BEFORE AND AFTER - FIRE & RESCUE DEPARTMENT EMS & EMERGENCY GROUND AMBULANCE TRANSPORT & VEHICLE ACCIDENT FEES

							Yearly Inflator
Activity Description		Current Fee	FY 25/26 Proposed Fee	Fee Change	Charge Basis	Note	Allowable
Emergency Medical Services & Emergency Ground Ambulance Transportation							
1	First Responder	\$275	\$284	3.3%	fee charged to non-resident patients transported by ambulance		Y
2	As approved and authorized by the City Council at the inception of the City of Costa Mesa Fire & Rescue Emergency Ground Ambulance Transportation Program, the City utilizes the most recently adopted annual billing rate structure that is consistent with and replicates the most current maximum emergency ground ambulance rates that are identified through the Orange County Health Care Agency (OCHCA) EMS Policy and Procedures and approved through formal resolution by the Orange County Board of Supervisors.						
3	Significant motor vehicle accidents and/or heavy rescue responses will be billed/charged by an hourly rate for personnel which can be identified in the most recently adopted City of Costa Mesa Hourly Rate Determination Schedule and for apparatus and equipment as outlined in the OES state rates for equipment and apparatus.						
Pursuant to Government Code § 53150-53159, "Any person who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, whose negligent operation of a motor vehicle caused by the influence proximately causes any incident resulting in an appropriate emergency response, and any person whose intentionally wrongful conduct proximately causes any incident resulting in an appropriate emergency response, is liable for the expense of an emergency response by a public agency to the incident."							
California courts have required that the "incident" involved must be something more than a standard DUI stop and investigation. Usually, a public agency will only make a request for expense recovery under Government Code § 53150 where there has been a DUI collision or other similar type of event that required a significant emergency response. Under Government Code § 53155, a driver's liability is capped at \$12,000.							
In many cases following a DUI arrest involving an emergency response, the driver will receive a bill in the mail directly from the public agency requesting reimbursement for the emergency response. In other cases, the prosecution will make the reimbursement request directly from the Court as part of the DUI case. The prosecution will seek this amount as part of any DUI restitution that may be owed by the defendant.
