Q1

Full Name:

Aaron Snyder

Q2

Active Transportation Committee

Indicate the name of the Committee/Commission you are interested in serving on:

Q3

Indicate why you wish to serve on this Committee/Commission. Provide any experience or qualifications you may possess that you think would be beneficial to this Committee/Commission. A resume (optional) may be attached.

The city of Costa Mesa is a wonderful city that I dream of raising a family in one day with my wife. It has been a dream of mine to call the city my home; now that is the case, I want to become involved in the community and give back to it. I have been in telecommunications and real estate development for 10 years. During that timeframe, I worked extensively with local jurisdictions in planning, permitting and government relations. I can take those experiences and cumulative background and share with the committee in an advisory capacity ideas about alleviating traffic/transportation issues in and around the community. My overarching goal is to alleviate traffic congestion while providing alternative transportation in and around the city, while preserving both residential neighborhoods and a growing commercial sector.

Q4

As a Committee/Commission member, what ideas or projects are of interest to you?

The city has taken a series of steps to begin developing wireless infrastructure throughout the city (small cell installations on new street light poles). I would like to continue that process especially in and around major arterial roadways on both new and existing street light poles and utility poles) and install smart traffic management systems. These systems are more responsive to traffic demand and are known to more quickly alleviate traffic congestion. In addition, I would like to install small cell installations and Wifi access points in and around bus stops, schools, libraries, etc. to allow individuals to more quickly access various applications to use buses or rideshare applications like Uber and Lyft. Providing city Wifi access points at certain public points will encourage the use of alternative transportation routes, that may lead to less cars on the road throughout each day. Other ideas I have is to continue the development of bike paths on non-arterial roadways going to and from the beaches and work to create a summer time trolley system that can take Costa Mesa Residents to and from the beaches (from city hall to the beach for example).

Q2

Active Transportation Committee

Indicate the name of the Committee/Commission you are interested in serving on:

Q3

Indicate why you wish to serve on this Committee/Commission. Provide any experience or qualifications you may possess that you think would be beneficial to this Committee/Commission. A resume (optional) may be attached.

I'm interested in updating our cities and communities to being safe walkable and bike-able places so that we can feel good and comfortable about raising children without feeling afraid.

Professionally, I work in the tech industry as an engineer, and spend a lot of time reading and editing technical documents, and discussing the minutiae of complex technical projects. I think this kind of planning and verbal ability will be useful in a local planning context.

At a previous company I worked on software to assist with Vision Zero projects, using traffic intersection cameras to measure flow through intersections and bike lanes, and to do before-and-after testing of various city planning improvements, asking questions like: How did adding this protected bike lane change traffic flow, or What are the busiest times of day for this particular intersection? While I don't expect to be writing software for the city of Costa Mesa, I do think it shows my interest in the area of transportation and safety.

I'm a new homeowner in Costa Mesa, and plan to have children soon. I want to live in a place that is safe and enjoyable to go for walks and take my kids to the park. I want to have a hand in making our physical surroundings more beautiful and enjoyable for all members of the community at all ages.

I want to become more involved in local government, to help shape my community in positive ways. Transportation in particular is an important area to me, and something which has been evolving quite quickly across the country. I think it's a place where we can make real tangible improvements to people's quality of life, and improve the experience and enjoyment of moving around our physical community.

Q4

As a Committee/Commission member, what ideas or projects are of interest to you?

Evaluating the safety of existing bike lanes, building protected bike lanes.

Exploring converting dangerous and high-collision intersections to roundabouts, or using other safety-improving features.

Installing pedestrian safety devices such as bulb outs and curb extensions where appropriate.

Exploring projects such as planting shade trees and creating car-free zones so that it's comfortable and inviting to walk places.

Learning about how local government functions, what the process is like, and making connections within the community.

Active Transportation Committee

Indicate the name of the Committee/Commission you are interested in serving on:

Q3

Indicate why you wish to serve on this Committee/Commission. Provide any experience or qualifications you may possess that you think would be beneficial to this Committee/Commission. A resume (optional) may be attached.

Why: I fervently believe in the need and community benefits proposed by our Bicycle Master Plan of 2017. However, much work and education remains for our citizens to fully enjoy all the potential benefits, thereof.

Qualifications: As a former adjunct university professor, I understand and appreciate that implementation is a complex process that requires vision, work, promotion, and education. As a educated pragmatist, I am prepared to commit my time and energy towards achieving the Plans goals.

Q4

As a Committee/Commission member, what ideas or projects are of interest to you?

Education: Utilize existing programs such as SafeMoves.org, as we did years ago.

Government grants: Explore, apply, and obtain any viable government grants.

Budget: If not already completed, conduct a Cost/Benefit analysis to help determine where and how our current funds may best be effectively utilized to obtain maximum efficiency and benefit to our citizens.

Indicate why you wish to serve on this Committee/Commission. Provide any experience or qualifications you may possess that you think would be beneficial to this Committee/Commission. A resume (optional) may be attached.

As an avid cyclist and father of three, I'd love to influence transit around the community. In my professional life, I have a history of strong presentation skills, negotiation, and development experience. I work for a technology company known for innovation, and look for ways to actively include that in my life and work.

Q4

As a Committee/Commission member, what ideas or projects are of interest to you?

I love anything related to cycling, and creating safe routes for families and solo riders alike.

Key Accomplishments:

Q12

Please share you background and experience or knowledge of the arts (visual and performing), arts education, arts administration and community outreach/engagement:

In college, I took numerous art history classes. I have also been lucky enough to travel to numerous art museums all throughout the US and Europe.

Q13

Why are you applying to be an Arts Commissioner for the city of Costa Mesa?

To help the Costa Mesa Art Community be protected and celebrated and to provide citizens of this city access to the arts.

Q14

Please share you vision for the arts in Costa Mesa:

I would love to see Costa Mesa be City where arts flourish. I think this would be a huge benefit not only to the art community but also to all the citizens of this City that art touches.

Q15

Please share your experience in producing and or participating in arts and multicultural programming:

Unfortunately, none. However, I love all forms of art and would love to help in anyway I can.

Q16

Please share any other relevant work experience, volunteer work, community activities or memberships:

I have uploaded my resume for my work and educational experience. I am also a volunteer for AYSO and have been for the last three of four years.

Q17

How did you hear about this opportunity?

I saw it online.

Optional Resume:

City of Costa Mesa
Application for Commission/Committee Appointment

All information on this page only, is considered public information and will be released to the public, including being posted on the City's website.

Name: **Jim Fitzpatrick**

Indicate the name of the Commission or Committee you are interested in serving on:

Active Transportation Committee

City of Costa Mesa
77 Fair Drive, Costa Mesa, CA 92626

1. Indicate why you wish to serve on this Commission/Committee. Provide any experience or qualifications you may possess that you think would be beneficial to this Commission/Committee. A resume (optional) may be attached. (Note: All information contained on the resume is public information, will be distributed to the public and posted on the City's website)

I love Costa Mesa and have been successful in achieving active transportation outcomes in our City. Not the activity of talking about it, but the actual accomplishment. Before I became a Planning Commissioner for 6 years, 2 of them as Chair, I worked 3 years to accomplish the City's first attempt at a "Complete Street". This project was the featured project of the year, demonstrating successful traffic calming measures, completing full length sidewalks, bike lanes and adding 40 new trees to the urban forest. Funded by Safe Routes to School. This after a decade of talk and no material action. I also petitioned the City to get SRTS funding to add a traffic signal and cross walk across Irvine Ave to Mariners Elementary, preventing children from going to 17th or 19th from jaywalking to school. There were many other little things like working with the community to repurpose an Estancia bike rack at Mother's Market. Getting many Eastside businesses to introduce bike racks to make their business a bike and walk destination.

As a Planning Commissioner, there are numerous accomplishments. Many subtle, like requiring the project at 1500 Adams that oriented to Harbor Blvd, but ignored the residential neighborhood to the rear, on Elm. The project was modified to include pedestrian access, bike access and a magnificent mural welcoming the community. I was the one who introduced the City Policy, to give credit for one parking space to any project who introduced a bike rack. Stuff like this was accomplished not by spending taxpayer money, but by providing incentives to private industry. I could go on and on.

I have a deep understanding of the City and important relationships that can help the ATC form and accomplish goals. Relationships with City Council, Commissioners, Business, Residents and leaders of our community.

I am watching the current ATC meeting now. There was just a discussion on Walk to School support. And a School in Newport Beach that our Eastside Costa Mesa kids attend, was not included. Because the school is in Newport Beach?

This is a passion issue that dove me to successfully petition for a signal cross walk across Irvine Ave.

2. As a Commission/Committee member, what ideas or projects are of interest to you?

I love Costa Mesa and am proud of my accomplishments. However, I am disappointed I did not achieve some important outcomes.

I focus energy on the kids and am appalled at the unsafe conditions of our Middle School and High School Students, riding their bikes to and from school. Westside kids headed to Ensign or Newport Harbor High School have to come a long distance, cross a dangerous Newport Blvd, and navigate challenging streets. Eastside kids have to come down Irvine Ave, Tustin Ave, all extremely busy streets that have had tragic results.

I would like to bring focus and energy to this important child safety issue necessity. With my relationships and tenacity, we can get this improved.

Connectivity is an issue in Costa Mesa. When I look at the Bike Routes Map, we have way too many paths to no where, that abruptly end, with no safe solution for last mile requirements.

I secured significant funding for the Paularino River Trail, against significant opposition, to study the issue. When I left the Commission, Staff removed the funding and it never got studied. Connectivity needs to.

Going North & South to the beach is achievable. Going East and West is a real safety issue.

Crossing Newport Blvd on a bike or a pedestrian is a real issue. Suggestions I am aware of do little for safety and often give a false sense of safety to pedestrians and those on bikes. We need real leadership to bring about necessary political will to get this complex issue improved.

I am a big fan of Active Transportation and look forward to shaping and implementing the goals of the Committee and working collaboratively with all involved. We need more community involvement.

Lastly, I want to be a voice and energy that balances goals of Active Transportation Committee initiatives with those of Property Rights and Business Interests.

I have attended the last several ATC meetings and I do not see these important balancing of interests.

We can implement policy and improvements that can and will work to improve our community.

I look forward to serving with fellow ATC members and members of our community.
