# W 19TH STREET & WALLACE AVENUE

# W 19TH ST & WALLACE AVE TRAFFIC SIGNAL DESIGN

An aerial photograph of a street intersection. A green-painted bike lane runs vertically through the center, with white bicycle symbols and arrows. A pedestrian crossing with yellow diagonal stripes crosses the bike lane and the main road. White arrows on the road indicate traffic flow: left turn, through, and right turn. A person on a bicycle is in the bike lane, and a person is walking on the sidewalk to the right. The background shows a residential area with trees and a park.

## PROJECT BENEFITS - W 19<sup>th</sup> St at Wallace Ave

- ✓ New traffic signal will improve pedestrian mobility and promote safer crossings including Leading Pedestrian Intervals.
- ✓ Video detection will improve bicycle mobility and access.
- ✓ New concrete bulb-outs will enhance visibility, shorten pedestrian crossing distances, and encourage slower vehicle speeds.
- ✓ Project enhances pedestrian environment and promotes walking to retail shops and restaurants from nearby residential areas.
