																		Plan Area has seen significant past ownership interest in conversion of existing commercial/light industrial/office into residential development with similar previous existing sites (including more than one-hundred multi-story residential loft units located immediately across 17 <sup>th</sup> Street). Further, one of the main objectives of the 19 West Urban Plan is to "encourage commercial/residential mixed-use development" with an emphasis on "vertical mixed-use development" (i.e., multi-story). Based on past local development trends and future allowed increases in residential density, It is conceivable and likely that the economic return of a residential use will encourage the ownership to redevelop the existing storage use into either residential or residential mixed-use (similar to adjacent properties) within the planning period.
