Story Telling at It's Finest

The World of Theatre has begun bringing stories to life in every venue of our District. Our Theatre department has been working hard to make sure that our students and families have a diverse experience of storytelling.

From our classical productions like "The Tempest" and "Julius Caesar", to our modern productions. There is a unique story that moves, excites and humors those who sit in the seat to watch.

I thank our theatre teachers for their hard work and dedication to their craft. From working with students on stage and off, they really set a high bar for quality productions.

Do you hear what I hear?

For the first time in two years, parents will be allowed onto campus for our December concerts at the elementary school level. Our music teachers have been working extremely hard to ensure that our students a performance experience that is rich in learning and fun. Please join us at one of our events at our elementary sites for some holiday cheer.

In addition to school site concerts, our music team is involved in many musical events throughout the community. Please check out events on the "**Arts Events at a Glance**" for more details. regarding these events.
