Resolution No. PC-2023- __

EXHIBIT A

FINDINGS

- A. The proposed project complies with Costa Mesa Municipal Code Section 13-29(g)(2) because:

Finding: The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area

- **Facts in Support of Findings:** The subject site is located within the Green Zone, an industrial area of the community where several types of cannabis uses are conditionally permitted, such as non-storefront retail (delivery), distribution, and manufacturing. The proposed use is a manufacturing, distribution and non-storefront (delivery) retail use proposed within the City's Green Zone. The seven other tenants in the building are also approved cannabis facilities. Similar to other industrial uses, the proposed delivery business would not generate customer traffic to the site. As proposed and conditioned, the cannabis use would be compatible with adjacent industrial and commercial uses, including several other adjacent cannabis uses. Compliance with conditions of approval, other local regulations, and State requirements would allow this use to operate with minimal impact on surrounding properties and uses.

Finding: Granting the conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

- **Facts in Support of Finding:** The proposed manufacturing, distribution and non-storefront retail use would follow safety measures detailed in a professionally prepared security plan. The security plan was evaluated for compliance by the City's cannabis consultant, HdL Companies. Measures designed to maintain safety at the facility include—but are not limited to—window and door alarms, panic buttons, motion-detectors, limited access areas, a monitored video surveillance system covering all exterior entrances, exits, and all interior limited access spaces. As proposed and conditioned, video recordings shall be maintained for a minimum of 90 days As required by the CMMC and affirmed in the security plan, the business shall designate a security representative to be available to meet with the City Manager, Chief of Police, or their designees, regarding any security or operational concerns. The business employees, including delivery drivers and part-time staff, shall pass a live scan background check and obtain identification badges from the City. The recommended conditions of approval and local and State laws are intended to ensure that the use would not be materially detrimental to the health, safety and general welfare of the public or be otherwise injurious to property or improvements within the immediate neighborhood.

Finding: Granting the conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

Facts in Support of Finding: The use is consistent with the General Plan goals and policies as discussed earlier in this report. The proposed use will be located within an existing building and there are no proposed additional square footage to the tenant space or to the building; therefore, there is no change in intensity. As stated in the General Plan Land Use Element, the City's industrial designations "accommodate a variety of industrial and compatible office uses, as well as limited and supportive commercial uses." The use is consistent with General Plan policies related to providing a mixture of commercial goods, services, and employment opportunities; prioritizing commercial and industrial uses at properties north of I-405; and promoting the incubation of unique and specialized commercial and industrial businesses. In addition, the proposed use is a conditionally permitted use in the industrial zones.

- B. The project is categorically exempt from the provisions of California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301 for the permitting and/or minor alteration of Existing Facilities (Class 1). This project site contains an existing industrial building and the proposed project only involves minor interior tenant improvements that would not expand the existing footprint or increase the square footage. The proposed use would not require any other exterior modification or off-site improvements to the industrial complex. Thus, the proposed use does not intensify the area in terms of Floor Area Ratio or generate increased traffic that was already anticipated for this area pursuant to the General Plan. The project also complies with all applicable standards of Article 9 and 13 of the CMMC. Furthermore, none of the exceptions that bar the application of a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies. Specifically, the project would not result in a cumulative impact; would not have a significant effect on the environment due to unusual circumstances; would not result in damage to scenic resources; is not located on a hazardous site or location; and would not impact any historic resources.
- C. The project is not subject to a traffic impact fee, pursuant to Chapter XII, Article 3 Transportation System Management, of Title 13 of the Costa Mesa Municipal Code.

EXHIBIT B
