EXHIBIT A

FINDINGS

A. *Proposed Master Plan Amendments Findings*

The proposed project complies with the applicable Costa Mesa Municipal Code Section 13-29 (g) (5) Master Plan in that:

Finding: *The master plan meets the broader goals of the general plan, any applicable specific plan, and the Zoning Code by exhibiting excellence in design, site planning, integration of uses and structures and protection of the integrity of neighboring development.*

Facts in Support of Finding: The proposed Master Plan amendment is compliant with the City's applicable General Plan and the Zoning Code provisions. In addition, the new supermarket is similar to the previous use that occupied the space, and will enhance the integrity of the neighboring development based on façade upgrades and the added unique experiential amenities. Additionally and based on an engineered shared parking analysis for the shopping center, a surplus of on-site parking is available.

B. *Conditional Use Permit Findings*

The proposed project complies with the applicable Costa Mesa Municipal Code Section 13-29(g)(2) Conditional Use Permit in that:

Finding: *The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.*

Facts in Support of Finding: The proposed project includes a request for a conditional use permit to establish live entertainment as part of an eating establishment within a supermarket, as required pursuant to CMMC 13-47. As conditioned, the live entertainment would be compatible with developments in the same general area and would not be materially detrimental to other properties. The proposed 149- square-foot stage would be located within the approximate 69,000-square-foot building. The proposed stage would be activated occasionally and is subordinate to the primary market, and as conditioned, would not be incompatible with adjacent residential uses. The provision of live entertainment would be subject to the issuance and renewal of an annual live entertainment permit.

Finding: *Granting the conditional use permit or minor conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.*

Facts in Support of Finding: Although the project site is located within 200 feet of residentially zoned property, the proposed live entertainment stage would be located indoors and as conditioned shall comply with the City's noise ordinance. Furthermore, the existing block wall located between the shopping center and the residential-zoned uses to the east would remain and would continue to serve as a noise buffer. A condition has also been included to limit the live entertainment to indoors only within the designated stage area. All activities, with the exception of the outdoor dining patio would be conducted underroof and inside the tenant suite. Lastly, conditions of approval have been included to ensure the use (including the live entertainment) operates in a manner that would allow the quiet enjoyment of the surrounding neighborhood.

Finding: Granting the conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

Facts in Support of Finding: A grocery market with outdoor dining is a commercial use consistent with the General Commercial land use designation of the General Plan and the proposed live entertainment would not increase density or intensity. General Commercial uses are intended to provide a wide range of goods and services to meet the needs of residents as well as the regional neighborhoods.

C. **Minor Conditional Use Permit Findings**

The proposed project complies with the applicable Costa Mesa Municipal Code Section 13-29(g)(2) Minor Conditional Use Permit in that:

Finding: The proposed development or use is substantially compatible with developments in the same general area and would not be materially detrimental to other properties within the area.

Facts in Support of Finding: The proposed project includes a minor conditional use permit request for outdoor dining. The outdoor dining patio area is located within an existing multi-tenant commercial center and is compatible with the general area. As conditioned, the outdoor dining will operate with minimal impact on surrounding properties and uses in that adequate amount off-street parking will be provided on the project site and would be shared amongst all tenants of the "Harbor Center". Conditions of approval, based on expert recommendations are also included to monitor/attenuate potential noise and parking impacts. Therefore, the proposed use will not be detrimental to the surrounding area.

Finding: Granting the minor conditional use permit will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood.

Facts in Support of Finding: The proposed outdoor dining patio area improvements will not be materially detrimental to the health, safety and general welfare of the public or otherwise injurious to property or improvements within the immediate neighborhood. The proposed use, as conditioned, would not generate adverse noise, traffic, or parking impacts that are unusual for commercially zoned properties. Only low-level ambient noise is permitted in the patio areas and will be consistent with the local ambient noise of traffic.

Finding: Granting the minor conditional use permit will not allow a use, density or intensity which is not in accordance with the general plan designation and any applicable specific plan for the property.

Facts in Support of Finding: The proposed outdoor dining patio, as conditioned, is consistent with the intent of the City's Zoning Code and General Plan "General Commercial" land use designation for the property. Additionally and based on an engineered shared parking analysis for the shopping center, a surplus of on-site parking is available.

D. **Finding of Public Convenience or Necessity (PCN)**

Pursuant to Section 23958.4 of the Business and Professions Code (BPC), the governing body of a local jurisdiction has the authority to determine PCN findings. In accordance with City Council Policy number 500-8, the Planning Commission may make a finding of public convenience or necessity as required before the State can issue an on-sale or off-sale license for the establishment.

As indicated above in this report, the Public Convenience or Necessity can be determined because the operation of the supermarket would be consistent with the requirements of the Zoning Code and the General Plan. Further, the Police Department has reviewed the request and has no objections. Additionally, the licenses provide a convenience to customers without impacting the surrounding uses. Lastly, similar alcohol licenses were previously approved under the prior tenant with no neighborhood or surrounding commercial use impacts.

- E. The project is categorically exempt from the provisions of CEQA pursuant to CEQA Guidelines Section 15301 (Class 1) for the permitting and/or minor alteration of Existing Facilities and Section 15303 (Class 3), New Construction and Conversions of Small Structures. This project will occupy an existing building and proposes minor exterior modifications including adding outdoor dining areas. No increase in building square footage is proposed, and the site is considered previously disturbed and without environmental resources. The project is consistent with the applicable General Plan designation and all applicable General Plan policies as well as with applicable zoning designation and regulations. Furthermore, none of the exceptions that bar the application of a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies. Specifically, the project would not result in a cumulative impact; would not have a significant effect on the environment due to unusual

circumstances; would not result in damage to scenic resources; is not located on a hazardous site or location; and would not impact historic resources.

- F. The project is subject to a traffic impact fee, pursuant to Chapter XII, Article 3 Transportation System Management, of Title 13 of the Costa Mesa Municipal Code.
