EXHIBIT A

FINDINGS

- A. Pursuant to CMMC Section 13-29(g), when granting an application for a conditional use permit, the review authority shall find that the evidence presented in the administrative record substantially meets required findings.

Finding: The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

Facts in Support of Findings: The subject site is located within a commercial zone (C1, Local Business District) where commercial development is specifically allowed to include retail uses. In addition, the property is located on one of the City's primary commercial corridors that is predominantly intended for commercial uses. Pursuant to the CMMC, cannabis retail storefronts are permitted uses in the C1 zone and are subject to extensive regulation. Additionally, the proposed cannabis retail storefront use is not located within 1,000 feet of a K-12 school, playground, licensed child daycare, homeless shelter, or youth center as defined in the CMMC.

As proposed and conditioned, the storefront would operate in a manner that is compatible with developments in the area. Proposed and conditioned storefront operations include limiting the hours of operation to the hours between 7 AM and 10 PM, posting signs in the parking lot directing customers to use consideration, having a security guard onsite, having a staff member periodically monitor the parking lot, limiting the hours the trash enclosure can be used, and shielding security lighting down and away from residences.

City records indicate that the subject site has been used for both commercial and residential uses since the 1950s or earlier. The most recent previous commercial uses include auto parts retail and automobile window tinting. Staff observed deferred property and building maintenance as well as several nonconforming conditions such as parking in required setbacks. If approved, the applicant would invest in significant site improvements, including bringing a commercial structure up to current building codes, adding landscaped planters and trees, constructing a parking lot to meet Code design standards, adding a bike rack, and replacing chain-link fencing with high quality fencing and walls. Staff does not anticipate that the proposed use, as proposed and conditioned, would be materially detrimental to properties in the area.

Finding: Granting the conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

Facts in Support of Finding: The proposed cannabis retail storefront has the potential to improve safety through a significant remodel that includes bringing

a commercial building up to current building codes, improving accessibility, replacing aging fencing and walls, adding security lighting, removing dilapidated structures, and removing parking from required setbacks and from encroaching into public rights-of-ways.

In addition, the proposed business would follow safety measures detailed in a professionally prepared security plan. The security plan was evaluated for compliance by the City's cannabis consultant, HdL. Measures designed to maintain safety at the site include, but are not limited to, security devices including window and door alarms, motion-detectors, limited access areas, and a monitored video surveillance system covering all exterior entrances, exits, exterior loading and unloading, and all interior limited access spaces. In addition, all employees must pass a live scan background check and obtain an identification badge from the City. The City and State requirements are designed to ensure that the proposed use would not be materially detrimental to the health, safety and general welfare of the public or be otherwise injurious to property or improvements within the immediate neighborhood.

Finding: Granting the conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

Facts in Support of Finding: The property has a General Plan land use designation of "Commercial Residential". The intent of this land use designation is to allow a mix of commercial and residential zones along Newport Boulevard. The use is consistent with General Plan policies related to providing a mixture of commercial goods, services, and employment opportunities; expanding the City's tax base; and promoting the incubation of specialized businesses. The City's General Plan sets forth long-term policies that guide future development, whereas the Zoning Ordinance implements general plan policies through detailed development regulations, such as specific use types and building standards. Therefore, in determining General Plan compliance for the proposed cannabis retail storefront use, a comparison of the proposed use with the use, density and intensity allowed by the applicable zoning district is required. In this case, the applicable zoning district is "Local Business District" (C1). A variety of commercial uses are allowed in the C1 zone, including a retail cannabis storefront, subject to a CUP. No additional square footage is proposed; therefore, the proposed use would not increase the floor area ratio (building intensity) or increase the number of residential units onsite (density).

- B. If considered for City Council approval, the project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301, for the permitting and/or minor alteration of Existing Facilities, involving negligible or no expansion of the existing or prior use. This project site contains existing structures that have been in continual commercial or residential use. The application does not propose an increase in commercial floor area or

otherwise expand the prior commercial use nor increase residential density. Furthermore, none of the exceptions that bar the application of a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies. Specifically, the project would not result in a cumulative impact; would not have a significant effect on the environment due to unusual circumstances; would not result in damage to scenic resources; is not located on a hazardous site or location; and would not impact any historic resources.

- C. The project is subject to a traffic impact fee, pursuant to Chapter XII, Article 3 Transportation System Management, of Title 13 of the Costa Mesa Municipal Code.
