include, but not be limited to, any facility or location engaging in the retail sale, dispensation, or distribution of marijuana for medical purposes that does not have an active role in the cultivation of the marijuana product that it sells, dispenses, or distributes, or when its cultivation of the marijuana product is off-site from the facility or location for retail sale, dispensation, or distribution.

Minor conditional use permit. A discretionary approval granted by the zoning administrator which allows a use or activity not allowed as a matter of right, based on specified findings.

Minor modification. A discretionary entitlement granted by the planning division, which permits limited deviation from the strict application of the development standards contained in this Zoning Code, based on specified findings.

Mixed use development. The development of lot(s) or structure(s) with two (2) or more different land uses such as, but not limited to a combination of residential, office, manufacturing, retail, public, or entertainment in a single or physically integrated group of structures.

Mobile home. See Manufactured housing.

Mobile home park. Any area or tract of land where two (2) or more mobile home lots are rented or leased, held out for lease or rent, or were formerly held out for rent or lease and later converted to a subdivision, cooperative, condominium, or other form of resident ownership, to accommodate manufactured homes or mobile homes. A mobile home park also means a mobile home development constructed according to the requirements of Part 2.1 (commencing with section 18200) of Division 13 of the State Health and Safety Code, and intended for use and sale as a mobile home condominium or cooperative park, or as a mobile home planned unit development.

Motel. Any building or combination of buildings of one (1) to three (3) stories in height having six (6) or more guest rooms with parking located convenient to the guest rooms and providing temporary lodging for automobile tourists and transient visitors. Typically, guest rooms have direct access to available parking without passing through a common lobby area. Motels also include auto courts, tourist courts, motor lodges, motor inns and motor hotels.

Municipal Code. City of Costa Mesa Municipal Code.

Open space. An area that is intended to provide light and air, and is designed for either environmental, scenic or recreational purposes. *Open space* may include, but is not limited to, lawns, decorative planting, walkways, active and passive recreational areas, playgrounds, fountains, swimming pools, wooded areas; first floor decks; unenclosed patios with solid or lattice roofs; water courses; and surfaces covered by not more than five (5) feet in depth by projections which are at least eight (8) feet above grade.

Open space shall not include the following: driveways; parking lots; other surfaces designed or intended for vehicular travel; and upper floor decks, balconies or areas under projections which are less than eight (8) feet above grade.

Open space, common. An area of land reserved primarily for the leisure and recreational use of all residents of a planned development or common interest development and owned in common by them, generally through a homeowners' association.

Open space, private. An area of land located adjacent to an individual dwelling unit, owned or leased and maintained by its residents, and reserved exclusively for their use.

Operator means a company, business or individual who provides residential services, i.e., the placement of individuals in a residence, setting of house rules, and governing behavior of the residents as residents. Operator does not include a property owner or property manager that exclusively handles real estate contracting, property management and leasing of the property and that does not otherwise meet the definition of operator.

Organizational documents. The declaration of restrictions, articles of incorporation, bylaws, and any contracts for the maintenance, management or operation of all or any part of a project.

Parcel. Same as Lot.

Parkway. The area of a public street that lies between the curb and the adjacent property line or physical boundary definition, which is used for landscaping and/or passive recreational purposes.

Paved area. Ground surface covered with cobblestone, clay-fired bricks, concrete precast paver units, poured concrete with or without decorative surface materials, or asphaltic or rubber mixture which may include sand, stone, or gravel as an ingredient to create a hard surface. A graded natural surface or one covered with rolled stone or overlaid with loose gravel is not considered paved area.

Peak hour. The hour during the AM peak period (typically 7:00 a.m.—9:00 a.m.) or the PM peak period (typically 3:00 p.m.—6:00 p.m.) in which the greatest number of vehicle trips are generated by a given land use or are traveling on a given roadway.

Permitted use. Any use allowed in a land use zoning district without requiring a discretionary approval, and subject to the provisions applicable to that district.

Planned development. A land area which is developed as an integrated unit under single ownership or control and having planned development zoning designation.

Planning application. A broad term for any development project or land use which requires the discretionary review and approval of either the planning division, zoning administrator, planning commission, redevelopment agency or city council. Planning applications include administrative adjustments, conditional use permits, development reviews, variances, redevelopment actions, etc.

Planning division. The planning division of the development services department of the City of Costa Mesa.

Project. See Development.

Property line. A line of record bounding a lot which divides one lot from another lot or from a public or private street or any other public space.

Property line, front. The narrowest property line of a lot abutting a public or private street. If two (2) or more equal property lines are narrowest, the front shall be that property line across which the development takes its primary access (if the primary access is determined to be equal, there shall be two (2) front property lines). However, for non-residentially zoned property, any property line abutting a public street designated as a secondary, primary or major street on the master plan of highways shall be deemed a front property line. A non-residentially zoned property shall have more than one (1) front property line when it abuts more than one street designated as secondary, primary, or major on the master plan of highways.

For R-1 zoned property located on corner lots, the front property line may be the property line towards which the front of the dwelling unit is oriented.

Property line, rear. The property line opposite the front property line. A corner lot with more than one (1) front property line shall have more than one (1) rear property line. Irregularly shaped lots may also have more than one (1) rear property line.

Property line, side. Any property line which is not a front or rear property line.

Property line, ultimate. The boundary of a lot after the dedication of land for use as public right(s)-of-way.

*Public area. E*stablishments where food or beverages are served. That portion of an establishment reserved for the exclusive use of the public for the receipt or consumption of food and/or beverages. For the purpose of this Zoning Code, public area shall not include restrooms, kitchens, hallways or other areas restricted to employees only.

Public hearing. A public proceeding conducted for the purpose of acquiring information or evidence which may be considered in evaluating a proposed action, and which affords to any affected person or persons the opportunity to present their views, opinions, and information on such proposed applications. “Mandatory hearings” are those required to be held by law, and “discretionary hearings” are those which may be held within the sole discretion of the hearing body.

Public right-of-way. A strip of land acquired by reservation, dedication, prescription or condemnation and intended to be occupied by a road, trail, water line, sanitary sewer and/or other public uses.

Recyclable materials. Reusable materials including but not limited to metals, glass, plastic and paper which are intended for reuse, remanufacture or reconstruction. Recyclable materials do not include refuse, hazardous materials or hazardous waste.

Recycling. The process by which waste products are reduced to raw materials and transformed into new products.

Recycling and collection facility. A building or enclosed space used for the collection and processing of recyclable materials for preparation for shipment, or to an end user’s specifications, by such means as baling, briquetting, compacting, flattening, grinding, crushing, mechanical sorting, shredding, cleaning or remanufacturing.

Redevelopment action. A discretionary review conducted by the redevelopment agency for applications for development in the redevelopment project area, based on the adopted redevelopment plan and specified findings.

Referral facility. A residential care facility or a group home where one (1) or more person’s residency in the facility is pursuant to a court order or directive from an agency in the criminal justice system.

Residential care facility. A residential facility licensed by the state where care, services, or treatment is provided to persons living in a supportive community residential setting. Residential care facilities include, but may not be limited to, the following: intermediate care facilities for the developmentally disabled (Health & Safety Code §§ 1267.8, 1267.9); community care facilities (Health & Safety Code § 1500 et seq.); residential care facilities for the elderly (Health & Safety Code § 1569 et seq.); residential care facilities for the chronically ill (22 C.C.R. § 87801(a)(5); Health & Safety

Code § 1568.02); alcoholism and drug abuse facilities (Health & Safety Code §§ 11834.02—11834.30); pediatric day health and respite care facilities (Health & Safety Code § 1760 et seq.); residential health care facilities, including congregate living health facilities (Health & Safety Code §§ 1265—1271.1, 1250(i), 1250(e), (h)); family care home, foster home, group home for the mentally disordered or otherwise handicapped persons or dependent and neglected children (Wel. & Inst. Code §§ 5115—5120).

Residential, multi-family. Apartments, common interest developments, townhouses and similar multiple-family residential developments, including detached single-family homes where there is more than one (1) primary dwelling unit on a lot.

Residential, single-family. Detached single-family home where there is no more than one (1) primary dwelling unit on a lot.

Room, bedroom. A fully-enclosed room designed or intended to be used for sleeping purposes within a residence. Within a single-family detached residence, a room meeting the definition of a home office shall not be included in the bedroom count.

Room, home office. A room designed and intended to be used for a household office or small business related activity within a residence. Within a single-family detached residence, this room is strictly not intended for sleeping purposes, and lacks direct access to a bathroom. The home office may also be referred to as a studio, den, study or library.

Senior congregate care facility. A structure(s) providing residence for thirteen (13) or more senior citizens with kitchen, dining, recreational, etc. facilities with separate bedrooms and/or living quarters.

Setback. The required distance that a building, structure, parking or other designated item must be located from a property line or lot line.

Single housekeeping unit means that the occupants of a dwelling unit have established ties and familiarity with each other, jointly use common areas, interact with each other, share meals, household activities, and expenses and responsibilities; membership in the single housekeeping unit is fairly stable as opposed to transient, members have some control over who becomes a member of the household, and the residential activities of the household are conducted on a nonprofit basis. There is a rebuttable presumption that integral facilities do not constitute single housekeeping units. Additional indicia that a household is not operating as a single housekeeping unit include but are not limited to: the occupants do not share a lease agreement or ownership of the property; members of the household have separate, private entrances from other members; members of the household have locks on their bedroom doors; members of the household have separate food storage facilities, such as separate refrigerators.

Single room occupancy residential hotel. A residential hotel, allowed in certain commercial zones, that contains units designed for long-term occupancy by a single person, although double occupancy may be permitted.

Slope. The degree of deviation of a surface from the horizontal plane, usually expressed in percent or degrees.

Small lot subdivision. A residential development containing a maximum of 15 detached or townhome style units with no common walls where each unit is independently constructed on an individual parcel and the land is subdivided into fee simple parcels containing each unit. Each individual lot is provided with either a direct access to public street/alley or an easement access through a recorded subdivision map.

Smoking lounge. Any facility or location whose business operation, whether as a primary use or an ancillary use, is characterized by the sale, offering, and/or preparation of smoking of tobacco, cigars, hookah, electronic cigarettes, or similar products, including but not limited to establishments known variously as hookah parlors, vaping lounges, or cigar bars.

Smoking/vaping retailer. A smoke shop, electronic cigarette retailer, vapor cigarette retailer, or any other retail business that sells tobacco, electronic cigarettes, and related products primarily for off-site consumption. Smoking/vaping retailers shall not include food or beverage service, outdoor seating, or an indoor seating area greater than one hundred (100) square feet in area.

Sober living home means a group home for persons who are recovering from a drug and/or alcohol addiction and who are considered handicapped under state or federal law. *Sober living homes* shall not include the following: (1) residential care facilities; (2) any sober living home that operates as a single housekeeping unit.

Specific plan. A plan consisting of text, maps, and other documents and exhibits regulating development within a defined area of the city, consistent with the general plan and the provisions of State Government Code section 65450 et seq.

State. State of California.

Story. For purposes related to zoning regulations, a story is that portion of a building included between the surface of any floor and the surface of the floor next above it. If there is no floor above it, then the space between such floor and the ceiling next above it shall constitute a story. An attic shall not be considered a story. A basement or cellar shall not be considered a story, if the finished floor level directly above the basement or cellar is less than four (4) feet above finish grade at all locations. Any uncovered deck or activity area above the first story shall be considered a story.

Street. A public or private thoroughfare that provides primary access to adjacent land and local traffic movements. *Streets* do not include driveways which only provide access to parking areas.

Structure. Anything, including a building, located on the ground in a permanent location or attached to something having a permanent location on the ground.

Supportive housing. Housing with no limit on length of stay, that is occupied by the target population, and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community. Supportive housing that is provided in single family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses, shall be permitted, conditionally permitted or prohibited in the same manner as the other single family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses under this Code.

Tandem parking. An arrangement of parking spaces one behind the other, such that a parking space must be driven across in order to access another space. Tandem garage parking signified the placement of standard parking spaces one behind the other within the enclosed area of a garage.

Townhouse. A single-family attached dwelling unit located on an individual dwelling unit lot, and is part of a row of units that contains three (3) or more dwelling units.

Transitional housing. A development with buildings configured as rental housing developments, but operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which shall be no less than six (6) months. Transitional housing that is provided in single family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses, shall be permitted, conditionally permitted or prohibited in the same manner as the other single family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses under this Code.

Trip (vehicle). A one-way vehicular journey either to or from a site, or totally within the site i.e. internal trip. Each trip has two (2) trip ends, one at the beginning and the other at the destination.

Trip rate (vehicular). The anticipated number of vehicle trips to be generated by a specific land use type or land use classification. The trip rate is expressed as a given number of vehicle trips for a given unit of development intensity (i.e., trip per unit, trip per one thousand (1,000) square feet, etc.).

Uncontrolled environment. A location where there is the exposure (to radiofrequency radiation) of individuals who have no knowledge or control of their exposure. The exposures may occur in living quarters or work places where there are no expectations that the exposure levels may exceed the exposure and induced current levels permitted for the general public.

Underroof. All of the area within the walls of the building that a roof covers. Areas under porches, roof overhangs, garage protrusions, breezeways and other similar architectural design features are not considered as underroof.

Unit. A particular building or structure, or portion thereof, that is designed, intended or used for exclusive occupancy, possession or control of individual owners or occupiers, whether or not they have interests in common areas of the project.

Use. The purpose (type and extent) for which land or a building is arranged, designed, or intended, or for which either land or a structure is occupied or maintained.

Warehouse, mini. A structure or group of structures for the dead storage of customer's goods and wares where individual stalls or lockers are rented out to different tenants for storage and where at least one of the stalls or lockers has less than five hundred (500) square feet of floor area.

Warehouse, public. A structure or group of structures for the dead storage of customer's goods and wares where individual stalls or lockers are rented out to different tenants for storage and where all the stalls or lockers have more than five hundred (500) square feet of floor area.

Vacancy rate (common lot development conversion). The ratio of vacant apartments being offered for rent or lease in the City of Costa Mesa, shown as a percentage of the total number of apartments in the city.

Vape lounge. See Smoking lounge.

Vape shop. See Smoking/vaping retailer.

Variance. A discretionary entitlement, usually granted by the planning commission, which permits departure from the strict application of the development standards contained in this Zoning Code, based on specified findings.

Yard. Any open space on a lot unoccupied and unobstructed from the ground upward, except an inside court.

Yard, front. The yard between the front line of a building and the front line of the lot upon which the building is located.

Yard, rear. The yard extending from the extreme rear line of the main building to the rear lot line on which the building is situated.

Yard, side. The yard extending from the front yard, or from the front lot line where no front yard is required, to the rear yard or rear lot line, between the side lot line and the nearest wall of the main building or any accessory structure attached thereto.

Zero lot line. The location of a structure on a lot in such a manner that one (1) or more of the structure's sides rest directly on a lot line. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 98-5, § 4, 3-2-98; Ord. No. 00-5, § 1(a), 3-20-00; Ord. No. 01-16, § 1a., 6-18-01; Ord. No. 05-11, § 2a., 7-19-05; Ord. No. 06-18, § 1, 9-5-06; Ord. No. 09-3, §§ 1a., b., 5-19-09; Ord. No. 09-4, § 1a., 5-5-09; Ord. No. 10-13, § 1, 10-19-10; Ord. No. 10-14, § 1, 11-16-10; Ord. No. 11-10, § 1, 9-20-11; Ord. No. 13-1, § 2A., 3-19-13; Ord. No. 13-05, § 1, 12-3-13; Ord. No. 14-04, § 2A., 4-1-14; Ord. No. 14-13, § 1, 10-21-14; Ord. No. 15-10, § 2A, 9-15-15; Ord. No. 15-11, § 1, 11-17-15; Ord. No. 16-01, § 1, 1-19-16; Ord. No. 18-03, § 2, 1-16-18; Ord. No. 21-03, § 3, 3-2-21)

ARTICLE 3. REVIEW AUTHORITIES

13-7. Purpose.

The purpose of this article is to establish the project review authority of the city council, the redevelopment agency, the planning commission, the zoning administrator and the planning division. (Ord. No. 97-11, § 2, 5-5-97)

13-8. City council.

The city council shall have final decision authority for appeals, final maps, specific plans, master plans in the town center and planned development districts, rezones, general plan amendments, density bonuses with financial incentives, Zoning Code amendments, improvement and development agreements, annexations and any action specified in this Zoning Code. The city council shall also be responsible for the acceptance of lands and/or improvements as may be proposed for dedication to the city, except deeds of dedication and parcel maps of four (4) or fewer lots with no development agreements. The city council may impose conditions of approval. (Ord. No. 97-11, § 2, 5-5-97)

13-9. Redevelopment agency.

(a) *Declaration of need of agency*. It is hereby found and declared, pursuant to State Health and Safety Code section 33101, that there is a need for a redevelopment agency in the city, as such agency was created by section 33100, to function in the city, and the agency is hereby authorized to transact business and exercise all of the powers granted to it under the Community Redevelopment Law.

(b) *Council declared agency*. The five (5) members of the city council are hereby declared to be the members of the redevelopment agency and are empowered to exercise all the rights, powers, duties, privileges and immunities vested by the Community Redevelopment Law in an agency.

(c) *Term of agency members*. Membership shall be for the period each councilmember serves in office, and shall automatically terminate at the time any councilmember no longer holds the office of councilmember. Any vacancy existing on the redevelopment agency shall be filled only by a duly elected sworn and acting city councilmember. (Ord. No. 97-11, § 2, 5-5-97)

13-10. Planning commission.

(a) *Commission.* Pursuant to the provisions of section 65101 of the Planning and Zoning Law of the California Government Code, there is hereby created a planning commission, which shall consist of seven (7) members. There shall be one (1) member from each electoral district of the city and one (1) at-large member.

(b) *Appointment and removal of commissioners.* Each council member elected by district shall nominate the planning commission member for his or her district, subject to approval by a majority vote of the entire city council. The mayor shall nominate the at-large planning commission member, subject to approval by a majority vote of the entire city council. Planning commission members serve at the pleasure of the city council. A member may be removed prior to the expiration of his or her term by a majority vote of the entire city council. Additional details for the appointment procedures and member qualifications, terms and compensation may be set by city council policy.

(c) *Residency in districts.* Except for the at-large member, each member of the planning commission must be a resident of the electoral district from which the member is nominated at the time the member is nominated and appointed. If any member of the planning commission ceases to be a resident of the district from which the member was appointed, for any reason other than a change in district boundary lines required following the decennial census, that member's appointment will automatically terminate. The at-large member must be a resident of the city. If the at-large member ceases to be a resident of the city, that member's appointment will automatically terminate. The secretary of the planning commission shall immediately inform the city council of any such termination.

(d) *Term.* The term of each planning commission member shall expire on the date on which the second regular meeting in January is held immediately following expiration of the term of the council member or mayor who appointed that member, or until he or she is reappointed or replaced.

(e) *Ex-officio member of commission.* The director of development services and city attorney or designee shall attend the meetings of the planning commission and assist the commission in an advisory capacity as needed.

(f) *Absence from commission meetings without cause.* If a planning commission member is absent from three (3) consecutive regular meetings of the commission, without cause, the office of the member shall be deemed to be vacant and the term of such member terminated. The secretary of the planning commission shall immediately inform the city council of such termination.

(g) *Absence from commission meetings for cause.* An absence due to illness or an unavoidable absence from the city and written notice thereof given to the secretary of the planning commission on or before the day of any regular meeting of the commission shall be deemed absence for cause.

(h) *Councilmember ineligibility.* No member of the city council shall be eligible for membership on the planning commission.

(i) *Authority of the planning commission.*

(1) The planning commission shall have the power, except as otherwise provided by law, to act on plans for the regulation of the future growth, development and beautification of the city, in respect to:

a. Public and private buildings and works, streets, parks, grounds and vacant lots.

b. The future growth and development of the city in order to secure sanitation, proper service of all public utilities, shipping and transportation facilities.

c. The location of any proposed buildings, structures, or works.

(2) The planning commission is authorized to act upon the following discretionary actions:

a. Recommend to the city council approval, conditional approval or denial of general plan amendments, specific plans, rezones, Zoning Code amendments, development agreements, density bonuses with public financial incentives, preliminary and final master plans, and any other action specified in this Zoning Code.

b. Recommend to the successor agency to the former redevelopment agency approval, conditional approval or denial of redevelopment actions, or adoption and/or amendments to a redevelopment plan.

c. Approve, conditionally approve or deny applications for conditional use permits, variances, tentative tract and parcel maps, density bonuses without public financial incentives, and any other action specified in this Zoning Code.

d. Perform other duties necessary to carry out the provisions reserved to the planning commission in Title 13 of the Municipal Code, the provisions of this Zoning Code and the provisions of the Planning, Zoning and Development Law of the State Government Code.

(j) *Commission bylaws authorized.* The planning commission shall have the power, except as otherwise provided by law, to adopt such bylaws as it may deem necessary to provide for:

(1) The time and place of meeting.

(2) The time and method of electing officers.

(3) Such other matters relative to the organization of the planning commission and methods of administration of its duties which are not otherwise provided for by statute or ordinance.

(k) *Regular meeting of commission defined.* A regular meeting as provided by law or by rule of the planning commission or any regularly advertised public hearing shall be deemed a regular meeting. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 01-12, § 1, 3-5-01; Ord. No. 02-4, § 1a, 3-18-02; Ord. No. 03-2, § 3, 3-3-03; Ord. No. 04-17, § 3, 1-3-05; Ord. No. 19-05, § 1, 4-2-19)

13-11. Zoning administrator.

(a) The development services director or designee is authorized to act as the zoning administrator according to procedures set forth in the State Government Code.

(b) The zoning administrator is authorized to approve, conditionally approve, or deny the following discretionary planning applications. The zoning administrator may forward any action to the planning commission for review.

(1) Administrative adjustment;

(2) Minor conditional use permit;

(3) Lot line adjustment;

(4) Wireless telecommunications use permit (see section 19-15); and

(5) Any action specified in this Zoning Code. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 20-03, § 2, 3-3-20)

13-12. Planning division.

The development services director or designees constitute the planning division. The planning division is authorized to act on and grant approvals of development reviews and minor modifications as described in Chapter III, Planning Applications, Wireless Telecommunications Use Permit (see section 19-15), and other duties as designated by the development services director, planning commission, city council and this Zoning Code. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 20-03, § 2, 3-3-20)

ARTICLE 4. ENFORCEMENT

13-13. Purpose.

The purpose of this article is to establish the parameters for the enforcement of this Zoning Code. (Ord. No. 97-11, § 2, 5-5-97)

13-14. Enforcement officer designated.

The development services director or duly authorized representative is hereby empowered and it shall be his/her duty to enforce all provisions of this Zoning Code. (Ord. No. 97-11, § 2, 5-5-97)

13-15. Duties.

All departments, officials and public employees of the city invested with the duty or authority to issue permits or licenses shall conform to the provisions of this Zoning Code and shall issue no permit or license for uses, buildings or purposes in

conflict with the provisions of this Code; and any such permit or licenses issued in conflict with the provisions of this Zoning Code shall be null and void. It shall be the duty of the development services director to enforce the provisions of this Zoning Code pertaining to the creation, construction, reconstruction, moving, conversion, alteration or addition to any building or structure. (Ord. No. 97-11, § 2, 5-5-97)

13-16. Enforcement.

(a) *Criminal prosecution*. Any person, whether as principal, agent, or employee, violating the terms of this zoning code may be prosecuted as provided in section 1-33 of this Municipal Code.

(b) *Criminal citation*. For the purposes of this zoning code, a violation of the terms of this zoning code may be cited as either an infraction or misdemeanor pursuant to State Government Code sections 36900 and 36901 and as provided in section 1-33 of this Municipal Code.

(c) *Civil action*. As an alternative to prosecution or citation, or as an additional action, the city attorney may, at the request of the development services director, institute an action in any court of competent jurisdiction to restrain, enjoin, or abate the condition(s) or activity(ies) found to be in violation of the provisions of this zoning code.

(d) *No criminal prosecution, citation or penalty*. Notwithstanding the provisions of subsections (a) and (b) of this section, no person shall be criminally prosecuted or cited, or suffer any criminal penalty, for any violation of the provisions of section 13-30, table 13-30, rows 31a and/or 31b relating to the prohibition of medical marijuana dispensaries or medical marijuana cultivation within the city, or for a violation of the provisions of Chapter IX, Article 20 related to the prohibition against medical marijuana cultivation.

(e) *Nuisance.* Any use, structure, or property that is altered, enlarged, erected, established, maintained, moved, or operated contrary to the provisions of this title or any condition of approval, is hereby declared to be unlawful and a public nuisance and may be abated by the city through civil proceedings by means of a restraining order, preliminary or permanent injunction, or in any other manner provided by law for the abatement of such nuisances. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 10-13, § 2, 10-19-10; Ord. No. 10-14, § 2, 11-16-10; Ord. No. 16-01, § 2, 1-19-16)

13-17. Public nuisance defined; procedure.

Any building or structure set up, constructed, erected, enlarged, converted, moved or maintained contrary to the provisions of this Zoning Code, and any use of land, building or premises established, conducted or maintained contrary to the provisions of this Municipal Code or other applicable laws, may, by the city council, after public hearing, be declared to be unlawful and a public nuisance as established in this section. No conditions described in this section may be declared a public nuisance until the following steps have been taken:

(a) There shall be an inspection and investigation of the premises by whatever department heads or their authorized designees within the city as are affected by the condition of the premises, including but not limited to, the development services director, planning division, police department, and county health officer.

(b) The responsible owner, lienholder or occupier of the premises shall be given notice setting forth the violations, corrections which must be made, and a specific reasonable time within which to make such corrections. The notice shall be given either in person or by registered or certified mail to the responsible property owner, lienholder or occupier and by a posting on the property.

(c) In the event the responsible owner, lienholder or occupier does not comply with the demand for correction as set forth in subsection (b) within the specific time stated therein, the city council shall set the matter for formal hearing and shall post the property at least ten (10) days prior to the time of the hearing and shall serve the responsible owner, lienholder or occupier of the property a copy of the notice of the formal hearing, either in person or by registered or certified mail.

(d) At the hearing as set forth in subsection (c) the city council shall take oral or written testimony as evidence to substantiate their findings with respect to the violation. Evidence may be presented by investigative officers on behalf of the city, while the owner, lienholder or occupier may present evidence in his or her own behalf. At the close of the hearing, the city council shall find and determine, based upon the evidence presented, that a public nuisance does or does not exist.

(e) Upon finding that a public nuisance exists as provided for in subsection (d), the city council shall give the responsible property owner, lienholder or occupier notice in writing that the condition must be corrected, prevented, restrained or abated within a thirty-day period.

(f) If at the end of the thirty (30) day period granted for compliance the responsible owner, lienholder or occupier has not complied with the mandate of the city council, the city attorney shall commence appropriate legal proceedings either civil, criminal or both, as the circumstances warrant.

(g) In the event the city council determines by a four-fifths (4/5) vote that any conditions described above cause an emergency situation threatening serious bodily harm or imminent, substantial property damage, the foregoing procedures and time limits may be waived and upon reasonable notice under the circumstances to the responsible property owner, lienholder or occupier, the city council may at a public hearing find and determine such conditions a nuisance and order immediate abatement.

(h) The city's cost of abatement proceedings shall constitute a special assessment upon the lot involved and payable and collectible as set forth in State Government Code sections 38773.1 and 38773.5 and other applicable laws. (Ord. No. 97-11, § 2, 5-5-97)

13-18. Remedies cumulative.

The remedies provided in this article shall be cumulative and not exclusive. (Ord. No. 97-11, § 2, 5-5-97)

CHAPTER II. ZONING DISTRICTS ESTABLISHED

13-19. Purpose.

The intent of this chapter is to establish and state the purpose of the various zoning districts, as well as to describe their boundaries on the official zoning map. (Ord. No. 97-11, § 2, 5-5-97)

13-20. Zoning districts.

In order to classify, regulate, restrict and separate the uses of land and buildings, regulate the height and bulk of buildings and the area of yards and other open spaces about buildings, and regulate population density, the following classes of zones are established:

(a) *R1 Single-Family Residential District*. This district is intended to promote the development of single-family detached units located on lots with a minimum lot size of six thousand (6,000) square feet, and a maximum density of 7.26 dwelling units per gross acre.

(b) *R2-MD Multiple-Family Residential District, Medium Density*. This district is intended to promote the development of multi-family rental as well as ownership properties on lots with a minimum size of twelve thousand (12,000) square feet. The maximum density allowed is three thousand six hundred thirty (3,630) square feet per dwelling unit, which equals twelve (12) dwelling units per gross acre. Legal lots existing as of March 16, 1992 with a minimum lot area of six thousand (6,000) square feet up to seven thousand two hundred sixty (7,260) square feet are allowed two (2) dwelling units.

(c) *R2-HD Multiple-Family Residential District, High Density*. This district is intended to promote the development of multi-family rental as well as ownership dwelling units on lots with a minimum size of twelve thousand (12,000) square feet. The maximum density allowed is three thousand (3,000) square feet per dwelling unit, which equals 14.52 dwelling units per gross acre.

(d) *R3 Multiple-Family Residential District*. Like the R2-MD and R2-HD districts, this district is intended to promote the development of multi-family rental as well as ownership dwelling units. The required minimum lot size is twelve thousand (12,000) square feet. The maximum density allowed is two thousand one hundred seventy-eight (2,178) square feet per dwelling unit, which equals twenty (20) dwelling units per gross acre.

(e) *AP Administrative and Professional District*. This district is intended to establish areas within which public administrative, professional and business offices may be located. It is the further purpose of this district to limit the intensity of use within the district to be compatible with the types of activities generally associated with office developments.

(f) *CL Commercial Limited District*. This district is intended for unique areas of land which, due to the proximity of residential development or the potential for traffic circulation hazards, require special precautions to be taken to assure appropriate development. The district is also intended for industrial areas where commercial uses must be considered according to their compatibility with existing or permitted industrial uses.

(g) *C1 Local Business District*. This district is intended to meet the local business needs of the community by providing a wide range of goods and services in a variety of locations throughout the city. The permitted and conditional uses as well as development standards are aimed toward reducing impacts on surrounding properties especially in those areas where residential uses are in the vicinity.

(h) *C2 General Business District*. This district is intended to provide for those uses which offer a wide range of goods and services which are generally less compatible with more sensitive land uses of a residential or institutional nature.

(i) *C1-S Shopping Center District*. This district is intended for large commercial lots constructed as a unified and integrated development. It is the further purpose to provide a wide range of goods and services on a community and regional scale.

(j) *TC Town Center District*. This district is intended to allow intensely developed mixed commercial and residential uses within a very limited geographical area bounded by Sunflower Avenue to the north, 1-405 to the south, Bristol Street to the west, and Avenue of the Arts to the east. Developments within this designation can range from one- and two-story office and retail buildings to mid- and high-rise buildings.

(k) *P Off-Street Parking District*. This district is intended to allow parking lots, and buildings incidental to the operation of the parking lot.

(l) *I & R Institutional and Recreational District*. This district is intended to allow land uses which provide recreation, open space, health and public service uses. Development in this designation may occur on either public or private property.

(m) *I & R-S Institutional and Recreational School District*. This district is intended to allow public and private educational facilities on either public or private property.

(n) *MG General Industrial*. This district is intended for a variety of industrial areas which contain a wide range of light and general industrial activities. Development standards and the approval of conditional uses shall be aimed toward eliminating possible hazards to adjoining properties, especially in those areas where residential uses are in the vicinity.

(o) *MP Industrial Park*. This district is intended for large, concentrated industrial areas where the aim of development is to create a spacious environment in a park-like setting.

(p) *PDR-LD Planned Development Residential—Low Density (up to 8 dwelling units per acre); PDR-MD Planned Development Residential—Medium Density (up to twelve (12) dwelling units per acre); PDR-HD Planned Development Residential—High Density (up to twenty (20) dwelling units per acre or higher pursuant to an adopted specific plan); PDR-NCM Planned Development Residential—North Costa Mesa (twenty-five (25) to thirty-five (35) dwelling units per acre)*. These districts are intended to provide for excellence in the design of residential projects. Within the low-density zone typical designs include small-lot, single-family detached residential developments including clustered development, zero lot line development and conventional development.

Within the medium density, high density, and north Costa Mesa zones, site design could include single-and multiple-family residential developments containing any type or mixture of housing units, either attached or detached, including but not limited to clustered development, townhouses, patio houses, detached houses, duplexes, garden apartments, high rise apartments or common interest developments. Complementary non-residential uses could also be included in the planned development.

(q) *PDC Planned Development Commercial*. This district is intended for retail shops, offices and service establishments, including but not limited to, hotels, restaurants, theaters, museums, financial institutions, and health clubs. These uses are intended to serve adjacent residential areas, as well as the entire community and region. Complementary residential uses could also be included in the planned development.

(r) *PDI Planned Development Industrial*. This district is intended for large, concentrated industrial areas where the aim of development is to create a spacious environment in a park-like setting.

(s) *MU Mixed-Use Overlay*. This district may overlay the R2-MD, R2-HD, R3, CL, C1, C2, MG, PDR-HD, PDR-MD, or I&R districts, and it is intended to allow development of residential and nonresidential uses as mixed, integrated projects. This overlay district shall only be applied to the zoning map in conjunction with the adoption of an urban plan for the designated area. The urban plan is a regulating plan that shall define the unique characteristics of the overlay area, include a matrix of permitted, conditionally permitted, and prohibited uses and provide development standards. The provisions of the mixed-use overlay shall be activated by adoption of a master plan.

(t) *Institutional and Recreational Multi-Use District*. This district is intended to allow the integration of a variety of land uses and intensities. This zoning district category includes uses which are low to moderate in density and intensity and urban in character. The multi-use center designation is applicable only to the Fairview Development Center property at 2501 Harbor Boulevard. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 05-3, § 1a., 2-7-05; Ord. No. 06-9, § 1a., 4-18-06; Ord. No. 07-2, § 1a.—c. 2-6-07; Ord. No. 16-09, § 2, 10-4-16)

13-21. Overlay districts.

Overlay zoning districts may also be created in conjunction with special regulations. (Ord. No. 97-11, § 2, 5-5-97)

13-22. Zoning district boundaries.

The zoning districts listed in section 13-20, zoning districts, and the boundaries of each, are shown on the official zoning map, filed in the planning division. (Ord. No. 97-11, § 2, 5-5-97)

13-23. Division of official zoning map.

The official zoning map may be subdivided into district maps, and such district maps may be separately used for amending the zoning map or for any official reference to the zoning map. (Ord. No. 97-11, § 2, 5-5-97)

13-24. Changes in boundaries.

All changes shall be made by ordinance adopting an amended zoning map, or part of the zoning map or district map. (Ord. No. 97-11, § 2, 5-5-97)

13-25. Uncertainty of boundaries.

Where uncertainty exists as to the boundaries of any zone shown on the zoning map, or any district map, the following rules shall apply:

(a) When boundaries of zones are approximately following street, alley or lot lines, such lines shall be construed as the boundaries.

(b) In the case of undivided properties, or property not yet subdivided, and a zone boundary divides the lot, the location of the zone boundary, unless indicated by dimensions, shall be determined by the use of the scale appearing on the zoning map. (Ord. No. 97-11, § 2, 5-5-97)

13-26. Limitation of land use.

No new building shall be erected, nor shall any building or land be used for any purpose except as provided and allowed for in this Zoning Code. (Ord. No. 97-11, § 2, 5-5-97)

View the mobile version.

CHAPTER III. PLANNING APPLICATIONS

13-27. Purpose.

The purpose of this chapter is to establish the parameters for the numerous types of discretionary planning applications and to identify processing procedures. (Ord. No. 97-11, § 2, 5-5-97)

13-28. Types.

(a) Administrative adjustment. Any deviation from an adopted development standard in this Zoning Code that meets the criteria listed in Table 13-28(a).

TABLE 13-28(a)
ADMINISTRATIVE ADJUSTMENTS

Standard	*Deviation Range*
Decrease in required front yard depth; provided that in residential zones, the garage is set back a minimum of 19 feet from the front property line.	More than 20% but no more than 40%
Decrease in required rear yard depth.	More than 20% but no more than 40%
Decrease in required side yard width.	More than 20% but no more than 40%
Increase in maximum fence/wall height.	More than 33 1/3 % but no more than 50%
Increase in depth of permitted projections into required yards.	More than 20% but no more than 40%
Deviation in sign area, height, setbacks, separation and other sign specifications	More than 10% but no more than 20%
Decrease in required distance between main structures	More than 20% but no more than 40%
Decrease in required distance between accessory and main structures	More than 20% but no more than 40%

(b) *Conditional use permit*. Any use specified in this Zoning Code as requiring a conditional use permit.

(1) *Common interest development conversion*. For residential projects, a proposal to convert an occupied or previously occupied apartment complex to a residential common interest development project. To request a conversion for a newly constructed project, the apartment complex shall have received final building approval for occupancy. For non-residential projects, a proposal to convert an occupied or previously occupied non-residential complex to a non-residential common interest development. Non-residential includes industrial, commercial, office, and/or mixed-use project.

(c) *Density bonus or incentive*. Any request for incentives to produce lower income and senior housing per State Government Code section 65915.

(d) *Design review*. Any construction that results in three (3) or more dwelling units on a development lot in any residential zone, except planned development, shall be subject to design review.

(e) *Development review*. The following shall be subject to development review:

(1) Single-story residential construction: In the R2-MD, R2-HD, and R3 zones, any single-story construction of two (2) or fewer new single-story dwelling units. Exception: New single-story accessory buildings, such as garages or carports, single-story room additions, and other minor construction that comply with all applicable development standards shall not be subject to development review but shall be reviewed by the planning division.

(2) Two-story residential construction: In the R2-MD, R2-HD, and R3 zones, any two-story construction on a lot where there are two (2) or fewer dwelling units or any second-story addition on a lot with more than two (2) dwelling units that complies with any residential design guidelines adopted by city council.

(3) *Construction of new buildings or additions to existing buildings in the AP, CL, C1, C2, C1-S, MG, or MP zones*. However, building additions that do not exceed two thousand (2,000) square feet or fifty (50) percent of the existing building area, whichever is less, and comply with all applicable development standards shall not be subject to development review.

(4) Lot line adjustment; and

(5) Any other use specified in this Zoning Code as requiring development review.

(f) *Lot line adjustment*. Any adjustment to an existing lot line between two lots, where the land taken from one lot is added to an abutting lot and/or where a greater number of lots than originally existed is not created. A lot line adjustment may be used to combine no more than four abutting lots.

(g) *Master plan*. Prior to development in the planned development (PD), town center (TC), shopping center (C1-S), mixed-use overlay (MU), and all types of institutional and recreational (I&R, I&R-S, and I&R-MLT) zoning districts, a master plan is required. Preliminary master plans are required in the TC and I&R-MLT zone, are optional in PD and MU zones, and are not required in C1-S, I&R-S, and I&R zones.

(1) Minor changes: Minor changes in the location, siting or character of buildings and structures may be authorized by the planning division if required by the final engineering or other circumstances not foreseen at the time the master plan was approved. No change authorized under this section may cause any of the following:

a. A change in the use or character of the development;

b. An increase in the overall density or floor area ratio of the development;

c. An increase in overall coverage of structures;

d. A reduction or change in character of approved open space;

e. A reduction of required off-street parking;

f. A detrimental alteration to the pedestrian, vehicular and bicycle circulation and utility networks; or

g. A reduction in required street pavement widths.

h. An increase of more than six (6) inches in building height.

i. A decrease in building setback greater than can be approved by a minor modification by the development services director.

(2) *Major amendments*. Substantial amendments to the master plan encompassing one or more of the minor changes listed in subparagraphs (1)a. through (1)i., or any proposed change determined by the development services director as a major amendment, shall be subject to review and approval by the zoning administrator. Furthermore, if the major amendment results in an overall building square footage that exceeds the maximum density or building square footage allowed by the approved master plan, the zoning administrator must find that the major amendment is consistent with the density, floor area ratio, and trip budget standards established by the general plan, as applicable.

(3) *Minor amendments*.

a. Minor amendments to existing master plans in planned development zones are subject to section 13-56, master plan required.

b. Minor amendments to existing master plans in the TC, C1-S, MU, I&R, I&R-S, and I&R-MLT zones may be approved by development review if the planning division finds that the proposed construction does not materially affect required open space, floor area ratio, and parking requirements

specified in the approved master plan. Furthermore, if the minor amendment results in an overall building square footage that exceeds the maximum building square footage allowed by the approved master plan, the planning division must find that the minor amendment is consistent with the floor area ratio and trip budget standards established by the general plan, as applicable.

(4) *Mixed-use development plan screening application*. Applicants for residential or mixed-use development projects in a mixed-use overlay district shall submit a screening application for consideration by city council at a public meeting. No other concurrent application for development may be submitted for processing until city council comments have been received. The purpose of the screening application is to receive city council comments on the merits and appropriateness of the proposed development. No other action on the screening application will be taken by city council. The submittal requirements for the screening review are specified on the city's planning application form, and the city council's review comments on the proposed project for processing shall not set precedent for approval of the master plan.

(h) *Minor conditional use permit*. Any use or deviation from development standards specified in this Zoning Code as requiring a minor conditional use permit.

(i) *Minor design review*. The following shall be subject to minor design review:

(1) Two-story residential construction that does not comply with any residential design guidelines adopted by the city council in the following zones:

a. R1 zone: Any two-story construction or second-floor addition; and

b. R2-MD, R2-HD, and R3 zones: Any two-story construction on a lot that results in two (2) or fewer dwelling units or any second-story addition on a lot with more than two (2) dwelling units.

(2) Reserved for future use.

(3) Any deviation from development standards specified in this Zoning Code as requiring a minor design review.

(j) *Minor modification*. Any deviation from an adopted development standard in this Zoning Code that meets the criteria listed in Table 13-28(j)(1).

TABLE 13-28(j)(1)

MINOR MODIFICATION

Standard	*Deviation Range*
Decrease in required front yard depth; provided that in residential zones, the garage is set back a minimum of nineteen (19) feet from the front property line	20% or less
Decrease in required rear yard depth	20% or less
Decrease in required side yard width	20% or less
Increase in maximum fence/wall height	33 1/3 % or less
Decrease in five-foot setback on street side for fences/walls in excess of thirty-six (36) inches on corner lots in multi-family residential zones	100% or less
Increase in depth of permitted projections into required yards	20% or less
Decrease in minimum driveway width for two (2) or more dwelling units	to not less than 10 feet
Deviation in sign area, height, setbacks, separation and other sign specifications	10% or less
Decrease in required distance between main structures	20% or less
Decrease in required distance between accessory and main structures	20% or less

(2) *Minor building additions that encroach into required setbacks no further than the existing main structure, excluding architectural features*. However, no nonconforming setback width or depth may be decreased further, and the building addition shall comply with all other applicable sections of this Zoning Code and other codes.

(3) Fabric awnings that project no more than five (5) feet from the building face.

(4) Any deviation from development standards specified in this Zoning Code as requiring a minor modification.

(k) *Mobile home park conversion*. Any conversion of an existing mobile home park to any other use permitted or conditionally permitted in the applicable zoning district.

(l) *Planned signing program*. A voluntary, optional alternative to the general sign regulations, except in the C1-S zone where it is required.

(m) *Redevelopment action*. Any development or use proposed within the redevelopment project area as specified by the redevelopment plan or by policy of the redevelopment agency as requiring redevelopment agency approval.

(n) Reserved.

(o) *Rezone*. Any proposed change to the official zoning map.

(p) *Specific plan conformity review*. Any proposed action or land use which is required by the applicable specific plan to be reviewed for conformity with the purpose and intent of the plan.

(q) *Tentative tract or parcel map (including vesting)*. Any proposed subdivision of land which is required by a provision of the Subdivision Map Act or this Zoning Code to file a tentative tract or parcel map.

(r) *Variance*. Any deviation from a development standard in this Zoning Code that is not specified as a minor modification or administrative adjustment, or a deviation that is not allowed by approval of conditional use permit, minor conditional use permit, or specific plan conformity procedure.

(s) *Landmarks and historic districts located within the city*. A person may request placement of a significant historic structure on the local Register of Historic Places subject to the criteria and procedures established in Chapter IX, Article 14, Historic Preservation.

(t) *Certificate of appropriateness*. A certificate issued by the planning commission (or other commission/committee designated by the city council), approving plans, specifications, or statements of work for any proposed alteration, restoration, or rehabilitation, construction, relocation, or demolition, in whole or in part, of a "designated cultural resource" listed on the city's local Register of Historic Places. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 99-17, § 3, 11-15-99; Ord. No. 01-10, §§ 1a., 1b., 3-5-01; Ord. No. 01-16, § 1b., 6-18-01; Ord. No. 02-4, § 1m, 3-18-02; Ord. No. 03-4, § 1(a), 6-2-03; Ord. No. 03-8, §§ 1, 2, 9-2-03; Ord. No. 05-3, § 1b., 2-7-05; Ord. No. 05-2, § 1a.—c., 2-22-05; Ord. No. 06-9, § 1b., 4-18-06; Ord. No. 07-17, § 1a., b., 10-2-07; Ord. No. 11-10, § 1, 9-20-11; Ord. No. 16-09, § 3, 10-4-16)

13-29. Planning application review process.

(a) *Application*.

(1) Application for any planning application shall be made to the planning division on the forms provided. Plans and information reasonably needed to analyze the application may be required. A list of required plans and information shall be available from the planning division.

(2) All applications shall be signed by the record owner of the real property to be affected. This requirement may be waived upon presentation of evidence substantiating the right of another person to file the application.

(b) *Fees*. The application shall be accompanied by all applicable processing fees as established by resolution of the city council.

(c) *Public hearing*. Upon receipt of a complete application for a planning application, the planning division shall fix a time and place of the public hearing if one is required pursuant to Table 13-29(c). For planning applications which require review by both the planning commission and city council or redevelopment agency, pursuant to Table 13-29(c), the final review authority shall hold a public hearing no more than forty-five (45) days from the receipt of the planning commission's recommendation.

TABLE 13-29(c)

PLANNING APPLICATION REVIEW PROCESS

Planning Applications	*Public Notice Required*	*Public Hearing Required*	*Recommending Authority*	*Final Review Authority*	*Notice of Decision*
Development Review Minor Modification	No	No	None	Planning Division	No
Lot Line Adjustment	No	No	None	Planning Division	No
Administrative Adjustment Minor Conditional Use Permit Minor Design Review Planned Signing Program	Yes	No	None	Zoning Administrator	Yes
Design Review Mobile Home Park Conversion Common Interest Development Conversion (Residential or Nonresidential) Specific Plan Conformity Review Tentative Parcel Map Tentative Tract Map Variance	Yes	Yes	Planning Division	Planning Commission	Yes
Conditional Use Permit Density Bonus Master Plan Master Plan—Preliminary	Yes	Yes	Planning Division	Planning Commission (excepted where noted otherwise in this zoning code)	Yes
Redevelopment Action	Yes	Yes	Planning Commission	Redevelopment Agency	Yes
Rezone	Yes	Yes	Planning Commission; and, if located in a redevelopment project area, the Redevelopment Agency	City Council	No
Local Register of Historic Places	No	No	Planning Commission or other commission/ committee as designated by the City Council	City Council	Yes
Certificate of Appropriateness	No	No	Planning Commission or other commission/ committee as designated by the City Council	Planning Commission or other commission/ committee as designated by the City Council	No

(d) *Public notice.* When required pursuant to Table 13-29(c), public notice shall be given as described in the following subsections. Public notices shall contain a general explanation of the proposed planning application and

any other information reasonably needed to give adequate notice of the matter to be considered.

(1) *Mailed notice required.* Notices of the hearing shall be mailed to all property owners and occupants within a five hundred (500) foot radius of the project site, except for applications for the construction of a building(s) one hundred fifty (150) feet or more in height; these applications shall require a greater notice radius:

Building Height in Feet	*Notice Requirement*
More than 150 and less than or equal to 225	700-foot radius
More than 225 and less than or equal to 300	900-foot radius
More than 300	1,100-foot radius

The required notice radius shall be measured from the external boundaries of the property described in the application. The notice shall be mailed no less than ten (10) days prior to the hearing or determination on the application. The planning division shall require mailing labels from the project applicant for this purpose. The mailing labels shall reflect the last known name and address of owner(s) as shown on the last equalized county assessment roll or by a more current listing.

(2) *On-site posting required.* Additional notice shall be provided by posting a notice on each street frontage of the project site, no less than ten (10) days prior to the date set for the hearing or determination on the application.

(3) *Newspaper publication.* When a public hearing is required, notice shall also be published once in the city in a newspaper of general circulation, no less than ten (10) days prior to the date set for the public hearing.

(e) *Review criteria.* Review criteria for all planning applications shall consist of the following:

(1) Compatible and harmonious relationship between the proposed building and site development, and use(s), and the building and site developments, and uses that exist or have been approved for the general neighborhood.

(2) Safety and compatibility of the design of buildings, parking area, landscaping, luminaries and other site features which may include functional aspects of the site development such as automobile and pedestrian circulation.

(3) Compliance with any performance standards as prescribed elsewhere in this Zoning Code.

(4) Consistency with the general plan and any applicable specific plan.

(5) The planning application is for a project-specific case and is not to be construed to be setting a precedent for future development.

(6) When more than one (1) planning application is proposed for a single development, the cumulative effect of all the planning applications shall be considered.

(7) For residential developments, consistency with any applicable design guidelines adopted by city council resolution.

(8) For affordable multi-family housing developments which include a minimum of sixteen (16) affordable dwelling units at no less than twenty (20) dwelling units per acre, the maximum density standards of the general plan shall be applied, and the maximum density shall be permitted by right and not subject to discretionary review during the design review or master plan application process.

(f) *Conditions*. The final review authority pursuant to Table 13-29(c), may impose reasonable conditions to assure compliance with the applicable provisions of this Zoning Code, and to assure compatibility with surrounding properties and uses and to protect the public health, safety and general welfare. The final review authority may also

require such written guarantees, cash deposits, recorded land use restrictions, etc., as may be necessary to assure compliance with the conditions.

(g) *Findings*. When granting an application for any of the planning applications specified below, the final review authority shall find that the evidence presented in the administrative record substantially meets any required conditions listed below. Other findings may also be required pursuant to other provisions of this Zoning Code.

(1) Administrative adjustment and variance findings:

a. Because of special circumstances applicable to the property, the strict application of development standards deprives such property of privileges enjoyed by others in the vicinity under identical zoning classifications.

b. The deviation granted shall be subject to such conditions as will assure that the deviation authorized shall not constitute a grant of special privileges inconsistent with the limitation upon other properties in the vicinity and zone in which the property is situated.

c. The granting of the deviation will not allow a use, density, or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

(2) Conditional use permit and minor conditional use permit findings:

a. The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

b. Granting the conditional use permit or minor conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

c. Granting the conditional use permit or minor conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

(3) Density bonus and concession or incentive findings:

a. The request is consistent with State Government Code section 65915 et. seq. regarding density bonuses and other incentives, the general plan, any applicable specific plan, and Chapter IX special regulations, Article 4 density bonuses and other incentives.

b. The requested density bonus and incentive or concession constitute the minimum amount necessary to provide housing at the target rents or sale prices and/or a child care facility.

c. The granting of the incentive or concession is required in order to provide for affordable housing costs, as defined in Health and Safety Code section 50052.5 or for rents for the targeted units.

d. The granting of the incentive or concession and/or the waiver or reduction of development standards does not have a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Government Code section 65589.5 upon health, safety, or the physical environment, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact.

e. The granting of the incentive or concession and/or the waiver or reduction of development standards does not have an adverse impact on any real property that is listed in the California Register of Historical Resources.

(4) Lot line adjustment findings: The lot line adjustment and improvements are consistent with the general plan, any applicable specific plan and this Zoning Code.

(5) Master plan findings:

a. The master plan meets the broader goals of the general plan, any applicable specific plan, and the Zoning Code by exhibiting excellence in design, site planning, integration of uses and structures and protection of the integrity of neighboring development.

b. Master plan findings for mixed-use development projects in the mixed-use overlay district are identified in Chapter V, Article 11, mixed-use overlay district.

c. As applicable to affordable multi-family housing developments, the project complies with the maximum density standards allowed pursuant to the general plan and provides affordable housing to low or very-low income households, as defined by the California Department of Housing and Community Development. The project includes long-term affordability covenants in compliance with state law.

(6) Minor modification findings:

a. The improvement will not be materially detrimental to the health, safety and general welfare of persons residing or working within the immediate vicinity of the project or to property and improvements within the neighborhood.

b. The improvement is compatible and enhances the architecture and design of the existing and anticipated development in the vicinity. This includes the site planning, land coverage, landscaping, appearance, scale of structures, open space and any other applicable features relative to a compatible and attractive development.

(7) Mobile home park conversion findings:

a. The impacts of the conversion on the residents of the mobile home park have been duly considered as required by the State Government Code.

b. The proposed conversion project is consistent with the general plan, any applicable specific plan and this Zoning Code.

(8) Planned signing program findings:

a. The proposed signing is consistent with the intent of Chapter VIII, Signs, and the General Plan.

b. The proposed signs are consistent with each other in design and construction taking into account sign style and shape, materials, letter style, colors and illumination.

c. The proposed signs are compatible with the buildings and developments they identify taking into account materials, colors and design motif.

d. Approval does not constitute a grant of special privilege or allow substantially greater overall visibility than the standard sign provisions would allow.

(9) Redevelopment action findings: The proposed use and/or development is consistent with the guidelines of the redevelopment plan.

(10) Common interest development conversion findings:

a. The applicant has submitted an adequate and legally binding plan which addresses the displacement of long-term residents, particularly senior citizens and low- and moderate-income families and families with school-age children; and

b. The proposed common interest development conversion project conforms to adopted general plan policies and any applicable specific plan or urban plan, and if applicable, increases the supply of lower cost housing in the city and/or that the proposed conversion project fulfills other stated public goals.

c. The establishment, maintenance, or operation of the project will not be detrimental to the health, safety, peace, comfort, and general welfare of persons residing or working in the surrounding neighborhood, nor will the project be detrimental or injurious to property and improvements in the neighborhood or the general welfare of the city.

d. The overall design and physical condition of the common interest development conversion project achieves a high standard of appearance, quality, and safety.

e. The proposed common interest development conversion project conforms to the Costa Mesa Zoning Code requirements.

f. For a proposed common interest development conversion project that does not conform to the zoning code requirements, the project due to its proportions and scale, design elements, and relationship to the surrounding neighborhood, is of continued value to the community and it contributes to defining and improving the community as a whole. Deviations from zoning code requirements are acceptable because it would be impracticable or physically impossible without compromising the integrity of the overall project to implement features that could result in conformance with current code requirements.

g. For a proposed common interest development conversion project located in an urban plan area, the proposed conversion is consistent with the applicable mixed-use overlay zoning district. Specifically, the proposed non-residential conversion project supports a mixed-use development or a similar land use that is not allowed in the base zoning district, or the proposed conversion project is a residential common interest development that is permitted by either the base or overlay zoning district.

(11) Rezone findings: The proposed rezone is consistent with the Zoning Code and the general plan and any applicable specific plan.

(12) Specific plan conformity review findings: Refer to the applicable specific plan text.

(13) Tentative parcel or tract map findings:

a. The creation of the subdivision and related improvements is consistent with the general plan, any applicable specific plan, and this Zoning Code.

b. The proposed use of the subdivision is compatible with the general plan.

c. The subject property is physically suitable to accommodate the subdivision in terms of type, design and density of development, and will not result in substantial environmental damage nor public health problems, based on compliance with the Zoning Code and general plan, and consideration of appropriate environmental information.

d. The design of the subdivision provides, to the extent feasible, for future passive or natural heating and cooling opportunities in the subdivision, as required by State Government Code section 66473.1.

e. The division and development will not unreasonably interfere with the free and complete exercise of the public entity and/or public utility rights-of-way and/or easements within the tract.

f. The discharge of sewage from this land division into the public sewer system will not violate the requirements of the State Regional Water Quality Control Board pursuant to Division 7 (commencing with State Water Code section 13000).

(14) Design review and minor design review findings:

a. The project complies with the City of Costa Mesa Zoning Code and meets the purpose and intent of the residential design guidelines, which are intended to promote design excellence in new residential construction, with consideration being given to compatibility with the established residential community. This design review includes site planning, preservation of overall open space, landscaping, appearance, mass and scale of structures, location of windows, varied roof forms and roof plane breaks, and any other applicable design features.

b. The visual prominence associated with the construction of a two-story house or addition in a predominantly single-story neighborhood has been reduced through appropriate transitions between the first and second floors and the provision of second floor offsets to avoid unrelieved two-story walls.

c. As applicable to affordable multi-family housing developments, the project complies with the maximum density standards allowed pursuant to the general plan and provides affordable housing to low or very-low income households, as defined by the California Department of Housing and Community Development. The project includes long-term affordability covenants in compliance with state law.

(h) *Decision*.

(1) After the public hearing, if required, the final review authority may approve, conditionally approve or deny any application for the planning application based upon the standards and intent set forth in the applicable provisions of this Zoning Code. In the case of a denial, the applicant shall be notified of the circumstances of the denial.

(2) For planning applications which require the planning commission to make a recommendation to the final review authority, the authority shall not approve any major change or additions in any proposed planning application until the proposed change or addition has been referred to the planning commission for a report, unless the change or addition was previously considered by the planning commission. It shall not be necessary for the planning commission to hold a public hearing to review the referral. Failure of the planning commission to report to the final review authority within forty (40) days after the referral shall be deemed approval of the proposed change or addition.

(i) *Notice of decision*.

(1) Notice of the zoning administrator's decision shall be given within five (5) days of the decision to the city council, planning commission and to any affected party requesting the notice. Any member of the planning commission or city council may request review of a zoning administrator's decision within seven (7) days of the notice of the decision. No fee shall be charged for such review.

(2) Notice of the planning commission's and/or redevelopment agency's decision shall be given within five (5) days to the city council and to any affected party requesting the notice. Any member of the city council may request review of the decision within seven (7) days of the notice of the decision. No fee shall be charged for such review.

(j) *Appeals*. Appeals of the final review authority shall be filed within seven (7) days of the public hearing or the date of the notice of decision according to the procedures set forth in Title 2, Chapter IX, Appeal, Rehearing and Review Procedure.

(k) *Time limits and extensions*.

(1) Planning applications shall run with the land until revoked, except as provided in this section or in a condition imposed at the time of granting the planning application.

(2) a. Unless otherwise specified by condition of approval, any permit or approval not exercised within twenty-four (24) months from the actual date of review authority approval shall expire and become void, unless an extension of time is approved in compliance with paragraph (4) of this subsection;

b. The permit shall not be deemed "exercised" until at least one of the following has first occurred:

1. A building permit has been issued and construction has commenced, and has continued to maintain a valid building permit by making satisfactory progress as determined by the building official.

2. A certificate of occupancy has been issued.

3. The use is established and a business license has been issued.

4. A time extension has been granted in compliance with paragraph (3) of this subsection.

(3) The time limits specified in paragraph (2) of this subsection shall not apply to preliminary master plans, except that the first phase of the final master plan must be approved within twenty-four (24) months of the approved preliminary master plan. Time limits regarding the construction of improvements authorized by the approved final master plan for each phase of the project shall comply with the time limits established in paragraph (2).

(4) *Extension of time*.

a. *Filing and review of request*. No less than thirty (30) days or more than sixty (60) days before the expiration date of the permit, the applicant shall file a written request for an extension of time with the department, together with the filing fee established by resolution of the city council.

b. For extension requests not to exceed one hundred eighty (180) days: The director of development services may extend the time for an approved permit or approval to be exercised. Only one request for an extension of one hundred eighty (180) days may be approved by the director. Any subsequent extension requests shall be considered by the original approval authority.

c. For extensions requests of more than one hundred eighty (180) days: The review authority for the original project shall consider the request to extend the time for an approved permit or approval to be exercised. A public hearing shall only be held if it was required on the original application. If notice was required for the original application, notice of the public hearing shall be given according to the procedures set forth in this chapter.

(5) Fees for extensions of time for planning applications may be established by resolution of the city council.

(6) *Action on extension request*. A permit or approval may be extended beyond the expiration of the original approval provided the director or the review authority finds that there have been no changes in the conditions or circumstances of the site, such as Zoning Code or General Plan amendment or other local and statewide regulations affecting the approved development standards, or project so that there would have been ground for

denial of the original project or any changes to the General Plan and/or Zoning Code that would preclude approval of the same project at the time of the requested extension.

(7) *Effect of expiration*. After the expiration of the permit or approval, no further work shall be done on the site and no further use of the site shall occur until a new permit or approval, or other city permits or approvals are first obtained. Fees for extensions of time for planning applications may be established by resolution of the city council.

(l) *Building permits/authority to proceed*. No building permit or authority to proceed shall be granted until all required review and approval has been obtained and all applicable appeal periods have expired.

(m) *Compliance*. Final occupancy shall not be granted unless the site development conforms to the approved set of building plans, applicable conditions of approval and code requirements.

(n) *Reapplication*. Upon final denial of any planning application, a new application for substantially the same planning application may not be filed within six (6) months of the date of the denial. The development services director shall determine whether the new application is for a planning application which is substantially the same as a previously denied application. No decision of the development services director shall be effective until a period of seven (7) days has elapsed following the written notice of a decision; an appeal of the decision shall be filed according to the procedures set forth in Title 2, Chapter IX, Appeal, Rehearing and Review Procedure.

(o) *Enforcement authority*.

(1) The planning commission may require the modification or revocation of any planning application and/or pursue other legal remedies as may be deemed appropriate by the city attorney, if the planning commission finds that the use as operated or maintained:

a. Constitutes a public nuisance as defined in State Civil Code Sections 3479 and 3480; or

b. Does not comply with the conditions of approval.

(2) The modification or revocation of any permit by the planning commission under this subsection shall comply with the notice and public hearing requirements set forth in subsections (c) and (d). The development services director may require notice for a development review or minor modification, if deemed appropriate.

(p) *Amendment to a planning application*. Any approved planning application may be amended by following the same procedure and fee schedule as required for the initial approval, with the exception of the following two (2) instances:

(1) Minor amendments to conditional use permits shall be processed as minor conditional use permits; and

(2) Amendments to master plans which comply with section 13-28(f)(1) may be authorized by the planning division.

(q) *Concurrent processing*. Unless otherwise stated in this Zoning Code, applications for proposed projects which require two or more planning application approvals may be processed concurrently. Final project approval shall not be granted until all necessary approvals have been obtained. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 98-5, § 5—7, 3-2-98; Ord. No. 99-17, § 4, 11-15-99; Ord. No. 01-11, § 1a., 3-5-01; Ord. No. 01-16, §§ 1c.—e., 6-18-01; Ord. No. 03-8, § 3, 9-2-03; Ord. No. 05-2, § 1d., e., 2-22-05; Ord. No. 06-7, § 1a., 4-18-06; Ord. No. 06-9, § 1c., 4-18-06; Ord. No. 07-17, § 1c., d., 10-2-07; Ord. No. 09-13, § 1, 11-17-09; Ord. No. 17-12, § 1, 9-19-17; Ord. No. 18-06, § 1, 9-4-18)

13-30. Purpose.

The purpose of this chapter is to provide a comprehensive list of uses which are permitted, conditionally permitted, or prohibited in the various zoning districts, as represented by Table 13-30, Land Use Matrix. In evaluating a proposed use, the following criteria shall also be considered:

(a) Uses determined as permitted may be subject to a discretionary review when construction is proposed, pursuant to Chapter III, Planning Applications.

(b) Uses proposed in the planned development zones are subject to verification of consistency with the master plan adopted for planned development zones. A proposed use not expressly allowed by the adopted master plan may require additional discretionary review pursuant to Table 13-30, Land Use Matrix.

(c) All listed uses in the matrix are subject to verification of compliance with density and floor area ratio limits, parking requirements and performance standards which may, in certain cases, prevent the establishment of the use.

(d) Any proposed use not listed in the Land Use Matrix shall be reviewed by the development services director to determine its similarity to another listed use. If no substantial similarity exists, the proposed use shall require approval of a conditional use permit prior to establishment of the use.

(e) For the purpose of Table 13-30, Land Use Matrix, the various zoning districts are labeled as follows:

Residential zones: R1, R2-MD, R2-HD, and R3

Commercial zones: AP, CL, C1, C2, C1-S, and TC

Industrial zones: MG and MP

Planned Development Residential zones: PDR-LD, PDR-MD, PDR-HD, and PDR-NCM

Planned Development Commercial zone: PDC

Planned Development Industrial zone: PDI

The Parking zone: P

Institutional and Recreational zones: I & R, I & R-S, and I & R-MLT

(f) For zoning districts located in a specific plan area, please refer to the appropriate specific plan text to determine if any additional regulations related to land uses are applicable.

(g) For the mixed-use overlay district located in an urban plan area, please refer to the appropriate urban plan text for additional regulations related to development standards and allowable land uses as applicable.

[1] Uses proposed in this zone are subject to verification of consistency with the adopted master plan. Uses not specified in the master plan, could be allowed, subject to the review process indicated in this matrix, if the proposed use is determined to be compatible with the adopted master plan. Residential uses shall not be permitted on any site or parcel of land on which residential uses are expressly prohibited by the general plan.

[2] This use is subject to the requirements of the referenced Municipal Code article or section.

[3] If residential uses exist, accessory uses shall be permitted.

[4] For the purposes of this table, the symbols in the non-shaded areas shall have the following meaning: C—Conditional Use Permit; MC—Minor Conditional Use Permit; P—Permitted; •—Prohibited; and S—Special Use Permit.

[5] Six-hundred--fifty-foot separation required between sober living homes, or from state licensed alcohol or drug abuse recovery or treatment facilities. CMMC 13-311(a)(10)(i).

[6] Subject to the separation requirement set forth in sections 13-322(a)(3) and 13-323(b).

[7] Small boardinghouses shall locate at least six hundred fifty (650) feet from any other small boardinghouse. Large boardinghouses shall be located at least one thousand (1,000) feet away from any other boardinghouse.

[8] Uses prohibited in the base zoning district of a mixed-use overlay zone shall also be prohibited in the overlay zone.

[9] Prohibited at the SoCo property, 3303 through 3323 Hyland Ave.

[10] Emergency shelters located on sites owned, controlled, and/or operated by the city in the MP and/or the PDI zone are a permitted use and the standards in section 13-200.79(1), (2), (4), (8), (10) and (13) do not apply to such uses.

ARTICLE 15. REASONABLE ACCOMMODATIONS

13-200.60. Purpose.

It is the city's policy to provide reasonable accommodation in accordance with federal and state fair housing laws (42 USC § 3600 et seq., and Government Code § 12900 et seq.) for persons with disabilities seeking fair access to housing in the application of the city's zoning laws. The term "disability" as used in this article shall have the same meaning as the terms "disability" and "handicapped" as defined in the federal and state fair housing laws. The purpose of this article is to establish the procedure by which a person may request reasonable accommodation, and how the request is to be processed. (Ord. No. 14-13, § 3, 10-21-2014)

13-200.61. Applicability.

Any person seeking approval to construct and/or modify residential housing for person(s) with disabilities, and/or operate a residential care facility, group home, or referral facility, which will substantially serve persons with disabilities may apply for a reasonable accommodation to obtain relief from a Zoning Code provision, regulation, policy, or condition which causes a barrier to equal opportunity for housing. (Ord. No. 14-13, § 3, 10-21-2014)

13-200.62. Reasonable accommodations—Procedure.

(a) *Application required*. An application for a reasonable accommodation shall be filed and processed with the Planning Division. The application shall include the following information and be subject to the determinant factors required by this section.

(b) *Submittal requirements*. The application shall be made in writing, and shall include the following information:

(1) The zoning code provision, regulation, policy, or condition from which accommodation is being requested;

(2) The basis for the claim that the individuals are considered disabled under state or federal law, and why the accommodation is necessary to provide equal opportunity for housing and to make the specific housing available to the individuals;

(3) Any other information that the director reasonably determines is necessary for evaluating the request for reasonable accommodation;

(4) Documentation that the applicant is: (a) an individual with a disability; (b) applying on behalf of one or more individuals with a disability; or (c) a developer or provider of housing for one or more individuals with a disability;

(5) The specific exception or modification to the zoning code provision, policy, or practices requested by the applicant;

(6) Documentation that the specific exception or modification requested by the applicant is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy the residence;

(7) Any other information that the hearing officer reasonably concludes is necessary to determine whether the findings required by subsection (e) of this section can be made, so long as any request for information regarding the disability of the individuals benefited complies with fair housing law protections and the privacy rights of the individuals affected.

(c) *Fees*. No application fee is required.

(d) *Director action*. Within sixty (60) days of receipt of a completed application, the director shall issue a written determination to approve, conditionally approve, or deny a request for reasonable accommodation, and the modification or revocation thereof in compliance with this chapter. Any appeal to reasonable accommodation

request denial or conditional approval shall be heard with, and subject to, the notice, review, approval, and appeal procedures prescribed for any other discretionary permit.

(e) *Grounds for reasonable accommodation*. The following factors shall be considered in determining whether to grant a requested accommodation:

(1) Is the requested accommodation necessary to afford a disabled person an equal opportunity to use and enjoy a dwelling? To determine whether the accommodation is necessary, the director may consider, among other things: The nature of the disability including the special needs created by the disability, the physical attributes and setting of the property and structures, the potential benefit that can be accomplished by the requested accommodation, and alternative accommodations that may provide a comparable level of benefit.

(2) Is the requested accommodation reasonable? A requested accommodation is not reasonable if it would impose an undue financial or administrative burden on the City. It is also not reasonable if it would fundamentally alter a City program, such as the City's zoning scheme.

a. In considering the financial or administrative burden on the City, the director may consider, among other things, the extent to which the City would have to dedicate resources, such as staff time and funds, to grant the request and other requests like it.

b. In considering the potential alteration to a City program, such as the City's zoning scheme, the director may consider, among other things, whether granting the request would be consistent with the City's General Plan, with the purpose and nature of the particular zoning district, and with nearby uses. The director may also consider whether the requested accommodation would potentially have adverse external impacts on properties in the vicinity.

(f) *Findings*. The written decision to approve, conditionally approve, or deny a request for reasonable accommodation shall be based on the following findings, all of which are required for approval. In making these findings, the director may approve alternative reasonable accommodations which provide an equivalent level of benefit to the applicant.

(1) The requested accommodation is requested by or on the behalf of one or more individuals with a disability protected under the fair housing laws.

(2) The requested accommodation is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy a dwelling.

(3) The requested accommodation will not impose an undue financial or administrative burden on the city, as "undue financial or administrative burden" is defined in fair housing laws and interpretive case law.

(4) The requested accommodation is consistent with surrounding uses in scale and intensity of use.

(5) The requested accommodation will not, under the specific facts of the case, result in a direct threat to the health or safety of other individuals or substantial physical damage to the property of others.

(6) If economic viability is raised by the applicant as part of the applicant's showing that the requested accommodation is necessary, then a finding that the requested accommodation is necessary to make facilities of a similar nature or operation economically viable in light of the particularities of the relevant market and market participants generally, not just for that particular applicant.

(7) Whether the existing supply of facilities of a similar nature and operation in the community is sufficient to provide individuals with a disability an equal opportunity to live in a residential setting.

(8) The requested accommodation will not result in a fundamental alteration in the nature of the City's zoning program.

(g) The City may consider, but is not limited to, the following factors in determining whether the requested accommodation would require a fundamental alteration in the nature of the City's zoning program:

(1) Whether the requested accommodation would fundamentally alter the character of the neighborhood.

(2) Whether the accommodation would result in a substantial increase in traffic or insufficient parking.

(3) Whether granting the requested accommodation would substantially undermine any express purpose of either the City's general plan or an applicable specific plan.

(4) Whether the requested accommodation would create an institutionalized environment due to the number of and distance between facilities that are similar in nature or operation.

(5) Any other factors that would cause a fundamental alteration in the city's zoning program, as may be defined in the Fair Housing Law. (Ord. No. 14-13, § 3, 10-21-2014; Ord. No. 17-05, § 1, 5-2-17)

13-200.63. Severability.

Should any section, subsection, clause, or provision of this article for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this article; it being hereby expressly declared that this article, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one (1) or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This article shall be prospective in application from its effective date. (Ord. No. 14-13, § 3, 10-21-2014)

View the mobile version.

CHAPTER X. NONCONFORMING USES, DEVELOPMENTS AND LOTS

13-201. Purpose.

The purpose of this chapter is to identify the development parameters regarding nonconforming uses, developments and lots. (Ord. No. 97-11, § 2, 5-5-97)

13-202. Definitions.

The following terms and phrases when used in this chapter shall have the meanings ascribed to them in this section, except where context clearly indicates a different meaning:

Conforming use. An existing and legally established use which is permitted in a particular zone by this Zoning Code.

Conforming development. An existing and legally established development which conforms to the development standards required by this Zoning Code.

Nonconforming development. An existing and legally established development which no longer conforms to the development standards required by this Zoning Code.

Nonconforming dwelling unit. An existing and legally established dwelling unit which no longer conforms to the development standards required by this Zoning Code or which is located in a district where it is no longer permitted.

Nonconforming lot. An existing and legally established lot not complying with the minimum area and dimension standards required by this Zoning Code.

Nonconforming mobile home park. An existing and legally established mobile home park which no longer conforms to the development standards or location provisions required by this Zoning Code.

Nonconforming use. An existing and legally established use which is located in a district where it is no longer permitted by this Zoning Code.

Nonconforming use of land or of land with minor structures only. An existing and legally established use which is located in a district where it is no longer permitted by this Zoning Code and where such use involves no individual structure with a replacement cost exceeding five thousand dollars ($5,000.00). (Ord. No. 97-11, § 2, 5-5-97)

13-203. Maintenance and repair.

(a) Nothing in this chapter shall prevent the strengthening or restoring to a safe condition any structure or part thereof declared to be unsafe, except as noted in subsection (b), by order of any official charged with protecting the public safety, nor shall it prevent alterations necessary for compliance with requirements of other governmental agencies.

(b) If a nonconforming development or portion of a development containing a nonconforming use becomes physically unsafe or unlawful because of lack of repairs or maintenance and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be re stored, repaired or rebuilt except in conformity with the regulations of the district in which it is located. (Ord. No. 97-11, § 2, 5-5-97)

13-204. Nonconforming provisions.

The following table identifies the provisions governing nonconforming uses and/or developments:

TABLE 13-204

NONCONFORMING PROVISIONS—USES

TYPE OF USE	***CONTINUANCE OF A USE PERMITTED***	***CHANGE OF USE PERMITTED***
Conforming Use in a Nonconforming Development	YES—No restrictions on use.	YES—Exception: If the development has less parking than required for the existing conforming use, the existing use may not be replaced with a use requiring more parking unless the additional parking required for the new use is provided. Other uses on the same site may continue with the existing nonconforming parking.
Nonconforming Use in a Conforming or Nonconforming Structure:		
Nonresidential Structures	YES—However, when a nonconforming use is discontinued or abandoned for 6 consecutive months or for 18 nonconsecutive months during any three-year period (except when government action impedes access to the premises) or when it is replaced for any time period by a conforming use, the development shall not thereafter be used except in conformity with the regulations of the district in which it is located. For purposes of this chapter, a discontinued use shall not require a determination of the voluntary or involuntary nature of the discontinuance or the intent to resume the nonconforming use.	YES—Any nonconforming use may be changed to another nonconforming use provided that the development services director finds that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such a change, the development services director may require appropriate conditions and safeguards in accordance with the provisions of this Zoning Code and/or may require reasonable alterations to the premises to bring them into greater conformance with the requirements for the district. Structural alterations, conforming to the provisions of this Zoning Code, may be approved by the development services director provided that it is determined that the proposed alterations do not extend the life of the nonconforming use.
Residential Structures	YES—However, when a nonconforming use is discontinued or abandoned for any period of time, it may not be reestablished. All subsequent uses in the residential structure shall conform to this Zoning Code.	YES—However, only to a use conforming to the provisions of this Zoning Code.
Nonconforming Mobile Home Parks	YES—A nonconforming mobile home park may continue unless and until no one resides onsite for a continuous period of 6 months.	YES—However, the conversion is subject to the procedures for Mobile Home Park Conversions in Chapter III Planning Applications.

TYPE OF USE	*CONTINUANCE OF A USE PERMITTED*	*CHANGE OF USE PERMITTED*
Nonconforming Use of Land or Land with Minor Structures only	1. Legally established agricultural uses may continue until the land is developed. 2. If the use is discontinued or abandoned for any period of time, all subsequent uses shall conform to this Zoning Code. 3. No nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the time it became nonconforming. 4. No nonconforming use shall be moved in whole or in part to any portion of the lot other than that occupied by such use at the time the use became nonconforming.	YES—However, only to a use conforming to the provisions of this Zoning Code.

TABLE 13-204

NONCONFORMING PROVISIONS—DEVELOPMENTS

TYPE OF DEVELOPMENT	*ALTERATION OF DEVELOPMENT*	*REBUILDING AFTER DESTRUCTION*
All Nonresidential Developments containing Nonconforming Uses	No existing development devoted to a nonconforming use shall be structurally altered except in changing the use of the development to a conforming use. Except that structural alterations, conforming to the provisions of this Zoning Code, may be approved by the development services director provided that it is determined that the proposed alterations do not extend the life of the nonconforming use. Ordinary maintenance shall be permitted.	The following provisions shall apply to the reconstruction of legal nonconforming commercial, industrial and institutional developments. Any reconstruction allowed must be started within a period of one year and carried out diligently to completion. An extension of time to start the restoration may be granted for good cause by the development services director. 1. Should a nonconforming commercial, institutional or industrial development or nonconforming portion of a commercial, institutional or industrial development be destroyed to an extent of more than 50 percent of the market value, it shall not be reconstructed unless such destruction is unintentional.

TYPE OF DEVELOPMENT	*ALTERATION OF DEVELOPMENT*	*REBUILDING AFTER DESTRUCTION*
		In the case of unintentional destruction, the development may be restored to its original building intensity (floor area ratio) and use provided that: a. The rebuilding complies with all other applicable sections of this Zoning Code and other codes including but not limited to the following development standards: building setback, lot coverage, building height, parking, open space and landscaping. b. The rebuilding would not increase the development's nonconformity. 2. Should a nonconforming commercial, institutional or industrial development or nonconforming portion of a commercial, institutional or industrial development be unintentionally destroyed by any means to an extent of 50 percent or less of the market value, the structure may be restored and the occupancy or use of such structure or part thereof may be continued or resumed provided that the restoration is of an equal or lesser degree of nonconformity.
Nonconforming Nonresidential Developments containing Conforming Uses	Alterations may be made provided that all of the following criteria are met: 1. The alteration itself complies with all applicable sections of this Zoning Code and other codes; 2. In permitting such an alteration, the development services director may require appropriate conditions and safeguards in accordance with the provisions of this Zoning Code and/or may require reasonable alterations to the development to bring it into greater conformance with the standards for the district; and 3. The development will not be made more nonconforming.	
Nonconforming Use of Land or Land with Minor Structures only	No nonconforming structure shall be erected or altered in connection with the nonconforming use of land.	

TYPE OF DEVELOPMENT	*ALTERATION OF DEVELOPMENT*	*REBUILDING AFTER DESTRUCTION*
Nonconforming Dwelling Units containing Conforming Uses	Alterations may be made to nonconforming dwelling units provided the following criteria are met: 1. The zone is residential; 2. The alteration or addition itself complies with all applicable sections of this Zoning Code and other codes; 3. The addition does not occupy the only portion of an area which can be used for required garages, parking spaces or access thereto; and 4. The residential development will not be made more nonconforming. 5. When the existing main building, excluding architectural features, projects into required setback areas, minor building additions may encroach into required setback areas with approval of a minor modification.	The following provisions shall apply to the reconstruction of legal nonconforming dwelling units. Any reconstruction allowed must be started within a period of one year and carried out diligently to completion. An extension of time to start the restoration may be granted for good cause by the development services director. 1. If the unit(s) in any residential zone is/are destroyed unintentionally by any means, to any extent, the damage may be restored and the occupancy continued or resumed provided that the restoration is of an equal or lesser degree of nonconformity. 2. See section 13-205 regarding provisions for rebuilding after voluntary destruction in multi-family zones. 3. Should a legally constructed dwelling unit in a commercial or industrial zone be destroyed by any means to an extent of more than 50 percent of the market value, it shall not be reconstructed. 4. Should a legally constructed dwelling unit in a commercial or industrial zone be unintentionally destroyed by any means to an extent of 50 percent or less of the market value, the structure may be restored and the occupancy or use of such structure or part thereof may be continued or resumed provided that the restoration is of an equal or lesser degree of nonconformity.

TYPE OF DEVELOPMENT	*ALTERATION OF DEVELOPMENT*	*REBUILDING AFTER DESTRUCTION*
Nonconforming or Conforming Dwelling Units containing Nonconforming Uses	1. No existing development devoted to a nonconforming use shall be structurally altered except in changing the use of the development to a conforming use. Except that structural alterations, conforming to the provisions of this Zoning Code, may be approved by the development services director provided that it is determined that the proposed alterations do not extend the life of the nonconforming use. Ordinary maintenance shall be permitted. 2. In nonconforming mobile home parks, existing mobile homes may be replaced by other mobile homes provided that the total number of units within the mobile home park is not increased and the mobile home park will not be made more nonconforming in respect to this Zoning Code.	
Nonconforming Mobile Home Parks		

(Ord. No. 97-11, § 2, 5-5-97; Ord. No. 98-5, § 28, 3-2-98)

13-205. Provisions for multi-family zones for rebuilding after voluntary destruction.

(a) If units in the R2-MD, R2-HD, R3 or PDR zones are voluntarily demolished, an equal or lesser number of units may be rebuilt so long as the development complies with all other applicable sections of this Zoning Code and other codes. This includes but is not limited to the following development standards: building setback, lot coverage, building height, parking, open space and landscaping. Furthermore, the allowable density or number of units to be redeveloped shall be limited to the general plan rebuilding incentive for the current land use designation. The resulting number of units shall not exceed the existing number of legal nonconforming units nor be more than the number of units that would have been allowed on March 15, 1992. The rebuilding shall not increase the development's nonconformity.

(b) Consideration may be given through the master plan process, to allow rebuilding of existing multiple-family residential projects that do not fully meet all the other applicable sections of this Zoning Code and other code standards. Consideration shall be given to the provision of tandem parking for units requiring more than one dedicated parking space and for cantilevered second story living areas over drive or yard areas. Through the master plan process, the rebuilding project must demonstrate why strict compliance with each of the current standards is either infeasible or unnecessary. In exchange for any deviation from current standards, the project must provide additional amenities such as those listed below:

(1) Provision of garages instead of carports for greater security.

(2) Useable open space with amenities.

(3) Flower beds and adequate lawns of sufficient area to create a useable recreation area.

(4) Individual vegetable garden areas screened by hedges.

(5) Masonry planters, potted flowers and shrubs on decks and balcony flower boxes.

(6) Trellises with vines.

(7) Minimum size trees based on box size rather than gallons such that thirty (30) percent or more of the trees are a minimum twenty-four-inch box size.

(8) CC&Rs to ensure landscape maintenance.

(9) On-site manager for projects of fifteen (15) units or less.

(10) Awnings, especially along the front for color and product definition, and a better facade.

(11) Stamped concrete or decorative at entrances and critical driveway intersections.

(12) Meandering rather than straight sidewalks.

(13) Terraced elevations at all sides to reduce scale and massing.

(14) Upgraded windows and doors for noise reduction.

(15) Covered/screened dumpsters for projects of four (4) units or less.

(16) Concrete slab where the trash truck would stop to compact trash to prevent damage, or contract for roll-off service so that the trash truck does not come on-site.

(17) Orientation of units away from the street toward interior courtyards.

(18) Adequate lighting for security (beyond parking and driveway lighting required by code).

(19) Gates and intercom system for security.

(20) Other amenities that enhance the project and the overall neighborhood.

(c) In reviewing the master plan, the planning commission shall decide if the degree of deviation is warranted, if the proposed amenities are sufficient to offset the deviation, and if the maximum allowable density shall be reduced due to the deviation.

(d) The master plan shall be processed as shown in Chapter III, Planning Applications.

(e) *Findings*. The findings necessary to grant the master plan are:

(1) Full compliance with current development standards would make rebuilding infeasible;

(2) The proposed rebuilding is substantially compatible with surrounding developments and would not be materially detrimental to other properties in the area;

(3) The proposed rebuilding is less nonconforming than the existing development; and

(4) The proposed rebuilding provides additional amenities that ensure a high quality development. (Ord. No. 97-11, § 2, 5-5-97; Ord. No. 98-5, § 29, 3-2-98; Ord. No. 05-3, § 1h., 2-7-05)

13-206. Nonconforming fences and walls.

Nonconforming fences or walls may remain unless destroyed, damaged or altered (by any means or cause) to the extent of more than fifty (50) percent of its value. When the destruction, damage or alteration exceeds fifty (50) percent of its value then the reconstruction shall conform to the Zoning Code. (Ord. No. 97-11, § 2, 5-5-97)

13-207. Nonconforming lots.

(a) Uses permitted in the zone shall be permitted on nonconforming lots, subject to all other property development standards of the zone.

(b) When two (2) or more contiguous nonconforming lots or portions of lots are held under common ownership, they shall be deemed merged when and as provided for in the Subdivision Map Act (State Government Code Sections 66410 to 66499.58). (Ord. No. 97-11, § 2, 5-5-97)

13-207.1. Group homes.

If any lawfully existing group home is in violation of section 13-30 and (i) it would be an economic hardship to bring the use into compliance immediately, or (ii) a vested right exists to continue the use, the development services director may, upon request of the owner or at the director's own initiative, establish a reasonable amortization period by the end of which the use must be in compliance. (Ord. No. 00-5, § 1(f), 3-20-00)

CHAPTER XV. GROUP HOMES

13-310. Purpose.

This chapter is intended to preserve the residential character of single-family residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things: (1) ensuring that group homes are actually entitled to the special accommodation and/or additional accommodation provided under the Costa Mesa Municipal Code and not simply skirting the city's boarding house regulations; (2) limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate on street parking; (3) providing an accommodation for the handicapped that is reasonable and actually bears some resemblance to the opportunities afforded non-handicapped individuals to use and enjoy a dwelling unit in a single-family neighborhood; and (4) to provide comfortable living environments that will enhance the opportunity for the handicapped and for recovering addicts to be successful in their programs. (Ord. No. 14-13, § 2, 10-21-2014)

13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(1) An application for a group home is submitted to the director by the owner/operator of the group home. The application shall provide the following:

i. The name, address, phone number and driver's license number of the owner/operator;

ii. If the applicant and/or operator is a partnership, corporation, firm or association, then the applicant/operator shall provide the additional names and addresses as follows and such persons shall also sign the application:

a. Every general partner of the partnership,

b. Every owner with a controlling interest in the corporation,

c. The person designated by the officers of a corporation as set forth in a resolution of the corporation that is to be designated as the permit holder;

iii. The license and permit history of the applicant(s), including whether such applicant(s), in previously operating a similar use in this or another city, county or state under license and/or permit, has had such license and/or permit revoked or suspended, and the reason therefor;

iv. The name, address, phone number and driver's license number of the house manager;

v. A copy of the group home rules and regulations;

vi. Written intake procedures;

vii. The relapse policy;

viii. An affirmation by the owner/operator that only residents (other than the house manager) who are handicapped as defined by state and federal law shall reside at the group home;

ix. Blank copies of all forms that all residents and potential residents are required to complete; and

x. A fee for the cost of processing of the application as set by resolution of the city council.

No person shall open a group home or begin employment with a group home until this information has been provided and such persons shall be responsible for updating any of this information to keep it current.

(2) The group home has six (6) or fewer occupants, not counting a house manager, but in no event shall have more than seven (7) occupants. If the dwelling unit has a secondary accessory unit, occupants of both units will be combined to determine whether or not the limit of six (6) occupants has been exceeded.

(3) The group home shall not be located in an accessory secondary unit unless the primary dwelling unit is used for the same purpose.

(4) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a twenty-four (24) hour basis and who are responsible for the day-to-day operation of the group home.

(5) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within five hundred (500) feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

(6) Occupants must not require and operators must not provide "care and supervision" as those terms are defined by Health and Safety Code section 1503.5 and section 80001(c)(3) of Title 22, California Code of Regulations.

(7) Integral group home facilities are not permitted. Applicants shall declare, under penalty of perjury, that the group home does not operate as an integral use/facility.

(8) If the group home operator is not the property owner, written approval from the property owner to operate a group home at the property.

(9) The property must be fully in compliance with all building codes, municipal code and zoning.

(10) At least forty-eight (48) hours prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall:

i. Notify the person designated as the occupant's emergency contact or contact of record that the occupant will no longer be a resident at the home;

ii. Contact the Orange County Health Care Agency OC Links Referral Line and/or another entity designated by the City to determine the services available to the occupant, including, but not limited to, alcohol and drug inpatient and outpatient treatment;

iii. Notify the city's Network for Homeless Solutions that an occupant is no longer a resident at the home, and determine the services available therefrom;

iv. Provide the information obtained from paragraphs ii and iii of this subsection (a)(10) and any other treatment provider or service to the occupant prior to his or her release on a form provided by the City and obtain the occupant's signed acknowledgement thereon;

v. Provided, however, that if the occupant's behavior results in immediate termination of residency pursuant to rules approved by the City as part of the special use permit for that facility, the operator shall comply with paragraphs i through iv of this subsection (a)(10) as soon as possible.

(11) Prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall also:

i. Make available to the occupant transportation to the address listed on the occupant's driver license, state-issued identification card, or the permanent address identified in the occupant's application or referral to the group home;

ii. Provided, however, that should the occupant decline transportation to his or her permanent address or otherwise has no permanent address, then the operator shall make available to the occupant transportation to another group home or residential care facility that has agreed to accept the occupant.

(12) The group home operator shall maintain records for a period of one year following eviction from or involuntary termination of residency of an occupant that document compliance with subsections (a)(10) and (a)(11) of this section; provided, however, that nothing herein shall require an operator of a group home to violate any provision of state or federal law regarding confidentiality of health care information. The group home operator may not satisfy the obligations set forth in subsection (a)(11) of this section by providing remuneration to the occupant for the cost of transportation.

(13) All drivers of vehicles picking up or dropping off persons at a group home shall comply with all applicable provisions of this Code and the Vehicle Code, including, but not limited to, those provisions regulating licensure and parking, standing and stopping.

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

i. The sober living home is not located within six hundred fifty (650) feet, as measured from the closest property lines, of any other sober living home or a state licensed alcoholism or drug abuse recovery or treatment facility.

ii. All occupants, other than the house manager, must be actively participating in legitimate recovery programs, including, but not limited to, Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rules and regulations, refusal to actively participate in such a program shall be cause for eviction.

iii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least ninety (90) days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

iv. The number of occupants subject to the sex offender registration requirements of Penal Code section 290 does not exceed the limit set forth in Penal Code section 3003.5 and does not violate the distance provisions set forth in Penal Code section 3003.

v. The sober living home shall have a written visitation policy that shall preclude any visitors who are under the influence of any drug or alcohol.

vi. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

vii. The sober living home shall not provide any of the following services as they are defined by section 10501(a)(6) of Title 9, California Code of Regulations: detoxification; educational counseling; individual or group counseling sessions; and treatment or recovery planning.

(15) An applicant may seek relief from the strict application of this section by submitting an application to the director setting forth specific reasons as to why accommodation over and above this section is necessary under state and federal laws, pursuant to section 13-200.62.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information;

(2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two (2) years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

(3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven (7) to ten (10) years, to any of the following offenses:

i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last ten (10) years);

ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven (7) years); or

iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last ten (10) years).

iv. The unlawful sale or furnishing of any controlled substances (last seven (7) years).

(4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

(5) The owner/operator accepts residents, other than a house manager, who are not handicapped as defined by the FHAA and FEHA.

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

i. Any owner/operator or staff person of a sober living home is a recovering drug or alcohol abuser and upon the date of application or employment has had less than one (1) full year of sobriety.

ii. The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

iii. The sober living home, as measured by the closest property lines, is located within six hundred fifty (650) feet of any other sober living home or state licensed alcoholism or drug abuse recovery or treatment facility. If a state-licensed alcoholism or drug abuse recovery or treatment facility moves within six hundred fifty (650) feet of an existing sober living home this shall not cause the revocation of the sober living home's permit or be grounds for denying a transfer of such permit.

(7) For any other significant and/or repeated violations of this section and/or any other applicable laws and/or regulations, including, but not limited to, failure to comply with the provisions of subsections (a)(10) through (13).

(8) Revocation shall not apply to any group home, which otherwise would cause it to be in violation of this section, that has obtained a reasonable accommodation pursuant to section 13-200.62. (Ord. No. 14-13, § 2, 10-21-14; Ord. No. 17-05, § 2, 5-2-17)

13-312. Compliance.

(a) Existing group homes must apply for a special use permit within ninety (90) days of the effective date of this chapter.

(b) Group homes that are in existence upon the effective date of this chapter shall have one (1) year from the effective date of this chapter to comply with its provisions, provided that any existing group home, which is serving more than six (6) residents, must first comply with the six-resident maximum.

(c) Existing group homes obligated by a written lease exceeding one (1) year from the effective date of the ordinance, or whose activity involves investment of money in leasehold or improvements such that a longer period is necessary to prevent undue financial hardship, are eligible for up to one (1) additional years grace period pursuant to planning division approval. (Ord. No. 14-13, § 2, 10-21-2014)

13-313. Severability.

Should any section, subsection, clause, or provision of this chapter for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this chapter; it being hereby expressly declared that this Ordinance, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one (1) or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This chapter shall be prospective in application from its effective date. (Ord. No. 14-13, § 2, 10-21-2014)

View the mobile version.

CHAPTER XVI. GROUP HOMES IN THE R2-MD, R2-HD AND R3 RESIDENTIAL ZONES AND THE PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, AND PDI (PLANNED DEVELOPMENT ZONES)

13-320. Purpose.

This chapter is intended to preserve the residential character the City of Costa Mesa's residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things:

(a) Ensuring that group homes are actually entitled to the special accommodation and/or additional accommodation provided under the Costa Mesa Municipal Code and not simply skirting the city's boarding house regulations;

(b) Limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate off-street parking;

(c) Providing an accommodation for the handicapped that is reasonable and actually bears some resemblance to the opportunities afforded non-handicapped individuals to use and enjoy a dwelling unit in a residential neighborhood; and

(d) To provide comfortable living environments that will enhance the opportunity for the handicapped, including recovering addicts to be successful in their programs. (Ord. No. 15-11, § 2, 11-17-15)

13-321. Definitions.

Property. For purposes of this chapter, "property" is defined as any single development lot that has been subdivided bearing its own assessor's parcel number or with an approved subdivision map or condominium map. (Ord. No. 15-11, § 2, 11-17-15)

13-322. Group homes in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones with six (6) or fewer occupants.

(a) A special use permit shall be required for and may be granted to permit the operation of a group home including a sober living home with six (6) or fewer occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following requirements:

(1) The application for and operation of the group home complies with subsections (a)(1), (a)(2) and (a)(4) through (a)(14) of section 13-311.

(2) The application includes a live scan of the house manager and/or operator of the group home.

(3) The group home or sober living home is at least six hundred fifty (650) feet from any other property, as defined in section 13-321, that contains a group home, sober living home or state-licensed drug and alcohol treatment facility, as measured from the property line.

(b) The development services director may issue, revoke or deny a special use permit for a group home including a sober living home subject to this chapter pursuant to the procedures and requirements of section 13-311.

(c) An applicant may seek relief from the strict application of this section by submitting an application to the director setting forth specific reasons as to why accommodation over and above this section is necessary under state and federal laws, pursuant to section 13-200.62. (Ord. No. 15-11, § 2, 11-17-15; Ord. No. 17-05, § 3, 5-2-17)

13-323. Conditional use permit required for group homes, residential care facilities and drug and alcohol treatment facilities in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) w

A conditional use permit shall be required for and may be granted to allow the operation of a group home, state-licensed residential care facility or state-licensed drug and alcohol treatment facility with seven (7) or more occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following conditions:

(a) The requirements of Chapter III, Planning Applications, of this title have been met.

(b) The group home, residential care facility or state-licensed drug and alcohol treatment facility is at least six-hundred fifty (650) feet from any property, as defined in section 13-321, that contains a group home, sober living home or state-licensed drug and alcohol treatment facility, as measured from the property line, unless the reviewing authority determines that such location will not result in an over-concentration of similar uses.

(c) The applicant obtains an operator's permit as required by Article 23, Chapter 2 of Title 9, except that this requirement shall not apply to any state-licensed residential care facility or state licensed drug and alcohol treatment facility.

(d) The findings for granting a conditional use permit in accordance with subsection 13-29(g) are met. (Ord. No. 15-11, § 2, 11-17-15; Ord. No. 17-05, § 3, 5-2-17)

13-324. Compliance.

(a) Group homes in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones with six (6) or fewer occupants that are in existence upon the effective date of this section may continue to operate subject to the following:

(1) A complete application for a special use permit is filed within 90 days of the effective date of this chapter; and

(2) The group home is in full compliance with all of the conditions of this chapter within one (1) year of its effective date. Notwithstanding the foregoing, existing group homes obligated by a written lease exceeding one (1) year from the effective date of the chapter, or whose activity involves investment of money in leasehold or improvements such that a longer period is necessary to prevent undue financial hardship, are eligible for up to one (1) additional years grace period pursuant to planning division approval.

(b) Group homes, state licensed residential care facilities and state licensed drug and alcohol treatment facilities in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) with seven (7) or more occupants that are in existence upon the effective date of this chapter may continue to operate subject to the following:

(1) The operator of a group home obtains an operator's permit pursuant to section 9-372 et seq., within one hundred twenty (120) days from the effective date of this chapter; and

(2) The group home, state licensed residential care facility and/or state licensed drug and alcohol treatment facility is in full compliance with all conditions of this chapter, including obtaining a conditional use permit, within one (1) year from the effective date of this chapter. Notwithstanding the foregoing, an existing group home, state licensed residential care facility and/or state licensed drug and alcohol treatment facility obligated by a written lease exceeding one (1) year from the effective date of the chapter, or whose activity involves investment of money in leasehold or improvements such that a longer period is necessary to prevent undue financial hardship, are eligible for up to one (1) additional years grace period pursuant to planning division approval. (Ord. No. 15-11, § 2, 11-17-15)

13-325. Severability.

Should any section, subsection, clause, or provision of this chapter for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this chapter; it being hereby expressly declared that this chapter, and each section, subsection, sentence, clause and phrase hereof would have been prepared, proposed, approved and ratified irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. This chapter shall be prospective in application from its effective date. (Ord. No. 15-11, § 2, 11-17-15)

View the mobile version.

ARTICLE 23. GROUP HOMES

9-370. Definitions.

The definitions set forth in Title 13 of this Code shall apply to the provisions of this article unless otherwise provided for herein. (Ord. No. 15-13, § 1, 11-17-15)

9-371. Zoning requirements.

In addition to the requirements of this article, all group homes subject to this article shall comply with the requirements set forth in Chapter XVI of Title 13 of this Code. (Ord. No. 15-13, § 1, 11-17-15)

9-372. Operator's permit required.

It is unlawful for any person to operate, or to permit any person to operate, a group home on any property located within the R2-MD, R2-HD, R3, PDR-LD, PDR-MD and/or PDR-HD zone, without a valid permit issued for that group home pursuant to the provisions of this article. (Ord. No. 15-13, § 1, 11-17-15)

9-373. Exceptions.

The requirements of this article shall not apply to:

(a) A group home that has six (6) or fewer occupants, not counting a house manager, and that is in compliance with the applicable provisions of Chapters XV and XVI of Title 13 of this Code;

(b) A state licensed alcoholism or drug abuse recovery or treatment facility; or

(c) A state licensed residential care facility. (Ord. No. 15-13, § 1, 11-17-15)

9-374. Requirements for issuance of operator's permit.

(a) The owner/operator shall submit an application to the director that provides the following information:

(1) The name, address, phone number and driver's license number of the owner/operator;

(2) If the applicant and/or operator is a partnership, corporation, firm or association, then the applicant/operator shall provide the additional names and addresses as follows and such persons shall also sign the application:

i. Every general partner of the partnership;

ii. Every owner with a controlling interest in the corporation; and

iii. The person designated by the officers of a corporation as set forth in a resolution of the corporation that is to be designated as the permit holder.

(3) The license and permit history of the applicant(s), including whether such applicant(s), in previously operating a similar use in this or another city, county or state under license and/or permit, has had such license and/or permit revoked or suspended, and the reason therefor;

(4) The name, address, phone number and driver's license number of the house manager;

(5) A copy of the group home rules and regulations;

(6) Written intake procedures;

(7) The relapse policy;

(8) An affirmation by the owner/operator that only residents (other than the house manager) who are handicapped as defined by state and federal law shall reside at the group home;

(9) Blank copies of all forms that all residents and potential residents are required to complete; and

(10) A fee for the cost of processing of the application as set by resolution of the city council.

(b) *Requirements for operation of group homes*.

(1) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a twenty-four (24) hour basis and who are responsible for the day-to-day operation of the group home.

(2) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within five hundred (500) feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

(3) Occupants must not require and operators must not provide "care and supervision" as those terms are defined by Health and Safety Code section 1503.5 and section 80001(c)(3) of Title 22, California Code of Regulations.

(4) Integral group home facilities are not permitted. Applicants shall declare, under penalty of perjury, that the group home does not operate as an integral use/facility.

(5) If the group home operator is not the property owner, written approval from the property owner to operate a group home at the property.

(6) At least forty-eight (48) hours prior to eviction from or involuntary termination of residency in a group home, the operator thereof shall:

i. Notify the person designated as the occupant's emergency contact or contact of record that the occupant will no longer be a resident at the home;

ii. Contact the Orange County Health Care Agency OC Links Referral Line or other entity designated by the City to determine the services available to the occupant, including, but not limited to, alcohol and drug inpatient and outpatient treatment;

iii. Notify the city's Network for Homeless Solutions that an occupant is no longer a resident at the home, determine the services available therefrom; and

iv. Provide the information obtained from paragraphs ii and iii of this subsection (b)(6) and any other treatment provider or service to the occupant prior to his or her release on a form provided by the city and obtain the occupant's signed acknowledgement thereon;

v. Provided, however, that if the occupant's behavior results in immediate termination of residency pursuant to rules approved by the city as part of the special use permit for that facility, the operator shall comply with paragraphs i though iv of this subsection (b)(6) as soon as possible.

(7) Prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall also:

i. Make available to the occupant transportation to the address listed on the occupant's driver license, state issued identification card, or the permanent address identified in the occupant's application or referral to the group home;

ii. Provided, however, that should the occupant decline transportation to his or her permanent address or otherwise has no permanent address, then the operator shall make available to the occupant transportation to another group home or residential care facility that has agreed to accept the occupant.

(8) The group home operator shall maintain records for a period of one year following eviction from or involuntary termination of residency of an occupant that document compliance with subsections (a)(6) and (a)(7) of this section; provided, however, that nothing herein shall require an operator of a group home to violate any provision of state or federal law regarding confidentiality of health care information. The group home operator may not satisfy the obligations set forth in subsection (a)(7) by providing remuneration to the occupant for the cost of transportation.

(9) All drivers of vehicles picking up or dropping off persons at a group home shall comply with all applicable provisions of this Code and the Vehicle Code, including, but not limited to, those provisions regulating licensure and parking, standing and stopping.

(10) The property must be fully in compliance with all building codes, municipal code and zoning.

(11) In addition to the regulations outlined above, the following shall also apply to sober living homes:

i. All occupants, other than the house manager, must be actively participating in legitimate recovery programs, including, but not limited to, Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rules and regulations, refusal to actively participate in such a program shall be cause for eviction.

ii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least ninety (90) days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

iii. The number of occupants subject to the sex offender registration requirements of Penal Code section 290 does not exceed the limit set forth in Penal Code section 3003.5 and does not violate the distance provisions set forth in Penal Code section 3003.

iv. The sober living home shall have a written visitation policy that shall preclude any visitors who are under the influence of any drug or alcohol.

v. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

vi. The sober living home shall not provide any of the following services as they are defined by section 10501(a)(6) of Title 9, California Code of Regulations: detoxification; educational counseling; individual or group counseling sessions; and treatment or recovery planning.

(c) An applicant may seek relief from the strict application of this section by submitting an application to the director setting forth specific reasons as to why accommodation over and above this section is necessary under state and federal laws, pursuant to Article 15 of Chapter IX of Title 13 of this Code.

(d) The operator's permit shall be issued by the director if the applicant is in compliance, or, where applicable, has agreed to comply, with the requirements of subsections (a) and (b) above.

(e) In addition to denying an application for failing to comply, or failing to agree to comply, with subsections (a) and/or (b) of this section, an operator's permit shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following circumstances:

(1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information.

(2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two (2) years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

(3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven (7) to ten (10) years, to any of the following offenses:

i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last ten (10) years);

ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven (7) years); or

iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last ten (10) years).

iv. The unlawful sale or furnishing of any controlled substances (last seven (7) years).

(4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

(5) The owner/operator accepts residents, other than a house manager, who are not disabled or handicapped as defined by the FHAA and FEHA.

(6) An operator's permit for a sober living home shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following additional circumstances:

i. The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

ii. For any other significant and/or repeated violations of this section and/or any other applicable laws and/or regulations. (Ord. No. 15-13, § 1, 11-17-15; Ord. 17-06, § 1, 5-2-17)

9-375. Transfer of operator's permit.

(a) An operator's permit shall not be valid for a location other than the property for which it is issued, unless and until the transfer of the permit is approved by the director pursuant to the requirements of section 9-374.

(b) An operator's permit may not be transferred to any other person or entity. No operator's permit issued pursuant to this article shall be transferred or assigned or authorize any person or entity other than the person or entity named in the permit to operate the group home named therein. (Ord. No. 15-13, § 1, 11-17-15)

9-376. Revocation of operator's permit.

An operator's permit may be revoked upon a hearing by the director pursuant to section 9-120 for failing to comply with the terms of the permit and/or for failing to comply with the applicable provisions of section 9-374. (Ord. No. 15-13, § 1, 11-17-15)

9-377. Reapplication after denial or revocation.

(a) An applicant for an operator's permit whose application for such an operator's permit has been denied may not reapply for such an operator's permit for a period of six (6) months from the date such notice of denial was issued.

(b) A holder of an operator's permit that has been cancelled, revoked or otherwise invalidated may not reapply for an operator's or a user's permit for a period of six (6) months from the date that such revocation, cancellation or invalidation became final. (Ord. No. 15-13, § 1, 11-17-15)

9-378. Compliance.

A group home that is subject to the provisions of this article that is in existence as of the effective date of this ordinance shall have one hundred twenty (120) days to comply with the provisions of this article. (Ord. No. 15-13, § 1, 11-17-15)

Subject: Comment re Chapter 3 of City of Costa Mesa's Draft Housing Element, 2021-2029
Attachments: Table 1 - Evolution of City's RA regulations[93].pdf

To whom it may concern:

I submit the following comment in response to Chapter 3 of the City of Costa Mesa's Public Review Draft (August 2021):

At pages 3-28 and 3-29, the Public Review Draft (August 2021) discusses the City's Reasonable Accommodation (RA) procedures as part of its discussion about removing constraints on housing for disabled persons. The City's discussion regarding its reasonable accommodation procedure is misleading. In fact, the City's RA procedures, standards and processes violate state fair housing rights. By failing to address the inadequacy of the City's RA procedures, the City's housing element fails to address the removal of constraints to housing for disabled persons.

The City has amended its RA procedures twice since 2014 for the purpose of making it impossible for any Supportive Housing for disabled persons (classified as Group Homes by the City) to obtain the protection afforded to them by federal and state fair housing laws.
In 2014, the City enacted Ordinance 14-13, which outlawed any existing or future Supportive Housing for disabled persons in the City's R-1 zoning districts unless permitted by the City. (The City extended that prohibition against Supportive Housing to its Multifamily Zoning districts the next year with the adoption of Ordinance 15-11. These regulations are codified in the City's Zoning Code Chapters XV and XVI.)

In the ***very same ordinance*** that first imposed these discriminatory zoning regulations, Ordinance 14-13, the City ***simultaneously*** amended its RA regulations, making it impossible for any Supportive Housing provider providing shelter to disabled persons to obtain relief from Ordinance 14-13's discriminatory provisions. (The City amended its RA provisions a second time in 2017.) The changes in the City's RA regulations are reflected in the attached Table 1. The City amended its RA regulations to preclude Supportive Housing for disabled persons (aka Group Homes) from obtaining any relief from the City's discriminatory zoning regulations.

The amended RA regulations had their intended effect: RA applications are determined by the City's Development Services Director. Since 2014, the Director has received nearly 50 RA applications from Supportive Housing providers seeking exception to Zoning Code Chapters XV (Ordinance 14-13) and XVI (Ordinance 15-11). From that stack, the Director has granted only two. The first was an application that he originally denied, reversing that denial only after the applicant sued the City for violation of fair housing laws. The second was styled as an RA decision, but was mislabeled since it made no actual request for an exception of any zoning regulation.

Most RA applications submitted by Supportive Housing providers (Group Homes) seek relief from the separation requirement between the applicant's location and any other facility serving or housing disabled persons. If the applicant falls short of the mandatory separation distance, then its application for an SUP or CUP is denied without exception.

The Director's determinations of 22 RA applications submitted by Supportive Housing providers subject to Zoning Code Chapter XVI (CMMC 12-323) demonstrate the violations of state fair housing laws committed by the City, an obvious constraint to housing for disabled persons not addressed in the Draft Housing Element. A copy of each Director's RA decision is attached.

In each of these RA decisions (save two), the Director uniformly imposes an unlawful standard on determining whether an RA is necessary:

> The application established that the waiver of the separation requirement would allow one or more individuals who are recovering from drug and alcohol abuse to enjoy the use of these dwellings. However, approval of the request is not necessary to allow one or more individuals who are recovering from drug and alcohol abuse to enjoy the use of a dwelling within the City.

The two exceptions are PA-16-03, which did not seek an RA and PA16-06 which failed to identify the RA requested.

Of the 20 RA applications denied by the Director, each denial was the result of City practices that violate fair housing laws. First, the City's RA regulation requires each of eight findings must be made for an RA to be granted. This requirement violates state law since it put the burden of showing no fundamental alternation on the applicant, not the City. That error, couple with the City's misapplication of the standard to show "necessity" under FEHA, are among the greatest constraints to housing for the disabled in Costa Mesa.

The City's Draft Housing Element fails to address this significant constraint on the provision of housing for persons with disabilities and reflect a failure to identify impediments to affirmatively furthering fair housing.

Sincerely,
Melissa H. Goodmon

Subject:	Comment re Chapter 3 of City of Costa Mesa's Draft Housing Element, 2021-2029
Attachments:	Group Home Activity Summary .pdf; second attachment.pdf; Third attachment.pdf

Dear Sir or Madam:

I submit the following comment in response to Chapter 3 of the City of Costa Mesa's Public Review Draft (August 2021):

At pages 3-19, the Public Review Draft (August 2021) discusses the City's definitions of Supportive Housing and Transitional Housing, definitions that the State required the City to enact. The City's discussion regarding these definitions is misleading and incomplete.

Although the City enacted these definitions, it has failed or refused to apply them to any residential use in the City in order to circumvent the state-law protective afforded Supportive Housing. Instead, the City uniformly classifies any Supportive Housing for disabled persons as a Group Home: Group Home: A facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether licensed or unlicensed) constitutes a single facility, whether the facility occupies one (1) or more dwelling units. Group homes shall not include the following: (1) residential care facilities; (2) any group home that operates as a single housekeeping unit.

Once Supportive Housing is classified by the City as a Group Home, the City then subjects the Supportive Housing to the City's discriminatory zoning regulations under Zoning Code Chapters XV and XVI. These chapters prohibit existing and future Supportive Housing in any residential district in Costa Mesa unless the Supportive Housing obtains a Special Use Permit or a Conditional Use Permit and an Operator's Permit.

While many of Costa Mesa's Supportive Housing providers have applied for SUPs or CUPs pursuant to the City's Zoning Code Chapters XV and XVI, the City has denied the vast majority of those applications. As a result, since 2014 the City has forced the closure of more than 80% of the existing Supportive Housing in Costa Mesa, a fact that the City publicizes on its public website.

I have attached pages from the City's website reflecting the effect of its discriminatory regulation of Supportive Housing. (Note: The attached webpage entitled Group Home Activity Summary indicates that the City has approved six CUPs for Supportive Housing. That statement is misleading, since five of those CUPs were issued in the 1980s and 1990s before the City enacted its discriminatory zoning requirements.)

Thank you for your consideration.

Paul

Subject:	Comment re Chapter 3 of City of Costa Mesa's Draft Housing Element, 2021-2029
Attachments:	Table 1.pdf; Table 2.pdf; Table 3.pdf

Greetings,

I submit the following comment in response to Chapter 3 of the City of Costa Mesa's Public Review Draft (August 2021):

Starting at page 3-45, the Public Review Draft (August 2021) addresses Affirmatively Furthering Fair Housing (AFFH). This section of the City's Housing Element fails to address the requirements set forth in Government Code § 65583 and disregards the City's own discriminatory housing practice reflected in its Zoning Code and its treatment of Supportive Housing for disabled persons (defined as Group Homes by the City).

The City's Draft Housing Element is grossly inadequate because it fails to address the greatest source of housing discrimination in Costa Mesa: The City of Costa Mesa itself.

Nowhere does the Draft Housing Element address the effect of the City's discriminatory zoning regulations against Group Homes (i.e., Supportive Housing for persons with disabilities.)

If Supportive Housing provides housing to persons with disabilities, then the City defines and classifies that residential use as a "Group Home":

> Group home. A facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether licensed or unlicensed) constitutes a single facility, whether the facility occupies one (1) or more dwelling units. Group homes shall not include the following: (1) residential care facilities; (2) any group home that operates as a single housekeeping unit.

The definition of Group Home includes Sober Living Homes, which are defined as:

> Sober living home means a group home for persons who are recovering from a drug and/or alcohol addiction and who are considered handicapped under state or federal law. Sober living homes shall not include the following: (1) residential care facilities; (2) any sober living home that operates as a single housekeeping unit.

Since the City's last Housing Element in 2013, the City has engaged in a pattern or practice of discrimination against Supportive Housing, specifically, Group Homes and Sober Living Homes.

Attached to this email is a chart that illustrate the effect of the City's discrimination against Group Homes. It shows that even though Group Homes make up an infinitesimal percentage of the total number of dwellings in Costa Mesa, the City's discriminatory zoning practices have further reduced the number of housing opportunities for persons with disabilities.

No new Group Homes have opened in the City since 2015 following the City adoption of Ordinance 14-13 (enacting Zoning Code Chapter XV) and Ordinance 15-11 (enacting Zoning Code Chapter XVI).

The City acknowledges in public records that as of in 2017, there were only existing 99 Group Homes in Costa Mesa, comprising 0.002% of the total number of dwellings in Costa Mesa (42,867). (See Table 1 attached to this email.)

Each of those 99 Group Homes was subject to the City's discriminatory zoning regulations under Zoning Code Chapters XV and XVI, which prohibited each of the 99 Group Homes to continue providing housing to disabled persons unless they obtained a permit.

Of the 99 Group Homes, 76 homes applied for permits pursuant to either Zoning Code Chapter XV or Chapter XVI. The others quit the process as futile in light of the City's unwavering policy of discrimination.

Of the 76 Group Homes that applied for permits pursuant to either Zoning Code Chapter XV or Chapter XVI, the City granted by 2919 only 14 permits, the remainder were denied by the City or abandoned the application process as futile. The last permit granted was in 2019; no new applications for permits have been submit because the City's policy of discrimination deters person seeking to provide Supportive Housing to persons with disabilities.

Group Homes without permits are subject to citation, criminal prosecution and civil abatement by the City. The City has aggressively cited Group Homes that provide housing to disabled persons but lack a City-issued permit. (See Tables 2 and 3 attached to his email.)

To date, the City has also sued 11 Supportive Housing providers as a "public nuisance" solely on the basis that each provides Supportive Housing to persons with disabilities but lacks a City-issued permit pursuant to Zoning Code Chapter XV or Chapter XVI.

Under the City's Zoning Code the only zoning district in which Group Homes are permit of right is the Institutional and Recreational district, which is expressly reserved for non-residential uses. (CMMC 13-30 Table: Land Use Matrix.)

The complete failure of the City's Housing Element, 2021-2029 (Public Review Draft) to discuss – let alone address -- the City's pattern or practice of zoning discrimination not only offends Government Code § 65008, but utterly fails to meeting the statutory requirements pursuant to Government Code § 65583(c)(10) regarding the City's compliance with Government Code § 8899.50(a)(1)

("affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity . . . fostering and maintaining compliance with civil rights and fair housing laws.")

Thank you for your consideration.

Jason Brewer

0Shannan
I am sending this formal compliant (attached) against the City of Costa Mesa. The City is violating California Code 65000 et.al, including 65008, 65580 and 65585
Time is of the essence. I ask you to review the attachments and that you send a cease and desist letter, similar to the one you sent to the cities of Anaheim (attached) and Encinitas earlier this year. I also request that you put a halt to the issuing of Costa Mesa's Housing Element.
I will also send you a hard copy to you at:
2020 W El Camino Ave, Suite 500 Sacramento Ca. 95833. If you have a different mailing address let me know.
Please acknowledge receipt of this email to kbrandle@yahoo.com
I appreciate you looking into this matter.

Summit Coastal Living

a sober community of living

September 20, 2021

Shannan West,

Land Use and Planning Unit Chief

Department of Housing and Community Development

2020 W El Camino Ave, Suite 500

Sacramento, CA 95833

Dear Shanna West,

I am writing you to report a violation of California's Planning and Zoning Law (Gov.Code 65000 et al) by the City of Costa Mesa. I own and operate sober living homes, located in Costa Mesa, CA. Both of the locations have approved conditional use permits. Both are similar in lot and livable square footage. Both have been approved by the city, with conditions that violate California's Planning and Zoning Law, specifically Gov. Code 65000 et.al. The property at 2041 Tustin Avenue, Costa Mesa, has conditions that are more discriminatory than the property at 165 East Wilson Street, also in Costa Mesa. I feel my property rights have been violated.

I went through a long process to be compliant with the City of Costa Mesa **(Ordinance PA-16-04)**, including multiple planning commission hearings, and appeals to the city council on the property I own at 2041 Tustin Ave, Costa Mesa. It is a legal triplex comprising of a 3 bedroom and 2, 2-bedroom apartments. A total of 7 bedrooms.

I have attached a copy of the conditions of approval for 2041 Tustin Ave, Costa Mesa, CA.

Although all of the 30 conditions treat me differently than my neighbors, I am most concerned about the following 6 conditions outlined in the **Condition of Approval Exhibit B Resolution No 18-16 pages 8-12,** which are highly discriminatory; they also violate the City's Housing element in effect at the time of approval, and I believe Fair Housing Laws.

Condition 2: ***The total number of occupants in the sober living home shall be no more than eight, plus one live-in house manager***. My neighbors, who have the same triplex units as I do, have no such restrictions placed on them and have the same number of residents as I do in some of the units. I have had 13 residents in the three unit since October, 2013. Additionally the number of residents residing in each of the three units at the property are less than the number allowed pursuant to the city of Costa Mesa's housing element.

Keith Randle
2041 Tustin Avenue, Suite A
Costa Mesa, CA 92627

949-689-8880
800-698-0835
keith@summitcoastalliving.com

Condition 7. ***All vehicles associated with the residence, including those belonging to residents and staff, shall be limited to parking on the property and /or on the street withing 500 feet of the property***. No residential property owner in Costa Mesa has such restrictions.

Condition 15: ***The applicant shall provide neighbors with the telephone number of the on-site manager or property owner, for the purpose of allowing the neighbors to lodge complaints or describe concerns about the operation of the property***. My neighbors are not required to give me their names and numbers. This is a leading statement encouraging neighbors to file complaints. By the way I have never had a complaint filed with the city or its services since operation began in 2013.

Condition 17. ***The applicant shall not allow any person or persons who is or are on any form of probation or parole to reside in or otherwise occupy the facility or property.*** Again, none of my neighbors and/or property owners in Costa Mesa have this condition on their property.

Condition 27. ***All parking spaces, including those within garages shall remain free and accessible for parking of vehicles. By December 1 of every year, the applicant shall submit written confirmation that all parking spaces on the property remain accessible for parking. This confirmation shall be accompanied by photographs that document the accessibility of each space for automobile parking.*** Again, my neighbors do not have this condition placed on their properties. My neighbors' garages are all used for personal storage. The majority do not park in their garages.

And the most discriminatory condition of all:

Condition 29. ***No more than two residents living in the facility at any one time shall have a domicile outside the state of California.*** This condition is violation of Federal and State housing Laws. I am a real estate Broker in the State of California. If I were to enforce such a condition I would be in violation of discrimination and my broker's license could be revoked and subject to litigation, not to mention my loss of livelihood for me and my family.

I am appealing to you to submit a similar letter to the City of Costa Mesa as you have this year to the Cities of Anaheim (attached) and Encinitas.

The City, like others in the area, are going through the "Housing Element" approval process. I do not see how Costa Mesa's housing element can be approved by the State when they have not been adhering to their current housing element and State laws, not to mention being in the process of renewing their Housing element. **The City of Costa Mesa is discriminating against me and my residents and treating me differently than my neighbors a violation of California's Planning and Zoning Law (Gov.Code Section 65000 et.al) prohibits jurisdictions from engaging in discriminatory land use and planning activities. Specifically, Government Code Section 65008**

I need help ASAP. There is a housing shortage and a high degree of homelessness in the state. I offer a safe and sober environment for people in recovery to better their lives.

Please direct any communication to me via email, kbrandle@yahoo.com and / or my mailing address 2100 Highland Drive, Newport Beach CA, 92660.

Please call me to discuss as time is of the essence. 949 689-8880

With kind regards,

Keith Randle

RE: City of Anaheim Approach to Community Care Facilities and Sober Living Homes – Letter of Technical Assistance

Dear Niki Wetzel:

The California Department of Housing and Community Development (HCD) has reviewed the City of Anaheim's (City's) land-use regulations set out in Municipal Code sections 18.16.058 (Community Care Facilities-Unlicensed (Small) and Sober Living Homes (Small)) and 18.38.123 (Community Care Facilities-Unlicensed and Sober Living Homes) (Municipal Code) as well as the City's proposed Zoning Code Amendment 2021-00176 (DEV2021-00027) (Zoning Code Amendment) pursuant to Government Code sections 65585 and 65008, the latter of which prohibits discrimination in land use.

In support of its review, HCD held a call with City staff on March 23, 2021, to discuss HCD's concerns that the City's Municipal Code and its proposed Zoning Code Amendment potentially conflict with statutory prohibitions on discrimination in land use (Gov. Code, § 65580) by imposing separate, more onerous requirements on housing for a protected class, limiting the use and enjoyment of their homes, and jeopardizing the financial feasibility of group homes, which the City refers to as "community care facilities-unlicensed" and "sober living homes." During the call, City staff requested a letter of technical assistance to assist and inform its City Council regarding the potential impacts their decisions have surrounding these issues. HCD provides the following technical assistance pursuant to that request.

Background Information: California's Planning and Zoning Law Prohibits Discrimination.

California's Planning and Zoning Law (Gov. Code, § 65000 et al.) prohibits jurisdictions from engaging in discriminatory land use and planning activities. Specifically, Government Code section 65008, subdivision (a), deems any action taken by a city or

county to be null and void if such action denies to an individual or group of individuals the enjoyment of residence, landownership, tenancy, or any other land use in the state due to illegal discrimination. Under the law, it is illegal to discriminate based on protected class such as race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, familial status, source of income, disability (including individuals in recovery for drug or alcohol abuse, whether or not they are actively seeking recovery assistance), veteran or military status, or genetic information.

The law further recites multiple categories of actions that are determined to be discriminatory, including:

- Enactment or administration of ordinances pursuant to any law that prohibits or discriminates against a protected class (Gov. Code, § 65008, subd. (b)(1)(B));

- Enactment or administration of ordinances pursuant to any law that prohibits or discriminates against residential developments because they are "intended for occupancy by persons and families of very low, low, or moderate income, ... or persons and families of middle income" (Gov. Code, § 65008, subds. (a)(3) and (b)(1)(C)); and

- Imposition of different requirements on a residential use by a protected class or by persons of very low, low, moderate, or middle income, other than those generally imposed upon other residential uses. (Gov. Code, § 65008, subd. (d)(2)(A).)

Proposed Zoning Code Amendment 2021-00176 (DEV2021-00027) Potentially Discriminates

Recitals in the draft Ordinance for Zoning Code Amendment 2021-00176 include statements that are potentially concerning. The recital notes "continuous resident complaints regarding quasi-residential facilities expressing concerns such as overcrowding, parking, noise, and loitering"; the need to "preserve the character of single-family residential neighborhoods"; and the desire to "provide an accommodation for disabled persons that is reasonable and actually bears some resemblance to the opportunities afforded non-disabled individuals". The proposed solution to these recited concerns is to regulate Community Care Facilities-Unlicensed and Sober Living Homes, and to require additional distancing requirements between Community Care Facilities-Unlicensed and Sober Living Homes as well as impose additional distancing requirements from residential uses that are deemed "quasi-residential". The City considers the following residential uses to be quasi-residential:

- Community Care Facilities, regardless of size, both licensed and unlicensed
- Sober Living Homes, regardless of size
- Senior Living Facilities, regardless of size
- Transitional Housing (Large)

- Supportive Housing (Large)
- Short-Term Rental Units (although these are not the subject of these regulations, their impacts are cited as part of the justification for these regulations).

The proposed Zoning Code Amendment is problematic for the following reasons:

1) These restrictions lump together various living arrangements for regulation, such as large, licensed community care facilities, with residential homes occupied by individuals or groups of individuals, based only on protected characteristic without explanation, analysis, or data to justify doing so. In fact, the only characteristic that they appear to have in common is that they are occupied by persons with disabilities, a fact that is concerning.

2) There are no similar restrictions on non-disabled persons. (Gov. Code, § 65008, subd. (d)(2)(A).)

3) Regulation of cars, traffic, noise, loitering, and overcrowding can be administered directly through the City's existing laws. This approach applies universally and does not discriminate against persons with disabilities or persons or families with very low, low, moderate, or middle household incomes.
    a. Population density can be regulated by reference to floor space and facilities.
    b. Noise and morality can be regulated by enforcement of police power ordinances and criminal statutes.
    c. Traffic and parking can be regulated by limitations on the number of cars (and applied evenly to all households) and by off-street parking requirements.[1]

4) Citywide implementation of distancing requirements threatens the capacity to facilitate a sufficient number of facilities to meet the special needs of the City's residents who require residing in Community Care Facilities and Sober Living Homes.

    Existing requirements for Sober Living and Community Care Facilities severely restrict the sites in which they can be located. However, Community Care Facilities may not be located within 300 feet of another Community Care Facility or 800 feet of a Sober Living Home. Sober Living Homes may not be located within 800 feet of another Sober Living Home. (Municipal Code § 18.38.123.020.0205.) Proposed amendments would further, substantially restrict the locations for such residences. In particular, it would extend these kinds of restrictions to preclude Sober Living and Community Care Facilities near senior living facilities, transitional housing, supportive housing, and short-term rentals.

[1] As the Supreme Court explained in *City of Santa Barbara v. Adamson* (1980) 27 Cal.3d 123, 133: "In general, zoning ordinances are much less suspect when they focus on the use than when they command inquiry into who are the users."

The draft Zoning Code Amendment cites records from the California Department of Social Services dated May 28, 2020, that "show more than 100 state-licensed community care facilities for adults and the elderly are located in the City and that the City is home to 15 licensed and/or certified alcoholism and drug abuse recovery or treatment facilities providing 205 beds." Since Anaheim's population is roughly 350,000 persons, and the City's housing element cites 26,240 persons with disabilities currently residing in the City (2011 ACS, S1810), existing facilities appear to fall short of meeting the need. The Zoning Code Amendment creates additional barriers for persons with disabilities to obtain housing.

The City should treat Group Homes as comparable to any other residence to satisfy the goal to accommodate and integrate persons with disabilities in all communities. The proposed Zoning Code Amendment is an excessive regulation that fails to achieve the expressed intent of "restrict[ing] residential zones to specified types of uses deemed compatible" or "preserv[ing] the character of single-family residential neighborhoods".

5) Transitional and supportive housing regardless of size are by law "residential uses," not quasi-residential, and may only be subject to the restrictions that apply to other residential dwellings of the same type in the same zone. (Gov. Code, § 65583, subd. (c)(3).) Under state law, for instance, if the transitional or supportive housing is located in a single-family home, the city cannot require a use permit for the transitional or supportive housing unless it also generally requires a use permit for all other single-family homes. Likewise, unless all single-family homes are subject to an operator's permit, such a permit cannot be required for transitional and supportive housing.[2]

6) Community Care Facilities and Sober Living Homes with current distancing less than the proposed requirement are "grandfathered in" only under limited circumstances.

7) Under certain circumstances, the grandfathered distancing exemption can be revoked, thus reducing the City's ability to provide much needed housing and undermining the purpose of grandfathering.

8) Persons residing in Community Care Facilities and Sober Living Homes are disabled and generally lower income. Implementing constraints to providing these types of housing opportunities could have the effect of increasing the City's homeless population and thwarting efforts to house the homeless.

---

[2] Note that some Community Care Facilities, Sober Living Homes, and Senior Living Facilities may also qualify as Transitional or Supportive Housing. The City's ordinance should recognize this and acknowledge that when they do so, the rules for transitional and supportive housing would control under Government Code section 65583.

9) The City's obligation is to provide equal opportunities in housing to persons with disabilities as are provided to those without disabilities, not to merely provide opportunities that "bear some resemblance" to the opportunities offered to non-disabled persons. (Gov. Code, § 65008, subd. (d)(2)(A).)

Existing Municipal Code Sections 18.16.058 and 18.38.123 Potentially Discriminate

HCD is concerned about Municipal Code sections 18.16.058 and 18.38.123. Although the requirements seek to address the "adverse impacts" of various group homes arrangements, these kinds of ordinances—calling out protected classes for specific regulatory action based on concerns of this nature—can result in significant barriers to housing for persons with disabilities in a way that a more generalized regulatory response, targeting actions or impacts rather than persons, would not.[3]

Existing Municipal Code is problematic for the following reasons:

1) *Municipal Code requires a discriminatory permitting process for Community Care Facilities and Sober Living Homes. (Municipal Code section 18.16.058)*

   The Municipal Code requires an onerous permit and registration process for Community Care Homes and Sober Living Homes—including registration with the Orange County Sherriff's Department and compliance with "certification" guidelines crafted for those who are being monitored through the criminal justice system. This onerous and intrusive permit process is not applied in a non-discriminatory manner to all residential uses, and, as such, is a violation of Government Code section 65008, subdivision (d)(2). The City should treat Community Care Facilities and Sober Living Homes as comparable to any other residence to satisfy the goal to accommodate and integrate persons with disabilities in all communities. The Fair Housing Act (FHA) also prohibits the enforcement of zoning ordinances and local housing policies in a manner that denies people with disabilities access to housing on par with that of those who are not disabled.[4] Government Code section 65008, subdivision (d)(2)(A), prohibits imposition of different requirements on a residence intended for occupancy by a protected class or by persons of very low, low, moderate, or middle income, other than those generally imposed upon other residences.

[3] See, e.g., Brian J. Connolly and Dwight H. Merrian, Planning and Zoning for Group Homes: Local Government Obligations.

[4] See, e.g., United States Department of Justice and United States Department of Housing and Urban Development, Joint Statement: Local Land Use Laws and Practices and the Application of the Fair Housing Act (November 10, 2016) ("Joint Statement"), p. 4 ("A land use or zoning practice may be discriminatory on its face. For example, a law that requires persons with disabilities to request permits to live in single-family zones while not requiring persons without disabilities to request such permits violates the Fair Housing Act because it treats persons with disabilities differently based on their disability"); see also *Oconomowoc Residential Programs, Inc. v. City of Milwaukee* (7th Cir. 2002) 300 F.3d 775, 783.

2) *The Municipal Code applies to both existing and future Community Care Facilities and Sober Living Homes. (Municipal Code section 18.16.058.040.090)*

The Municipal Code requires facilities existing prior to the effective date of regulations to apply for the Operator's Registration or Operator's Permit within 180 days of the effective date of the regulations. It is questionable whether the retroactive application of the ordinance in this manner is constitutional. The courts have instructed, "If the law effects an unreasonable, oppressive, or unwarranted interference with an existing use, or a planned use for which a substantial investment in development costs has been made, the ordinance may be invalid as applied to that property unless compensation is paid"[5] and "The rights of users of property as those rights existed at the time of adoption of a zoning ordinance are well recognized and have always been protected."[6] For this reason, zoning ordinances typically exempt existing uses from new zoning regulations.

3) *The Municipal Code requires a 24-hour house manager. (Municipal Code section 18.38.123.020.0203)*

The Municipal Code requires Community Care Facilities and Sober Living Homes to have a house manager reside on site or any number of persons acting as a house manager who are present at the facility on a 24-hour basis or who will be available 24-hours per day, seven days per week to physically respond within 45 minutes. Residents are frequently persons of very low- or low-income and are disabled. The house manager requirement creates a financial hardship on the residents as the additional costs create an additional expense for the residents.

The requirement to have a house manager effectively mandates an "institutional" arrangement that is not "on par with" housing policies for those who are not disabled in conflict with the FHA.[7] It is hugely intrusive in that it interferes with the residents' freedom to live with persons of their choice, and adds significant additional expense, both problematic under notions of fair housing. (Gov. Code, § 65008.)

4) *The Municipal Code limits occupancy to residents who are handicapped. (Municipal Code section 18.16.058.040.0401.02)*

Under the Municipal Code, an Operator's Registration and an Operator's Permit application shall be denied or revoked for multiple reasons, including accepting residents, other than a housing manager or staff, who are not handicapped as defined in the FHA and FEHA.

---

[5] *Hansen Brothers Enterprises, Inc. v. Board of Supervisors* (1996) 12 Cal.4th 533, 551-552.
[6] *Edmonds v. Los Angeles County* (1953) 40 Cal.2d 642, 651.
[7] *Oconomowoc Residential Programs, supra,* 300 F.3d at p. 783.

In limiting residence in this way, the Municipal Code impermissibly discriminates on the bases of familial status. (See Gov. Code, § 12955, subd. (l).) The Municipal Code prohibits any residents that are not "handicapped," which means that Community Care Facilities and Sober Living Homes designed for families are effectively prohibited in the City because these requirements would prevent families, including non-disabled spouses and small children, from residing in the residence. In the context of a Sober Living Home, this prohibition would also effectively preclude sober living arrangements for nursing mothers, mothers of infants or small children, and parents endeavoring to reunify with children after recovery. This restriction effectively mandates an "institutional" arrangement that is not "on par with" housing policies for those who are not disabled in conflict with the FHA.[8]

5) *Sober Living Homes require residents to be actively participating in legitimate recovery program. (Municipal Code sections 18.16.058.040.0401.04 and 18.38.123.020.0210.01)*

The Municipal Code contains a requirement for active participation of all residents in a legitimate recovery program located off-site and cites an Operator's Registration and an Operator's Permit application shall be denied or revoked for failing to take measures to remove any resident of a Sober Living Home who is not actively participating in a legitimate recovery program from contact with all other sober residents.

Disability rights laws apply not only to individuals with histories of drug addiction or alcoholism who are currently participating in recovery programs, but also those who have completed those programs or who are "erroneously regarded as using drugs when in fact they are not."[9] Additionally, state or local zoning and land use ordinances may not, consistent with the FHA, require individuals with disabilities to receive medical, support, or other services or supervision that they do not need or want as a condition for allowing a group home to operate.[10]

By precluding persons who are not currently participating in established recovery programs, the Municipal Code discriminates based upon disability. Further, the enforcement of such a provision may unconstitutionally intrude into the privacy interests of disabled persons if it forces residents to provide records to the City as part of its land-use enforcement efforts.[11]

---

[8] *Oconomowoc Residential Programs, supra,* 300 F.3d at p. 783.
[9] *Hernandez v. Hughes Missile System Co.* (9th Cir. 2004) 362 F.3d 564, 568.
[10] Joint Statement, supra note 4, p. 13.
[11] See, e.g., Cal. Const. art. 1,§ 1.

6) *Other regulations imposing different requirements on Community Care Facilities and Sober Living Homes than are imposed on other residential uses.*

- All facilities shall have a good neighbor policy, which directs residents to be considerate of neighbors, including refraining from engaging in excessively loud, profane, or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. (Municipal Code § 18.38.123.020.0209.03)
- All garages, driveways, and/or assigned parking spaces associated with the facility shall be available for the parking of vehicles at all times. (Municipal Code § 18.38.123.020.0204.01)
- The facility shall not be located in an Accessory Dwelling Unit unless the primary dwelling unit is used for the same purpose. Residents of all units on a parcel will be combined to determine the total number of residents. (Municipal Code § 18.38.123.0201 and 0202)
- Existing, as well as proposed separation requirements. Existing requirements state Sober Living Homes shall not be located within 800 feet of other Sober Living Homes or Alcoholism or Drug Abuse Recovery or Treatment Facilities. Proposed amendments are address earlier in this correspondence. (Municipal Code § 18.38.123.020.0205)

None of the requirements outlined above apply universally to all residential uses in the City. The requirements were crafted explicitly to target a specific population—persons with disabilities and most likely persons with low-incomes. These populations are legally protected from such actions.

7) *Other regulations imposing different requirements on Sober Living Homes than are imposed on other residential uses.*

- A Sober Living Home shall have a visitation policy that precludes any visitors who are under the influence of any drug or alcohol. (Municipal Code § 18.38.123.020.0210.02)
- A Sober Living Home shall have a controlled substance policy, which, at a minimum, states the prohibition of the use of any alcohol or any non-prescription drugs at the facility or by any resident either on- or off-site. (Municipal Code § 18.38.123.020.0210.03)

None of the requirements outlined above apply universally to all residential uses in the City. The requirements were crafted explicitly to target a specific population – persons with disabilities and most likely persons with low-incomes. These populations are legally protected from such actions.

Community Care Facilities and Sober Living Home requirements may conflict with housing element policies and programs

HCD reminds the City that its decisions and actions must align with, and not contradict, the policies, principles, and strategies included in its current 5th cycle housing element. Community Care Facilities and Sober Living Home requirements may conflict with or fail to implement multiple provisions of the City's general plan housing element, including:

- Policy Consideration 5.0: Affordable Housing Opportunities for Anaheim Residents
- Policy Consideration 7.0: Housing Availability and Affordability
- Guiding Principle B: The availability of a range of housing choices for a variety of incomes in Anaheim contributes to a balanced community and community investment.
- Guiding Principle C: Persons with special housing needs should have access to a variety of housing choices that are integrated within the community.
- Housing Production Strategy 1D: Encourage the Development of Housing for Extremely-Low-Income Households
- Housing Production Strategy 1E: Encourage the Development of Housing for Special Needs Households
- Housing Quality and Design Strategy 3B: Monitoring of Adopted Reasonable Accommodation Procedures
- Affordable Housing Opportunity Strategy 5A: Local Support of Regional Fair Housing Efforts

Additionally, HCD reminds the City that its housing element update for the 6th cycle planning period is due October 15, 2021. While multiple laws require the element to analyze and include programs to mitigate potential governmental constraints, including constraints for persons with disabilities (Gov. Code § 65583, subds. (c)(3), (c)(5), (a)(5), and (a)(7)), new requirements surrounding the City's obligation to affirmatively further fair housing (Gov. Code § 65583, subd. (c)(10)) also apply. Implementation of discriminatory regulations not only violates Housing Element Law, it fails to allow the City to meet its obligation to affirmatively further fair housing pursuant to Government Code section 8899.50.

Conclusion

HCD reminds the City that California is experiencing a severe housing crisis and the availability of housing affordable to all income levels is of vital statewide importance. (Gov. Code § 65580.)

HCD has reviewed the City's municipal code and proposed amendments under Government Code section 65585. HCD's authority pursuant to Government Code

section 65585 extends to statutory prohibitions on discrimination in land use (Gov. Code, § 65008). HCD has found that the City's municipal code potentially discriminates against persons in protected classes and that adoption of Zoning Code Amendment No. 2021-00176 (DEV2021-0027) would amplify HCD's concerns. HCD recommends the City reject the Zoning Code Amendment and amend its current municipal code to ensure it adheres to the nondiscrimination requirements in Government Code section 65008.

Thank you for reaching out to HCD for this guidance. For technical assistance regarding the City's 6th cycle housing element update, please contact Marisa Prasse at Marisa.Prasse@hcd.ca.gov. If you have any questions or would like to discuss the content of this letter, please contact Robin Huntley at Robin.Huntley@hcd.ca.gov.

Sincerely,

Shannan West
Land Use & Planning Unit Chief

RESOLUTION NO. 18-16

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA REVERSING THE DECISION OF THE PLANNING COMMISSION AND APPROVING CONDITIONAL USE PERMIT PA-16-04 FOR A SOBER LIVING FACILITY OPERATED BY SUMMIT COASTAL LIVING HOUSING NINE OCCUPANTS (INCLUDING ONE LIVE-IN HOUSE MANAGER) WITHIN THREE EXISTING UNITS AT 2041 TUSTIN STREET

THE CITY COUNCIL OF THE CITY OF COSTA MESA HEREBY RESOLVES AS FOLLOWS:

WHEREAS, an application was filed by Summit Coastal Living with respect to the real property located at 2041 Tustin Avenue; and

WHEREAS, the application submitted to the City consists of a Conditional Use Permit to allow the subject sober living facility to serve up to 12 residents and one house manager within three existing units; and

WHEREAS, the City of Costa Mesa recognizes that while not in character with residential neighborhoods, when operated responsibly, group homes, including sober living homes, provide a societal benefit by providing disabled persons, as defined by state and federal law, the opportunity to live in residential neighborhoods, as well as providing recovery programs for individuals attempting to overcome their drug and alcohol addictions; therefore, providing greater access to residential zones to group homes, including sober living homes, than to boardinghouses or any other type of group living provides a benefit to the City and its residents; and

WHEREAS, the City of Costa Mesa has adopted standards for the operation of group homes, residential care facilities and state licensed drug and alcohol facilities that are intended to provide opportunities for disabled persons, as defined by state and federal law, to enjoy comfortable accommodations in a residential setting; and

WHEREAS, the City of Costa Mesa has found that congregating sober living homes in close proximity to each other does not provide disabled persons, as defined in state and federal law, with an opportunity to "live in normal residential surroundings," but rather places them into living environments bearing more in common with the types of institutional/campus/dormitory living that the FEHA and FHAA were designed to provide

relief from for the disabled, and which no reasonable person could contend provides a life in a normal residential surrounding; and

WHEREAS, the City of Costa Mesa has determined that a separation requirement for such facilities will still allow for a reasonable market for the purchase and operation of sober living homes within the City and still result in preferential treatment for sober living homes in that non-disabled individuals in a similar living situation (i.e., in boardinghouse-style residences) have fewer housing opportunities than disabled persons; and

WHEREAS, the City of Costa Mesa has determined that a group home, sober living home or state licensed drug and alcohol treatment facility shall be operated on a single parcel of land; and

WHEREAS, the project has been reviewed for compliance with the California Environmental Quality Act (CEQA), the CEQA Guidelines, and the City of Costa Mesa Environmental Guidelines, and has been found to be categorically exempt from CEQA under Section 15301 (Existing Facilities); and

WHEREAS, the CEQA categorical exemption for this project reflects the independent judgment of the City of Costa Mesa; and

WHEREAS, the conditional use permit application was processed in the time and manner prescribed by federal, state and local laws; and

WHEREAS, on August 28, 2017 the Planning Commission conducted a duly noticed public hearing, at which time interested persons had an opportunity to testify either in support of or in opposition to the application, and determined by a 4-1 vote to deny the Application; and

WHEREAS, the Planning Commission voted 5-0 at its meeting of September 11, 2017, to adopt Resolution PC-17-32 denying this application; and

WHEREAS, the Applicant appealed the decision of the Planning Commission in a timely manner; and

WHEREAS, a duly noticed public hearing was held by the City Council on March 20, 2018, with all persons having the opportunity to speak for and against the proposal, at which time the Council voted 3-2 to approve the Application; and

WHEREAS, at the public hearing held by the City Council on March 20, 2018, the applicant expressly agreed to be bound by all of the conditions of approval set forth herein, including, but not limited to numbers 17, 28, 29 and 30 as set forth in Exhibit B hereto; and

WHEREAS, the resolution memorializing the City Council's decision on March 20, 2018 to approve the application was placed on the agenda for City Council meeting of April 3, 2018; and

WHEREAS, at its meeting of April 3, 2018, based on issues raised during public testimony, the City Council directed that a new public hearing should be held by the City Council to determine if the application should be approved or denied; and

WHEREAS, a duly noticed public hearing was held by the City Council on June 5, 2018, with all persons having the opportunity to speak for and against the proposal.

BE IT RESOLVED, therefore, that based on the evidence in the record, the applicant's agreement to be bound by the conditions of approval and the findings contained in this resolution, the City Council hereby **REVERSES THE PLANNING'S COMMISSION'S DENIAL** and **APPROVES** Conditional Use Permit PA-16-04.

BE IT FURTHER RESOLVED that if any section, division, sentence, clause, phrase or portion of this resolution, or the documents in the record in support of this resolution, are for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining provisions.

PASSED AND ADOPTED this 5th day of June, 2018.

Sandra L. Genis, Mayor

ATTEST:

Brenda Green, City Clerk

APPROVED AS TO FORM:

Thomas Duarte, City Attorney

STATE OF CALIFORNIA)
COUNTY OF ORANGE) ss
CITY OF COSTA MESA)

I, BRENDA GREEN, City Clerk of the City of Costa Mesa, DO HEREBY CERTIFY that the above and foregoing is the original of Resolution No. 18-16 and was duly passed and adopted by the City Council of the City of Costa Mesa at a regular meeting held on the 5th day of June, 2018, by the following roll call vote, to wit:

AYES: COUNCIL MEMBERS: Righeimer, Stephens, Mansoor, and Genis.

NOES: COUNCIL MEMBERS: Foley

ABSENT: COUNCIL MEMBERS: None

IN WITNESS WHEREOF, I have hereby set my hand and affixed the seal of the City of Costa Mesa this 6th day of June, 2018.

Brenda Green, City Clerk

EXHIBIT A

FINDINGS (APPROVAL)

A. The information presented substantially complies with Costa Mesa Municipal Code Section 13-29(g)(2) in that:

Finding: The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

Facts in Support of Findings: A sober living home is a supportive living environment for persons who are recovering from drug and/or alcohol addiction. The subject property is not within 650 feet of any other sober living home or state licensed drug and alcohol facility that is currently permitted pursuant to City of Costa Mesa land use requirements. This separation distance helps to preserve the residential character of neighborhoods and facilitates General Plan Land Use Element Goal LU-1F.1 and Housing Element Goal HOU-1.2 in that it protects existing stabilized residential neighborhoods from the encroachment of incompatible or potentially disruptive land uses and/or activities. The configuration of the buildings and the site's proximity to an alley on the easterly property line help minimize potential impacts.

The sober living home has operated at this location for more than five years. During that time, the City has received no complaints regarding the operation of the facility from surrounding residents. The facility has generated few requests for emergency services, and no requests for Code Enforcement action. The property is well maintained. The applicant has operated this facility in a manner that does not conflict with the residential character of the neighborhood. There is adequate space to accommodate vehicles belonging to the occupants on the driveway and on the street.

Finding: Granting the conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

Facts in Support of Findings: As part of the application process, the sober living operator was required to Live Scan all owners/operators who have contact with residents and house managers. Additionally, the sober living operator submitted a copy of the House Rules, Relapse Policy and all forms distributed to residents. These documents demonstrate that the facility will be operated in a manner consistent with the provisions of the Costa Mesa Municipal Code. There have not been any code enforcement complaints since Summit Coast Living began operating at the property more than five years ago. Further, the facility has not generated an extraordinary number of calls for emergency services which would place an unreasonable burden on City services.

The Costa Mesa Municipal Code and the conditions of approval require the owner to operate the facility in a manner that will allow the quiet enjoyment of the surrounding neighborhood. Existing mature landscaping, fences and an adjacent alley provide a buffer from adjacent properties and the adjoining street and sidewalk, helping to minimize impacts to the surrounding neighborhood. The owner will provide his name and phone number to neighbors so they may contact him if there are any concerns regarding operation of the facility. The sober living home is subject to a City inspection of the interior and/or exterior of the facility to verify that the approved use has not been altered and that the property complies with all applicable code(s) upon 24-hour written notice.

The operator is an active member of The Sober Living Network, a non-profit organization that sets the most comprehensive standards for sober living homes in the nation. This organization conducts annual inspections to insure member facilities are in compliance. The standards promulgated by this organization can be found at www.soberhousing.net. These standards reinforce the City's regulations.

The facility will house up to eight residents and one house manager (as conditioned) in three existing units. Combined, these units feature seven bedrooms and four bathrooms. There are also three kitchens, three indoor living areas, and distinct outdoor living areas. The project provides seven parking spaces, and there are additional parking spaces available in the driveway should they be needed by residents. The proposed occupancy of the facility is reasonable. The owner has demonstrated an ability to operate the facility in a manner that is compatible with the neighborhood.

Finding: Granting the conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

Facts in Support of Findings: The use is consistent with Housing Element Goal HOU-1.8 of the General Plan, which encourages the development of housing that fulfills specialized needs by providing living opportunities for disabled individuals. The facility provides an accommodation for the disabled that is reasonable and actually resembles the opportunities afforded non-disabled individuals to use and enjoy a dwelling unit in a residential neighborhood. The facility offers a comfortable living environment that will enhance opportunities for the disabled, including recovering addicts, to be successful in their programs.

The subject property contains three existing units on a legal non-conforming site. The proposed use is consistent with the general plan designation.

B. The project has been reviewed for compliance with the California Environmental Quality Act (CEQA), the CEQA Guidelines, and the City's environmental procedures. The project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) under Section 15301 for Existing Facilities.

C. The project is exempt from Chapter XII, Article 3 Transportation System Management, of Title 13 of the Costa Mesa Municipal Code.

EXHIBIT B

CONDITIONS OF APPROVAL

Plng. 1. Once issued by the City, the owner shall maintain in good standing, an operator's permit as required by Article 23, Chapter 2 of Title 9 of the Costa Mesa Municipal Code.

2. The total number of occupants in the sober living home shall be no more than eight, plus one live-in house manager.

3. The use shall be limited to the type of operation described in the staff report and applicant's project description submitted with the application on January 4, 2016, and these conditions. Any change in the operational characteristics including, but not limited to, home rules and regulations, intake procedures or relapse policy, shall be subject to Community Improvement Division review and may require an amendment to the conditional use permit, subject to either Zoning Administrator or Planning Commission approval, depending on the nature of the proposed change. The applicant is reminded that Code allows the Planning Commission to modify or revoke any planning application based on findings related to public nuisance and/or noncompliance with conditions of approval [Title 13, Section 13-29(o)].

4. Applicant shall defend, with the attorney of City choosing, and shall indemnify and hold harmless the City, its officials and employees, against all legal actions filed challenging City's approval of the applicant's project and/or challenging any related City actions supporting the approval.

5. A copy of the conditions of approval for the conditional use permit must be kept on premises and presented to any authorized City official upon request during normal business hours (9:00 a.m. to 5:00 p.m., Monday through Saturday).

6. The project is subject to compliance with all applicable federal, state, and local laws.

7. All vehicles associated with the residence, including those belonging to residents and staff, shall be limited to parking on the property and/or on the street within 500 feet of the property.

8. It shall be the applicant's responsibility to maintain current information on file with the City regarding the name, address and telephone number of the property manager and/or owner.

9. The property shall be maintained in accordance with landscape maintenance requirements contained in Costa Mesa Municipal Code Section 13-108.

10. Each dwelling unit shall be limited to one mailbox and one meter for each utility.

11. The facility shall operate at all times in a manner that will allow the quiet enjoyment of the surrounding neighborhood consistent with Title 20 of the Costa Mesa Municipal Code. The applicant and/or manager shall institute whatever measures are necessary to comply with this requirement.

12. If any building alterations are proposed, the applicant shall comply with requirements of the California Building Code as to design and construction.

13. The applicant shall obtain a fire clearance from the Costa Mesa Fire Department pursuant to the requirements of the current version of the California Fire Code within 30 days of the date of approval of the Permit.

14. The applicant shall obtain a business license from the Costa Mesa Finance Department within 30 days of the date of approval of this Permit, and shall renew the license as required by the Costa Mesa Municipal Code.

15. The applicant shall provide neighbors with the telephone number of the on-site manager and/or property owner, for the purposes of allowing neighbors to lodge complaints or describe concerns about the operation of the facility.

16. The sober living home shall not provide any of the following services as they are defined by Section 10501 (a)(6) of Title 9, California Code of Regulations: detoxification; education counseling; individual or group counseling sessions; and treatment recovery or planning.

CID 17. The applicant shall not allow any person or persons who is or are on any form of probation or parole to reside in or otherwise occupy the facility or property, including, but not limited to those subject to Health & Safety Code section 11590 et seq. (Registration of Controlled Substance Offenders) and/or Penal Code section 290 et seq. (Sex Offender Registration Act).

18. The applicant shall comply with any and all water conservations measures adopted by the Mesa Water District that apply to multi-family residences and/or properties.

19. The applicant shall post a copy of the Good Neighbor Policy in at least one highly visible location inside each unit and in at least one highly visible location in all side and rear yards.

20. The applicant shall ensure that no trash and debris generated by tenants is deposited onto the City's rights of way pursuant to Section 8-32 of the Costa Mesa Municipal Code.

21. All drivers of vehicles at the group home shall comply with all applicable provisions of the Vehicle Code, including but not limited to those provisions regulating licensure, parking, standing and stopping.

22. The applicant shall comply with reservation procedures implemented by the City's Parks and Community Services Department to reserve park shelters or picnic areas for special events.

23. This CUP is subject to review if the applicant fails to comply with any of the conditions of approval listed in this resolution and/or the facility creates an excessive amount of calls for City services.

24. At least 48 hours prior to an occupant's eviction from or involuntary termination of residency in this group home, the operator thereof shall:

    a. Notify the person designated as the occupant's emergency contact or contact of record that the occupant is no longer a resident at the home;
    b. Contact the Orange County Health Care Agency OC Links Referral Line and/or another entity designated by the City to determine the services available to the occupant, including but not limited to, alcohol and drug inpatient and outpatient treatment;
    c. Notify the city's Network for Homeless Solutions that an occupant is no longer a resident at the home, and determine the services available therefrom;
    d. Provide the information obtained from b. and c. and any other treatment provider or service to the occupant prior to his or her release on a form provided by the City and obtain the occupant's signed acknowledgement thereon;

    If the occupant's behavior results in immediate termination of residency pursuant to rules approved by the City as part of the Operator's Permit for this facility, the operator shall comply with this condition prior to evicting the resident.

25. Prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall make available to the occupant transportation to the address listed on the occupant's driver license, state issued identification card, or the permanent address identified in the occupant's application or referral to the group home. Should the occupant decline transportation to his or her permanent address or otherwise has no permanent address, then the operator shall make available to the occupant transportation to another group home or residential care facility that has agreed to accept the occupant. The group home operator may not satisfy this obligation by providing remuneration to the occupant for the cost of transportation.

26. The group home operator shall maintain records for a period of one year following eviction from or involuntary termination of residency of an occupant that document compliance with Conditions 24 and 25; provided, however, that nothing herein shall require an operator of a group home to violate any provision of state or federal law regarding confidentiality of health care information.

27. All parking spaces, including those within garages, shall remain free and accessible for parking of vehicles. By December 1 of every year, the applicant shall submit written confirmation that all parking spaces on the property remain accessible for parking. This confirmation shall be accompanied by photographs that document the accessibility of each space for automobile parking.

28. An authorized representative(s) of the City shall be allowed to inspect the interior and exterior of the property during normal business hours (9:00 a.m. to 5:00 p.m., Monday through Friday) provided the operator has received notice of said inspection at least 24 hours in advance.

29. No more than two residents living in the facility at any one time shall have a domicile outside the State of California.

30. This Conditional Use Permit shall expire and become null and void if the property is sold, transferred or the ownership, control and/or operation of the property otherwise changes in any manner whatsoever from that set forth in application number PA-16-04.

CODE REQUIREMENTS

Ping. 1. The use shall comply with all requirements of Chapter XVI of the Costa Mesa Municipal Code relating to development standards for sober living homes in multi-family residential zones.

Bldg. 2. Prior to making alterations to the property and throughout construction, the applicant shall comply with the requirements of the applicable adopted California Building Code, California Electrical Code, California Mechanical Code, California Plumbing Code, California Green Building Standards Code and California Energy Code and the California Code of Regulations, also known as the California Building Standards Code, as amended by the City of Costa Mesa.

Subject: Conditional Use Permit PA-16-04 for 2041 Tustin Avenue, Costa Mesa

Dear Mr. Randle:

At its meeting of June 5, 2018, the Costa Mesa City Council adopted Resolution No. 18-16 approving Conditional Use Permit PA-16-04. A copy of this resolution is enclosed for reference. This resolution contains numerous conditions of approval. Condition No. 1 requires you to obtain an Operator's Permit and maintain that permit in good standing. Two conditions were to be satisfied within 30 days of approval (by July 5, 2018):

13. The applicant shall obtain a fire clearance from the Costa Mesa Fire Department pursuant to the requirements of the current version of the California Fire Code within 30 days of the date of approval of the Permit.

14. The applicant shall obtain a business license from the Costa Mesa Finance Department within 30 days of the date of approval of this Permit, and shall renew the license as required by the Costa Mesa Municipal Code.

On July 2, 2018, you submitted a request via e-mail to extend the timeframe to comply with these conditions by 30 days. On July 3, 2018, after consulting with City staff, I sent an e-mail granting an extension of ten days to satisfy these conditions. Compliance with these conditions of approval was required by July 16, 2018.

To date, the City has not received any evidence that you have satisfied these conditions of approval. Please contact Jennifer Le, Assistant Director of Development Services, by Monday, July 30, 2018 regarding your intent to implement this conditional use permit. You may reach Ms. Le at 949-754-5617 or via e-mail at jennifer.le@costamesaca.gov. Please be advised that failure to comply with these conditions of approval within the specified timeframe may result in revocation of this Conditional Use Permit. The City may also initiate actions to close this sober living facility if it continues to operate without required city approvals.

Sincerely,

Sheri Vander Dussen

Keith,

please see the attached notice from Sheri Vander Dussen. We have not heard back from you regarding the remaining to-do items on your Conditional Use permit. Please contact Jennifer Le at (714) 754-5617 regarding your intent to implement conditional use permit #PA-16-04. To setup a fire inspection, please contact Jon Neal at (714) 754- 5049 and to obtain a business license please visit City hall at 77 Fair drive on the 1st floor. If the City does not hear back from you within seven (7) business days, I will have to hand the matter over to code staff for enforcement of City regulations.

Thank you,

Subject: PA-16-04; Approval of a Purported Sober Living Home at 2041 Tustin Avenue

Dear Keith,

In response to a recent inquiry of yours regarding the Operator's Permit for your facility at 2041 Tustin Avenue, our staff searched City records. As a result, we have determined that the City never did issue an Operator's Permit for this facility.

You may recall that on June 5, 2018, the City Council adopted Resolution No. 18-16 approving your Conditional Use Permit (CUP) application. A copy of this resolution was transmitted to you by the City Clerk on June 15, 2018. The Council reversed a prior decision of the Planning Commission to deny your CUP. Resolution No. 18-16 includes 30 conditions of approval.

During the search for your Operator's Permit, I discovered that I sent you a letter on July 20, 2018 asking you to contact Jennifer Le, then Assistant Director of Development Services, regarding your intent to comply with two conditions of approval that were supposed to be satisfied within 30 days. On August 7, 2018, Fidel Gamboa, Community Improvement Manager, sent an email to you, reminding you of the need to contact Ms. Le regarding compliance with your conditions. The City does not have a record of your response to either of these communications.

After reviewing the City's records, I have determined that the City has no evidence of your compliance with the following conditions of approval:

Condition 1: Once issued by the City, the owner shall maintain in good standing, an operator's permit as required by Article 23, Chapter 2 of Title 9 of the Costa Mesa Municipal Code.

An Operator's Permit was never issued.

Condition 2: The total number of occupants in the sober living home shall be no more than eight, plus one live-in house manager.

Your application requested approval to serve 13 men, plus one house manager. There is no documentation in the City's records that you reduced the occupancy of this facility.

Condition 13: The applicant shall obtain a fire clearance from the Costa Mesa Fire Department pursuant to the requirements of the current version of the California Fire Code within 30 days of the date of approval of the permit.

The Fire Department has no record of you requesting this required inspection.

Condition 14: The applicant shall obtain a business license from the Costa Mesa Finance Department within 30 days of the date of approval of this Permit, and shall renew the license as required by the Costa Mesa Municipal Code.

The Finance Department indicates that no business license was ever issued.

Condition 27: All parking spaces, including those within garages, shall remain free and accessible for parking of vehicles. By December 1 of every year, the applicant shall submit written confirmation that all parking spaces on the property remain accessible for parking. This confirmation shall be accompanied by photographs that document the accessibility of each space for automotive parking.

The City's records do not include the required documentation that parking spaces remain free and clear for parking of vehicles associated with the group home.

In order to comply with the terms of the CUP, please take the following steps immediately.

1. Submit a new application for the Operator's Permit. I have attached a copy of the application. A new application will ensure that all information is current since the original application was filed in 2016. (There will be no fee to process this application.) If you believe your current house manager already passed the City's live scan background check, we would be happy to confirm that once the Operator's Permit application has been submitted. Please submit this application directly to me.
2. Contact the Fire Department to schedule the required fire inspection. You may reach our Fire Marshal, Jon Neal, at 714-754-5409.
3. Contact Fidel Gamboa, Community Improvement Manager, at 714-754-5625 to arrange an inspection of the property to confirm that the number of residents and beds has been reduced to eight, as required by the City Council. This inspection will also confirm that all required parking spaces remain accessible for parking.
4. Apply for and obtain a Business License. Please note you will be required to remit back taxes and penalties since you have been operating without a business license for three years.

Condition 23 states, "This CUP is subject to review if the applicant fails to comply with any of the conditions of approval listed in this resolution and/or the facility creates an excessive amount of calls for City services." Failure to comply with the steps outlined above within 30 days will result in enforcement action by the City, which may ultimately lead to a public hearing to consider revoking the CUP that allows operation of the group home at this location.

If you have any questions regarding the actions necessary to demonstrate compliance with Resolution No. 18-16, please feel free to contact me at 714-754-5278 or via email at sheri.vanderdussen@costamesaca.gov.

Regards,

Sheri Vander Dussen
Interim Assistant Director

a sober community of living

2041 Tustin Ave A, B and C. Costa Mesa Ca. 92627

Synopsis

The above referenced property was built in 1969 as a legal Triplex. It is located in the City of Costa Mesa. It sits on a 9629 sq ft lot and is 3312 sq ft of livable sq footage. The configuration is as follows.

One 3 Bedroom, 2 bathrooms detached home plus two 2-bedroom, 1 bathroom apartment style units in the rear of the property. Each unit has a functioning kitchen. There are a total of 4 enclosed garages. There is additional off street / driveway parking for approx. 10 additional cars. There are a total of 3 laundry areas. Units A & B have large enclosed yards, while unit C has a large 2nd story open deck which is approx. 440 sq ft. Each unit has its own mail box, electric and gas meter, there is a common water meter.

Unit A houses 5 residents, Unit B houses 4 residents, unit C houses 4 residents, a total of 13 residents since 2013. Per the city of Costa Mesa's housing element at the time of application and approval, I would be able to house 4.5 residents in each of the 2-bedroom homes and 6 residents in the 3-bedroom home. A total of 15 residents

The surrounding properties are multi family dwelling, condominiums and single-family homes. My Triplex is of the same configuration as approx. 20 of my immediate neighbors.

The Triplex directly behind me is identical in configuration and for the past 4-5 years has also houses a total of 13 residents.

I have owned the property since February 2006. In October on 2013, seeing a need for quality sober housing in the area, I starting renting homes out to sober male residents. Being a real estate Broker and property manager for this property (plus others that I own in Costa Mesa) the transition was seamless. **I offer no services other than housing.** My homes are fully furnished and I operate on a 30-day month to month lease agreement.

The City nor any of my neighbors knew the residents of this property were sober until I made application for a conditional use permit (CUP) in 2016, based on the City of Costa Mesa's Ordinance PA -16-04. This ordinance was enacted by Costa Mesa to limit the number of sober living homes to one home within a 650-foot radius and the number of occupants per home to 6 residents. I was the first to make application for two properties that I own and rent as sober housing. The other property is located one mile away at 165 East Wilson Street, Costa Mesa. The city put added pressure on the existing sober living homes by stating that the order one's application was received, was the order the application was reviewed.

Keith Randle
2041 Tustin Avenue, Suite A
Costa Mesa, CA 92627

949-689-8880
800-698-0835
keith@summitcoastalliving.com

I had the first, 165 E Wilson and second, 2041 Tustin Ave applications submitted per the City's Ordinance. I believe there were approx. 20 plus applications submitted pursuant to Ordinance PA-16-04. To the best of my knowledge my two properties were the only applications approved in the past 5 years. All the other applications were denied at the planning commission level and again on appeal to the City Council. Reasonably accommodation was applied for but denied in all cases

It is interesting to note that the approval of 165 E. Wilson Street eliminated 6 other sober living homes within the 650-foot radius. About 2 years later when 2041 Tustin Ave was approved it had different conditions attached to the approval (see attached conditions of approval). I argued at the appeals that the two properties were very similar in their configuration. I believe to this day the city had no intentions of approving 2041 Tustin Ave. I believe it was the city's intent to use the ordinance to totally eliminate sober housing within the city. They were hoping that I would just go away. As time went on and I became more educated on federal law and state code (65000 et.al) and more importantly the Housing Elements, I became more and more determined to fight for my property legal rights.

The process became very contentious and political. The city kept making changes to the original application and it took about 8-12 months to actually have a hearing at the Planning Commission. During this time, the city saw they were over their head with the ordinance, so they hired an outside consulting firm, Kimley-Horn, to manage the process and to write the staff reports. The Lead Consultant was Sheri Vander Dussen. The consultant's report either denied or recommended that and application move forward to the planning commission hearing. There was a total of 6 staff reports written for 2041 Tustin Ave. In all cases the consultant recommended approval of the application as presented. It was denied by the planning commission twice, then I had appeals presented to two city councils. Finally, the city council approved my application with conditions (attached).

During this process I learned, along with others, that the City's Ordinance violated federal fair housing laws. Additionally, at my second city council appeal, I challenged the city council that the city of Costa Mesa was in violation of its own **Housing Element** with the conditions of approval they were placing on my application with regard to the number of occupants

Since 2013 to present, I have rented the homes as sober living residences. During this time, I have never had a complaint from a neighbor directed to me or to the city of Costa Mesa. Additionally, there has been calls for service only two times within this eight-year time frame. As stated earlier, it was unknown to the city or my immediate neighbors it was a sober residence. My ex-wife owns the property next to me and she did not know until I asked her to write a recommendation for me that I included in my application. My 19- and 20-year-old children at the time of the application did not know. I have always been very mindful of my neighbors and the privacy of my residents. I have always been very hands on. I live ½ mile from the property and visit it multiple times, daily.

To sum up the 30 ways the City of Costa Mesa treats me differently to my neighbors is outlined in the attached Exhibit B, Conditions of Approval.

The most egregious being condition number 29. "No more than two residents living in the facility at any one time shall have a domicile outside the state of California".

As I stated in my complaint, I am a real estate broker in California. By agreeing to the above I would knowingly be putting my broker's license and livelihood in jeopardy.

I have attached a Comparative Analysis between the two properties that I applied for the CUP. 165 East Wilson and 2041 Tustin Ave. As you will see, I truly believe the property at 165 E Wilson was approved by the planning commission at the first hearing as it eliminated 6 other sober living homes within the 650-foot radius. I also believe the property at 2041 Tustin Ave was denied by the planning commission two times as its approval would not eliminate any sober living homes within the 650-foot radius.

The city of Costa Mesa discriminates against residents of sober living homes and it violates State and Federal housing Laws. They are in breach of their current housing element and should be sanctioned with cease-and-desist notice, as the city of Anaheim and Encinitas have been by your state agency. They should not be awarded a renewal of their housing element as a reward for their violations. Time is of the essence. I ask that you act on this matter against the City of Costa Mesa to send a message to all other California cities who want to act in the same discriminatory way.

Thanking you in advance.

Sincerely,

Keith Randle

Subject: Conditional Use Permit PA-16-04 for 2041 Tustin Avenue, Costa Mesa

Dear Mr. Randle:

At its meeting of June 5, 2018, the Costa Mesa City Council adopted Resolution No. 18-16 approving Conditional Use Permit PA-16-04. A copy of this resolution is enclosed for reference. This resolution contains numerous conditions of approval. Condition No. 1 requires you to obtain an Operator's Permit and maintain that permit in good standing. Two conditions were to be satisfied within 30 days of approval (by July 5, 2018):

13. The applicant shall obtain a fire clearance from the Costa Mesa Fire Department pursuant to the requirements of the current version of the California Fire Code within 30 days of the date of approval of the Permit.

14. The applicant shall obtain a business license from the Costa Mesa Finance Department within 30 days of the date of approval of this Permit, and shall renew the license as required by the Costa Mesa Municipal Code.

On July 2, 2018, you submitted a request via e-mail to extend the timeframe to comply with these conditions by 30 days. On July 3, 2018, after consulting with City staff, I sent an e-mail granting an extension of ten days to satisfy these conditions. Compliance with these conditions of approval was required by July 16, 2018.

To date, the City has not received any evidence that you have satisfied these conditions of approval. Please contact Jennifer Le, Assistant Director of Development Services, by Monday, July 30, 2018 regarding your intent to implement this conditional use permit. You may reach Ms. Le at 949-754-5617 or via e-mail at jennifer.le@costamesaca.gov. Please be advised that failure to comply with these conditions of approval within the specified timeframe may result in revocation of this Conditional Use Permit. The City may also initiate actions to close this sober living facility if it continues to operate without required city approvals.

Sincerely,

Sheri Vander Dussen

EXHIBIT B

CONDITIONS OF APPROVAL

Plng. 1. Once issued by the City, the owner shall maintain in good standing, an operator's permit as required by Article 23, Chapter 2 of Title 9 of the Costa Mesa Municipal Code.

2. The total number of occupants in the sober living home shall be no more than eight, plus one live-in house manager.

3. The use shall be limited to the type of operation described in the staff report and applicant's project description submitted with the application on January 4, 2016, and these conditions. Any change in the operational characteristics including, but not limited to, home rules and regulations, intake procedures or relapse policy, shall be subject to Community Improvement Division review and may require an amendment to the conditional use permit, subject to either Zoning Administrator or Planning Commission approval, depending on the nature of the proposed change. The applicant is reminded that Code allows the Planning Commission to modify or revoke any planning application based on findings related to public nuisance and/or noncompliance with conditions of approval [Title 13, Section 13-29(o)].

4. Applicant shall defend, with the attorney of City choosing, and shall indemnify and hold harmless the City, its officials and employees, against all legal actions filed challenging City's approval of the applicant's project and/or challenging any related City actions supporting the approval.

5. A copy of the conditions of approval for the conditional use permit must be kept on premises and presented to any authorized City official upon request during normal business hours (9:00 a.m. to 5:00 p.m., Monday through Saturday).

6. The project is subject to compliance with all applicable federal, state, and local laws.

7. All vehicles associated with the residence, including those belonging to residents and staff, shall be limited to parking on the property and/or on the street within 500 feet of the property.

8. It shall be the applicant's responsibility to maintain current information on file with the City regarding the name, address and telephone number of the property manager and/or owner.

9. The property shall be maintained in accordance with landscape maintenance requirements contained in Costa Mesa Municipal Code Section 13-108.

10. Each dwelling unit shall be limited to one mailbox and one meter for each utility.

11. The facility shall operate at all times in a manner that will allow the quiet enjoyment of the surrounding neighborhood consistent with Title 20 of the Costa Mesa Municipal Code. The applicant and/or manager shall institute whatever measures are necessary to comply with this requirement.

12. If any building alterations are proposed, the applicant shall comply with requirements of the California Building Code as to design and construction.

13. The applicant shall obtain a fire clearance from the Costa Mesa Fire Department pursuant to the requirements of the current version of the California Fire Code within 30 days of the date of approval of the Permit.

14. The applicant shall obtain a business license from the Costa Mesa Finance Department within 30 days of the date of approval of this Permit, and shall renew the license as required by the Costa Mesa Municipal Code.

15. The applicant shall provide neighbors with the telephone number of the on-site manager and/or property owner, for the purposes of allowing neighbors to lodge complaints or describe concerns about the operation of the facility.

16. The sober living home shall not provide any of the following services as they are defined by Section 10501 (a)(6) of Title 9, California Code of Regulations: detoxification; education counseling; individual or group counseling sessions; and treatment recovery or planning.

CID 17. The applicant shall not allow any person or persons who is or are on any form of probation or parole to reside in or otherwise occupy the facility or property, including, but not limited to those subject to Health & Safety Code section 11590 et seq. (Registration of Controlled Substance Offenders) and/or Penal Code section 290 et seq. (Sex Offender Registration Act).

18. The applicant shall comply with any and all water conservations measures adopted by the Mesa Water District that apply to multi-family residences and/or properties.

19. The applicant shall post a copy of the Good Neighbor Policy in at least one highly visible location inside each unit and in at least one highly visible location in all side and rear yards.

20. The applicant shall ensure that no trash and debris generated by tenants is deposited onto the City's rights of way pursuant to Section 8-32 of the Costa Mesa Municipal Code.

21. All drivers of vehicles at the group home shall comply with all applicable provisions of the Vehicle Code, including but not limited to those provisions regulating licensure, parking, standing and stopping.

22. The applicant shall comply with reservation procedures implemented by the City's Parks and Community Services Department to reserve park shelters or picnic areas for special events.

23. This CUP is subject to review if the applicant fails to comply with any of the conditions of approval listed in this resolution and/or the facility creates an excessive amount of calls for City services.

24. At least 48 hours prior to an occupant's eviction from or involuntary termination of residency in this group home, the operator thereof shall:

    a. Notify the person designated as the occupant's emergency contact or contact of record that the occupant is no longer a resident at the home;
    b. Contact the Orange County Health Care Agency OC Links Referral Line and/or another entity designated by the City to determine the services available to the occupant, including but not limited to, alcohol and drug inpatient and outpatient treatment;
    c. Notify the city's Network for Homeless Solutions that an occupant is no longer a resident at the home, and determine the services available therefrom;
    d. Provide the information obtained from b. and c. and any other treatment provider or service to the occupant prior to his or her release on a form provided by the City and obtain the occupant's signed acknowledgement thereon;

    If the occupant's behavior results in immediate termination of residency pursuant to rules approved by the City as part of the Operator's Permit for this facility, the operator shall comply with this condition prior to evicting the resident.

25. Prior to an occupant's eviction from or involuntary termination of residency in a group home, the operator thereof shall make available to the occupant transportation to the address listed on the occupant's driver license, state issued identification card, or the permanent address identified in the occupant's application or referral to the group home. Should the occupant decline transportation to his or her permanent address or otherwise has no permanent address, then the operator shall make available to the occupant transportation to another group home or residential care facility that has agreed to accept the occupant. The group home operator may not satisfy this obligation by providing remuneration to the occupant for the cost of transportation.

26. The group home operator shall maintain records for a period of one year following eviction from or involuntary termination of residency of an occupant that document compliance with Conditions 24 and 25; provided, however, that nothing herein shall require an operator of a group home to violate any provision of state or federal law regarding confidentiality of health care information.

27. All parking spaces, including those within garages, shall remain free and accessible for parking of vehicles. By December 1 of every year, the applicant shall submit written confirmation that all parking spaces on the property remain accessible for parking. This confirmation shall be accompanied by photographs that document the accessibility of each space for automobile parking.

28. An authorized representative(s) of the City shall be allowed to inspect the interior and exterior of the property during normal business hours (9:00 a.m. to 5:00 p.m., Monday through Friday) provided the operator has received notice of said inspection at least 24 hours in advance.

29. No more than two residents living in the facility at any one time shall have a domicile outside the State of California.

30. This Conditional Use Permit shall expire and become null and void if the property is sold, transferred or the ownership, control and/or operation of the property otherwise changes in any manner whatsoever from that set forth in application number PA-16-04.

CODE REQUIREMENTS

Plng. 1. The use shall comply with all requirements of Chapter XVI of the Costa Mesa Municipal Code relating to development standards for sober living homes in multi-family residential zones.

Bldg. 2. Prior to making alterations to the property and throughout construction, the applicant shall comply with the requirements of the applicable adopted California Building Code, California Electrical Code, California Mechanical Code, California Plumbing Code, California Green Building Standards Code and California Energy Code and the California Code of Regulations, also known as the California Building Standards Code, as amended by the City of Costa Mesa.

Subject: Comments on Costa Mesa's Draft Housing Element

Dear Costa Mesa,

Thanks for the opportunity to comment on Costa Mesa's Draft Housing Element. It has virtues, but also flaws.

ADUs

Costa Mesa permitted 10 ADUs a year the last three years. It is predicting 107 a year for the next cycle. Costa Mesa permitted 4 ADUs in 2018, 6 in 2019, and 19 in 2020, an average of 10 a year. They're predicting 858 a year for the 6th Cycle. Page B-11 of the Housing Element says, "The City of Costa Mesa has determined based on past performance and the SCAG/HCD approved methodology that it is appropriate to anticipate the development of 858 accessory dwelling units from 2021 to 2029." HCD has not approved a methodology that allows cities to project ten times as many ADUs as they have been permitting.

Residential Development Constraints

Costa Mesa analyzes its residential development standards and concludes that none are constraints on development. Costa Mesa requires two parking spaces, ~640 square feet, for a studio apartment; a typical studio apartment is around 500-600 square feet. And Costa Mesa claims, without any evidence, that this requirement doesn't make modest studio apartments financially infeasible.

In other words, **Costa Mesa requires more space for parking for a studio apartment than for people living in the apartment, and says that's not a constraint on building studio apartments.** Costa Mesa's justification is that they're no worse than other nearby jurisdictions. But those other jurisdictions also are failing to build enough housing**.** The neighboring jurisdictions' residential development standards are burdensome and excessive, and so are Costa Mesa's.

Site Inventory

Costa Mesa plans most of its new housing on five big nonvacant sites: Fairview Development Center, Sakioka Lot 2, Home Ranch, South Coast Plaza, and Pacific Arts Plaza. The city says the owners have indicated there is the potential for future housing development on each of these sites. However, "potential for future housing development" does not forestall the possibility that these sites might not be redeveloped, or might be redeveloped as something other than housing. The city is required to discount the number of units expected from a non-vacant site, if the site might not be redeveloped for housing. **The number of units expected from the big housing sites is inflated, because the city did not discount as it is required to do.**

The Draft Housing Element must be revised to deal with these issues.

RE: Initial Comments to Draft Housing Element dated August 2021City of Yorba Linda

October 13th, 2021

RE: Initial Comments to Draft Housing Element dated August 2021

Dear Ms. Ashabi:

Congratulations on the completion of the 6th Cycle housing element draft. We commend the city for completing its draft early and providing ample time for public comment. In conjunction with the Campaign for Fair Housing Elements, we have reviewed your draft housing element and would like to share the following feedback:

1) We are concerned about ADU projections that appear overly optimistic: Your housing element anticipates 858 ADUs, which is an estimated 107 per year during the 6th cycle planning period. This seems unrealistic. HCD has described two "safe harbors" for estimating ADU production (p. 31, Housing Element Site Inventory Guidebook). In the first safe harbor, the city may use the trend in ADU construction since January 2018; as Costa Mesa permitted 4 ADUs in 2018, 6 in 2019 and 19 in 2020, that trend is about 10 ADUs per year or 80 for the next eight year planning period. For the second safe harbor, the city would use five times the construction trend prior to 2018. From 2013-2017, Costa Mesa permitted 8 eight ADUs, or about 2 a year. Five times two is 10, so the second safe harbor yields the same result, about 10 ADUs a year. We do not feel that the city adequately justified a projection of well over ten times the safe harbors.

2) The majority of small sites identified for affordable housing (that are not part of a larger parcel or development proposal) are in Latino, low income neighborhoods or existing commercial areas. Have you considered opening up other areas for development, particularly near high performing schools? Legislation like SB 9 and SB 10 provides opportunities for infill development in high opportunity communities. Implementing some of these guidelines would go a long way to desegregating housing in Costa Mesa.

3) The Fairview Developmental Center (FDC) is owned by the state and was included on the last Housing Element, but no housing has been developed. We are not aware of a commitment from the state to developing it as affordable housing. Assuming that 920 homes of the 2300 proposed (40%) will be low-income affordable is overly optimistic without an agreement in place. According to the Kennedy Commission, 20% low income is a more realistic figure based on SB 82. We suggest revising it to reflect that input.

4) We commend the city for seeking out discussions with property owners interested in developing their properties for very-low and low-income housing through the planning period. However, for the remaining sites (for which no interview was conducted), the city says it does not have access to private party lease agreements or other contractual agreements among private parties. Under these circumstances, the safe assumption would be to assume zero likelihood of redevelopment for those sites; however the city does not do that. The assumption is that the sites will turn over even without any evidence to support it.

5) This lack of analysis, coupled with the uncertainty of the FDC and the development agreements encumbering low-income housing on the other major sites (Sakoika

Lot 2, Home Ranch, and Pacific Arts Plaza) leads us to the conclusion that there are insufficient sites for affordable housing. We would advise the city to increase the number sites for low and very low income housing to enable a buffer for low income housing. There is currently a sufficient buffer for moderate and above moderate (market rate). We advise the city to create a buffer for low income housing; 15-30% is the HCD-recommended buffer.

6) We take issue with the assumption that the city's development standards, particularly parking requirements, are not a constraint. Costa Mesa's parking requirements are onerous. The city requires 2 parking spaces for a studio apartment and 3 parking spaces for a two-bedroom apartment. These are burdensome parking requirements, and are a barrier to reducing the cost of housing, both market-rate and affordable.

7) Lastly, Measure Y, the requirement that development proposals over 40 units must be approved by voters is the single largest barrier to new housing development in the city. The city is indeed caught in a bind, having to defend a bad policy that inhibits the ability to comply with state law. Therefore we recommend that you take action to explicitly exempt any development project that includes low, very low or extremely low income housing.

Thank you for all of your efforts to create a fair and legally compliant housing element. As frequent attendees in community meetings, we understand the city council has many difficult choices to make with regard to its 6th Cycle Housing Element. We encourage the city council to do what is right, even if it is unpopular,

and to develop an exemplary housing element that will comply with both the spirit and letter of state housing element law.

Sincerely,

Elizabeth Hansburg

Co-Founder & Director

People for Housing Orange County is a network of housing advocates fighting for more inclusive housing policies in Orange County's high opportunity communities. By legalizing the construction of multifamily housing, streamlining the permitting of all housing, increasing funding for subsidized affordable housing, we believe a future of abundant housing is possible. We envision an integrated society where every person has access to a safe, affordable home near jobs, services, and opportunity.

Feedback: Housing Element Update

Response-Westside Costa Mesa is overwhelmed with too much population. Too many cars. Not enough parking. People walk a block or more away from home to find parking.

Please implement this information.. dense housing with apartments & Multi family housing are over crowding the Westside. Please reconsider increased housing "outside" district #4 Ie the west side.

Sincerely,
Jennifer Webster
Westside Resident 30 yrs since September 1988

Costa Mesa Affordable Housing Coalition

November 30, 2021

Mr. Paul McDougall
Department of Housing and Community Development
Division of Housing Policy Development
2020 W. El Camino Ave., Suite 500
Sacramento, CA 95833

RE: Summary of Concerns Regarding Costa Mesa's Housing Element Update

Dear Mr. McDougall:

We so appreciate the opportunity to speak with you and Marissa Prasse yesterday regarding Costa Mesa's draft Housing Element Update (2021-2029). As you may know, the Costa Mesa Affordable Housing Coalition is a local advocacy group which for years has urged Costa Mesa to facilitate the construction of affordable homes for the city's lower income residents. This letter summarizes the key concerns we articulated in yesterday's meeting.

First, we applaud the city's remarkably robust, open, and serious efforts at public engagement in its Housing Element process. We also congratulate the city for its mostly excellent draft Housing Element. We are particularly pleased the draft clearly states Costa Mesa's commitment to adopting (finally!) an inclusionary zoning ordinance.

Now, the concerns. We have two:

(1) The draft fails to adequately analyze the constraints on affordable housing development specific to each of the four largest sites in the sites inventory, and

(2) The draft fails to adequately analyze the paralyzing effect the city's "Measure Y" will have on affordable housing development.

I.) Inadequate Analysis of the Four Largest Sites

A. The city should provide additional analysis on the Fairview Developmental Center (FDC) site and the implications of SB 82.

The Housing Element identifies FDC as a 109-acre state-owned opportunity site and assumes it can accommodate 2,300 housing units, and that 40% of those future units will be affordable to lower income households (575 very low and 345 low).[1] Problematically, however, SB 82 states:

[1] Costa Mesa Housing Element, Appendix B Candidate Sites Analysis Overview, October 6, 2021, p. B-15.

"Notwithstanding any other law, the Director of General Services, with the consent of the Director of Developmental Services, may, in the best interests of the state, let to any person or entity real property ***not exceeding 20 acres*** located within the grounds of the Fairview Developmental Center for a period not to exceed 55 years, at a price that will permit the development of affordable housing for people with developmental disabilities… A ***minimum of 20 percent*** of the housing units developed shall be available and affordable to individuals with developmental disabilities served by a regional center…[2]"

Given the dictates of SB 82, the city needs to justify its assumption about the number of units possible on the site, as well as its affordability assumption that 40% of the units at FDC will be for lower income. A more realistic affordability assumption for FDC is 20% for lower income. While SB 82 indicates that a minimum of 20% of units will be affordable to individuals with developmental disabilities, there has been no written or public statement from the state expressing interest in making more than 20% of homes affordable to lower income households.

The FDC site holds tremendous potential for meeting the city's considerable lower income RHNA (4713 units). The fact the site is state-owned, however, could be a significant constraint in developing **any** housing there within the next eight years, much less the **920 units** of lower income housing specified in the sites inventory. The city should create a stand-alone program and commit to actively working with the state to accomplish the specified housing development at FDC anticipated in the sites inventory.

B. The city should provide further analysis on the constraints for the three large sites (Sakioka Lot 2, Home Ranch, and Pacific Arts Plaza) which are currently under development agreements with no affordable housing requirements.

Though these three large sites are in the 2021-2029 sites inventory, they will not be subject to any future inclusionary housing ordinance the city adopts because each site is already under a development agreement with no inclusionary requirement. The only way the owner of one of these sites will be bound by a future inclusionary ordinance is if that owner opts into future General Plan and zoning regulations.[3]

Absent such a choice to opt into a different governing land use regime, there is **no reason** to expect any of these property owners will **voluntarily** include in their respective projects any lower income affordable housing, much less the 15% lower income housing reflected in the sites inventory. Significantly, one of these large property owners has explicitly signaled his **unwillingness** to be bound by an affordable housing requirement.

[2] California Legislative Information, Bill Text SB-82 Developmental Services, June 24, 2015. https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201520160SB82

[3] This fact was confirmed during the city's consideration of the proposal to extend Sakioka Lot 2's Development Agreement; the city confirmed that "if the Agreement were extended, and if an inclusionary housing ordinance was adopted along with future General Plan and zoning regulations, the developer would need to comply with the inclusionary housing ordinance IF they opted to develop per the future General Plan and zoning regulations." (Costa Mesa City Council Agenda Report, An Ordinance for an Extension To And Amendment of the Sakioka Farms Development Agreement, March 18, 2021, p. 11.)

On April 6, 2021, the Costa Mesa City Council extended the expiring Development Agreement for Sakioka Lot 2 for an additional 10 years. Prior to that extension, the city's Planning Commission recommended the City Council require the extended Development Agreement include affordable housing requirements to help achieve the city's lower income RHNA goals.[4] The property owner, however, was only interested in having Sakioka Lot 2 identified as a housing opportunity site; **he was not "amenable" to any affordable housing requirements.**[5] Given the property owner's very recent strong opposition to including any affordable housing provisions in the extended Development Agreement, it is unrealistic to assume that same property owner will prioritize the development of housing affordable to lower income households in developing the property.

The city offers **no rationale** for its expectation the owners of Sakioka Lot 2 and the other two large sites will voluntarily include affordable housing in their future developments. Importantly, these three large sites are in prime locations near South Coast Plaza, where land values are among the highest in the city. Moreover, each of these three property owners is a longtime owner who has practiced the art of holding onto the land for decades while land values continually climbed upward. Given these facts, the city should analyze the affordability assumptions of "15% lower income" for these three sites in light of each site's respective development agreement which insulates the site from any affordable housing requirements.

Additionally, it is highly significant Sakioka Lot 2 and Home Ranch have been **vacant for decades. How realistic is it that these two sites will be developed in the 2021-2029 cycle? The city must provide that analysis.**

Finally, the city should **clarify if the affordability assumptions on these three large sites include units that result from a density bonus.** For example, the draft indicates that for Sakioka Lot 2, the city "determined that it is realistic to assume that 15% of future units on this site may be available to residents at the lower income levels."[6] Is this 15% actually a density bonus where a developer would be granted a higher density on the proposed development and in exchange, the developer would have to set aside 15% of the units to be affordable? The significance of such a calculation is that **the developer may elect to not develop Sakioka Lot 2 to full capacity under the density bonus, and thereby opt out of including any affordable housing**.

II.) Inadequate Analysis of Measure Y's Constraints on Affordable Housing Development

Measure Y is Costa Mesa's largest unique constraint to development because it incentivizes less dense, and thus unaffordable, development, and perpetuates exclusionary zoning. The city

[4] Costa Mesa City Council Agenda Report, An Ordinance for an Extension To And Amendment of the Sakioka Farms Development Agreement, April 6, 2021, p. 9-10.
[5] Costa Mesa City Council Agenda Report, An Ordinance for an Extension To And Amendment of the Sakioka Farms Development Agreement, April 6, 2021, p. 2.
[6] Costa Mesa Housing Element, Appendix B Candidate Sites Analysis Overview, October 6, 2021, p. B-12.

council should adopt a policy to exempt from Measure Y any projects approved under the inclusionary zoning ordinance which contribute units toward meeting the city's extremely low-, very low-, and low-income RHNA requirements.

Thank you for considering our concerns about the draft 2021-2029 Housing Element Update. For your reference, we are attaching our September letter to the city with more extensive comments on the draft. This letter focuses only on our top concerns.

Sincerely,

Kathy Esfahani

To: PC Public Comments <PCPublicComments@costamesaca.gov>
Subject: Constraints on Development: Parking

Dear Costa Mesa Councilmembers,

I understand you're having a hearing next week concerning constraints that you may be imposing that impede development of housing. I commend you for considering this important issue.

I sent this comment to your Housing Element email in October, but I'm repeating it now, somewhat edited, for consideration in your hearing. Thanks.

Costa Mesa's Parking Requirements are Excessive

In your Draft Housing Element, Costa Mesa analyzes your residential development standards and concludes that none are constraints on development. However, Costa Mesa's parking standards look like they would definitely constrain development. Costa Mesa requires two parking spaces, ~640 square feet, for a studio apartment; a typical studio apartment is around 500-600 square feet.

In other words, Costa Mesa requires more space for parking for a studio apartment than for people living in the apartment, and you say that's not a constraint on building studio apartments. Costa Mesa's justification is that you're no worse than other nearby jurisdictions. But those other jurisdictions also are failing to build enough housing. The neighboring jurisdictions' residential development standards are burdensome and excessive, and so are Costa Mesa's.

Parking spaces are very, very expensive to build. An above-ground space will cost around $50-60,000 to build. An underground space will cost around $70-90,000. So the parking alone for that studio apartment will cost upwards of $100,000 to build, well over $150,000 if it's underground. This can be the difference between financial feasibility and financial infeasibility. Moreover, this is an issue of fairness. Costa Mesa has sunny, mild weather, great for biking or e-biking. Yet a person on a limited income, who wants to save money by forgoing a car, or a family that wants to save by just having one car, is still forced to pay for parking they don't want.

Your parking requirements are excessive across the board: 2 parking spaces for a studio apartment, 2.5 for a 1 BR, 3 for a 2 BR, 4 for a 3 BR apartment. In every case, you're requiring as much or more space for the cars as for the people. It's like instead of expecting developers to build apartments for people with attached parking, you're expecting developers to build giant parking lots for cars, with a little attached storage to store humans when they're not in the cars.

Please change these parking requirements. They make no sense, they're unfair, and they constrain development.

Thank you.

Re: PUBLIC HEARING ITEM #1 - CITY OF COSTA MESA 2021-2029 (SIXTH CYCLE) HOUSING ELEMENT (GP-21-01)

To Mayor John Stephens and the Honorable Members of the City Council:

We are writing to urge the City Council not to approve the draft Housing Element until it is revised to reflect changes that are needed in Costa Mesa's laws and procedures to reduce barriers to housing for people with disabilities. Disability Rights California is a non-profit agency established under federal law to protect, advocate for and advance the human, legal and service rights of Californians with disabilities.[1] Disability Rights California works in partnership with people with disabilities, striving towards a society that values all people and supports their rights to dignity, freedom, choice, and quality of life. Since 1978, Disability Rights California

[1] Disability Rights California provides services pursuant to the Developmental Disabilities Assistance and Bill of Rights Act, 42 U.S.C. § 15001, PL 106-402; the Protection and Advocacy for Mentally Ill Individuals Act, 42 U.S.C. § 10801, PL 106-310; the Rehabilitation Act, 29 U.S.C. § 794e, PL 106-402; the Assistive Technology Act, 29 U.S.C. § 3011,3012, PL 105-394; the Ticket to Work and Work Incentives Improvement Act, 42 U.S.C. § 1320b-20, PL 106-170; the Children's Health Act of 2000, 42 U.S.C. § 300d-53, PL 106-310; and the Help America Vote Act of 2002, 42 U.S.C. § 15461-62, PL 107-252; as well as under California Welfare and Institutions Code §§ 4900 et seq.

has provided essential legal services to people with disabilities regarding access to housing and other critical needs.

The California Department of Housing and Community Development ("HCD") sent the City a December 3, 2021 letter regarding revisions that the City must make to the draft Housing Element to bring it into compliance with the law. The December 3 letter explained that the City would need to address a number of issues concerning "Housing for People with Disabilities." However, the revisions to the draft Housing Element before the Council's consideration today fail to adequately respond to the issues raised by HCD. We write to call particular attention to the following:

1. Reasonable Accommodation

HCD's December 3, 2021 letter noted that the "additional factors" that the City may consider in its review of a reasonable accommodation application "may act as constraints," and explained that the draft Housing Element must "include specific analysis of any potential constraint, including considering public comments and add or modify programs as appropriate." The revisions to the draft Housing Element do not adequately respond to this comment. If an accommodation is necessary to provide people with disabilities full and equal access to housing due to their disabilities, an accommodation must be provided unless the City can demonstrate that doing so would be an undue financial and administrative burden or would be a fundamental alteration of the relevant programs, services, or activities. The same is true if a reasonable accommodation is necessary to provide meaningful access to housing for people with disabilities. The City's current reasonable accommodation procedures create additional and unnecessary barriers to access because they allow for consideration of additional factors, such as impact on neighbors. Impact on neighbors, for instance, may only come into the reasonable accommodation analysis if it gives rise to an undue financial and administrative burden on the City, in light of the full resources available to the City, or if it would result in an unavoidable and fundamental alteration to a relevant City program, service, or activity. Otherwise it may not be considered at all, and the City should not be inviting neighbors, who may oppose a reasonable accommodation request due to fear and stereotypes regarding people with disabilities, to weigh in on the request. Moreover,

the City's draft Housing Element notes that the City's current procedure is to consider "the extent to which the City would have to dedicate resources, such as staff time and funds, to grant the request and other requests like it." Draft HE at 3-33. This is an illegal factor: the City must consider each reasonable accommodation request on its own and may not deny an accommodation request on the grounds that others may make a similar request.

Additionally, Disability Rights California has gained some familiarity with the actual operation of Costa Mesa's reasonable accommodation process through our representation of an individual plaintiff in the *Insight v. Costa Mesa* case, and we have been appalled at what we have learned. Costa Mesa Zoning Code and practice put the burden on the *applicant* to demonstrate that a requested accommodation would not be an undue burden or fundamental alteration, which is contrary to law. Moreover, Costa Mesa requires applicants to submit their reasonable accommodation requests to City staff for a purported consideration of their request, but City staff admitted to us in deposition testimony that this is a sham proceeding in the case of group homes seeking a waiver of the City's 650-foot separation requirement, because the City Council has directed staff *never* to grant such a request.

The City's revised Housing Element neither adequately acknowledges nor responds to these problems, which result in unnecessary and illegal barriers to access for people with disabilities.

2. Definition of Family

HCD's December 3 letter observed that the City defines "family" as "a single housekeeping unit with multiple restrictions that may act as constraints on housing for persons with disabilities" and explained that the Housing Element "should include specific analysis of any potential constraint, including considering public comment and add or modify programs as appropriate." However, the revised Housing Element does not do this. The definition ignores the fact that many individuals with disabilities do have a disability-related reason for needing separate leases, or for taking their meals separately, or for keeping expenses separate from other members of the household, or for relying on a third party to

determine who else lives in the household, for instance. Public benefits programs that people qualify for on the basis of disability, such as housing or income subsidies, for instance, can require things such as separate leases, meals, or finances. People can have a disability-related reason for having separate food. Due to a disability-related impairment, a person may need a third party to organize their housing and determine who else will be living with them. The revised Housing Element does not engage with any of these matters and entirely disregards the constraints that they place on housing options for people with disabilities.

Nor does the Housing Element acknowledge that, as a practical matter, these are *only* constraints for people with disabilities. The City has no practice of investigating whether blood relatives, or roommates without disabilities, are actually eating meals or doing chores together. The restrictions only become an issue with people with disabilities are living together, because they will be treated as a "group home" if they cannot demonstrate that they are a family/single housekeeping unit.

3. Group Homes

HCD's December 3 letter accurately observes that the "City's zoning code appears to isolate and regulate various types of housing for persons with disabilities based on the number of people and other factors." As noted above, the City does not have "a barrier-free definition of family," as the December 3 letter explains is required. As a result, the City subjects housing for people with disabilities to onerous regulations and excludes them from some residential zones. And, as the December 3 letter notes, "these housing types in many cases are subject to a special use or conditional use permit, potentially subjecting housing for persons with disabilities to higher discretionary standards where an applicant must demonstrate compatibility with the neighborhood, unlike other residential uses."

The revised Housing Element does not "include specific analysis of these and any other constraints, including their enforcement and considering public comments, for impacts on housing for persons with disabilities and add or modify programs as appropriate," as the December 3 letter explains that it should. Instead, the revised Housing Element

simply argues without evidence that Costa Mesa is justified in imposing these restrictions on housing options for people with disabilities. The revised Housing Element argues that, by limiting housing options for people with disabilities, the City is actually *protecting* them. But this is nonsensical. Many people have a disability-related reason for needing to live in the kind of housing that Costa Mesa terms a "group home." Our client in the *Insight* case, for instance, is a woman with mental health disabilities who needed to live in a supportive environment for a month or two while she transitioned from a psychiatric facility to community living. Costa Mesa's group home ordinances restrict the ability of housing providers to create this kind of housing in the community. There are far too few housing options for people with disabilities as it is. And in the case of our client, enforcement of Costa Mesa's group home ordinances will result in Insight's housing being shut down, with nowhere else in the City to go. Because it is the only housing of its kind in the region, people like our client will have nowhere to go for that kind of housing, and will be either stuck in an institution or living in a housing situation that does not provide what they need.

We urge the City Council not to approve the draft Housing Element until it fully responds to these and other barriers to access for people with disabilities.

Sincerely,

Autumn M. Elliott

Subject: [NOENCRYPT] PUBLIC HEARING ITEM #1 - CITY OF COSTA MESA 2021-2029 (SIXTH CYCLE) HOUSING ELEMENT (GP-21-01)

To the Mayor and Honorable Members of the City Council,

In connection with tonight's public hearing on the City's Housing Element Update, I am writing to express concerns about the Costa Mesa's group home regulations and reasonable accommodation process and share my experience with you as an illustration of how these regulations are a very real barrier to the provision of housing for people with disabilities.

Since early 2015, my company (Insight Psychology and Addiction, Inc.) has been providing supportive housing in a six-unit apartment building in a multi-family residential zoning district in Costa Mesa. In late 2015 (i.e., after my company had already started providing its supportive housing), the City adopted its group home regulations for multi-family zoning districts that purport to apply retroactively to existing group homes. Those regulations are codified in Chapters XV and XVI of Title 13 of the Costa Mesa Municipal Code (starting at § 13-310). Costa Mesa also adopted "operator's permit" requirements for providers of group housing, which are codified in Article 23 of Chapter II of Title 9 of the Costa Mesa Municipal Code (starting at § 9-370).

The type of housing my company provides is exceptionally rare and desperately needed. We provide supportive housing to adults with mental health disabilities, like PTSD, bipolar disorder, anxiety, and depression. Our supportive housing is not a sober living home. Most of our residents are "stepping down" from in-patient psychiatric treatment and learning how to live independently. We provide a crucial step between in-patient care and independent living. We are the only supportive housing of this kind in the region. Our residents would not be eligible to live in a sober living home (nor would they want to).

After the City adopted its new group home regulations, City staff informed me I would need a conditional use permit if I wanted to continue providing this supportive housing. I promptly applied for the permit. It took the City two and a half years to process my application (September 2016 through July of 2018), and then the City told me it planned to deny my application because my supportive housing is within 650 feet (measured "as the crow flies" from outer property lines) from new group homes that opened after my housing in unincorporated Orange County (i.e., outside Costa Mesa City limits).

I asked the City to relax its separation requirement for my supportive housing (which pre-dates the City's group home regulations and the new group homes in unincorporated County territory) as a disability-related "reasonable accommodation." The City's process for evaluating reasonable accommodation requests is in Article 15 of Chapter IX of Title 13 of the Costa Mesa Municipal Code (starting at § 13.200.60) puts the burden on the individual making the request to prove up a number of different "findings," many of which are on subjects that are exclusively within the City's knowledge and control (e.g., requiring ***the applicant*** to prove the accommodation "will not impose an undue financial or administrative burden ***on the city***" [emphasis added]). The full list of findings is in Costa Mesa Municipal Code Section 13-200.62(f). Even though it seemed like this was designed to be an impossible task, I followed the City's procedure and submitted a formal

request for a "reasonable accommodation" on August 3, 3018. On April 5, 2019, the City's Zoning Administrator denied my request for a reasonable accommodation because he said, based on my letter, he could not make all eight of the findings required by CMMC § 13-200.62(f). The Zoning Administrator's denial was largely based on his misconception that the housing my company provides is a sober living home, or that the needs of my residents could be met by the City's sober living homes). That is patently false. In fact, I provided detailed reasons why sober living homes cannot meet the needs of the individuals who reside in Nsight's supportive housing.

I appealed the Zoning Administrator's denial of my accommodation request to the Costa Mesa Planning Commission and Costa Mesa City Council. Both bodies held duly-noticed public hearings on my appeals where they sent mailers to all residents within 500 feet of my supportive housing. At those public hearings, members of the community did not hide their fears and prejudices about group housing for people with disabilities. Most of the speakers had no direct experience with my supportive housing (which had already been operating for three years with no code enforcement complaints at the time of the hearings). The Planning Commission and City Council denied my appeals, and the City ordered me to cease operating my supportive housing within 30 days. As a last resort, I filed a legal action that is still pending. Our trial date is April 5, 2022.

There is no question that the City's group home regulations have had their intended effect of reducing the numbers of group homes for people with disabilities in Costa Mesa. The City posts spreadsheets on its website tracking the group homes it has successfully closed (links below).

- City approved sober living/group homes - https://app.smartsheet.com/b/publish?EQBCT=f6f1941be3624556ab1b03e829df4639
- State approved facilities (DHSC) - https://app.smartsheet.com/b/publish?EQBCT=5fc6477aa1974f16b790242bbd936b8c
- Application Status - https://app.smartsheet.com/b/publish?EQBCT=c24b90faafff4b0680b6e86564927908
- Group homes cited - https://app.smartsheet.com/b/publish?EQBCT=aff3877f2ef54eb285196f94a1607cd9
- Operators that have closed - https://app.smartsheet.com/b/publish?EQBCT=664bc6e0f3354741801736f60b3ce47c
- Locations under review - https://app.smartsheet.com/b/publish?EQBCT=5459f35580524b4ab147a085d7720b0c

The City's data shows it has issued ***hundreds of citations*** for violations of its group home regulations (see "Group homes cited" link) and ***closed more than 80 group homes*** (see "Operators that have closed" link). Of ***sixty-six applications*** for group home permits (conditional use permits/CUPs and special use permits/SUPs), the City has ***only approved one*** (see "Application Status" link).

The City's regulations have had a devastating impact on the availability of shared housing for people with disabilities. Between 2017 (when grace periods ended and the City started enforcing its group home ordinances in earnest) and 2021, the City has lost ***more than 70%*** of its group home beds:

Group Home Beds*	**2014**	**2017**	**2021**
Beds in the Single Family Residential Zone	386	425	183
Beds in Multi-Family Residential Zones	762	1,273	296**

Beds in Other Zones	76	82	0
TOTAL BEDS	**1,224**	**1,780**	**479**

* All of these figures come from the City's own data, which Insight provided to the City in connection with its summary judgment motion in its legal action against Costa Mesa.
** This figure and the grand total include the 30 beds Insight is currently providing. Closing Insight's housing will therefore, result in a loss of 6.26% of the City's total beds (i.e., 30 of 479 is 6.26%).

The City's Housing Element Update does not address or mitigate these barriers. It does not address the comments the City received from the California Department of Housing and Community Development (HCD) on December 3, 2021. HCD's comment letter instructed the City to provide "specific analysis of any potential constraint, including considering public comments and add or modify programs as appropriate." The draft Housing Element Update does not do this.

It is essential that the City Council listen to the needs of the people with disabilities who rely on shared housing and the providers of shared housing as it updates its Housing Element. If I can be of any assistance, please do not hesitate to contact me directly.

Sincerely,

Mary Helen Beatificato

Re: PUBLIC HEARING ITEM #1 - CITY OF COSTA MESA 2021-2029 (SIXTH CYCLE) HOUSING ELEMENT (GP-21-01)

To Mayor John Stephens and the Honorable Members of the City Council:

We are writing to urge the City Council not to approve the draft Housing Element until it is revised to reflect changes that are needed in Costa Mesa's laws and procedures to reduce barriers to housing for people with disabilities. Disability Rights California is a non-profit agency established under federal law to protect, advocate for and advance the human, legal and service rights of Californians with disabilities.[1] Disability Rights California works in partnership with people with disabilities, striving towards a society that values all people and supports their rights to dignity, freedom, choice, and quality of life. Since 1978, Disability Rights California

[1] Disability Rights California provides services pursuant to the Developmental Disabilities Assistance and Bill of Rights Act, 42 U.S.C. § 15001, PL 106-402; the Protection and Advocacy for Mentally Ill Individuals Act, 42 U.S.C. § 10801, PL 106-310; the Rehabilitation Act, 29 U.S.C. § 794e, PL 106-402; the Assistive Technology Act, 29 U.S.C. § 3011,3012, PL 105-394; the Ticket to Work and Work Incentives Improvement Act, 42 U.S.C. § 1320b-20, PL 106-170; the Children's Health Act of 2000, 42 U.S.C. § 300d-53, PL 106-310; and the Help America Vote Act of 2002, 42 U.S.C. § 15461-62, PL 107-252; as well as under California Welfare and Institutions Code §§ 4900 et seq.

has provided essential legal services to people with disabilities regarding access to housing and other critical needs.

The California Department of Housing and Community Development ("HCD") sent the City a December 3, 2021 letter regarding revisions that the City must make to the draft Housing Element to bring it into compliance with the law. The December 3 letter explained that the City would need to address a number of issues concerning "Housing for People with Disabilities." However, the revisions to the draft Housing Element before the Council's consideration today fail to adequately respond to the issues raised by HCD. We write to call particular attention to the following:

1. Reasonable Accommodation

HCD's December 3, 2021 letter noted that the "additional factors" that the City may consider in its review of a reasonable accommodation application "may act as constraints," and explained that the draft Housing Element must "include specific analysis of any potential constraint, including considering public comments and add or modify programs as appropriate." The revisions to the draft Housing Element do not adequately respond to this comment. If an accommodation is necessary to provide people with disabilities full and equal access to housing due to their disabilities, an accommodation must be provided unless the City can demonstrate that doing so would be an undue financial and administrative burden or would be a fundamental alteration of the relevant programs, services, or activities. The same is true if a reasonable accommodation is necessary to provide meaningful access to housing for people with disabilities. The City's current reasonable accommodation procedures create additional and unnecessary barriers to access because they allow for consideration of additional factors, such as impact on neighbors. Impact on neighbors, for instance, may only come into the reasonable accommodation analysis if it gives rise to an undue financial and administrative burden on the City, in light of the full resources available to the City, or if it would result in an unavoidable and fundamental alteration to a relevant City program, service, or activity. Otherwise it may not be considered at all, and the City should not be inviting neighbors, who may oppose a reasonable accommodation request due to fear and stereotypes regarding people with disabilities, to weigh in on the request. Moreover,

the City's draft Housing Element notes that the City's current procedure is to consider "the extent to which the City would have to dedicate resources, such as staff time and funds, to grant the request and other requests like it." Draft HE at 3-33. This is an illegal factor: the City must consider each reasonable accommodation request on its own and may not deny an accommodation request on the grounds that others may make a similar request.

Additionally, Disability Rights California has gained some familiarity with the actual operation of Costa Mesa's reasonable accommodation process through our representation of an individual plaintiff in the *Insight v. Costa Mesa* case, and we have been appalled at what we have learned. Costa Mesa Zoning Code and practice put the burden on the *applicant* to demonstrate that a requested accommodation would not be an undue burden or fundamental alteration, which is contrary to law. Moreover, Costa Mesa requires applicants to submit their reasonable accommodation requests to City staff for a purported consideration of their request, but City staff admitted to us in deposition testimony that this is a sham proceeding in the case of group homes seeking a waiver of the City's 650-foot separation requirement, because the City Council has directed staff *never* to grant such a request.

The City's revised Housing Element neither adequately acknowledges nor responds to these problems, which result in unnecessary and illegal barriers to access for people with disabilities.

2. Definition of Family

HCD's December 3 letter observed that the City defines "family" as "a single housekeeping unit with multiple restrictions that may act as constraints on housing for persons with disabilities" and explained that the Housing Element "should include specific analysis of any potential constraint, including considering public comment and add or modify programs as appropriate." However, the revised Housing Element does not do this. The definition ignores the fact that many individuals with disabilities do have a disability-related reason for needing separate leases, or for taking their meals separately, or for keeping expenses separate from other members of the household, or for relying on a third party to

determine who else lives in the household, for instance. Public benefits programs that people qualify for on the basis of disability, such as housing or income subsidies, for instance, can require things such as separate leases, meals, or finances. People can have a disability-related reason for having separate food. Due to a disability-related impairment, a person may need a third party to organize their housing and determine who else will be living with them. The revised Housing Element does not engage with any of these matters and entirely disregards the constraints that they place on housing options for people with disabilities.

Nor does the Housing Element acknowledge that, as a practical matter, these are *only* constraints for people with disabilities. The City has no practice of investigating whether blood relatives, or roommates without disabilities, are actually eating meals or doing chores together. The restrictions only become an issue with people with disabilities are living together, because they will be treated as a "group home" if they cannot demonstrate that they are a family/single housekeeping unit.

3. Group Homes

HCD's December 3 letter accurately observes that the "City's zoning code appears to isolate and regulate various types of housing for persons with disabilities based on the number of people and other factors." As noted above, the City does not have "a barrier-free definition of family," as the December 3 letter explains is required. As a result, the City subjects housing for people with disabilities to onerous regulations and excludes them from some residential zones. And, as the December 3 letter notes, "these housing types in many cases are subject to a special use or conditional use permit, potentially subjecting housing for persons with disabilities to higher discretionary standards where an applicant must demonstrate compatibility with the neighborhood, unlike other residential uses."

The revised Housing Element does not "include specific analysis of these and any other constraints, including their enforcement and considering public comments, for impacts on housing for persons with disabilities and add or modify programs as appropriate," as the December 3 letter explains that it should. Instead, the revised Housing Element

simply argues without evidence that Costa Mesa is justified in imposing these restrictions on housing options for people with disabilities. The revised Housing Element argues that, by limiting housing options for people with disabilities, the City is actually *protecting* them. But this is nonsensical. Many people have a disability-related reason for needing to live in the kind of housing that Costa Mesa terms a "group home." Our client in the *Insight* case, for instance, is a woman with mental health disabilities who needed to live in a supportive environment for a month or two while she transitioned from a psychiatric facility to community living. Costa Mesa's group home ordinances restrict the ability of housing providers to create this kind of housing in the community. There are far too few housing options for people with disabilities as it is. And in the case of our client, enforcement of Costa Mesa's group home ordinances will result in Insight's housing being shut down, with nowhere else in the City to go. Because it is the only housing of its kind in the region, people like our client will have nowhere to go for that kind of housing, and will be either stuck in an institution or living in a housing situation that does not provide what they need.

We urge the City Council not to approve the draft Housing Element until it fully responds to these and other barriers to access for people with disabilities.

Sincerely,

Autumn M. Elliott

Re: City of Costa Mesa: Updated Draft Costa Mesa Housing Element Sixth Cycle, 2021-2029 (Draft dated: January 2022)
City Council Meeting, January 18, 2022, Public Hearing Item 1

Dear Gentlepersons:

The City of Costa Mesa released last Friday its updated Draft Housing Element in response to comments by the public and review by the Department of Housing and Community Development. The City will conduct a public hearing on the updated draft Housing Element at tonight's City Council meeting.

Because the updated draft fails to adequately address the public and HCD comments regarding the original draft, submitted October 6, 2021, and contains several provisions that violate the state Government Code governing zoning and

planning, we urge the City Council to revise the updated draft as follows:

1. **Enforcement, HCD Letter, dated December 3, 2021, Appendix, p. 2.** The greatest source of fair housing complaints regarding dwellings in the City of Costa Mesa since 2015 has been the City's own group home regulations, codified at CMMC 9-370 et seq., 13-310, et seq., and 13-320, et seq. The City's updated draft fails to address this fact.

2. **Disproportionate Housing Need including Displacement Risk, HCD Letter, dated December 3, 2021, Appendix, p. 2.** The updated draft fails to address the displacement of persons with disabilities as a result of the City's retroactively applied group home regulations, City Zoning Code, Chapters XV and XVI. City records report that pursuant to those regulations, the City had shuttered more than 82 group homes and cited at least 227 for failure to comply with the City's group home regulations. Moreover, as early as 2015, the City acknowledged that its group home regulations would result in the closure of group homes, rendering the occupants of those homes homeless. This program by the City of Costa Mesa has been the greatest source of displacement in Costa Mesa since 2015.

3. **Supportive Housing by Right, HCD Letter, dated December 3, 2021, Appendix, pp. 6, 7.** There is no record of the City approving supportive housing since 2015. On the contrary, the City has legislated to dismantle existing supportive housing and to preclude new supportive housing from being built in Costa Mesa. The only zoning district in which supportive housing may be located by right is the City's Institutions and Recreation district, a non-residential zoning district.

4. **Reasonable Accommodation, HCD Letter, dated December 3, 2021, Appendix, pp. 6, 7.** The City amended its requirements and standards to obtain a reasonable accommodation (RA) from its zoning regulations at the same time it enacted its second ordinance, 14-13, to limit the number and location of group homes. This timing was not a coincidence. The City overhauled its RA requirements as part of Ordinance 14-13 in order to preclude existing group homes from avoiding closure as a result of the retroactive application of the City's group home regulations.

5. **Definition of Family, HCD Letter, dated December 3, 2021,**

Appendix, p. 7. The City amended its definition of Single Housekeeping Unit (SHU) in 2013 pursuant to Ordinance 13-05 for the express purpose of excluding group homes from qualifying as an SHU. The City further amended that definition as part of Ordinance 14-13, enacting its R-1 group home regulations, by inserting terms and conditions that explicitly exclude group homes from qualifying as an SHU.

6. Group Homes, HCD Letter, dated December 3, 2021, Appendix, p. 8. The City has amended its zoning regulations several times since 2013 to limit, close, and exclude group homes for persons with disabilities. In 2013, it enacted Ordinance 13-05, redefining SHU to exclude group homes from qualifying as an SHU so that they are subject to enforcement and closure by the City. In 2014, the City enacted Ordinance 14-13, narrowing its RA requirements, further narrowing the SHU definition, defining group homes in terms of the disability status of residents, and retroactively prohibiting group home in the City's R-1 districts unless permitted. Permitting, however, was subject to several discriminatory conditions. See Zoning Code, Tit. 13, Chapters I, XV. In 2015, the City extended its group home regulations to its multi-family residential districts, imposing additional permitting requirements that apply to no other businesses providing housing in the City. See Zoning Code, Tit. 13,Chapter XVI and Bus. Reg., Chapter II, Article 23. That same legislation imposed discriminatory hearing and notice requirements on group homes that apply to no other land uses regulated by the City.

Several group homes have challenged the application of these regulations to them individually and have lost for a variety of reasons before federal District Judge James Selna. But no court has ever addressed whether the City's group home regulations are themselves discriminatory on their face – until last week. An order by Judge Selna, dated January 12, 2022, finds that the regulations do indeed discriminate on their face, presenting a prima facie case of intentional discrimination committed by the City of Costa Mesa.

The City's current Zoning Code violates state and federal nondiscrimination laws, including Cal. Govt. Code § 65008. For that reason and others, it also violates state Housing Element and Affirmatively Furthering Fair Housing requirements. For HCD to approve the updated draft would be to give its stamp of approval to intentional discrimination on the basis of disability and make a

mockery of the State Planning and Zoning Law requirements under the Cal. Govt. Code.

Thank you for your consideration.

Yours truly,

Policy Recommendations for 6th Cycle Housing Element

Dear Planning staff:

YIMBY Law submits this letter to share our policy goals and recommendations for the Policies and Programs section of your Housing Element. We appreciate the opportunity to participate in the Housing Element process.

The Policies and Programs section of the city's Housing Element must respond to data, analysis and findings presented in the Housing Needs section. We repeatedly see findings that housing prices are high, segregation exists, and there is a lack of housing for special populations, but the Policies and Programs don't respond to these findings or try to change outcomes. The overview of the city's housing environment should set the scene, and the policies and programs should explain what the city is going to do to fix it.

Our policy goals are as follows:

Affirmatively Furthering Fair Housing

1. **Prioritize rezoning in high resource, historically exclusionary neighborhoods.** Many of the highest resource neighborhoods with the best access to jobs, good schools, and other amenities have histories of exclusion which are still reflected in their zoning. Cities should rezone to allow more housing opportunities in those neighborhoods, particularly those with low Vehicle Miles Traveled, as part of their

Housing Elements.

2. **Establish a strong tenant protection ordinance so that new housing benefits everyone.** Development should not permanently displace current residents. Housing replacement programs, temporary housing vouchers, right of return, and demolition controls will create stability for renters while allowing new homes to be built for new households and to accommodate the growth associated with RHNA. In your sites inventory and rezoning programs, you should prioritize development on sites with owner-occupied housing & commercial uses over those with existing rent-controlled apartments or other rental housing with lower income residents.

3. **Support homeownership opportunities for historically excluded groups.** Homeownership continues to be a path to building financial security and inter-generational wealth, which has been systematically denied to many Americans. As a society, we need to make this right by intentionally offering opportunities to communities who have been excluded. The housing element should identify opportunities to create a variety of for-sale housing types and create programs to facilitate property ownership among excluded groups.

Site Capacity

4. **Adequately plan for density.** Ensure that a site's density will accommodate the number of homes that are projected to be built. In addition, make sure height limits, setback requirements, FAR, and other controls allow for adequate density and the ability to achieve a site's realistic capacity. Housing will not be feasible if you have a high density paired with low height limits. This density should be emphasized around jobs and transit and should go beyond the Mullin density in those areas.

5. **Provide sufficient zoned capacity to accommodate all income levels, including a minimum No Net Loss buffer of 30%.** Not every site will be developed at maximum density during the eight-year planning period. Identify an ample amount of opportunity sites and zone the sites to accommodate lower-income housing types (usually a statutory minimum of 30 dwelling units per acre) to give the city the best chance at meeting its RHNA.

6. **Use data from the 5th Cycle to calculate the likelihood of development for your 6th Cycle site inventory.** Likelihood of development is a measure of the probability of an inventory site being developed during the planning period. The median likelihood of development across the state is 25%, meaning only one of every four sites will likely be developed during the planning period for the median city. Incorporating the likelihood of development into the zoned capacity will set the city up to successfully achieve their RHNA, making the housing element less of a paper exercise and more of an actionable, functional document.

Accessory Dwelling Units

7. **Commit to an automatic mid-cycle adjustment if ADU permitting activity is lower than estimated in the housing element.** We highly recommend complying with HCD's standards of using one of its "safe harbor" methodologies to anticipate future ADU production. However, if the city is optimistic about ADU growth, then creating an automatic mid-cycle adjustment will automatically facilitate alternative housing options (i.e., a rezoning program, removing development constraints, ADU incentives, etc.) if the city falls behind the estimated ADU production.

8. **Incentivize new ADUs, including those that are rent-restricted for moderate- or lower-income households or that are prioritized for households with housing choice vouchers.** Consider offering low- or no-interest loans, forgivable loans, impact fee waivers for ADUs that are 750 square feet or larger, allowances to facilitate two-story and second-story ADU construction, etc.

Zoning

9. **Allow residential to be built in areas that are zoned for commercial use.** There are a myriad of ways to do this, but a housing overlay is one common policy. Additionally, consider eliminating new commercial space in mixed-use developments where there is not a strong demand or there is otherwise a glut of commercial space that is unused or frequently vacant.

10. **Allow flexibility in inclusionary zoning.** Cities should require different percentages for different AMI levels. Additionally, we urge cities to incentivize land

dedication to affordable developers in order for market-rate developers to meet their inclusionary requirements. Avoid getting trapped into thinking that the affordable units must be "sprinkled throughout" the market-rate units, or require the market-rate units to look exactly the same as the affordable ones. This should be balanced against not locating all of the affordable units in one place and ghettoizing neighborhoods by creating or perpetuating racially concentrated areas of poverty.

Better Entitlement Process & Reducing Barriers to Development

11. **Ensure that the city has a ministerial process for housing permitting, especially multi-family housing, and remove impact fees for deed-restricted housing.** A discretionary process for housing development creates uncertainty and adds to the cost of construction. For example, multi-family housing should not require a conditional use permit or city council approval unless the builder is asking for unique and extraordinary concessions. Right-sizing governmental constraints, entitlement processes, and impact fees will help the city successfully meet its RHNA.

12. **Reduce parking standards and eliminate parking minimums.** Minimum parking requirements are a major constraint on housing, especially for lower cost housing types. They can cost in excess of $30,000 per spot and can raise rents by as much as 17%, and eliminating them is particularly important for smaller & other spatially constrained sites. Consider adopting a parking maximum.

13. **Cap fees on all new housing.** Most construction costs are outside the City's control, but reducing impact fees can demonstrate that a city is serious about building new housing. At a minimum, cities should delay the collection of impact fees until the issuance of the certificate of occupancy to reduce financial impacts on new housing and make the units cheaper by not asking the developer to carry impact fee charges or debt throughout the construction phase.

14. **Provide local funding.** One of the largest barriers to building new affordable homes is the lack of city/county funds available to assemble sites, provide gap funding, and to pay for dedicated staff. Without new funding, especially at the local level, we will not be able to build more affordable homes. There are three

new revenue streams that should be considered: 1) **Transfer tax**, a one-time payment levied by a jurisdiction on the sale of a home, may be utilized to raise much needed revenue to fund affordable homes; 2) **Vacancy tax** may be collected on vacant land to convince landowners to sell their underutilized properties and be used to fund the construction of affordable homes; 3) **Commercial linkage** fees should be adopted or revisited for increases on new commercial developments.

We urge you to include these policies in your 6th cycle Housing Element.

Best regards,

Sonja Trauss

Costa Mesa Affordable Housing Coalition

February 1, 2022

Mayor John Stephens and Members of the City Council
City of Costa Mesa
77 Fair Drive
Costa Mesa, CA

RE: Measure Y and Complying with Costa Mesa's RHNA Requirement

Dear Mayor Stephens and Council Members:

There are two critical things Costa Mesa must do to comply with its legal obligation to accommodate its 2021-2029 RHNA for lower income households. The first thing is to **adopt a strong inclusionary housing ordinance** requiring **a minimum of 15%** of all new homes to be affordable to lower income households. The second is to **amend Measure Y** so it no longer impedes housing development in Costa Mesa.

Members of the Costa Mesa Affordable Housing Coalition (the Coalition) participated in the City's well-attended January 11th community meeting on Measure Y. We were very pleased to hear **widespread support for amending Measure Y**. Many residents who called in during the meeting specifically lamented Costa Mesa's lack of affordable housing. These same residents expressed the common sense view that Measure Y's burdensome "city-wide vote" requirement is impeding the construction of new residential development in our city. While a few commenters warned the City not to touch Measure Y, the vast majority of callers supported amending this voter-enacted law so Costa Mesa can gain the affordable housing so many of our residents desperately need.

In my public comments, I suggested the City should **amend Measure Y to state that it does not apply to <u>any housing development which includes a</u> <u>minimum percentage</u> of lower-income affordable units**. At the time, I urged a 20% requirement for exemption from Measure Y. While 20% would be terrific, our Coalition would also support a 15% lower-income affordable requirement for exemption from Measure Y. Absent such an amendment, Costa Mesa will never meet its lower income RHNA obligation, and its residents will continue to suffer the life-constricting consequences of paying unaffordable rents. We urge you to act.

Thank you for considering our concerns about the draft 2021-2029 Housing Element Update.

Sincerely,

Kathy Esfahani

Costa Mesa, CA 92626

RE: Agenda Item 1. CITY OF COSTA MESA 2021-2029 (SIXTH CYCLE) HOUSING ELEMENT

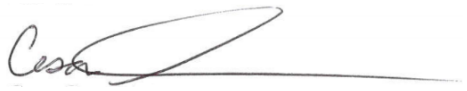
Dear Honorable Mayor Stephens:

The Kennedy Commission (the Commission) is a broad based coalition of residents and community organizations that advocates for the production of homes affordable for families earning less than $27,000 annually in Orange County. Formed in 2001, the Commission has been successful in partnering and working with Orange County jurisdictions to create effective housing and land-use policies that has led to the new construction of homes affordable to lower income working families.

In order to meet its 2021-2029 RHNA goals, the City must adopt an Inclusionary Housing Ordinance with a 15% requirement of affordable housing production at extremely low, very low and low-income categories. In addition, the City must exempt affordable housing development projects, especially those that include extremely low, very low, and low-income units. Measure Y is the City's largest constraint to affordable housing development. By requiring a "city-wide vote", Measure Y is preventing the devlopment of much needed affordable housing.

Density bonus alone will not develop affordable housing that is needed in the City. The City's 5th Cycle RHNA progress demonstrates that above moderate income housing production has outpaced lower income housing development by a 38 to 1 ratio. The density bonus alone has not been effective in producing affordable housing for lower income households. From 2014-2020, only 30 permitted units were issued at low and very low income. Of those, **only 9 units** are deed restricted at very low and 21 units are non-deed restricted ADUs at very low and low income.

We strongly encourage the City to prioritize the development of affordable homes to better meet the housing needs of low income residents in Costa Mesa. The Commission has provided the following recommendations for the City to consider:



1. Adoption of an effective Inclusionary Housing Ordinance with a 15% requirement of affordable housing production at extremely low, very low and low-income categories within the first 2 years of the next planning period.
    a. The Housing Element should be revised to contain a clear commitment to adopt an Inclusionary Housing Ordinance by October 2022 in order to have a beneficial impact in the upcoming planning period.
    b. The City must adopt the Inclusionary Housing Ordinance prior to any zoning changes or other land use changes that could negatively affect allowable residential densities needed to meet 2021-2029 RHNA goals.

2. The City must make mid-cycle adjustments to programs to better facilitate affordable housing development if RHNA goals are not moving forward during the first half of the 2021-2029 planning period, especially among low, very low, and extremely low income.

3. The City's largest constraint to affordable housing development is Measure Y because it incentivizes less dense and thus unaffordable development. The City must exempt affordable housing development projects especially those that include extremely low, very low, and low-income units.

The Commission looks forward to partnering with the City to increase affordable home opportunities for lower income households in the Costa Mesa. Please keep us informed of any updates and meetings regarding strategies to increase affordable homes for lower income households in the City. If you have any questions, please feel free to contact me at (949) 250-0909 or cesarc@kennedycommission.org.

Sincerely,

Cesar Covarrubias

RE: City of Costa Mesa's 6th Cycle (2021-2029) Draft Housing Element

Dear Mr. McDougall and Ms. Prasse,

The City of Costa Mesa's Draft Housing Element update for the Sixth Cycle (2021-2029) does not address the comments relating to "Housing for Persons with Disabilities" that the California Department of Community Development ("HCD") provided to Costa Mesa in your letter, dated December 3, 2021. (Attachment 1.) We (and others) raised this issue through written comments before the City Council's January 11, 2022, public hearing on the draft Housing Element update. (Attachment 3.) City staff and the City Council did not address (or even acknowledge) our comment letters during the public hearing.

Insight's Housing in Costa Mesa

As you may recall, my company (Insight Psychology and Addiction, Inc.) provides supportive housing for adults transitioning from 24-hour psychiatric care to community living (i.e., being able to live where and with whom one chooses, such as living alone, living with loved ones, or living with housemates/roommates). Our housing is located in one of Costa Mesa's multifamily residential zoning districts. At the time we established our housing (which consists of six units, each with six or fewer beds), it was permitted by right.

The purpose of our housing is to foster autonomy in the least restrictive environment possible. For this reason, our Costa Mesa housing does not provide any licensable services on site and, therefore, is not required to obtain — nor eligible for — any state licenses. Although there is a desperate unmet need for this type of transitional supportive housing, there is no other housing like it in Orange County. (See Attachment 6, pp. 64, 67-68, ¶¶ 20-21, 37-40.) We are not a sober living home. We are not a licensed residential care facility. Costa Mesa created definitions of "family" and "single housekeeping unit" that are designed to ensure our residents could never qualify. (See Attachment 12, pp. 94, 101.)

4000 Birch Street, Suite 112A • Newport Beach, CA 92660

Costa Mesa's Group Home Regulations

In late 2015, Costa Mesa adopted group home regulations and operator's permit requirements for "group homes" in multifamily zones. The express purpose of the City's group home regulations is to address a perceived "proliferation" of a narrow subset of group homes — i.e., sober living homes. (Attachment 4, p. 2, last recital.) Costa Mesa did not perform any technical studies or other formal analysis for its group home regulations (Attachment 12, p. 56), and Costa Mesa's Director of Economic and Development Services (Jennifer Le) acknowledges its group home regulations were largely based on "unsubstantiated citizen complaints." (Attachment 13, p. 6, ¶ 16.)

Impact of Group Home Regulations on Shared Housing for People with Disabilities

The City's group home regulations set out to reduce the number of group homes in the City, and they are working as designed. They have had a drastic impact on the City's stock of shared housing for people with disabilities:

Group Home Beds*	2014	2017	2021
Beds in the Single Family Residential Zone	386	425	183
Beds in Multi-Family Residential Zones	762	1,273	296**
Beds in Other Zones	76	82	0
TOTAL BEDS	**1,224**	**1,780**	**479**

* All of these figures come from the City's own data, which Insight provided to the City in connection with its summary judgment motion in its legal action against Costa Mesa. (See Attachments 19, 20, and 21; see also Attachment 13 [Exhibit 2 – 2014 data]; Attachment 13 [Exhibit 3 – 2017 data]; Attachments 14-18 [2021 data].)

** This figure and the grand total include the 30 beds my company is currently providing. Closing Insight's housing will therefore, result in a further loss of 6.26% of the City's total beds (i.e., 30 of 479 is 6.26%).

Impact of Group Home Regulations on Insight's Housing

My company's experience navigating Costa Mesa's group home regulations is a case-in-point on why the City has lost so many of its group homes and has not replaced them with new operators. Even though our housing is a lawful preexisting use, Costa Mesa's group home regulations purport to require it to obtain a conditional use permit (CUP) and require it to comply with the City's 650-foot separation requirement (i.e., group homes cannot be located within 650 feet of a state-licensed facility or another group home). City staff told us our housing ***cannot obtain a CUP*** because it is 476 feet and 636 feet respectively from state-licensed residential drug or alcohol treatment facilities that are located outside Costa Mesa's jurisdiction in unincorporated

Orange County. Notably, our housing was there first, but that was irrelevant to the City. (Attachment 9, p. 41].)

We applied for a reasonable accommodation asking the City to relax its separation requirement in this instance to allow us to continue providing this much-needed housing. (Attachment 6.) We told the City there is no other housing like ours in Orange County. (Attachment 6, pp. 6, 12; Attachment 9, p. 23.) We told the City we cannot feasibly move our housing to another location. (Attachment 9, p. 32.) We pointed out that we'd been providing our housing for more than three years with no code enforcement complaints. (Attachment 9, p. 33-37, 40.) We offered to stipulate to conditions of approval to address the City's stated concerns (e.g., limiting occupancy, limiting vehicles). (Attachment 8, pp. 39-40; Attachment 9, p. 29.) Nevertheless, Costa Mesa ***denied*** our accommodation request to relax the separation requirement because, in their words, "[i]t doesn't meet the separation requirement." (Attachment 9, p. 70, lines 14-17.)

The process took ***more than three years*** (October of 2016 through November of 2019). We spent ***hundreds of hours*** on submittals and ***thousands of dollars*** on application fees and mailing labels. We endured ***two vicious public hearings***, one for the Planning Commission and one for the City Council. Before both hearings, the City sent mailers to the owners and occupants of all of the properties within 500 feet of our housing and published notice on its website and in the newspaper identifying our housing as a "group home" and, in doing so, "outing" our residents' disabilities to their neighbors and the community as a whole. At those hearings, public commenters did not hide their fear and animosity about people with disabilities. (See, e.g., Attachment 9, p. 53, lines 22-23 ["... somebody is mentally disabled does not belong in a neighborhood next door to me or any of us in this room."]; id., at p. 54, lines 17-22 ["... mentally ill cannot associate with our children, neighbors. They are just having a ... disability that can be helped only in a mental institution."].) It wasn't just me who had to withstand this cruelty — two of my former residents attended the Planning Commission hearing, and one of my former residents attended the City Council hearing. (Attachment 8, pp. 74-77 ["When you say no to Nsight, you're saying no to a woman like me..."]; Attachment 9, pp. 59-60.)

Our request was doomed from the start. The City has since acknowledged that there was never any possibility the City would relax the separation requirement for us because the Council had previously given "very clear direction that they didn't want to have any kind of deviation from the 650-foot separation, no matter what type of group home it was." (Attachment 11, p. 112, lines 22-25.) Indeed, even though more than twenty preexisting group homes have requested the City relax the separation requirement to allow them to continue providing housing, Costa Mesa has ***never*** approved such a request for a group home that required a CUP. (Attachment 22.)

Litigation Regarding Costa Mesa's Group Home Regulations

In March of 2020, my company and one of our former residents filed a legal action against the City of Costa Mesa alleging its actions with respect to Insight violate a variety of fair housing and disability discrimination laws — *Insight Psychology and Addiction, Inc. v. City of Costa Mesa*, United States District Court for the Central District of California, Case No. 8:20-cv-00504-JVS-JDE. Our trial date is April 5, 2022, and we currently have cross motions for summary judgment pending (with a hearing date of February 14, 2022).

Contrary to the City's claims in its revised Housing Element update, the City's group home regulations have ***not*** been "upheld by numerous courts in both state and federal court." (Attachment 2, p. 3-21.) Conspicuously, the City's proposed changes to its Housing Element update do not cite any legal decisions upholding its (or any other agency's) group home regulations. There are numerous decisions finding similar regulations in other cities discriminatory, such as *Pacific Shores Properties, LLC v. City of Newport Beach*, 730 F.3d 1142, 1165 (9th Cir. 2013) ("Subjecting an entity protected by anti-discrimination laws to a permit or registration requirement, when the requirement is imposed for a discriminatory purpose, has obvious adverse impacts upon that entity ... This would be true even if such permits were granted freely, which is decidedly not the case here.")

In fact, a recent United States District Court decision denied Costa Mesa's motion for summary judgment in an action brought by an operator of a sober living home (Ohio House, LLC). With respect to that disparate treatment claim, the Court found:

> ... Ohio House has presented evidence from which ***a reasonable jury could conclude that there are no set of circumstances under which the Regulations would be valid***. For instance, if the fact-finder accepts Ohio House's claim that the Regulations are impermissibly discriminatory under a disparate treatment theory, they could conclude that this would be true in every circumstance. This is especially true because ***the City has not identified any circumstances under which the Regulations would be permissible*** if Ohio House otherwise proves its discrimination claim.

(Attachment 5, p. 16 [emphasis added].) The legality of the Costa Mesa's group home regulations are very much in question.

Unrefuted Expert Analysis Shows Disparate Impact

In connection with Insight's legal action, Insight retained a well-respected demographer and statistician (Ann Moss Joyner of the Cedar Grove Institute for Sustainable Communities) to analyze the impacts of Costa Mesa's group home regulations. To Insight's knowledge, no one has done this before (including the City). Ms. Moss Joyner prepared a detailed report. (Attachment 23.) Her conclusions are on pages 88-89. Among other things, Ms. Moss Joyner concluded:

> - I find that the City's zoning regulations on Group Homes and boardinghouses reduce the availability of housing for people with disabilities in ways that they do not restrict the availability of housing for the population at large living in dwellings that are less likely to house people with disabilities (e.g. single family and multifamily housing).
>
> ...

> - I find that the City set out to reduce the presence of existing Group Homes in the City and did this by its use of its Zoning Code, its Special and Conditional Use Permit process, its Reasonable Accommodation process, and its implementation practices, all of which reduced the availability of Group Homes as supportive housing for those with disabilities.
>
> - I find that the City's Zoning Code, its Special and Conditional Use Permit process, its Reasonable Accommodation process, and its implementation of implementation practices made it more difficult to site Group Homes than to provide housing for the residents of the City without disabilities (e.g. single family and multifamily housing).
>
> ...
>
> Taken together, all of the analysis above shows that the City set out to reduce the purported "overconcentration" of Group Homes without providing a mechanism whereby there were sufficient sites wherein Group Homes that serve residents with varied kinds of disabilities might locate within the City with City approval. Thus, the result is a severe reduction in the availability of supportive housing for residents with disabilities in Costa Mesa and – without Insight's supportive housing – no transitional community supportive housing for those with mental health disabilities.

(Attachment 23, p. 89.) Insight provided this report to the City in July of 2021. After that, the City had two months to retain its own expert to peer review Ms. Moss Joyner's findings and prepare a rebuttal report. Insight does not know what effort, if any, the City made to find an expert to review Ms. Moss Joyner's findings, but what is clear is that ***the City has never provided a rebuttal report***. To Insight's knowledge, Ms. Moss Joyner is the only expert who has ever analyzed the impacts of Costa Mesa's group home regulations.

Housing Element Update

Costa Mesa's housing regulations must proactively account for the needs of residents with disabilities. Its housing element must include "[a]n analysis of any special housing needs, such as those of ... persons with disabilities." Gov. Code § 65583(a)(7). Its zoning actions are "null and void" if they deny "to any individual or group of individuals the enjoyment of a residence ... because of ... [disability]." *Id.*, at § 65008(a)(1)(B). Even if the City claims its group home regulations are ***intended*** to "benefit" people with disabilities (which Insight disputes), this Housing Element update requires Costa Mesa to take stock and meaningfully analyze whether its group home regulations are ***actually*** benefitting people with disabilities who rely on shared housing. They are not. They have resulted in the loss of more than 70% of the City's group home beds since 2017. (See Attachments 20-21.)

Insight, its residents, operators of many other group homes, their residents, and disability rights advocates have been ringing the alarm bell for years that there are serious problems with Costa Mesa's group home regulations. The City has ignored us.

Your office's December 3, 2021 comment letter told the City in no uncertain terms that it needs to undertake a "specific analysis of these and any other constraints, including their enforcement and considering public comments, for impacts on housing for persons with disabilities and add or modify programs as appropriate." (Attachment 1, p. 8.) Instead of providing the "specific analysis" HCD and the Housing Element Law requires, Costa Mesa's revised Housing Element update adds superficial language that, in many instances, is demonstrably false:

Additional Language in Housing Element Update	Insight's Response
Group Homes	
"Although there are several different housing types outlined in the zoning code including group homes, the City's zoning code does not exclude group homes or more specifically housing for disabled people from any residential zones in the City. On the contrary, disabled individuals can live in any residential property in the City." (Attachment 2, p. 3-21.)	Many people with disabilities (including residents of our housing) cannot "live in any residential property in the City." This is no different than telling individuals who rely on wheelchairs they can live in "any residential property" without regard to whether the property has wheelchair access. As a result of our residents' disabilities, they need shared housing — it is therapeutic for individuals transitioning from inpatient psychiatric hospitals to have housemates going through similar experiences they can confide in. As a result of their disabilities, they do not have the ability to arrange this housing for themselves (e.g., find an available unit, furnish it, set up utilities, find roommates with similar disabilities, etc.). They need someone (in this case, Insight) to make those arrangements for them. Importantly, the City's Zoning Code does not allow group homes in the exact same places it allows single and multi-family dwellings. To illustrate, if Insight stopped providing its shared housing for people with disabilities (which the City deems an unpermitted "group home"), the City would permit (by right) the ***same six units*** to be used for apartment rentals for the ***same number of occupants*** (or more) with the ***same number of vehicles*** (or more) with no requirements for length of tenancy. If our units were used for apartment rentals, they would not need a CUP or

Additional Language in Housing Element Update	Insight's Response
	operator's permit. There would be no separation requirements.
"The city's code provisions regarding group homes have been upheld by numerous courts in both state and federal court." (Attachment 2, p. 3-21.)	This is false. See Attachment 5 for an example of a recent Federal Court decision that held "a reasonable jury could conclude that there are no set of circumstances under which the Regulations would be valid."
The group home regulations are "intended to and actually protective of persons with disabilities." (Attachment 2, p. 3-21.)	The Housing Element Law requires the City to evaluate the ***actual results*** of its housing regulations (not their intended results). Costa Mesa's group home regulations have resulted in a loss of more than 70% of its group home beds. (See Attachments 20-21; see also Attachment 13 [Exhibit 3 – 2017 data] and Attachments 14-21 [2021 data].) At a minimum, the Housing Element Law requires the City to investigate whether its own actions are a constraint of shared housing for people with disabilities. Based on Insight's experience navigating the City's group home regulations, and the City's own data, the obvious, unavoidable answer is yes.
"Group homes are intended to be integrated into residential communities for the benefit of both the disabled and the non-disabled." (Attachment 2, p. 3-21.)	The City's SUP, CUP, operator's permit, and separation requirements make it exceptionally difficult to site group homes in the City's residential zoning districts. They have not resulted in group homes being "integrated into residential communities." There were substantially more group homes in residential communities before the City adopted its group home regulations than there are now. The only areas where the City's zoning purports to permit group homes by right are ***institutional*** districts (where the Land Use Element of the City's General Plan outright prohibits residential uses).
"The City's code protects the disabled from being forced to live in multiple adjoining properties clustered together -- institutionalized settings -- in crammed quarters, subject to eviction without warning and left vulnerable and homeless in a	"Multiple adjoining properties clustered together" is not an "institutionalized setting[]." It is simply medium or high density housing (e.g., apartment rentals or condos). The City's zoning allows this kind of housing ***by right*** for multi-family units. It should do the same for group homes.

Additional Language in Housing Element Update	Insight's Response
City far from their actual homes." (Attachment 2, p. 3-21.)	Other than the occupancy standards in the State Housing Code, the City has no constraints on the occupancy of a single-family or multi-family household. If any household (group home or not) has "crammed quarters," the City could address this by enforcing the State's occupancy limits. Insight's housing, for instance, does not have more than two residents per bedroom. Any eviction could result in homelessness, but the City does not regulate evictions for other types of rental housing. Moreover, if the City is concerned about "eviction[s] without warning," it's regulations should preserve pre-existing group homes (not prohibit them). Instead, the City's group home regulations have resulted in numerous "eviction[s] without warning." They have resulted in the closure of more than 80 group homes with no protection or transition plan for the residents of those homes. For example, after the City denied Insight's CUP and accommodation request, the City ordered us to "cease and desist" from providing housing within 30 days. The City was not concerned about what would happen to our residents if we closed.
"It also preserves the very character of residential neighborhoods which make them desirable places to live, by preventing unreasonably increased traffic, noise, parking difficulties, and drug-related activity when residents relapse during the recovery process." (Attachment 2, p. 3-21.)	The City did no studies to determine if group homes have a greater impact on traffic, noise, parking, etc. than other types of housing. (Attachment 12, p. 56.) The City's assumption that there is more "drug-related activity" in a group home than any other type of household is based on prejudice about people in recovery. The City has no data that shows group homes generate more drug-related calls for service than other types of residences. Finally, it is incredibly disappointing that the City's Housing Element would say group homes detract from the residential character of neighborhoods or make them less desirable places to live. The residents of group homes want to live in residential neighborhoods just as much as the residents of other households. The

Additional Language in Housing Element Update	Insight's Response
	City has no data showing property values or rental values decreased in neighborhoods with group homes.
"The recovery community, including industry associations like Sober Living Network and the National Alliance for Recovery Residences, acknowledged these issues, and recommend that group recovery homes – including sober living homes – adopt model operational standards to ensure proper care of their residents. Costa Mesa's code does exactly that, regulating *operators*, not disabled individuals, and ensuring the disabled safe and appropriate residential environments." (Attachment 2, p. 3-21.)	Even if this is true, the "model operational standards" of the "recovery community" would not be appropriate for every type of group home. The residents of Insight's housing are not in the "recovery community." They are a ***clinically distinct population*** with different needs (e.g., they would not benefit from Big Book study or 12-step meetings). Simply put, you cannot have one set of "model operational standards" for every type of group home. If there are to be operational standards, the operators (or the pertinent industry) are in a better position than the City to determine what those standards should be.
"Numerous group homes for the disabled, including sober living homes have been approved and operate throughout the City. There is no shortage of options for those seeking to live in a recovery home in low or high density areas of the City." (Attachment 2, p. 3-21.)	The City's' data reports that, as of April of 2021, it has only approved 16 group homes, and at least five of those approvals (more than 30%) pre-date the City's group home regulations. Of the 67 group homes that applied for CUPs, the City has only approved one. That is an approval rate of less than 1.5%. (Attachment 23, p. 20; see also Attachment 14.)
"There is no shortage of options for those seeking to live in a recovery home in low or high density areas of the City." (Attachment 2, p. 3-21.)	Costa Mesa's approach to group homes it treats all group homes, sober living homes, and state-licensed facilities as if they are interchangeable. They are not. Different types of group homes and facilities provide different levels of care to clinically distinct populations. Even if the City had a sufficient number of one type of group home (e.g., sober living homes), it could still have a ***shortage*** of another type of group home that meets a different need (e.g., transitional housing for people with psychiatric illness who do not need addiction care). Claiming "there is no shortage of options" for people with disabilities who rely on shared housing ignores overwhelming evidence in the record from group home operators, their residents, and

Additional Language in Housing Element Update	Insight's Response
	disability rights advocates that there is a dire shortage of housing for certain groups.
"... the City does not regulate state licensed homes of six or fewer residents, as that is permitted by state law." (Attachment 2, p. 3-21.)	This is another example of Costa Mesa treating all group homes, sober living homes, and state-licensed facilities as if they are interchangeable. Our residents do not need (nor want) to live in a state-licensed home. The purpose of our Costa Mesa housing is to foster autonomy in the least restrictive environment possible. State-licensed homes provide a higher level of care that would defeat the core purpose of our housing. Importantly, Costa Mesa's group home regulations prohibit group homes within 650 feet of state-licensed facilities, so the location of these facilities (which the City cannot regulate if they have 6 beds or less) inherently impacts where group homes can be sited. For example, our housing is located within 650 feet of state-licensed facilities that opened ***after*** we had already been operating (and are outside Costa Mesa's jurisdictional boundaries), but the existence of these new facilities is the reason the City is telling us we need to shutter our housing. The City's group home regulations prioritize state-licensed facilities to the detriment of group homes. The result is that the City may have a sufficient amount of state-licensed facilities to meet the needs of its community, but it suffers from a dearth of group homes.
SOLUTION: Costa Mesa's Housing Element update should include a program that requires the City to repeal its group home regulations ***by a specified deadline***. Costa Mesa's housing should treat group homes the same way it treats other households in the same zones in the same structures. If multi-family housing is permitted by right, a household comprised of shared housing for people with disabilities in a multi-family structure should be permitted by right as well.	
Transitional Housing	
"Currently, the city permits transitional housing in consistent with the development standards and	Costa Mesa's Zoning Code definition of "transitional housing" (CMMC § 13-6) is very similar to the definition in the Housing Element Law (Gov. Code §

Additional Language in Housing Element Update	Insight's Response
regulations of the type of unit it is proposed as; for example, if a transitional housing project is proposed as a single-family unit (SFU), it is subject to the same provisions of the identified zone for a SFU. The City has identified Program 2J to update the zoning code to acknowledge transitional housing distinctively in the City's land use matrix, consistent with state law." (Attachment 2, p. 3-21.)	65582(j)). There are many types of shared housing for people with disabilities that that do not meet the Housing Element Law's definition of "transitional housing," e.g., because their length of tenancy is not necessarily six months or longer. Insight's housing is transitional (i.e., it is a safe place for psychiatric patients to transition to community living), but it does not qualify as "transitional housing" under this definition because there is no requirement that residents live there for six months or longer. Moreover, Costa Mesa's Zoning Code does not define or use the term "single-family unit" or "SFU," but its definitions of "family" and "single housekeeping unit" ***preclude*** "transitional housing" (as defined) from qualifying as either a "family" or a "single housekeeping unit" for a variety of reasons. Residents of "transitional housing": • Will not have "established ties and familiarity with each other; • Will not necessarily "share meals", "household activities", and "responsibilities"; • Probably will not share "expenses"; • Probably will not have control over who becomes a member of the household; • Probably will not share a lease agreement; • May have locks on their bedroom doors; and • May have separate food storage facilities. Many providers of transitional housing do not operate on a "nonprofit basis." If a provider of transitional housing has more than one unit or operation in Costa Mesa, it is considered an "integral facility" (see CMMC §13-6) which results in a "rebuttable presumption" that its housing is not a

Additional Language in Housing Element Update	Insight's Response
	single housekeeping unit. Costa Mesa outright prohibits group homes from operating as "integral facilities. (See CMMC §§ 9-374(b)(4), 13-311(a)(7).) Even if the tenancies of transitional housing are 6+ months, it is not clear that the City would consider this "fairly stable as opposed to transient." The City's Zoning Code does not define "transient." This means that, unless transitional housing is state-licensed and has six beds or less (in which case, State law requires Costa Mesa to treat it the same as a single-family residence), Costa Mesa will regulate it as a "group home" with: (1) discretionary permit requirements (i.e., SUP and CUP); (2) operator permit requirements; (3) separation requirements; and (4) an outright prohibition on "integral facilities (as broadly defined by Costa Mesa's Zoning Code). This is a constraint on transitional housing for all of the reasons discussed above.
SOLUTION: At a minimum, Program 2J should require Costa Mesa to amend its definition of "transitional housing" ***by a specific deadline*** to ensure that "transitional housing" is not treated differently from other households (e.g., single-family dwellings," "multi-family dwellings," "common interest developments," etc.), regardless of whether the "transitional housing" meets the City's definition of "family" and/or "single housekeeping unit."	
Supportive Housing	
"Currently, the city permits supportive housing in consistent with the development standards and regulations of the type of unit it is proposed as; for example, if a supportive housing project is proposed as a single-family unit (SFU), it is subject to the same provisions of the identified zone for a single family unit. The City has identified Program 2J to update the zoning code to acknowledge supportive housing distinctively in	Costa Mesa's Zoning Code definition of "supportive housing" (CMMC § 13-6) is very similar to the definition in the Housing Element Law (Gov. Code § 65582(g)). There are many types of shared housing for people with disabilities that that do not meet the Housing Element Law's definition of "supportive housing," e.g., because it does not restrict occupancy to the "target population" (as defined in § 65582(i)). Insight's housing is a supportive community, but it does not qualify as "supportive housing" under this definition. Although Insight's housing is affordable ($1,500/month), it does not limit eligibility to "persons with low incomes." Although virtually all

Additional Language in Housing Element Update	Insight's Response
the City's land use matrix, consistent with state law." (Attachment 2, p. 3-22.)	residents receive psychiatric services off site, Insight's housing is not "linked to an onsite or offsite service." Under Costa Mesa's Zoning Code, "supportive housing" cannot qualify as a "single-family unit" (which we infer means "family" or "single housekeeping unit") for all of the reasons discussed in the previous row. As with transitional housing, this means that, unless supportive housing is state-licensed and has six beds or less (in which case, State law requires Costa Mesa to treat it the same as a single-family residence), Costa Mesa will regulate it as a "group home" with: (1) discretionary permit requirements (i.e., SUP and CUP); (2) operator permit requirements; (3) separation requirements; and (4) an outright prohibition on "integral facilities (as broadly defined by Costa Mesa's Zoning Code). This is a constraint on supportive housing for all of the reasons discussed above.
SOLUTION: At a minimum, Program 2J should require Costa Mesa to amend its definition of "supportive housing" ***by a specific deadline*** to ensure that "supportive housing" is not treated differently from other households (e.g., single-family dwellings," "multi-family dwellings," "common interest developments," etc.), regardless of whether the "supportive housing" meets the City's definition of "family" and/or "single housekeeping unit."	
Reasonable Accommodations	
"The inherent constraints of any reasonable accommodation process are that the accommodation must be both 'reasonable' and 'necessary.' Each of these concepts are unavoidably subjective in some ways and entail a highly specific inquiry into a particular, typically unique, set of circumstances. The examples offered by HCD in its comments on the draft element reference consideration of General Plan consistency, for example. A General Plan and evaluation of uses as	Costa Mesa's "Reasonable Accommodation" procedure (CMMC §§ 13-200.60 to 13.300.63) blatantly violates federal and state fair housing and disability discrimination laws. (See, e.g., 28 C.F.R. § 35.130(b)(7); 28 C.F.R. § 35.150(a)(3).) Its submittal requirements alone (CMMC §13-200.62(a)-(b)) require a level of sophistication, time, and resources that will deter or disqualify a broad range of people with disabilities from even applying. For example, requiring the request to be submitted "in writing" disqualifies individuals who cannot write. The submittal requirements also include unrestricted catchalls allowing the Director and Hearing Officer to

Additional Language in Housing Element Update	Insight's Response
consistent or inconsistent with the General Plan may be a constraint, but both a General Plan and acting consistently with the General Plan are obligations imposed on the City by State law. Similarly, impacts to individuals and properties in the vicinity of any requested deviation from standards is a routine and appropriate factor to review in determining whether a particular accommodation requested is reasonable under all the circumstances presented. Nevertheless, the City has established Program 2N and has committed to review and revise its reasonable accommodation procedures to be consistent with the requirements of State law as needed, and to consider public comments to determine whether revisions can be made to minimize constraints in the process." (Attachment 2, p. 3-34.)	demand "[a]ny other information" they determine is necessary. In my company's case, staff used this process to justify invasive and burdensome demands into my company's proprietary business operations, which we provided because we had no other choice. The City will not grant an accommodation request unless the Director can make eight separate findings (CMMC § 13-200.62(f)), and contrary to Federal and State law, the City ***puts the burden on the requester*** to prove up ***all eight*** findings. (Attachment 8, pp. 27-28].) For example, the City's Code requires it to deny an accommodation request unless the requester can prove (among other things) that the request "will not impose an undue financial or administrative burden on the city, as 'undue financial or administrative burden' is defined in fair housing laws and interpretive case law." (CMMC § 13-200.62(f)(3).) This is an impossible task for most (if not all) requesters. It requires requesters to ***prove a negative*** (i.e., that granting their request will not result in an fundamental alternation or an undue burden), and the information needed to even begin this analysis is exclusively within the City's control. That is why State and Federal law requires agencies ***to grant*** an accommodation request unless the agency can prove doing so would be an undue burden or fundamental alteration. (28 C.F.R. § 35.130(b)(7); 28 C.F.R. § 35.150(a)(3).)

SOLUTION: Program 2N should require the City to amend its reasonable accommodation process ***by a specified deadline*** to do all of the following:

1. Specify that City staff will assist requesters with the submittal process (e.g., requesters who are not able to write may make verbal requests) (see CMMC § 13-200.62(a)-(b));

2. Clarify that requesters do not need to provide any medical information or documentation as part of their submittal for a disability-related accommodation request (see CMMC § 13-200.62(b)(2), (4));

3. Remove open-ended submittal requirements (see CMMC § 13-200.62(b)(3), (7));

Additional Language in Housing Element Update	Insight's Response
4. To protect the requesters' privacy, provide an appeal procedure that does not require any noticed public hearings or meetings of any kind that are open to the public (see CMMC § 13-200.62(d));	
5. Remove the "Grounds for reasonable accommodation" and "Findings" subsections (CMMC § 13-200.62(e)-(g)) entirely and replace them with a procedure that places the burden on the requester to establish the request is "reasonable" and "necessary" and, if the requester makes those showings, places the burden on the City to establish granting the request is an "undue burden," "fundamental alteration," or "direct threat," and specify that the City ***must grant the request*** unless it makes one or more of these findings.	
Definition of Family	
"The courts have clearly distinguished between single housekeeping units and those of a more transient nature, such as boarding homes, motels, etc. The City's code does not restrict single housekeeping units to those who are related, but does properly define a single housekeeping unit consistently with the law. State zoning law allows the city to establish zones of different residential density, such as R-1 (single family residential), R-2 (two unit/family residential), multi-family, mixed use, etc. The City's definition of family does not touch on whether the members are disabled or not, is not based on and is not intended to discriminate against any based on different levels of ability or disability." (Attachment 2, p. 3-34)	The City's residential zones regulate density of housing units (i.e., how many housing units can be on an acre) without regard to ***who*** lives in them or ***how many*** occupants live in them (subject to the State's occupancy limits). In contrast, the City's definition of "single housekeeping unit" has nothing to do with density. It regulates the occupants' relationships with each other (e.g., whether they have "established ties and familiarity with each other) and how they manage their household (e.g., whether they share common areas, meals, household activities, expenses, responsibilities, etc.). This definition also regulates the business operations of the housing provider — the "residential activities of the household" must be "conducted on a nonprofit basis." There are many households in Costa Mesa that would not meet all of the City's requirements for "single housekeeping units." For example, rental properties are not typically "conducted on a nonprofit basis." The purpose of rental properties is to draw income. Costa Mesa has no concerns about the inherently profit-driven nature of the housing market unless the property is a "group home." As another example, many blood-related households do not share meals or chores, but that result in Costa Mesa imposing heightened permitting requirements for them. The City only invokes its requirements for "single housekeeping unit" to exclude (or impose onerous

Additional Language in Housing Element Update	Insight's Response
	permitting requirements) on shared housing for people with disabilities (i.e., group homes).

SOLUTION: Add a Program requiring the City to amend its definition of "single housekeeping unit" ***by a specified deadline*** to remove arbitrary constraints on shared housing for people with disabilities. For example, "single housekeeping unit" could simply be defined as "the occupant(s) of a dwelling unit."

Conclusion

In December of 2020, the City of Encinitas adopted group home regulations that Encinitas explicitly modeled after Costa Mesa's regulations. In March of 2021, HCD sent Encinitas a Notice of Violation outlining the numerous ways Encinitas's regulations failed to protect people with disabilities. (Attachment 24.) HCD's Notice of Violation to Encinitas hit the nail on the head. My company's experience navigating Costa Mesa's group home regulations prove all of HCD's concerns were valid. For the sake of our residents and others like them whose lives depend on shared housing, we respectfully request HCD provide the same direction to Costa Mesa.

Sincerely,

Mary Helen Beatificato

Good morning,

For tomorrow's City Council meeting, please find attached DRC's public comments on Public Hearing Item #1: The City's Sixth Cycle Housing Element. It is a copy of the letter DRC submitted to HCD in regards to the City's Housing Element. The letter references a prior comment letter we submitted to the City Council on January 18, 2021, which is included here for reference as Attachment A.

Thank you,

Zeenat Hassan (she/her)

Re: PUBLIC HEARING ITEM #1 - CITY OF COSTA MESA 2021-2029 (SIXTH CYCLE) HOUSING ELEMENT (GP-21-01)

To Mayor John Stephens and the Honorable Members of the City Council:

We are writing to urge the City Council not to approve the draft Housing Element until it is revised to reflect changes that are needed in Costa Mesa's laws and procedures to reduce barriers to housing for people with disabilities. Disability Rights California is a non-profit agency established under federal law to protect, advocate for and advance the human, legal and service rights of Californians with disabilities.[1] Disability Rights California works in partnership with people with disabilities, striving towards a society that values all people and supports their rights to dignity, freedom, choice, and quality of life. Since 1978, Disability Rights California

[1] Disability Rights California provides services pursuant to the Developmental Disabilities Assistance and Bill of Rights Act, 42 U.S.C. § 15001, PL 106-402; the Protection and Advocacy for Mentally Ill Individuals Act, 42 U.S.C. § 10801, PL 106-310; the Rehabilitation Act, 29 U.S.C. § 794e, PL 106-402; the Assistive Technology Act, 29 U.S.C. § 3011,3012, PL 105-394; the Ticket to Work and Work Incentives Improvement Act, 42 U.S.C. § 1320b-20, PL 106-170; the Children's Health Act of 2000, 42 U.S.C. § 300d-53, PL 106-310; and the Help America Vote Act of 2002, 42 U.S.C. § 15461-62, PL 107-252; as well as under California Welfare and Institutions Code §§ 4900 et seq.

has provided essential legal services to people with disabilities regarding access to housing and other critical needs.

The California Department of Housing and Community Development ("HCD") sent the City a December 3, 2021 letter regarding revisions that the City must make to the draft Housing Element to bring it into compliance with the law. The December 3 letter explained that the City would need to address a number of issues concerning "Housing for People with Disabilities." However, the revisions to the draft Housing Element before the Council's consideration today fail to adequately respond to the issues raised by HCD. We write to call particular attention to the following:

1. Reasonable Accommodation

HCD's December 3, 2021 letter noted that the "additional factors" that the City may consider in its review of a reasonable accommodation application "may act as constraints," and explained that the draft Housing Element must "include specific analysis of any potential constraint, including considering public comments and add or modify programs as appropriate." The revisions to the draft Housing Element do not adequately respond to this comment. If an accommodation is necessary to provide people with disabilities full and equal access to housing due to their disabilities, an accommodation must be provided unless the City can demonstrate that doing so would be an undue financial and administrative burden or would be a fundamental alteration of the relevant programs, services, or activities. The same is true if a reasonable accommodation is necessary to provide meaningful access to housing for people with disabilities. The City's current reasonable accommodation procedures create additional and unnecessary barriers to access because they allow for consideration of additional factors, such as impact on neighbors. Impact on neighbors, for instance, may only come into the reasonable accommodation analysis if it gives rise to an undue financial and administrative burden on the City, in light of the full resources available to the City, or if it would result in an unavoidable and fundamental alteration to a relevant City program, service, or activity. Otherwise it may not be considered at all, and the City should not be inviting neighbors, who may oppose a reasonable accommodation request due to fear and stereotypes regarding people with disabilities, to weigh in on the request. Moreover,

the City's draft Housing Element notes that the City's current procedure is to consider "the extent to which the City would have to dedicate resources, such as staff time and funds, to grant the request and other requests like it." Draft HE at 3-33. This is an illegal factor: the City must consider each reasonable accommodation request on its own and may not deny an accommodation request on the grounds that others may make a similar request.

Additionally, Disability Rights California has gained some familiarity with the actual operation of Costa Mesa's reasonable accommodation process through our representation of an individual plaintiff in the *Insight v. Costa Mesa* case, and we have been appalled at what we have learned. Costa Mesa Zoning Code and practice put the burden on the *applicant* to demonstrate that a requested accommodation would not be an undue burden or fundamental alteration, which is contrary to law. Moreover, Costa Mesa requires applicants to submit their reasonable accommodation requests to City staff for a purported consideration of their request, but City staff admitted to us in deposition testimony that this is a sham proceeding in the case of group homes seeking a waiver of the City's 650-foot separation requirement, because the City Council has directed staff *never* to grant such a request.

The City's revised Housing Element neither adequately acknowledges nor responds to these problems, which result in unnecessary and illegal barriers to access for people with disabilities.

2. Definition of Family

HCD's December 3 letter observed that the City defines "family" as "a single housekeeping unit with multiple restrictions that may act as constraints on housing for persons with disabilities" and explained that the Housing Element "should include specific analysis of any potential constraint, including considering public comment and add or modify programs as appropriate." However, the revised Housing Element does not do this. The definition ignores the fact that many individuals with disabilities do have a disability-related reason for needing separate leases, or for taking their meals separately, or for keeping expenses separate from other members of the household, or for relying on a third party to

determine who else lives in the household, for instance. Public benefits programs that people qualify for on the basis of disability, such as housing or income subsidies, for instance, can require things such as separate leases, meals, or finances. People can have a disability-related reason for having separate food. Due to a disability-related impairment, a person may need a third party to organize their housing and determine who else will be living with them. The revised Housing Element does not engage with any of these matters and entirely disregards the constraints that they place on housing options for people with disabilities.

Nor does the Housing Element acknowledge that, as a practical matter, these are *only* constraints for people with disabilities. The City has no practice of investigating whether blood relatives, or roommates without disabilities, are actually eating meals or doing chores together. The restrictions only become an issue with people with disabilities are living together, because they will be treated as a "group home" if they cannot demonstrate that they are a family/single housekeeping unit.

3. Group Homes

HCD's December 3 letter accurately observes that the "City's zoning code appears to isolate and regulate various types of housing for persons with disabilities based on the number of people and other factors." As noted above, the City does not have "a barrier-free definition of family," as the December 3 letter explains is required. As a result, the City subjects housing for people with disabilities to onerous regulations and excludes them from some residential zones. And, as the December 3 letter notes, "these housing types in many cases are subject to a special use or conditional use permit, potentially subjecting housing for persons with disabilities to higher discretionary standards where an applicant must demonstrate compatibility with the neighborhood, unlike other residential uses."

The revised Housing Element does not "include specific analysis of these and any other constraints, including their enforcement and considering public comments, for impacts on housing for persons with disabilities and add or modify programs as appropriate," as the December 3 letter explains that it should. Instead, the revised Housing Element

simply argues without evidence that Costa Mesa is justified in imposing these restrictions on housing options for people with disabilities. The revised Housing Element argues that, by limiting housing options for people with disabilities, the City is actually *protecting* them. But this is nonsensical. Many people have a disability-related reason for needing to live in the kind of housing that Costa Mesa terms a "group home." Our client in the *Insight* case, for instance, is a woman with mental health disabilities who needed to live in a supportive environment for a month or two while she transitioned from a psychiatric facility to community living. Costa Mesa's group home ordinances restrict the ability of housing providers to create this kind of housing in the community. There are far too few housing options for people with disabilities as it is. And in the case of our client, enforcement of Costa Mesa's group home ordinances will result in Insight's housing being shut down, with nowhere else in the City to go. Because it is the only housing of its kind in the region, people like our client will have nowhere to go for that kind of housing, and will be either stuck in an institution or living in a housing situation that does not provide what they need.

We urge the City Council not to approve the draft Housing Element until it fully responds to these and other barriers to access for people with disabilities.

Sincerely,

Autumn M. Elliott

Re: City of Costa Mesa's 6th Cycle (2021-2029) Draft Housing Element

Dear Mr. McDougall and Ms. Prasse:

This letter follows our public comments to the City of Costa Mesa at yesterday's City Council meeting (included for your reference here as Attachment A). We write to draw your attention to the City's decision to ignore comments from our office on barriers to housing for people with disabilities and instead move forward with approval of its revised Housing Element.

Yesterday, the Costa Mesa City Council held a public hearing on revisions to its draft Housing Element (public hearing item #1 on the agenda). In accordance with the City's procedural rules, DRC emailed our written comments to the City Clerk before noon. The City Clerk confirmed receipt and informed us that our comment letter would be provided to the City Council, posted on the City's website, and made part of the meeting record. However, the City Council failed to address our comments in any way.

Our comments focused on three key points:

1) The City's reasonable accommodation process violates fair housing laws by, among other problems, considering inappropriate factors like neighbors' opinions, illegally putting the burden on applicants to demonstrate that their requested accommodation is *not* an undue burden or fundamental alteration, and having a sham administrative process that purports to evaluate reasonable accommodation requests from group home operators, when the result is in fact a foregone conclusion;

2) The City's definitions of "family" and "single housekeeping unit" discriminate against people with disabilities; and

3) The City's zoning code imposes discriminatory barriers on housing for people with disabilities.

Our letter also noted that HCD raised each of these issues in its December 3, 2021 letter to the City on its draft Housing Element, and that the City's revised Housing Element failed to consider or evaluate any of these problems. The City Council did not include our concerns in its summary of public comments. In fact, they did not discuss their zoning code's effect on housing for people with disabilities (particularly its group home ordinances) at all.

Worse, the City Council also engaged in a procedural irregularity that has the effect of curtailing opportunities for public participation. The notice of public hearing on the approval of the Housing Element stated that there would be two public hearings: the first on January 18, 2022 and the second on February 1, 2022. But at yesterday's public hearing, the City Council voted to continue the hearing to February 1, 2022. This means that there will be only <u>one</u> public hearing (held over two days) instead of two separately noticed public hearings. The City Council did this to avoid noticing the second public hearing. Their decision means that members of the public who missed yesterday's meeting will not receive notice of a second public hearing as expected.

We urge HCD not to certify the City's revised Housing Element until it addresses the identified barriers to housing for people with disabilities.

Sincerely,

Autumn M. Elliott

Subject: Public Hearing Item #1 – City of Costa Mesa 2021-2029 (SIXTH CYCLE) Housing Element (GP-21-01)

City Council Members:

Public Hearing Item #1 on your February 1, 2022 City Council Meeting Agenda states that the Council shall "adopt a Resolution that approves and adopts the Initial Study/Mitigated Negative Declaration (IS/MND) including the Mitigation Monitoring and Reporting Program, and approve General Plan Amendment 21-01 for the City of Costa Mesa 2021-2029 (Sixth Cycle) Housing Element update."

On December 23, 2021, the proposed Housing Element Update was referred to the Airport Land Use Commission (ALUC) for Orange County for a consistency determination at its January 20, 2022 meeting. After reviewing the submittal and discussing the proposed sites with Community Development staff, we received a letter from Community Development Director Jennifer Le requesting to withdraw the Housing Element Update submittal and remove the item from the ALUC agenda (see attached letter). On Friday, January 28th, we received notice that the Housing Element would be on today's agenda with a staff recommendation of approval by City Council.

Please note that housing sites proposed in the Housing Element Update fall within the Planning/Notification Area for John Wayne Airport, and therefore require ALUC review. Pursuant to California Public Utilities Code (PUC) Section 21676(b):

> "Prior to the amendment of a general plan or specific plan, or the adoption or approval of a zoning ordinance or building regulation within the planning boundary established by the airport land use commission pursuant to Section 21675, the local agency shall first refer the proposed action to the commission for a consistency review. If the commission determines that the proposed action is inconsistent with the commission's plan, the referring agency shall be notified. The local

> agency may, after a public hearing, propose to overrule the commission by a two-thirds vote of its governing body if it makes specific findings that the proposed action is consistent with the purposes of this article stated in Section 21670."

As such, in accordance with state law, the City's proposed General Plan Amendment/Housing Element Update must be reviewed by ALUC prior to approval by City Council. Otherwise, the intent of the PUC will be overlooked and the City would be in violation of PUC 21676.

Also, please keep in mind that to overrule ALUC's findings, the City must provide 45 days' notice of an intent to overrule ALUC's findings and must allow ALUC thirty (30) days to provide advisory comments before a hearing to overrule is conducted. Failing to do so would be a violation of PUC Sections 21676 and 21676.5.

Thank you for your consideration on this matter. Should you need additional information, please contact me at 949-252-5123 or lchoum@ocair.com.

Sincerely,

Lea U. Choum

Dear Lea Choum,

As we discussed, this letter is in response to the City's recent submittal and request for scheduling the Housing Element consideration at the January 21, 2022 Airport Land Use Commission regular meeting. Thank you for the time that you and other ALUC staff has provided to Costa Mesa in this regard. As we discussed, staff is considering the best options going forward and, presently, narrowing-down what this path may be. Therefore, please consider this letter as the City's request to, for now, table the ALUC review. Staff will reach out to you once a clearer direction for this review is determined.

Thank you again for your efforts assisting the City with this matter.

Sincerely,

JENNIFER LE,

Director of Economic and Development Services

Re: City of Costa Mesa: Updated Draft Costa Mesa Housing Element Sixth Cycle, 2021-2029 (January 2022)

Dear City Council Members:

On behalf of the California Consortium of Addiction Programs and Professionals (CCAPP) - the largest statewide consortium of community-based, for-profit and nonprofit recovery residences and the only National Association for Recovery Residences (NARR) affiliate in California - we object to the misrepresentation in the *City of Costa Mesa: Updated Draft Costa Mesa Housing Element Sixth Cycle, 2021-2029* (Draft dated: February 2022), which the City Council considers on February 1, 2022.

In the latest draft of the City's Housing Element (February 2022), the City of Costa Mesa continues to misrepresent the position of CCAPP and NARR. Despite our written comments to the City to the contrary, the City continues to erroneously asserts that its discriminatory zoning regulation of group homes is consistent with NARR and CCAPP's voluntary operational standards:

> The recovery community, including industry associations like Sober Living Network and the **National Alliance for Recovery Residences**, acknowledged these issues, and recommend that group recovery homes – including sober living homes – adopt model operational standards to ensure proper care of their residents. Costa Mesa's code does

exactly that, regulating operators, not disabled individuals, and ensuring the disabled safe and appropriate residential environments. (See Exhibit 1, pp. 3-20, 3-21.)

NARR and CCAPP vigorously object to this misrepresentation for two reasons:

- First, it is a deliberate misrepresentation of CCAPP/NARR's position. The City has been on notice since at least September 15, 2021, that CCAPP/NARR view the City's group homes regulations as discriminatory and injurious to disabled persons seeking housing. In fact, the City's Housing Element (February 2022) includes our written comment objecting to the City's group home regulation, including a section-by-section analysis of the City discriminatory operator's permit regulations. (Exhibit 2, [Public Comments, Updated Draft (February 2022).

- Second, the City attempts to invoke our good name as a cover for discriminatory housing regulation that we oppose, misrepresenting our position and injuring our organization.

CCAPP urges City Council and HCD to reject the City's Housing Element, as written (February 2022), because its zoning regulations continues to be discriminatory requiring housing for disabled persons to adhere to regulation that people who are not disabled are not required to conform to. CCAPP continues to oppose the adoption of the Housing Element due to the refusal, on the city's part, to rescind this ordinance.

The City's ordinance in no way resembles what CCAPP/NARR require for certification. Certification is a voluntary method of encouraging owners, operators, residents, and communities to learn and grow together. The ordinance is not even a thinly veiled attempt to ban this housing. Please refrain from insinuating that CCAPP standards resemble or support the City's ordinance in any way.

This letter serves as our notice to you that CCAPP has not changed its position on your ordinance and refutes the insinuation made by the City that CCAPP, in any way, supports the city's approach to recovery residence housing bans. As such, we respectfully request that the city ceases further enforcement of the ordinance until it is repealed. We also respectfully request that the city refund any and all permit fees, compliance-related fees, and any ordinance-related fines if levied and collected, to the recovery residences that were compelled to comply with the ordinance.

Thank you for your consideration.

Sincerely,

Pete Nielsen

Housing Element

2021-2029

CITY COUNCIL HEARING DRAFT

FEBRUARY 2022

more than 6 rooms. Small boarding house developments are permitted in all zones where manufactured/mobile homes are permitted, and large boarding house developments are conditionally permit in these zones.

Residential Care Facility

In Costa Mesa, a Residential Care Facility must be licensed by the State to provide care, services, or treatment to persons living in supportive community residential setting. Residential care facilities may include, but may not be limited to: intermediate care facilities for the developmentally disabled; community care facilities; residential care facilities for the elderly; residential care facilities for the chronically ill; alcoholism and drug abuse facilities; pediatric day health and respite care facilities; residential health care facilities, including congregate living health facilities; family care home, foster home, group home for the mentally disordered or otherwise handicapped persons or dependent and neglected children. Residential care facilities are permitted in all residential, planned development, and institutional zones.

Group Homes

A Group Home is a facility that is being used as a supportive living environment for persons who are considered handicapped under state or federal law. A group home operated by a single operator or service provider (whether State licensed or unlicensed) constitutes a single facility, whether the facility occupies one or more dwelling units. Small group homes are permitted with a special use permit in residential and planned development zones, and they are permitted as a primary use in institutional zones. Large group homes are conditionally permitted in residential and planned development zones and are permitted as a primary use in the I&R institutional zone.

Although there are several different housing types outlined in the zoning code including group homes, the City's zoning code does not exclude group homes or more specifically housing for disabled people from any residential zones in the City. On the contrary, disabled individuals can live in any residential property in the City. The city's code provisions regarding group homes have been upheld by numerous courts in both state and federal court, and have been found to be intended to and actually protective of persons with disabilities. Group homes are intended to be integrated into residential communities for the benefit of both the disabled and the non-disabled. The City's code protects the disabled from being forced to live in multiple adjoining properties clustered together -- institutionalized settings -- in crammed quarters, subject to eviction without warning and left vulnerable and homeless in a City far from their actual homes. It also preserves the very character of residential neighborhoods which make them desirable places to live, by preventing unreasonably increased traffic, noise, parking difficulties, and drug-related activity when residents relapse during the recovery process. The recovery community, including industry associations like Sober Living Network and the National Alliance for Recovery Residences, acknowledged these issues, and recommend that group recovery homes – including sober living homes – adopt model operational standards to ensure proper care of their residents. Costa Mesa's code does exactly that, regulating *operators*, not disabled individuals, and ensuring the disabled safe and appropriate residential environments. Numerous group homes for the disabled, including sober living homes have been approved and operate throughout the City. There is no shortage of options for those seeking to live in a recovery

home in low or high density areas of the City. Further, the City does not regulate state licensed homes of six or fewer residents, as that is preempted by state law.

Transitional Housing

The Costa Mesa Zoning Code defines Transitional Housing as a development with buildings configured as rental developments but operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which may not be less than 6 months. Transitional housing that is provided in single family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses, shall be permitted, conditionally permitted, or prohibited in the same manner as the other single-family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses. Currently, the city permits transitional housing consistent with the development standards and regulations of the type of unit it is proposed as; for example, if a transitional housing project is proposed as a single-family unit (SFU), it is subject to the same provisions of the identified zone for a SFU. The City has identified **Program 2J** to update the zoning code to acknowledge transitional housing distinctively in the City's land use matrix, consistent with state law.

Supportive Housing

Supportive Housing includes housing with no limit on length of stay, that is occupied by the target population, and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing their ability to live and, when possible, work in the community. Supportive housing that is provided in single family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses, shall be permitted, conditionally permitted, or prohibited in the same manner as the other single-family dwelling, multi-family dwelling units, residential care facilities, or boarding house uses. Currently, the city permits supportive housing consistent with the development standards and regulations of the type of unit it is proposed as; for example, if a supportive housing project is proposed as a single-family unit (SFU), it is subject to the same provisions of the identified zone for a single family unit. The City has identified **Program 2J** to update the zoning code to acknowledge supportive housing distinctively in the City's land use matrix, consistent with state law.

Referral Facility

A Referral Facility or a group home may include one or more person who resides there pursuant to a court order or directive from an agency in the criminal justice system. Referral facilities are conditionally permitted in the R2-MD, R2-HD, and R3 residential zones, the PDR-MD, PDR-HD Planned Development zones and the C2 commercial zone.

September 15, 2021

Lori Ann Farrell Harrison
City Manager
City of Costa Mesa
77 Fair Dr.,
Costa Mesa, CA 92626

Re: Objection to Housing Element.

Dear Ms. Harrison:

On behalf of the California Consortium of Addiction Programs and Professionals (CCAPP) - the largest statewide consortium of community-based for profit and non-profit recovery residences – we respectfully object to Costa Mesa's housing element because it contains discriminatory clauses against people in recovery in blatant violation of fair housing.

Several items[1] in Costa Mesa's municipal code (see detailed list attached) echo practices already proven discriminatory per the outcome of Encinitas and *Pacific Shores et. Al. v. City of Newport Beach.* They specifically target recovery residences and are discriminatory at every level because they ask people of a disabled class to adhere to regulation that people who are not disabled are not required to conform to. Employment checks, 24-hour supervision of adults in recovery, and distance requirements are glaringly not "reasonable accommodations," in any sense of the definition.

On March 25, 2021, the Department of Housing and Community Development (HCD) sent the City of Encinitas a letter declaring their ordinance to be discriminatory and contrary to both state and federal law (see attached). This led to an immediate response from the city and this ordinance has since then been repealed. Subsequently, on May 3, 2021, the City of Anaheim was sent a letter of technical assistance regarding its discriminatory ordinance that is very similar to the Encinitas notice of violation. CCAPP has notified HCD of all known ordinances of similar nature including yours so that the same enforcement action can be taken.

In *Pacific Shores et. al. v. City of Newport Beach,* the City of Newport Beach settled with the plaintiffs, agreeing to pay $5.25 million to a group of recovery residences. Given the settlement and both outside and in-house counsel, this case cost the City of Newport Beach well over $10 million over the seven year course of trying to defend its actions. This outcome was prior to the attached 10-page notice of violation sent to the City of Encinitas which reads, in part:

---

[1] Title 9, Chapter II, Article 23 of the Municipal Code, Chapters XV and XVI of Title 13 (Zoning), and Article 23 of Title 9 (Licenses and Business Regulations)

> "On December 16, 2020, the City adopted Ordinance No. 2020-16, amending the Municipal Code to regulate Group Homes and, as a subset of Group Homes, Sober Living Facilities. Described in greater detail below, HCD finds that the City's ordinance is in violation of statutory prohibitions on discrimination in land use (Gov. Code, § 65008) by imposing separate requirements on housing for a protected class (based on familial status and disability), limiting the use and enjoyment of their home, and jeopardizing the financial feasibility of group and sober living homes. The City must take immediate steps to repeal Ordinance No. 2020-16."

The notice of violation is a clear and unmistakable declaration that these ordinances are in violation of state housing laws. It also makes clear that HCD will take action, up to and including, the assistance of the California Office of the Attorney General.

And it is for these reasons that we object to your housing element as proposed.

Sincerely,

Pete Nielsen

Pete Nielsen
President and Chief Executive Officer

Specific Considerations Objectionable in the Municipal Code

1. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

   (a) The owner/operator shall submit an application to the director that provides the following information:

   (7) relapse policy

   Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

   (a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

   (1) An application for a group home is submitted to the director by the owner/operator of the group home. The application shall provide the following:

   (vii). The relapse policy;

   These provisions target persons with disability. Other homes within the jurisdiction are not required to report to the city when a person relapses or what preparations are made for such an occurrence.

2. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

   (b) *Requirements for operation of group homes.*

   (1) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a twenty-four (24) hour basis and who are responsible for the day-to-day operation of the group home.

   Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

   (a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

   (4) The group home has a house manager who resides at the group home or any multiple of persons acting as a house manager who are present at the group home on a twenty-four (24) hour basis and who are responsible for the day-to-day operation of the group home.

   Recovery residences are homes, not facilities. There are no "day-to-day operations" which require 24 hour supervision. This requirement, particularly for smaller homes will make it economically unfeasible to exist. Recovery residences cannot simply require 24-hour supervision without paying the persons responsible for providing this service. Typical, house managers, senior residents, or mentors are paid a small stipend of their contributions to the leadership they provide. To change this model to 24-hour supervision would make this type of housing unaffordable. Three 8-hours shifts at $15 per hour would increase the cost of the unit to $2,520 per week, or $10,080 per month. If it is the city's intention to expel this housing from the jurisdiction via onerous financial requirements, the resulting homelessness increase should be taken into consideration.

   Persons in this stage of recovery are not in need of supervision as determined by the American Society of Addiction Medicine:

Although persons in recovery are afforded protections under the Americans with Disabilities Act, the disability concerned does not imply that persons in recovery are in need of physical assistance (dressing, feeding) or in need of supervision. In fact, the American Society of Addiction Medicine Placement criteria for addictions patients, originally published in 1991 and now in its third edition (2013), directly contradicts the notion that persons in recovery residences are being supervised, in a clinical sense. Use of this criteria is a decades old industry standard and is now required for all programs licensed or certified by the Department of Health Care Services. By definition, persons living in a recovery residence do not require supervision. Applying ASAM criteria, persons in a supportive living environment would, at most, be classified as level 1.0, although many in long term recovery may not even be assessed as needing any treatment:

"At ASAM Level 1 placement/Recovery Environment, it is clear that medical experts do not consider supervision to be necessary. Likening this level to a mental health scenario, one could compare this level to a patient who has received a higher level of care, inpatient or otherwise, and is now perhaps receiving medication and attending weekly therapy."

3. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(b) Requirements for operation of group homes.

(11) In addition to the regulations listed above, the following shall also apply to sober living homes:

i. All occupants, other than the house manager, must be actively participating in legitimate recovery programs including but not limited to Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rule and regulations, refusal to actively participate in such a program shall be cause for eviction.

ii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least ninety (90) days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

(e) In addition to denying an application for failing to comply, or failing to agree to comply, with subsections (a) and/or (b) of this section, an operator's permit shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following circumstances:

(6) An operator's permit for a sober living home shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following additional circumstances:

i. The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

ii. All occupants, other than the house manager, must be actively participating in legitimate recovery programs, including, but not limited to, Alcoholics Anonymous or Narcotics Anonymous and the sober living home must maintain current records of meeting attendance. Under the sober living home's rules and regulations, refusal to actively participate in such a program shall be cause for eviction.

iii. The sober living home's rules and regulations must prohibit the use of any alcohol or any non-prescription drugs at the sober living home or by any recovering addict either on or off site. The sober living home must also have a written policy regarding the possession, use and storage of prescription medications. The facility cannot dispense medications but must make them available to the residents. The possession or use of prescription medications is prohibited except for the person to whom they are prescribed, and in the amounts/dosages prescribed. These rules and regulations shall be posted on site in a common area inside the dwelling unit. Any violation of this rule must be cause for eviction under the sober living home's rules for residency and the violator cannot be re-admitted for at least ninety (90) days. Any second violation of this rule shall result in permanent eviction. Alternatively, the sober living home must have provisions in place to remove the violator from contact with the other residents until the violation is resolved.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

(ii) The owner/operator of a sober living home fails to immediately take measures to remove any resident who uses alcohol or illegally uses prescription or non-prescription drugs, or who is not actively participating in a legitimate recovery program from contact with all other sober residents.

The ordinances asks for "immediate removal" of persons not "actively participating" in a "legitimate recovery program" and to ban communication with other residents should relapse occur.

Substance use disorder is prone to relapse. A person should not become homeless for relapse. Substance use disorder is a medical issue. Anyone relapsing may be in physical danger and in need of detoxification or treatment. In fact, "immediate removal" of a client in a licensed treatment program is prohibited by regulation due to safety concerns for the relapsing client. It takes time to contact family, arrange for detoxification, and find an open treatment bed, immediate removal is unrealistic and dangerous.

As for "legitimate recovery programs" as define in the ordinances, many persons in long term recovery do not necessarily attend meetings or have a need for outpatient services. For some hiking in the wilderness, working, or reuniting with family constitutes all the recovery services that they need. You cannot force people to attend a religious group or seek medical attention that they no longer need and do not desire to participate in. It is their right, this right was made clear when the City of Dana Point successfully sued a recovery residence for requiring that outside services be attended as a violation of state licensing law for alcohol drug treatment facilities. People in recovery are mature adults with civil rights which include the right to pursue personal recovery activities as they choose. How can city staff, with no knowledge of recovery define what is "legitimate?"

And what constitutes "active participation?" Who decides how much attendance is necessary for each person? To prove any program attendance, requires violating the disabled persons' privacy (particularly if the attendance involves outpatient treatment, a medical service, as opposed to mutual aid meetings). Maintaining records regarding medical and spiritual attendance for an individual is a violation of privacy, and in the case of outpatient treatment, a violation of Health Insurance Portability and Accountability Act of 1996. Asking city staff to review the personal health and spiritual activities of any of its citizens is a violation of privacy on every level.

4. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(e) In addition to denying an application for failing to comply, or failing to agree to comply, with subsections (a) and/or (b) of this section, an operator's permit shall also be denied, and if already issued shall be revoked upon a hearing by the director, under any of the following circumstances:

(1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information.

(2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two (2) years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

(3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven (7) to ten (10) years, to any of the following offenses:

i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last ten (10) years);

ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven (7) years); or

iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last ten (10) years).

iv. The unlawful sale or furnishing of any controlled substances (last seven (7) years).

(4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(1) Any owner/operator or staff person has provided materially false or misleading information on the application or omitted any pertinent information;

(2) Any owner/operator or staff person has an employment history in which he or she was terminated during the past two (2) years because of physical assault, sexual harassment, embezzlement or theft; falsifying a drug test; and selling or furnishing illegal drugs or alcohol.

(3) Any owner/operator or staff person has been convicted of or pleaded nolo contendere, within the last seven (7) to ten (10) years, to any of the following offenses:

i. Any sex offense for which the person is required to register as a sex offender under California Penal Code section 290 (last ten (10) years);

ii. Arson offenses—Violations of Penal Code Sections 451—455 (last seven (7) years); or

iii. Violent felonies, as defined in Penal Code section 667.5, which involve doing bodily harm to another person (last ten (10) years).

iv. The unlawful sale or furnishing of any controlled substances (last seven (7) years).

(4) Any owner/operator or staff person is on parole or formal probation supervision on the date of the submittal of the application or at any time thereafter.

(5) The owner/operator accepts residents, other than a house manager, who are not handicapped as defined by the FHAA and FEHA.

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

i. Any owner/operator or staff person of a sober living home is a recovering drug or alcohol abuser and upon the date of application or employment has had less than one (1) full year of sobriety.

As per California statute, employers are prohibited from denying employment based upon disability. A one year sobriety requirement clearly violates employment laws.
Many people with substance use disorder lose employment for reasons stated in the ordinances. House managers live at the residence. Denial of housing based on employment history is beyond reasonable. Realizing that people in early recovery often have legal issues connected to previous drug use, denial of housing based on criminal history, including simple possession of cannabis, is discriminatory and specifically designed to limit this type of housing. Are other renters in the jurisdiction denied housing for this broad array of criminal acts? Are other renters denied housing based on employment loss? Are other businesses who provide housing held to this standard?

5. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(b) *Requirements for operation of group homes*.

(11) In addition to the regulations outlined above, the following shall also apply to sober living homes:

v. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

vi. The sober living home shall have a good neighbor policy that shall direct occupants to be considerate of neighbors, including refraining from engaging in excessively loud, profane or obnoxious behavior that would unduly interfere with a neighbor's use and enjoyment of their dwelling unit. The good neighbor policy shall establish a written protocol for the house manager/operator to follow when a neighbor complaint is received.

Are other citizens prohibited from profanity or being "obnoxious?" Are other families required to respond to neighbor's complaints? Who decides what "unduly interfering" means? There are code compliance mechanisms in place to handle such complaints for other persons in the jurisdiction. Why is this disabled class being subjected to different criteria with consequences that can lead to removal of housing for them? Should all citizens in the jurisdiction who violate noise codes or use their First Amendment rights to express themselves in poor taste be subject to loss of residency and homelessness? Is an arbitrary "be good" clause a reasonable accommodation?

6. Municipal Code Title 9, Chapter II, Article 23. Group Homes, 9-374. Requirements for issuance of operator's permit.

(b) Requirements for operation of group homes.

(2) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within five hundred (500) feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(5) All garage and driveway spaces associated with the dwelling unit shall, at all times, be available for the parking of vehicles. Residents and the house manager may each only store or park a single vehicle at the dwelling unit or on any street within five hundred (500) feet of the dwelling unit. The vehicle must be operable and currently used as a primary form of transportation for a resident of the group home.

There exist parking regulation that governs where individuals can park. These parking requirements go beyond existing regulations and subject a disabled class of individuals to separate and discriminatory rules. Individuals without disability are not told they can only park one car in a 500 feet distance from their home.

7. Municipal Code Title 13, Chapter XV, 13-311. Special use permit required.

(a) A group home that may otherwise be considered an unpermitted use may locate in an R1 zone with a special use permit provided:

(14) In addition to the regulations outlined above, the following shall also apply to sober living homes:

i. The sober living home is not located within six hundred fifty (650) feet, as measured from the closest property lines, of any other sober living home or a state licensed alcoholism or drug abuse recovery or treatment facility.

(b) The special use permit shall be issued by the director as a ministerial matter if the applicant is in compliance or has agreed to comply with subsections (a)(1) through (a)(14) of this section. At least ten (10) days prior to issuing a special use permit, the director shall cause written notice to be mailed to the owner of record and occupants of all properties within five hundred (500) feet of the location of the group home. Prior to issuance of the special use permit, the director shall hold a public hearing for the purpose of receiving information regarding compliance with the applicable provisions of subsections (a) and (b) of this section. The issuance of the special use permit shall be denied upon a determination, and if already issued shall be denied or revoked upon a hearing, by the director that any of the following circumstances exist:

(6) A special use permit for a sober living home shall also be denied upon a determination, and if already issued, any transfer shall be denied or revoked, upon a hearing, by the director that any of the following additional circumstances exist:

iii. The sober living home, as measured by the closest property lines, is located within six hundred fifty (650) feet of any other sober living home or state licensed alcoholism

or drug abuse recovery or treatment facility. If a state-licensed alcoholism or drug abuse recovery or treatment facility moves within six hundred fifty (650) feet of an existing sober living home this shall not cause the revocation of the sober living home's permit or be grounds for denying a transfer of such permit.

Municipal Code Title 13, Chapter XVI, 13-322. Group homes in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones with six (6) or fewer occupants.

(a) A special use permit shall be required for and may be granted to permit the operation of a group home including a sober living home with six (6) or fewer occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following requirements:

(3) The group home or sober living home is at least six hundred fifty (650) feet from any other property, as defined in section 13-321, that contains a group home, sober living home or state-licensed drug and alcohol treatment facility, as measured from the property line.

Municipal Code Title 13, Chapter XVI, 13-223. Conditional use permit required for group homes, residential care facilities and drug and alcohol treatment facilities in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) w

A conditional use permit shall be required for and may be granted to allow the operation of a group home, state-licensed residential care facility or state-licensed drug and alcohol treatment facility with seven (7) or more occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following conditions:

(b) The group home, residential care facility or state-licensed drug and alcohol treatment facility is at least six-hundred fifty (650) feet from any property, as defined in section 13-321, that contains a group home, sober living home or state-licensed drug and alcohol treatment facility, as measured from the property line, unless the reviewing authority determines that such location will not result in an over-concentration of similar uses.

The types of facilities where distance requirements may be imposed is set by state statute. These ordinances are contrary to this statute. State statute applies to licensed facilities only and the arbiter who decides whether "overconcentration" exists is the Department of Health Care Services:

> **"1520.5. (b) The Legislature hereby declares it to be the policy of the state to prevent overconcentrations of residential facilities that impair the integrity of residential neighborhoods. Therefore, the department shall deny an application for a new residential facility license if the department determines that the location is in a proximity to an existing residential facility that would result in overconcentration."**

The distance requirements set forth in the aforementioned ordinances more than double the distance requirements set by state statute. It is excessive and discriminates against a disabled class of people as it excludes what is in essence a normal residence from many spaces that other residents without this disability would not have to adhere to.

Furthermore, if say a group of birdwatchers wanted to move into a residence they would not be expected to notify every neighbor within 500 ft of their property that they are moving in. They would

also not be required to hold a hearing to make a case as to why they should be permitted to move in to that space. These practices are discriminatory and clearly meant to exclude sober living homes.

8. Municipal Code Title 13, Chapter XVI, 13-320. Purpose.
This chapter is intended to preserve the residential character the City of Costa Mesa's residential neighborhoods and to further the purposes of the FEHA, the FHAA and the Lanterman Act by, among other things:

    (b) Limiting the secondary impacts of group homes by reducing noise and traffic, preserving safety and providing adequate off-street parking;

This is discriminatory on face value. Would a concentration of birdwatchers living together degrade a neighborhood? Would a concentration of LGBTQ individuals degrade a neighborhood? There are no services in a recovery residence; they are not institutions. As for "secondary impacts" of group homes we ask that the city produce concrete evidence of such impacts.

9. Municipal Code Title 13, Chapter XVI, 13-322. Group homes in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones with six (6) or fewer occupants.

    (a) A special use permit shall be required for and may be granted to permit the operation of a group home including a sober living home with six (6) or fewer occupants in the R2-MD, R2-HD and R3 residential zones and the PDR-LD, PDR-MD, PDR-HD, PDR-NCM, PDC, and PDI (planned development zones) zones subject to the following requirements:

        (2) The application includes a live scan of the house manager and/or operator of the group home.

House managers typically live with residents and are a part of the family in much the same way a parent would act as a mentor, leader, and a person who encourages that rules are followed, chores are completed, and disputes are amicably resolved. Requiring a live scan is excessive and discriminatory. As per California employment statute, employers are prohibited from sharing background information about their employees.

Costa Mesa Affordable Housing Coalition

February 1, 2022

Mayor John Stephens and Members of the City Council
City of Costa Mesa
77 Fair Drive
Costa Mesa, CA

RE: Measure Y and Complying with Costa Mesa's RHNA Requirement

Dear Mayor Stephens and Council Members:

There are two critical things Costa Mesa must do to comply with its legal obligation to accommodate its 2021-2029 RHNA for lower income households. The first thing is to **adopt a strong inclusionary housing ordinance** requiring **a minimum of 15%** of all new homes to be affordable to lower income households. The second is to **amend Measure Y** so it no longer impedes housing development in Costa Mesa.

Members of the Costa Mesa Affordable Housing Coalition (the Coalition) participated in the City's well-attended January 11th community meeting on Measure Y. We were very pleased to hear **widespread support for amending Measure Y**. Many residents who called in during the meeting specifically lamented Costa Mesa's lack of affordable housing. These same residents expressed the common sense view that Measure Y's burdensome "city-wide vote" requirement is impeding the construction of new residential development in our city. While a few commenters warned the City not to touch Measure Y, the vast majority of callers supported amending this voter-enacted law so Costa Mesa can gain the affordable housing so many of our residents desperately need.

In my public comments, I suggested the City should **amend Measure Y to state that it does not apply to <u>any housing development which includes a</u> <u>minimum percentage</u> of lower-income affordable units**. At the time, I urged a 20% requirement for exemption from Measure Y. While 20% would be terrific, our Coalition would also support a 15% lower-income affordable requirement for exemption from Measure Y. Absent such an amendment, Costa Mesa will never meet its lower income RHNA obligation, and its residents will continue to suffer the life-constricting consequences of paying unaffordable rents. We urge you to act.

Thank you for considering our concerns about the draft 2021-2029 Housing Element Update.

Sincerely,

Kathy Esfahani

Appendix D

Glossary of Housing Terms

Glossary of Housing Terms

Above-Moderate-Income Household. A household with an annual income usually greater than 120% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available legibility limits established by the U.S. Department of housing and Urban Development (HUD) for the Section 8 housing program.

Affirmatively Furthering Fair Housing (AFFH): Affirmatively Furthering Fair Housing (AFFH) is a legal requirement that federal agencies and federal grantees further the purposes of the Fair Housing Act. AFFH means "taking meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws.

Apartment. An apartment is one (1) or more rooms in an apartment house or dwelling occupied or intended or designated for occupancy by one (1) family for sleeping or living purposes and containing one (1) kitchen.

Assisted Housing. Generally multi-family rental housing, but sometimes single-family ownership units, whose construction, financing, sales prices, or rents have been subsidized by federal, state, or local housing programs including, but not limited to Federal state, or local housing programs including, but not limited to Federal Section 8 (new construction, substantial rehabilitation, and loan management set-asides), Federal Sections 213, 236, and 202, Federal Sections 221 (d) (3) (below-market interest rate program), Federal Sections 101 (rent supplement assistance), CDBG, FmHA Sections 515, multi-family mortgage revenue bond programs, local redevelopment and in lieu fee programs, and units developed pursuant to local inclusionary housing and density bonus programs.

Below-Market-Rate (BMR). Any housing unit specifically priced to be sold or rented to low- or moderate-income households for an amount less than the fair-market value of the unit. Both the State of California and the U.S. Department of Housing and Urban Development set standards for determining which households qualify as “low income” or “moderate income.” (2) The financing of housing at less than prevailing interest rates.

Build-Out. That level of urban development characterized by full occupancy of all developable sites in accordance with the General Plan; the maximum level of development envisioned by the General Plan. Build-out does not assume that each parcel is developed to include all floor area or housing units possible under zoning regulations.

Community Development Block Grant (CDBG). A grant program administered by the U.S. Department of Housing and Urban Development (HUD) on a formula basis for entitled communities and administered by the State Department of Housing and Community Development (HCD) for non-entitled jurisdictions. This grant allots money to cities and counties for housing rehabilitation and community development, including public facilities and economic development.

Condominium. A structure of two or more units, the interior spaces of which are individually owned; the balance of the property (both land and building) is owned in common by the owners of the individual units. (See "Townhouse.")

Covenants, Conditions, and Restrictions (CC&Rs). A term used to describe restrictive limitations that may be placed on property and its use, and which usually are made a condition of holding title or lease.

Deed. A legal document which affects the transfer of ownership of real estate from the seller to the buyer.

Density Bonus. The allocation of development rights that allow a parcel to accommodate additional square footage or additional residential units beyond the maximum for which the parcel is zoned, usually in exchange for the provision or preservation of an amenity at the same site or at another location.

Density, Residential. The number of permanent residential dwelling units per acre of land. Densities specified in the General Plan may be expressed in units per gross acre or per net developable acre.

Developable Land. Land that is suitable as a location for structures and that can be developed free of hazards to, and without disruption of, or significant impact on, natural resource areas.

Down Payment. Money paid by a buyer from his own funds, as opposed to that portion of the purchase price which is financed.

Duplex. A detached building under single ownership that is designed for occupation as the residence of two families living independently of each other.

Dwelling Unit (DU). A building or portion of a building containing one or more rooms, designed for, or used by one family for living or sleeping purposes, and having a separate bathroom and only one kitchen or kitchenette. See Housing Unit.

Elderly Housing. Typically, one- and two-bedroom apartments or condominiums designed to meet the needs of persons 62 years of age and older or, if more than 150 units, persons 55 years of age and older, and restricted to occupancy by them.

Emergency Shelter. A facility that provides immediate and short-term housing and supplemental services for the homeless. Shelters come in many sizes, but an optimum size is considered to be 20 to 40 beds. Supplemental services may include food, counseling, and access to other social programs. (See "Homeless" and "Transitional Housing.")

Extremely Low-Income Household. A household with an annual income equal to or less than 30% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the Section 8 housing program.

Fair Market Rent. The rent, including utility allowances, determined by the United States Department of Housing and Urban Development for purposed of administering the Section 8 Program.

Family. (1) Two or more persons related by birth, marriage, or adoption [U.S. Bureau of the Census]. (2) An Individual or a group of persons living together who constitute a bona fide single-family housekeeping unit in a dwelling unit, not including a fraternity, sorority, club, or other group of persons occupying a hotel, lodging house or institution of any kind [Governor's Office of Planning and Research, General Plan Guidelines].

General Plan. A comprehensive, long-term plan mandated by State Planning Law for the physical development of a city or county and any land outside its boundaries which, in its judgment, bears relation to its planning. The plan shall consist of seven required elements: land use, circulation, open space, conservation, housing, safety, and noise. The plan must include a statement of development policies and a diagram or diagrams illustrating the policies.

Goal. A general, overall, and ultimate purpose, aim, or end toward which the City will direct effort.

Green Building. Green or sustainable building is the practice of creating healthier and more resource-efficient models of construction, renovation, operation, maintenance, and demolition. (US Environmental Protection Agency)

Historic Preservation. The preservation of historically significant structures and neighborhoods until such time as, and in order to facilitate, restoration and rehabilitation of the building(s) to a former condition.

Historic Property. A historic property is a structure or site that has significant historic, architectural, or cultural value.

Household. All those persons—related or unrelated—who occupy a single housing unit. (See "Family.")

Housing and Community Development Department (HCD). The State agency that has principal responsibility for assessing, planning for, and assisting communities to meet the needs of low-and moderate-income households.

Housing Element. One of the seven State-mandated elements of a local general plan, it assesses the existing and projected housing needs of all economic segments of the community, identifies potential sites adequate to provide the amount and kind of housing needed, and contains adopted goals, policies, and

implementation programs for the preservation, improvement, and development of housing. Under State law, Housing Elements must be updated every five years.

Housing Payment. For ownership housing, this is defined as the mortgage payment, property taxes, insurance, and utilities. For rental housing this is defined as rent and utilities.

Housing Ratio. The ratio of the monthly housing payment to total gross monthly income; also called Payment-to-Income Ratio or Front-End Ratio.

Housing Unit. The place of permanent or customary abode of a person or family. A housing unit may be a single-family dwelling, a multi-family dwelling, a condominium, a modular home, a mobile home, a cooperative, or any other residential unit considered real property under State law.

Housing and Urban Development, U.S. Department of (HUD). A cabinet-level department of the federal government that administers housing and community development programs.

Implementing Policies. The City's statements of its commitments to consistent actions.

Implementation. Actions, procedures, programs, or techniques that carry out policies.

Infill Development. The development of new housing or other buildings on scattered vacant lots in a built-up area or on new building parcels created by permitted lot splits.

Jobs-Housing Balance. A ratio used to describe the adequacy of the housing supply within a defined area to meet the needs of persons working within the same area. The General Plan uses SCAG's definition which is a job total equal to 1.2 times the number of housing units within the area under consideration.

Land Use Classification. A system for classifying and designating the appropriate use of properties.

Live-Work Units. Buildings or spaces within buildings that are used jointly for commercial and residential purposes where the residential use of the space is secondary or accessory to the primary use as a place of work.

Low-Income Household. A household with an annual income usually no greater than51%-80% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the Section 8 housing program.

Low-income Housing Tax Credits. Tax reductions provided by the federal and State governments for investors in housing for low-income households.

Manufactured Housing. Residential structures that are constructed entirely in the factory, and which since June 15, 1976, have been regulated by the federal Manufactured Home Construction and Safety Standards

Act of 1974 under the administration of the U.S. Department of Housing and Urban Development (HUD). (See "Mobile home" and "Modular Unit.")

Mixed-Use. Properties on which various uses, such as office, commercial, institutional, and residential, are combined in a single building or on a single site in an integrated development project with significant functional interrelationships and a coherent physical design. A "single site" may include contiguous properties.

Moderate-Income Household. A household with an annual income usually no greater than 81%-120% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the Section 8 housing program.

Monthly Housing Expense. Total principal, interest, taxes, and insurance paid by the borrower on a monthly basis. Used with gross income to determine affordability.

Multiple Family Building. A detached building designed and used exclusively as a dwelling by three or more families occupying separate suites.

Ordinance. A law or regulation set forth and adopted by a governmental authority, usually a city or county.

Overcrowded Housing Unit. A housing unit in which the members of the household, or group are prevented from the enjoyment of privacy because of small room size and housing size. The U.S. Bureau of Census defines an overcrowded housing unit as one which is occupied by more than one person per room.

Parcel. A lot or tract of land.

Planning Area. The area directly addressed by the general plan. A city's planning area typically encompasses the city limits and potentially annexable land within its sphere of influence.

Policy. A specific statement of principle or of guiding actions that implies clear commitment but is not mandatory. A general direction that a governmental agency sets to follow, in order to meet its objectives before undertaking an action program. (See "Program.")

Poverty Level. As used by the U.S. Census, families and unrelated individuals are classified as being above or below the poverty level based on a poverty index that provides a range of income cutoffs or "poverty thresholds" varying by size of family, number of children, and age of householder. The income cutoffs are updated each year to reflect the change in the Consumer Price Index.

Program. An action, activity, or strategy carried out in response to adopted policy to achieve a specific goal or objective. Policies and programs establish the "who," "how" and "when" for carrying out the "what" and "where" of goals and objectives.

Redevelop. To demolish existing buildings; or to increase the overall floor area existing on a property; or both; irrespective of whether a change occurs in land use.

Regional. Pertaining to activities or economies at a scale greater than that of a single jurisdiction and affecting a broad geographic area.

Regional Housing Needs Assessment. A quantification by the local council of governments of existing and projected housing need, by household income group, for all localities within a region.

Rehabilitation. The repair, preservation, and/or improvement of substandard housing.

Residential. Land designated in the General Plan and zoning ordinance for building consisting of dwelling units. May be improved, vacant, or unimproved. (See "Dwelling Unit.")

Residential Care Facility. A facility that provides 24-hour care and supervision to its residents.

Residential, Multiple Family. Usually three or more dwelling units on a single site, which may be in the same or separate buildings.

Residential, Single-Family. A single dwelling unit on a building site.

Retrofit. To add materials and/or devices to an existing building or system to improve its operation, safety, or efficiency. Buildings have been retrofitted to use solar energy and to strengthen their ability to withstand earthquakes, for example.

Rezoning. An amendment to the map to effect a change in the nature, density, or intensity of uses allowed in a zoning district and/or on a designated parcel or land area.

Second Unit. A self-contained living unit, either attached to or detached from, and in addition to, the primary residential unit on a single lot. "Granny Flat" is one type of second unit.

Section 8 Rental Assistance Program. A federal (HUD) rent-subsidy program that is one of the main sources of federal housing assistance for low-income households. The program operates by providing "housing assistance payments" to owners, developers, and public housing agencies to make up the difference between the "Fair Market Rent" of a unit (set by HUD) and the household's contribution toward the rent, which is calculated at 30% of the household's adjusted gross monthly income (GMI). "Section 8" includes programs for new construction, existing housing, and substantial or moderate housing rehabilitation.

Shared Living Facility. The occupancy of a dwelling unit by persons of more than one family in order to reduce housing expenses and provide social contact, mutual support, and assistance. Shared living facilities serving six or fewer persons are permitted in all residential districts by Section 1566.3 of the California Health and Safety Code.

Single-Family Dwelling, Attached. A dwelling unit occupied or intended for occupancy by only one household that is structurally connected with at least one other such dwelling unit. (See "Townhouse.")

Single-Family Dwelling, Detached. A dwelling unit occupied or intended for occupancy by only one household that is structurally independent from any other such dwelling unit or structure intended for residential or other use. (See "Family.")

Single Room Occupancy (SRO). A single room, typically 80-250 square feet, with a sink and closet, but which requires the occupant to share a communal bathroom, shower, and kitchen.

Subsidize. To assist by payment of a sum of money or by the granting to terms or favors that reduces the need for monetary expenditures. Housing subsidies may take the forms or mortgage interest deductions or tax credits from federal and/or state income taxes, sale, or lease at less than market value of land to be used for the construction of housing, payments to supplement a minimum affordable rent, and the like.

Substandard Housing. Residential dwellings that, because of their physical condition, do not provide safe and sanitary housing.

Supportive Housing. Housing with no limit on length of stay, that is occupied by the target population as defined in California Health and Safety Code Section 53260(d), and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community. "Target population" means adults with low incomes having one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health conditions, or individuals eligible for services provided under the Lanterman Developmental Disabilities Services Act and may, among other populations, include families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, or homeless people. [California Health and Safety Code Sections 50675.14(b) and 53260(d)]

Target Areas. Specifically, designated sections of the community where loans and grants are made to bring about a specific outcome, such as the rehabilitation of housing affordable by Very-Low and Low-income households.

Tax Increment. Additional tax revenues that result from increases in property values within a redevelopment area. State law permits the tax increment to be earmarked for redevelopment purposes but requires at least 20 percent to be used to increase and improve the community's supply of very low- and low-income housing.

Tenure. A housing unit is owner-occupied if the owner or co-owner lives in the unit, even if it is mortgaged or not fully paid for. A cooperative or condominium unit is owner-occupied only if the owner or co-owner lives in it. All other occupied units are classified as renter-occupied including units rented for cash rent and those occupied without payment of cash rent.

Townhouse. A townhouse is a dwelling unit located in a group of three (3) or more attached dwelling units with no dwelling unit located above or below another and with each dwelling unit having its own exterior entrance.

Transitional Housing. Shelter provided to the homeless for an extended period, often as long as 18 months, and generally integrated with other social services and counseling programs to assist in the transition to self-sufficiency through the acquisition of a stable income and permanent housing. (See "Homeless" and "Emergency Shelter.")

Undevelopable. Specific areas where topographic, geologic, and/or superficial soil conditions indicate a significant danger to future occupants and a liability to the City.

RESOLUTION NO. 2022-xx

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA FOR THE APPROVAL OF GENERAL PLAN AMENDMENT 21-01, CITY OF COSTA MESA 2021-2029 (SIXTH CYCLE) HOUSING ELEMENT UPDATE, AS REVISED PURSUANT TO THE CALIFORNIA STATE DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT COMMENTS

THE CITY COUNCIL OF THE CITY OF COSTA MESA HEREBY FINDS AND DECLARES AS FOLLOWS:

WHEREAS, the City Council of the City of Costa Mesa adopted the General Plan's Fifth Cycle Housing Element on January 21, 2014;

WHEREAS, California Government Code Section 65358(a) authorizes the City Council to amend the General Plan if it is deemed to be in the public interest;

WHEREAS, the General Plan is a long-range, comprehensive document that serves as a guide for the orderly development of the City of Costa Mesa;

WHEREAS, by its very nature, the General Plan is subject to update and revision to account for current and future community needs;

WHEREAS, the Housing Element is one of the seven State-mandated General Plan chapters or "elements" and is a component of the City of Costa Mesa 2015-2035 General Plan;

WHEREAS, California State Housing Element Law establishes the requirements for Housing Elements, and California Government Code Section 65588 requires that local governments review and revise the Housing Element of their comprehensive General Plans not less than once every eight years. Additionally, the California Legislature identifies overall housing goals for the State with the goal of ensuring every resident has access to housing and a suitable living environment;

WHEREAS, the City of Costa Mesa has been assigned an allocation of 11,760 new housing units as its share of the regional housing need assessment (RHNA) in Southern California;

WHEREAS, the City of Costa Mesa has completed extensive public outreach that included conducting two City-wide Townhall meetings on November 18, 2020 and September 2, 2021, hosting outreach meetings for each of the City's six voting districts on February 17, 2021 and February 18, 2021, a special study session with the Planning Commission was held on March 1, 2021 and with the City Council on March 23, 2021, and on April 27, 2021 and September 13, 2021, the City Council and Planning Commission held joint public study sessions;

WHEREAS, the Housing Element update must be adopted by City Council and certified by California State Department of Housing and Community Development (HCD), and the Planning Commission is required to make a recommendation regarding the Housing Element update prior to City Council adoption and HCD certification;

WHEREAS, pursuant to the California Environmental Quality Act (CEQA), an Initial Study/Mitigated Negative Declaration (IS/MND) was prepared for the Housing Element Update in compliance with CEQA and the local environmental review guidelines and reviewed by the Planning Commission;

WHEREAS, the IS/MND were circulated for the required 30-day public review period from October 29, 2021, to November 29, 2021;

WHEREAS, the final adoption of the IS/MND along with the associated Mitigation Monitoring and Reporting Program (MMRP) is subject to City Council discretion as the final approval authority, after consideration of the Planning Commission recommendation and public comments received during the public review period;

WHEREAS, the IS/MND and MMRP reflects the independent judgment and analysis of the City of Costa Mesa;

WHEREAS, the public review draft Housing Element was circulated for public comment between August 17, 2021 and September 15, 2021;

WHEREAS, On October 6, 2021, the Draft Housing Element Update was sent to the HCD for review and comment, and on December 3, 2021, the Department of HCD forwarded the State's review comments regarding the 2021-2029 Draft Housing Element update;

WHEREAS, duly-noticed public hearings were held by the Planning Commission for the review of the Draft Housing Element update on November 8, 2021, November 22, 2021 and December 13, 2021;

WHEREAS, the Planning Commission at its December 13, 2021 meeting reviewed the Draft Housing Element update that included revisions based on the State's review comments and after considering public input recommended by a 6-1 vote that the City Council approve the Housing Element update and associated IS/MND;

WHEREAS, a duly-noticed public hearing was held by the City Council for the review of the Draft Housing Element update on January 18, 2022, public comments were considered by the City Council, and the City Council continued the item to the February 1, 2022 City Council meeting;

WHEREAS, on February 1, 2022, the City Council held a duly noticed public hearing, considered the Planning Commission recommendation and public comments, and at the conclusion of the public hearing, the City Council, by a vote of 6-1, adopted Resolution No. 2022-06 that approves and adopts the IS/MND, MMRP and approved General Plan Amendment 21-01 for the City of Costa Mesa 2021-2029 (Sixth Cycle) Housing Element Update;

WHEREAS, on February 4, 2022, the City of Costa Mesa re-submitted the adopted 2021-2029 Housing Element to the HCD for review and certification;

WHEREAS, on April 5, 2022, HCD provided to the City of Costa Mesa a report of its review that includes advisement of further revision to the adopted 2021-2029 Housing Element;

WHEREAS, the City of Costa Mesa revised the previously adopted 2021-2029 Housing Element to address the HCD response letter, which is attached to this Resolution as Attachment 1;

WHEREAS, seven days prior to the City Council meeting, the City of Costa Mesa posted on the City's website the revised 2021-2029 Housing Element for public review;

WHEREAS, pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15162(a)(1-3), the City of Costa Mesa as the lead agency has determined that none of the proposed revisions based on the HCD comments to the Housing Element require subsequent environmental analysis;

WHEREAS, on November 15, 2022, the City Council held a duly noticed public hearing, considered public comments and considered approval of the revised 2021-2029 Housing Element and Resolution 2022-XX to overrule the March 17, 2022 Orange County Airport Land Use Commission's determination that the City's 2021-2029 Sixth Cycle Housing Element is inconsistent with the 2008 John Wayne Airport Environs Land Use Plan;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF COSTA MESA HEREBY RESOLVES as follows:

Section 1. The City has considered the findings, comments and recommendations set forth in HCD's letter dated April 5, 2022 which determined that the City's 2021-2029 Housing Element, adopted February 1, 2022, required revisions to comply with State Housing Element Law;

Section 2. The City has revised the adopted 2021-2029 Housing Element as recommended by HCD and General Plan Amendment 21-01, 2021-2029 (Sixth Cycle) Housing Element, as revised, is attached to this Resolution as Attachment 1;

Section 3. The 2021-2029 (Sixth Cycle) Housing Element, as revised, sets forth the housing policies for the City, facilitates the preservation and development of housing, and establishes programs to accommodate the City's share of the regional housing need.

Section 4. In accordance with Government Code Section 65583, the City finds that the City's Sixth Cycle (2021-2029) Housing Element, as revised, complies with the duty to affirmatively further fair housing.

Section 5. The City finds that the Sixth Cycle (2021-2029) Housing Element, as revised, complies with the requirements of State law.

Section 6. The City finds that based on a variety of factors including the increasing demand for housing in the Southern California region, development trends, property owner interest, structure age, property valuation, and development capacity, as well the likelihood of the City's commercial area zoning standards, specific plans and urban plans along commercial corridors and otherwise being modified to include greater housing opportunities based on the Housing Programs included in the City's Sixth Cycle 2021-2029 Housing Element Update which will facilitate commercial uses on non-vacant sites converting to mixed-use and/or residential developments; together with recent regional

development trends (where conversion of non-residential uses on non-vacant sites to housing developments to accommodate a range of household types including lower income households has been prevalent); the documented interest from housing developers to construct housing projects in the City of Costa Mesa; and the existing uses on the sites identified in the Housing Element sites inventory to accommodate the RHNA including the lower income RHNA are likely to be integrated with new residential uses, or discontinued during the planning period; and therefore are not considered significant impediments to additional residential development during the period covered by the City's Sixth Cycle 2021-2029 Housing Element Update;

Section 7. The City adopted Resolution 2022-xx on November 15, 2022 that overruled the ALUC determination that the Costa Mesa 2021-2029 Sixth Cycle Housing Element is inconsistent with the AELUP and made appropriate findings that the Housing Element is consistent with the purpose of the article stated in Public Utilities Code Section 21670. The findings are included as Exhibit "A" as attached to the November 15, 2022 Resolution for overrule. Pursuant to Public Utilities Code Section 21676, the ALUC and the Caltrans Division of Aeronautics provided comments to the City regarding the City's proposed decision and findings to overrule the ALUC determination, and the City made these comments part of the public record to overrule the ALUC determination as required pursuant to the Public Utilities Code.

Section 8. The City Council considered public comments received during the public review period and determined that no new environmental documentation pursuant to CEQA is required because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier IS/MND adopted on February 1, 2022 pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier IS/MND, (c) the proposed project will not result in any new significant environmental effects not identified in the earlier IS/MND, (d) the proposed project will not substantially increase the severity of the environmental effects identified in the earlier IS/MND, (e) no considerably different mitigation measures have been identified, and (f) no mitigation measures found infeasible have become feasible;

Section 9. The City Council hereby approves and adopts General Plan Amendment 21-01, 2021-2029 (Sixth Cycle) Housing Element, as revised, which updates the previously-approved City-adopted Fifth Cycle Housing Element, attached hereto as Attachment 1.

Section 10. Pursuant to State housing element law, the City Council hereby authorizes the Director of Economic and Development Services to submit the adopted 2021-2029 (Sixth Cycle) Housing Element, as revised, to the HCD for State certification.

Section 11. The Director of Economic and Development Services of the City of Costa Mesa is authorized to make minor non-substantive modifications to the Housing Element as necessary to make it internally consistent or address additional comments from HCD as part of the Housing Element certification process.

PASSED, APPROVED AND ADOPTED this 15th day of November, 2022.

RESOLUTION NO. 2022-xx

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA TO OVERRULE THE ORANGE COUNTY AIRPORT LAND USE COMMISSION'S DETERMINATION THAT THE CITY OF COSTA MESA'S 2021-2029 SIXTH CYCLE HOUSING ELEMENT IS INCONSISTENT WITH THE JOHN WAYNE AIRPORT ENVIRONS LAND USE PLAN

THE CITY COUNCIL OF THE CITY OF COSTA MESA HEREBY FINDS AND DECLARES AS FOLLOWS:

WHEREAS, California Government Code Section 65358(a) authorizes the City Council to amend the General Plan if it is deemed to be in the public interest;

WHEREAS, the General Plan is a long-range, comprehensive document that serves as a guide for the orderly development of the City of Costa Mesa;

WHEREAS, by its very nature, the General Plan is subject to update and revision to account for current and future community needs;

WHEREAS, the Housing Element is one of the seven State-mandated General Plan chapters or "elements" and is a component of the City of Costa Mesa 2015-2035 General Plan;

WHEREAS, California State Housing Element Law establishes the requirements for Housing Elements, and California Government Code Section 65588 requires that local governments review and revise the Housing Element of their comprehensive General Plans not less than once every eight years. Additionally, the California Legislature identifies overall housing goals for the State with the goal of ensuring every resident has access to housing and a suitable living environment;

WHEREAS, after the City of Costa Mesa completed extensive public outreach that included conducting two City-wide Townhall meetings on November 18, 2020 and September 2, 2021, hosting outreach meetings for each of the City's six voting districts on February 17, 2021 and February 18, 2021, a special study session with the Planning Commission was held on March 1, 2021 and with the City Council on March 23, 2021, and on April 27, 2021 and September 13, 2021, the City Council and Planning Commission held joint public study sessions;

WHEREAS, the Planning Commission reviewed and considered the 2021-2029 Sixth Cycle Housing Element at its regular meetings on November 8, 2021, November 22, 2021 and December 13, 2021 and, following consideration of public comments, recommended City Council approval by a 7-0 vote;

WHEREAS, the City Council of the City of Costa Mesa reviewed and considered the 2021-2029 Sixth Cycle Housing Element on January 18, 2022 and February 1, 2022, and following consideration of public comments, adopted the Housing Element by a 6-1 vote on February 1, 2022;

WHEREAS, the City Council of the City of Costa Mesa re-reviewed and considered edits to the 2021-2029 Sixth Cycle Housing Element based on HCD comments, and following consideration of public comments, adopted the Housing Element by a x-x vote on November 15, 2022;

WHEREAS, California Public Utilities Code Section 21676(b) requires the City of Costa Mesa to refer an amendment of the City's general plan or specific plan, or the adoption or approval of a zoning ordinance or building regulation within the planning boundary established by the Airport Land Use Commission (ALUC) pursuant to Section 21675 to the ALUC for their consideration.

WHEREAS, at a duly-noticed public hearing on March 17, 2022, the ALUC reviewed City of Costa Mesa's 2021-2029 Sixth Cycle Housing Element and found the proposed General Plan Housing Element Amendment to be inconsistent with the AELUP by a 4-0 vote;

WHEREAS, the City of Costa Mesa does not waive any objection to and/or right to challenge any failure by the ALUC or the Caltrans Division of Aeronautics to proceed in the manner required by law, including but not limited to, Public Utilities Code Sections 21670 through 21679.5, related to the above referenced March 17, 2022, finding of inconsistency.

WHEREAS, pursuant to Public Utilities Code Sections 21670 and 21676, the City of Costa Mesa may, after a public hearing, propose to overrule the ALUC by a two-thirds vote of the City Council, if the City of Costa Mesa makes specific findings that the proposed project is consistent with the purpose of Section 21670;

WHEREAS, at a duly-noticed public hearing on April 5, 2022, the Costa Mesa City Council took action to adopt Resolution No. 2022-19 that included specific findings that the 2021-2029 Sixth Cycle Housing Element is consistent with the purpose of the article stated in Section 21670 of the Public Utilities Code by a 6-0 vote;

WHEREAS, pursuant to Public Utilities Code Section 21676, on April 11, 2022, the City of Costa Mesa provided the ALUC and the Caltrans Division of Aeronautics the City's proposed decision to overrule the ALUC determination and specific findings that the 2021-2029 Sixth Cycle Housing Element is consistent with the purpose of the article stated in Section 21670;

WHEREAS, pursuant to Public Utilities Code Section 21676, the ALUC and the Caltrans Division of Aeronautics can and did provide comments regarding the City's proposed decision and findings to overrule the ALUC determination;

WHEREAS, pursuant to Public Utilities Code Section 21676, the ALUC and the Caltrans Division of Aeronautics comments regarding the City's proposed decision and findings to overrule the ALUC determination are advisory to the City, and the City must include these comments on the public record prior to a final decision to overrule the ALUC determination;

WHEREAS, the City has considered the ALUC and the Caltrans Division of Aeronautics comments regarding the City's proposed decision and findings to overrule the ALUC determination and these comments have been made as part of the public record of the City Council final decision to overrule the ALUC determination;

NOW, THEREFORE, the Costa Mesa City Council **DOES HEREBY RESOLVE** to overrule the Orange County Airport Land Use Commission Determination that the 2021-2029 Sixth Cycle Housing Element is inconsistent with the John Wayne Airport Environs Land Use Plan.

BE IT FURTHER RESOLVED that the City Council DOES HEREBY MAKE the findings that the 2021-2029 Sixth Cycle Housing Element is consistent with the purpose of the article stated in Section 21670 of the Public Utilities Code, as shown in Exhibit "A", FINDINGS.

EXHIBIT "A"

FINDINGS

The Costa Mesa City Council makes the following findings pursuant to Section 21670 of the Public Utilities Code as follows:

A. ***Finding No. 1****: It is in the public interest to provide for the orderly development of each public use airport in this state and the area surrounding these airports so as to promote the overall goals and objectives of the California airport noise standards adopted pursuant to Section 21669 and to prevent the creation of new noise and safety problems.*

   Justification for finding: The March 17, 2022 ALUC inconsistency determination did not identify concerns with noise in regard to the City's Housing Element update. To the contrary, the ALUC determination indicated that the City's candidate housing sites are appropriately located outside of airport noise contours of concern and further the City's General Plan Noise Element addresses potential applicable residential noise impacts in General Plan Noise Element Policies N-1.1, N-1.5, N-1.6, N-2.4 and N-2.6. Specifically, the ALUC recognized that the City's Noise Element Policy N-2.6 requires an "interior noise standard of 45 dBA CNEL be enforced for any new residential project," which is consistent with the ALUC residential noise standards. Therefore, the City is justified to make the finding to overrule the ALUC inconsistency determination in regard to PUC Finding No. 1.

B. ***Finding No. 2****: (2) It is the purpose of this article to protect public health, safety, and welfare by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to excessive noise and safety hazards within areas around public airports to the extent that these areas are not already devoted to incompatible uses.*

   Justification for finding: As indicated in the above section entitled "Justification for finding," the City's Noise Element Policies adequately address the public exposure to excessive noise.

In addition, at the March 17, 2022 ALUC hearing, the ALUC determined that that the City's existing maximum building height provisions were inconsistent with the Airport Environs Land Use Plan (AELUP) for nine candidate housing sites located in two geographic areas of the City. According to the ALUC staff report, the City's existing North Costa Mesa Specific Plan provisions permit a maximum building height that could potentially result in building construction that exceeds the 206-foot John Wayne Airport Imaginary Horizontal Surface. However, the City's Housing Element update does not grant any entitlements, change any land use standards or authorize any development beyond what is allowed under the City's current General Plan and Zoning Code (including the maximum building height identified inconsistent by the ALUC). Therefore, the ALUC's determination of inconsistency is not based on proposed polices of the Housing Element update but rather existing height standards in the North Costa Mesa Specific Plan.

In addition, both ALUC staff and at least one of the Commissioners during the public hearing recognized that the data used for calculating maximum building height elevation was likely not accurate (Google is the data source used to establish existing ground topography). Using imprecise and unreliable data is problematic in this situation as the ALUC determination for three candidate housing sites is based on discrepancies of only three to five feet. As such, this identified inconsistency is likely not inconsistent and can be addressed pending actual topographical data either at the time of the North Costa Mesa Specific Plan update or when an actual project is proposed, which will require additional ALUC review.

Lastly, the remaining six candidate housing sites that the ALUC determined were inconsistent were previously reviewed in 2006 and 2007 by the ALUC. In 2007, the City submitted a project for ALUC consideration that included a mixed-use development with both hotel and residential uses (referred to as the Wyndham Hotel and High Rise Residential Project) in the South Coast Plaza Town Center area. This area already contains Plaza Tower and Center Tower which exceed 20 stories. The project included a General Plan Amendment, a Specific Plan Amendment, an Environmental Impact Report (EIR), a Final Master Plan and a proposed subdivision. The ALUC determined that the project and the General Plan/Specific Plan amendments were inconsistent in regard to the inclusion of height standards that penetrate the AELUP horizontal imaginary surface, and the City subsequently overruled the ALUC determination. The City's overrule finding was based on the Federal Aviation Administration (FAA) findings that the then proposed building height of 304 feet Area Mean Sea Level (AMSL) "would not adversely affect air safety" and the FAA subsequently issued a "no hazard determination." Additionally, the FAA conditioned that any future buildings proposed in this area with height proposed above 173

feet above grade level would require a specific determination of “no hazard” by the FAA in order to move forward. This requirement is included in the height standards of the North Costa Mesa Specific Plan applicable to the candidate housing sites in question. Therefore, potential safety risks associated with future construction on these six candidate housing sites are addressed by the FAA requirement and the Specific Plan requirements and the City’s Housing Element Update. Therefore, the City is justified to make the finding to overrule the ALUC inconsistency determination in regard to PUC Finding No. 2.

Lori Ann Farrell Harrison, City Manager
City of Costa Mesa
77 Fair Drive
Costa Mesa, CA 92626

Dear Lori Ann Farrell Harrison:

RE: City of Costa Mesa's 6th Cycle (2021-2029) Adopted Housing Element

Thank you for submitting the City of Costa Mesa's (City) housing element adopted on February 2, 2022 and received for review on February 4, 2022. Pursuant to Government Code section 65585, subdivision (h), the California Department of Housing and Community Development (HCD) is reporting the results of its review. In addition, HCD considered comments from Disability Rights California, Costa Mesa Affordable Housing Coalition, Kennedy Commission, Nsight and Californians for Homeownership pursuant to Government Code section 65585, subdivision (c).

The adopted element addresses many statutory requirements described in HCD's prior December 3, 2022 review; however, revisions will be necessary to comply with State Housing Element Law (Article 10.6 of the Gov. Code). The enclosed Appendix describes the revisions needed to comply with State Housing Element Law.

As a reminder, the City's 6th cycle housing element was due October 15, 2021. As of today, the City has not completed the housing element process for the 6th cycle. The City's 5th cycle housing element no longer satisfies statutory requirements. HCD encourages the City to revise the element as described above, adopt, and submit to HCD to regain housing element compliance.

For your information, pursuant to Assembly Bill 1398 (Chapter 358, Statutes of 2021), if a local government fails to adopt a compliant housing element within 120 days of this statutory deadline, then any rezoning to accommodate the regional housing needs allocation (RHNA), including for lower-income households, shall be completed no later than one year from the statutory deadline. Otherwise, the local government's housing element will no longer comply with State Housing Element Law, and HCD may revoke its finding of substantial compliance pursuant to Government Code section 65585, subdivision (i).

Public participation in the development, adoption and implementation of the housing element is essential to effective housing planning. Throughout the housing element process, the City should continue to engage the community, including organizations that represent lower-income and special needs households, by making information regularly available and considering and incorporating comments where appropriate.

Several federal, state, and regional funding programs consider housing element compliance as an eligibility or ranking criteria. For example, the CalTrans Senate Bill (SB) 1 Sustainable Communities grant; the Strategic Growth Council and HCD's Affordable Housing and Sustainable Communities programs; and HCD's Permanent Local Housing Allocation consider housing element compliance and/or annual reporting requirements pursuant to Government Code section 65400. With a compliant housing element, the City will meet housing element requirements for these and other funding sources.

HCD appreciates the hard work and dedication Jennifer Le, Scott Drapkin and the rest of the City's housing element team provided during the review. We are committed to assisting the City in addressing all statutory requirements of State Housing Element Law. If you have any questions or need assistance, please contact me at Paul.McDougall@hcd.ca.gov.

Sincerely,

Paul McDougall
Senior Program Manager

Enclosure

APPENDIX
CITY OF COSTA MESA

The following changes are necessary to bring the City's housing element into compliance with Article 10.6 of the Government Code. Accompanying each recommended change, we cite the supporting section of the Government Code.

Housing element technical assistance information is available on HCD's website at http://www.hcd.ca.gov/community-development/housing-element/housing-element-memos.shtml. Among other resources, the housing element section contains HCD's latest technical assistance tool, Building Blocks for Effective Housing Elements (Building Blocks), available at http://www.hcd.ca.gov/community-development/building-blocks/index.shtml and includes the Government Code addressing State Housing Element Law and other resources.

A. Housing Needs, Resources, and Constraints

1. *Affirmatively further[ing] fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2…shall include an assessment of fair housing in the jurisdiction. (Gov. Code, § 65583, subd. (c)(10)(A).)*

   While the element includes a general summary of outreach and includes some additional data related to disparities in access to opportunity, it largely was not revised to address HCD's findings related to the following:

   - Enforcement
   - Integration and Segregation (please see finding related to income and persons with disabilities)
   - Racial/Ethnic Areas of Concentration of Poverty (R/ECAP) and Areas of Affluence (RCAA)
   - Disproportionate Housing Need including Displacement Risk (please see finding related to overpayment, overcrowding, housing conditions and homelessness)
   - Local Data and Knowledge, and Other Relevant Factors
   - Goals, Actions, Metrics, and Milestones

   Please see HCD's prior review which details the necessary revisions.

2. *Include an analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected needs for all income levels, including extremely low-income households. (Gov. Code, § 65583, subd. (a)(1).)*

   Include an analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition. (Gov. Code, § 65583, subd. (a)(2).)

Extremely Low-income (ELI) Households: While the element includes some analysis of the existing housing needs of ELI households, it must still identify the projected housing need for ELI households as describe in HCD's prior review.

Housing Conditions: The element describes the age of the housing stock and includes some information on code enforcement. However, the element must still include an estimate of the number of units in need of rehabilitation and replacement. This analysis could address housing conditions at a neighborhood or area level to address requirements related to the assessment of fair housing (See above). Please see HCD's prior review for additional information.

3. *An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites. (Gov. Code, § 65583, subd. (a)(3).)*

Suitability of Nonvacant Sites: While the element includes some additional information on development potential based on existing versus allowable intensities and a brief housing market analysis, it must still provide supporting information to demonstrate the similarity between redevelopment trends and identified sites. Please see HCD's prior review for additional information.

In addition, as noted in the prior review, because the housing element relies upon nonvacant sites to accommodate more than 50 percent of the regional housing needs allocation (RHNA) for lower-income households, it must demonstrate existing uses are not an impediment to additional residential development and will likely discontinue in the planning period. (Gov. Code, § 65583.2, subd. (g)(2).) Absent findings (e.g., adoption resolution) based on substantial evidence, the existing uses will be presumed to impede additional residential development and will not be utilized toward demonstrating adequate sites to accommodate the RHNA. Based on a cursory review of the adoption resolution (Resolution Number 2022-06), findings were not made regarding existing uses. Future re-adoption of the housing element must contain the appropriate findings. HCD will provide samples under separate cover.

Small Sites: The element includes some analysis of small sites and the potential for consolidation and notes Policy 2.10 in the land use element of the general plan. However, Policy 2.10 appears oriented toward single family lots and does not provide clear mechanisms for promoting lot consolidation. As a result, the element should include a program with specific commitment and timing to establish incentives and promote lot consolidation, including outreach with property owners.

Large Sites: Sites larger than ten acres in size are deemed inadequate to accommodate housing for lower-income households unless it is demonstrated, with sufficient evidence, that sites are suitable to accommodate housing for lower-income households. For example, typical developments with units affordable to lower income households consist of 50 to 150 units. Several sites identified far exceed this typical range. HCD's prior review found the element should demonstrate the potential for larger sites to be developed as

assumed in the planning period, including affordability. In response, the element now describes expressed interest in developing housing in the planning period and absence of explicit caps on affordability. However, the element should still describe how these larger sites facilitate affordability in the planning period, particularly given typical ranges for affordable developments. Further, the element must include a program to facilitate the assumed affordability on larger sites and, similar to Program 3B (Fairview Development Center), should consider alternative actions if the sites are not developed in the planning period as assumed, especially related to affordability.

Environmental Constraints: While the element now generally describes potential environmental constraints related to fire and flooding, it must still describe any other known environmental or other conditions that could impact housing development on identified sites in the planning period.

Accessory Dwelling Units (ADUs): HCD's prior review found the element should reconcile 2020 numbers with HCD's records (19 ADUs) and rescale assumptions based on permitted units and other relevant factors and add or modify programs as appropriate. In response, the element now assumes 70 ADUs per year (adjusted from over 100 ADUs per year). However, these adjusted assumptions are not supported by analysis and programs. First, the element must still reconcile 2020 numbers (27 ADUs) with HCD records. Second, recent trends (20 ADUs per year since 2018) do not support a four-fold increase. While the element notes the uptick (41 ADUs in 2021), it should rescale assumptions to a more appropriate number around 40 to 50 ADUs per year.

Electronic Site Inventory: As noted in the prior review, pursuant to Government Code section 65583.3, subdivision (b), the City must utilize standards, forms, and definitions adopted by HCD when preparing the sites inventory and submit an electronic version of the sites inventory. While the City has submitted an electronic version of the sites inventory, if changes occur, any future re-adopted versions of the element must also submit the electronic version of the sites inventory.

Zoning for a Variety of Housing Types:

- *Emergency Shelters*: The element now includes some discussion related to available acreage and proximity to transportation and services; but it should still clarify emergency shelters are permitted without discretionary action; discuss the presence of reuse opportunities; and analyze any conditions inappropriate for human habitation.
- *Permanent Supportive Housing*: The element was not revised to address this finding. Please see HCD's prior review for additional information.

4. *An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures... (Gov. Code, § 65583, subd. (a)(5).)*

Processing and Permit Procedures: The element now describes approval bodies for various entitlements and indicates typical multifamily developments are subject to Planning Commission approval. In addition, as noted in the prior review, the analysis should address the typical number of public hearings, approval findings and any other relevant information. The analysis should address impacts on housing cost, supply, timing and approval certainty.

Housing for Persons with Disabilities:

- *Reasonable Accommodation*: HCD's prior review found the City's reasonable accommodation procedure contains potential constraints. For example, while HCD agrees that local actions must be consistent with the general plan, the purpose of the procedure is to provide exception in land use, including the general plan, so persons with disabilities can enjoy access to housing. Further, the housing element, including provisions for reasonable accommodation and obligations to affirmatively further fair housing (AFFH), are also part of the general plan. In response, the element does not appear to agree the procedure contains constraints but commits (Program 2N) to review and revise the ordinance to comply with state and federal fair housing laws, which casts uncertainty on what will be revised. As a result, Program 2N should be revised to provide certainty and specific commitment to revise the ordinance and ensure a process that promotes housing access for persons with disabilities. For example, the Program could commit to revise the procedure with parameters on what will be achieved through revisions such as promoting access to housing for persons with disabilities, addressing constraints such as approval findings and establishing objective standards (e.g., health and safety) and guidance to promote certainty on how approval findings will be implemented.
- *Definition of Family*: HCD's prior review found the zoning code defines single housekeeping unit with multiple restrictions that may act as constraints on housing for persons with disabilities. In response, the element concludes the definition of family and single housekeeping unit do not touch on whether members are with a disability and is not intended to discriminate against persons with disabilities. However, the element provides no analysis to support this conclusion and should include a program to address the constraint. Please see HCD's prior review for additional information.
- *Group Homes*: The element includes various conclusions and statements about the City's zoning code and group homes, but it still must analyze the exclusion of these housing types from some residential zones and use permit and other requirements, including enforcement as constraints on housing for persons with disabilities and add or modify programs as appropriate. Based on a complete analysis, the element should add or modify program. Please see HCD's prior review for additional information.

B Housing Programs

1. *Include a program which sets forth a schedule of actions during the planning period, each with a timeline for implementation, which may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the Housing Element through the*

administration of land use and development controls, the provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available. The program shall include an identification of the agencies and officials responsible for the implementation of the various actions. (Gov. Code, § 65583, subd. (c).)

As noted in the prior review, to have a beneficial impact in the planning period and address the goals of the housing element, programs must be revised with discrete timelines and specific commitment. In response to add discrete timelines, the element, for several actions, now commits to review or evaluate programs annually. However, an annual review does not result in a beneficial impact or a housing outcome. Programs should have specific commitment with discrete timing to achieve a housing outcome in the planning period. For example, Program 1A (Owner Occupied Housing Rehabilitation) should at least annually market information on the program, describe when the City will evaluate effectiveness and make adjustments and could commit to process a target number of applications per year. Please see HCD's prior review for additional programs to be revised.

2. *Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Government Code section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing. (Gov. Code, § 65583, subd. (c)(1).)*

   As noted in Finding A3, the element does not include a complete site analysis; therefore, the adequacy of sites and zoning were not established. Based on the results of a complete sites inventory and analysis, the City may need to add or revise programs to address a shortfall of sites or zoning available to encourage a variety of housing types. In addition, the element should be revised as follows:

   - Shortfall of Adequate Sites: As noted in the prior review, programs to rezone sites and accommodate a shortfall of adequate sites (3C and 3D) must be revised to address all requirements pursuant to Government Code section 65583.2, subdivisions (h) and (i) and commit to allowable densities, minimum acreage to be rezoned, number of shortfall units and amending any caps on residential development. In response, the element now states rezoning is not necessary to accommodate a shortfall of adequate sites. However, the element does not demonstrate how this conclusion is derived. The element should either demonstrate how adequate sites are demonstrated based on existing zoning, including development standards or revise programs as described in HCD's prior review.
   - Program 3B (Fairview Development Center): While the Program now commits to negotiate an agreement and alternative actions, it should also commit to facilitate development as appropriate, including zoning, incentives, expedited processing and

similar actions and include timing for when alternative actions will be completed if necessary.

- Large and Small Sites: As noted in Finding A3, programs should be added or modified to ensure availability and affordability of development in the planning period as anticipated in the sites inventory.

3. *The housing element shall contain programs which assist in the development of adequate housing to meet the needs of extremely low-, very low-, low- and moderate-income households. (Gov. Code, § 65583, subd. (c)(2).)*

   ELI Households: Program 2L is now revised to subsidize processing fees when funding is available and promote the benefits of the program. However, the Program should also commit to additional actions to assist in the development of housing for ELI households. The Program should commit to proactively reach out to developers at least annually and ongoing to identify development opportunities, adopt priority processing and streamlined review, grant concessions and incentives and assist, support or pursue funding applications at least annually and ongoing throughout the planning period.

4. *Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. (Gov. Code, § 65583, subd. (c)(3).)*

   As noted in Findings A4, the element requires a complete analysis of potential governmental constraints. Depending upon the results of that analysis, the City may need to revise or add programs and address and remove or mitigate any identified constraints.

   In addition, Program 3G now includes a specific schedule of actions to, among other things, engage the community, propose a ballot measure, adopt an inclusionary ordinance (exempting affordable housing proposals) and prepare planning amendments to meet the RHNA. However, the Program should also commit to adopt the various planning amendments, alternative actions if the appropriate zoning is not complete and provide parameters that the ballot measure or other actions will be undertaken to address this fundamental constraint to housing development (in addition to RHNA requirements).

5. *Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics... (Gov. Code, § 65583, subd. (c)(5).)*

   As noted in Finding A1, the element requires a complete analysis of AFFH. Depending upon the results of that analysis, the City must revise or add programs.

AIRPORT LAND USE COMMISSION
FOR ORANGE COUNTY
3160 Airway Avenue • Costa Mesa, California 92626 • 949.252.5170 fax: 949.252.6012

May 10, 2022

Scott Drapkin, Assistant Director
City of Costa Mesa, Development Services
77 Fair Drive
Costa Mesa, CA 92626

Subject: Response to Notice of Intent to Overrule the Airport Land Use Commission Determination for Costa Mesa 2021-2029 Housing Element Update.

Dear Mr. Drapkin:

We are in receipt of your April 11, 2022 email notifying the Airport Land Use Commission (ALUC) for Orange County of the City's intent to overrule the ALUC's inconsistency determination on the 2021-2029 Housing Element Update. City Council Resolution No. 2022-xx was attached (finalized as Resolution No. 2022-19). In accordance with Section 21676 of the Public Utilities Code, the ALUC submits the following comments addressing the proposed overrule findings for the above-referenced project. This letter is advisory to the City and must be included in the public record of any final decision to overrule the ALUC, which may only be adopted by a two-thirds vote of the City's governing body.

Please be advised that California Public Utilities Code (PUC) Section 21678 states: "With respect to a publicly owned airport that a public agency does not operate, if the public agency pursuant to Section 21676, 21676.5, or 21677 overrules a commission's action or recommendation, the operator of the airport shall be immune from liability for damages to property or personal injury caused by or resulting directly or indirectly from the public agency's decision to overrule the commission's action or recommendation."

Background

On March 17, 2022, the ALUC for Orange County found the Costa Mesa Housing Element Update to be inconsistent with the *Airport Environs Land Use Plan (AELUP) for John Wayne Airport (JWA)* on a 4-0 vote. The inconsistent finding was based on AELUP Sections 2.1.3 and 2.1.4, and PUC Sections 21674(a) and 21674(b). ALUC has the following comments regarding Resolution No. 2022-19 and the findings of facts included therein.

The City has stated in its resolution, "WHEREAS, California Public Utilities Code Section 21676(b) requires the City of Costa Mesa to refer an amendment of the City's general plan or

specific plan, or the adoption or approval of a zoning ordinance or building regulation within the planning boundary established by the Airport Land Use Commission (ALUC) pursuant to Section 21675 to the ALUC for their consideration." This paraphrasing of the wording in PUC Section 21676(b) has neglected to include the requirement that a city must refer such actions to ALUC *prior* to approval by the city. The specific PUC wording is, "Prior to the amendment of a general plan or specific plan, or the adoption or approval of a zoning ordinance or building regulation within the planning boundary established by the airport land use commission pursuant to Section 21675 , the local agency shall first refer the proposed action to the commission." The City failed to refer its Housing Element Update to ALUC prior to its approval action. The City approved the Update on February 1, 2022 and scheduled the item for ALUC review on March 17, 2022.

Response to Finding No. 1 - Regarding Public Utilities Code (PUC) Section 21699
PUC Section 21699 referred to in Finding No. 1, relates to noise standards. ALUC's inconsistency finding was not based on noise standards, therefore, the City's Finding No. 1 does not address the inconsistency finding and is not an adequate finding on which to base the City's overrule. The ALUC appreciates that the City's Noise Element addresses potential noise impacts and that the City requires an "interior noise standard of 45 dBA CNEL be enforced for any new residential project."

Response to Finding No. 2 - Regarding PUC Section 21670
Section 2.1.4 of the *Airport Environs Land Use Plan for John Wayne Airport (AELUP for JWA)* and PUC Section 21670 states that the purpose of ALUCs is "to protect the public health, safety, and welfare by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to excessive noise and safety hazards within areas around public airports to the extent that these areas are not already devoted to incompatible uses." ALUC's inconsistency finding was based on the safety hazards created by changing the land use from commercial/mixed-use to residential in high-rise buildings in close proximity to John Wayne Airport.

The six housing sites identified in the 2021-2029 Housing Element Update located in the North Costa Mesa area of Focus Area 2 (Sites 139, 140, 141, 201, 202 and 205) are part of the Cultural Arts Center area and have existing height limitations of 315 feet AGL. With ground elevations ranging from 32 to 36 feet, the proposed residential buildings on these sites would penetrate the JWA horizontal surface by 141 to 145 feet. Sites in this area were previously reviewed by ALUC in 2006 and 2007 for proposed residential uses and found to be inconsistent with the *AELUP for JWA* because of penetration of the JWA horizontal obstruction surface. At that time, the FAA determined that the project was an obstruction by exceeding the standards of FAR Part 77, Subpart C, by (1) surpassing the 200 feet AGL threshold and (2) exceeding the horizontal surface for JWA, but determined the project was not a hazard to air navigation. The City then took steps to overrule the ALUC in accordance with PUC Sections 21676 and 21676.5. Although the City overruled at that time, it does not change the fact that the ALUC previously made a finding of inconsistency. Therefore, it would be contrary to the prior ALUC decision if the ALUC were to find these candidate housing sites, now included in the City-adopted 2021-2029 Housing

Element Update, as consistent. The ALUC continues to believe that high-rise residential uses that penetrate the obstruction imaginary surfaces would pose a safety risk to the future residents. The City's finding also addresses the site elevation data for three other candidate housing sites in Focus Area 2 (Sites 144, 206 and 207) as being imprecise and unreliable. Google Earth was used for site elevation analysis because it was the tool that ALUC had available. If the City had provided site elevation data, the ALUC would have used that for its analysis.

The finding notes that actual topographic data can be included in future North Costa Mesa Specific Plan updates or when an actual project is proposed. While these future actions would require ALUC review, and may indeed include detailed topographic data, the ALUC used the data available at the time of the current Housing Element Update. It was important for ALUC to review potential penetrations of obstruction surfaces during this Update analysis since allowable building heights plus site elevations could exceed the horizontal surface threshold. If a potential surface penetration were not identified during ALUC's review of this general plan Housing Element Update, there would likely be future assertions by the City during subsequent project reviews, that ALUC had not identified any issues previously. Subsequent projects such as Zoning Code and specific plan amendments will be evaluated and analyzed by ALUC in accordance with Public Utilities Code (PUC) Section 21675 when they are submitted by the City.

Additionally, in accordance with Public Utilities Code (PUC) Section 21675, which states that local agencies must first refer proposed General Plan Amendments to ALUC prior to City action, the ALUC's role is to identify possible conflicts with an AELUP at the earliest possible opportunity. In the case of the City's 2021-2029 Housing Element Update, the City took approval action prior to ALUC review and did not act in accordance with the PUC.
We urge the City Council to take ALUC's concerns into consideration in its deliberations prior to deciding whether to overrule ALUC. Thank you for the opportunity to provide these comments.

Sincerely,

Gerald A. Bresnahan for
Chairman

Mr. Scott Drapkin
Assistant Director, Development Services
City of Costa Mesa
77 Fair Drive
Costa Mesa, CA 92626

Dear Mr. Drapkin:

Thank you for including the California Department of Transportation (Caltrans), Division of Aeronautics (Division) in the overrule process for the above-referenced project. California Public Utilities Code (PUC) Section 21676 (http:www.leginfo.ca.gov/calaw.html), requires Caltrans to review the specific findings a local government intends to use when proposing to overrule an Airport Land Use Commission (ALUC). Specifically, the findings are examined to determine whether they are consistent with the purposes of the statutes as set forth in the State Aeronautics Act (SAA) per PUC Section 21670 et seq.

Section 21670(a) outlines five separate purposes for the legislation as follows:

- "…to provide for the orderly development of each public use airport in this state…"

- "…to provide for the orderly development of…the area surrounding these airports so as to promote the overall goals and objectives of the California airport noise standards…"

- "…to provide for the orderly development of…the area surrounding these airports so as…to prevent the creation of new noise and safety problems."

- "…to protect the public health, safety, and welfare by ensuring the orderly expansion of airports…"

- "…to protect the public health, safety, and welfare by…the adoption of land use measures that minimize the public's exposure to excessive noise and safety

hazards within areas around public airports to the extent that these areas are not already devoted to incompatible uses."

Additionally, the SAA identifies the California Airport Land Use Planning Handbook (Handbook) to provide guidance for conducting airport land use compatibility planning as required by PUC Sections 21670-21579.5

Simply stated, the findings must show evidence that the city is minimizing the public's exposure to excessive noise and safety hazards within areas around public airports.

The proposed project, the City of Costa Mesa 2021-2029 6th Cycle Housing Element was reviewed by the Orange County ALUC (OCALUC) to determine whether the action is consistent with the Airport Environs Land Use Plan (AELUP). The ALUC staff report specifically described four AELUP consistency review areas for the Housing Element update: 1) Aircraft Noise Impacts, 2) Aircraft Height Restrictions, 3) Flight Tracks and Safety Zones, and 4) Heliports. The Orange County ALUC staff recommended a rule for inconsistency pursuant to AELUP Sections 2.1.3, 2.1.4 and PUC Section 21674.

Our review of the materials provided indicates the prime issue of inconsistency lies in the City's blueprint for future potential actions that are needed to meet the City's Regional Housing Needs Analysis allocation and comply with State Housing Element law. In accordance with Housing Element law, the City will process General Plan, Zoning Code and Specific Plan amendments, which would be subject to ALUC review. The City contends the Housing Element update does not in and of itself include any changes to local land use standards, including height restrictions, location, or number of housing units.

The City asserts specific findings to justify this overrule.

Finding No. 1: "…the City's candidate housing sites are appropriately located outside of airport noise contours of concern and further the City's General Plan Noise Element addresses potential applicable residential noise impacts in General Plan Noise Element Policies N-1.1, N-1.5, N-1.6, N-2.4 and N-2.6."

However, this finding is not consistent with planning regulations in the Government Code, to wit:

Government Code 65583
(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

Government Code 65302
(3) The noise contours shall be used as a guide for establishing a pattern of land uses in the land use element that minimizes the exposure of community residents to excessive noise.

(h) (1) An environmental justice element, or related goals, policies, and objectives integrated in other elements, that identifies disadvantaged communities within the area covered by the general plan of the city, county, or city and county, if the city, county, or city and county has a disadvantaged community. The environmental

justice element, or related environmental justice goals, policies, and objectives integrated in other elements, shall do all of the following:

(A) Identify objectives and policies to reduce the unique or compounded health risks in disadvantaged communities by means that include, but are not limited to, the reduction of pollution exposure, including the improvement of air quality, and the promotion of public facilities, food access, safe and sanitary homes, and physical activity.

In addition, SB 1000, chaptered in 2016, requires local governments to identify environmental justice communities (called "disadvantaged communities") in their jurisdictions and address environmental justice in their general plans. This new law has several purposes, including to facilitate transparency and public engagement in local governments' planning and decision-making processes, reduce harmful pollutants and the associated health risks in environmental justice communities, and promote equitable access to health-inducing benefits, such as healthy food options, housing, public facilities, and recreation.

Finding No. 2: "…the City's Housing Element update does not grant any entitlements, change any land use standards or authorize any development beyond what is allowed under the City's current General Plan and Zoning Code…"

The City believes that the proposed recommendation to submit future permits is premature based on Public Utilities Code Section 21676.5(a), which states:

"*If the commission finds that a local agency has not revised its general plan or specific plan or overruled the commission by a two-thirds vote of its governing body after making specific findings that the proposed action is consistent with the purposes of this article as stated in Section 21670, the commission may require that the local agency submit all subsequent actions, regulations, and permits to the commission for review until its general plan or specific plan is revised or the specific findings are made*."

As the Housing Element is a mandatory part of the General Plan and requires an amendment to the General Plan, it falls under the same review requirements for determining consistency.

California courts have supported the ALUC review of General Plans in *Watsonville Pilots Assoc. v. City of Watsonville (April 12, 2010) 183 Cal.App.4th 1059*. The City must conform to the State Aeronautics Act (SAA, Public Utilities Code Section 21670 et seq.) in its approach to planning areas adjoining the airport.

The SAA is intended to protect public safety by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to excessive noise and safety hazards in areas around public airports. According to the Court, the Handbook is a guide for counties with an ALUC; must be relied upon relative to height, use, safety, and density criteria by alternative procedure counties; and in the case of Watsonville, the city must adopt in its General Plan noise and safety criteria that are consistent with the criteria in the Handbook. The Court opined that "*we can see nothing in the statutory language that indicates that the Legislature intended to grant discretion to an affected city ... to decide which of the Handbook's criteria should be incorporated into such a city's general plan.*" As a result, Watsonville's 2030 General Plan, which conflicted with the Handbook's restrictions on land uses near airports, was therefore invalid.

The Division has reviewed the proposed findings provided by the City and has determined the findings are insufficient to warrant this proposed overrule. Specifically, the findings are not consistent with the purposes of the statutes set forth in the California Public Utilities Code (PUC) section 21670. These findings do not provide substantial evidence that the proposed Project will meet the requirements of PUC statutes set forth in PUC section 21670. These findings do not provide substantial evidence that the proposed Project will meet the requirements of PUC, section 21670(a) (1) and (2).

Based on the information provided by both the City and the OCALUC, the Division does not agree with the City's findings.

The Division strongly recommends not approving this overrule due to significant safety risks and potential noise incompatibility. Please note the PUC reference below, which mandates that local agencies shall be guided by the height, use, noise, safety, and density criteria as established in the Handbook:

California Public Utilities Code, section 21674.7 (b):

It is the intent of the Legislature to discourage incompatible land uses near existing airports. Therefore, prior to granting permits for the renovation or remodeling of an existing building, structure, or facility, and before the construction of a new building, it is the intent of the Legislature that local agencies shall be guided by the height, use, noise, safety, and density criteria that are compatible with airport operations, as established by this article, and referred to as the Airport Land Use Planning Handbook, published by the Division.

It must be understood that protecting people and property on the ground from the potential consequences of near-airport aircraft accidents is a fundamental land use

compatibility-planning objective. While the chance of an aircraft injuring someone on the ground is historically quite low, an aircraft accident is a high consequence event. To protect people and property on the ground from the risks of near-airport aircraft accidents, some form of restrictions on land use is essential.

The John Wayne Airport is a vital part of the air transportation system and is an economic asset with its 350,000 operations and 10.7 million commercial passengers in 2019. The airport will continue to increase commercial and air cargo service at John Wayne Airport, and we commend the efforts of the Orange County Airport Land Use Commission in making careful and reasoned decisions in attempting to ensure compatible land uses in the vicinity of the Airport.

Although the need for compatible and safe land uses near airports in California is both a local and State issue, airport staff, airport land use commission and airport land use compatibility plans are key to protecting an airport and the people residing, working and recreating in the vicinity of an airport. Consideration given to the issue of compatible land uses within an airport's environs should help to relieve future conflicts between airports and their neighbors.

As a reminder, pursuant to PUC 21676, et seq., the local agency governing body shall include comments from the OCALUC and the Division in the final record of any final decision to overrule the commission.

Please note: The Division comments are to be included in the public record of any decision to overrule the OCALUC.

These comments reflect the areas of concern to the Caltrans's Division of Aeronautics. We appreciate the opportunity to review and comment on this project. If you have questions, please do not hesitate to contact us at (916) 654-5203.

Sincerely,

Jeffrey L. Spencer
Associate Transportation Planner
Division of Aeronautics
Office of Planning

c: Lea Choum, Executive Officer, Orange County Airport Land Use Commission
Matt Friedman, Chief, Office of Aviation Planning, Division of Aeronautics

City Responses to Comments

Airport Land Use Commission (ALUC) May 10, 2022 Comments

ALUC Comment for purpose Finding No. 1 (direct quote from ALUC letter provided below):

Response to Finding No. 1 - Regarding Public Utilities Code (PUC) Section 21699
PUC Section 21699 referred to in Finding No. 1, relates to noise standards. ALUC's inconsistency finding was not based on noise standards, therefore, the City's Finding No. 1 does not address the inconsistency finding and is not an adequate finding on which to base the City's overrule. The ALUC appreciates that the City's Noise Element addresses potential noise impacts and that the City requires an "interior noise standard of 45 dBA CNEL be enforced for any new residential project."

City response to ALUC comment to purpose Finding No. 1:

The ALUC comments responded to the City that the ALUC "inconsistency finding was not based on noise standards." However, the ALUC comments further indicated that they appreciate that the City's Noise Element addresses potential airport noise impacts and requires an interior noise standard of 45 dBA CNEL to be enforced for any new residential project. Therefore, the Housing Element is consistent with the "purpose" outlined in PUC Section 21670.

ALUC comment for purpose Finding No. 2 (direct quote from letter provided below):

Response to Finding No. 2 - Regarding PUC Section 21670
Section 2.1.4 of the *Airport Environs Land Use Plan for John Wayne Airport (AELUP for JWA)* and PUC Section 21670 states that the purpose of ALUCs is "to protect the public health, safety, and welfare by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to excessive noise and safety hazards within areas around public airports to the extent that these areas are not already devoted to incompatible uses." ALUC's inconsistency finding was based on the safety hazards created by changing the land use from commercial/mixed-use to residential in high-rise buildings in close proximity to John Wayne Airport.

The six housing sites identified in the 2021-2029 Housing Element Update located in the North Costa Mesa area of Focus Area 2 (Sites 139, 140, 141, 201, 202 and 205) are part of the Cultural Arts Center area and have existing height limitations of 315 feet AGL. With ground elevations ranging from 32 to 36 feet, the proposed residential buildings on these sites would penetrate the JWA horizontal surface by 141 to 145 feet. Sites in this area were previously reviewed by ALUC in 2006 and 2007 for proposed residential uses and found to be inconsistent with the *AELUP for JWA* because of penetration of the JWA horizontal obstruction surface. At that time, the FAA determined that the project was an obstruction by exceeding the standards of FAR Part 77, Subpart C, by (1) surpassing the 200 feet AGL threshold and (2) exceeding the horizontal surface for JWA, but determined the project was not a hazard to air navigation. The City then took steps to overrule the ALUC in accordance with PUC Sections 21676 and 21676.5. Although the City overruled at that time, it does not change the fact that the ALUC previously made a finding of inconsistency. Therefore, it would be contrary to the prior ALUC decision if the ALUC were to find these candidate housing sites, now included in the City-adopted 2021-2029 Housing

(continued)

Element Update, as consistent. The ALUC continues to believe that high-rise residential uses that penetrate the obstruction imaginary surfaces would pose a safety risk to the future residents. The City's finding also addresses the site elevation data for three other candidate housing sites in Focus Area 2 (Sites 144, 206 and 207) as being imprecise and unreliable. Google Earth was used for site elevation analysis because it was the tool that ALUC had available. If the City had provided site elevation data, the ALUC would have used that for its analysis.

The finding notes that actual topographic data can be included in future North Costa Mesa Specific Plan updates or when an actual project is proposed. While these future actions would require ALUC review, and may indeed include detailed topographic data, the ALUC used the data available at the time of the current Housing Element Update. It was important for ALUC to review potential penetrations of obstruction surfaces during this Update analysis since allowable building heights plus site elevations could exceed the horizontal surface threshold. If a potential surface penetration were not identified during ALUC's review of this general plan Housing Element Update, there would likely be future assertions by the City during subsequent project reviews, that ALUC had not identified any issues previously. Subsequent projects such as Zoning Code and specific plan amendments will be evaluated and analyzed by ALUC in accordance with Public Utilities Code (PUC) Section 21675 when they are submitted by the City.

City response to ALUC comment to purpose Finding No. 2:

The ALUC comment letter indicates that in regard to PUC Finding No. 2, their "inconsistency finding was based on the safety hazards created by changing the land use from commercial/mixed use to residential high rise building in close proximity to John Wayne Airport. The ALUC finding of inconsistency specifically pertains to proposed housing sites located within the North Costa Mesa Specific Plan area. As indicated by the ALUC comment, the PUC Purpose Finding No. 2 clearly references "the protection of public health, safety and welfare"; however, this finding in complete context also specifies "to minimize the public's exposure to excessive noise and safety hazards around public airports to the extent that these areas are not already devoted to incompatible uses" [emphasis added]. As indicated in the "City Council adopted Justification for purpose Finding No 2", the area of the housing sites that the ALUC determined were "incompatible" are located in the North Costa Mesa Specific Plan area which is approved ("devoted") for a hotel/residential development project of 304 feet. At the time this project was approved, the City processed an ALUC overrule with findings based on the Federal Aviation Administration (FAA) determination that the proposed building height of 304 feet "would not adversely affect air safety" and the FAA subsequently issued a "no hazard determination." Additionally, this area is currently developed with the "Plaza Tower" and "Center Tower" buildings which both exceed 20 stories. Since this area, as determined by the ALUC, is already "devoted" with similar "incompatible uses", purpose Finding No. 2 is not applicable to the subject housing sites pursuant to the PUC provisions. Therefore, the proposed justification to overrule the ALUC determination for purpose Findings No. 2 is appropriate, and the Housing Element is consistent with the "purpose" outlined in PUC Section 21670.

Caltrans Division of Aeronautics June 7, 2022 Comments

Caltrans comment for purpose Finding No. 1 (direct quote from letter provided below):

Finding No. 1: "...the City's candidate housing sites are appropriately located outside of airport noise contours of concern and further the City's General Plan Noise Element addresses potential applicable residential noise impacts in General Plan Noise Element Policies N-1.1, N-1.5, N-1.6, N-2.4 and N-2.6."

However, this finding is not consistent with planning regulations in the Government Code, to wit:

Government Code 65583
(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

Government Code 65302
(3) The noise contours shall be used as a guide for establishing a pattern of land uses in the land use element that minimizes the exposure of community residents to excessive noise.

(h) (1) An environmental justice element, or related goals, policies, and objectives integrated in other elements, that identifies disadvantaged communities within the area covered by the general plan of the city, county, or city and county, if the city, county, or city and county has a disadvantaged community. The environmental

(continued)

justice element, or related environmental justice goals, policies, and objectives integrated in other elements, shall do all of the following:

(A) Identify objectives and policies to reduce the unique or compounded health risks in disadvantaged communities by means that include, but are not limited to, the reduction of pollution exposure, including the improvement of air quality, and the promotion of public facilities, food access, safe and sanitary homes, and physical activity.

In addition, SB 1000, chaptered in 2016, requires local governments to identify environmental justice communities (called "disadvantaged communities") in their jurisdictions and address environmental justice in their general plans. This new law has several purposes, including to facilitate transparency and public engagement in local governments' planning and decision-making processes, reduce harmful pollutants and the associated health risks in environmental justice communities, and promote equitable access to health-inducing benefits, such as healthy food options, housing, public facilities, and recreation.

City response to Caltrans comment to purpose Finding No. 1:

In regard to Finding No. 1, the Caltrans Division of Aeronautics (Caltrans) responded that the City's findings are "not consistent with the planning regulations in the Government Code." Specifically, the Caltrans' comments reference the California Land Use provisions relating to "Housing Elements" (Section 65583) and the "Authority for the Scope of General Plans" (Section 65302). However, neither of these provisions are specified for compliance in the PUC provisions relating to the "overrule" process, and therefore are not applicable. Finding No. 1 is specifically related to "noise" and, as confirmed by the ALUC, the City's Noise Element addresses potential airport noise impacts and requires an interior noise standard of 45 dBA CNEL to be enforced for any new residential project. Therefore, the Housing Element is consistent with the "purpose" outlined in PUC Section 21670.

Caltrans comment for purpose Finding No. 2 (direct quote from letter provided below):

Finding No. 2: "...the City's Housing Element update does not grant any entitlements, change any land use standards or authorize any development beyond what is allowed under the City's current General Plan and Zoning Code..."

The City believes that the proposed recommendation to submit future permits is premature based on Public Utilities Code Section 21676.5(a), which states:

(continued)

"If the commission finds that a local agency has not revised its general plan or specific plan or overruled the commission by a two-thirds vote of its governing body after making specific findings that the proposed action is consistent with the purposes of this article as stated in Section 21670, the commission may require that the local agency submit all subsequent actions, regulations, and permits to the commission for review until its general plan or specific plan is revised or the specific findings are made."

As the Housing Element is a mandatory part of the General Plan and requires an amendment to the General Plan, it falls under the same review requirements for determining consistency.

California courts have supported the ALUC review of General Plans in *Watsonville Pilots Assoc. v. City of Watsonville (April 12, 2010) 183 Cal.App.4th 1059*. The City must conform to the State Aeronautics Act (SAA, Public Utilities Code Section 21670 et seq.) in its approach to planning areas adjoining the airport.

The SAA is intended to protect public safety by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to excessive noise and safety hazards in areas around public airports. According to the Court, the Handbook is a guide for counties with an ALUC; must be relied upon relative to height, use, safety, and density criteria by alternative procedure counties; and in the case of Watsonville, the city must adopt in its General Plan noise and safety criteria that are consistent with the criteria in the Handbook. The Court opined that "*we can see nothing in the statutory language that indicates that the Legislature intended to grant discretion to an affected city ... to decide which of the Handbook's criteria should be incorporated into such a city's general plan.*" As a result, Watsonville's 2030 General Plan, which conflicted with the Handbook's restrictions on land uses near airports, was therefore invalid.

City Response to Caltrans comment to Finding No. 2:

In regard to Finding No. 2, the Division responded that the purpose of the Division's review of the City's ALUC Determination overrule findings is to "determine whether they are consistent with the purpose of the statutes as set forth in the State Aeronautics Act (SAA) per PUC Section 21670." The Division comments, similar to the above ALUCs comments, cites the PUC provision related to safety and noise hazards around public airports. As previously indicated, the area of the housing sites that the ALUC determined were "incompatible" in regard to safety are located in the North Costa Mesa Specific Plan area which is entitled for a hotel/residential development project of 304 feet. At the time of approval of this project, the City processed an ALUC overrule with findings based on the Federal Aviation Administration (FAA) determination that the proposed building height of 304 feet "would not adversely affect air safety" and the FAA subsequently issued a "no hazard determination." Additionally, this area is currently developed with the Plaza Tower and Center Tower which exceed 20 stories. Since this area, as determined by the ALUC, is already "devoted" with similar "incompatible uses", Finding No. 2 is not applicable to the subject housing sites. Therefore, the proposed justification to overrule the ALUC determination for purpose Findings No. 2 is appropriate, and the Housing Element is consistent with the "purpose" outlined in PUC Section 21670.

77 Fair Drive
Costa Mesa, CA 92626

File #: 22-930 **Meeting Date:** 11/15/2022

TITLE:

APPROVAL OF AMENDMENT TO CITYWIDE RENTAL ASSISTANCE PROGRAM WITH MERCY HOUSE FUNDED BY THE AMERICAN RESCUE PLAN ACT (ARPA)

DEPARTMENT: **CITY MANAGER'S OFFICE**

PRESENTED BY: **NATE ROBBINS, NEIGHBORHOOD IMPROVEMENT MANAGER**

CONTACT INFORMATION: **LORI KARAGUEZIAN, SENIOR MANAGEMENT ANALYST, (714) 593-5347**

RECOMMENDATION:

Staff recommends the City Council:

1. Approve proposed Amendment No. 3 (Attachment 1) to the Subrecipient Agreement (SRA) with Mercy House Living Centers increasing the compensation by $500,000 and authorize the appropriation of American Rescue Plan Act (ARPA) funds for program administration for the City's ARPA Rental Assistance Program for lower-income households.

2. Authorize the City Manager and City Clerk to execute all agreements and any amendments to the agreements.

BACKGROUND:

Since March 2020, the COVID-19 Pandemic has had significant economic impacts on communities. Programs designed to provide a safety net for residents have been necessary to mitigate the related impacts pertaining to food, housing, and income insecurity.

The City's response to the COVID-19 Pandemic included Citywide Rental Assistance programs funded initially with both CDBG-CV and HOME funding sources. As of this time, all CDBG-CV Rental Assistance funds have been exhausted, and HOME Rental Assistance funds are the only remaining funds available for households with minor children in need of rental assistance and are fully contracted with the non-profit service provider Families Forward.

American Rescue Plan Act (ARPA) Funds

The American Rescue Plan Act (ARPA) of 2021, passed by the United States Congress and signed into law on March 11, 2021, includes $350 billion of Coronavirus State and Local Fiscal Recovery Funds (SLFRF) to state, local, and Tribal governments across the country to support their response to and recovery from the COVID-19 public health emergency.
The program ensures that governments have the resources needed to:

- Fight the pandemic and support families and businesses struggling with its public health and economic impacts,
- Maintain vital public services, amid declines in revenue, and
- Build a strong, resilient, and equitable recovery by making investments that support long-term growth and opportunity.

The City of Costa Mesa was allocated ARPA-SLFRF funds of $26,481,093, of which 50% was received and expended in FY2020-21 primarily for small business grants and to offset revenue losses and finance increased costs resulting from the pandemic. The other 50% was received in FY2021-22. ARPA-SLFRF eligible use for housing assistance includes development of affordable housing and rental assistance to needy families.
At the June 21, 2022 City Council meeting, the Council approved an appropriation of $500,000 in American Rescue Plan Act funds to augment the City's HUD-funded Rental Assistance Programs to continue offering much-needed assistance to Costa Mesa renters.

Community Development Block Grant Coronavirus (CDBG-CV)

The Coronavirus Aid, Relief and Economic Security Act of 2020 (the "Cares Act") provided $5 billion in Community Development Block Grant Coronavirus funding ("CDBG-CV") to assist low-income and vulnerable Americans impacted by the Coronavirus pandemic. The U.S. Department of Housing and Urban Development ("HUD") allocated $2 billion of these funds to eligible jurisdictions by using the existing CDBG grant formula. The CDBG-CV program is a COVID 19 resource that was approved as a substantial amendment to the FY 2019-2020 Annual Action Plan and is not a recurring source of funding.

City Council accepted round one of CDBG-CV funds on May 26, 2020 in the amount of $668,658 and round two of CDBG-CV funds on October 9, 2020 in the amount of $1,168,216 for a total of $1,836,874 in CDBG-CV funds awarded to the City. Of this amount, a total of $905,000 was allocated for rental assistance. As of this date, the rental assistance funds have been completely expended.

HOME Tenant Based Rental Assistance Program (TBRA)

The HOME TBRA Pilot Program was initiated as part of the 2020-2024 Consolidated Plan process with an initial allocation of $150,000 for the program in FY 2020-2021. Families Forward was selected as the subrecipient administrator for the program in November 2020 and was subsequently allocated an additional $150,000 in November 2021 for a total allocation of $300,000 for the TBRA program. The agreement with Families Forward will soon expire but can be extended as needed to close out the final expenditure of all funds.

ANALYSIS:

Mercy House is a local 501(c)(3) organization and has over thirty (30) years of experience providing services to homeless and at-risk households. Over the past two years, Mercy House was awarded and has successfully administered $392,633 in CDBG-CV Rental Assistance funds to keep forty-three (43) at-risk households in their homes, in addition to their operation of the City's Permanent

Bridge Shelter.

The CDBG-CV Rental Assistance funds awarded to Mercy House were allocated specifically for assisting individuals and/or households without minor children. However, those funds have been totally expended. The proposed award of $500,000 in ARPA Rental Assistance funds will be used by Mercy House to assist *both* individuals and families, as outlined in the Scope of Work (Attachment 2).

Below are some highlights of the new ARPA Rental Assistance Program:

PURPOSE

- To provide Costa Mesa households with financial assistance to maintain housing at-risk of being lost or secure permanent housing for those experiencing homelessness.

ELIGIBILITY

- All Costa Mesa residents earning at or below 50% of the Area Median Income (AMI), or $67,750 for a family of four, are eligible to apply.

APPLICATION PROCESS

- Mercy House will have two English/Spanish-speaking staff dedicated to supporting interested households in completing and submitting a Program application.
- At launch, Mercy House will host a Rental Assistance Application Workshop where members of the community can receive real-time assistance to complete and submit a Program application.

ASSISTANCE

- The Program will provide a maximum of six (6) months of rental assistance with no cap on the amount of assistance.
- The Program can provide up to six (6) months of rental arrears, which do not count toward the maximum of six (6) months of prospective rental assistance.
- While enrolled in the Program, no household will pay more than 30% of their adjusted gross income toward rent.

TERM

- Mercy House projects to expend all funds by December 31, 2023.

PROJECTED ACCOMPLISHMENTS

- Over the Program term, Mercy house projects to assist approximately 54 households with rental assistance and associated services.

ALTERNATIVES:

This item is administrative in nature.

FISCAL REVIEW:

Upon approval by City Council, ARPA funds in the amount of $500,000 will be appropriated for this program.

LEGAL REVIEW:

The City Attorney's office has reviewed this report and approved it as to form.

CITY COUNCIL GOALS AND PRIORITIES:

This item supports the following City Council Goal:

- Diversify, Stabilize and Increase Housing to Reflect Community Needs

CONCLUSION:

Staff recommends the City Council:

1. Approve proposed Amendment No. 3 (Attachment 1) to the Subrecipient Agreement (SRA) with Mercy House Living Centers increasing the compensation by $500,000, and authorize the appropriation of ARPA funds for program administration for the City's ARPA Rental Assistance Program for lower-income households.

2. Authorize the City Manager and City Clerk to execute all agreements and any amendments to the agreements.

ATTACHMENT 1

AMENDMENT NUMBER THREE
TO 2020-2021 SUBRECIPIENT AGREEMENT
AMONG THE CITY OF COSTA MESA, AS GRANTEE UNDER THE
COMMUNITY DEVELOPMENT BLOCK GRANT-CORONAVIRUS PROGRAM,
THE COSTA MESA HOUSING AUTHORITY AND MERCY HOUSE LIVING CENTERS

This Amendment Number Three (“Amendment”) is made and entered into this 15th day of November, 2022 (“Effective Date”), by and among the CITY OF COSTA MESA ("CITY"), a municipal corporation and MERCY HOUSE LIVING CENTERS, a nonprofit corporation ("SUBRECIPIENT"). CITY and AUTHORITY are collectively referred to herein as "CITY."

WHEREAS, CITY and SUBRECIPIENT entered into an agreement dated October 6, 2020 for SUBRECIPIENT to provide shelter, supportive services and housing navigation services for homeless men and women (the "Agreement"); and

WHEREAS, CITY and SUBRECIPIENT entered into an Amendment One dated June 15, 2021 to amend the use of Community Development Block Grant-Coronavirus ("CDBG-CV") funds and extend the term (“Amendment One”); and

WHEREAS, Amendment One provides for the expiration of the Agreement on June 30, 2022; and

WHEREAS, CITY and SUBRECIPIENT entered into an Amendment Two dated June 21, 2022 to amend the Agreement term to expire on June 30, 2023 and to increase the amount of CDBG-CV funds to $392,633.00 ("Amendment Two"); and

WHEREAS, CITY was awarded American Rescue Plan Act (“ARPA”) funds through the United States Department of the Treasury; and

WHEREAS, CITY desires to provide an additional Five Hundred Thousand Dollars ($500,000.00) of ARPA funds to SUBRECIPIENT; and

WHEREAS, CITY and SUBRECIPIENT desire to extend the term for an additional six (6) months, through December 30, 2023; and

WHEREAS, CITY and SUBRECIPIENT desire to amend the Scope of Services to include the additional services set forth in Exhibit “A,” attached hereto and incorporated herein by this reference; and

WHEREAS, CITY and SUBRECIPIENT desire to include ARPA related provisions to the Agreement to ensure compliance with all ARPA-related laws and regulations.

NOW, THEREFORE, for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. The term of the Agreement shall be extended through December 31, 2023.
2. The Scope of Services shall be amended to include the additional services set forth in Exhibit A.
3. Section 4 of the Agreement shall be amended to include that SUBRECIPIENT'S total compensation shall not exceed Five Hundred Thousand Dollars ($500,000.00) of ARPA funds.

4. The Agreement shall be amended to include Section 13(c), providing that "SUBRECIPIENT understands, acknowledges, and agrees that the funding source for its work is from the American Rescue Plan, Coronavirus State and Local Fiscal Recovery Funds (collectively "ARPA") and as such, SUBRECIPIENT is required to comply with the regulations associated with ARPA funds pursuant to 31 CFR Part 35. Those regulations and reporting requirements are set forth in Exhibit "B" attached hereto and incorporated herein by reference. By executing this Contract, SUBRECIPIENT agrees to comply with all such regulations and reporting requirements and shall familiarize itself with those requirements."
5. All terms not defined herein shall have the same meaning and use as set forth in the Agreement.
6. All other terms, conditions, and provisions of the Agreement shall remain in full force and effect.
7. This Amendment may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be executed by and through their respective authorized officers, as of the date first written above.

SCOPE OF SERVICES

City of Costa Mesa ARPA Rental Assistance Program

SCOPE OF WORK

Program Overview

The City of Costa Mesa (City) is seeking the services of an experienced local non-profit and/or consultant (Program Administrator) to implement and administer the American Rescue Plan Act (ARPA) Rental Assistance Program (Program). The purpose of the Program is to provide very-low income Costa Mesa residents with financial assistance to maintain housing at-risk of being lost or secure permanent housing for those experiencing homelessness.

Program Administrator Requirements

Program Administrator shall manage the application, verification, payment and reporting for the Program as follows:

- Provide technical assistance to individuals applying for rental assistance.
- Determine applicant eligibility and complete intake documentation.
- Determine maximum allowable rent payment per the Orange County Housing Authority (OCHA) Payment Standards (City to provide).
- Distribute rental assistance payments to landlords. Payments will be made in the form of grants payable to the landlord/property owner for a maximum term of six (6) months.
- Distribute rental arrears payments (as applicable) to landlords. Rental arrears payment will be made in the form of a grant to the landlord/property owner for a maximum of six (6) months of past-due rent. Rental arrears payments do not count toward the maximum term of rental assistance payments.
- Assess applicant eligibility and amount of assistance required based on evaluation of family or individual's financial need. Participating households shall earn no more than 50% of the Area Median Income (AMI) and pay no more than 30% of their Adjusted Gross Income toward rent.
- Develop, prepare, distribute and process Program application forms, surveys and reporting materials.
- Provide outreach and circulate information of the availability of the Program in coordination with the City.
- Ensure each case file is appropriately closed-out and case files shall be maintained for a period of no less than four (4) years.

Verify the following requirements of Program applications:

- Household is a current resident of Costa Mesa or is currently homeless with strong ties to Costa Mesa (i.e. Live, Work, School).
- Household income at or below 50% AMI as determined by a Part 5 HUD Income Calculator.
- Current rental payments as evidenced by an executed lease.
- Documented need for the Program assistance.
- Tenant and landlord/property owner self-certification (under penalty of perjury) that they are not receiving any other form of rental subsidy or assistance for the participating household.

Verify the following Program grant payment requirements with landlord/property owner:

- Validate lease/rental agreement between tenant and landlord.
- Obtain a landlord/property owner affidavit affirming Program terms.
- Create and send letters to applicants confirming or denying their Program grant payment.
- Issue rental assistance payments directly to landlord/property owner and send an invoice to the City.

PROGRAM SPECIFICATIONS

Distribution of Funds

Funds will be disbursed from the Program Administrator directly to the landlord/property owner for rental assistance on behalf of an approved program participant. No funds will be disbursed directly to Program beneficiaries.

Amount of rental assistance shall be objectively determined based on the following formula:

- (Household's Adjusted Gross Income x 0.3) – Base Rent = Maximum Rental Assistance Payment
    - In special cases, and only when expressly approved by the City, Program Administrator may provide financial assistance equal to 100% of a households rent when failure to do so would result in a shortfall.

Prior to the award of funds, Program Administrator shall submit the following documents to the City:

From the Landlord/Property Owner:

- W-9 for the Landlord/Property Owner receiving rental payment; and
- Signed affidavit affirming that the Landlord/Property Owner has not and will not receive payment for the same month(s) rent due for the same tenant from any other rental assistance program.

From the Tenant/Household:

- Executed Rental Assistance Agreement that includes a signed affidavit affirming that the tenant is not receiving rent from any other sources (rental assistance programs, sub-lessees, roommates, etc.).

Reporting Requirements

Monthly - Program Administrator shall submit quarterly reports addressing progress of objectives identified in the Scope of Work by the 15th of the month following the close of each prior month.

Quarterly - Program Administrator shall submit quarterly invoices for services provided to the City by the 15th of the month following the close of the quarter. Quarterly invoices must include back-up documentation for all costs submitted for reimbursement. Only those items in the approved budget, or an approved amendment, will be eligible for reimbursement.

Annually – Program Administrator shall provide an annual report within 45 days of the completion of each contract year. The annual report shall provide a summary of applicants who were approved and received rental assistance to include the following data:

- Name and address
- Participant eligibility
- Income level, ethnicity and race category
- Documented need for rental assistance
- Total rental assistance payment approved including the amount paid and for what month(s)/year

Program Administrator shall provide a summary of applicants who were denied rental assistance to including the following:

- Name and address
- Reason for rental assistance program denial

Program Administrator shall prepare, submit and report the results of a Client Satisfaction Survey of all program applicants to determine their satisfaction with participating in the program and working with the Program Administrator.

If the contract between the City and Program Administrator is extended, the Program Administrator shall provide annual reports following each subsequent contract year.

EXHIBIT B

ARPA REQUIREMENTS

ARPA Regulations, 31 CFR Part 35 (“Regulations”) are incorporated herein and made a part of this Contract

CONTRACTOR agrees to be bound by the reporting requirements set out in the Regulations. This includes submitting quarterly reports by the 15th of the month following the end of each quarter to the City. The reports must include, but is not limited to, the use of the funds, documentation/receipts of the funds spent, description of the project and status of completion of the project. The Director of Finance may require additional information of CONTRACTOR for compliance with ARPA Regulations.

CONTRACTOR, in the performance of this Contract and as a sub-receipient of ARPA funds, as well as all of its subcontractors, must comply with the following:

1. CONTRACTOR, and any and all of its subcontractors, must ensure that they do not deny benefits, services or otherwise discriminate on the basis of race, color, national origin (including limited English proficiency), disability, age, or sex (including sexual orientation and gender identity) in accordance with Title VI of the Civil Rights Act of 1964, Public Law 88-352, 42 U.S.C. 2000d-1 et seq., and the Department's implementing regulations, 31 CFR part 22; Section 504 of the Rehabilitation Act of 1973 (Section 504), Public Law 93-112, as amended by Public Law 93-516, 29 U.S.C. 794; Title IX of the Education Amendments of 1972 (Title IX), 20 U.S.C. 1681 et seq., and the Department's implementing regulations, 31 CFR part 28; Age Discrimination Act of 1975, Public Law 94-135, 42 U.S.C. 6101 et seq., and the Department implementing regulations at 31 CFR part 23. CONTRACTOR will be required to submit data showing compliance with the above.

2. The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards found at 2 CFR Part 200 Appendix II.

3. The Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act (33 U.S.C. 1251et seq.) and all applicable standards, orders or regulations.

4. The Byrd Anti-Lobbying Amendment (31 U.S.C. 1352) regulations regarding restrictions on lobbying and required certificates.

5. Section 2 CFR 200.323 regarding Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act (EPA guidelines at 40 CFR Part 247.

6. Section 200.322 of 2 CFR 200.322, Domestic preferences for procurements.

File #: 22-940 **Meeting Date:** 11/15/2022

TITLE:

COMMITMENT OF $975,000 IN AMERICAN RESCUE PLAN ACT FUNDS TO FAMILIES FORWARD FOR DEVELOPMENT OF THE BUNGALOWS AFFORDABLE HOUSING PROJECT LOCATED AT 2039 POMONA AVENUE

DEPARTMENT: **CITY MANAGER'S OFFICE**

PRESENTED BY: **NATE ROBBINS, NEIGHBORHOOD IMPROVEMENT MANAGER**

CONTACT INFORMATION: **LORI KARAGUEZIAN, SENIOR MANAGEMENT ANALYST, 714-754-5347**

RECOMMENDATION:

Staff recommends the City Council:

1. Approve the appropriation and allocation of $975,000 in American Rescue Plan Act (ARPA) funds, or any other viable source of funds, to Families Forward for the development of The Bungalows Project, an affordable housing project to serve an estimated 36 individuals, contingent upon the successful completion of a financial feasibility analysis by the City's third-party underwriting consultant, Keyser Marston Associates.

2. Authorize the City Manager or their designee to execute the Funding Agreement and all associated documents, as needed, to bring the project to fruition.

BACKGROUND:

Project Description

Families Forward is a local 501(c)(3) nonprofit organization, established in 1984 to serve homeless and at-risk families with minor children. Families Forward is an industry leader in high-quality service delivery, enabling each household they serve to achieve independence and stability. The mission of Families Forward is to help vulnerable households achieve and maintain economic stability and self-sufficiency through food, housing, counseling, education, and other support services.

The Bungalows Project ("The Bungalows" or "Project") is located at 2039 Pomona Ave, Costa Mesa, and aims to provide up to 36 individuals with permanent affordable housing and supportive services in eight housing units for Costa Mesa families earning at or below 50% of the Area Median Income for a period of not less than 20 years. Families Forward acquired the property in March 2021 for

$2.4M in private donor funds.

The units were unoccupied at the time of purchase, therefore, there was no displacement of residents or required relocation expenses. Construction and rehabilitation costs for The Bungalows will be funded through a combination of Families Forward's existing capital, a construction loan, in-kind donations, and public/private grants.

Families Forward is collaborating on the Bungalows with HomeAid Orange Country for project management assistance to reduce construction costs by securing in-kind donations of materials and supplies. With the increase of inflation, oil prices, and labor shortages in mind, Families Forward is relying on grants to cover any additional project costs.

Request for Qualifications (RFQual)

On July 18, 2022, the City issued RFQual #23-01 soliciting proposals for HOME funds for the development of affordable housing projects. The RFQual was published on the City website, on Planet Bids, and an electronic letter was emailed to interested developers and nonprofit organizations who had previously requested to be informed of affordable housing development opportunities and funding.

Following the release of RFQual #23-01, Families Forward submitted a proposal requesting gap financing for The Bungalows.

American Rescue Plan Act (ARPA) Funds

The American Rescue Plan Act (ARPA) of 2021, passed by the United States Congress and signed into law on March 11, 2021, includes $350 billion of Coronavirus State and Local Fiscal Recovery Funds (SLFRF) to state, local, and Tribal governments across the country to support their response to and recovery from the COVID-19 public health emergency. The program ensures that governments have the resources needed to:

- Fight the pandemic and support families and businesses struggling with its public health and economic impacts,
- Maintain vital public services, amid declines in revenue, and
- Build a strong, resilient, and equitable recovery by making investments that support long-term growth and opportunity.

The City of Costa Mesa was allocated ARPA-SLFRF funds of $26,481,093, of which 50% was received and expended in FY2020-21 primarily for small business grants and to offset revenue losses and increased costs resulting from the pandemic. The other 50% was received in FY2021-22. ARPA-SLFRF is eligible to use for housing assistance including development of affordable housing.

In July 2022, the US Department of the Treasury and the Department of Housing and Urban Development (HUD) collaborated to release the "Affordable Housing How-To Guide", which provides guidance to local governments on best-practices when utilizing ARPA funds to develop housing.

As stated in the Guide, "[ARPA] funds used for affordable rental housing… are presumptively eligible uses if the units funded serve households at or below 65% of AMI for a period of 20 years or greater."

The Bungalows, as proposed, is affordable rental housing serving households at or below 50% AMI for a period of 20 years; therefore, is presumed eligible to receive an award of ARPA funds.

ANALYSIS:

Families Forward has updated and resubmitted their proposal (Attachment 1) for The Bungalows, wherein, they are requesting a $975,000 grant as gap financing to develop the Project.

The Bungalows is an 8-unit, in-fill, affordable housing development situated in a predominantly multi-family residential neighborhood that will serve up to 36 individuals. The Project includes substantial rehabilitation of all internal and external spaces, including the renovation of 6 existing units, as well as ground-up construction of 2 new accessory dwelling units (ADUs). The Project will consist of four 1-bedroom/1-bath units, three 2-bedroom/2-bath units, and one 3-bedroom /2-bath unit, with a total livable area of 5,282 square feet. At lease-up, the Bungalows will provide permanent housing and supportive services for up to eight (8) households (up to 34 people) earning at or below 50% of the Area Median Income (i.e. $67,750/yr for a household of four). As will be stipulated in the Affordable Housing Agreement, a local preference for all eight units will be given to homeless and at-risk households with strong “Live, Work, School” ties to Costa Mesa throughout the 20-year affordability period.

The Project also contemplates the rehabilitation of existing on-site amenities including the driveway, landscaping, laundry facilities, two courtyards, storage building and updated utility connections. The Bungalows will be closely managed by Families Forward’s Property Management Team as well as a Property Maintenance Technician. In addition, tenants will have access to a 24/7 emergency maintenance line and an online portal to complete tasks such as requesting repairs or paying rent.

City Staff has reviewed Families Forward’s proposal and determined the Project aligns with the Council Goal to “Diversify, Stabilize and Increase Housing to Reflect Community Needs.” Additionally, the Project’s new construction of two (2) very-low income ADU’s will count toward the City’s 6th Cycle Regional Housing Needs Assessment (RHNA) allocation of 11,760 housing units. Lastly, through a strong partnership with the Newport Mesa Unified School District (NMUSD), the City has identified the need for affordable housing able to accommodate households consisting of 3+ members. Per NMUSD’s data regarding the Free-Reduced Price Meal Program, 35% (5,929) of the nearly 18,000 students enrolled are eligible to receive free meals. Eligibility for the Free Meal Program is contingent upon a student’s annual household income being at or below 130% of the Federal Poverty Level, or $36,075 annually for a household of four.

The Project is in the best interest of the City and will provide much-needed affordable housing for Costa Mesa families with children.

ALTERNATIVES:

The City Council may choose not to approve an award of $975,000 to the Project. If the City does not approve the funding, Families Forward will likely not be able to move forward with this project. This is not recommended as long-term affordable housing for very-low income Costa Mesa families experiencing and at-risk of homelessness is a Council priority.

FISCAL REVIEW:

Upon City Council approval, ARPA funds or other eligible funds in the amount of $975,000 will be appropriated for this project.

LEGAL REVIEW:

The City Attorney's Office has reviewed this report and approved as to form.

CITY COUNCIL GOALS AND PRIORITIES:

This item supports the following City Council Goal:

- Diversify, Stabilize and Increase Housing to Reflect Community Needs

CONCLUSION:

Staff recommends the City Council:

1. Approve the appropriation and allocation of $975,000 in American Rescue Plan Act (ARPA) funds, or any other viable source of funds, to Families Forward for the development of The Bungalows Project, contingent upon the successful completion of a financial feasibility analysis by the City's third-party underwriting consultant, Keyser Marston Associates.

2. Authorize the City Manager or their designee to execute the Funding Agreement and all associated documents, as needed, to bring the project to fruition.

Costa Mesa, CA 92626

City of Costa Mesa

Agenda Report

File #: 22-939 **Meeting Date:** 11/15/2022

TITLE:

APPROVE A COMMITMENT OF $850,000 OF LOW/MODERATE INCOME HOUSING ASSET FUNDS TO CM MERCY HOUSE CHDO, LLC, FOR THE CONVERSION OF THE MOTEL 6 INTO A HOMEKEY PROJECT LOCATED AT 2274 NEWPORT BOULEVARD IN COSTA MESA

DEPARTMENT: **CITY MANAGER'S OFFICE**

PRESENTED BY: **NATE ROBBINS, NEIGHBORHOOD IMPROVEMENT MANAGER**

CONTACT INFORMATION: **LORI KARAGUEZIAN, SENIOR MANAGEMENT ANALYST, 714-754-5347, Lori.Karaguezian@costamesaca.gov**

RECOMMENDATION:

Staff recommends the City Council:

1. Approve an appropriation and allocation of $850,000 in Low/Moderate Income Housing Asset Funds to CM Mercy House CHDO LLC for development of the Motel 6 Project Homekey Housing Project.

2. Authorize the City Manager or their designee to execute the Funding Agreement and all associated documents, as needed, to bring the project to fruition and create an estimated 88 units of permanent affordable housing.

BACKGROUND:

Project Description

The Motel 6 Housing Project ("Motel 6" or "Project") is located at 2274 Newport Boulevard, Costa Mesa. The Project site is approximately 1.16 acres, which includes the building currently occupied by Motel 6 Costa Mesa, consisting of 94 guest rooms for commercial/hospitality use. The proposed Project contemplates the conversion of the motel property into 88 units of permanent affordable housing. The project will include 30 units for Veterans at-risk of or experiencing homelessness, 10 units for households at-risk of or experiencing homelessness that are eligible to receive Mental Health Services Act (MHSA) assistance, and the remaining 47 units will be set-aside for Costa Mesa senior citizens (age 62+) earning 50% or less of the Area Median Income (AMI). The Project has secured funding commitments from and is an outstanding collaboration between the State Homekey Program, County of Orange and City of Costa Mesa.

Homekey Program

The California Department of Housing and Community Development's Homekey Program ("Homekey" or "Homekey Program") provides direct housing opportunities for homeless and at-risk households by subsidizing the acquisition and conversion of hotels and motels into permanent housing.

Motel conversions to permanent housing and participation in the Homekey Program were identified as City Council objectives during the goal-setting retreat held in September 2021.

On April 25, 2022, the Motel 6 Project was awarded $10,675,000 in Homekey funds from the State. Per Homekey Program requirements, construction and/or rehabilitation of Homekey units must be completed within 12 months of the date of grant award (i.e. April 25, 2023) and the Project must be fully occupied within 90 days of completing construction.

When completed, the Motel 6 Project will generate up to 88 units of permanent affordable housing and will be the first deed-restricted affordable housing units credited towards the City's 6th Cycle Regional Housing Needs Assessment (RHNA) allocation of 11,760 new housing units.

HOME Investment Partnerships Program

The City of Costa Mesa is a recipient of two U.S. Department of Housing and Urban Development (HUD) grant program funds, the Community Block Grant (CDBG) Program and the HOME Investment Partnerships Program (HOME).

The Housing and Community Development Division (HCD) of the Development Services Department is responsible for administering the City's CDBG and HOME grants. CDBG and HOME-funded activities must address the needs outlined in the City's Consolidated Plan. The Consolidated Plan is a five-year planning document required by HUD for all communities receiving federal community development grant funds. The Annual Action Plan is the one-year expenditure plan for the use of HUD's annual allocation of funds.

On May 3, 2022, the City Council approved the FY 2022-2023 Annual Action Plan, which included the authorization to issue a Request for Qualifications (RFQ) to solicit applications for funding to support permanent affordable housing in the City using HOME Program funds. The total funds allocated to this effort for 2022-2023 include HOME program income and prior year uncommitted HOME entitlement funds in the amount of $2.3 million.

Request for Qualifications (RFQ)

On July 11, 2022, the City issued RFQl #23-01 soliciting proposals for HOME funds for affordable housing development projects. The RFQ was published on the City website, on Planet Bids, and an electronic letter was emailed to interested developers and nonprofit organizations who had previously requested to be informed of affordable housing development opportunities and funding.

Following the release of RFQ #23-01, Community Development Partners (CDP) and Mercy House (as co-owners, co-developers, and managing partners) submitted a proposal identifying a funding

gap of $1.5 Million for the Motel 6 project. The proposal met the minimum threshold requirement of 75 points, thus qualifying the proposal to be brought before City Council for review and potential funding award.

On July 19, 2022, the City Council approved an award of $1.5 Million in HOME funds to CDP to develop the Motel 6 into permanent affordable housing. All City HOME funds will be disbursed to the Project as repayable loans subject to a Regulatory Agreement, which will stipulate the required terms and conditions of the loan.

Local Match for Homekey Funds

On November 16, 2021, the City Council approved a total allocation of $3.5 million in ARPA funds as local match for “one or two” potential Homekey projects. Since the second project is no longer moving forward as a Homekey project, the total allocation of $3.5 million in ARPA funds was approved by the City Council for this project. This funding, when added to the HOME funds of $1.5 million, results in a total of $5 million for this project and the creation of much needed additional affordable housing in Costa Mesa.

Summary of *Awarded* City Funding

Funding Source	Approved	Type	Amount
American Rescue Plan Act (ARPA)	11/16/21	Grant	$3,500,000
HOME Investment Partnerships Program (HOME)	7/19/22	Loan	$1,500,000
Total Financial Award			**$5,000,000**

Request For Additional Funding

On October 27, 2022, City and County staff were notified by the Developer of an unanticipated rise in construction costs due to inflation and supply chain challenges being experienced throughout the nation. County staff will be taking a recommendation to their Board of Supervisors on December 6, 2022 to award an additional $850,000 to CM Mercy House CHDO LLC for the Project, which will cover 50% of the increased costs.

The other 50% of the funding gap of $850,000 is recommended by Staff to be funded by the City’s Low and Moderate Income Housing Fund, to ensure completion of the project.

Low/Moderate Income Housing Asset Fund

The Low/Moderate Income Housing Asset Fund (LMIHAF) can be used to develop affordable housing for those at or below 80% AMI. Per the FY 20-21 Housing Authority Annual Report as Housing Successor, as of December 31, 2021, the City’s LMIHAF had an ending balance of $3.7 million making it an ideal source to help fund the gap.

ANALYSIS:

The Motel 6 Project will provide permanent affordable housing for eighty-seven (87) individuals certified as extremely-low (30% AMI) and very-low (50% AMI) income. The successful operation of the Project relies upon the provision of on-site case management to these vulnerable veterans, seniors and at-risk households.

An additional contribution of $850,000 to the Motel 6 project will allow the Developer to complete the Project as originally intended by subsidizing the increased material costs and construction. The Developer has already reduced other costs to reduce the funding gap to the greatest extent possible. This final funding allocation, in concert with the County's contribution of an equal amount, will help the project come to final fruition.

Summary of *Proposed* City Funding

Funding Source	Approved	Type	Amount
American Rescue Plan Act (ARPA)	11/16/21	Grant	$3,500,000
HOME Investment Partnerships Program (HOME)	7/19/22	Loan	$1,500,000
LMIHAF	TBD	Loan	$ 850,000
Total Financial Award			**$5,850,000**

ALTERNATIVES:

The City Council may choose not to approve the additional contribution of $850,000 to the Project. If the City does not approve the additional funding, the Project will lack the financing it requires to move forward and it will not take place.

FISCAL REVIEW:

Upon City Council approval, LMIHAF funds in the amount of $850,000 will be appropriated for this project. There are sufficient fund balances to support this request.

LEGAL REVIEW:

The City Attorney's Office has reviewed this report and approved as to form.

CITY COUNCIL GOALS AND PRIORITIES:

This item supports the following City Council Goal:

- Diversify, Stabilize and Increase Housing to Reflect Community Needs

CONCLUSION:

Staff recommends the City Council:

1. Approve an appropriation and allocation of $850,000 in Low/Moderate Income Housing Asset Funds for development of the Motel 6 Project Homekey Project.

2. Authorize the City Manager or their designee to execute the Funding Agreement and all associated documents, as needed, to bring the project to fruition.

TITLE:

ADOPTION OF THE 2022 - 2025 MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE CITY OF COSTA MESA (CITY) AND THE COSTA MESA CITY EMPLOYEES ASSOCIATION (CMCEA) AND THE ADOPTION OF ACCOMPANYING SALARY RESOLUTIONS FOR CMCEA AND THE CONFIDENTIAL UNIT

DEPARTMENT: CITY MANAGER'S OFFICE- HUMAN RESOURCES DIVISION

PRESENTED BY: KASAMA LEE, HUMAN RESOURCES MANAGER

CONTACT INFORMATION: KASAMA LEE, HUMAN RESOURCES MANAGER (714) 754-5169

RECOMMENDATION:

Staff recommends the City Council:

1. Approve and Adopt the 2022 - 2025 Memorandum of Understanding (MOU) between the City of Costa Mesa and the Costa Mesa City Employees Association (CMCEA);

2. Approve and Adopt Resolution Numbers 2022-XX, 2022-XX, 2022-XX, 2022-XX, 2022-XX, and 2022-XX revising the pay ranges for CMCEA and the Confidential Unit (Attachments I - VII);

3. Approve the Fiscal Impact Analyses (Attachment VIII); and

4. Authorize the City Manager and members of the City's Negotiation Team to execute the MOU documents and appropriate into the respective departmental budgets.

BACKGROUND:

In March 2020, mid-way through the budget development process, the City was faced with the impacts of the worldwide coronavirus pandemic (COVID-19). The multiple emergency proclamations of the United States President, State of California Governor, and the City Manager for the City of Costa Mesa propelled the City into full emergency management mode. On March 12, 2020, pursuant to Government Code Section 8558 (c) and Chapter 1 of Title 6 of the City of Costa Mesa Municipal Code, the City Manager and Director of Emergency Services issued an Emergency Declaration due to the unanticipated and deadly COVID-19 worldwide outbreak. The City was faced with significant and unprecedented workload and financial challenges due to the continuing global COVID-19 pandemic. In addition to the devastating impacts on public health and mortality, the impact of COVID -19 on the American economy was also severe. As a result, numerous General Fund revenue sources were declining significantly including tax revenues (e.g., sales tax, hotel tax, and business license tax, etc.).

At the June 25, 2020 Council Meeting, a Side Letter of Agreement with CMCEA was approved to achieve the equivalency of a five percent (5%) furlough. The Side Letter of Agreement also contained the following key provisions:

- Two (2) year contract extension to June 30, 2022
- Elimination of Tier 2 vacation accrual plan
- 2% salary increase effective June 2022
- Elimination of Tier 2 salary ranges
- Increase flex benefit contribution by $100/mo. effective June 2022

The side letter language stated that a one-time payment would be made by the City to the employees equivalent to the reductions taken should the City receive Federal stimulus funds in excess of $40.5 million. The City of Costa Mesa had received CARES Act funding from the State of $1.4 million and the County of Orange of $1.0 million totaling $2.4 million, and finally, the federal government recently approved the American Rescue Plan allocating $28.3 million to the City of Costa Mesa. Between CARES Act and the American Rescue Plan, the City was expected to receive an estimated amount of $30.7 million. Pro-rated to the nine months into the current fiscal year, the stimulus funding equated to an estimated $30.4 million. As a result, staff requested to cease the five percent (5%) furloughs/reductions and provide staff with the one-time reimbursement for the pay reductions implemented since July 1, 2020.

At the April 6, 2021 City Council meeting, the City Manager was authorized by City Council to enter into side letter negotiations for the sole purpose of eliminating the five (5%) percent furlough across all labor groups. Staff met with all of the City's employee associations to negotiate the elimination of the furlough and reimbursement of salary and benefit cuts already incurred. An agreement was reached with CMCEA to amend the 2020 side letters. The elimination of the furlough and reimbursement of salary cuts were also applied to non-represented Confidential employees.

The Fiscal Year 2022-2023 budget includes a total of 550 full-time employees which includes 261 CMCEA employees and 22 Confidential employees. During the Great Recession, the City lost 146 full-time positions. While the number of full-time staff at the City has grown, the workload attributed to the pandemic, implementation of Measure Q and major development projects across the City, in addition to an increased workload overall, has magnified the need to both stabilize and enhance the workforce commensurately.

The previous collective bargaining agreement between the City and CMCEA covered years 2016-2022 and expired on June 30, 2022. A series of collaborative and productive meetings between the City's designated negotiation team and CMCEA's negotiation team were held, which resulted in the attached tentative agreement 2022 - 2025 CMCEA MOU (Attachment I). The proposed MOU would expire on June 30, 2025.

ANALYSIS:

For the duration of the 2016-2022 MOU agreement, CMCEA and Confidential employees realized incremental increases in salaries and benefits. The last across-the-board increases for CMCEA and Confidential employees included:

- 2% salary increase in June 2022
- 2.75% increase in July 2019 and July 2018
- 2.5% increase in July 2017 and March 2017
- Reduction of 3.044% in retirement contributions in March 2017
- Reduction of 1% in retirement contributions in July 2017 and July 2018
- $181/mo. health benefits increase in March 2017
- $100/mo. health benefits increase in July 2017, July 2018, July 2019, and June 2022

The expiration of the CMCEA MOU for 2016-2022 prompted labor negotiations discussions. However, prior to the expiration of the MOU, the City took several significant actions to help address recruitment and retention issues. While these actions helped address a number of hard-to-fill positions through market adjustments, salary and benefits remain a challenge in this competitive employment market with the current inflation rate at 8% and the Consumer Price Index at 8%.

The City's Negotiation Team and CMCEA Negotiation Team held several meetings to discuss the MOU and issues raised by both parties, including but not limited to wages, benefits, and personnel policies. During the course of negotiations, the City Negotiation Team has met with the City Council to discuss the status and progress of negotiations and to receive direction specific to provisions under consideration. The negotiations were collaborative and were based on the shared interests of the CMCEA employees and the City. The results of the negotiations have been compiled in a proposed MOU. The proposed MOU takes into consideration specific objectives that align with the City Council's Strategic Plan Goal - *Recruit, Retain High Quality Staff* and the City's current financial health as the proposed provisions have financial implications. A summary of the most significant MOU revisions is included below.

The following are the key provisions of the negotiated CMCEA MOU:

- Term of MOU
  - Upon City Council adoption the term of this MOU will commence on July 1, 2022, to be effective through June 30, 2025.

- Salaries and Wages
  - Effective January 2023, two percent (2%) increase
  - Effective July 2023, three percent (3.0%) increase
  - Effective July 2024, three percent (3.0%) increase

- Cost Sharing and Retirement Contributions
  - Effective July 2023, reduction of 3% of employee cost sharing which will require future City Council approval to amend the City's current cost sharing agreement with CalPERS via Government Code 20516(a).

- Health Insurance/Flex Benefit Contribution
  - Effective January 2023, the flexible benefit monthly contribution will increase to $1,550 per month. The maximum cash out will be $1,500 per month.
  - Effective January 2024, the flexible benefit monthly contribution will increase to $1,600 per month. The maximum cash out will be $1,500 per month.
  - Effective January 2025, the flexible benefit monthly contribution will increase to $1,650 per month. The maximum cash out will be $1,500 per month.

- Deferred Compensation
  - Effective January 2023, annual employer match contribution up to 0.5% of base salary.

- Standby Pay
  - Increase of ½ hour per weekday and 1.25 hours per weekend day and holidays.

- Vacation Accrual
  - Maximum accrual for vacation leave increased to 380 hours.

- Sick Leave
  - Sick leave accrual convert to bi-weekly accrual
  - Maximum accrual is 480 hours
  - New employees shall be provided with 96 hours in sick leave bank upon hire.

- Shift Assignment Pay
  - Allows employees regularly assigned to day shift, to receive shift assignment pay when working over-time in an A.M. or P.M. shift.

- Performance Evaluations
  - Employees to receive their merit increase no later than 60 days from their anniversary date.

The CMCEA negotiating team have agreed to a tentative agreement. The CMCEA ratification process was completed on November 4, 2022. The above mentioned provisions will also apply to non-represented Confidential employees.

Some of the provisions agreed to above may have an impact on other employee groups per the “me too” provisions in other side letters and resolutions. These provisions are currently under review, and updated side letters and resolutions for the Costa Mesa Fire Association, Costa Mesa Fire Management Association, Costa Mesa Police Management Association, Costa Mesa Division Managers Association, and unrepresented Executives and Confidential Managers will be brought back at a future council meeting for City Council approval.

Approval of the attached resolutions confers authority upon the City Manager to take all steps necessary to implement this MOU.

ALTERNATIVES:

The parties to this agreement considered a variety of issues in the context of good faith negotiations

in accordance with Government Code Section 3500, et seq. (Meyer-Milias-Brown Act). The CMCEA members have ratified the tentative agreement. This MOU represents the successful conclusion of labor negotiations, and alternatives need not be considered as a result of collaborative efforts expended.

FISCAL REVIEW:

The Fiscal Impact Analysis prepared pursuant to the City Council Policy 300-8 Transparency in Labor Negotiations recognizes the Fiscal Year 2022-23 increase is estimated at $570,000, and will take effect during the payroll cycle inclusive of January 1, 2023. The estimated annual fiscal impact to the City's future budget is $1.5 million, cumulating to approximately $3.6 million over the life of the contract.

Staff is requesting budget appropriations in the respective departments. General Fund revenues are tracking higher than pre-pandemic levels, and can cover the financial impact this fiscal year. Funding for future fiscal years will be included as part of that respective year's budget process.

LEGAL REVIEW:

The City's special counsel, Liebert Cassidy Whitmore (LCW) and City Attorney's Office have reviewed the agreements and resolutions and this report and approved them as to form.

CONCLUSION:

The proposed MOU and salary range adjustments support the City's Strategic Plan Goals to recruit and retain high quality staff. Staff recommends that the City Council:

1. Approve and adopt the Memorandum of Understanding between the City of Costa Mesa and the Costa Mesa City Employees Association. (Attachment I).
2. Adopt Resolution Number 2022-XX (Attachment II), which revises the pay ranges for CMCEA effective January 2023.
3. Adopt Resolution Number 2022-XX (Attachment III), which revises the pay ranges for CMCEA effective July 2023.
4. Adopt Resolution Number 2022-XX (Attachment IV), which revises the pay ranges for CMCEA effective July 2024.
5. Adopt Resolution Number 2022-XX (Attachment V), which revises the pay ranges for the Confidential Unit effective January 2023.
6. Adopt Resolution Number 2022-XX (Attachment VI), which revises the pay ranges for the Confidential Unit effective July 2023.
7. Adopt Resolution Number 2022-XX (Attachment VII), which revises the pay ranges for the Confidential Unit effective July 2024.
8. Approve the Fiscal Impact Analyses (Attachment VIII).
9. Authorize the City Manager and the City's Negotiation Team to execute the MOU documents, and appropriate into the respective departmental budgets.

MEMORANDUM OF UNDERSTANDING

Between The Representative of the

Costa Mesa City Employees Association

And the City of Costa Mesa

CMCEA

CHAPTER 1 - INTRODUCTION

ARTICLE 1 - RECOGNITION/PREAMBLE

1.1 By resolution of the City Council of the City of Costa Mesa and pursuant to the provisions of the Meyers-Milias-Brown Act, Section 3500 et. Seq. of the California Government Code, the City of Costa Mesa (hereinafter called the "City") has recognized the Costa Mesa City Employees Association (hereinafter referred to as "Association" or "CMCEA") as the exclusive representative and agent for collective bargaining for the employees in job classifications set forth herein. The Association and the City are the Parties to this agreement and are jointly recognized herein below as "The Parties."

1.2 This Memorandum of Understanding (MOU) has been prepared by representatives of the City and representatives of CMCEA who have met and conferred in good faith, examining a number of proposals and counter proposals concerning wages, hours of employment, fringe benefits and other terms and conditions of employment for the employees of the City as defined in Section 1.1 herein.

1.3 It is the mutual understanding of the City and Association that this MOU shall be submitted to the Costa Mesa City Council with the joint recommendation of the parties that this MOU be adopted and that said City Council will take such other action as may be needed to implement its provisions.

1.4 The wages, hours and other terms and conditions of employment specifically referenced in this MOU shall remain in effect unless and until modified, amended or deleted by means of future meet and confer processes, including impasse resolution procedures. If a tribunal of competent jurisdiction holds that any part of this MOU is found to be insufficient, in conflict or inconsistent with other laws, regulations or the obligations of the Parties as defined herein, or is otherwise held to be invalid, unlawful or unenforceable, such part or provision, and only such part or provision shall be severed from this MOU or shall be suspended or superseded by such applicable laws and regulations. To the extent that the implementation thereof falls within the scope of representation, it shall be controlled by the provisions of Government Code Section 3500 et. seq.

1.5 For the term of this MOU, neither party shall be compelled to meet and confer with the other concerning any issue expressly provided for in this MOU. Each Party to this MOU hereby expressly waives its right to demand that the other Party meet and confer concerning any issue expressly covered herein. However, nothing in this MOU shall prohibit these Parties from meeting and conferring over any issue provided for in this MOU.

1.6 Continuous uninterrupted and efficient service to the City of Costa Mesa by the City and its employees, and orderly employer-employee relations are essential considerations of this MOU. Accordingly, CMCEA agrees on behalf of itself and its members, individually and collectively, that there shall not be any strikes, non-informational picketing, boycotting, work stoppages, slow-down strikes or any other concerted job actions or by refusal to render services, including overtime or any other curtailment or restriction of work and services at any time.

1.7 CMCEA recognizes its duty and obligation to comply with the provisions of Section 1.6 of this MOU and to make every reasonable effort to assure that all employees covered by this MOU similarly do so. In the event of any concerted activity by employees in violation of the provisions or intent of Section 1.6, CMCEA hereby agrees to direct its members to cease said action or conduct forthwith. No employee covered by this MOU shall be entitled to any benefits or wages whatsoever while engaged in activities prohibited by Section 1.6.

1.8 All rights to manage, organize, direct and control the City's business, including all of the terms and conditions of the employment of any employee of the City, which are not expressly limited, modified, amended or eliminated by this or any other MOU, are retained exclusively by the City and its management

personnel. City Management also retains exclusive jurisdiction over any residual portions of any managerial rights which have in part been limited, modified or amended by this MOU.

1.9 During the term of this MOU, the parties agree either side can propose MOU language to clean up provisions which are either outdated or in need of modification. Any language changes must be mutually agreeable.

ARTICLE 2 - TERM OF AGREEMENT

The term of this MOU will commence on July 1, 2022, and will expire in the pay period which includes June 30, 2025.

CHAPTER 2 - COMPENSATION

ARTICLE 3 - SALARIES AND WAGES

3.1 - **BASE SALARY**

Employees covered by this MOU shall be compensated at the monthly base salary rates established for their classification under the Basic Pay Schedule per City Council resolution. An employee occupying a position in the classified service shall be compensated within the range established for his or her position as provided in Rule 6 of the Personnel Rules and Regulations. The minimum rate for the class generally shall apply to an employee upon his or her original appointment. Employees who are re-employed shall receive a rate within the range established for the class and agreed upon by the appointing authority and the employee prior to appointment.

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023), two percent (2.0%) increase for all classifications subject to this MOU.

Effective the pay period that includes July 1, 2023, three percent (3%) increase for all classifications subject to this MOU.

Effective the pay period that includes July 1, 2024, three percent (3%) increase for all classifications subject to this MOU.

3.2 - **MERIT SALARY ADVANCEMENT**

No salary advancement within a classification shall be made so as to exceed the maximum rate established in the pay plan. Advancement shall not be automatic but shall depend upon increased service value to the City as recommended by their supervisor based upon performance record, special training undertaken, length of service and other pertinent factors.

An employee who does not receive an evaluation within sixty (60) days of their anniversary date (i.e., the date the evaluation is due) will receive their merit increase effective the pay period including the employee's anniversary date regardless of the evaluation rating (which may be less than satisfactory) on an evaluation received after that date. Once the employee receives their evaluation, if an additional increase is recommended, it will be received retroactive to the employee's anniversary date. An employee who is at top step is not eligible for a merit increase.

3.3 - **LABOR MARKETPLACE**

The "labor marketplace" however defined, shall not mandate any specific compensation adjustment yet may be one of many factors assessed by the parties in determining levels of compensation. In assessing the labor marketplace, both public and private sector classifications may be given consideration as a factor in assessing the "labor marketplace" indication of total compensation levels. The "total compensation" of employees within the unit and in the "labor marketplace" may be a factor in assessing compensation levels. "Total compensation" shall include but not be limited to the value of City funded base salary, retirement, deferred compensation, health insurance, and other forms of City-funded remuneration as agreed to between the City and the Association.

ARTICLE 4 – ADDITIONAL COMPENSATION

4.1 - **BILINGUAL PAY**

Bilingual pay of two and one half percent (2.5%) or five percent (5%) of the employee's base hourly rate for regularly scheduled hours is available to those employees who qualify (based on their skills) per this Article. Employees are eligible to receive bilingual pay if their classification and particular position has been approved by the City Manager or designee to receive the pay. If so approved, employees shall receive the pay.

If an employee wants to test to qualify for bilingual pay, the City will pay for one test per year per employee. An employee may take the test more than once during the year at their own expense. Employees must be certified annually by their department director and may be re-tested by the Human Resources Division annually to verify their foreign language proficiency in order to maintain eligibility for bilingual pay. If an employee is re-tested by the City, the City will pay for the test.

The City agrees to receive CMCEA input as to what languages should be considered for the bilingual program.

The following standard of spoken Spanish, Vietnamese, or American Sign Language is followed for the 2 ½ % Certification:

A. The applicant has the ability to create with language, recombining and adapting learned material to express personal meaning and can handle simple situations and transactions in the course of their work such as explanation of procedures, obtaining personal information, instructions to victims and onlookers, among others.

B. The applicant is able to maintain simple face-to-face conversations, asking and answering questions regarding everyday survival on topics most related to self and immediate work environment; courtesy requirements, and personal needs during the course of routine calls not likely to be of a life or death nature.

C. The applicant can be understood with some repetition by a sympathetic native speaker.

D. The applicant demonstrates mastery of work-related vocabulary including: time, days of the week, months, family members, parts of the body, motions and states, greetings, home and community, food and beverages, alphabet and numbers, vehicles, simple commands, interrogatory words, etc.

E. Accuracy is required in the present tense and gender distinctions.

F. Core vocabulary of 300-600 words.

The 5% Certification requires:

A. Accuracy in present and past tenses.

B. Core vocabulary of 600-1200 words.

C. Exhibits good pronunciation, stress, and intonation skills as judged by the ability to be understood with little repetition or confusion by native speaker.

D. Ability to interview the victim of a crime or accident or other situation involving a native speaker of Spanish or Vietnamese and the conduct simple interrogations and investigations which could be of a life or death nature.

E. Ability to understand description, narration, main ideas and details on a variety of topics beyond the immediate situation.

4.2 - **MATRON PAY**

The City will endeavor to ensure that non-sworn staff will not be assigned to perform this duty, pursuant to Police Department policy. However, when required as an incidental assignment for trained non-sworn personnel other than a Custody Officer, employees will be paid five percent (5%) of their base hourly rate for each hour they perform the matron duty.

4.3 - **"EMD" CERTIFICATION PAY**

Telecommunication Division employees who possess an Emergency Medical Dispatch Certification (EMD), shall receive 5% of base salary for regularly scheduled hours paid each pay period.

4.4 - **STANDBY PAY**

Employees who are released from active duty but who are required by their department to leave notice where they can be reached and be available to return to active duty when required by the department at any time other than their regularly scheduled working hours, shall be said to be on standby duty.

An employee assigned to standby duty shall be paid at the rate of one (1) hour per weekday and four (4) hours per weekend day (for up to a total of thirteen (13) straight time hours) at their base hourly rate for each week so assigned, plus compensation for each hour actually worked pursuant to the callback provisions. If a holiday falls within the assigned standby week, an additional four (4) hours at the employee's base hourly rate will be given to the person assigned to standby.

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023), an employee assigned to standby duty shall be paid at the rate of one and one-half (1.5) hours per weekday and five and one-quarter (5.25) hours per weekend day (for up to a total of eighteen (18) straight time hours) at their base hourly rate for each week so assigned, plus compensation for each hour actually worked pursuant to the callback provisions. If a holiday falls within the assigned standby week, an additional five and one quarter (5.25) hours at the employee's base hourly rate will be given to the person assigned to standby.

Employees on standby duty must remain within a reasonable commuting distance in which the employee must be able to respond to the worksite within one hour of being called. During standby duty, the employee must refrain from activities that might impair their ability to respond or perform assigned duties in a satisfactory manner.

4.5 - **COURT STANDBY PAY**

If an employee receives a job-related subpoena to be standby for court while in a non-paid status (time off), they shall receive two hours at the base hourly rate for each court session.

4.6 - **SHIFT ASSIGNMENT PAY EXCEPT FOR TELECOMMUNICATIONS BUREAU**

The City will pay a shift differential for employees in CMCEA-represented classifications who actually work a minimum of five (5) hours during the shift as defined below:

A. A P.M. Shift Differential of 5% over the assigned rate per shift for all CMCEA represented classifications assigned to work a night (swing) shift schedule.

B. An A.M. Shift Differential of 10% over the assigned rate per shift for all CMCEA represented classifications assigned to work a morning (graveyard) shift schedule.

C. Employees eligible for shift differential who work a Cross-Over Shift schedule beginning in one shift, but including at least five (5) hours worked into a P.M. or A.M. Shift, will be compensated at the appropriate Shift Differential rate. For example, an employee working a ten-hour Cross-Over Shift where two-and-a-half hours fall into the PM Shift and seven-and-a-half hours fall into the AM Shift would earn two-and-a half hours of PM Shift Differential and seven-and-a-half hours of AM differential.

D. Employees eligible for shift differential who work an overtime shift during the P.M. or A.M. shift hours will be compensated at the appropriate Shift Differential rate for those hours.

Employees who are continuously and regularly assigned to the Day shift are not eligible for Shift Assignment Pay.

4.7 – **SHIFT ASSIGNMENT PAY TELECOMMUNICATIONS BUREAU**

Employees in the telecommunications bureau in the classifications of Communications Officer, Senior Communications Officer and Communications Supervisor shall receive a shift differential of 7.5% for those actual hours worked between the hours of 6:00 p.m. to 6:00 a.m. only.

4.8 – **SHORTHAND ASSIGNMENT PAY**

Shorthand is a desirable requirement for all secretarial classifications. The City will pay a 2.5% monthly assignment differential (i.e., 2.5% of the employee's base hourly rate for regularly scheduled hours) for each full month that an incumbent in a secretarial classification is assigned by the Department Director to utilize the ability to take dictation at a minimum rate of 70 words per minute. In order to receive and maintain the monthly assignment differential, the incumbent must have successfully passed the City's shorthand test and the Department Director must annually certify that the incumbent routinely utilizes the skill in the workplace. Effective with this 2022- 2025 MOU, no future employee will be eligible for this pay.

4.9 – **CLASS A and B LICENSE INCENTIVE PAY**

Eligible employees assigned to positions requiring daily operation of equipment requiring a valid Class A/B California Driver's License shall receive an annual $700 incentive bonus, subject to the following eligibility criteria:

A. Eligibility – The employee must meet all of the following in order to be eligible for the annual bonus incentive:

- Employee must be assigned to a position requiring regular operation or maintenance of equipment requiring a valid Class A/B California Driver's License.
- As a condition of employment, employee must obtain and maintain the required California Driver's license and endorsements (airbrakes, tanker and passenger endorsement if applicable). A manual transmission endorsement shall no longer be required effective August 30, 2020.
- Employee must have a rating of "meets standards" or higher on the employee's most recent annual performance evaluation. If an employee does not receive their evaluation within 60 days of its due date, they have satisfied this provision.
- Employee must have successfully completed probation.
- Employee must have successfully passed the DMV Medical examination.

B. Payment of Annual Incentive – Eligible employees shall receive this annual incentive bonus on their respective anniversary date. Employees must receive a rating of "meets standards" or higher on their most recent annual performance evaluation and submit a copy of their current Class A/B California Driver's License and current DMV medical certification prior to receipt of the bonus.

C. Lapse of License – Any eligible employee assigned to positions requiring daily operation of equipment requiring a valid Class A/B California Driver's License who allow their Class A/B California Driver's License to lapse may be subject to discipline up to and including termination. Any annual incentive bonus to be paid on their next anniversary date will be reduced on a prorated basis.

D. DOT Drug and Alcohol Testing Regulations - Eligible employees assigned to positions requiring daily operation of equipment requiring a valid Class A/B California Driver's License will be subject to the DOT Drug and Alcohol Testing Regulations and the City's Drug & Alcohol Policy adopted pursuant to the DOT Regulations.

E. License and DMV Physical Fees - Any employees who successfully renew their Class A/B California Driver's Licenses or acquire a new license upon starting a new assignment requiring a Class A/B California Driver's License shall, upon submission of a receipt by the employee, be reimbursed by the City for the difference in fee charged by the DMV between such license and a Class C Driver's license. The cost of the DMV physical/medical exam will be scheduled and paid by the City.

4.10 – **MOVE UP PAY**

Eligible employees temporarily assigned to perform the work of a higher classification for a period of at least two weeks will be compensated at 5% above their current rate of pay for up to 90 days. After 90 days, either the position will be reclassified, the employee will be given an acting appointment, or the move-up duties will be removed from the employee's assignment. Time limits on move-up pay may be extended on an individual basis by prior written, mutual agreement by the City and CMCEA. An acting appointment will be made when the employee is performing all of the duties of the higher-level classification.

Move-up pay will be included in the calculation of the overtime rate when an employee earns overtime.

4.11 – **SAFETY SHOE ALLOWANCE**

For those employees covered under the City's Safety Shoe Policy and who meet the criteria for the replacement, repair or purchase of safety shoes, the City agrees to pay up to $225 for the shoe that

meets the minimal standard established by the program. All safety shoes/boots purchased must comply with the City's Safety Shoe Policy.

4.12 – **DEFERRED COMPENSATION MATCH**

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023), for any employees who make a voluntary contribution to the employee's 457(b) account with the City's 457(b) provider, the City will make an annual contribution to the City's 457 (b) provider that will equal up to 0.5% of annual base salary for the payroll calendar year.

The City's contribution will be made on the second to the last pay period of the payroll calendar year. The first contribution will be made in December 2023. If at the time of contribution, the employee has already contributed the maximum allowable per the IRS, the contribution will be issued as earnings. If an employee leaves the bargaining unit (through promotion or separation), the contribution to the City's 457 plan will occur in their last pay period.

ARTICLE 5 - CLASSIFICATION AND COMPENSATION

5.1 - **REQUEST FOR STUDIES**

Employees seeking a classification study of their position may request a study through CMCEA. Each January, CMCEA may request that the Human Resources Division conduct up to five classification studies. The CMCEA will be responsible for submitting completed Position Analysis Questionnaires for the requested position studies with a cover memorandum explaining the changes in duties, organization or marketplace for each position. The Human Resources Division will study the positions and meet with CMCEA with its recommendations.

In January of each year, CMCEA may request that the Human Resources Division conduct up to five compensation studies. The Human Resources Division will study the positions and meet with CMCEA with its recommendations.

Commencing with the meet and confer process regarding negotiation of a successor to the 2022-2025 MOU, the results of the above studies shall be one of many factors that may be considered by the parties in formulating and considering proposals for a successor to the 2022-25 MOU, however the product of the above studies shall not result in any mandated changes in wages, hours or other terms and conditions of employment.

5.2 - **NEW CLASSIFICATIONS**

The City acknowledges its legal obligation to meet and consult with CMCEA prior to the creation of a new classification and to bargain in good faith regarding the appropriate salary for the new classification within its bargaining unit.

ARTICLE 6 - HOURS WORKED

6.1 - **OVERTIME**

If an employee is required to work longer than the normal work week or shift, the employee shall be compensated for the overtime either (1) by being allowed one and one-half (1-1/2) times the amount of actual overtime hours worked, to be earned as compensatory time off ("comp time"), or (2) by payment for such overtime actually worked paid at time and one half. . Overtime will be paid as follows: if actual hours worked exceed 40 hours in the defined workweek the employee shall be paid for those hours per the requirements of the Fair Labor Standards Act (FLSA) and paid at their regular rate of pay per the FLSA. If an employee works hours outside their regular shift, but the employee

has not worked in excess of 40 hours in their workweek (because they took some form of leave) those hours are referred to as "contract overtime" and paid at 1.5 times the employee's base hourly rate of pay if the overtime is mandatory and 1.0 times the employee's base hourly rate of pay if the overtime was voluntary.
Paid leave shall not be considered hours worked for purposes of computing overtime eligibility.

6.2 - **COMPENSATORY TIME OFF**

A. Accrual of Compensatory Time Off: An employee who earns overtime may, with the department director's approval, accumulate compensatory time off to a maximum accumulation of sixty (60) hours. Employees in the Police Department who must work without regard to the listed holidays in Article 11.11 may accrue compensatory time to a maximum of 80 hours.

B. Use of Compensatory Time Off: A written request to use accrued C.T.O. shall be made and approved no later than 24 hours prior to the requested time off. Twenty-four (24) hours is considered reasonable notice.

All employees (on a first come, first served basis) who submit a request for time off may utilize accrued compensatory time off ("CTO"), provided their vacancy does not result in less than minimum staffing levels on the shift they are scheduled to work. This policy is subject to suspension in emergency situations at the discretion of the Department Director or their designee.

Employees assigned to rotating shifts (i.e., employees who may work different shifts based on shift selection) may not submit a CTO request more than 30 calendar days in advance of the shift rotation in which the CTO day off would fall.

Employees will submit their request to the shift supervisor who shall as soon as possible determine if the CTO request may be granted if it does not take the shift below minimum staffing.

If the CTO vacancy would result in less than minimum staffing levels, the employee will be required to identify an alternate date to take CTO or make approved arrangements for a day-for-day shift trade. A shift trade will not result in overtime compensation or CTO accrual since the employee whose shift is worked gets credit for the shift as regular hours worked.

C. Cash-Out of Compensatory Time Off: Employees will be allowed to cash-out up to 40 hours of compensatory time (time off accrued in lieu of paid overtime) in any payroll period. On the first pay day in January of each year, employees' compensatory time banks shall cashed out down to 40 hours unless an employee informs payroll that they elect to cash out all of their accrued compensatory time on the first pay day in January.

6.3 - **CALL BACK DUTY**

Employees who are recalled to active duty from off-duty not as an extension of the scheduled or normal work shift will be considered to be "on call" and shall receive overtime compensation at time and one half (1½) for time actually worked or two (2) hours of overtime pay, whichever is greater. Employees who are required to report to work immediately shall be compensated at the time of recall. Employees who are required to report to work at a later time shall be compensated after returning to work. Employees who are able to handle the incident by phone or other electronic means without reporting to duty shall be compensated according to the same callback provisions.

6.4 - **CALL RESPONSE DURING LUNCH PERIODS**

Except for employees who receive a paid lunch period, if an employee is required to work during their lunch period, the time they work during their lunch period shall be at time and one-half (1.5). Employees are not permitted to forego any portion of their lunch period without prior approval.

6.5 - **DAY-FOR-DAY EXCHANGE OF WORK SHIFTS**

Day-for-Day exchange of work shifts may be granted by the department director for emergency or other justifiable reasons.

6.6 - **SHIFT TRADING**

The practice of shift trading shall be voluntary on behalf of each employee involved in the trade. The trade must be due to the employee's desire or need to attend to a personal matter and not due to the department's operations. All shift trades must be approved in advance.

The employee providing the trade shall not have their compensable hours increased as a result of the trade; nor shall the employee receiving the trade have their compensable hours decreased as a result of the trade. Any hours worked beyond the normal workday will be credited to the individual actually doing the work.

"Paybacks" of shift trades are the obligation of the two employees involved in the trade. Paybacks are to be completed within the shift deployment of the initial shift trade. Any dispute as to paybacks is to be resolved by the involved employees, and under no circumstances will the department be obligated for any further compensation whatsoever to any of the involved employees. The department is not responsible in any manner for hours owed to employees by other employees that leave the employment of the City or are assigned other duties. Shift trades are not subject to the grievance procedure.

If one individual fails to appear for the other (regardless of the reason), the person who agreed to work the shift per a shift trade will be listed as absent and will be required to use appropriate accrued leave.

A record of all initial shift trades and "paybacks" shall be maintained by the involved employees on forms provided by the department ("Shift Trade Log").

6.7 - **ATTENDANCE**

Employees shall be in attendance at their work in accordance with Personnel Rules and Regulations and department policies regarding hours of work, holidays and leaves. All departments shall keep daily attendance records. Any unauthorized tardiness or absence is cause for disciplinary action.

ARTICLE 7 – WORKWEEK AND WORK SCHEDULES

7.1 – **WORKWEEK**

The average workweek for all full-time positions shall be forty (40) hours. The FLSA workweek is 168 regularly recurring hours. For employees scheduled to work a 9/80 or 3/12 work schedule, their FLSA workweek begins four hours after the start time of their shift on their alternating regular day off. For employees working the 5/40 or 4/10 work schedules, their FLSA workweek shall begin Sunday at 12:00 a.m. and ends on Saturday at 11:59 p.m.

7.2 – **WORK SCHEDULE**

The following are work schedules that may be worked by employees:

5/40 - five eight (8) hour days on and two days off.

9/80 – four nine hour work days followed by one eight hour work day followed by two consecutive days off followed by four nine hour workdays followed by three consecutive days off, or

4/10 - four ten (10) hour days on and three days off.

3/12 – three twelve- hour work days followed by one eight-hour work day followed by three consecutive days off followed by three twelve-hour workdays followed by four consecutive days off. This work schedule is only for the Telecommunications Bureau.

Work schedules for work shifts established on a pay period basis shall usually be ten (10) eight hour days on and four days off. All employees shall be scheduled at least two consecutive calendar days off. The work schedule for each position shall be established by the department director and approved by the City Manager or designee.

7.3 – **SHIFT COVERAGE FOR TELECOMMUNICATIONS DIVISION**

Employees in the Telecommunications Division working the 3/12 work schedule shall not fall below the minimum staffing of four (4) employees, except that during the hours of 0200 to 0600 from Sunday to Thursday where minimum staffing is three (3) employees.

CHAPTER 3 - BENEFITS

ARTICLE 8 – HEALTH INSURANCE AND RETIREE MEDICAL BENEFIT PROGRAM

8.1 – **IRS SECTION 125 BENEFIT PLAN**

The City shall continue to provide the amounts listed below toward the payment of premium for employees covered by this Agreement under an IRS Section 125 Benefit Plan. The current core benefits include life and long term disability insurance. Medical insurance is a core benefit which a City employee is required to carry unless they is covered by another medical insurance plan (as addressed in Article 8.4 below) with comparable coverage at the end of the open enrollment period.

8.2 – **MANDATORY BENEFITS**

Employees must use a portion of the City contribution to pay for life insurance and long-term disability. Employees also must enroll in medical insurance unless the employee meets the eligible opt out requirements to receive cash in lieu.

8.3 – **PUBLIC EMPLOYEES' MEDICAL AND HOSPITAL CARE ACT**

The City contracts with the California Public Employees' Retirement System ("CalPERS") for medical insurance pursuant to the Public Employees' Medical and Hospital Care Act ("PEMHCA"). The City will contribute the annual CalPERS statutory minimum on behalf of each participant in the program, which is included in the amount of the City's contribution to the flexible benefit account (i.e., the Section 125 Benefit Plan) described below. Eligible employees may select any of the medical insurance plans offered by CalPERS.

8.4 – **CONTRIBUTION AMOUNT**

For those employees who enroll in City offered coverage, the City's contribution towards each employee's flexible benefit account is one thousand five hundred dollars ($1,500.00) per month. This amount is inclusive of the CalPERS statutory minimum amount for each month.

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023), the City amount is increased to $1,550.00 per month.

Effective the pay period that begins on December 17, 2023 (with a pay date of January 5, 2024), the City amount is increased to $1,600.00 per month.

Effective the pay period that begins on December 15, 2024 (with a pay date of January 3, 2025), the City amount is increased to $1,650.00 per month.

Opt Out: All employees must enroll in an available City health program unless they opt out. In order to opt out, an employee must provide the following: (1) proof that the employee and all individuals for whom the employee intends to claim a personal exemption deduction for the taxable year or years that begin or end in or with the City's plan year to which the opt out applies ("tax family"), have or will have minimum essential coverage through another source (other than coverage in the individual market, whether or not obtained through Covered California) for the plan year to which the opt out arrangement applies ("opt out period"); and (2) the employee must sign an attestation that the employee and their tax family have or will have such minimum essential coverage for the opt out period. An employee must provide the attestation every plan year at open enrollment or within 30 days after the start of the plan year. The opt-out payment cannot be made and the City will not in fact make payment if the employer knows that the employee or tax family member doesn't have such alternative coverage, or if the conditions in this paragraph are not otherwise satisfied.

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023), the maximum opt-out payment is $1,500.00. Employees who use benefits that are less than maximum amount set forth above (after purchase of medical, life and LTD) shall receive the difference between the maximum amount set forth above and the amount they use toward benefit payments. Employees who use benefits shall receive the annual health benefit increases set forth above.

8.4 – **QUALIFICATION FOR FLEX CONTRIBUTION**

Employees must receive compensation for the entire pay period to receive the flexible benefit contribution amount. Use of accrued leave qualifies as compensation for this purpose. Employees will be ineligible for the flexible benefit contribution if the employee records absence without pay hours within the pay period except if an employee exhausts their accrued leaves prior to the end of the pay period, they shall receive the flex contribution for that pay period. This exception will be permitted once per every six (6) months per rolling year. Disciplinary actions will not disqualify an employee from receiving the flex contribution. Catastrophic illness leave donations to employees will not meet the qualifications for the flex contribution. In addition, to the preceding, for employees within the first six (6) months of employment, or employees who take unpaid time off during the City's "holiday closure they will not lose their flex contribution if they record absence without pay

8.5 – **RETIRED EMPLOYEES MEDICAL PROGRAM**

Unit employees hired by the City prior to January 1, 2004 who participated in the City's group health insurance plan for at least five (5) consecutive years and are enrolled in City medical insurance immediately prior to retirement who retire immediately commence receiving a retirement allowance upon separation from City service will participate in the retiree life and medical insurance programs

as defined in City Council Policy 300-1.The City shall continue to provide life and medical insurance for retired employees of the City as defined in Council Policy 300-1.

ARTICLE 9 – RETIREMENT

9.1 – **CALPERS**

The City contracts with CalPERS for retirement benefits.

A. Employees Who Are Not "New Members" as Defined by Government Code Section 7522.04(f) – i.e., "Classic Members"

1. Retirement Formula: The City contracts with CalPERS to provide the 2.5% at 55 retirement formula ("tier 1") as set forth in California Government Code Section 21354.4 for all employees covered by this MOU hired before March 11, 2012 and the 2% at 60 retirement formula ("tier 2") as set forth in California Government Code Section 21353, for all employees covered by this MOU who were hired between March 12, 2012 and December 31, 2012 or hired after December 31, 2012 as lateral employees who qualify as "classic members" under the Public Employees' Pension Reform Act of 2013 ("PEPRA").

2. Retirement Benefit Calculation Period: The City's contract with CalPERS provides for the "Single Highest Year" retirement benefit for these employees per Government Code section 20042. The retirement benefit is based on the highest annual compensation for the twelve (12) consecutive months selected by the employee or not selected, the employee's last twelve (12) months of employment.

3. Payment of Employee/Member Contribution:

   a. Employees Subject to the 2.5% @ 55 formula:

      These employees will pay the full CalPERS member contribution equal to eight percent (8%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

   b. Employees Subject to the 2%@60 formula:

      These employees will pay the full CalPERS member contribution equal to seven percent (7%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

4. Cost Sharing:

   a. Classic member employees subject to the 2.5%@55 formula pay 2.469% of compensation earnable pursuant to Government Code section 20516(a) and 1.531% of compensation earnable pursuant to Government Code section 20516(f). Effective July 1, 2023, classic member employees subject to the 2.5%@55 formula shall have their cost sharing per Government Code section 20516(a) reduced by 1.469% for a net contribution of one percent (1%) and cost sharing pursuant to 20516(f) will be reduced from 1.531% to 0%.

b. Classic member employees subject to the 2%@60 formula pay five percent (5%) of compensation earnable pursuant to Government Code section 20516(f). Effective the pay period that includes July 1, 2023, cost sharing for employees subject to the 2%@60 formula will be reduced from five percent (5%) to two percent (2%) and will be pursuant to Government Code section 20516(a).

B. **For "New Member" Employees**

"New Members" are defined in Government Code section 7522.04(f) as follows:

"New member" means any of the following:

(1) An individual who becomes a member of any public retirement system for the first time on or after January 1, 2013, and who was not a member of any other public retirement system prior to that date.

(2) An individual who becomes a member of a public retirement system for the first time on or after January 1, 2013, and who was a member of another public retirement system prior to that date, but who was not subject to reciprocity under subdivision (c) of Section 7522.02.

(3) An individual who was an active member in a retirement system and who, after a break in service of more than six months, returned to active membership in that system with a new employer.

New Members are subject to the provisions of this subsection B:

1. Retirement Formula: Unit members who are defined as "new members" are covered by the 2%@62 formula provided for by the Public Employees' Retirement Law at Government Code section 7522.20.

2. Retirement Benefit Calculation Period: These employees' final compensation is based on the highest annual average compensation earnable during the three consecutive years of employment immediately preceding the effective date of their retirement or any other three consecutive year period chosen by the employee as set forth in Government Code section 7522.32(a).

3. Payment of Employee/Member Contribution: New member employees are responsible for paying the employee contribution of one-half of the total normal cost of the plan (rounded to the nearest quarter of one-percent), as defined by CalPERS in their annual valuation, through a payroll deduction. This amount is determined by CalPERS each year.

4. Cost Sharing: New member employees will cost share (pursuant to Government Code section 20516(f)), a percentage of pensionable compensation that when combined with the payment of their employee/member contribution will equal twelve percent (12%) of pensionable compensation. For example, if the CalPERS annual valuation report for 2022, provides that the City's normal cost rate is 6.50%, the new member employees will cost share 5.5% of pensionable compensation for 2022. If, for example, the CalPERS annual valuation report for 2023, provides that the City's normal cost rate is 6.75%, the new member employees will cost share 5.25% of pensionable compensation for 2023.

   Effective the pay period that includes July 1, 2023, new member employees will cost share (pursuant to Government Code section 20516(f), a percentage of pensionable compensation that when combined with the payment of their employee/member

contribution will equal nine percent (9%) of pensionable compensation. For example, if the CalPERS annual valuation report for 2023, provides that the City's normal cost rate is 6.50%, the new member employees will cost share 2.5% of pensionable compensation for effective the pay period including July 1, 2023. If, for example, the CalPERS annual valuation report for 2024, provides that the City's normal cost rate is 6.75%, the new member employees will cost share 2.25% of pensionable compensation for 2024.

C. Adoption of the IRS Code section 414(h)(2) Resolution

The City has adopted the CalPERS resolution in accordance with IRS Code section 414(h)(2) to ensure that the employee contribution is made on a pre-tax basis.

9.2 – **CALPERS CONTRACT**

The City will continue to provide pension benefits to represented employees in accordance with the CalPERS contract in effect on the effective date of this MOU. The City's contract with CalPERS for employees covered by this MOU includes the following options:

- Section 20042 (Final Compensation 1 Year only applies to classic member employees)
- Section 20037 (Final Compensation 3 Years only applies to New Member employees)
- Section 20516 (Employee Sharing Additional Cost, only applies to classic member Tier 1 employees)
- Section 20965 (Unused Sick Leave Credit – Local Member)
- Section 21031 Public Service Credit for Limited Prior Service
- Sections 21624/21626 (Post-Retirement Survivor Allowance, only applies classic member employees)
- Section 21620 ($500 Retired Death Benefit)
- Section 21329 (2% Annual Cost-of-Living Allowance Increase)
- Section 21354.4 (2.5% @ 55 Formula for Local Miscellaneous Members, only applies to classic member Tier 1 employees)
- Section 21353 (2% @ 60 Formula for Industrial and Miscellaneous Members, only applies to classic member Tier 2 employees)
- Section 7522.20 2 @ 62 Formula for Miscellaneous/Industrial Members
- Section 20903 (Additional Service Credit 2 Years – Local Member)
- Section 21635 (Post-Retirement Survivor Allowance to Continues After Remarriage)
- Section 21573 (Survivor Benefit Level 3)
- Section 21551 (Pre-Retirement Death Benefits to Continue After Remarriage of Survivor)
- Section 20055 (Prior Service)
- Section 21024 Military Service Credit as Public Service
- Section 21023.5 (Public Service Credit for Peace Corps, AmeriCorps VISTA, or AmericCorps Service)
- Section 21027 Military Service Credit for Retired Persons
- IRC 414(h)(2) (Pre-tax payroll deduction plan for member contributions and service credit purchase)

ARTICLE 10 – TUITION REIMBURSEMENT AND PROFESSIONAL DEVELOPMENT

10.1 – **TUITION REIMBURSEMENT**

Tuition and/or textbook costs required to complete educational courses which are taken by an employee and which pertain to their City employment, may be reimbursed to the employee by the City if reimbursement is recommended by the employee's department director and approved by the

City Manager or designee. The employee on whose behalf the recommendation is made must also maintain a passing grade of a "C" or better, Credit/No Credit or a Certificate of Completion, which is verified by the Assistant City Manager's receipt of an official copy of the employee's grades prior to any reimbursement.

A. The City will reimburse up to a maximum of $1,250 per fiscal year for qualifying tuition and/or textbook (including e-textbooks) costs.

B. To become eligible for tuition reimbursement, employees shall have completed one year of service prior to enrollment in such classes.

C. The parties agree that the City's budgetary guidelines do not impact the tuition reimbursement program, nor do the guidelines prevent a represented employee from continuing to participate in tuition reimbursement for approved courses.

10.2 – **PROFESSIONAL DEVELOPMENT**

The City endorses outside City-paid education and training, attendance at professional meetings and conferences, and dues and memberships in job specific organizations in which the City receives specific benefits for all CMCEA represented employees. Department directors may request in the budget up to $1,000 per full-time department employee per year with appropriate justification from the employee. The up to $1,000 Professional Development budget per full-time department employee limit pertains to education/training, meetings/seminars and conferences (including travel and meals), dues and memberships. Department directors have the right to determine the benefit to the City for the professional development request, staffing requirements and funding availability. Employees have the right to appeal to the Human Resources Division if they feel their request did not receive fair consideration by their Department Director.

CHAPTER 4 – LEAVES OF ABSENCE

ARTICLE 11 – LEAVES

11.1 – **VACATIONS**

A. Vacation Leave is to enable employees to spend a reasonable amount of time away from their job and to return to work refreshed. Employees accrue vacation when in paid status. If an employee is absent without pay for an entire pay period, they will not accrue vacation for that pay period. If an employee is absent without pay for a partial pay period, their accrual will be pro-rated.

B. Employees shall accrue vacation leave as follows:

Years of Service	Hours Accrued Per Year	Maximum Accrual
0.00 – 2.99	92	380
3.00 – 4.99	116	380
5.00 – 9.99	140	380
10.00 – 14.99	164	380
15.00 – 19.99	188	380
20.00 +	212	380

The City Manager or designee shall have discretion to start a new employee at higher accrual rate or with hours in their bank upon hire.

C. Maximum Accumulation of Vacation Leave - All employees shall be permitted to accrue up to three hundred eighty (380) hours of vacation leave. If an employee's vacation accrual reaches 380 hours, the employee will stop accruing additional vacation leave unless there is an exception as provided in Subsection G of this Article based on department needs. Vacation accruals will re-commence in the next pay period following the use of vacation leave that reduces the balance below the maximum accrual. It is the responsibility of the employee to manage accrued vacation time off by requesting, scheduling and using vacation to avoid not accruing vacation because they have accrued the maximum accrual. .

D. Vacation Leave Cash Outs

1. Through December 31, 2022

a. During the first payroll periods commencing on and after January 1, April 1, July 1, October 1 and the last pay period of 2022, unit members shall have the option of converting up to eighty (80) hours of earned and accrued vacation leave to cash for every forty (40) hours of vacation leave used during said quarterly period of time.

b. During the payroll period commencing each July 1, unit members shall have the option of reducing the three hundred eighty (380) hour maximum vacation leave accrual to two hundred forty (240) hours.

2. Vacation Leave Cash Out for 2023 and Thereafter

On or before the pay period which includes December 15 of each calendar year (which includes December 15, 2022)**,** an employee may make an irrevocable election to cash out up to the maximum amount of vacation leave which they will be earned in the following calendar year at the employee's base hourly rate of pay as follows:

An employee can cash out vacation during any quarter of the following year as long as on the date(s) chosen for cash out the employee has earned at least the amount of vacation they chose to cash out. Employees who made an irrevocable election to cash out vacation shall choose to be paid out during one or more of the following payroll periods:

- Payroll period that includes April 1st
- Payroll period that includes July 1st
- Payroll period that includes October 1st
- Final Payroll period of the calendar year

Employees will notify the Human Resources Division of which quarter(s) they wish their cash outs to be paid by the payroll deadlines as set by the Finance Department and Human Resources Division. Any remaining elected vacation hours that have not been previously paid out during the year will be paid out on the final payroll period of the calendar year.

E. Scheduling of Vacation Leave - Employees must submit vacation requests in a timely manner to ensure that requests are granted. Vacation requests will be evaluated based on each department's operational needs taking into consideration the employee's specific requested time off. Scheduled vacations shall only be cancelled in the event of an emergency.

F. Departmental Needs & Exception - When an employee submits a timely vacation leave request and the Supervisor and/or the Department Director must deny it due to the operational needs

of the City and/or Department, an exception may be granted by the Department Head with a written explanation from the employee's supervisor and advance approval from the City Manager or designee. If such an exception is granted, the employee will be paid cash for any vacation time which would accrue in excess of the maximum amount allowed to be accrued. The payment will be processed for the pay period in question. There will be no approvals for vacation leave accrual beyond the maximum accrual level.

Should a scheduled Vacation Leave have to be cancelled by the Department Head due to the operational needs of the City/Department, and the cancellation would cause the employee to accrue above the maximum vacation accrual, an exception for a "Cash-Out" may be granted by the Department Head with a written explanation from the employee's supervisor and advance approval from the City Manager or designee. If such an exception is granted, the employee will be paid cash for any vacation time that would accrue in excess of the maximum amount allowed to be accrued.

G. Vacation Leave Procedure

1. An employee may only take vacation leave with hours they have accrued.

2. The time during the calendar year at which an employee shall take their vacation shall be determined by the department director with particular regard for the need for the employee's services and due regard for the wishes of the employee.

3. In the event one or more municipal holidays fall within a vacation leave, the day will be considered a holiday, not vacation.

4. An employee shall not accrue vacation if on an unpaid leave of absence.

H. Terminal Vacation Pay - Upon termination, employees will paid for their vacation accrued through their date of termination at their base hourly rate of pay.

11.2 – **SICK LEAVE**

A. The Sick Leave Bank

All employees in the unit have a Sick Leave Bank. The Sick Leave Bank is a bank of hours that an employee can use for a bona fide illness. Effective the payroll that includes July 1 of each year, the Sick Leave Bank shall be augmented with a maximum of ninety-six (96) hours of credited sick leave, but in no case shall the annual augmentation result in more than one hundred ninety-two (192) hours in the Sick Leave Bank on July 1 of any year. (For example, if on July 1 of any year the Sick Leave Bank reflects a balance of one hundred thirty-two (132) hours, that employee's bank would receive a sixty (60) hour augmentation. On the other hand, if the Sick Leave Bank reflected a balance of fifty (50) hours, the employee would receive a ninety-six (96) hour augmentation, resulting in a then total accumulation of one hundred forty-six (146) hours.) The sick leave hours in the Sick Leave Bank shall have no cash value, shall not be convertible to cash or to any other form of compensation.

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023) employees can only accrue sick leave in the Sick Leave Bank. The Sick Leave Bank will have the following provisions:

1. Employees accrue 96 hours per year at the rate of 3.69 hours per pay period.
2. Employees can accrue up to 480 hours in the Sick Leave Bank.

3. Any new employees hired or rehired into the unit after January 1, 2023 shall be provided with 96 hours of sick leave upon being hired. The City Manager or designee shall have discretion to start a new employee with additional hours in their sick leave bank upon hire.

B. The Secondary Sick Leave Bank.

Employees hired prior to September 21, 2014, were able to accrue sick leave into the Secondary Sick Leave Bank. Hours in this bank can still be used as sick leave when employees are sick but no sick leave is accrued in these banks and the sick leave contained in the Secondary bank have no cash value.

C. The Tertiary Sick Leave Bank

Beginning in the pay period that includes July 1, 2021, any hours remaining from the annual augmentation that were not placed in the Sick Leave Bank, will be placed in the employees Tertiary Sick Leave Bank. (For example, if on July 1 of any year, the Sick Leave Bank reflects a balance of one hundred thirty-two (132) hours, that employee's Sick Leave Bank would receive a sixty (60) hour augmentation and the employee's Tertiary Sick Leave Bank would receive a thirty-six (36) hour augmentation. The maximum accrual for the Tertiary Sick Leave Bank is 288 hours. The sick leave contained in the Tertiary bank have no cash value.

Effective the pay period that begins on December 18, 2022 (with a pay date of January 6, 2023), no additional hours will accrue in the tertiary bank. An employee with hours in this tertiary bank can use those hours during their employment.

D. Sick leave hours in the Sick Leave Bank and Secondary Sick Leave Bank shall be used in case of a bona fide illness of the employee. Sick leave may also be used up to one half of one year's annual accrued sick leave (i.e., 48 hours) for serious illness or emergency of their child, parent, spouse, domestic partner, grandchild, grandparent or sibling who is incapacitated and/or requires the service of a physician, and when the presence of the employee is required. Sick leave hours in the Tertiary Sick Leave Bank shall be used in case of serious health condition of the employee, as defined by the City's Family Care and Medical Leave Act Administration Regulation or up to one half of one year's annual accrued sick leave (i.e., 48 hours) may be used to care for the employee's child, parent, spouse, domestic partner, grandchild, grandparent or sibling who is experiencing a serious health condition and the employee's presence is recommended by a physician or health care provider.

Employees can use up to 48 hours per calendar year for sick leave (from any bank in which they have an accrual for family members described in the above paragraph.

E. At the conclusion of the emergency, said employee shall return to work as soon as possible. The employee taking such sick leave shall notify their immediate supervisor prior to or within one-half (1/2) hour after the time set for the beginning of their scheduled shift or the commencement of their work assignment, or as otherwise specified by the department. When absence is for more than three (3) scheduled shifts, the employee may be required to present a physician's release to the department director indicating that the physician is knowledgeable of the essential functions of the employee's job and that in the doctor's medical opinion that the employee is medically fit to return to the employee's regular job. If the employee is not able to perform the essential functions of their job, the physician's release must indicate what essential functions of the employee's job cannot be performed by the employee, and for how long of time the employee will be unable to perform these functions in the doctor's opinion. Said physician's release may be required by the department director. The department director shall forward the certificate to the Assistant City Manager for filing.

F. The City Manager, upon written request, may grant that accrued sick leave may be taken by the employee when the employee's services are required by their relative which may be outside the employee's immediate household.

G. Separation from City - The sick leave hours in the any of the sick leave banks shall have no cash value, shall not be convertible to cash or to any other form of compensation. At the time of retirement from the City (defined as having applied for retirement benefits from CalPERS) an employee with sick leave in the Primary, Secondary and Tertiary Sick Leave Bank can convert that sick leave to service credit at the rate of 1 day = 0.004 years of service credit.

H. Accrued vacation leave normally will be used for sickness when all of an employee's accumulated sick leave has been exhausted. An employee may volunteer to use compensatory time off when all of their accumulated sick leave has been exhausted. This accrued time may also be utilized to supplement Long Term Disability insurance, provided the supplemental does not exceed 100 percent of the employee's regular rate of pay.

I. Sick Leave During Vacation - An employee who becomes hospitalized or seriously ill or injured while on vacation may have such period charged to their accumulated sick leave instead of to the vacation provided:

1. Immediately upon return to duty, the employee submits to their department director a written request for sick leave and a written statement signed by their physician stating that the employee had a serious illness or injury and dates of their serious illness or injury.

2. The department director recommends and the City Manager approves the granting of such sick leave.

3 Other Limitations - No employee shall be entitled to accrue or to take sick leave with pay while absent from duty for any of the following reasons:

a. Disability or illness arising from employment other than with the City of Costa Mesa.

b. Leave of absence without pay.

c. Absence due to any reason other than certifiable illness.

J. Penalty For Sick Leave Abuse - Employees who abuse sick leave may be denied sick leave pay, and may incur other discipline up to and including termination. When, in the judgment of the department director, the employee's reasons for being absent are inadequate, they shall change the payroll time report to indicate that the absence was leave without pay. Employees shall then have the right of appeal through the appropriate administrative processes prior to any loss of pay for suspected abuse of sick leave.

K. Extended Sick Leave - On written request of the employee and recommendation by the department director, the City Manager may authorize a leave of absence without pay for the purpose of recovering from an illness, provided:

1. The employee has used up all of their accumulated sick leave, but may retain compensatory time and vacation time.

2. The employee presents to their department director an estimate of the time needed to recover signed by a physician approved by the City.

3. An employee returning to work from an extended sick leave will be required to obtain and provide to their supervisor and the Human Resources Division a medical certification stating that they is fit to return to work.

11.3 – **ENTITLEMENT TO VACATION AND SICK LEAVE**

For the purpose of computing an employee's entitlement to vacation and sick leave, an employee's continuous service shall be based on the employee's date of initial probationary employment with the City. This date shall be the employee's anniversary date for vacation and sick leave purposes subject to the provisions contained herein. An employee who leaves City employment and returns within one year, shall have the break in service reduced from the amount of continuous service. If an employee leaves City employment for more than one year and then returns to City employment, .the City Manager or designee shall have discretion to start the employee at a higher accrual rate or with hours in their bank upon hire.

11.4 – **LEAVES OF ABSENCE WITH OR WITHOUT PAY**

The following leaves of absence are for leaves other than statutory leaves:

A. Special Leaves of Absence Without Pay - The department director may authorize special leaves of absence without pay for a period of up to two (2) weeks (14 consecutive days).

B. Ninety (90) Calendar Days or Less - Upon the written recommendation of the department director, the City Manager or designee may authorize special leaves of absence without pay for a period or periods not to exceed ninety (90) calendar days for purposes deemed by the City Manager or designee to be beneficial to the City.

C. In Excess Of Ninety (90) Calendar Days - The City Manager may, grant leaves of absence with or without pay in excess of ninety (90) calendar days for purposes deemed by the City Manager to be beneficial to the City.

D. Continuation of Benefits - The employee shall be responsible for paying for the continuation of employee benefits when a leave of absence exceeds one (1) full pay period.

11.5 – **LEAVE FOR NON OCCUPATION INJURY OR ILLNESS**

The City grants employees a leave of absence due to an injury or illness that prevents them from performing or safely performing the essential functions of their positions in accord with state and federal laws.

A. An employee who requires a leave of absence for medical reasons must notify their supervisor in writing of the need for such a leave as soon as the employee learns that they is, or will become, temporarily disabled and unable to work due to the medical condition. A medical statement signed by a licensed physician must be submitted with the leave request. The medical certificate must state that the employee has a medical condition prohibiting them from performing the essential functions of their job, and must provide the anticipated length of absence and any functional limitations that the employee may have upon returning to work.

B. Unless concurrently on a Family Care and Medical Leave, an employee granted a non-occupational disability leave of absence shall utilize available accrued sick leave, and vacation time during the period of their disability. The employee may elect to use compensatory time off prior to being granted leave without pay. Paid leave must be exhausted prior to being granted leave without pay unless the employee is concurrently on a Family Care and Medical Leave. (Refer to Administrative Regulation 2.28 - Family Care and Medical Leave).

C. An employee may continue life, health, dental and long-term disability coverages while on leave of absence without pay by paying the full cost of such coverages. The City will pay its share of the employee's health insurance premiums for an employee on FMLA/CFRA unpaid leave of absence for up to 12 weeks. If the employee's portion of the premiums are not paid or the employee fails to pay the premiums after 12 weeks, the employee will be terminated from coverage. (Also refer to Administrative Regulation 2.28 - Family Care and Medical Leave).

D. An employee returning from a non-occupational disability leave must provide a physician's statement that indicates that they is fit to return to work.

E. If additional leave is desired, the employee may request the additional leave in accordance with the extended leave provision in the Personnel Rules and Regulations.

An employee who returns to work at the end of their leave of absence will be returned to their former position or to a similar position for which they is qualified, unless the position has been eliminated due to layoffs.

11.6 – **CATASTROPHIC ILLNESS LEAVE**

The following sets forth how employees can use catastrophic illness:

A. Definition of Catastrophic Illness or Injury - An acute or prolonged illness usually considered to be life-threatening or with the threat of serious residual disability.

B. Eligibility for Catastrophic Leave - Employees may qualify for catastrophic leave if the employee or an employee's spouse, child, parent or domestic partner is experiencing a medically verified catastrophic illness or injury that creates a financial hardship for the employee. An employee must exhaust all vacation, compensatory time, and eligible sick leave prior to using catastrophic leave donations. Employees will not be eligible to receive additional leave accruals while using catastrophic leave donations.

C. Donations - Employees will be permitted to voluntarily transfer 8 hours per pay period of accrued vacation or compensatory time, to a catastrophic leave bank of an employee who has exhausted their accrued leave banks as a result of a catastrophic illness or injury. In no event shall sick leave be donated. Donations may be made across all divisions and departments within the City.

D. Coordination with Other Paid Benefits – Employees who are receiving long-term disability or workers' compensation benefits may supplement the benefits with catastrophic leave not to exceed their base salary. Employees will continue to be eligible for routine special and premium pays, certification pays, etc. while on catastrophic leave. "Routine" pay is defined as additional pay in which the employee receives on a continuous basis (e.g. bilingual pay, EMD pay, etc…), but does not include pays in which an employee only receives while performing a specific function and/or non-routine assignment (e.g. Matron pay, etc.). At no time, will the combination of donated leave and long-term disability or workers' compensation benefits result in the employee receiving more than 100% of their regular wages. Catastrophic leave donations will not meet the qualifications for the flex contribution and cannot be used towards voluntary deductions (including deferred compensation, United Way deductions, etc.).

An employee requesting catastrophic leave donations must submit a completed Catastrophic Leave Request form to their department director. In the event that the employee is incapacitated and cannot complete the Catastrophic Leave Request form, the department director may submit it on the employee's behalf.

11.7 – **MILITARY LEAVES**

An employee having a probationary or regular appointment shall be entitled to such benefits as are provided in the California Military and Veterans Code and the U.S. Code. An employee requesting such military leave shall present a copy of their military orders to their department director prior to the beginning of the leave.

Employees are entitled to a temporary military leave of absence not to exceed 180 calendar days per year. Employees having more than one year continuous service and granted a military leave of absence are entitled to receive the equivalent salary up to the first 30 calendar days of any one military leave, or during any one (1) calendar year. Weekend drills are excluded from the meaning of ordered military leave. An employee who is ordered to a weekend drill can request to flex their time off during the same FLSA workweek.

11.8 – **SCHOOL ACTIVITY LEAVE**

CMCEA has requested that Labor Code Section 230.8, which deals with unpaid leaves of absence to participate in various school activities of an employee's dependents, specifically be referenced with this MOU. Employees may use accrued leave time or vacation time, or if no time is available, time without pay, for activities described in Labor Code 230.8. Employees are entitled to up forty (40) hours per calendar year or eight (8) hours per month of unpaid leave. The Employee will provide written verification of any such activity for which they request time off, at the request of their department director.

11.9 – **REPORTING ABSENCES**

An employee who is absent from duty because of illness or injury (i.e., the need to use sick leave) shall report such absence to their department director or immediate supervisor prior to the time of expected absence whenever possible, and in no case later than one-half (1/2) hour before unless an emergency prevents the employee from reporting their absence the beginning of their normal work shift. Absences not reported in such manner may be subject to disciplinary action.

11.10 – **BEREAVEMENT LEAVE**

Whenever an employee is compelled to be absent from duty by reason of a death or critical illness where death appears imminent of grandparent, father, mother, brother, sister, (this includes step brothers and sisters) wife, husband, or child of employee, spouse, or domestic partner such employee shall, upon approval of their department director, be entitled to charge such absence as "bereavement leave" to a maximum of five (5) working days in a calendar year. This leave may also be used in the case of a miscarriage by a female employee and/or employee whose spouse or registered domestic partner suffers a miscarriage. This would also apply in the case of a miscarriage by a surrogate. Any additional time that may be required must be approved by the employee's Department Head (and will be approved if required by law) and will be charged first to sick leave, then the employee can choose between vacation, compensatory time off or floating holiday leave. If all such leaves are exhausted it will be charged to unpaid leave if the employee does not have accrued sick leave, vacation compensatory time off or floating holiday leave**.** The City Manager or designee, upon written request, may grant bereavement leave to an employee for persons in other relationships to the employee than are listed above.

11.11 – **HOLIDAY LEAVE**

The following are the ten (10) designated holidays:

- New Year's Day - January 1st

- Martin Luther King, Jr. - third Monday in January
- President's Day - third Monday in February
- Memorial Day - Last Monday in May
- Independence Day - 4th of July
- Labor Day - 1st Monday in September
- Veteran's Day - November 11th
- Thanksgiving Day - 4th Thursday in November
- Day after Thanksgiving - 4th Friday in November
- Christmas Day - December 25th

In the event any of the above holidays fall on Saturday, the preceding Friday will be observed. In the event any of the above holidays fall on Sunday, the following Monday will be observed.

A. In addition to the ten holidays above, employees receive sixteen (16) floating holiday hours. Employees may schedule with their supervisor any time during the year to use the floating holiday hours. At the end of the calendar year, any remaining holiday hours will be cashed out. Employees hired after January 1st of each year are eligible for the 16 hours of floating holiday pay on a pro-rata basis during the calendar year based on the established City holiday schedule. If an employee separates from the service of the City and has used or been paid for floating holiday pay in advance of Lincoln's Birthday and/or California Admission Day, the City will deduct the cash value for the floating holiday benefits paid, but unearned, from the final paycheck.

B. In order to be eligible for holiday pay for the ten holidays above, an employee must either work or be on paid status the day immediately before, or after the holiday if scheduled.

C. All employees who receive time off for the above listed holidays shall receive full pay.

D. Paid Full Shifts for Holidays - When a holiday is observed by the City, employees who take the holiday off shall record on their timesheets the hours that correspond with their regular workday shift within their established workweek schedule (i.e., employees on the four ten-hour day workweek (4/10) will record 10 hours for the holiday; employees who work on a 9/80 work schedule shall record 9 hours, or 8 hours as applicable, for the holiday; and employees regularly scheduled to eight-hour workday schedules shall record 8 hours for the holiday.)

E. Employees Who Work Without Regard to Holidays - Prior to the beginning of each calendar year, Police Department employees who must work without regard to the above listed holidays must irrevocably elect for the next year to either receive holiday leave (in which case they will receive one hundred and twenty (120) hours if assigned to a 4/10 or 3/12 work schedule, one hundred and eight (108) hours if assigned to a 9/80 work schedule or ninety-six (96) hours if assigned to a 5/40 work schedule) that they can use either on the actual holiday or work on the holiday and use at another time) or cash out for the holidays (in which case they will receive ninety-six (96) hours of holiday pay).

Employees who choose the cash out option will receive a holiday pay bank of 96 hours beginning the first pay period for the new payroll year. This holiday pay bank may be cashed out at any time during the year. At the end of the payroll year, any remaining holiday pay will be cashed out unless the employee previously elects to have it applied as accrued vacation. Throughout the payroll year, if an employee, who has selected holiday pay, decides to take a holiday off, they must use either vacation or comp time, to cover the leave since they received holiday pay.

Notwithstanding the above, if due to the way the pay periods occur, an employee receives 11 or 13 holidays in the calendar year, employees who choose the cash option will receive 104

hours (if there are 13 holidays) or 88 hours (if there are 11 holidays) beginning the first pay period of the new payroll year.

Employees who irrevocably elect (prior to the end of the calendar year for the following calendar year) to earn holiday leave rather than holiday pay will receive a bank of 96, 108, or 120 hours, depending upon their assigned work schedules. The hours will be available the first pay period of the new payroll year. Employees will have holiday leave available to use during the year, including (assuming if the employee requests and is approved for taking a holiday off, an actual holiday). However, employees must make a request to use holiday leave at least four (4) working days prior to the requested time off. Approval of the time off request will be based upon available staffing needs and the needs of the employee. At the end of the payroll year, any remaining hours in the holiday leave bank will be carried over to the next payroll year (however, the subsequent year's bank shall be reduced by the number of hours carried over).

Notwithstanding the above, if due to the way the pay periods occur, an employee receives 11 or 13 holidays in the calendar year, employees who choose the leave option will depending on their schedule receive 104, 116 or 128 hours (if there are 13 holidays) or 88, 96 or 108 hours (if there are 11 holidays) beginning the first pay period of the new payroll year.

For employees who work without regard to holidays, to the extent permitted by law or by CalPERS, for those who take the cash out option, it will be reported as special compensation per Title 2 California Code of Regulations section 571 and 571.1

F. Employees hired after January 1 of each year are eligible for holiday pay on a pro-rata basis during the calendar year based on the established City holiday schedule. If an employee separates from the service of the City and has used or been paid for holiday pay in advance of the date(s) or day(s) the holidays actually occurred, the City will deduct the cash value for the holiday benefits paid, but unearned, at the time of separation from the final paycheck. If an employee transfers or promotes to a position not covered by this provision and the employee has been paid in advance of the date(s) or day(s) the holidays actually occurred, the employee will be required to record absence with no pay for the remainder of the holidays that year.

11.12 – **JURY DUTY**

1. An employee who is called for jury duty shall be compensated (as though they was working) for those hours of absence due to the jury duty that occurs during the employee's regularly scheduled working hours. Employees are required to provide documentation to Human Resources that they are on jury duty and once completed, documentation from the court that they have completed their jury duty service. This documentation is necessary for employees to receive pay for jury duty.

2. If a unit member is required to be absent from work to report for jury duty, the employee will notify their supervisor of the absence as soon as possible, including, a phone message the night before if the employee finds out via a phone recording that they must report the next day.

3. An employee on jury duty must either return to work after the jury service is done for the day if there are still four hours or more left on their shift or call in to their supervisor and ask to use leave to cover the rest of their shift.
4. An employee who is called to jury duty on a non-working day will not receive compensation or be authorized to change their schedule as a result of being called to jury duty.

5. An employee who is scheduled for a swing or graveyard shift on a day they is called to jury service will be authorized to change their work hours in order to report to jury service under the same provisions of 1-3 above.

6. An employee who is called to jury duty will not be subject to working their full graveyard or swing shift if there is not a minimum of 10 hours before or after assigned jury duty. If there is less than 10 hours between the end of a shift and the start of jury duty, an employee will be permitted to leave their shift early to allow for a minimum break of 10 hours. If there is less than 10 hours between the end of jury duty and the start of their shift, an employee will be able to delay their usual start time to ensure a 10-hour break in between. In this event, the employee's usual end time will remain the same. For any additional time taken off before or after jury duty, an employee will be required to utilize paid accrued time subject to supervisor approval.

   The employee is entitled to retain any mileage allowance if paid by the court.

11.13 – **INDUSTRIAL ACCIDENT LEAVE**

A. In the event that any employee is absent from work as a result of any injury, illness or disease arising out of and during the course of employment with the City of Costa Mesa, such absence shall be considered to be industrial accident leave as specified below and nothing contained in this MOU shall be deemed to affect or limit in any manner the employee's entitlement to medical, surgical and hospital treatment as provided under California's Workers' Compensation laws.

   1. Eligibility

      a. If the employee is unable to perform their assigned duties due to job-related injury or illness and is entitled to Worker's Compensation Temporary Disability under the provisions of California's Workers' Compensation Act.

      b. If the employee reports all on-the-job or off-the-job injury or illness which may impair their ability to perform regularly assigned duties to their supervisor within 24 hours (or the next regularly scheduled workday, whichever is sooner) of the incident, except under extenuating circumstances. Extenuating circumstances under which an employee may report an injury beyond the above limits shall include but not be limited to a report at the time the employee realizes the injury is disabling and the medical evidence is consistent with the claim. Failure to report said injury or accident may be grounds for disciplinary action. After review by the Department, said report shall then be forwarded to the Risk Management Division.

      c. Medical treatment is provided and maintained by a licensed physician, chiropractor or a licensed medical practitioner as prescribed by a licensed physician, acceptable to the City's Workers' Compensation Administration. If the employee has notified the Personnel Office in writing prior to a job injury/illness, the employee's own physician may be used if said physician treats for workers' compensation and can attest that they previously directed treatment for them and has their medical records including their medical history. After thirty days, an employee has the right to select their own physician provided the employee notifies the Workers' Compensation Administrator in writing of the doctor's name and address prior to the first appointment. The employee must *also* be disabled from and unable to perform any work regularly performed by a City employee that the City makes available with priority being in the employee's department and light duty availability.

   2. Caveat - If the illness or injury resulted from the failure to wear prescribed safety or personal protective clothing or equipment; use provided safeguards or safety equipment; follow safety rules and regulations, or other departmental work rules; or the employee's

gross negligence or willful misconduct was the proximate cause of the absence; *the incident* may be grounds for disciplinary action.

3. Administration

   a. Any employee who is going to be absent from work over one week with an industrial injury shall contact his designated departmental safety representative each Thursday or any other time designated by the departmental safety representative and report their medical progress and approximate date of return to work and any other information the designated departmental safety representative deems appropriate.

   b. Employees on industrial leave must report any change in their normal place of residence or the address reported where they will be during normal business hours while recovering from job-related injuries or illness. Before leaving that location for a period in excess of one (1) day, they shall notify the departmental safety representative, and must be available for appointments or consultation as may be required by the City or Workers' Compensation Administrator. The departmental safety representative shall issue weekly reports to the department director with copies to the Risk Management Division advising of the employee's status.

   c. The employee must make available after each medical appointment a medical prognosis for the likelihood of the employee's return to their regular and/or light duty with all applicable work restrictions. Industrial leave may not be granted if a light duty job assignment is available within the employee's work restrictions.

   d. If further remedial action is indicated, the employee must follow a course of treatment which will enable return to full employment at the earliest possible time.

4. Denial of Industrial Leave - Industrial leave will not be approved when any of the conditions of section 1 above are not met, or when competent medical authority as outlined in 1.d of this section determines the disability to be a result of a pre-employment or non-industrial medical condition/ Industrial leave will also be denied if the leave requested is due to a medical condition for which the employee has already received a Settlement or a Compromise and Release pursuant to a prior legal action, or is requested relative to an injury or illness for which the City has previously denied industrial leave.

5. Industrial Leave will terminate when one of the following occurs:

   a. The employee fails to follow the advice of the treating physician by failing to pursue a course of treatment which will lead to recovery in a timely manner.

   b. The employee's condition becomes medically permanent and stationary within the guidelines of the state's Workers' Compensation scheme.

   c. It is medically determined that the employee will never be capable of performing the duties of their classification.

   d. The employee no longer qualifies for *a* compensable industrial leave as defined in paragraph C below.

   e. The employee is engaged in outside employment or activity which would impede recovery and prolong their return to work as determined by competent medical authority.

B. In all cases as specified in Item 8.13(A) above where sickness or injury is incurred as a result of employment and is initially compensable under California's Worker's Compensation laws, the employee's full regular salary for the waiting period required under such laws shall be paid by the City.

If there is a question about whether the injury or illness qualifies as an industrial injury under the state's Workers' Compensation laws, the City will conduct an investigation and make a determination as provided under such laws. Compensation for time off due to disability during this determination period will be maintained through the use of the employee's personal accrued leave. If the injury is determined to be industrial, then the time off due to the disability will be converted to Industrial Accident Leave and the personal leave hours used during the determination period will be restored to the employee.

C. All regular or probationary full-time employees, shall be entitled to Industrial Accident Leave and compensation on the following basis:

When any full-time employee of the City (including probationary full time employees) qualifies for temporary disability payment under the State of California Labor Code or the Workers' Compensation benefits, the employee shall receive paid leave, after a three-day waiting period for a period not to exceed (up to) sixty-six work days (528 hours) of leave for each separate injury. An injury shall be deemed to continue through a recurrence or aggravation to the original injury. Claimed recurrences or aggravations of any injury approved for industrial leave shall be charged to the balance, if any, of the maximum allowance of such leave for the original injury.

The leave in this section is intended for compensation while the employee is disabled from work and shall not be used to attend doctor's appointments, physical therapy, or other medical appointments when the employee is cleared to work light, modified or regular duty.

D. Employees with accepted industrial injury leave shall continue to receive a flex contribution for benefits in accordance with Section 7.3. Employees under this section will be responsible for the employee portion of health and any other cafeteria plan premiums for the duration of coverage under the plan.

11.14 – **FAMILY AND MEDICAL CARE LEAVE**

RIGHTS AND OBLIGATIONS - As required by State and Federal law ("FMLA") the City will provide family and medical care leave for eligible employees. Administrative Regulation 2.28 sets forth employees' rights and obligations with respect to such leave. Rights and obligations which are not specifically set forth therein are set forth in the Department of Labor regulations implementing the Federal Family and Medical Leave Act of 1993 (FMLA), and the regulations of the California Fair Employment and Housing Commission implementing the California Family Rights Act (CFRA) (Government Code 12945.2).

ENTITLEMENTS - Rights of qualified employees under FMLA include: (1) entitlement of up to 12 weeks of unpaid leave in a year; (2) continuation of the City's portion of any medical insurance contributions made on behalf of the employee for the duration of the leave; and (3) no loss of seniority.

CHAPTER 5 – EMPLOYER-EMPLOYEE RELATIONS

ARTICLE 12 - GRIEVANCES

12.1 – **DEFINITION OF A GRIEVANCE**

A "grievance" is a formal, written allegation by an employee or CMCEA (referred to as "grievant"),

that that there has been a violation, misinterpretation or misapplication of this Memorandum of Understanding and/or provisions of the Personnel Rules and Regulations or other City policies. Other matters for which a special method of review is provided by law, ordinance, resolution, or by administrative regulations and procedures of the City, are not within the scope of this procedure, although other methods of review may be joined with the grievance procedure where the factual basis for the review and the grievance are similar. The grievance procedure is the sole and exclusive method to resolve any grievance as defined herein.

If the employee's grievance alleges that the City's violation, misinterpretation or misapplication of this Memorandum of Understanding and/or provisions of the Personnel Rules and Regulations or other City policies was caused by discrimination, the grievance shall be placed in abeyance. The City will promptly conduct an investigation of the allegation of discrimination per its harassment, discrimination and retaliation policy. If there is a finding of discrimination, the City will work with the employee and/or their representative to address a remedy. If the investigation concludes that there was no discrimination, the grievant may still continue with the grievance procedure.

12.2 – **GRIEVANCE PROCEDURE**

1. Informal Resolution: Every effort shall be made to resolve a grievance through discussion between the employee and their immediate supervisor. It is the spirit and intent of this procedure that all grievances are settled quickly and fairly without any discrimination against employees who may seek to resolve a grievance by invoking this procedure. Every effort should be made to find an acceptable solution at the lowest level of supervision. Within fifteen (15) calendar days after a grievant (either an employee or the Association) knew, or by reasonable diligence should have known, of the condition upon which a grievance may be based, the grievant shall attempt to resolve it by an informal meeting with the grievant's immediate supervisor.

2. The immediate supervisor shall render their decision in writing within fifteen (15) calendar days of the informal conference. If the problem cannot be resolved between the employee and the supervisor, the employee may, within ten (10) calendar days from the date of receiving the answer from their supervisor, request and be granted a meeting with the division manager, if one exists, in order to discuss the grievance.

3. The division head shall render their decision in writing within fifteen (15) calendar days of receiving the appeal. If the division head and employee cannot reach a solution to the grievance, the employee may, within ten (10) calendar days from the date of receiving the answer from the division manager, request, in writing, and be granted a meeting with the department director within seven (7) calendar days of the grievant's request to discuss the grievance to try and reach a resolution which is satisfactory to the grievant. The department director shall meet with the employee within seven (7) calendar days unless the date is mutually extended between the director and the grievant. If the grievant and director cannot satisfactory resolve the grievance, the director will issue a written decision regarding the grievance within fifteen (15) calendar days after meeting with the grievant.

4. The grievant may, within fifteen (15) calendar days from the date of the decision by the department director, submit a written appeal to the City Manager or designee or request grievance mediation.

5. As an alternative to proceeding directly to the final step of the grievance procedure, the parties may mutually agree to submit a grievance to mediation. A request for mediation may be presented in writing to the Assistant City Manager or designee within fifteen (15) calendar days from the date a decision was rendered by the Department director. A request for mediation will automatically suspend the normal processing of grievance until the mediation process is

completed, or the request is denied. The Assistant City Manager shall endeavor to schedule the mediation meeting within thirty (30) calendar days. The mediation process shall be optional. Within ten (10) calendar after completion of the mediation process, assuming the mediation does not resolve the grievance, the employee may request to proceed to the final step of the grievance process.

6. Should grievance mediation not produce satisfactory resolution, the grievant may request the matter be heard by City Manager or designee, or an impartial hearing officer (arbitrator). The recommendation of an arbitrator shall be advisory to the City Manager or designee. Should the matter be submitted directly to the City Manager or designee they shall schedule a meeting or respond in writing. Each party shall pay the cost of the arbitration. A court reporter shall be retained only by mutual consent of the parties. If the grievant chooses to have the matter heard by a hearing officer (arbitrator), the grievant and City representative can agree on an arbitrator. If the parties cannot reach agreement on an arbitrator, the Human Resources Manager or designee will send a letter to the State Mediation and Conciliation Service at PERB requesting a list of seven (7) arbitrators. Once the list is received, the representatives of the parties shall strike names until an arbitrator is chosen. The parties shall toss a coin to determine who shall strike the first name. Once the arbitrator is selected, the parties will contact the arbitrator to schedule a hearing.

7. If any of the time limits associated with any of the steps wherein an employee may appeal the determination of a prior step should elapse, the grievance shall be considered withdrawn. Time limits may be extended by mutual consent. If the supervisor or manager responding on behalf of the City fails to respond within the prescribed time limits, the grievance will be deemed to have been denied and the employee may go to the next step.

8. An employee who is a grievant may request the assistance of another person of their own choosing in preparing and presenting their grievance at any level of review. In the event the employee desires the presence of a representative who is an employee of the City, they shall make such request through the supervisor and the supervisor shall make the necessary arrangements for the employee representative to be present. Any representative of the employee must be acceptable to the Association, or said representative shall not assist the employee with the grievance.

9. The employee and/or their representative may use a reasonable amount of work time as determined by the appropriate supervisor or department director in presenting the appeal. However, no employee shall absent himself or herself from scheduled work without first being excused by their supervisor.

10. No employee shall be required to be represented by CMCEA in processing a grievance.

11. Employees shall be assured freedom from reprisal for using the grievance procedures, or for being a witness in a grievance, by both the City and the employee organization.

12. The settlement terms of a grievance whether filed by CMCEA or an employee shall not conflict with the express provisions of this MOU.

13. A group grievance may be filed when one (1) set of circumstances or occurrences affects more than one (1) employee in the same manner or to the same extent. The group may file one (1) document which all members of the group have read and signed. Members of the group shall be limited to those who have signed the grievance. The resolution of a group grievance may not be consistent among all employees in the group grievance due to differences in the circumstances or occurrences that brought about the grievance.

ARTICLE 13 - DISCIPLINE

13.1 – **BASIS FOR DISCIPLINE**

The tenure of every City employee shall be based on reasonable standards of personal conduct and job performance. Failure to meet such standards shall be grounds for appropriate disciplinary action, which shall be commensurate with the seriousness of the offense and with consideration of the employee's prior performance record. Disciplinary action shall be based upon any of the following grounds, but is not limited to only these grounds:

A. Fraud in securing employment or making a materially false statement on an application for employment or on any supporting documents furnished with or made a part of any application.

B. Incompetence such as failure to comply with the minimum standards for an employee's position for a reasonable period of time.

C. Neglect of duty, such as failure to perform the duties required of an employee's position.

D. Willful disobedience and insubordination such as a willful failure to submit to duly appointed and acting supervision or to conform to duly established orders or directions of persons in a supervisory position.

E. Dishonesty involving employment.

F. Using or being under the influence of alcohol or intoxicating drugs while on duty without a prescription. Bringing alcohol or controlled substances onto any City work premises, or onto any location where City business or services are performed by City employees.

G. Addiction to or habitual use of alcoholic beverages, narcotics or any habit forming drug.

H. Inexcusable absence without leave.

I. Conviction of a felony or conviction of a misdemeanor involving moral turpitude. A plea or verdict of guilty, or a conviction following a plea of nolo contendere, to a charge of a felony or any offense involving moral turpitude is deemed to be a conviction within the meaning of this section.

J. Discourteous treatment of the public.

K. Improper or unauthorized use of City property.

L. Violation of the rules and regulations of any department.

M. Any act of conduct undertaken which, either during or outside of duty hours, is of such a nature that it causes discredit to fall upon the City, the employee's department or division.

N. Failure to maintain proper conduct during working hours causing discredit to the employee's department or division. Such as:

1. Fighting or causing an assault on a fellow worker, citizen or any other person while employed by the City.

2. Abusing City records or information obtained while in the employ of the City.

3. Falsification of City records.

4. Threats of bodily harm perpetrated at work, or toward fellow workers.

5. Failure to observe work schedules, including lunch periods and breaks.

6. Consistent failure to perform work assignments in an acceptable manner or at an acceptable level of output.

7. Destruction of City property.

8. Engaging in any sort of harassment (sexual, racial, ethnic, religious, etc.)

9. Intentionally treating other employees differently because of their race, sex, age, religion, national origin, marital status, physical or mental disability, sexual preference or other protected category.

O. Abuse of sick leave.

P. Inattention to duty, tardiness, indolence, carelessness or negligence in the care and handling of City property.

Q. The employee's failure to resolve a physical or mental infirmity(s) or defect(s), when it is within the capacity of the employee to do so and when directed by their supervisor.

R. Outside employment which conflicts with the employee's position and is not specifically authorized by the department director.

S. Acceptance from any source of any emolument, reward, gift or other form of remuneration in addition to the employee's regular compensation, as a personal benefit to the employee for actions performed in the normal course of the employee's assigned duties.

T. Falsification of any City report or record, or of any report or record required to be, or, filed by the employee.

U. Violation of any of the provisions of the City Code, ordinances, resolutions, or any rules, regulations or policies which may be prescribed by the City Council, City Manager, department manager or supervisor.

V. Political activities precluded by Local, State or Federal law.

W. Other acts which are incompatible with service to the public.

13.2 – **TYPES OF DISCIPLINE**

Types of discipline include the following: warning/reprimand, suspension, demotion or reduction in pay and dismissal. Voluntary demotions as well as performance evaluations are not considered disciplinary actions. The appeal or the review of a performance evaluation is limited to the supervisor's supervisor, whomever that may be. The following procedures shall be followed when, in the judgment of the department director, an employee has committed an act or omission that justified the disciplinary action indicated. Except for written warnings/reprimands, the department director or their designee shall advise employees of contemplated disciplinary actions in writing and allow the employee an opportunity to respond to such charges prior to taking action.

When life, or employee safety, is endangered, or the self-control of an employee is questionable, a

supervisor shall take immediate action to reduce or eliminate the danger or to establish control. In case of an emergency, an employee shall have all of the rights set forth herein, except, in the discretion of the Department Directors, Assistant City Manager, City Manager or designee, an employee may be placed on administrative leave with pay pending pre-disciplinary procedures.

A. Warning/Reprimand: If the warning/reprimand is in writing it should be signed by the employee acknowledging receipt. The department shall give the employee a copy and forward a copy to the Assistant City Manager for review and retention in the employee's personal history file. A written warning/reprimand shall contain a description of the events which necessitated the action, specific expectations of change by the employee, and notice of further action in the event a change by the employee does not occur. An employee shall have the right to attach a written rebuttal and/or file an appeal.

B. Suspension: A department director or their designee may suspend an employee with or without pay from their position. Any placement of an employee on administrative leave pending pre-disciplinary response shall be with pay. The Department Director shall advise the Assistant City Manager in writing of such intended action and shall give a copy of such statement to the employee. The written statement shall contain a description of the events which necessitated the suspension, a statement of the charges, notification that the employee may review and be provided with the materials leading to the suspension, the right of the employee to meet with the Department Director and/or to respond in writing within a reasonable time frame to the charges, and notice of further action in the event a change by the employee does not occur. Unless extended by approval of the City Manager or designee on written recommendation of the department director, the maximum period of suspension shall be thirty (30) calendar days. These procedures are available prior to the implementation of discipline.

   Disciplinary actions involving suspensions of four (4) work days or less, as well as oral and written reprimands are not exempt from the notification requirements. However, in such disciplinary actions the employee does not have the right to respond to the Department Director prior to the effective date of the proposed action.

C. Demotion or Reduction in Pay: A department director shall advise the Assistant City Manager in writing of their intention to demote or reduce the salary of an employee prior to taking such action. In demoting an employee or reducing their salary, the department director shall make a written notice and shall give a copy of said notice for demotion or reduction in pay to the employee and forward a copy to the Assistant City Manager for review and retention in the employee's personal history file. The written statement shall contain a description of the events which necessitated the demotion, a statement of the charges, notification that the employee may review and be provided with the materials leading to the demotion, the right of the employee to meet with the Department Director and/or respond in writing within a reasonable time frame to the charges, and notice of further action in the event a change by the employee does not occur.

D. Dismissal: A department director shall advise the Assistant City Manager in writing of their intention to dismiss an employee prior to taking such action. In dismissing an employee, the department director shall make a written notice and shall give a copy of said notice of dismissal to the employee and forward a copy to the Assistant City Manager for review and retention in the employee's personal history file. The written statement shall contain a description of the events which necessitated the dismissal, a statement of the charges, notification that the employee may review and be provided with the materials leading to the dismissal, and the right of the employee to meet with the Department Director and/or respond in writing within a reasonable time frame to the charges. These procedures are pre-disciplinary in nature.

13.3 **– NOTICES**

Written notices will be given to the employee in person whenever possible and the employee's signature obtained to indicate receipt. In the absence of personal service, the notice may be sent by certified mail.

13.4 – **EMPLOYEE'S RESPONSE**

An employee's opportunity to respond to the Department Director is not intended to be adversarial in nature. An employee has the right to have a representative of their own choosing at the meeting. The employee need not be accorded the opportunity to cross-examine a department's witnesses, nor to present a formal case in opposition to the proposed discipline. However, the limited nature of this response does not obviate the Department Director's responsibility to initiate further investigation if the employee's version of the facts raises doubts as to the accuracy of the department director's information leading to the discipline proposal. An employee may elect not to respond, thereby waiving any further pre-disciplinary response.

The Department Director will evaluate the proposed discipline in light of the employee's response, if any. Within five (5) working days of the employee's response, or deadline for response, a decision will be transmitted in writing to the employee. Service of the decision will be in person or by certified mail.

13.5 – **APPEAL PROCEDURE**

Major Discipline

Any permanent employee in the classified service shall have the right to appeal any termination, suspension of forty (40) hours or more, denial of a merit increase, reduction in salary, or non-probationary demotion. The appeal process shall not be applicable to probationary employees. The appeal process shall not be applicable to verbal reprimands and performance evaluations.

An employee desiring to appeal the Department Director's decision shall have ten (10) calendar days after receipt of the response to file an appeal. The employee's request for appeal must be addressed to the Assistant City Manager and received in the Human Resources Division so that same is date stamped by the Human Resources Division within the 10-day period.

If, within the 10-day appeal period, the employee involved does not file said appeal, unless good cause for the failure is shown, the action of the Department Director shall be considered conclusive and shall take effect as prescribed. If, within the 10-day appeal period, the employee involved files such notice of appeal by giving written notice of appeal to the Human Resources Division, an arbitration appeal hearing shall be established as follows (the discipline shall nonetheless be implemented concurrent with the Department Director's determination, subject to later modification as may result from the appeal process):

A. The employee shall file a written request with the Human Resources Division for advisory arbitration to the City Manager or designee. The City and employee will be responsible for all arbitration-related expenses, excluding attorney fees and staff time.

B. If the employee chooses to have the matter heard by a hearing officer (arbitrator), the employee's representative and City representative can agree on an arbitrator. If the parties cannot reach agreement on an arbitrator, the Human Resources Manager or designee will send a letter to the State Mediation and Conciliation Service at PERB requesting a list of seven (7) arbitrators. Once the list is received, the representatives of the parties shall strike names until an arbitrator is chosen. The parties shall toss a coin to determine who shall strike the first name. Once the arbitrator is

selected, the parties will contact the arbitrator to schedule a hearing

C. The selected arbitrator shall serve as the hearing officer.

D. Where practicable, the date for a hearing shall not be less than 20 calendar days, nor more than 60 calendar days, from the date of the filing of the appeal with the Assistant City Manager. The parties may stipulate to a longer or shorter period of time in which to hear the appeal. All interested parties shall be notified in writing of the date, time, and place of hearing.

E. All hearings shall be private provided, however, that the hearing officer shall, at the request of the employee, open the hearing to the public.

F. Subpoenas and subpoenas duces tecum pertaining to a hearing shall be issued at the request of either party, not less than seven (7) calendar days, prior to the commencement of such hearing. After the commencement of such hearing, subpoenas shall be issued only at the discretion of the hearing officer.

G. The hearing need not be conducted in accordance with technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which reasonable persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rules which might make improper admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. The rules of privilege shall be effective to the same extent that they are now or hereafter may be recognized in civil actions, and irrelevant and unduly repetitious evidence shall be excluded. The hearing officer shall not be bound by technical rules of evidence. The hearing officer shall rule on the admission or exclusion of evidence.

H. Each party shall have these rights: To be represented by legal counsel or other person of their choice; to call and examine witnesses; to introduce evidence; to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party first called their to testify; and to rebut the evidence against their. The employee, may be called by the party bearing the burden of proof and examined as if under cross-examination. Oral evidence shall be taken only on oath or affirmation. A court reporter will be engaged to record the hearing, unless the parties (City, hearing officer, employee/employee representative) mutually agree that same is not necessary.

I. The hearing shall proceed in the following order, unless the hearing officer, for special reason, otherwise directs:

1. The party imposing discipline shall be permitted to make an opening statement;

2. The appealing party shall then be permitted to make an opening statement;

3. The party imposing disciplinary action shall produce the evidence on their part; the City bears the burden of proof and burden of producing evidence;

4. The party appealing from such disciplinary action may then open their defense and offer their evidence in support thereof; the employee bears the burden of proof and the burden of producing evidence for any affirmative defenses asserted;

5. The parties may then, in order, respectively offer rebutting evidence only, unless the hearing officer for good reason, permits them to offer evidence upon their original case;

6. Closing arguments shall be permitted and written briefs may be permitted at the discretion of the hearing officer.

J. The hearing officer shall determine relevancy, weight, and credibility of testimony and evidence. They shall base their findings on the preponderance of evidence. During the examination of a witness, all other witnesses, except the parties and Personnel Division representatives, shall be excluded from the hearing unless the hearing officer, in their discretion, for good cause, otherwise directs. No still photographs, moving pictures, or television pictures shall be taken in the hearing chamber during a hearing. The hearing officer, prior to or during a hearing, may grant a continuance for any reason they believes to be important to reaching a fair and proper decision. The hearing officer shall render their judgment as soon after the conclusion of the hearing as possible and in no event later than 30 days after conducting the hearing. Their decision shall set forth which charges, if any, are sustained and the reasons therefore. The opinion shall set forth findings of fact and conclusions.

K. The hearing officer may recommend sustaining or rejecting any or all of the charges filed against the employee. They may recommend sustaining, rejecting, or modifying the disciplinary action invoked against the employee.

L. The hearing officer's opinion and recommendation shall be filed with the City Manager or *designee*, and the Assistant City Manager and shall set forth their findings and recommendations. If it is a dismissal hearing and a dismissal is not the hearing officer's recommendation, the opinion shall set forth the date the employee is recommended to be reinstated and/or other recommended action. The reinstatement date, if appropriate, may be any time on or after the date of disciplinary action.

M. The decision of the City Manager or Assistant City Manager shall be final and conclusive. Copies of the City Manager's or designee's decision, including the hearing officer's recommendation(s) shall be filed where appropriate, including the employee's personnel file, unless no discipline is upheld by the City Manager or designee.

N. Each party will be responsible for all arbitration-related expenses, excluding attorney fees and staff time. Each party shall bear its own witness and attorney fees. If either party unilaterally cancels or postpones a scheduled hearing, thereby resulting in a fee charged by the hearing officer or court reporter, then the party responsible for the cancellation or postponement shall be solely responsible for payment of that fee. This process shall not apply to mutual settlements by the parties which result in an arbitration fee.

O. In the case of suspension, demotion, reduction in salary, or dismissal prescribed by the City Manager or designee, the time of such suspension, demotion or dismissal shall be effective from the first day after such delivery of said decision by the City Manager or designee, whichever is applicable.

P. The employee may be placed on administrative leave until resolution/conclusion of the appeals process.

Q. The provisions of Section 1094.6 of the Code of Civil Procedure shall be applicable to proceedings under this section, including the appeal the City Manager's or designee's final decision into the California Court System, which must be made in accordance to the time standards and procedures established by Section 1094.6 and 1094.5 of the Code of Civil Procedure.

Minor Discipline

Any permanent employee in the classified service shall have the right to appeal any written reprimand and/or suspension of four (4) days or less. The appeal process shall not be applicable to

those positions which may be deemed exempt from the classified service or to probationary employees.

If the problem cannot be resolved between the employee and the supervisor, the employee may, within ten (10) calendar days from the date of receiving the answer from their supervisor, request and be granted an interview with the department director or their designee, in order to discuss the appeal.

The department director or designee shall render their decision in writing within fifteen (15) calendar days of receiving the appeal. If the department director and employee are unable to arrive at a satisfactory solution, the employee may, within fifteen (15) calendar days from the date of the decision by the department director, submit a written appeal to the City Manager or designee. The City Manager or designee will respond or their designee will respond or schedule a meeting within fifteen (15) calendar days. The City Manager or designee shall render their judgment as soon after the conclusion of the hearing as possible and in no event later than 30 days after conducting the hearing. Their decision shall set forth which charges, if any, are sustained and the reasons therefore. The opinion shall set forth findings of fact and conclusions.

ARTICLE 14 – LAYOFF PROCEDURES

14.1 – **PURPOSE**

Employees covered by this MOU may be laid off due to material changes in the essential duties of their job or due to material changes in the organization. Likewise, the shortage of work or funds available to the City may also cause layoffs. In addition, in the event that the grant funding is no longer available, the position may be eliminated. Grant funded/limited term employees may be laid off out of seniority. If a layoff is deemed necessary, the Department Directors or Assistant City Manager shall notify the City Manager or designee of the layoff with reasons therefore thirty (30) calendar days before the effective date of layoff. Said employee shall be considered for re-employment as provided by the Personnel Rules.

14.2 – **PROCEDURE**

When a position within a class is abolished thereby necessitating a layoff, the following procedure shall be followed:

A. Reductions in the workforce shall be made by class within a department except that, where appropriate, the City Manager or designee may authorize a layoff by division or smaller unit within a department. In the event of a comprehensive reduction in the workforce, the City Manager or designee may decide to lay off by class City-wide regardless of department.

B. In accordance with Rule 14, Section 9 of the Personnel Rules and Regulations, thirty (30) calendar days before the effective date of layoff, the Department Directors or Assistant City Manager shall notify the City Manager or designee of the intended action with reasons therefore In the event a decision is made by the City to contract out for a specific service performed by City employees, the City will give the affected employees a minimum of six (6) months advance notification in which to evaluate their own situation and assist in planning for the future. The City shall meet and consult with CMCEA on such matters as the timing of the layoff and the number and identity of the employees affected by the layoff.

C. A reassignment or voluntary demotion within the employee's division or department to an equivalent or lower job class may be made to prevent a layoff, provided the employee is qualified by education and/or experience, is capable of performing the duties of the classification and has satisfactory performance evaluations for the preceding two (2) years. An

employee so reassigned or demoted shall be placed on the salary step within the new classification range closest to the rate of pay which the employee previously received. Whenever an employee is reassigned or demoted to a vacant position in the same class, an equivalent class, or lower class as herein provided, they shall retain the same anniversary date for purposes of merit pay increases. An employee so reassigned or demoted shall be reinstated to their former job class and salary step status when positions in the former job class within the affected division or department become vacant, provided that the employee has performed satisfactorily in the current position and requests reinstatement to the former position. Such reinstatement shall be on the basis of City-wide seniority.

D. In the event of a layoff, those employees in the classification affected with the least City-wide seniority shall be laid off first. Seniority shall be defined as continuous City service based upon hire date. Strict application of seniority shall prevail unless exceptional circumstances occur of which the concerned employee organization shall be fully apprised in advance. The order of layoff shall be:

1. Part-time and temporary employees in the affected classification shall be separated first.

2. Probationary employees in the affected classification shall be separated next.

3. Permanent employees with the least City seniority will be laid off first. Other affected employees will be laid off in sequential order thereafter.

4. Exceptional circumstances, as used above, includes the City's maintenance of a qualified workforce of competent employees based upon the persons employed having satisfactory performance evaluations for the preceding two (2) years.

5. Exceptional circumstances also include the recognition of the need to retain employees possessing special technical skill, training or knowledge within an affected classification as dictated by the work or services being performed. This exception can only be applied to those classifications within the occupational series utilizing said skills, knowledge or training. The determination to grant such an exception can be made only with the approval of the City Manager or designee. The City will share the findings of any proposed exception with CMCEA prior to making any recommendation to the City Manager or designee.

6. Employees who have not successfully completed promotional probation by the layoff notification date shall revert back to the last class in which the employee held permanent status for purposes of determining order of layoff.

7. When two (2) or more employees have *equal* seniority, the department shall determine the layoff order for these employees based upon merit and ability as determined by their performance evaluations for the preceding two (2) years and possession of specific technical skills utilized in the job.

E. An employee scheduled to be laid off is entitled to displace, or "bump," into a position in a classification within the same occupational series which is currently being held by an incumbent with less overall City seniority, provided it is in a position in which the employee formerly held permanent status or one in which the employee is qualified by education and/or experience, and is capable of performing.. The employee must exercise their displacement rights in writing within five (5) working days from receipt of layoff notification.

F. When the employee with the least City seniority is displaced by the person scheduled for layoff, the displaced employee shall be considered as laid off for the same reason as the person who

displaced him or her and shall in the same manner be eligible to displace to a position in the same manner as described above.

G. An employee laid off from City employment shall be eligible for the same sick leave payoff as defined in the Sick Leave Incentive Program for retirees.

H. The name of an employee who has been laid off due to the reduction in the workforce shall be placed on the reemployment list for their job class. The reemployment list shall be used by all appointing authorities within the affected division or department whenever a vacancy for that class is to be filled. Names will remain on the appropriate reemployment list for a period of three (3) years from the date of separation. Persons on the reemployment list shall be reemployed within the division or department from which they were laid off at their former salary step status when positions in their former job class become vacant. Reemployment shall be on the basis of previous City seniority. After separation from City employment for more than one (1) year, a person rehired may be required to successfully pass a physical and competency examination.

I. Whenever an employee is reemployed to a vacant position in their former job class, they shall be given a new anniversary date for purposes of merit pay increases and performance reviews in accordance with the provisions of the City's Personnel Rules and Regulations.

J. An employee rehired from the reemployment list shall be considered to have continuous service for seniority purposes and may be credited with the amount of accumulated vacation and sick leave they had accrued at the time of layoff if they remits to the City of Costa Mesa the payments received by the employee under the City's separation provisions and the Sick Leave Incentive Program.

K. Failure to return to work from layoff within twenty-one (21) calendar days after notice to return has been served upon the former employee by certified or registered mail at their last known address on file with the City’s Human Resources Division shall constitute the employee's waiver of any right to return to work and eliminates any future reemployment requirements placed on the City.

L. All other benefits or programs in effect at the time of layoff shall be forfeited upon reemployment unless they are still applied to the old classification at the time of rehire or provided to new hires as of that date.

Employees subject to layoff may file a grievance under Rule 25 of the Personnel Rules and Regulations only if there has been an improper interpretation or misapplication of this procedure.

ARTICLE 15 – UNIFORM APPLICATION OF RULES

To attempt to maximize the uniform application of policies and rules, the City has an interest in providing training and information to assist employees in understanding their rights. Through the committed efforts of both the City's Human Resources Division and CMCEA, attempts will be made to resolve any related problems utilizing processes such as supervisory training, explanation of the harassment policy and informal grievance procedures.

ARTICLE 16 – COST OF SERVICES

16.1 – **POLICY**

It is in the interest of the City of Costa Mesa and CMCEA to establish a consistent policy regarding the City's approach to evaluating the cost of providing municipal services on a regular basis in which CMCEA has an interest. It is recognized that as prudent professionals, the ongoing evaluation of costs should be a collective process of sharing information on a participative basis to develop sound decisions and appropriate practices. The City is interested in involving the employee associations to the greatest degree in this regard; and, as such, agrees to make them part of discussions regarding the contracting out of bargaining unit work.

16.2 – **CONTRACTING OUT**

It is further agreed that should a decision be made to contract out for a specific service which is at the time being performed by employees covered by this MOU, the employees affected will be given sufficient notice (a minimum of six months) in which to evaluate their own situation and plan for their future. To this end, the City will make every effort to transfer and utilize regular attrition in making the necessary adjustments. The City will assist employees in this endeavor through training and through preferential treatment (under meritorious consideration) when filing vacancies.

ARTICLE 17 – TEMPORARY EMPLOYMENT IN CMCEA-REPRESENTED POSITIONS

The City agrees to adhere to the hours limitation as outlined in Administrative Regulation 2.7 to ensure that temporary employees are not hired into vacated CMCEA-represented positions for long durations.

ARTICLE 18 – LABOR MANAGEMENT DISCUSSIONS

In the absence of contract re-openers, the City and CMCEA agree to meet not more than twice in a calendar year to discuss issues of mutual interest which may be subject to the meet-and-confer process. This MOU can be only amended by the written agreement of both sides.

ARTICLE 19 - SUPERVISORY JOB CLASSIFICATIONS

The employees in the classifications identified on Appendix A have been determined by the City Manager or designee to be supervisory employees. A “supervisory” employee is one who has recommendation authority to hire, transfer, suspend, layoff, recall, promote, discharge, assign, evaluate or discipline other employees, and/or responsibility to direct employees.

ARTICLE 20 - PERSONNEL RULES AND REGULATIONS

All applicable City Personnel Rules and Regulations (which have not been included herein) should be reviewed by employees as they may apply to them. If there is any conflict between this MOU and the Personnel Rules, the MOU provision shall apply.

ARTICLE 21 – BENEFIT REVIEW COMMITTEE

The Association shall maintain two representatives on the City’s Benefit Review Committee. The Committee continually evaluates the City’s benefit programs and makes recommendations on plan changes, benefit levels, payroll deductions and the addition or deletion of plans. Participation on the Benefit Review Committee meets the City’s obligation to negotiate with the associations on changes to the City’s group benefit plans unless an association determines that such changes are detrimental to the interest of its members.

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR JOB CLASSIFICATIONS REPRESENTED BY THE COSTA MESA CITY EMPLOYEES ASSOCIATION PURSUANT TO THE 2022 - 2025 MEMORANDUM OF UNDERSTANDING.

THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA HEREBY FINDS, DETERMINES, AND DECLARES AS FOLLOWS:

WHEREAS, on June 7, 2022, the City Council adopted Resolution No. 2022-35, revising the pay ranges for job classifications represented by the Costa Mesa City Employees Association, effective June 19, 2022; and

WHEREAS, on September 6, 2022, the City Council adopted Resolution No. 2022-59, establishing the new job classification of Custody Supervisor and pay ranges for the new classification; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-35 and 2022-59 to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. The following pay ranges and monthly rates of pay for the identified job classifications are hereby established and placed under the Basic Salary Administration Plan effective the pay period that includes pay date of January 6, 2023. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay step.

Class Code	Class Title	Salary Plan	Grade	Step 1	Step 2	Step 3	Step 4	Step 5	Step 6	Step 7	
0062	Accountant	CMC	644	$6,641	$6,973	$7,322	$7,688	$8,072	$8,476	$8,900	Monthly
				$79,692	$83,676	$87,864	$92,256	$96,864	$101,712	$106,800	Annual

SECTION 2. The City of Costa Mesa has contracted with the California Public Employees Retirement System (CalPERS) to provide retirement benefits to eligible City employees. Employees will contribute towards the employee and employer contribution as stipulated in the Memorandum of Understanding (MOU) with the Costa Mesa City Employees Association. There will be no Employer Paid Member Contribution (EPMC).

SECTION 3. All parts of resolutions in conflict herewith are hereby rescinded.

PASSED AND ADOPTED this 15th day of November, 2022.

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR JOB CLASSIFICATIONS REPRESENTED BY THE COSTA MESA CITY EMPLOYEES ASSOCIATION PURSUANT TO THE 2022 - 2025 MEMORANDUM OF UNDERSTANDING.

THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA HEREBY FINDS, DETERMINES, AND DECLARES AS FOLLOWS:

WHEREAS, on November 15, 2022, the City Council adopted Resolution No. 2022-XX, revising the pay ranges for job classifications represented by the Costa Mesa City Employees Association, effective the pay period that includes pay date of January 6, 2023; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-XX to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. The following pay ranges and monthly rates of pay for the identified job classifications are hereby established and placed under the Basic Salary Administration Plan effective the pay period that includes July 1, 2023. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay step.

Class Code	Class Title	Salary Plan	Grade	Step 1	Step 2	Step 3	Step 4	Step 5	Step 6	Step 7

SECTION 2. The City of Costa Mesa has contracted with the California Public Employees Retirement System (CalPERS) to provide retirement benefits to eligible City employees. Employees will contribute towards the employee and employer contribution as stipulated in the Memorandum of Understanding (MOU) with the Costa Mesa City Employees Association. There will be no Employer Paid Member Contribution (EPMC).

SECTION 3. All parts of resolutions in conflict herewith are hereby rescinded.

PASSED AND ADOPTED this 15th day of November, 2022.

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR JOB CLASSIFICATIONS REPRESENTED BY THE COSTA MESA CITY EMPLOYEES ASSOCIATION PURSUANT TO THE 2022 - 2025 MEMORANDUM OF UNDERSTANDING.

THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA HEREBY FINDS, DETERMINES, AND DECLARES AS FOLLOWS:

WHEREAS, on November 15, 2022, the City Council adopted Resolution No. 2022-XX, revising the pay ranges for job classifications represented by the Costa Mesa City Employees Association, effective the pay period that includes July 1, 2023; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-XX to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. The following pay ranges and monthly rates of pay for the identified job classifications are hereby established and placed under the Basic Salary Administration Plan effective the pay period that includes July 1, 2024. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay step.

SECTION 2. The City of Costa Mesa has contracted with the California Public Employees Retirement System (CalPERS) to provide retirement benefits to eligible City employees. Employees will contribute towards the employee and employer contribution as stipulated in the Memorandum of Understanding (MOU) with the Costa Mesa City Employees Association. There will be no Employer Paid Member Contribution (EPMC).

SECTION 3. All parts of resolutions in conflict herewith are hereby rescinded.

PASSED AND ADOPTED this 15th day of November, 2022.

Brenda Green, City Clerk

(SEAL)

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR CLASSIFICATIONS IN THE CONFIDENTIAL UNIT

THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA HEREBY FINDS, DETERMINES, AND DECLARES AS FOLLOWS:

WHEREAS, on June 7, 2022 the City Council adopted Resolution No. 2022-41, revising the pay ranges for job classifications in the Confidential Unit, effective June 19, 2022; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-41 to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. Employer-Employee Organization Relations Resolution No. 95-63, as authorized under the California Government Code (Section 3500, et seq.), defines "Employee, Confidential" as any employee whose normal duties would give the employee access to decisions or the decision-making processes of the City concerning any matters relating to employer-employee relations; and said Resolution sets forth the "Policy and Standards for Determination of Appropriate Units", including the provision that confidential responsibilities are determining factors in establishing appropriate units. Accordingly, specific positions have been determined by the City Manager (Employee Relations Officer) as having access to or preparing confidential materials and/or information and/or recommendations on behalf of the City in matters relating to employer-employee relations and are included in this Confidential Employees Unit.

SECTION 2. The following positions of the Office of the City Manager, Finance Department and Information Technology Department, placed under the Confidential Unit Salary Schedule, are hereby revised to reflect the salary ranges and monthly rates of pay specified, effective the pay period that includes pay date of January 6, 2023. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay step.

SECTION 3: Except as provided herein, all compensation, hours and other terms and conditions of employment presently enjoyed by Confidential employees shall remain in full force and effect unless changed subsequent to meetings between the City and representatives of the "Confidential" employees.

SECTION 4: The City of Costa Mesa has contracted with the California Public Employees Retirement System (CalPERS) to provide retirement benefits to eligible City employees. Employees will contribute towards the employee and employer contribution as stipulated in the Memorandum of Understanding (MOU) with the Costa Mesa City Employees Association.

A. Classic Members - Employees Subject to the 2.5% @ 55 formula:

These employees will pay the full CalPERS member contribution equal to eight percent (8%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

Classic member employees subject to the 2.5%@55 formula pay 2.469% of compensation earnable pursuant to Government Code section 20516(a) and 1.531% of compensation earnable pursuant to Government Code section 20516(f).

B. Classic Members - Employees Subject to the 2%@60 formula:

These employees will pay the full CalPERS member contribution equal to seven percent (7%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

Classic member employees subject to the 2%@60 formula pay five percent (5%) of compensation earnable pursuant to Government Code section 20516(f).

C. New Members - Employees Subject to the 2%@62 formula:

These employees are responsible for paying the employee contribution of one-half of the total normal cost of the plan (rounded to the nearest quarter of one-percent), as defined by CalPERS in their annual valuation, through a payroll deduction. This amount is determined by CalPERS each year.

New member employees will cost share (pursuant to Government Code section 20516(f)), a percentage of pensionable compensation that when combined with the payment of their employee/member contribution will equal twelve percent (12%) of pensionable compensation.

SECTION 5: Amendments made pertaining to the fringe benefits, City Rules and Regulations and other employment conditions for employees represented by the Costa Mesa City Employees Association shall also apply to "Confidential" unrepresented employees unless specifically excluded. Any positions that may qualify to be part of this unrepresented unit shall be added as part of the process of adoption of salary schedules after consultation with the bargaining unit and employees.

SECTION 6. All resolutions and parts of resolutions in conflict herewith are hereby rescinded.

PASSED AND ADOPTED this 15th day of November, 2022.

(SEAL)

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR CLASSIFICATIONS IN THE CONFIDENTIAL UNIT

THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA HEREBY FINDS, DETERMINES, AND DECLARES AS FOLLOWS:

WHEREAS, on November 15, 2022 the City Council adopted Resolution No. 2022-XX, revising the pay ranges for job classifications in the Confidential Unit, effective the pay period that includes pay date of January 6, 2023; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-XX to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. Employer-Employee Organization Relations Resolution No. 95-63, as authorized under the California Government Code (Section 3500, et seq.), defines "Employee, Confidential" as any employee whose normal duties would give the employee access to decisions or the decision-making processes of the City concerning any matters relating to employer-employee relations; and said Resolution sets forth the "Policy and Standards for Determination of Appropriate Units", including the provision that confidential responsibilities are determining factors in establishing appropriate units. Accordingly, specific positions have been determined by the City Manager (Employee Relations Officer) as having access to or preparing confidential materials and/or information and/or recommendations on behalf of the City in matters relating to employer-employee relations and are included in this Confidential Employees Unit.

SECTION 2. The following positions of the Office of the City Manager, Finance Department and Information Technology Department, placed under the Confidential Unit Salary Schedule, are hereby revised to reflect the salary ranges and monthly rates of pay specified, effective the pay period that includes July 1, 2023. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay step.

SECTION 3: Except as provided herein, all compensation, hours and other terms and conditions of employment presently enjoyed by Confidential employees shall remain in full force and effect unless changed subsequent to meetings between the City and representatives of the "Confidential" employees.

SECTION 4: The City of Costa Mesa has contracted with the California Public Employees Retirement System (CalPERS) to provide retirement benefits to eligible City employees. Employees will contribute towards the employee and employer contribution as stipulated in the Memorandum of Understanding (MOU) with the Costa Mesa City Employees Association.

A. Classic Members - Employees Subject to the 2.5% @ 55 formula:

These employees will pay the full CalPERS member contribution equal to eight percent (8%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

Effective the pay period that includes July 1, 2023, classic member employees subject to the 2.5%@55 formula shall have their cost sharing per Government Code section 20516(a) reduced by 1.469% for a net contribution of one percent (1%) and cost sharing pursuant to 20516(f) will be reduced from 1.531% to 0%.

B. Classic Members - Employees Subject to the 2%@60 formula:

These employees will pay the full CalPERS member contribution equal to seven percent (7%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

Effective the pay period that includes July 1, 2023, cost sharing for employees subject to the 2%@60 formula will be reduced from five percent (5%) to two percent (2%) and will be pursuant to Government Code section 20516(a).

C. New Members - Employees Subject to the 2%@62 formula:

These employees are responsible for paying the employee contribution of one-half of the total normal cost of the plan (rounded to the nearest quarter of one-percent), as defined by CalPERS in their annual valuation, through a payroll deduction. This amount is determined by CalPERS each year.

Effective the pay period that includes July 1, 2023, new member employees will cost share (pursuant to Government Code section 20516(f), a percentage of pensionable compensation that when combined with the payment of their employee/member contribution will equal nine percent (9%) of pensionable compensation.

SECTION 5: Amendments made pertaining to the fringe benefits, City Rules and Regulations and other employment conditions for employees represented by the Costa Mesa City Employees Association shall also apply to "Confidential" unrepresented employees unless specifically excluded. Any positions that may qualify to be part of this unrepresented unit shall be added as part of the process of adoption of salary schedules after consultation with the bargaining unit and employees.

SECTION 6. All resolutions and parts of resolutions in conflict herewith are hereby rescinded.

PASSED AND ADOPTED this 15th day of November, 2022.

(SEAL)

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR CLASSIFICATIONS IN THE CONFIDENTIAL UNIT

THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA HEREBY FINDS, DETERMINES, AND DECLARES AS FOLLOWS:

WHEREAS, on November 15, 2022 the City Council adopted Resolution No. 2022-XX, revising the pay ranges for job classifications in the Confidential Unit, effective the pay period that includes July 1, 2023; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-XX to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. Employer-Employee Organization Relations Resolution No. 95-63, as authorized under the California Government Code (Section 3500, et seq.), defines "Employee, Confidential" as any employee whose normal duties would give the employee access to decisions or the decision-making processes of the City concerning any matters relating to employer-employee relations; and said Resolution sets forth the "Policy and Standards for Determination of Appropriate Units", including the provision that confidential responsibilities are determining factors in establishing appropriate units. Accordingly, specific positions have been determined by the City Manager (Employee Relations Officer) as having access to or preparing confidential materials and/or information and/or recommendations on behalf of the City in matters relating to employer-employee relations and are included in this Confidential Employees Unit.

SECTION 2. The following positions of the Office of the City Manager, Finance Department and Information Technology Department, placed under the Confidential Unit Salary Schedule, are hereby revised to reflect the salary ranges and monthly rates of pay specified, effective the pay period that includes July 1, 2024. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay step.

SECTION 3: Except as provided herein, all compensation, hours and other terms and conditions of employment presently enjoyed by Confidential employees shall remain in full force and effect unless changed subsequent to meetings between the City and representatives of the "Confidential" employees.

SECTION 4: The City of Costa Mesa has contracted with the California Public Employees Retirement System (CalPERS) to provide retirement benefits to eligible City employees. Employees will contribute towards the employee and employer contribution as stipulated in the Memorandum of Understanding (MOU) with the Costa Mesa City Employees Association.

A. Classic Members - Employees Subject to the 2.5% @ 55 formula:

These employees will pay the full CalPERS member contribution equal to eight percent (8%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

Classic member employees subject to the 2.5%@55 formula pay 1% of compensation earnable pursuant to Government Code section 20516(a).

B. Classic Members - Employees Subject to the 2%@60 formula:

These employees will pay the full CalPERS member contribution equal to seven percent (7%) of compensation earnable towards their CalPERS member contribution. As a result, the City pays and reports zero percent (0%) of compensation earnable as an Employer Paid Member Contribution (EPMC) under Government Code section 20636(c)(4) pursuant to section 20691.

Classic member employees subject to the 2%@60 formula pay 2% of compensation earnable pursuant to Government Code section 20516(a).

C. New Members - Employees Subject to the 2%@62 formula:

These employees are responsible for paying the employee contribution of one-half of the total normal cost of the plan (rounded to the nearest quarter of one-percent), as defined by CalPERS in their annual valuation, through a payroll deduction. This amount is determined by CalPERS each year.

New member employees will cost share (pursuant to Government Code section 20516(f), a percentage of pensionable compensation that when combined with

the payment of their employee/member contribution will equal nine percent (9%) of pensionable compensation.

SECTION 5: Amendments made pertaining to the fringe benefits, City Rules and Regulations and other employment conditions for employees represented by the Costa Mesa City Employees Association shall also apply to "Confidential" unrepresented employees unless specifically excluded. Any positions that may qualify to be part of this unrepresented unit shall be added as part of the process of adoption of salary schedules after consultation with the bargaining unit and employees.

SECTION 6. All resolutions and parts of resolutions in conflict herewith are hereby rescinded.

PASSED AND ADOPTED this 15th day of November, 2022.

Transparency in Labor Negotiations (TIN) Analysis Certification

City of Costa Mesa Policy 300-8 Section 2 of Practices and Procedures states:

Section 2 Economic Analysis

a. The Finance Director shall prepare an economic analysis on the fiscal impacts of each term and condition of employment made available to the members of all recognized employee organizations. The economic analysis must be verified by an independent auditor.
b. The economic analysis shall be updated with each proposal and counterproposal presented throughout the negotiation process and posted on the website along with all proposals and counter proposals.
c. The economic analysis shall be prepared in the format shown on Attachment A and shall include written council member acknowledgement that the analysis has been reviewed by the council member.

Certification:
In accordance with this section, Lance, Soll & Lunghard, LLP, an independent auditor, has reviewed the **Costa Mesa Proposal #8 for Fiscal Year 2022-23 to the City of Costa Mesa Employees Association (CMCEA) for Fiscal Year 2022-23 dated October 17, 2022** and the related study of supplemental data prepared by the City and believe that they accurately reflect the fiscal impacts of the proposal.

Agenda Report

File #: 22-954 **Meeting Date:** 11/15/2022

TITLE:

ADOPTION OF THE SIDE LETTER OF AGREEMENT BETWEEN THE CITY OF COSTA MESA (CITY) AND THE COSTA MESA POLICE ASSOCIATION (CMPA) AND THE ADOPTION OF ACCOMPANYING SALARY RESOLUTION FOR CMPA

DEPARTMENT: **CITY MANAGER'S OFFICE- HUMAN RESOURCES DIVISION**

PRESENTED BY: **KASAMA LEE, HUMAN RESOURCES MANAGER**

CONTACT INFORMATION: **KASAMA LEE, HUMAN RESOURCES MANAGER (714) 754-5169**

RECOMMENDATION:

Staff recommends the City Council:

1. Approve and Adopt the Side Letter of Agreement between the City of Costa Mesa and CMPA (Attachment I);

2. Approve and Adopt Resolution Number 2022-XX revising the pay ranges for CMPA (Attachment II);

3. Approve the Fiscal Impact Analyses (Attachment III);

4. Authorize the City Manager and members of the City's Negotiation Team to execute the Side Letter of Agreement documents, and amend the Fiscal Year 2022-23 Adopted Budget for the Police Department accordingly.

BACKGROUND:

In March 2020, the City was faced with significant and unprecedented workloads and financial challenges due to the emergence of the worldwide coronavirus (COVID-19) pandemic. In addition to the devastating impacts on public health and mortality, the impact of COVID-19 on the regional, national and global economy was also significant. As a result, numerous General Fund revenue sources declined significantly, including tax revenues (e.g., sales tax, hotel tax, and business license tax, etc.).

Three months after the pandemic was declared, at the June 25, 2020 City Council Meeting, a Side Letter Agreement with CMPA was approved to achieve a five percent (5%) salary furlough and budgetary savings. The Side Letter Agreement also included the following key provisions:

- Four (4) year contract extension to June 30, 2024
- 104 hour furlough (5% compensation reduction) in FY 2020-2021

- No base salary increase in FY 2021-22
- A one percent (1%) increase in base salary in FY 2022-23, and a one percent (1%) employer match to Retirement Health Savings Accounts
- A two percent (2%) increase in base salary in FY 2023-24
- Elimination of Tier 2 vacation accrual plan
- Ability for Association to request contract reopeners in Years 2, 3 and 4.

The 2020 side letter also stated that employees would be reimbursed for the 5% salary furloughs if the City received Federal stimulus funds in excess of $40.5 million. The City of Costa Mesa did receive Federal American Rescue Plan funding, albeit a lesser amount, of $28.3 million. Nonetheless, the City reimbursed all employees for the 5% furloughs due to their contributions and good faith bargaining which eliminated the need for layoffs at a time when the continuation of core public services was absolutely essential.

The current collective bargaining agreement between the City and CMPA covers 132 sworn Police Officers during the period of 2018-2024 and is scheduled to expire on June 30, 2024. CMPA requested to exercise the reopener for FY 2021-2022 and a series of collaborative and productive meetings between the City's negotiation team and CMPA's negotiation team were held, which resulted in the attached tentative Side Letter of Agreement (Attachment I). Under the proposed Side Letter of Agreement, the current term of the MOU would be extended by one year and expire on June 30, 2025. More importantly, the revised Side Letter of Agreement provides for the following: 1) Modest salary increases over the remaining three years of the contract to ensure Police Officer compensation remains competitive and is at or above the market; 2) Special compensation for Officers working in high risk or specialized assignments (e.g. Gang Unit) to further enhance participation and training in those assignments consistent with other cities; and, 3) A recruitment and retention incentive to encourage more tenured and experienced Police Officers and Sergeants to remain at the City longer to help train the next generation of Costa Mesa Police Officers.

ANALYSIS:

The City's Negotiation Team and CMPA Negotiation Team held several meetings to discuss the MOU and issues raised by both parties, including but not limited to wages and benefits. During the course of negotiations, the City Negotiation Team met with the City Council to discuss the status and progress of negotiations and to receive direction specific to provisions under consideration. The negotiations were fully collaborative and were based on the shared interests of the CMPA employees and the City. The results of the negotiations have been compiled in the proposed Side Letter of Agreement.

The Police Officer classification has historically been a hard-to-fill position in the City and in the industry nationwide. With the current inflation rate at 8% and the Consumer Price Index at 8%, salary and benefits remain a challenge in this competitive employment market. The proposed Side Letter of Agreement takes into consideration specific objectives that align with the City Council's Strategic Plan Goals - *Recruit, Retain High Quality Staff and Strengthen the Public's Safety and Improve Quality of Life* and the City's improved financial health as the proposed provisions have financial implications. A summary of the most significant MOU revisions is included below.

The following are the key provisions of the negotiated CMPA Side Letter:

- Term of Side Letter Upon City Council adoption, the term of the MOU will be extended through June 30, 2025
- Salaries and Wages
    - Effective January 2023, a 2% base salary increase
    - Effective July 2023, an additional 3.0% base salary increase (above the 2% base salary increase negotiated in June 2020)
    - Effective July 2024, a 4.25% base salary increase
- Cost Sharing and Retirement Contributions
    - Effective July 2023 reduction of 1.25% of employee cost sharing, which will require future City Council approval to amend the City's current cost sharing agreement with CalPERS via Government Code 20516(a).
- Recruitment and Retention Pay
    - Effective January 2023, 10% of base salary for 25 years of sworn service
    - Effective July 2024, 7% for 20 years of sworn service and 5% for 15 years of sworn service
    - Effective January 2025, 2.5% for 10 years of sworn service
    - For Police Officers transferring in from other agencies, up to 10 years of sworn employment outside of Costa Mesa can be counted
- Deferred Compensation
    - Effective July 2024, employer contribution of 0.5% of base salary.
- Specialty Assignment Pay
    - Net 5% special assignment pay for Traffic (Non-Motor), Traffic Investigator, ISB Detective, SIU Detective, Gang Unit Investigator, SRO, Training/Recruitment Officer, South Coast Plaza Officer, and CPU Officer. The net 5% reflects the net impact of the new 7.5% specialty pay with the simultaneous removal of the 2.5% Uniform Pay for patrol assignments.

The CMPA Negotiation Team has agreed to a tentative agreement. The CMPA member ratification process was completed on November 5, 2022 with a majority of members approving the proposed tentative agreement featuring the items outlined above.

Some of the provisions agreed to above impact other employee groups per the "me too" provisions negotiated during the pandemic in other employee association side letters and resolutions. These provisions are currently under review and updated side letters and resolutions for the Costa Mesa Fire Association, Costa Mesa Fire Management Association, Costa Mesa Police Management Association, Costa Mesa Division Manager Association and unrepresented Executives and Confidential Managers will be brought back at a future council meeting for approval.

ALTERNATIVES:

The parties to this agreement considered a variety of issues in the context of good faith negotiations in accordance with Government Code Section 3500, et seq. (Meyer-Milias-Brown Act). The CMPA members have ratified the tentative agreement. This MOU represents the successful conclusion of labor negotiations, and alternatives need not be considered as a result of collaborative efforts expended.

FISCAL REVIEW:

The Fiscal Impact Analysis prepared pursuant to the City Council Policy 300-8 Transparency in Labor Negotiations recognizes the CMPA Fiscal Year 2022-23 increase is estimated at $620,000, and will take effect during the payroll cycle inclusive of January 1, 2023. The estimated annual fiscal impact to the City's FY 2023-24 Budget is $1.9 million, and approximately $4.1 million in FY 2024-25. General Fund revenues are tracking well above pre-pandemic levels as evidenced by the projected $3.6 million surplus for the fiscal year ended June 30, 2022, as well as current year revenue receipts. As such, it is anticipated that General Fund revenues can cover the fiscal impact of this proposal in the current year, as well as the out-years.

Staff is requesting budget appropriations in the Police Department to effectuate the provisions contained in the proposed Side Letter of Agreement. Funding for future fiscal years will be included as part of that respective year's budget.

LEGAL REVIEW:

The City's special counsel, Liebert Cassidy Whitmore (LCW) and City Attorney's Office have reviewed the agreements and resolutions and this report and approved them as to form.

CONCLUSION:

The proposed MOU and salary range adjustments support the City's Strategic Plan Goals to recruit and retain high quality staff and strengthen the Public's Safety and Improve the Quality of Life. Staff recommends that the City Council:

1. Approve and adopt the Side Letter of Agreement between the City of Costa Mesa and the Costa Mesa Police Association. (Attachment I).

2. Adopt Resolution Number 2022-XX (Attachment II), which revises the pay ranges for CMPA.

3. Approve Fiscal Impact Analyses (Attachment III).

4. Authorize the City Manager and members of the City's Negotiation Team to execute the Side Letter of Agreement documents, and appropriate into the Police Department's Fiscal Year 2022-23 Adopted Budget.

SIDE LETTER OF AGREEMENT

CITY OF COSTA

AND

THE COSTA MESA POLICE ASSOCIATION

This Side Letter of Agreement (Agreement) between the City of Costa Mesa (City) and the Costa Mesa Police Association (Association) (collectively "Parties") is entered into with respect to the following:

WHEREAS, the Parties are currently parties to a Memorandum of Understanding (MOU) with a term that expired on June 30, 2020, but was extended by a side letter (Attached hereto as Exhibit A) to expire on June 30, 2024; and

WHEREAS, the side letter in Section 3.2 gave the Association the option to reopen negotiations for the purpose of increasing pay and benefits and the Association exercised that option; and

WHEREAS, the Parties have negotiated modifications to wages and benefits that modify the provisions of their MOU and wish to memorialize those changes in this Agreement;

WHEREAS, the following memorializes the parties' agreement.

The Parties agree to the following modifications to their MOU effective upon City Council approval of this Agreement on November 15, 2022 as reflected by the track changes to each of the articles below.

ARTICLE 2 - TERM OF AGREEMENT

2.1 The term of this MOU will commence on July 1, 2018, and will expire in the pay period that includes June 30, 2025~~4~~.

ARTICLE 3 - BASIC SALARIES AND WAGES

3.1. Employees covered by this MOU shall be compensated at the established monthly base salary rates under the Basic Pay Schedule for covered employees. The three (3) classifications in the Association, under this Schedule Police Officer, Senior Police Officer, and Police Sergeant shall be assigned a range number established by the City Council resolution.

~~Effective in the pay period which includes July 1, 2021, the Association has the option to reopen negotiations for the purpose of increasing pay and benefits. If the Association elects to exercise this option, it must notify the City no later than April 1, 2021. Any changes to the MOU must be by mutual agreement of the parties.~~

~~Effective in the pay period which includes July 1, 2022, employees shall receive a one percent (1.0%) base salary increase. In addition, the Association has the option to reopen negotiations for the purpose of increasing pay and benefits. If the Association elects to exercise this option, it must notify the City no later than April 1, 2022. Any changes to the MOU must be by mutual agreement of the parties.~~

Effective the pay period that includes pay date of January 6, 2023, employees shall receive a two percent (2.0%) base salary increase for all classifications subject to this MOU.

~~Effective in the pay period which includes July 1, 2023, employees shall receive a two percent (2.0%) base salary increase. In addition, the Association has the option to reopen negotiations for the purpose of increasing pay and benefits. If the Association elects to exercise this option, it must notify the City no later than April 1, 2023. Any changes to the MOU must be by mutual agreement of the parties.~~

Effective the pay period that includes July 1, 2023, employees shall receive an additional three percent (3%) base salary increase for all classifications subject to this MOU. This three percent (3%) is in addition to but will not be compounded on the two percent (2%) which the parties previously (in 2020) agreed would be provided effective the pay period that includes July 1, 2023.

Effective the first full pay period beginning after July 1, 2024, employees shall receive a four and one quarter percent (4.25%) base salary increase for all classifications subject to this MOU.

The parties agree that the reopener provisions (for 2022 and 2023) addressed above (originally contained in the~~ir~~ July 2020 Side Letter) have been satisfied and there are no further reopeners through the end of the term of this~~eir~~ MOU on June 30, 2025.

3.2 RECRUITMENT AND RETENTION INCENTIVE PAY

Recruitment and Retention Incentive Pay is compensation to incentivize Police Department sworn employees to remain with the City of Costa Mesa.

Effective the pay period including the pay date of January 6, 2023, employees in this bargaining unit who have been employed in a full-time sworn law enforcement position (as defined by California Penal Code sections 830.1, 830.2, 830.32 and 830.33 or the out-of-state equivalent as determined by the Chief of Police) for twenty-five (25) years or more (with a maximum of 10 years in such a position outside of the City of Costa Mesa) shall receive recruitment and retention incentive pay of ten percent (10%).

Effective the first full pay period beginning after July 1, 2024, employees in this bargaining unit who have been employed in a full-time sworn law enforcement position (as defined by California Penal Code sections 830.1, 830.2, 830.32 and 830.33 or the out-of-state equivalent as determined by the Chief of Police) for twenty (20) years or more (with a maximum of 10 years in such a position outside of the City of Costa Mesa shall receive recruitment and retention incentive pay of seven and one-half percent (7.5%).

Effective the first full pay period beginning after July 1, 2024, employees in this bargaining unit who have been employed in a full-time sworn law enforcement position (as defined by California Penal Code sections 830.1, 830.2, 830.32 and 830.33 or the out-of-state equivalent as determined by the Chief of Police) in a full-time sworn law enforcement position with the City of Costa Mesa for fifteen (15) years or more (with a maximum of 10 years in such a position outside of the City of Costa Mesa) shall receive recruitment and retention incentive pay of five percent (5%).

Effective the pay period that including the pay date of January 3, 2025, employees in this bargaining unit who have been employed) in a full-time sworn law enforcement position (as defined by California Penal Code sections 830.1, 830.2, 830.32 and 830.33 or the out-of-state equivalent as determined by the Chief of Police) in a full-time sworn law enforcement position with the City of Costa Mesa for ten (10) years or more (with a maximum of 10 years in such a position outside of the City of Costa Mesa shall receive recruitment and retention incentive pay of two and one-half percent (2.5%).

Other civilian service will not count towards full-time sworn law enforcement service for this purpose.

The above recruitment and retention incentive pays are not cumulative. Once an employee becomes eligible for the next level of recruitment and retention incentive pay, they shall qualify for that level and no longer receive the prior level of pay (i.e. the maximum total incentive pay an employee can receive is a total of 10% for 25 or more years of sworn law enforcement service).

The parties agree, to the extent permitted by law, the compensation in this section is special compensation and shall be reported as such pursuant to Title 2 California Code of Regulations, Section 571 and 571.1.

3.3 **DEFERRED COMPENSATION**

Effective the first full pay period beginning after July 1, 2024, the City will make a contribution to the City's 457(b) provider that will equal one half of one percent (0.5%) of each employee's base salary. Employees are responsible for tracking contributions to ensure that total contributions made by the City and employee do not exceed the maximum allowable contributions as per the IRS. City contributions are per year only. As such, they expire on the last payroll of the calendar year.

ARTICLE 5 - RETIREMENT

5.1 **CALPERS -** The City contracts with CalPERS for retirement benefits.

A. Employees Who Are Not "New Members" as Defined by Government Code Section 7522.04(f) – i.e., "Classic Members"

4. Cost Sharing: Classic member employees subject to the 3%@50 formula currently pay an additional five percent (5%) of compensation earnable as cost sharing into their employee account with CalPERS in accordance with Government Code section 20516(a).

Effective the pay period that includes July 1, 2023, for Classic member employees subject to the 3%@50 formula, cost sharing per Government Code section 20516(a) will be reduced by one and one quarter percent (1.25%) for a net contribution of three and three quarters' percent (3.75%) per Government Code section 20516(a). When this three and three quarters' percent (3.75%) is added to the employees' payment of nine percent (9%) towards their member contribution, employees shall pay twelve and three quarters' percent (12.75%) compensation earnable towards their pension.

B. For "New Member" Employees

3. Payment of Employee/Member Contribution: New member employees are responsible for paying the employee contribution of one-half of the total normal cost of the plan, as defined by CalPERS, through a payroll deduction. This amount will be determined by CalPERS in the future.

Effective the pay period that includes July 1, 2023, for new member employees subject to the 2.7%@57 formula, if one-half of the CalPERS' annual normal cost rate goes below 12.75% (and it is rounded by CalPERS to the nearest one-quarter of a percent), new member employees subject to the 2.7%@57 formula shall pay the difference between the one-half of the total normal cost rate and twelve and three-quarters; percent (12.75%) of compensation earnable as cost sharing pursuant to Government Code section 20516(f).

Effective the pay period that includes July 1, 2023, for new member employees subject to the 2.7%@57 formula, if one-half of the CalPERS' annual normal cost rate exceeds 12.75% (and it is rounded by CalPERS to the nearest one-quarter of a percent), the City will contribute the amount above 12.75% to the deferred compensation account (per IRS Code section 457(b)) of each new member.

ARTICLE 12 - SPECIALTY ASSIGNMENT PAY

12.3 **UNIFORM ASSIGNMENT PAY** - Employees in the classifications of Senior Police Officer and Police Sergeant who are regularly assigned to uniform automobile/motorcycle patrol~~, or traffic enforcement~~ shall receive uniform assignment pay (2.5% of base salary). Employees, assigned to patrol ~~or traffic enforcement~~ for less than 14 consecutive days shall not be eligible for Uniform Assignment Pay. ~~All Police Officers who are receiving Uniform Assignment Pay upon the effective date of this agreement shall continue to receive such pay.~~ Uniform

assignment pay shall also be applicable to employees in the Police Officer classification who are regularly assigned to uniform automobile/motorcycle patrol ~~or traffic enforcement after three years of service with the City of Costa Mesa~~.

12.8 TRAFFIC DETAIL ASSIGNMENT PAY

Effective the pay period that includes pay date of January 6, 2023, employees assigned to traffic detail (Non-Motors) or who are assigned as Traffic Investigators shall receive seven and one-half percent (7.5%) of base salary while so assigned. Employees receiving this pay shall not be eligible to receive Uniform Assignment Pay provided for above in Article 12.3, and therefore, employees assigned to one of these specialty assignments will receive a net increase of five percent (5%) of base salary.

12.9 DETECTIVE / GANG UNIT INVESTIGATOR PAY

Effective the pay period that includes pay date of January 6, 2023, employees assigned as either an Investigative Services Bureau or Special Investigations Unit Detective or a Gang Unit Investigator shall receive seven and one-half percent (7.5%) of base salary while so assigned. Employees receiving this pay shall not be eligible to receive Uniform Assignment Pay provided for above in Article 12.3, and therefore, employees assigned to one of these specialty assignments will receive a net increase of five percent (5%) of base salary.

12.10 POLICE SPECIALTY OFFICER PAY

Effective the pay period the includes pay date of January 6, 2023, employees assigned in any of the following specialty officer assignments shall receive seven and one-half percent (7.5%) of base salary while so assigned: 1) School Resources Unit; 2) Training/Recruitment Unit; 3) South Coast Plaza Unit; 4) Community Policing Unit ~~Officer~~; and, 5) Professional Standards/Admin Unit. Employees receiving this pay shall not be eligible to receive Uniform Assignment Pay provided for above in Article 12.3, and therefore, employees assigned to one of these specialty assignments will receive a net increase of five percent (5%) of base salary.

SIDE LETTER OF AGREEMENT

CITY OF COSTA

AND

THE COSTA MESA POLICE ASSOCIATION

This Side Letter of Agreement (Agreement) between the City of Costa Mesa (City) and the Costa Mesa Police Association (Association) (collectively "Parties") is entered into with respect to the following:

WHEREAS, the Parties are currently parties to a Memorandum of Understanding (MOU) with a term that expires on June 30, 2020; and

WHEREAS, as a result of the impacts of COVID-19 on the City, the Parties have met and conferred for the purpose of achieving cost savings. This has resulted in the Parties agreeing to some modifications to their MOU including a four-year extension of the term of the MOU; and

WHEREAS, the following memorializes the parties' agreement.

The Parties agree to the following modifications to their MOU effective the pay period including July 1, 2020 (i.e., June 21, 2020), as reflected by the track changes to each of the articles below.

ARTICLE 1 - RECOGNITION/PREAMBLE

1.9 During the term of this MOU, the parties agree either side can propose MOU language to clean up provisions which are either outdated or in need of modification. Any language changes must be mutually agreeable.

ARTICLE 2 - TERM OF AGREEMENT

2.1 The term of this MOU will commence on July 1, 2018, and will expire in the pay period that includes June 30, 2024~~0~~.

ARTICLE 3 - BASIC SALARIES AND WAGES

3.1. Employees covered by this MOU shall be compensated at the established monthly base salary rates under the Basic Pay Schedule for covered employees. The three (3) classifications in the Association, under this Schedule Police Officer, Senior Police Officer, and Police Sergeant shall be assigned a range number established by the City Council resolution.

Effective in the pay period which includes July 1, 2021, the Association has the option to reopen negotiations for the purpose of increasing pay and benefits. If the Association elects to exercise this option, it must notify the City no later than April 1, 2021. Any changes to the MOU must be by mutual agreement of the parties.

Effective in the pay period which includes July 1, 2022, employees shall receive a one percent (1.0%) base salary increase. In addition, the Association has the option to reopen negotiations for the purpose of increasing pay and benefits. If the Association elects to exercise this option, it must notify the City no later than April 1, 2022. Any changes to the MOU must be by mutual agreement of the parties.

Effective in the pay period which includes July 1, 2023, employees shall receive a two percent (2.0%) base salary increase. In addition, the Association has the option to reopen negotiations for the purpose of increasing pay and benefits. If the Association elects to exercise this option, it must notify the City no later than April 1, 2023. Any changes to the MOU must be by mutual agreement of the parties.

3.2 FURLOUGHS

Each member of the Association is required to take a total of one hundred and four (104) hours of unpaid furlough during the twenty-six (26) consecutive pay periods between June 21, 2020 and June 19, 2021.

The method/manner in which furlough hours are taken are to be determined by mutual agreement of the parties.

If the City receives financial relief from the County of Orange, State of California, or the Federal Government for any issues related to the impact of COVID-19 in excess of $40.5 million for Fiscal Year 2020/2021, each member of the Association will receive a payment equivalent to the dollar savings of the furlough hours already taken (base rate including incentive pay x furlough hours).

ARTICLE 6 - RETIREE MEDICAL

6.1 The Defined Contribution Retirement Health Savings Plan ("Plan") went into effect January 1, 2004 and payments made by the City were suspended in 2010. The purpose of the Plan was to establish a tax protected savings program for every full-time employee that will:

- Provide a retiree medical benefit for employees who were hired after January 1, 2004 who will not be eligible for the health insurance contribution under the Council Policy 300-1.
- Provided a supplemental benefit to the City contribution under Council Policy 300-1 for employees hired before January 1, 2004.

The program requires mandatory participation by all full-time employees. Employees make a monthly contribution to the plan equal to 1% of their base monthly salary. Effective the pay period that includes July 1, 2022, the City will match the 1% monthly contribution into each employees' account. The account assets that accumulate, plus investment earnings, will be used in retirement to pay health insurance premiums and other eligible out-of-pocket medical expenses such as deductibles, co-payments, vision care or dental care. Employee contributions plus vested employer contributions are portable if an employee should leave employment with Costa Mesa prior to retirement.

For all employees in the unit, the City will pay the CalPERS statutory minimum for each member of the bargaining unit for retiree medical benefits.

ARTICLE 13 - VACATION LEAVE

13.2 ACCRUAL OF VACATION LEAVE

A. Employees ~~who were hired by the City or submitted an application for City employment prior to May 1, 2016,~~ shall accrue vacation leave as follows ("Tier 1"):

1. Upon completion of one (1) year continuous full-time service but less than three (3) years of continuous full-time service an employee shall accrue ninety-two (92) hours per year that are accrued each pay period.

2. Upon completion of three (3) years of continuous full-time service, but less than five (5) years of continuous full-time service, an employee shall accrue one hundred sixteen (116) hours per year that are accrued each pay period.

3. Upon completion of five (5) years of continuous full-time service, but less than ten (10) years of continuous full-time service, an employee shall accrue one hundred forty (140) hours per year that are accrued each pay period.

4. Upon completion of ten (10) years of continuous full-time service, but less than fifteen

(15) years of continuous full-time service, an employee shall accrue one hundred sixty-four (164) hours per year that are accrued each pay period.

5. Upon completion of fifteen (15) years of continuous full-time service but less than twenty (20) years of continuous full-time service, an employee shall accrue one hundred eighty-eight (188) hours per year that are accrued each pay period.

6. Upon completion of twenty (20) years or more of continuous full-time service, an employee shall accrue two hundred twelve (212) working hours per year that are accrued each pay period.

~~B. Employees whose application for employment with the City was submitted on May 1, 2016 or after shall receive annual vacation leave as follows("Tier 2"):~~

~~1. Upon being hired by the City and through completion of less than three (3) years of continuous full-time service, an employee shall accrue eighty (80) hours per year that are accrued each pay period.~~

~~2. Upon completion of three (3) years of continuous full-time service, but less than seven (7) years of continuous full-time service, an employee shall accrue one hundred twenty (120) hours per year that are accrued each pay period.~~

~~3. Upon completion of seven (7) years of continuous full-time service, but less than thirteen (13) years of continuous full-time service, an employee shall accrue one hundred forty (140) hours per year that are accrued each pay period.~~

~~4. Upon completion of thirteen (13) years of continuous full-time service, but less than fifteen (15) years of continuous full-time service, an employee shall accrue one hundred sixty (160) hours per year that are accrued each pay period.~~

~~5. Upon completion of fifteen (15) years of continuous full-time service, but less than twenty (20) years of continuous full-time service, an employee shall accrue one hundred eighty (180) hours per year that are accrued each pay period.~~

~~6. Upon completion of twenty (20) years of continuous full-time service, an employee shall accrue two hundred (200) hours per year that are accrued each pay period.~~

Effective June 21, 2020, the "Tier 2" vacation leave accrual plan shall sunset. Current employees in the "Tier 2" plan will be placed on the "Tier 1" vacation leave accrual plan according to their current years of service effective June 21, 2020. All new employees hired on June 21, 2020, or after, will be placed on the "Tier 1" vacation leave accrual plan.

C. Vacation Accrual Implementation and Ceiling - The accrual of vacation hours is be capped at the following maximum levels based upon an employee's years of service as follows:

Tier 1

Years of Service	Annual Accrual	Maximum Accrual
1-2	92.0	184.0
3-4	116.0	232.0
5-9	140.0	280.0
10-14	164.0	320.0
15-19	188.0	320.0
20+	212.0	320.0

~~Tier 2~~

~~Years of Service~~	~~Annual Accrual~~	~~Maximum Accrual~~
~~0-2~~	~~80.0~~	~~160.0~~
~~3-6~~	~~120.0~~	~~240.0~~
~~7-12~~	~~140.0~~	~~280.0~~
~~13-14~~	~~160.0~~	~~320.0~~
~~15-19~~	~~180.0~~	~~320.0~~
~~20+~~	~~200.0~~	~~320.0~~

Once the maximum accrual is reached, the employee will stop accruing additional Vacation Leave. Annual vacation accruals will re-commence in the next pay period following the use of vacation leave which reduces the balance below the maximum accrual. It is the responsibility of the employee to manage accrued vacation time off by requesting, scheduling and using vacation to avoid not accruing vacation because he/she has accrued the maximum accrual

ARTICLE 17 – LAYOFF PROCEDURES

17.2 During fiscal year 2020-21, the City agrees that employees covered by this MOU ~~memorandum of understanding~~ cannot be subject to layoff from City employment.

RESOLUTION NO. 2022-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COSTA MESA, CALIFORNIA, REVISING THE PAY RANGES FOR JOB CLASSIFICATIONS REPRESENTED BY THE COSTA MESA POLICE ASSOCIATION PURSUANT TO THE 2022 SIDE LETTER.

WHEREAS, on June 7, 2022, the City Council adopted Resolution No. 2022-36, revising the pay ranges for job classifications represented by the Costa Mesa Police Association, effective June 19, 2022; and

WHEREAS, the City of Costa Mesa and the Costa Mesa Police Association are currently parties to a Memorandum of Understanding (MOU) with a term that expired on June 30, 2020, but was extended by a side letter to expire on June 30, 2024; and

WHEREAS, the parties have negotiated modifications to wages and benefits that modify the provisions of their MOU; and

WHEREAS, the City Council desires to repeal and replace Resolution No. 2022-36, to revise the pay ranges for the classifications specified herein; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Costa Mesa as follows:

SECTION 1. The following pay ranges and monthly rates of pay for the identified job classifications are hereby established and placed under the Basic Salary Administration Plan effective the pay period that includes the pay date of January 6, 2023. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay steps.

Class Code	Class Title	Grade	Step 1	2	3	4	5	6	7	
0201	Police Officer	050	$7,208	$7,568	$7,946	$8,343	$8,760	$9,198	$9,658	Monthly
			$86,496	$90,816	$95,352	$100,116	$105,120	$110,376	$115,896	Annual
			$41.58	$43.66	$45.84	$48.13	$50.54	$53.07	$55.72	Hourly
0203	Police Sergeant	056	$8,786	$9,225	$9,686	$10,170	$10,679	$11,213	$11,774	Monthly
			$105,432	$110,700	$116,232	$122,040	$128,148	$134,556	$141,288	Annual
			$50.69	$53.22	$55.88	$58.67	$61.61	$64.69	$67.93	Hourly
0202	Sr Police Officer	052	$7,567	$7,945	$8,342	$8,759	$9,197	$9,657	$10,140	Monthly
			$90,804	$95,340	$100,104	$105,108	$110,364	$115,884	$121,680	Annual
			$43.66	$45.84	$48.13	$50.53	$53.06	$55.71	$58.50	Hourly

SECTION 2. The following pay ranges and monthly rates of pay for the identified job classifications are hereby established and placed under the Basic Salary Administration Plan effective the pay period that includes July 1, 2023. The monthly rate of pay may also be in increments between the monthly minimum and maximum pay steps.

Transparency in Labor Negotiations (TIN) Analysis Certification

City of Costa Mesa Policy 300-8 Section 2 of Practices and Procedures states:

Section 2 Economic Analysis

a. The Finance Director shall prepare an economic analysis on the fiscal impacts of each term and condition of employment made available to the members of all recognized employee organizations. The economic analysis must be verified by an independent auditor.
b. The economic analysis shall be updated with each proposal and counterproposal presented throughout the negotiation process and posted on the website along with all proposals and counter proposals.
c. The economic analysis shall be prepared in the format shown on Attachment A and shall include written council member acknowledgement that the analysis has been reviewed by the council member.

Certification:
In accordance with this section, Lance, Soll & Lunghard, LLP, an independent auditor, has reviewed the **City of Costa Mesa Proposal #2 to the City of Costa Mesa Police Association (CMPA) for Fiscal Year 2022-23 dated November 1, 2022** and the related study of supplemental data prepared by the City and believe that they accurately reflect the fiscal impacts of the proposal.

Fiscal Impact Analysis for Compliance with City Council Policy 300-8 - Transparency in Labor Negotiations
Cost of Costa Mesa Police Association (CMPA) Contract
Based on Fiscal Year 2022-23 Projected Costs

Notes:

(1) Cost of Contract per item based on FY 2022-23 Adopted Budget and in some cases, prior year actuals.

(2) Amounts from PERS Valuation for Safety Police Plan dated July 2021. UAL as of June 30, 2020 for Safety Police Plan is $134,408,959, with Market Value of Assets (Funded) of $194,274,521
City estimated proportionate share for CMPA Employees based on FTEs.

(3) Overtime is not explicit in the contract, however is estimated based on the amount spent in prior years

(4) Rate per employee is not explicit in the contract, however is calculated based on projected employer contributions calculated by Nyhart, an independent actuary with assumptions listed in the report that includes both explicit and implicit rate subsidy.

(5) Excess Accrual Payoff / Cash Out is not explicit in the contract, however is estimated based on the amount spent in prior years
